IV. Other matters that require additional description	132
V. Situations Listed in Article 36, Paragraph 2, Subparagraph 2 of the Securities and Exchange Act Which Might Materially Affect Shareholders' Equity or the Price of the Company's Securities Occurring During the Most Recent Fiscal Year and up to the Date of Publication of the Annual Report	132

Chapter 1 Letter to Shareholders

Dear shareholders:

In 2024, the global economy continued to face significant challenges. Although central banks in various countries have begun adjusting their monetary policies, the market was still affected by the prevailing high-interest rate environment. The intensification of the U.S.-China trade conflict and technological competition, combined with ongoing geopolitical risks—including the Russia-Ukraine war and instability in the Middle East—continued to disrupt global supply chains and affect end-market demand. The pace of recovery in manufacturing industries varied by country, prompting companies to adjust their demand for high-performance storage devices accordingly. Under this environment, Infortrend's consolidated operating revenue for the year ending December 31, 2024, was NT\$1.32 billion, reflecting a slight decrease of 5.11% compared to the year ending December 31, 2023. The net profit after tax was NT\$606 million, an increase of NT\$365 million year-on-year. The earnings per share is NT\$2.22, an increase of NT\$1.34 compared to the year ending December 31, 2023.

In the past year, Infortrend has continued to launch competitive storage products, especially for high-end applications such as high-performance computing (HPC) and artificial intelligence (AI). Our GS 5000 storage product was successfully launched, offering a comprehensive range of U.2 SSD and HDD products, and significantly enhancing performance. With up to 1.3M IOPS, 50GB/s read, and 20GB/s write speeds, the GS 5000 can fully meet the demanding needs of AI and HPC applications for high-capacity and high-performance storage, enabling Infortrend to gain a foothold in the high-end storage market. In addition, for applications that require higher performance, Infortrend continues to develop the GSx parallel file storage system, which provides high-performance, high-capacity and highly scalable file system solutions by enabling parallel access to data distributed across multiple devices. To boot, in response to the increasingly popular SSD technology, on top of launching GS U.2 high-end storage devices, we have also launched U.2 JBOF expansion cabinets, paired with cost-effective QLC SSDs, significantly increasing storage space and providing customers with more diverse solutions.

The rapid development of artificial intelligence has resulted in the widespread adoption of related applications, which in turn has driven a continuous increase in the demand for servers and storage devices. Infortrend is an active player in this field and, leveraging its core storage technology, has launched comprehensive solutions that integrate servers, storage, and software based on core storage technologies to address the diverse needs of various applications and industries, assisting enterprises in the rapid development of AI applications. Through our innovative technologies and products, enterprises can respond more effectively to the challenges of the AI era, enhance operational efficiency, and seize market opportunities.

Infortrend relentlessly strives to provide high-performance, high reliability, and high scalability enterprise level storage solutions, and improve user deployment efficiency and data security through diverse model selection, flexible host interface support, and complete data management software. Our complete suite of products offers the most suitable solutions based on application scenarios and budget requirements, assisting enterprises in addressing the challenges of explosive data growth and digital transformation.

Founded in 1993, Infortrend Technology has become a leading brand in the global enterprise storage market by virtue of our independent research and development of core technologies, vertically integrated production and customer-oriented product strategy. The solutions Infortrend provides are widely utilized in small and medium-sized enterprises, government agencies, multinational corporations, and financial institutions, delivering stable and high-performance data storage support across diverse industries.

Looking ahead to the year 2025, the volume of global data generation is expected to continue rising, prompting enterprises to elevate their demand for the performance, scalability, and total cost of ownership (TCO) optimization of storage devices. Infortrend will continue to develop innovative technologies to enhance product competitiveness and expand our application portfolio in areas such as AI, HPC, and cloud computing. We adhere to the business philosophy of "Professionalism, Innovation, and Stability" to provide our clients with optimal storage solutions, jointly embracing the new challenges and opportunities of the digital era.

I Operating Report for 2024

(I) Results of operations based on business plan

Unit: NT\$ thousands; %

Item	2024	2023	Increase (Decrease)	Change in percentage
Consolidated operating revenue	1,319,852	1,390,974	(71,122)	(5.11%)
Consolidated gross profit	667,494	710,791	(43,297)	(6.09%)
Consolidated net profit before tax	660,455	287,604	372,851	129.64%
Consolidated net profit after tax	606,135	241,446	364,689	151.04%

(II) Budget execution status

The Company has not prepared a financial forecast for the year 2024.

(III) Profitability analysis

Item		2024	2023
Return of assets		9.32%	4.18%
Return on equity		13.69%	5.78%
Paid-up capital	Net operating income	5.83%	7.26%
	Pre-tax profit	24.14%	10.51%
Profit margin		45.92%	17.36%
Earnings per share		2.22 元	0.88 元

(IV) Research and development status

In the past year, Infortrend has continued to increase investment in R&D and dedicating efforts to technological innovation and product upgrading, which not only strengthens our competitiveness in the storage market but also establish a robust foundation for the company's long-term development. In terms of hardware, in response to the growing market demand for high-performance storage solutions, we proactively adopted the latest hardware platforms to develop a range of products equipped with leading-edge technology. We specifically introduced a range of devices featuring various form factors, including a 90-bay high-density storage solution, to address the requirements of diverse application scenarios. These products have achieved new milestones in both capacity and performance.

In terms of software, Infortrend has similarly made significant advancements. We introduced a range of new features and ceaselessly optimized our software for vertical markets and applications, significantly enhancing the performance of our products. Additionally, we focus on enhancing the user experience by simplifying the user interface and providing more intuitive UI design, ensuring that customers can easily get started and use our products efficiently. To boot, we reinforced the flexibility and scalability of our software to facilitate seamless adaptation to various application environments and thereby increasing the overall value of the solution.

These R&D achievements not only demonstrate Infortrend's continued leadership in the field of technology but also provide solid support for the company to explore more market opportunities. Looking ahead, we will continue to strengthen our innovations in both hardware and software, introducing more diverse and efficient storage solutions to meet the market's demand for high capacity and high performance, while creating greater value for our shareholders.

II Outline of 2025 Business Plan

(I) Business strategies

1. High-Performance Storage System

Infortrend will continue to launch leading high-performance storage systems, equipped with high-speed U.2 SSDs and large-capacity HDDs, to meet the application needs of artificial intelligence, high-performance computing, and multimedia. The next-generation storage system will offer access speeds of up to 100GB/s, and will combine with network technologies such as RDMA, NVMe over Fabrics (NVMe-oF) and Ethernet 200Gbps to achieve higher performance and lower latency data transmission, further optimizing data processing in related application environments. Additionally, through horizontal expansion and vertical scaling technologies, Infortrend's solutions can flexibly meet the needs of different enterprises, offering high scalability and flexibility.

2. AI-Related Products

Riding the AI wave, Infortrend will continue to develop Infortrend Enterprise Cloud (IEC), a private cloud solution designed for enterprise users, to provide powerful computing and storage resources to meet the diverse application needs of enterprises. The platform supports both legacy and cloud-native applications, offering a high degree of flexibility. Through Kubernetes, enterprises can efficiently run and manage containerized applications, with built-in virtualization capabilities that allow users to build virtual machines (VMs) and install the required operating systems and applications. In addition, the platform supports GPU acceleration, significantly boosting computational efficiency and making it particularly suitable for enterprise scenarios that require high-performance computing. Overall, the Enterprise Cloud Platform simplifies the enterprise's device construction process, reduces operating costs, and provides enterprises with a stable and scalable cloud infrastructure to help them achieve digital transformation and innovative development.

3. Comprehensive services and training programs

To assist customers in the proper use of our products and to maximize their value, we have developed comprehensive training materials and product selection criteria for various solutions. This ensures that distributors possess a thorough and clear understanding of product performance, application scenarios, and operational methods. This not only helps distributors promote products more effectively but also allows customers to achieve the best experience in practical applications. On top of that, we offer a diverse range of product/service offerings, including extended warranties, early exchange and repair, personalized consultations, and on-site services, so that customers receive immediate support under all circumstances. These services are designed to

quickly resolve customers' intractable problems, reduce equipment downtime, and improve overall usage efficiency. Through these measures, we elevate customer satisfaction over and above establishing long-term trust relationships, strengthening customer loyalty, and further consolidating the brand's competitive advantage in the market. This approach creates a win-win situation for both customers and the company.

(II) Sales volume forecast and basis

Product type	Sales
RAID controller and system	46,140 units
Total	46,140 units

Based on the industrial environment and market supply and demand conditions, and with reference to estimates from various research institutions, it is expected that the disk industry will be affected this year.

The sales volume of array controllers and systems reached 46,140 units, reflecting an increase of 3,415 units compared to the 42,725 units sold in the previous year.

(III) Key production and sales policy

We will streamline the supply chain management system to comprehensively enhance Infortrend's operational efficiency and competitiveness. In terms of sales, the system aims to reduce delivery times, ensuring that products are delivered to customers promptly, thereby boosting customer satisfaction and market responsiveness. In terms of production, by strengthening the procurement process and supplier management, the system effectively improves production efficiency and product quality and ensures that every aspect can meet high standards. Furthermore, the system closely monitors international trends, effectively planning, executing, and controlling the movement and storage of inventory. This facilitates the seamless integration of various processes, including sales and production forecasting, material preparation, orders, and delivery, thereby fulfilling the operational requirements of Infortrend. The establishment of a global logistics management framework enables the system to continuously reduce costs while enhancing product competitiveness. This bolsters Infortrend's efforts to maintain a leading position in the international market and achieve long-term, stable growth objectives.

III Future Development Strategies

1. Enhancing brand awareness and market influence: we will enhance brand visibility through a variety of marketing strategies. Firstly, we regularly publish press releases and electronic direct mails (eDM) to convey the latest product information and solutions to target users, so that more users can be conscious and understand the advantages and application value of Infortrend's products. Secondly, by sharing

successful case studies and practical application experiences, we demonstrate how Infortrend's products effectively tackle the challenges enterprises encounter in storage, thereby enhancing users' confidence and trust in these products. For good measure, we will collaborate closely with our distribution partners to organize product briefings and introductory events, providing an in-depth explanation of the advantages and features of Infortrend's products, thereby helping users gain a more comprehensive understanding of the product's value. These strategies can not only enhance brand image, but also expand market penetration, creating more business opportunities and growth momentum for Infortrend.

2. Vertical market support: in response to the diverse data storage needs of various vertical markets, Infortrend Technology offers customized solutions designed to fulfill the performance requirements of diverse application scenarios. For instance, virtual machines and database applications demand high Input/Output Operations Per Second (IOPS), whereas high-performance computing and media entertainment require high throughput. To this end, Infortrend Technology has implemented differentiated development in product design to ensure that each product meets the specific needs of its target market. In addition, Infortrend Technology offers comprehensive solutions and detailed testing reports that demonstrate the exceptional performance of its products across various industries. At the same time, Infortrend collaborates with VMware and Veeam, among other renowned software vendors, for certification to ensure the compatibility and stability of its products across diverse application environments. Over and above enhancing the market competitiveness of our products, these efforts have also provided customers with reliable and efficient storage solutions to help enterprises achieve digital transformation and business growth.

IV The Impact of the External Competitive Environment, Regulatory Environment, and Macroeconomic Conditions

As a global leader in the supply of storage devices, Infortrend endeavors to provide innovative and efficient storage solutions for a diverse range of enterprises and government agencies. With the rapid advancement of technology, particularly in the fields of big data and artificial intelligence, the explosive growth of data volume has led to increasing demands from enterprises for the capacity and performance of storage systems. In response to this development trend, Infortrend Technology will continue to innovate by launching high-density storage devices and more efficient all-flash storage products. Additionally, we will optimize relevant solutions to meet the increasingly complex application demands across various vertical markets.

To ensure the sustainable development of the company, Infortrend focused on the green design and energy efficiency of its products, continuously drove the research and

development of low-energy technologies and launched innovative power solutions that meet the international Eco-design standards and EU Lot 9 power efficiency requirements. These measures not only demonstrate our commitment to environmental protection, but also demonstrate our ceaseless investment in improving energy efficiency and reducing carbon footprint.

Infortrend Technology will continue to enhance R&D capabilities, develop new products in line with current trends, and strengthen brand recognition. We hope to create a wonderful future with our partners.

We hope that all shareholders will continue to support and care for us just like in the past and continue to participate in the future development of Infortrend Technology. Thank you.

We hereby wish all our shareholders
good health and all the best.

Infortrend Technology Inc.

Note 1: President of the Company and legal representative of Infortrend Corporation, Infortrend Europe Ltd, Infortrend Deutschland GmbH., Director of Infortrend Shanghai Limited, Director of Infortrend Japan Inc., and Director of Prophet Technology Inc.

Note 2: Vice President of the Company and Director of Infortrend Shanghai Limited.

Note 3: Assistant Manager of the Pan-Asia Pacific Division of the Company.

Note 4: If the chairperson, president, or person holding an equivalent position (top executive) are the same person, spouses or first-degree relatives, the reason, reasonableness, necessity and future improvement measures shall be explained:

According to the size of the Company and the distribution of shares held by shareholders, the Chairman and President can improve the operating efficiency and decision-making execution. In addition to fully communicating with the Board of Directors and independent directors about the Company's operational status and planning policies, the Chairman can strengthen the supervisory function of the Board of Directors with the existing four independent directors. The specific measures the Company has taken so far:

1. The four current independent directors possess expertise in financial accounting, electronics, and finance among other fields, enabling them to effectively exert their supervisory functions.
2. Arrange professional director courses for directors every year to improve the operational efficiency of the Board of Directors.
3. Independent directors can fully discuss and understand the operation of the Company in each functional committee to implement corporate governance.

2. Professional qualifications and independence status of directors:

Qualification Name	Professional qualification and experience	Conformity to independence	Number of other public companies where the individual concurrently serves as an independent director
Lo, Shih-Tung	Founder and President of the Company. Had a background in software development before the Company was founded. Not under any of the circumstances stated in Article 30 of the Company Act.		None
Chen, Li-Wei	Vice President of Quality Assurance and Manufacturing Division, joined the company in 2005. Holds a Master's degree from University of Pittsburgh, USA and formerly a Senior Manager at MSI. Not under any of the circumstances stated in Article 30 of the Company Act.		None
Sung, Chun-Tsai	Associate Manager of the Pan-Asia Pacific Department, joined the company in 2010. Holds a Master's degree from Da-Yeh University and previously served as a Senior Manager at Chiao-Ting Information. Not under any of the circumstances stated in Article 30 of the Company Act.		None
Chen, Liang-Yin	Holds a Bachelor's degree from Finance and Taxation Department of National Chung Hsing University. Serves as Partner at Yuan Fu Certified Public Accountants since 1999. Not under any of the circumstances stated in Article 30 of the Company Act.	Neither the director, their spouse, nor any relatives within the second degree of kinship fall under the following circumstances: 1. Serving as a director, supervisor or employee of the Company or its affiliated enterprises. 2. Holding shares of the Company. 3. Serving as a director, supervisor or employee of a company with which the Company has a specific relationship. 4. Provide business, legal, financial, accounting and other services to the Company or its affiliates.	None
Sun, Kuang-Wei	Master's degree in financial management, University of Memphis, Tennessee. Previous appointments: Finance Commissioner of Hotai Motor Co., Ltd, Deputy Assistant Director of Walsin Lihwa Co., Ltd, Head of Audit of Lite-On Technology, Finance Manager of Career Technology Mfg. Co., Ltd, Chief Financial Officer of C.C.P Contact Probes Co., Ltd. Currently serving as Chief Financial Officer of	Neither the director, their spouse, nor any relatives within the second degree of kinship fall under the following circumstances: 1. Serving as a director, supervisor or employee of the Company or its affiliated enterprises. 2. Holding shares of the Company. 3. Serving as a director, supervisor or employee of a company with which the Company has a specific relationship.	None

Qualification Name	Professional qualification and experience	Conformity to independence	Number of other public companies where the individual concurrently serves as an independent director
	Chilisin Electronics Corp. Not under any of the circumstances stated in Article 30 of the Company Act.	4. Provide business, legal, financial, accounting and other services to the Company or its affiliates.	
Hou, Pin-Yu	Bachelor's degree from Accounting Department, Soochow University Previously served as an auditor at PricewaterhouseCoopers and as an audit manager at KPMG Taiwan. Currently serving as CPA at Huaruei United CPAs since 2018. Not under any of the circumstances stated in Article 30 of the Company Act.	Neither the director, their spouse, nor any relatives within the second degree of kinship fall under the following circumstances: 1. Serving as a director, supervisor or employee of the Company or its affiliated enterprises. 2. Holding shares of the Company. 3. Serving as a director, supervisor or employee of a company with which the Company has a specific relationship. 4. Provide business, legal, financial, accounting and other services to the Company or its affiliates.	None
Huang, Chi-Chao	Master's in Electrical Engineering, National Taiwan University of Science and Technology. Joined Mega International Commercial Bank (formerly known as Chiao Tung Bank) since 1984 and retired in 2023 as the Branch Deputy Manager. Not under any of the circumstances stated in Article 30 of the Company Act.	Neither the director, their spouse, nor any relatives within the second degree of kinship fall under the following circumstances: 1. Serving as a director, supervisor or employee of the Company or its affiliated enterprises. 2. Holding shares of the Company. 3. Serving as a director, supervisor or employee of a company with which the Company has a specific relationship. 4. Provide business, legal, financial, accounting and other services to the Company or its affiliates.	None

3. Diversity and independence of the Board of Directors:

(1) Diversity of the Board of Directors:

In accordance with Paragraph 2 of Article 20 of the Company's Code of Practice on Corporate Governance, the members of the Board of Directors shall generally have the necessary knowledge, skills and manner to perform their duties; in order to achieve the desired goals of corporate governance, the Board of Directors shall have eight abilities as a whole, including operational judgment, accounting and financial analysis, operational management, crisis

management, industry knowledge, international market view, guidance and decision-making. With the professional qualifications and experience of the directors and independent directors in the above table, their respective contributions of expertise and experience should have a multiplier effect for the Board and in turn, contribute to the overall operations.

Our Company employs a candidate nomination system. In nominating directors, in addition to considering the overall capabilities required of the Board as previously described, the primary considerations are the candidates' professional experience and the specialized knowledge and skills needed by the company (such as product technology, industry trends, and financial economics). Gender is not a primary consideration. Currently, of the seven members of the Board of Directors, only one is female.

In the future, in addition to the professional knowledge required by the Company, females will be given priority under the same conditions to achieve the goal of gender diversity on the Board of Directors.

(2) Independence of the Board of Directors:

The current Board of Directors of the Company consists of seven directors, comprising four independent directors and three non-independent directors, all of whom are distinguished members of the industry-academia community.

The directors of the Company are not related as spouse or second-degree kinship. After being nominated, the directors have also been reviewed by the relevant departments of the Company to confirm that there is no circumstance stipulated in items 3 and 4 of Article 26-3 of the Securities and Exchange Act.

Note 1: Legal representative of Infortrend Corporation, Infortrend Europe Ltd, Infortrend Deutschland GmbH., Director of Infortrend Shanghai Limited, Director of Infortrend Japan Inc., and Director of Prophet Technology Inc.

Note 2: Director of Infortrend Shanghai Limited.

Note 3: Director of Infortrend Japan Inc. and Director of Prophet Technology Co., Ltd.

Note 4: If the chairperson, president, or person holding an equivalent position (top executive) are the same person, spouses or first-degree relatives, the reason, reasonableness, necessity and future improvement measures shall be explained:

According to the size of the Company and the distribution of shares held by shareholders, the Chairman and President can improve the operating efficiency and decision-making execution. In addition to fully communicating with the Board of Directors and independent directors about the Company's operational status and planning policies, the Chairman can strengthen the supervisory function of the Board of Directors with the existing four independent directors. The specific measures the Company has taken so far:

1. The four current independent directors possess expertise in financial accounting, electronics, and finance among other fields, enabling them to effectively exert their supervisory functions.
2. Arrange professional director courses for directors every year to improve the operational efficiency of the Board of Directors.
3. Independent directors can fully discuss and understand the operation of the Company in each functional committee to implement corporate governance.

II Remuneration Paid During the Most Recent Fiscal Year to Directors, Supervisors, President, and Vice Presidents:

(I) Remuneration to Directors, Supervisors, President, and Vice Presidents:

1. Remuneration to General Directors and Independent Directors

For the year ending December 31, 2024/Unit: NT\$ thousands

Title	Name	Remuneration to Directors								Total compensation (A+B+C+D) and its ratio to net income (%)		Relevant remuneration received by directors who are also employees								Total compensation (A+B+C+D+E+F+G) and its ratio to net income (%)		Compensation paid to directors from an invested company other than the Company's subsidiaries

1. The policy, system, standard and structure for the payment of remuneration to independent directors, and with a description of its relevance to the amount of remuneration paid in terms of the responsibilities, risks and time commitment involved: The remuneration to independent directors of the Company includes salary and travel expenses. Salary is determined according to individual positions and roles and is approved by the Remuneration Committee. It is paid monthly regardless of the Company's profit or loss; travel expenses are paid on a monthly basis according to the circumstances of participating in the Board of Directors and shareholders' meetings. Additional explanations are provided on pages 19 and 20. 2. Except as disclosed in the above table, the remuneration received by directors for providing services in the most recent year (such as serving as a consultant for non-employees of the parent company/all companies listed in the financial report/reinvestment enterprises, etc.): None.																						

Note 1: On March 6, 2025, the Board of Directors approved the provision of directors' remuneration and employee remuneration, but the actual distribution has not yet been made, so it is estimated with reference to previous years.

Note 2: Stepped down on June 14, 2024.

Note 3: Newly appointed on June 14, 2024.

4. Name and distribution of employee compensation to managerial officers:

For the year ending December 31, 2024/Unit: NT\$ thousands

	Title	Name	Stock amount	Cash amount	Total	Ratio of total amount to net income
Managerial officer	President	Lo, Shih-Tung	0	5,000	5,000	0.82%
	Vice President	Chen, Li-Wei				
	Assistant Manager	Liu, Shu-Hua				
	Assistant Manager	Hung, Ching-Hai				
	Assistant Manager	Chan, Chih-Chung				

Note: On March 6, 2025, the Board of Directors approved the provision of employee remuneration, but the actual distribution has not yet been made, so it is estimated with reference to previous years.

(II) Analysis of remuneration and compensation paid to Directors, Supervisors, President and Vice Presidents by the Company and all companies in the consolidated financial statements during the most recent two fiscal years as a percentage of net income in the parent company only or consolidated financial statements: remuneration policies, standards, and packages, procedure for determining remuneration, and linkage thereof to operating performance and future risk exposure:

1. Analysis of remuneration and compensation paid to Directors, Supervisors, President and Vice Presidents by the Company and all companies in the consolidated financial statements during the most recent two fiscal years as a percentage of net income in the parent company only or consolidated financial statements:

Unit: NT\$ thousands

Title	2023				2024			
	Remuneration		As a percentage to net income (%)		Remuneration		As a percentage to net income (%)	
	The Company	All companies in the consolidated financial statements	The Company	All companies in the consolidated financial statements	The Company	All companies in the consolidated financial statements	The Company	All companies in the consolidated financial statements
Director (remuneration and compensation)	2,798	2,798	1.16%	1.16%	2,820	2,820	0.47%	0.47%
President and Vice Presidents (salary and bonus)	14,045	14,045	5.81%	5.81%	12,745	12,745	2.74%	2.74%

2. Remuneration policies, standards, and packages, procedure for determining remuneration, and linkage thereof to operating performance and future risk exposure:

2-1 Remuneration policies, standards, and packages

Directors' compensation: In the event of a profit for the current fiscal year, director remuneration will be distributed in accordance with Article 21 of the Company's Articles of Incorporation, with a maximum limit of 0.5%.

Remuneration for independent directors: Independent directors are not involved in the distribution of director remuneration. The remuneration for independent directors consists of a fixed salary and transportation expenses. The fixed salary is paid monthly, irrespective of the Company's profitability. Transportation expenses are reimbursed at a fixed amount after attending the respective Board of Directors meeting and shareholders' meeting.

Salary and bonus of managers: The Company clearly stipulates that employee remuneration includes salary, various allowances, bonuses, and employee compensation. This is done to show appreciation and reward employees for their efforts in their work. The allocation of bonuses is dependent on the Company's annual operating conditions, departmental performance, and individual work performance. Furthermore, if the Company generates a profit in a given year, at least one percent will be allocated as employee remuneration in accordance with Article 21 of the Company's Articles of Incorporation.

2-2 Procedure for determining remuneration:

Director: The total amount of director remuneration, as specified in the Company's Articles of Incorporation, is distributed to each general director based on the weighting assigned to the evaluation criteria outlined in the Measures for the Evaluation of the Performance of the Board of Directors and the various assessments (number of board meetings attended, the duration of serving as a director, and the suggestions made during board meetings) established by the Company.

Independent Director: The remuneration of independent directors is proposed by the Remuneration Committee and submitted to the Board of Directors for discussion and approval.

The amounts are paid monthly regardless of the Company's profit or loss.

Managers: The remuneration for the Company's managers is determined by the Remuneration Committee, which considers the performance metrics of each manager and compares them with twenty companies, including Wistron, Advantech, and the Company,

based on indicators such as annual total compensation and annual earnings. The proposed total annual bonus amount for managers is then submitted to the Board of Directors for discussion and approval.

The Company further disburses payments within the allocated budget based on the evaluation results conducted according to the Performance Management Guidelines applicable to managers and employees.

The performance evaluation criteria for each manager encompass (1) common indicators: the achievement of revenue targets and overall financial performance and operational results and (2) individual indicators: except the President, who is guided by the Company's core values and management capabilities, the other managers are guided by the performance objectives related to their job responsibilities.

2-3 Relationship between operational performance and future risks:

- (1) The review of the Company's remuneration policy related to payment standards and systems is primarily based on the overall operational status of the Company. It considers factors such as achievement rate of performance and level of contribution to determine payment standards, aiming to enhance the overall organizational effectiveness of the Board of Directors and various departments. Furthermore, industry salary benchmarks are referenced to ensure that the remuneration for the management level of the Company remains competitive within the industry, thereby retaining outstanding management talent.
- (2) The important decisions made by the management level of the Company are made after balancing various risk factors. The performance of these decisions reflects the profitability of the Company, linking the compensation of the management level to the effectiveness of risk management.

III Implementation of Corporate Governance:

(I) Board of Directors:

The Board of Directors convened seven (A) Board meetings for the most recent year (January 1 to December 31, 2024). The attendance of the **two board meetings** for the 10th term Board of Directors and **five board meetings** for the 11th term Board of Directors are as follows:

Title	Name	Attendance in person (B)	Attendance by Proxy	Attendance rate (%) (B/A) (Note)	Remarks
Chairman	Lo, Shih-Tung	7	0	100%	Reappointment (Election Date: June 14, 2024)

Title	Name	Attendance in person (B)	Attendance by Proxy	Attendance rate (%) (B/A) (Note)	Remarks
Director	Lee, Tse-Han	2	0	100%	Stepped down on June 14, 2024
Director	Chen, Li-Wei	7	0	100%	Reappointment (Election Date: June 14, 2024)
Director	Sung, Chun-Tsai	5	0	100%	Newly appointed on June 14, 2024
Independent Director	Chung, Chin-He	2	0	100%	Stepped down on June 14, 2024
Independent Director	Hou, Ruey-Fu	2	0	100%	Stepped down on June 14, 2024
Independent Director	Chen, Liang-Yin	7	0	100%	Reappointment (Election Date: June 14, 2024)
Independent Director	Sun, Kuang-Wei	7	0	100%	Reappointment (Election Date: June 14, 2024)
Independent Director	Hou, Pin-Yu	5	0	100%	Newly appointed on June 14, 2024
Independent Director	Huang, Chih-Chao	5	0	100%	Newly appointed on June 14, 2024

※ The attendance status of the Independent Directors for the year ending December 31, 2024, are as follows:

◎: Attendance in person; ※: Attendance by proxy; *: Absent

2024	1st	2nd	3rd	4th	5th	6th	7th
Chung, Chin-He	◎	◎					
Hou, Ruey-Fu	◎	◎					
Chen, Liang-Yin	◎	◎	◎	◎	◎	◎	◎
Sun, Kuang-Wei	◎	◎	◎	◎	◎	◎	◎
Hou, Pin-Yu			◎	◎	◎	◎	◎
Huang, Chih-Chao			◎	◎	◎	◎	◎

Other matters that should be recorded:

- I. With regard to the operation of the Board, if any of the following circumstances occur, the dates, terms of the meetings, contents of motions, all Independent Directors' opinions and the Company's handling of such opinions shall be specified:
 - (I) Matters listed in Article 14-3 of the Securities and Exchange Act: Please refer to the operation of the Audit Committee in this annual report. All independent directors participated in the Board meeting regarding matters listed under Article 14-3 of the Securities and Exchange Act in 2024, and there were no objections. The resolutions were passed accordingly.
 - (II) Except for items specified above, other resolutions on which an Independent Director expresses objection or reservation, either by recorded statement or in writing: None.
- II. Regarding recusals of Directors from voting due to conflicts of interests, the names of the Directors, contents of motions, reasons for recusal, and results of voting shall be specified: None.
- III. Board assessment: The Company has completed the performance evaluation of the Board of Directors and functional committees for 2024 in the first quarter of 2025 and will submit the evaluation results to the Board of Directors for the second quarter of 2025.
Assessment Cycle: Annually.
Assessment period: January 1, 2024, to December 31, 2024.

Scope of assessment	Assessment methodology	Scope of assessment	Result
Performance assessment on the Board	Self-assessment by the Company	I. Level of participation in corporate operations. II. Elevate the quality of Board decisions. III. Composition and structure of the Board. IV. Election and continuing education of Directors. V. Internal control.	The performance evaluation indicators for the Board of Directors encompass five major dimensions, totaling 45 indicators. The evaluation results are as follows: "Excellent (5)" 26.7%, "Good (4)" 55.6%, and "Average (3)" 15.6%. This indicates that the Board of Directors has fulfilled its responsibilities of guiding and supervising the Company's strategy, major business and risk management, and has established an appropriate internal control system. Overall, the operational situation is sound and meets the requirements of corporate governance.
Performance assessment on individual board members	Self-assessment by the director	I. Command over corporate goals and mission. II. Understanding of directors' duties. III. Level of participation in corporate operations. IV. Internal relationship management and communication. V. Specialty and continuing education of Directors. VI. Internal control.	The performance evaluation indicators for board members encompass six major dimensions, totaling 23 indicators. The evaluation results are as follows: "Excellent (5)" 59.6%, "Good (4)" 37.3%, and "Average (3)" 3.1%. This indicates that the board members have effective control over most of their responsibilities.
Performance assessment on Audit Committee and Remuneration Committee	Self-assessment by the Company	I. Level of participation in corporate operations. II. Understanding of functional committees' duties. III. Enhancement on the	The performance evaluation index of the Audit Committee includes 22 indicators in total from five aspects. Evaluation results: "Excellent (5)" 72.7%, "Good (4)" 22.7%, and "Average (3)" 4.5%".

		quality of functional committees' decisions. IV. Composition of the functional committees and election of members. V. Internal control.	The performance evaluation index of the Remuneration Committee includes 19 indicators in total from four aspects. Evaluation results: "Excellent (5)" 73.7%, "Good (4)" 10.5%, and "Average (3)" 15.8%". The overall operation of the Audit and Remuneration Committee is close to perfection, generally in line with the requirements of corporate governance, and effectively enhances the functions of the Board of Directors.
--	--	---	--

IV. An assessment of the goals set for strengthening the functions of the Board and implementation status during the current and the most recent fiscal year:

1. To enhance the efficiency of Board operation
In order to effectively perform the functions of directors, the Company has regularly evaluated the performance of the Board of Directors every year since 2021 in accordance with the Measures for the Evaluation of the Performance of the Board of Directors.
2. To purchase liability insurance for Directors
The Company has purchased "liability insurance for directors, supervisors and important employees" for its board members and managers, and reported the insurance amount, coverage and premium rates in the Board meeting on March 6, 2025.
3. To enhance information transparency
In terms of information transparency, the Company uploads important information and material resolutions to the Market Observation Post System (MOPS) and the corporate governance section within the corporate website in a timely manner in both Chinese and English after the board meetings to safeguard the interests of shareholders and to enhance investors' understanding and recognition of the Company.
4. Continuing education of directors
Continuing education of the directors complies with rules set by the competent authorities. Please access MOPS→Corporate Governance→Attendance at the Board Meetings and Training of Directors and Supervisors for details.

Note: Attendance Rate (%) is calculated based on the number of board meetings called and the actual number of meetings the directors attended during their term of office.

(II) Status of operations of the Audit Committee:

1. The Company's Audit Committee comprises 4 members.
The second term of office is from July 19, 2021 to June 13, 2024.
The third term of office is from June 14, 2024 to June 13, 2027.

2. The Audit Committee convened seven (A) meetings for the fiscal year 2024 (January 1 to December 31, 2024). The attendance of the **two meetings** for the 2nd term Audit Committee and **five meetings** for the 3rd term Audit Committee are as follows:

Title	Name	Attendance in Person (B)	Attendance by Proxy	Attendance rate (%) (B/A) (Note)	Remarks
Independent Director	Hou, Ruey-Fu	2	0	100	Stepped down on June 14, 2024
Independent Director	Chung, Chin-He	2	0	100	Stepped down on June 14, 2024
Independent Director	Chen, Liang-Yin	7	0	100	Reappointment (Election Date: June 14, 2024)
Independent Director	Sun, Kuang-Wei	7	0	100	Reappointment (Election Date: June 14, 2024)
Independent Director	Hou, Pin-Yu	5	0	100	Newly appointed on June 14, 2024
Independent Director	Huang, Chih-Chao	5	0	100	Newly appointed on June 14, 2024

The main agenda items for the year ending December 31, 2024, included:

- (1) Review of quarterly financial reports: The financial reports for each quarter of the Company are approved by the Audit Committee.
- (2) Establishment or revision of internal control system and related important measures.
- (3) Evaluation of the Company's internal control system's effectiveness.
- (4) Appointment or dismissal of CPAs and assessment of their independence and suitability.
- (5) Material asset or derivative transactions.

Other matters that should be recorded:

- (1) Operations of the Audit Committee:

- (a) Matters referred to in Article 14-5 of the Securities and Exchange Act:

Meeting date	Contents of motions and follow up actions taken	Matters specified in Article 14-5 of the Securities and Exchange Act

	Audit Committee resolution result: The resolution was unanimously approved by all attending members.	
	Handling of the Audit Committee's Opinions: The Audit Committee has no other opinions or objections.	
4th meeting of the 3rd term 2024.12.19	Amendment to the Company's Internal Control and Internal Audit System: Management of Sustainable Information.	V
	Audit Committee resolution result: The resolution was unanimously approved by all attending members.	
	Handling of the Audit Committee's Opinions: The Audit Committee has no other opinions or objections.	

(b) Other matters which were not approved by the Audit Committee but were approved by two-thirds or more of all Directors: None

(2) Regarding recusals of Independent Directors from voting due to conflicts of interests: None.

(3) Communication between Independent Directors, chief internal auditor, and CPAs:

(a) The Independent Directors, chief internal auditor and CPAs shall hold meetings at least once a year to fully communicate on matters of the Company's financial reports, financial operation status, key audit matters, audit results of the internal control system and the impact of regulatory amendments. In the event of a material abnormality, a meeting may be held at any time.

Communications between Independent Directors, chief internal auditor and CPAs are summarized as follows:

Date	Discussion points	Outcome or opinion
2024.12.19	1. Year-end audit communication matters 2. Explanation of key audit matter: timing of sales revenue recognition 3. Pre-approval of non-confidential services 4. Explanation of significant regulatory updates 5. Questions and discussions	No objections

- (b) Chief internal auditor submits audit reports to Independent Directors on a monthly basis in accordance with laws and regulations. Issues concerning internal control system of the Company may be communicated fully via phone, emails, meetings or forum. The chief internal auditor also reports on the implementation status of internal audits in the quarterly Audit Committee meetings and directly engages in questions and discussions. If a material violation is identified or the Company is likely to suffer material losses, the chief internal auditor shall immediately report to the Audit Committee.

Communications between Independent Directors (Audit Committee) and chief internal auditor are summarized as follows:

Date	Meeting	Discussion points	Outcome or opinion
2024.03.07	Audit Committee	1. The status of execution of internal audit in the first quarter (including review of internal control system deficiencies for fiscal year 2023) 2. Assessment on the effectiveness of internal control system for fiscal year 2023 and the Statement of Internal Control System.	No objections
2024.05.09	Audit Committee	None	No objections
2024.07.04	Audit Committee	None	No objections
2024.08.08	Audit Committee	1. The status of execution of internal audit in the second quarter 2. Amendment of Computerized Information Processing Cycle	No objections
2024.11.07	Audit Committee	1. The status of execution of internal audit in the third quarter 2. Audit plan for fiscal year 2025	No objections
2024.12.19	Audit Committee	1. The status of execution of internal audit in the fourth quarter 2. Amendment to the Company's Internal Control and Internal Audit System - Management of Sustainable Information.	No objections

Note: Attendance Rate (%) is calculated based on the number of Audit Committee meetings called and the actual number of meetings the committee members attended during their term of office.

(III) Corporate governance implementation status and deviations from the Corporate Governance Best-Practice Principles for TWSE/TPEX Listed Companies and reasons thereof:

Evaluation item	Operational conditions			Deviations from the Corporate Governance Best-Practice Principles for TWSE/TPEX Listed Companies and Reasons Thereof
	Yes	No	Summary description	
I. Does the company establish and disclose its Corporate Governance Best-Practice Principles based on the Corporate Governance Best-Practice Principles for TWSE/TPEX Listed Companies?	V		The Company has formulated the Corporate Governance Best-Practice Principles in accordance with the "Corporate Governance Best-Practice Principles for TWSE/TPEX Listed Companies." The Corporate Governance Best-Practice Principles have been approved by the Board and fully disclosed at the MOPS and the Company's website (http://www.infortrend.com .) The Company applies the essence of corporate governance and relevant regulations in the internal control system and relevant monitoring rules.	No significant deviation.
II. Shareholding structure and shareholders' rights				
(I) Has the company established internal procedures to deal with shareholders' proposals, inquiries, disputes and litigations, and has the company acted in accordance with the procedures?	V		(I) The Company's website includes an "Investor Relations" section, where shareholders can find contact information to reach out via phone or email. Suggestions or comments can be submitted via e-mail, and a designated person will handle and respond to them.	No significant deviation.
(II) Has the company possessed a list of its major shareholders with controlling power as well as a list of persons with ultimate control over those major shareholders?	V		(II) The Company has designated personnel in charge of the list of its major shareholders with controlling power as well as a list of persons with ultimate control over those major shareholders.	No significant deviation.

(III) Has the company established standards to measure the performance of the Board and implemented such annually? Has the company reported the results of the performance assessment to the Board and used them as references for individual Director's remuneration and nomination of term renewal?	V		(III) The Company adheres to the Measures for Self-assessment or Peer Assessment by the Board of Directors. The results of the internal performance assessment of the Board of Directors for 2024 have been completed in the first quarter of 2025 and will serve as a reference for the selection or nomination of directors in the future. The individual performance assessment results of each director will be used as a reference for determining their remuneration.	No significant deviation.
(IV) Does the company assess the independence of the CPAs regularly?	V		(IV) The Company has selected four internationally renowned accounting firms. None of the certified public accountants are related to the Company and have no vested interests, so there are no doubts about their independence. Annually, the Company formulates an independent assessment project for the Certified Public Accountants (Note 1) to evaluate the independence of appointing accounts with reference to Bulletin No. 10 of Independence and Professional Ethics of Accountants Regulations, "Integrity, Impartiality, Objectivity and Independence". In addition, the Company obtains disclosure reports from accounting firms based on Audit Quality Indicators (AQIs) to assess the independence and suitability of the accountants employed. The assessment and appointment of the independence and competency of CPAs for 2025 was reviewed by the Audit Committee on March 6, 2025, and approved by the Board of Directors on March 6, 2025.	No significant deviation.

IV. Does the listed company have a suitable and appropriate number of corporate governance personnel, and appoint a corporate governance director who is responsible for corporate governance-related matters (including but not limited to providing information necessary for directors and supervisors to carry out their business, assisting directors and supervisors to comply with laws and regulations, handling matters related to meetings of the Board of Directors and shareholders' meetings according to laws, producing minutes of the Board of Directors and shareholders' meetings, etc.)?	V		The Assistant Manager of Finance and Accounting Department is designated as the Chief Corporate Governance Officer to take charge of promoting and executing corporate governance-related affairs. Status of business implementation in fiscal year 2024 are as follows: 1. Planned the schedule of the board meetings and drafted board meeting proposals, and prepared the relevant data required for the meetings. 2. Registered the date of the shareholders' meeting in advance according to law, and prepared the notice of meeting, meeting handbook, annual report and annual financial report in Chinese and English within the statutory time limit. 3. Prepared minutes of meetings of the Board of Directors, its functional committees and shareholders and made them available within 20 days after the meeting. 4. Assisted the Board and its functional committees in conducting self-performance assessments. 5. Provided ongoing assistance to directors for continuing education and regulatory compliance. 6. Published important information in Chinese/English in a timely manner. 7. Assisted in promoting the writing of the 2023 sustainability report to provide stakeholders with an understanding of the company's sustainability policy implementation and management effectiveness. 8. Conducted a qualification review for independent directors and a nomination process for directors in response to the full re-election of the Board of Directors.	No significant deviation.

			(II) Employees: 1. The Company regularly holds cross-unit manager meetings and various project coordination meetings to facilitate the discussion and communication of the Company's important policies. These meetings also enhance internal communications and improve management/policy execution efficiency. 2. We have set up the Employee Suggestion Box and Employee Complaint Mechanism within the Company to ensure employees' opinions/questions are handled and addressed fairly, reasonably, and efficiently. 3. We convene labor-management meetings regularly to communicate important decisions of the Company and promote labor-management relations. (III) Customer Relations: In addition to regular communication channels and periodic meetings, the corporate website offers customer service technical support and product service channels. This enables dedicated teams to deliver timely and effective customer service, resolving issues despite time and space constraints. (IV) Suppliers: In addition to communication channels for daily business and regular meetings, we have established the supplier selection and assessment mechanism to improve the quality of goods provided by the suppliers. Corporate responsibility policies are also defined in supplier contracts to facilitate the implementation of suppliers' responsibilities for quality, environment, employees, ethics, etc.

			The Company has established the Operating Procedures for Supplier Development and Assessment to identify quality suppliers and requests suppliers to provide materials that meet RoHS and other relevant environmental directives. We conduct annual supplier environmental surveys and keep written documents to understand suppliers' environmental management status and keep track of suppliers with significant impacts on the environment. Since 2020, the Company have conducted investigations and mandated suppliers to obtain certifications in order to adhere to corporate social responsibility standards such as ISO 14001, ISO 45001, SA 8000, and EICC. Prior to certification, suppliers must sign the Corporate Social Responsibility Agreement, which obligates them to adhere to the labor rights, health and safety, environmental protection, and business ethics regulations set by local regulatory authorities. Additionally, the Company's parts suppliers must sign the Integrity Commitment and the Guarantee Letter for Parts Materials of Restricted Substance. If a supplier is in breach of its corporate social responsibility policy and has a significant impact on the environment and society, the contract may be terminated or rescinded at any time.	
VI. Has the company appointed a professional shareholder service agency to handle matters on shareholders' meetings?	V		The Company appointed Yuanta Securities, Registrar & Transfer Agency Department to handle matters on the Company's shareholders' meetings.	No significant deviation.

Independent Director	Hou, Pin-Yu	Bachelor's degree from Department of Accounting, Soochow University CPA at Huaruei United CPAs	Compliant with the various independence criteria	0	

2. Duties of the Remuneration Committee:

The Committee shall exercise the due care of a good administrator and faithfully perform the following duties, and submit its proposals to the Board of Directors for discussion:

(1) Periodically review these Rules and make recommendations for amendments.

(2) Establish and regularly review the policies, systems, standards, and structures for the performance evaluation and remuneration of directors and managers.

(3) Periodically assess and determine the remuneration of directors and managers.

3. Remuneration Committee

(1) The Remuneration Committee of the Company consists of 3 members.

(2) Term of office of the current committee: July 4, 2024, to June 13, 2027. The Remuneration Committee convened three (A) meetings for the year ending December 31, 2024. The attendance status is as follows:

Title	Name	Attendance in Person (B)	Attendance by Proxy	Attendance Rate (%) 【 B / A 】	Remarks
Convener	Chen, Liang-Yin	3	0	100%	
Member	Sun, Kuang-Wei	3	0	100%	
Member	Hou, Ruey-Fu	1	0	100%	Former Committee Member Stepped down on July 4, 2024, to attend 1 time
Member	Hou, Pin-Yu	2	0	100%	Newly appointed member Newly appointed on July 4, 2024, to attend 2 times

Other matters that should be recorded:

1. If the Board of Directors does not adopt or amend the suggestions of the Remuneration Committee, it should disclose the date, session, agenda, decision, and the company's handling of the Remuneration Committee's opinion (e.g., if the Board's approved remuneration is better than the Remuneration Committee's suggestion, the differences and reasons should be disclosed): As of the most recent fiscal year and up to the date of printing of the annual report, there have been no instances of this occurrence in the Company.
2. For decisions made by the Remuneration Committee, if there are dissenting or reservation opinions from members with recorded or written statements, the Remuneration Committee's date, session, agenda, the opinions of all members, and the handling of those opinions should be disclosed: As of the most recent fiscal year and up to the date of printing of the annual report, there have been no instances of this occurrence in the Company.

(3) Remuneration Committee convened three meetings in the year ending 2024. Details are as follows:

Meeting Term	Meeting Time	Review Topics	Results of Resolution	The Company's handling of the opinions from the Remuneration Committee:
7th meeting of the 5th term	May 9, 2024	Discussion and review of the remuneration of managers and employees for 2023	With reference to the market and the salary level of the industry, the amount of employee remuneration was approved by the resolution of all the Remuneration Committee.	Submitted to the Board and unanimously approved by directors present.
1st meeting of the 6th term	July 26, 2024	Discussion and review of the compensation and remuneration for independent directors	The total amount of remuneration and travel expenses for the current term of independent directors was approved by the resolution of the Remuneration Committee.	Submitted to the Board and unanimously approved by directors present.
2nd meeting of the 6th term	December 19, 2024	Discussion and review of 2024 annual bonus to managers.	With reference to the market and the salary level of the industry, the annual bonus amount was approved by the resolution of all the Remuneration Committee.	Submitted to the Board and unanimously approved by directors present.

(4) Performance Evaluation of the Remuneration Committee:

Please refer to Chapter 2, Corporate Governance Report, Section 3, Other Disclosures Regarding Corporate Governance Practices.

(V) Status of implementation for sustainable development and deviations from the Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies and reasons thereof:

Evaluation item	Operational conditions			Deviations from the Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies and reasons thereof

(III) Has the company evaluated the current and future potential risks and opportunities of climate change, and adopted countermeasures related to climate issues?	V		(III) 1. Greenhouse gas emissions contribute to global warming and climate change. Reducing greenhouse gas emissions from operations to mitigate the negative impact on climate, environment and ecology is a current issue of concern to all industries. Infortrend Technology is concerned about the trend of environmental protection and formulated the Greenhouse Gas Inventory and Inspection Schedule Plan in 2022. The implementation progress is reported to the Board of Directors on a quarterly basis. 2. Starting from 2023, the risk or opportunity factors of climate change have been included in the "Risk and Opportunity Assessment Control Table" of the ISO management system that is required to be identified and assessed regularly by the heads of each unit.	No significant deviation.
(IV) Has the company calculated its greenhouse gas (GHG) emissions, water consumption and total waste weight in the past two years, and formulated policies for energy saving, reductions of carbon, GHG and water consumption, or other waste management?	V		(IV) 1. Greenhouse gas emissions: 99.9% of the Company's greenhouse gas emissions fall under purchased electricity in Scope 2, which is used for lighting, air conditioning, and product production testing and verification. 0.1% fall under gasoline for vehicles/trucks in Scope 1.	No significant deviation.

(VI) Climate-related information for TWSE/TPEX-listed companies

1. Implementation status of climate-related information

Item	Implementation Status
1. Describe the Board of Directors and management's oversight and governance of climate-related risks and opportunities.	(1) The Company has drawn up a Schedule for Greenhouse Gas Inventory and Inspection, and the implementation progress is reported to the Board of Directors on a quarterly basis. (2) Since 2023, the issue of climate change has been integrated into the risk opportunity assessment components of the risk management system.
2. Describe how the identified climate-related risks and opportunities impact the Company's business, strategy, and finances (short-term, medium-term, and long-term).	Short to medium-term strategy: (1) Continuously monitor climate-related issues and the requirements established by the relevant authorities. (2) The Company has drawn up a Schedule for Greenhouse Gas Inventory and Inspection, which sets the scheduled schedule for various work items, and the implementation progress is reported to the Board of Directors on a quarterly basis. Medium-term strategy: (1) Evaluate the adoption of energy-efficient or low-carbon-emission operational equipment to reduce electricity consumption and lower carbon emissions. (2) Continuously develop energy-efficient, high-performance products to enhance product functionality while minimizing energy consumption for users.
3. Describe the financial impacts of extreme weather events and transition actions.	(1) Global warming and associated GHG issues have led to higher electricity and operational costs. (2) Extreme weather can cause major wind and flood disasters, resulting in damage to the Company's operations or plant equipment, a decrease in asset value, or an increase in maintenance costs. (3) Extreme weather can cause massive wind and flood disasters, affecting the Company's operations and production scheduling, upstream and downstream

Item	Implementation Status
	freight scheduling in the supply chain, and declining revenue. (4) The transition period for replacing operational equipment with energy-efficient or low-carbon emission alternatives leads to an increase in procurement and waste disposal volumes in the short to medium term, resulting in higher operational costs. (5) The replacement of operational equipment with energy-efficient or low-carbon emission alternatives reduces electricity consumption and carbon emissions, leading to a decrease in electricity and operational costs. (6) Research and develop energy-saving, high-efficiency products to improve product performance, reduce energy consumption for users, increase customer purchasing opportunities, and boost revenue.
4. Describe how the identification, assessment, and management process of climate risks is integrated into the overall risk management system.	Since 2023, the risk or opportunity factors of climate change have been included in the Risk Opportunity Assessment Control Form that requires regular identification and evaluation in risk management.
5. When using scenario analysis to assess resilience against climate change risks, it is crucial to clearly define the scenarios, parameters, assumptions, analytical factors, and key financial impacts involved.	The Company has yet to adopt scenario analysis.
6. If transformation plans are in place to address climate-related risks, please provide a description of these plans, including the indicators and objectives used to identify and manage both physical and transition risks.	The Company has yet to address the relevant issues.

Item	Implementation Status
7. If internal carbon pricing is used as a planning tool, the rationale behind the price determination should be clearly explained.	The Company has yet to use the relevant tools.
8. If climate-related targets are established, it is essential to outline the activities included, the scope of GHG emissions, the timeline for achieving the targets, and the progress made each year. Additionally, if carbon offsets or Renewable Energy Certificates (RECs) are used to meet these targets, the sources and quantities of the carbon reduction offsets, as well as the number of RECs, should be specified.	The Company has yet to address the relevant issues.

1-1 The Company's GHG inventory and assurance status for the past two years:

Description of greenhouse gas emissions over the past two years (CO₂e metric tons), intensity (CO₂e metric tons/NT\$ million), and data coverage. The greenhouse gas emissions and emission intensity of the Company over the past two years are summarized in the table below:

Year	CO ₂ e (metric tons)			Density (CO ₂ e/NT\$ million)
	Scope 1	Scope 2	Total	
2023	1.93	2,264.4	2,266.3	1.6
2024	2.54	2,209.58	2,212.12	1.6

(VII) Compliance with Ethical Management and Deviations from the Ethical Corporate Management Best Practice Principles for TWSE/TPEX-Listed Companies and Reasons Thereof:

(X) Status of the Internal Control System:

1. Statement of Internal Control

Infortrend Technology Inc.
Statement of Internal Control System

Date: March 6, 2025

The Company hereby states the results of the self-assessment of the internal control system for the year ending December 31, 2024, as follows:

- I. The Company recognizes that it is the responsibility of the Board of Directors and the managers of the Company to establish, implement, and maintain an internal control system, and the Company has established such a system. The purpose is to provide reasonable assurance of the effectiveness and efficiency of operations (including profitability, performance and safeguarding of assets), reliability of reporting, timeliness, transparency and compliance with relevant regulations and compliance with relevant laws and regulations.
- II. The internal control system has inherent limitations, and no matter how well designed, an effective internal control system can only provide reasonable assurance for achieving the three objectives mentioned above. Moreover, due to changes in the environment and circumstances, the effectiveness of internal control systems may also vary. However, the Company's internal control system has a self-monitoring mechanism, and once the deficiencies are identified, the Company will take corrective action.
- III. The Company uses the assessment items specified in the Regulations Governing Establishment of Internal Control Systems by Public Companies (hereinafter referred to as the Regulations) to determine whether the design and implementation of the internal control system are effective. The internal control system judgment items adopted by the Regulations are based on the process of management control, dividing the internal control system into five components: 1. control environment, 2. risk assessment, 3. control activities, 4. information and communication, and 5. monitoring. Each component element in turn includes several items. Please refer to the Regulations for more information on the items.
- IV. The Company has evaluated the design and effectiveness of its internal control system according to the aforementioned criteria.
- V. Based on the results in the preceding evaluation, the Company is of the opinion that, as of December 31, 2024, the internal control system (including the supervision and management of subsidiaries), including the design and implementation of the internal control system relating to the effectiveness and efficiency of the operations, reliability, timeliness, and transparency of reporting, and compliance with applicable standards, laws and regulations, is effective and can reasonably assure the achievement of the foregoing goals.
- VI. This statement shall be included among the chief contents of the Company's annual report and disclosures and shall be made public. Any illegalities such as misrepresentations or concealments in the published contents mentioned above will be considered a breach of Articles 20, 32, 171, and 174 of the Securities and Exchange Act and incur legal responsibilities.
- VII. This statement has been unanimously approved by all 7 directors of the Company present at the meeting held on March 6, 2025.

Infortrend Technology Inc.
Chairman/President: Lo, Shih-Tung

2. If a CPA has been engaged to carry out a special audit of the internal control system, the CPA audit report shall be disclosed: None.

(XI) Any penalties imposed upon the Company or internal personnel by laws, or punishment imposed by the Company on internal personnel for violation of the Company's internal control system regulations, details on the punishment shall be listed if it might have significant impact on the shareholders' equity or security prices, major defects and corrective action thereof in the most recent fiscal year and up to the date of publication of the Annual Report: None.

(XII) Major resolutions of shareholders' meeting and Board meetings in the most recent fiscal year and up to the date of publication of the Annual Report:

Major resolutions of the 2024 shareholders' meeting

Date of Shareholders' Meeting	Brief Summary	Results of Resolution	Implementation Status

Shares Category	Authorized Capital			Remarks
	Outstanding Shares	Unissued Capital Stock	Total	
Common Shares	273,551,538	38,448,462	312,000,000	All are outstanding public shares

(II) List of Major Shareholders: (Shareholders with holdings equal to or exceed 5%)

Shareholder's name	Shareholding (shares)	Percentage (%)
Lo, Shih-Tung	38,968,816	14.25
Lu, Hsiu-Chin	26,314,972	9.62
Tung Yu Investment Co., Ltd.	22,207,300	8.12

Note: There are less than ten shareholders with a shareholding ratio of more than 5%. Please refer to page 90 for information on the top ten shareholders.

(III) The Company's dividend policy and execution status:

1. Dividend policy

The annual earnings of the Company, if any, shall be first appropriated to pay taxes and offset accumulated losses before allocating 10% of the remaining earnings to the legal reserve until the accumulated legal reserve has equaled the Company's paid-in capital. Next, special reserve shall be appropriated or reversed in accordance with the Company's operating needs and pursuant to the applicable law and regulations. The Board would then draft an earnings distribution proposal based on the remaining earnings together with accumulated undistributed earnings at the beginning of the period and submit it to the shareholders' meeting for approval.

After taking into account the environment and development stage of the Company, the needs of capital in the future, long-term financial planning and shareholders' demand for cash, the distribution of shareholders' bonus would be in the form of share and cash. The cash dividends shall not be less than 10% of the total dividend payout.

The dividend policy of the Company is based on the operating performance, capital requirements and the interests of shareholders. Where there is no other special circumstance, the total dividend to be distributed shall be at least 60% of the distributable earnings, net of legal reserve.

2. Proposed dividend distribution at the shareholders' meeting (2024)

The Company's earning distribution proposal for 2024 was approved in the Board meeting on March 6, 2025, where legal reserve of NT\$60,618,627 and shareholders' dividend of NT\$355,616,999 were allocated from the surplus of 2024 and cash dividend was provisionally set at NT\$1.3 per share. After the proposal is approved at

the shareholders' meeting, the Board would set the dividend distribution base date and dividends would be paid based on the shareholder register as of the base date.

(IV) Effect of the proposed stock dividends at the shareholders' meeting on the Company's operating performance and earnings per share: There was no proposal for stock dividends at the shareholders' meeting.

(V) Remuneration of employees, directors and supervisors:

1. The percentage or scope of remuneration of employees and directors included in the Articles of Incorporation of the Company:

The Company shall set aside at least 1% of its annual earnings, if any, as compensation to employees and no greater than 0.5% as remuneration to Directors. However, where the Company has accumulated losses, the amount should be retained in advance.

The so-called earnings shall mean the annual pre-tax earnings before deduction of the remuneration to employees and the directors.

The recipients of employee compensation in the form of stocks or cash as referred to in the first paragraph may include employees of subsidiaries.

2. The basis for estimating the remuneration of employees and directors for the current period, the basis for calculating the number of shares for employee remuneration distributed in shares, and the accounting treatment if actual distribution amount differs from the estimated number:

(1) Employee remuneration is estimated at 5.44% based on the profit of 2024.
Director remuneration is estimated at 0.17% based on the profit of 2024.

(2) Basis of calculation of employee remuneration in shares: N/A.

(3) Where the actual amount distributed differs from the estimated amount, it is listed as profit or loss for the following year.

3. Approval by the Board of Directors for distribution of remuneration:

(1) Amount of employees and directors' remuneration distributed:

Unit: NT\$

Item	Withholding status in 2024	Amount approved by the Board
Employee compensation - cash	38,000,000	38,000,000
Employee compensation - stock	0	0
Directors' compensation	1,200,000	1,200,000

(2) The amount employee remuneration distributed in stocks, and the size of that amount as a percentage of the sum of the after-tax net income stated in the parent company only financial reports or individual financial reports for the current period and total employee compensation: N/A.

(3) The estimated earnings per share after the distribution of remuneration to employees and directors: N/A.

4. The actual distribution of remuneration of employees, directors and supervisors in the previous year (2023):

Unit: NT\$

Item	Withholding status in 2023	Amount approved by the Board
Employee compensation - cash	38,000,000	38,000,000
Employee compensation - stock	0	0
Directors' compensation	1,400,000	1,400,000

(VI) Share repurchases: None.

II Corporate bonds: None.

III Preferred shares: None.

IV Global depositary receipts: None.

V Employee stock options: None.

VI Restricted Stock Awards to key employees : None.

VII Issuance of new shares in connection with mergers or acquisitions or with transfer of shares of other companies: None.

VIII Implementation of the Company's capital allocation plans: None.

Chapter 4 Operational Highlights

I. Business Activities:

(I) Business Scope:

1. Principal business and sales proportion: The Company mainly engages in the research and development, production and sales of products associated with "RAID system, network attached storage, storage software and peripheral components," which accounted for 100% of the sales.
2. Current products:
 - (1) SAN storage
 - (2) NAS storage
 - (3) Unified storage
 - (4) Scale-out NAS
 - (5) Storage server
 - (6) Expansion enclosure
3. New products to be developed:
 - (1) KS AI computing host
 - (2) New generation GS 5000 high-end products
 - (3) Next-generation high-density storage system
 - (4) Next-generation scale-out NAS storage system

(II) Industry Overview:

1. Industry Status and Development

With the rise and booming development of the IoT, cloud computing, big data, AI and 5G, data volume has shown explosive growth in recent years. The expansion demand on storage systems is no longer limited to capacity, but also includes performance expansion. Scale-out storage systems can simultaneously expand both performance and capacity, and the adoption of such systems by users will gradually increase.

With the development of the audio-visual industry, 4K and 8K videos become more popular and the demand for high-speed internet interface and storage system performance is increasing. Thus, the storage systems shall evolve to support the new generation of high-speed internet interface quickly so as to deliver a more stable and efficient performance.

2. Relationship amongst upstream, midstream, and downstream of the industry

3. Product development trend and competition:

(1) Product development trend

- a. The traditional direct-attached storage (DAS) structure is no longer sufficient.

DAS structure

Storage systems traditionally adopt the DAS structure, which connects storage devices directly to the servers. Data are stored through servers with one-to-one access. The design provides great security. However, it often faces the following bottleneck:

- (a) Insufficient storage space in some servers while other still have plenty of room for storage.
- (b) Data in different platform servers cannot be shared, e.g., NTFS of NT and UNIX cannot access each other's data.
- (c) LAN and servers are required for data transmission, which not only increases the workload of servers but also slows down the LAN.

In the Internet era, where enterprise data volume is experiencing explosive growth, DAS gradually fails to satisfy enterprises' need for resource sharing and cross-platform operations. Thus, we see the rise of storage area network (SAN) and network attached storage (NAS) structures.

b. Network attached storage (NAS)

NAS structure

NAS combines storage devices, RAID controllers and servers with only file access function, and connects it to the original LAN. File access is done through NAS while other servers take on computing or more important tasks. The strengths of NAS are as follows:

- (a) Data request, access, and transmission are not done through servers of each groups, which reduces burdens on the servers and thus improve their performance.
- (b) In contrast to DAS, storage devices under NAS do not belong to a specific server. Instead, they use shared storage to achieve the purpose of file and hardware resource sharing.
- (c) NAS uses the TCP/IP protocol of LAN, thus, it can be operated under the existing network structure. Its construction is easier than SAN and configurations are not required at the terminal end, which simplifies the management process.
- (d) NAS has standard protocols. It can be operated on multiple platforms (e.g., Window PC, Mac, Linux, UNIX, etc.) and enjoys high compatibility. Besides, it does not require the use of NT server as file server, thus, it is more cost competitive than SAN. The disadvantage of NAS is that it continues to use LAN for data transmission. The loading on internet slows down the speed. Consequently, SAN is superior in terms of data sharing than NAS.
- (e) The dual redundant controller design allows the entire storage system to remain fully active and even continue to safeguard data security and maintain high availability under significant maintenance or partial hardware failure.

c. Storage area network (SAN)

SAN structure

SAN is a dedicated network of storage devices such as tape drives, optical disk libraries, and RAIDs, and connects with many servers where data access can be done directly through SAN. SAN often adopts the fiber channel structure, which eliminates the issues of unstable signals and insufficient length of connection, satisfying the growing data storage volume. The strengths of SAN are as follows:

- (a) Good connectivity: Any server can be directly connected to a storage device, or storage devices can be directly connected to each other.
- (b) The structure and composition of SAN are quite flexible. Companies can increase their storage devices without adding workloads on servers and LAN.
- (c) It can manage storage devices located in different places.
- (d) Storage devices are no longer connected to a specific server; thus, storage resources can be shared among many servers.
- (e) LAN and servers are not used for backup: As storage devices are directly connected to each other, the backup work does not take up server space nor the bandwidth of LAN.

The disadvantages are as follows:

- (a) No common standard: At present, cross-platform operation of SAN products only exists between certain operating systems and products.
- (b) High cost and time-consuming set-up.

In summary, NAS structure is simpler and easier to manage than SAN and it is a low-cost storage device in comparison. However, it fails in terms of scalability. As these two structures are often adopted in different environments, they are competing against as well as complementing each other. They can be combined to create an optimal structure for companies

(as illustrated below).

(2) Product competition

- a. Products have no industrial standards. Technical competency is the key to success.

RAIDs are unlike other IT products which have generally accepted industrial standards or large quantities of standardized components available; for instance, easy replacement is possible for motherboards as products of different brands can substitute each other under the PCI-E. The core technology of RAID lies in the firmware, which determines functions such as data partitioning, storage, backup, and redundancy. Switching to products of different brands may cause problems in accessing or reorganizing partitioned data. Although the core controllers can adopt the standardized CPUs, they would not deliver the best result. Self-development and optimization are still needed. Consequently, RAIDs not only require independent technical competency for firmware writing and hardware design, but their length and size in terms of their appearance also have no specifications. Since they are mostly employed for professional applications such as mainframes or servers, which are extremely demanding of quality, manufacturers strive to introduce products with new specifications and features, thereby accumulate special technical barriers to entry.

- b. Higher customer loyalty

As information, transactions and business operations are considerably digitalized nowadays, loss of data may result in inestimable damage. Therefore, even though security is costly, it is still the top priority for enterprises in choosing their RAIDs. Since RAIDs do not have industrial standards, each brand opts for different processing methods and results in

terms of structure, feature, interface, fault tolerance and efficiency. Products of different brand cannot substitute each other. For data security concerns, and increasing conversion cost due to high unit price of the products, we often enjoy higher customer loyalty.

- c. RAIDs are mostly used in professional applications such as midrange server, mainframe, work station, servers, etc. with a higher unit price.

Even though the specifications of interfaces including SATA, SAS and Fibre continue to improve, the same type of interfaces can support hard drives with newer specs (e.g., RAID with SAS 3G interface can use SAS 6G hard drives) with a less-than-optimal efficiency. In contrast, issues including downtime, hard drive backup and transfers shall be considered when replacing storage systems. Thus, the change of generation for RAID occurs at a lower frequency than the peripherals of personal computers. The former has a longer life cycle of about two to three years.

- d. High market concentration

Currently, the majority of RAID controllers are sold to server manufacturers and adopted by mission-critical operations, e.g., aerospace, medical, e-commerce and process management. Using RAID of the server brand, whether it is self-developed or commissioned by the manufacturer, is more reliable in terms of compatibility and safety. Therefore, internal RAID controllers are often shipped with servers whereas external RAID controllers often require system integrators (some system integrators produce their own RAID controllers, e.g., EMC.) However, even for companies with long-term business relationships, new products still need to undergo testing for several months. Quality and reputation accumulated over the years have forged challenging barriers of entry. Therefore, over 80% of the market share concentrates on the top ten manufactures. Professional manufactures of RAID controller inevitably have to face the issue of market share expansion in the future.

(III) Technology and research and development:

1. Research and development expenses from the recent year to the date of publication of the annual report

Unit: NT\$ thousands

Year	2020	2021	2022	2023	2024	As of 3 31, 2025
R&D Expenses	299,039	297,675	297,765	296,055	325,374	66,008
Revenue	1,130,547	1,189,488	1,462,630	1,390,974	1,319,852	274,029
R&D Expenses Percentage of Revenue	26.45%	25.03%	20.36%	21.28%	24.65%	24.09%

2. R&D accomplishments up to the date of publication of the annual report:

2020

- Launched EonServ 5000 Gen2, a new generation of system which combined Network Video Recorder (NVR) server with data storage function.
- Added SMB Multichannel function to EonStor CS, a scale-out NAS storage system, allowing end-user devices to connect with Infortrend devices via a converged NIC to ensure uninterrupted network services.
- EonStor CS family, a scale-out NAS storage system, obtained the Veeam Ready Repository certification, proving quick and reliable backup of data on virtual machines.
- For improvement in data access efficiency and storage capacity utilization rate, the scale-out NAS storage system, EonStor CS family, adopted distributed mode as well as added the DNS load balancing and SSD cache functions.
- For big data analysis, high performance computing (HPC) and machine learning, the scale-out NAS storage system, EonStor CS, adopted RDMA for internal network to enhance the overall cluster performance.
- Introduced EonStor GS hybrid cloud integrated data storage solution, fully compatible with Hitachi content platform (HCP).
- EonServ 5000 Gen2 hybrid storage server obtained the VMS certification of Milestone Xprotect, building a quality video monitoring IT infrastructure.
- For two consecutive years, the Company won the "Editor Choice-Company" and "Cloud Product of the Year" awards of UK's Storage Magazine (EonStor GS Gen2 models).

2021

- Introduced new EonStor GS series of integrated storage system, supporting U.2 NVMe SSD - EonStor GS 2000U/3000U/4000U
- Introduced new EonStor CS series of Scale-out NAS storage system, supporting U.2 NVMe SSD - EonStor CS 4000U
- Introduced new series of SAN storage system, supporting U.2 NVMe SSD - EonStor DS 4000U
- Introduced dedicated computing storage models for AI applications - EonServ for AI (EVi) 5000 and EonStor GSi 5000
- Introduced EonAI Ads, a smart advertising system with built-in AI technology, helping stores quantify advertising effectiveness and understand potential customers.
- The integrated storage system EonStor GS and new scale-out function of GSe, greatly increasing the expansion flexibility of enterprise storage equipment.
- The new SSD cache function of the integrated storage system EonStor GS helped enterprises enhance the performance of random access files.
- New automatic storage tiering function of scale-out NAS storage system EonStor CS greatly optimized storage space usage and access performance of frequently used files.
- New SSD optimization technology enhanced the stability of SSD usage and extended the usable time of SSD to improve usage efficiency.

2022

- New Generation EonStor GS G3 Products -EonStor GS 3000/4000 G3
- New Generation EonStor GS U.2 Products-EonStor GS 3000U/4000U
- High-density 4U40 bay new product-EonStor GS 3040/4040
- EonStor GS adds storage active-active function (HA Service), which greatly improves the high availability of the system. e
- EonStor GS adds file deduplication technology to improve storage space utilization.
- EonStor GS adds file snapshot technology to provide further data protection.
- EonStor GS adds immutable storage function to protect data security from

ransomware threats.

2023

- Introduce new high-density 4U90 bay products - EonStor GS 3090T/4090
- Introduce new high-density 4U90 bay products - JB 3090
- Introduce new high-density 4U48 bay products - GS 3048UT/4048U
- Introduce new host board 25GbE x4
- Introduce File-level QoS feature to EonstorGS
- EonStor GS supports more public service providers such as Backblaze
- Introduce data deduplication and compression feature to Eonstor CS
- Introduce File Backup Server feature to EonStor CS.

2024

- The third generation of DS 1000/2000 products
- The third generation of GS 1000 products
- High-performance flash storage system – GS 5024UE
- High-density expansion units are expensive – JB 4090
- 200G high-speed Ethernet host board
- 32G 4 port FC host board

(IV) Long- and short-term business development plans:

Short-term Business Development Plan	Long-term Business Development Plan
(1) Actively research and develop new products to maintain our leading position in technology.	(1) Introduce CRM system to establish a global customer service team for enhancing customer satisfaction.
(2) Acquire medium and large ODM customers to expand our operation scale.	(2) Expand product lines to satisfy customers' need for one-stop shop.
(3) Develop new applications to increase market share.	(3) Establish R&D centers to proactively conduct R&D on future technologies and secure our product leading position.
(4) Participate in various storage related exhibitions both at home and abroad to enhance brand, increase brand awareness.	

II. Market and Sales Overview:

(I) Market analysis:

1. Sales distribution by region:

Unit: NT\$ thousands

Year		2023		2024	
Region		Amount	Ratio (%)	Amount	Ratio (%)
Domestic sales		26,056	1.87%	29,144	2.21%
Export sales	America	140,691	10.11%	93,659	7.10%
	Europe	334,523	24.05%	186,536	14.13%
	Asia	669,800	48.16%	596,770	45.21%
	Others	219,904	15.81%	413,743	31.35%
	Subtotal	1,364,918	98.13%	1,290,708	97.79%
Total		1,390,974	100%	1,319,852	100%

2. Market Share:

Gartner's statistics show that Infortrend Technology accounted for 1.7% of the worldwide external storage equipment shipment in 2016.

3. Future market supply and demand and prospect:

At present, the storage equipment can be categorized into DAS, NAS, and SAN. As DAS requires direct connection with the server, it is gradually replaced by NAS and SAN under the network structure. Thus, both NAS and SAN markets show a promising future.

Whether it be DAS, NAS or SAN, RAID system is relied on as the main storage equipment. The most important component of the RAID system is RAID controllers, which are divided into two types: internal or external. Internal RAID controllers are mostly sold with servers; thus, 80% of the market is dominated by manufacturers such as HP, LSI and Adaptec. With the rise of rack dense server and RAID on motherboard, internal RAID system will gradually be replaced by external RAID systems (i.e., NAS and SAN) market for the later will continue to grow.

4. Competitive advantage:

RAID controllers have high technical requirements. The Company has accumulated years of experience on software and hardware R&D as well as manufacturing since its establishment. We are ahead of others in terms of technical level and have the R&D capability in hardware integration to ensure product reliability and performance. In line with market trends, we continuously develop

products which support various industrial standards (e.g., SAS, iSCSI, and Fibre channel) and the next-generation products to satisfy various demands.

5. Favorable and unfavorable factors for long-term development and countermeasures:

(1) Favorable factors:

A. Robust development of the internet

Internet has become increasingly popular around the world in recent years. In addition to an increasing number of internet users, online transactions and information digitalization become part of life. As hardware technology advances, various applications, e.g., wireless network, online shopping, and online games, continue to evolve and significantly improve the convenience of life. People's lifestyles are changing and their reliance on internet is growing. Limited by bandwidth, the transmission speed is slow in the past. The situation where internet is mostly used on text and picture transmission will change due to the construction of broadband network. Applications which transmit sound and image would become more popular in the future, accompanied by a significant increase in data bit. The existing hard drive technology has yet to catch up with the increase in data volume. Effective storage media management devices are essential in enhancing the access efficiency and the main function of RAID controller is effective management of hard drives. Therefore, the internet development is an important driving force for our product growth.

B. Solid R&D and innovation capabilities

Since its establishment, the Company has been committed to product design and development as well as technology innovation. Our R&D team has the ability to design hardware, firmware and software, such high-density RAID with hot swapping and redundant functions (power suppliers, RAID controllers, etc.), products which support DC supply of the telecommunications industry, and NAS products with ZFS, dual controllers and support data de-duplication. Due to our strong R&D capabilities, we can keep up with customer demands and industry developments, and maintain our product competitiveness and profitability.

C. Difficult to find substitute product

The Company's product, RAID controllers, are positioned as the "administrator" of storage devices. Our current focus is on hard drive management, i.e., enhance access speed and add fault tolerance feature. Even after a more powerful storage device is developed in the future, the

"administrator" can still improve the access speed and data security. In terms of cost effectiveness, it has its market value. Therefore, in comparison to the producers of hard drives and other storage devices, our product life can be extended longer and is more difficult to be replace.

(2) Unfavorable factors and countermeasures:

A. Some key components still rely on imports

Key components for the Company's products, such as CPU, currently rely on supplies from overseas manufacturers. It often takes more than one month from placing the orders to shipments. Also, as our order quantities are less than that of other information products, we have limited control over the suppliers. Consequently, we face business risk from the possible disruption of important parts and components which would affect our production. The Company adopts the following countermeasures:

- a. Besides maintaining good and long-term cooperation with existing key suppliers, we seek alternative procurement sources to avoid having purchases overly concentrated on a small number of manufacturers and increasing the business risk.
- b. We set the inventory level of key components based on estimated future supply and demand of products and exercise tight control over inventory quantity with considerations on costs of inventory and supply shortage to avoid the risk of price decline.

B. A lack of RAID talents at home and abroad.

Countermeasures: Focus on human resources development, long-term training of talents and employee profit-sharing/stock ownership plan to attract talents.

(II) Main applications and manufacturing process of key products:

1. Main application of key products:

At present, there are a variety of choices on RAID's hardware components such as hard drives and interfaces on the market and they require different RAID type depending on the application environments. More advanced RAIDs are normally adopted in an environment more demanding of information security. Factors such as price, space, distance, efficiency, scalability, backup methods and so on shall also be taken into account. Environments for advanced, mid-range and entry-level RAID are list as follows:

(1) Advanced

A. Mission-critical non-stop applications

- a. Aerospace transportation unit, telecommunications operations, medical and scientific research units
- b. Large internet operators (ISP and ICP), transnational enterprise network, E-Business operator
- c. Securities and futures industry, trading centers
- d. Semiconductor Industry
- e. High-speed data interchange processing center

B. Demand for ultra-high capacity and ultra-high speed

- a. Animation films or advertising production
- b. Online library
- c. Near-line file backup
- d. Online video blog
- e. Vault data management system

(2) Mid-range and entry-level

- a. Graphics workstation & computer-aided design (CAD/CAM/CAE)
- b. Email servers, network servers
- c. Video-On-Demand, Audio-On-Demand
- d. Data warehouse operator, SME network server
- e. Hospitals & government bodies
- f. Servers for small companies and departments
- g. Small Office Home Office (SOHO)
- h. Digital video recording equipment
- i. Nonlinear data editing

2. Manufacturing process:

(III) **Supply Status of Main Materials:** (using codes)

Main Material	Key Supplier	Domestic	Overseas	Supply Situation
HD	A3082	V		Passed
	A3132	V		Passed
ASIC	A0507	V		Passed
	A3118	V		Passed

(IV) Suppliers/Customers account for 10% or more of the Company's total purchase/revenue in the most recent two fiscal years:

1. Key customer: (using codes)

Unit: NT\$ thousands

	2023				2024				2025(As of March 31)			
Item	Name	Amount	Percentage (%)	Relation with Issuer	Name	Amount	Percentage (%)	Relation with Issuer	Name	Amount	Percentage (%)	Relation with Issuer
1	C	249,712	17.95	-	C	333,708	25.28	-	C	87,381	31.89	-
	Others	1,141,262	82.05	-	Others	986,144	74.72	-	Others	186,648	68.11	-
	Total	1,390,974	100	-	Total	1,319,852	100	-	Total	274,029	100	-

Note: Changes are the customers require different product mixes and are affected by the Ukraine-Russia war and the Israel-Kazakhstan conflict.

2. Key suppliers:

Unit: NT\$ thousands

	2023				2024				2025 (As of March 31)			
Item	Name	Amount	Percentage (%)	Relation with Issuer	Name	Amount	Percentage (%)	Relation with Issuer	Name	Amount	Percentage (%)	Relation with Issuer
1	A3082	89,170	18.05	-	A3082	91,170	22.38	-	A3082	27,322	29.59	-
2	A3132	73,342	14.84	-	A3132	120,374	29.55	-	A0154	16,691	18.08	-
3	A0507	74,834	15.15	-	A0507	10,778	2.65	-	A0490	10,456	11.33	-
	Others	256,750	51.96	-	Others	185,024	45.42	-	Others	37,855	41.00	-
	Total	494,096	100	-	Total	407,136	100	-	Total	92,324	100	-

Note: Changes are primarily caused by meeting demand for different products and lowering purchase prices.

III. Human Resources

Year		2023	2024	2025 (As of March 31)
Number of employees	Administration personnel	97	77	77
	R&D personnel	261	253	252
	Production personnel	81	80	79
	Total	439	410	408
Average age		45.50	48.10	48.30
Average year of services		7.14	7.32	7.56
Distribution of Education	PhD	0.68%	0.24%	0.25%
	Master's degree	23.46%	26.34%	26.47%
	Bachelor's degree	66.51%	63.67%	63.73%
	Senior High School	9.11%	9.51%	9.30%
	Below Senior High School	0.23%	0.24%	0.25%

IV. Environmental Protection Expenditure:

Any losses suffered by the Company in the most recent fiscal year and up to the date of publication of the annual report due to environmental pollution incidents (including any compensation paid and any violations of environmental protection laws or regulations found in environmental audits, specifying the disposition dates, disposition reference numbers, the articles and details of law violated, and the content of the dispositions), and disclosing an estimate of possible expenses that could be incurred currently and in the future and countermeasures being or to be taken. If a reasonable estimate cannot be made, an explanation of the facts of why it cannot be made shall be provided: None.

V. Labor Relations:

(I) Employee welfare and benefits, continuing education, training, and retirement plans and the implementation status thereof, agreements between labor and management, measures taken to safeguard employee rights:

1. The Company complies with labor laws and regulations in Taiwan as well as internationally recognized principles of basic labor rights to protect the legal rights and interests of employees.
2. Reasonable compensation and welfare packages
 - (1) In addition to an annual salary of 12 months, employees are entitled to a 2-month festival bonus. Performance and surplus bonuses are distributed based on the annual performance of the Company and individual.
 - (2) The Company has established the "Employee Welfare Committee" to coordinate and organize various welfare activities of the Company for employees to maintain a work-life balance. Welfare measures are listed below:
 - a. Company trips, activities, etc. are regularly organized to provide employees physical and mental relaxation.
 - b. Cash gifts for birthday, Labor Day, and Mid-Autumn Festival as well as subsidies for childbirth, weddings and funeral.
 - c. Benefit allowance for domestic and overseas travel, personal education and training or book purchases.
3. A safe and healthy work environment for employees:
 - (1) Set up a dedicated occupational safety and health unit or personnel, hold regular labor safety and health meetings, comply with rules associated with the Occupational Safety and Health Act, and continuously promote and implement occupational safety and health management to ensure a safe working environment for employees
 - (2) Free group insurance and regular health examinations for employees, and monthly on-site health consultation services and environmental examinations provided by occupational medicine specialists from National Taiwan University Hospital to facilitate employees in health management and promotion.
4. Employee training and development:

We believe that the continuous employee growth is the key to enhance the Company's competitiveness. Therefore, in order to improve employees' knowledge and skills and

implement the Company's policies and philosophy, a diverse education and training mechanism has been established to achieve the goal of talent training and development.

(1) Diverse training mechanism

a. Training for new recruits

In order to facilitate fresh graduates with fitting into the Company and acquaint themselves with the industry, we organize basic training, professional technical basis and advanced courses for new recruits to familiarize themselves with the Company's basic operation and relevant knowledge in products, technology and process as well as attitudes and competence required at work in a short time.

b. Professional training courses

i. In-house training courses: R&D-related courses, such as product development plans, product sales analysis, and quality R&D and management are held on a regular basis for employees to understand the product blueprint, sales and quality and thereby carry out R&D from a macro perspective.

ii. Short-term training: We set up a short-term training mechanism for project needs. Employees can actually work with customers and project contact persons during the training period to understand the detailed work procedures of the training unit and accumulate practical experience and competitive advantages.

iii. External training: Employees may apply for external training courses according to their work development needs with the consent of their supervisors, or the Company may assign employees to attend seminars or training courses organized by external training institutions and thereby acquire new industrial knowledge and enhance their professional competence.

c. Certification mechanism

In order to implement employee training and development as well as build an organizational learning culture, skill certification mechanisms are implemented for operators and integrated with the remuneration and promotion system for implementation purpose.

(2) Career plans

a. The Company adopts the "dual career ladder": management position and technical professionals. Through regular assessment, training and observation, supervisors would discuss with employees on their aptitude

directions.

- b. Infortrend Technology encourages outstanding employees to develop second skills through job rotation and short-term training.

5. Retirement system:

- (1) The Company has established an employee retirement system in accordance with the "Labor Standards Act" and the "Labor Pension Act", and completed the change to the Articles Association of the Supervisory Committee and the re-election of the members of the third Supervisory Committee on March 10, 2021.

Employees are entitled to apply for retirement when one of the conditions below is met:

- a. Where the employee attains the age of 55 and has worked for 15 years or more,
- b. Where the employee has worked for 25 years or more, or
- c. Where the employee attains the age of 60 and has worked for 10 years or more.

(2) Pension standards:

- a. Old pension system: Subject to the Labor Standards Act where employee's pension is calculated based on the employee's length of service and average monthly salary in the final six months before retirement.
- b. New pension system: Subject to the Labor Pension Act where the employer is required to contribute 6% of the employees' salary to the employees' individual retirement reserve accounts on a monthly basis.

(3) Retirement pension system and implementation status:

Retirement pension system and implementation status		
Types of systems	Old system	New system
Applicable sources of law	Labor Standards Act	Labor Pension Act
Allocation method	A contribution of 2% of the total monthly salary of employees will be deposited into a designated account at the Bank of Taiwan, held in the name of the Labor Pension Supervisory Committee. Additionally, the Company estimates the balance of the aforementioned labor retirement fund account before the end of each fiscal year. If the balance is insufficient to cover the estimated amount of labor retirement	Contributions of 6% will be allocated monthly to the individual account at the Labor Insurance Bureau, based on the employee's salary insurance level.

	benefits for employees who meet the retirement criteria in the subsequent year, the Company will make a one-time contribution to address the shortfall by the end of March of that year.	
Allocated amount	As of the end of 2024, the total balance of the Labor Retirement Reserve Fund is NT\$43,172 thousand. This is sufficient to support the labor retirement fund for workers who meet the retirement criteria in the upcoming fiscal year.	The allocated budget for the year ending December 31, 2024, is NT\$16,031 thousand.

6. Agreements between Labor and Management:

- (1) We set up "Employee Suggestion Box" and "Employee Complaint Mechanism" within the Company to ensure employees' opinions/questions are handled and addressed fairly, reasonably and efficiently.
- (2) We convene "labor-management meetings" regularly to communicate important decisions of the Company and promote labor-management relations.

7. Recognition of Senior and Outstanding Employees:

- (1) The Company regularly conducts the "Annual Outstanding Employee Selection" to recognize and reward high-performing employees. This initiative not only affirms and honors individual contributions but also sets a benchmark for all employees, fostering positive motivation and healthy competition within the organization.
- (2) The Company also regularly holds the "Annual Senior Employee Recognition" to express appreciation for long-serving employees, with public commendations presented during the year-end celebration event.

- (II) Any losses suffered by the Company in the most recent fiscal year and up to the date of publication of the annual report due to industrial disputes (including any violations of Labor Standards Act found in labor inspection, specifying the disposition dates, disposition reference numbers, the articles and details of law violated, and the content of the dispositions), and disclosing an estimate of possible expenses that could be incurred currently and in the future and countermeasures being or to be taken. If a reasonable estimate cannot be made, an explanation of the facts of why it cannot be made shall be provided: None.

VI. Information communication safety management:

- (I) Information communication security risk management structure, information communication security policy, specific management plan and resources invested in information communication safety management:

1. Information security risk management framework

- (1) The Company's IT Department is responsible for planning, establishing and promoting information security management rules and procedures. It ensures the implementation of various information security standards through internal and external audits on cyber security annually and continues to improve deficiencies identified during the audits to ensure the information security management procedures keep up with the times.
- (2) The Company's Audit Office is the supervising unit for information security. It is responsible for supervising the implementation of internal information security. If any defect is identified during the audits, it would immediately demand the audited unit to propose improvement plans with specific actions and regularly monitor the effectiveness of improvement in order to reduce internal information security risks.
- (3) The organizational operating model adopts PDCA (Plan-Do-Check-Act) cycle management to ensure that reliability goals are met and continually improved.

2. Information Security Policy Objectives

- (1) The company has established operating standards for information security management to ensure the confidentiality, integrity, and availability of the

Company's information assets and to comply with relevant government regulations.

- (2) Information security risk assessment is conducted regularly every year, high availability and backup/redundancy mechanisms are established according to the risk level, and software and hardware equipment are upgraded in a timely manner to ensure the stable operation of the enterprise as a whole.
- (3) Conduct information security education and training, improve employees' awareness of information security, and require employees to implement information security related regulations to improve the Company's information security level.

3. Specific information security management programs

(1) Security Management of Computer Equipment:

- The Company's key service application servers and network equipment are set up in a dedicated machine room with 24-hour access control. Access is granted to the necessary management staff and supervisors by swipe card only, external staff are required to register and keep access records.
- The computer room is equipped with an environmental control system, which monitors the temperature and humidity at any time, and actively notifies the network administrator in case of abnormality to ensure the safety of information equipment.
- Daily inspection of the health of the machine room and important servers, and recorded on paper.

(2) Data Security Management:

- The Company has established a comprehensive backup/redundancy mechanism. All important internal data are fully and incrementally backed up.
- Regular reviews on the condition of backup operation, abnormalities are dealt with immediately and recorded on paper.
- Conduct regular disaster recovery drills to ensure the integrity and availability of backup data.

(3) Virus Protection and Management:

- Employees' computers and critical servers are installed with endpoint protection software. The protection software automatically updates virus codes and sets appropriate protection policies to ensure that known or unknown computer virus threats are detected and blocked.
- Periodically perform OS security updates to patch OS vulnerabilities in real time and prevent zero-day attacks.

- Regulate the complexity of employees' personal passwords to prevent employees' computers from being violently hacked.
- (4) Email Security Management:
- Set up email security gateways to filter suspected malicious emails.
 - Regularly educate colleagues through actual cases to enhance information security awareness and prevent social engineering intrusion.
- (5) Cybersecurity Management:
- Corporate firewall is used to block malicious attacks from external sources
 - Establish an encrypted connection between the head office and each branch office via a VPN to ensure the security of data transmission.
 - Restrictions on internet access are imposed with malicious websites blocked to enhance internet security and reduce hacking
- (6) Access Control:
- All internal systems have access control mechanisms. Login requires employees' personal accounts.
 - Accesses are granted based on employees' organizational level or functions and specific functions cannot be used without authorization.
 - The rights to access file servers shall be applied via e-procedures.
- (7) Educational Training and Policy Advocacy:
- New employees are required to receive information security training and sign a consent form for use of Company software.
 - Employees are required to receive information security training at least once a year to continuously enhance information security awareness.
4. Investing in security management resources

The resources invested in IT security management in 2023 are described as follows:

- (1) Edge Switch Replacement: Outdated switches are being gradually replaced to improve endpoint connection speeds. VLAN and ACL configurations have also been integrated to enforce network segmentation and enhance cybersecurity defenses.
- (2) Enhanced Information Security Standards and Management Procedures: In 2024, five new management policies and digitalized procedures were implemented, specifically targeting privileged account control, system development/modification processes, and data amendment operations.
- (3) Conducting Annual Information Security Training: In September 2024, the Company organized its annual online information security education training to enhance employees' awareness of information security. A total of 378 employees were trained, covering topics such as email security, wireless network security, and password security.

- (4) In 2024, the information security manager and security personnel underwent professional information security training courses, totaling 3 people participation and accumulating 12 hours of training.

5. Communications Security Risks and Response Measures

With the increasing threats and risks associated with the rapid development of information technology, the Company analyzes various information security risks through risk assessment and formulates countermeasures to control them to ensure the goal of the Company's sustainable operation. The types of information security risks and response measures are as follows:

Types of information security risks	Risk description	Response measures
Cyberattacks	DDoS attacks can cripple websites, preventing customers from accessing online services such as official websites and technical support. Hackers continuously try to hack servers through various web vulnerabilities, and if successful, the Company may be subject to further APT attacks.	1. Block suspicious or malicious connection requests with new-generation firewall-protection technology. 2. Periodically perform server vulnerability patches and system security updates. 3. Web application should be developed with strict adherence to information security standards to avoid the risk of program vulnerabilities. 4. Regularly back up important servers and databases and perform disaster recovery drills.
Computer Virus Attacks	Computer viruses may be transmitted to employees' computers or important servers within the Company through browsing websites, malicious emails, mobile storage media (USB), etc. This may cause system failure, data corruption, etc., causing disruptions and losses to the Company's operations.	Establish a multi-level defense detection mechanism, including: 1. Employees' access control and auto-block known malicious webpages through a firewall. 2. Block suspicious and advertised messages through a secure mail gateway server. 3. Install endpoint protection software on employees' computers and servers to ensure endpoint security.
Employees' lack of information security awareness	An employee's lack of awareness on information security is a potential weakness in corporate security. Employees with inadequate information security awareness are vulnerable to fraudulent social engineering which compromises internal account passwords, giving hackers the opportunity to hack and cause losses.	1. Organise an annual online information security training to build employees' awareness on information security. 2. Continue to collect the latest information security attack techniques and promote to colleagues.
Private Account Leakage	The leakage of privileged accounts controlled by senior management or IT personnel will enable hackers to gain the highest level of access, enabling advanced data theft and potentially destructive	1. Segregate users from privileged accounts in accordance with the "Principle of Least Privilege" and grant only the bare minimum permissions necessary to prevent hackers from

Types of information security risks	Risk description	Response measures
	activities.	obtaining full privileges and reducing the scope of possible damage. 2. Formulate the Measures for the Management of Privileged Accounts to keep a register of privileged accounts and review the accounts regularly every six months to ensure the security of privileged accounts.

6. Status of Information Security Risk Management Operations

The Information Department regularly reports its operations to the Risk Management Team and submits reports to the Board through the Sustainable Development Center. On December 19, 2024, it reported to the Board on the operation of information security risk management for the year.

- (II) For the most recent year and as of the date of publication of the annual report, the losses suffered, possible impact and countermeasures as a result of a major information security incident (if it cannot be reasonably estimated, the facts that cannot be reasonably estimated shall be explained): As of the date of publication of this year's report, no major information security events affecting operations have been identified. The Company continues to focus on information security issues and update its information security regulations and procedures to effectively prevent information security threats and reduce operational risks.

VII. Important Contracts

(I) Supply/sales contracts

Contract Nature	Counterparty	Duration	Major contents	Restrictive Clause
Sales	Foreign customer	Effective from July 10, 2006 until terminated by notice of either party	Product sales	—
Sales	Foreign customer	Effective from December 1, 2010 until terminated by notice of either party	Product sales	—
Sales	Foreign customer	Effective from May 4, 2015 until terminated by notice of either party	Product sales	—
Sales	Foreign customer	Effective from May 1, 2016 until terminated by notice of either party	Product sales	—
Sales	Foreign customer	Effective from May 1, 2016 until terminated by notice of either party	Product sales	—
Sales	Foreign customer	Effective from June 28, 2016 until terminated by notice of either party	Product sales	—
Sales	Foreign customer	March 1, 2019 ~ February 28, 2022	Product sales	—

Contract Nature	Counterparty	Duration	Major contents	Restrictive Clause
Sales	Foreign customer	05/01/2021~04/30/2024 (automatic renewal)	Product sales	—
Sales	Foreign customer	01/01/2022~12/31/2023 (automatic renewal)	Product sales	
Sales	Foreign customer	01/01/2022~12/31/2023 (automatic renewal)	Product sales	
Purchase	Domestic vendor	Effective from December 30, 2003 until terminated by notice of either party	Power supplies	—
Purchase	Domestic vendor	Effective from February 1, 2004 until terminated by notice of either party	Power supplies	—
Purchase	Domestic vendor	Effective from February 18, 2004 until terminated by mutual agreement	ASICs	—
Purchase	Foreign customer	Effective from February 10, 2006 until terminated by notice of either party	ASICs	—
Purchase	Domestic vendor	Effective from 2007 until terminated by notice of either party	Brandcom chips	—
Purchase	Domestic vendor	Effective from March 30, 2007 until terminated by notice of either party	PCBs	—
Purchase	Domestic vendor	Effective from October 1, 2007 until terminated by notice of either party	Mechanical parts	—
Purchase	Domestic vendor	Effective from January 7, 2008 until terminated by notice of either party	CPUs and ASICs	—
Purchase	Domestic vendor	Effective from October 14, 2009 until terminated by notice of either party	Samsung SSD	—
Purchase	Domestic vendor	Effective from May 13, 2010 until terminated by notice of either party	Fans	—
Purchase	Domestic vendor	Effective from July 23, 2010 until terminated by notice of either party	HDD	—
Purchase	Domestic vendor	Effective from September 18, 2012 until terminated by notice of either party	Mellanox chips	—
Purchase	Foreign customer	Effective from January 4, 2019 until terminated by notice of either party	Transceivers	—
Purchase	Domestic vendor	Effective from June 30, 2019 until terminated by notice of either party	DIMM	—

(II) Technical collaboration contract: None.

(III) Engineering contract: None.

(IV) Long-term loans: None.

(V) Other contracts: None.

Chapter 5 Review of the Financial Conditions, Financial Performance, and Risk Management:

I. Analysis of Financial Status:

Unit: NT\$ thousands

Year Item	December 31, 2024	December 31, 2023	Increase (decrease) Amount	Change Percentage (%)	Remarks (Note)
Current assets	6,299,037	5,835,444	463,593	7.94	N/A
Property, plant and equipment	570,419	571,712	(1,293)	(0.23)	N/A
Right-of-use assets	18,457	18,434	23	0.12	N/A
Intangible assets	192	481	(289)	(60.08)	N/A
Other assets	178,652	203,302	(24,650)	(12.12)	N/A
Total asset value	7,066,757	6,629,373	437,384	6.60	N/A
Current liabilities	2,351,901	2,334,751	17,150	0.73	N/A
Non-current liabilities	79,280	77,829	1,451	1.86	N/A
Total liabilities	2,431,181	2,412,580	18,601	0.77	N/A
Common stock	2,735,515	2,735,515	-	-	N/A
Capital surplus	88,865	88,860	5	0.01	N/A
Retained earnings	1,795,058	1,380,357	414,701	30.04	Note 1
Other equity interest	16,138	12,061	4,077	33.80	N/A
Total equity	4,635,576	4,216,793	418,783	9.93	N/A
1. Note: Analysis is not required for changes less than 20% in percentage or less than NT\$10 million in amount. Note 1: The increase in retained earnings was mainly due to the increase in net profit for the current period. 2. Impact of significant changes in the Company's financial position in the most recent two fiscal years and countermeasures: The Company has no significant changes.					

II. Financial Performance:

1. 2024 vs. 2023 operating result analysis

Unit: NT\$ thousands

Item \ Year	2024	2023	Increase (Decrease)	Change ratio %	Analysis on variance (Note)
Operating Revenue	1,319,852	1,390,974	(71,122)	(5.11)	
Cost of Sales	652,358	680,183	(27,825)	(4.09)	
Gross profit	667,494	710,791	(43,297)	(6.09)	
Operating expenses	507,927	512,165	(4,237)	(0.83)	
Operating Income	159,566	198,626	(39,060)	(19.67)	
Non-operating income and expenses	500,889	88,978	411,911	462.94	Note 1
Profit before tax	660,455	287,604	372,851	129.64	Note 1
Less: Income tax expense (benefit)	54,320	46,158	8,162	17.68	
Net income	606,135	241,446	364,689	151.04	Note 1
Other comprehensive income for the year, net of tax	4,129	(868)	4,997	(575.69)	
Total comprehensive income for the year	610,264	240,578	369,686	153.67	Note 1

Note: Analysis is not required for changes less than 20% in percentage or less than NT\$10 million in amount.

Note 1: Reasons for the Increase in “Non-operating Income and Expenses”, “Profit before tax”, “Net Income”, and “Total comprehensive income for the year” : The increase was mainly attributable to higher other gains, primarily arising from the net gains on financial assets measured at fair value through profit or loss and net foreign exchange gains.

2. **Sales prediction for the following year and reasons:** Please refer to Chapter I. Letter to Shareholders
3. **Possible impact on the Company's finance operations in the future:** None.
4. **Future countermeasure:** N/A.

III. Analysis on Cash Flows:

(I) Analysis on cash flow changes in 2024

Cash, Beginning Balance (A)	Net Cash Provided by Operating Activities (B)	Net Cash Used by Investing and Financing Activities (C)	Impact of Exchange Rate Changes (D)	Cash Surplus (Shortage) (A+B+C+D)	Leverage of Cash Deficit	
					Investment Plan	Financing Plan
314,236	221,780	(315,084)	945	221,877	-	-

Explanations on changes in consolidated cash flows in 2024:

1. Operating activities: Net gain on financial assets and liabilities measured at fair value through profit or loss 、Payables and inventories are decreased.
2. Investing activities: Decrease in disposal of financial assets at fair value through profit or loss and increase in other financial assets
3. Financing activities: The main reason is the distribution of cash dividends and the increase of short-term loans.

(II) Improvement plans for liquidity shortage: N/A.

(III) Liquidity analysis for 2025

Cash, Beginning Balance (A)	Net Cash Provided by Operating Activities (B)	Cash throughout the year Outflows (C)	Cash Surplus (Shortage) Amount (A+B-C)	Remedies for Cash Shortage	
				Investment Plan	Financing Plan
221,877	419,562	405,617	235,822	-	-

1. (1) Operating activities: Net cash inflow from operating activities is expected to be NT\$419,562 thousand.
- (2) Investing activities: Cash required for capital expenditures is expected to be NT\$50,000 thousand.
- (3) Financing activities: Cash required for the distribution of cash dividends is expected to be NT\$355,617 thousand.

We expect the decrease in cash of NT\$405,617 thousand adding to the beginning balance of 221,877 thousand the ending balance of cash to be NT\$235,822 thousand after. We do not foresee any cash shortage.

2. Remedies and analysis for cash shortage: None.

IV. Major Capital Expenditures and Impact on Financial and Business:

- 1. Major Capital Expenditure Items and Source of Capital: No major capital expenditure in 2024.**
- 2. Expected Benefits: N/A**

V. Investment Policy in Last Year, Main Causes for Profits or Losses, Improvement Plans and the Investment Plans for the Coming Year:

Due to the ongoing U.S.-China trade tensions and intensifying technological competition, the Group's sales operations in the United States, Europe, and other countries continued to face geopolitical risks. In addition, the prolonged Russia-Ukraine war and instability in the Middle East have further disrupted the global supply chain and dampened end-market demand. As the pace of recovery in the manufacturing sector varies across countries, enterprise demand for high-performance storage equipment has also been adjusted accordingly. These factors led to a decline in overall revenue compared to 2023, and the Group's investment income in 2024 also decreased year-on-year.

Improvement Plan:

1. Proactively pursue new orders.
2. Eliminate unnecessary expenses to effectively control costs.
3. Centralize planning through the Taiwan headquarters, designating Taiwan as the primary shipping hub to support subsidiary deliveries.

VI. Analysis of Risk Management :

1. Effects of Changes in Interest Rates, Foreign Exchange Rates and Inflation on Corporate Finance, and Future Response Measures:

- (1) Effect upon the company's profits (losses) of interest rate fluctuations and response measures to be taken in the future.

The interest income or fair value of credit-linked notes and financial bonds invested by the consolidated entity would be affected by changes in market interest rates. However, the impact on the Company's working capital is minimal.

- (2) Effect upon the company's profits (losses) of exchange rate fluctuations and response measures to be taken in the future.

The consolidated entity is exposed to exchange rate risk arising from sales and purchases in currencies other than the functional currency of entities within the Group.

The functional currency of most entities within the Group is the New Taiwan dollar, while U.S. dollar, Renminbi, and Japanese Yen are also adopted. Major transaction currencies include New Taiwan dollars, Euro, U.S. dollar, British Pounds and Japanese Yen.

In addition to natural hedge of accounts receivable and accounts payable, the consolidated entity uses forward foreign exchange contracts or other financial instruments with a duration of one year or less to hedge foreign exchange risk.

- (3) Effect upon the company's profits (losses) of changes in the inflation rate and response measures to be taken in the future

As most of the consolidated entity's sales are direct or indirect exports, domestic inflation has minimal impact on the consolidated entity.

2. Policies, Main Causes of Gain or Loss and Future Response Measures with Respect to High-risk, High-leveraged Investments, Lending or Endorsement Guarantees, and Derivatives Transactions:

- (1) High-risk and highly leveraged investments: The Group is committed to the development of its core business. Thus, it does not engage in high-risk and highly leveraged investments.
- (2) Loans to other parties: The Group did not provide loans to other parties in the most recent fiscal year and up to the date of publication of the annual report.
- (3) Endorsements and guarantees: The Group did not provide endorsements nor guarantees in the most recent fiscal year and up to the date of publication of the annual report.
- (4) Derivatives transactions: To lower the exchange rate risk on U.S. dollar exposure, the parent company engages in exchange rate derivative instruments when the need arises to control exchange rate risk associated with realized sales revenue(recognized as accounts receivable.)

3. Future Research & Development Projects and Corresponding Budget :

The Group sets the goal of technology independence and major technologies are developed through years of in-house R&D. In order to expand the operation, enrich the product line and maintain the technological leadership, the Group's R&D plans and expected R&D investments in the coming year are as follows:

Unit: NT\$ thousands

R&D plan	Progress	Expected R&D investment	Date of completion	Major factors that influence the success of R&D in the future
KSİ 5008U	Under development	98,600	2025Q1	New chip integration
KSİ 5016U			2025Q1	
KSİ 5024U			2025Q1	
Ksa 5008U			2025Q1	
GS 5090C			2025Q1	
GS 5024UT			2025Q3	

4. Effects of and Response to Changes in Policies and Regulations Relating to Corporate Finance and Sales:

There was no changes in major polities nor laws and regulations at home and abroad in the most recent fiscal year that would affect the Company's financial operations. The Group operates in compliance with relevant laws and regulations both at home and abroad, and constantly monitors associated changes as well as product development trends to fully understand and be able to respond to changes in market conditions and thereby formulate countermeasures accordingly.

5. Effects of and Response to Changes in Technology and the Industry Relating to Corporate Finance and Sales :

In recent years, hybrid product which supports SAN and NAS simultaneously has emerged as the trend in the storage industry. We have launched similar products and are currently studying and developing other products in the same family in hope to serve our customers with more comprehensive product lines and more diverse software and hardware functions. In addition, the applications of the new-type solid state drive will also be an important new technology. We have launched similar products and will continue to observe the application environment in this area and roll out more related products in the future.

For information security risk management and countermeasures, please refer to this annual report V, Operation Overview VI: Information Security Management, page 115.

6. The Impact of Changes in Corporate Image on Corporate Risk Management, and the Company's Response Measures :

The consolidated entity has committed to maintaining a sound corporate image for years, and complied with relevant laws and regulations. When incident which may affect the corporate image occurs, a crisis task force will immediately be formed to formulate response measures. Up till now, incident that may damage the Company's corporate image has never occurred.

7. Expected Benefits from, Risks Relating to and Response to Merger and Acquisition Plans:

The consolidated entity did not have plans to merge or acquire another company in the most recent fiscal year and up to the date of publication of the annual report. Thus, no such risk exists.

8. Expected Benefits from, Risks Relating to and Response to Factory Expansion Plans:

The consolidated entity did not expand its plant in the most recent fiscal year and up to the date of publication of the annual report.

9. Risks Relating to and Response to Excessive Concentration of Purchasing Sources and Excessive Customer Concentration:

Apart from considering the quality, price and level of cooperation, we have more than one supplier for every raw material to avoid the risk of supply chain disruption. As for sales, we not only actively seek out new cooperation projects, but also strive to expand our channels in hope to minimize potential impacts.

10. Effects of, Risks Relating to and Response to Large Share Transfers or Changes in Shareholdings by Directors, Supervisors, or Shareholders with Shareholdings of over 10%: None.

11. Effects of, Risks Relating to and Response to the Changes in Management Rights: None.

12. Litigation or Non-litigation Matters :

For major litigations, non-litigations, or administrative disputes in the most recent two fiscal years and as of the date of publication of the annual report and have significant impacts on the interests of shareholders or share prices, the facts, amount in dispute, commencement date, major parties involved, and the status shall be disclosed:

- (1) Consolidated entity: None.
- (2) Directors, Supervisors, president, de facto responsible person, and major shareholders with a stake of more than 10%: None.

13. Other Major Risks : None

VII. Other Important Matters: None
