1. LETTER TO SHAREHOLDERS

Dear Shareholders,

Central Reinsurance Corporation was incorporated in 1968. It is the sole domestic professional reinsurance company in Taiwan with more than fifty years of experience in both domestic and international life and non-life reinsurance business. Since its establishment, the Company has been consistently adhering to solid and prudent philosophy while devoting to core business in reinsurance as well as financial management.

2022 was a difficult year for the insurance industry in Taiwan. The global central bank rate hikes and changes in domestic pandemic policies have affected the level of capital for both life and non-life insurance companies. Moreover, the non-life industry has faced the largest losses in history. Even though epidemic prevention products have affected our operating performance, with strict risk control and immediate response to changes, the Company was able to contain losses at a manageable level. With the collective efforts of all employees, the Company reports a net income of NT\$253 million for the year of 2022.

The Company is committed to strengthen capital base, uphold a steady growth of capacity, and sustain business development. With supports from all shareholders, the Company increased its capital at the end of 2022 to enhance business resilience. As of the end of 2022, the paid-in capital stands at NT\$8 billion and the equity before distribution of dividends stands at NT\$17 billion, an increase of 2.7% from 2021.

Both A.M. Best and S&P Global Ratings affirmed the Company's "A" rating with stable outlook, supported by its solid leading position in Taiwan, sound operating performance in the past, and strong capital level. Both rating companies agree that epidemic claim is a one-time event to the Company and expect profitability to reach previous level in the short to medium term. Maintaining good credit ratings not only demonstrates our strong solvency capability to fulfill our commitment to clients, but also contributes to the development of quality business.

Intensification of climate change risks, political and economic turbulence, and inflation

and rate hikes in major economies have posed challenges to the current world. Facing challenges, the management team will continuously commit to the corporate spirits of “Challenge, Innovation and Teamwork” to pursue stable growth and sustainable development, thereby fulfilling our vision to become “The Best Professional Reinsurer in Asia”.

We are pleased to append below our 2022 Business Report, which provides a summary of the Company’s achievements in implementing the 2022 business plan, budget implementation, financial status, profitability analysis, research and development, as well as highlights of the 2023 Business Plan. We would like to thank you as shareholders for your trust and support and wish you all a healthy and successful year.

Chairman

A handwritten signature in black ink, appearing to read "Chen Fui Yung", written in a cursive style.

Central Reinsurance Corporation mainly engages in non-life and life reinsurance business for domestic and overseas insurance firms. Adhering to its business philosophy of ethical management, stability and integrity, the Company is devoted to maintaining the good order of the insurance market, diversifying risk for its customers, facilitating the development of insurance industry, and fulfilling its corporate responsibilities. To ensure sustainable development, the Company operates its business based on the principles of sound corporate governance, customer-focused services, effective fund utilization, as well as a business profile that focuses on both sound risk management and stable profitability. In order to enlarge its operational foundation and diversify the risk of geographical concentration, the Company not only diligently grows its domestic market, but also continuously expands its international territory through prudent strategies.

The Company is the sole domestic professional reinsurance company in Taiwan and dedicates to build a sound market with government and insurance companies. As a long-term trusted partner with insurance firms, the Company is invited to undertake epidemic prevention products for their demands of risk diversification. While supporting government policies and providing reinsurance capacity, the Company has strictly adhered its risk management and controlled its aggregate exposure. However, due to virus mutation and change of pandemic policies in Taiwan, the P&C insurance market has faced the historical largest loss in 2022. Even though the operating performance is affected, with strict risk control and immediate response to changes, the Company is able to contain losses at a manageable level. With the collective efforts of all its employees, the Company reports a net income of NT\$253,273 thousand for the year of 2022. Appended below is the Company's business report for 2022:

1.1 Implementation of the Business Plan

1.1.1 Business Performance:

The gross premium written for the year is NT\$19,714,070 thousand, being NT\$637,023 thousand or approximately 3.34% over the budgeted NT\$19,077,047 thousand. An analysis is provided below based on business type:

1.1.1.1 Non-life Reinsurance: The gross premium written is NT\$16,529,793 thousand, being NT\$499,585 thousand or approximately 3.12% over the budgeted NT\$16,030,208 thousand. The difference was mainly due to

the increased premium income from casualty insurance.

1.1.1.2 Life Reinsurance: The gross premium written is NT\$3,184,277 thousand, being NT\$137,438 thousand or approximately 4.51% over the budgeted NT\$3,046,839 thousand. The difference was mainly due to the increased premium income from life insurance.

1.1.2 Financial Management:

1.1.2.1 Capital Management:

As at the end of 2022, the total paid-in capital of the Company is NT\$8,003,888 thousand. Total shareholders' equity before distribution is NT\$16,997,748 thousand. The capital structure of the Company remains strong.

1.1.2.2 Reserve Adequacy:

In order to build up a solid financial basis and strengthen its solvency, the Company provides adequate reserves. At the end of 2022, the sum of various reserves is NT\$29,726,222 thousand.

1.1.2.3 Fund Investment:

The investment income is NT\$2,311,845 thousand, being NT\$1,111,456 thousand or 92.59% over the budgeted NT\$1,200,389 thousand.

1.1.3 Credit Ratings:

Based on the Company's strong direct relationships with local clients and solid domestic market position, extremely strong capital adequacy and diversified and prudent investment profile, both A.M. Best and S&P Global Ratings affirmed the Company's "A" credit rating with stable outlook. Meanwhile, Taiwan Ratings Corp. also confirmed the Company's credit rating of "twAA+".

Good credit ratings not only help the Company develop reinsuring high-quality business, but also prove the Company's strong solvency to fulfill its commitment to clients.

1.1.4 Sustainable Development:

In order to promote corporate social responsibility and fulfill sustainable development, the Company has established Sustainable Development Committee directly under the Board of Directors in March 2022. The Company is attaching great importance to specific efforts in Environmental, Social, and Corporate

Governance (ESG) aspects to facilitate sustainable development.

In terms of corporate governance, we actively implement a sound operational system, improve operating performance, and maintain robust finance and adequate solvency in order to create a sustainable business environment and safeguard our customers' and all stakeholders' rights and interests. As for our corporate governance achievements, we have consecutively ranked among the top 6% to 20% of the listed companies in the Corporate Governance Evaluation by the Taiwan Stock Exchange since the first year.

As far as social participation is concerned, we provide underwriting capacities to insurance companies, assume the task of social security, and give emphasis to insurance products related to natural disasters, disadvantaged groups, and the aging society. Meanwhile, we actively cooperate with competent authorities to participate in the development of the policy-oriented business and continue to participate in various charity events to give back to society.

On the environmental sustainability front, we have developed "Risk Management Mechanism" and incorporated climate change risks into our operational strategic plan and decision-making process in accordance to Task Force on Climate-Related Financial Disclosure (TCFD) framework. In addition, responding to the sustainable development roadmap issued by the government in March 2022, the Company has introduced the ISO14064 greenhouse gas inventory and verification process in the same year. In response to the goal of net-zero emission in 2050, the Company has actively implemented energy conservation and carbon reduction measures, purchased green products, and made green investments.

1.2 Budget Implementation and Financial Status

The comparison between the actual and budgeted of 2022 was shown as follows:

Year 2022	Actual	Budget	NT\$ thousands
			Achievement (%)
Operating Revenues	21,338,046	19,567,417	109.05%
Operating Costs	20,831,212	16,984,360	122.65%
Gross Operating Income	506,834	2,583,057	19.62%
Operating Expenses	491,302	515,194	95.36%

NT\$ thousands			
Year 2022	Actual	Budget	Achievement (%)
Net Operating Income	15,532	2,067,863	0.75%
Non-Operating Income and Expenses	7,847	0	100.00%
Income Before Tax	23,379	2,067,863	1.13%
Income Tax Benefit (Expense)	229,894	(265,611)	(86.55%)
Net Income	253,273	1,802,252	14.05%

1.3 Profitability Analysis

The table below shows an analysis on the profitability ratios of 2022 as compared to those of 2021. Due to the impact of epidemic prevention products, underwriting income decreases and the earnings per share (after tax) for 2022 is NT\$0.41, being NT\$3.09 lower than the NT\$3.50 of 2021:

Ratio \ Year		2022	2021	Average
Profitability	Return on Assets (%)	0.51	4.48	2.50
	Return on Equity (%)	1.51	13.78	7.65
	Net Operating Income / Paid-In Capital (%)	0.19	41.85	21.02
	Income from Continuing Operations Before Tax/Paid-In Capital (%)	0.29	41.86	21.08
	Net Profit Margin (%)	1.19	10.10	5.65
	Earnings Per Share (After-Tax) (NT\$)	0.41	3.50	1.96

1.4 Research & Development

1.4.1 Research & Development/Customer Service

1.4.1.1 In order to enhance capabilities in assessing risk from multiple perspectives and strengthening risk identification and management, the Company endeavors to strengthen integrated risk management on a continuous basis. In addition, in order to improve underwriting performance and increase capital utilization, the Company has purchased capital model for pricing and strategy planning purpose.

1.4.1.2 In recent years, the possible impact of climate change on environment and economy has become one of the important risks faced by the insurance industry. The Company continues to research and develop risk

analysis methods related to climate change in order to strengthen the control of catastrophe accumulation risk and its resilience.

1.4.1.3 To improve the Company's operational resilience and strengthen its ability to respond to material events, we have adopted the international standard, ISO 22301:2019-Business Continuity Management (BCM). In the meantime, we have devised operational impact analysis and business continuity management strategies and completed the drill test to ensure that the Company's services will not be interrupted, thereby protecting clients' rights and interests.

1.4.1.4 In order to align with the strategic plan, strengthen internal control and improve work efficiency, the Company has developed information security management system in accordance with ISO27001/CNS27001 and regulations. With a complete off-site back-up system and business continuity management, the Company is able to ensure the confidentiality, comprehensiveness and availability of information system as well as reduce probable losses from accidents.

In future, the Company will continue enhancing information security and making system adjustments and upgrades to align with development plan and accommodate to statutory requirements.

1.4.1.5 The Company endeavors to absorb and adopt the most advanced concepts and technologies from the global market to achieve integrated risk management. With its experience in risk management, the Company provides relevant consulting services to customers. Meanwhile, the Company also assists the competent authority in facilitating risk management policies and regulations for the industry in accordance with government's initiatives. The collective efforts are hoped to help improve the technical standards of risk management of the industry.

1.4.1.6 By means of market analysis and consumer demand observation, the Company provides tailored services to achieve higher quality standard and build up marketing competitiveness. Various supporting programs are offered to customers on a timely basis, including underwriting and claim management expertise, new product design and regulatory and

actuarial consulting services, etc. The purpose is to solidify customer relationship and create superior business opportunities on an ongoing basis.

1.4.2 Talent Development

1.4.2.1 The Company administers the following on-job training through its training system:

- (1) Regular Training: Internally, the Company provides regular training on general knowledge and basic skills, including “Orientation for New Employees”, “Compliance Training and Promotion”, “Internal Audit and Internal Control Self-inspection Training”, “Anti-Money Laundering and Countering the Financing of Terrorism Training”, “Personal Information Protection Awareness Training”, “Information Safety Awareness”, “Employee Confidentiality Obligations and Ethical Corporate Management Training”, “Risk Management Training” (including senior executives) and “Fire Safety Training”. A total of 1,457 persons have attended the training in 2022.
- (2) Professional Training and Statutory Programs: To enhance the employees’ professional knowledge and expertise and elevate their work efficiency, the Company also organizes various job-related courses to accommodate the needs of staff at different business operations and job levels. The Company, in the meantime, has assigned its internal auditors, compliance personnel, anti-money laundering and countering the financing of terrorism personnel, accountants and labor safety personnel to attend relevant external training to meet the statutory requirements. A total of 1,089 employees have attended the external training in 2022.

1.4.2.2 Aligning with business plan and cultivating reinsurance professionals, the Company regularly assigns employees to attend worldwide events. A total of 2 employees have attended international seminars in 2022.

1.4.2.3 On an ongoing basis, the Company encourages its employees to obtain professional licenses for their jobs. So far, a total of 74 employees have

acquired domestic or international licenses on non-life/life insurance, financial management, and auditing.

- (1) Non-life Insurance Underwriters: 24
- (2) Non-life Insurance Claim Adjusters: 7
- (3) Life Insurance Underwriters: 8
- (4) Life Insurance Claim Adjusters: 5
- (5) Fellow of the Actuarial Institute of the R.O.C.: 2
- (6) International Certificates: CPCU 8 persons, ACII 1 persons, SOA ASA 2 persons, CAS ACAS 1 person, FALU 1 person, FLMI 4 persons, LOMA ACS 2 persons, LOMA AAPA 1 person, LOMA ARA 2 persons, FRM 2 persons, ARM 2 persons, CFA 1 person, CISA 1 person.

1.4.2.4 To optimize its human resources, the Company endeavors to place employees at the most suitable positions in terms of personal interest and strengths, in the meantime fulfill the Company's human resources strategies. Therefore, during the year, the Company has recruited 41 new employees, arranged job transfer for 14 employees and promoted 23 employees.

1.5 Summary of the 2023 Business Plan

Based on competitive market, regulatory influence and business environment, the Company has established its 2023 business plan as follows:

1.5.1 Business Strategies

1.5.1.1 Strengthen corporate sustainable governance culture, enhance corporate sustainable value, and practice all aspects of ESG.

Fulfill ethical management, ensure corporate social responsibilities, increase information transparency of corporate governance, continuously enhance the compliance system, establish thorough internal controls and improve operational effectiveness of the Board of Directors.

1.5.1.2 Strengthen capital structure management, enhance the effectiveness of fund utilization and maintain strong financial capacity.

- (1) Solidify capital base, improve financial strength, expand underwriting capacity and risk tolerance to support sustainable development.
- (2) Conduct proper assessment on risk-return relationship, exercise caution in asset allocation to improve the effectiveness of capital utilization and create shareholder value.
- (3) Prudently develop international business, pursue a balanced business portfolio to achieve geographic and business diversification and enhance the effectiveness of fund utilization.

1.5.1.3 Focus on customer demands and provide feedback to the insurance market.

- (1) Grasp market trends and organize professional seminars timely, aiming to enhance customer service quality and strengthen customer relationship.
- (2) Listen to customer needs to provide multifaceted and tailored reinsurance services, creating win-win cooperation opportunities.
- (3) Actively participate in research programs relating to actuarial and statistics, insurance operations, risk management, product design and corporate governance, so as to facilitate the development of the local insurance market.

1.5.1.4 Deepen risk management capabilities and strengthen relevant systems.

- (1) Implement risk management strategically; align business decisions with risk management policies.
- (2) Build a business portfolio with equal emphasis on risk management and stable profitability.
- (3) Closely track the development trend of emerging risks to ensure prudent control of catastrophe risk accumulation.
- (4) Ensure the suitability of risk transactions undertaken; effectively implement risk control procedures.
- (5) Instill a culture of risk awareness; strengthen integrated risk management.

1.5.2 Sales Forecast and Basis

As major economies in Europe and the United States maintain positive growth in 4Q 2022 and zero-COVID policy in China exits, major institutions have successively revised upward their forecasts for global economic growth in 2023. However, Russia-Ukraine war, inflation, and interest rate hike will likely slow the pace of the growth. Although slower economic growth will limit the growth of the insurance market, the rise in interest rates and inflation will increase the costs and indirectly push up premium rates.

In recent years, the global reinsurance market has encountered numbers of major catastrophe loss caused by extreme weather events. Frequency and severity of events are trending upward. Hurricane Ian, drought, flood in Australia, and Storm Eunice have caused huge insurance losses in 2022. Reinsurers are facing an increasingly complex risk profile. Although tightened reinsurance terms in recent renewals, premium rates on the rise, and capacity change in various regions are observed, the overall reinsurance market remains competitive.

Besides continuing to deepen domestic market, the Company has been prudently developing international business to enhance the diversification of its business portfolio. The Company expects that the reinsurance premium income will slightly increase in 2023; however, the trend of reinsurance market and the impact of catastrophe events on the insurance market should be paid close attention to.

1.5.3 Important Production and Sales Policies

Facing the challenging environment, the Company will, as a rating A evaluated by international credit rating agencies, adhere to the principles of prudent underwriting and cautious expanding to develop its domestic and overseas business; in the meantime, establish a best business portfolio with integrated risk management and optimized profitability.

1.6 Future Development Strategies

The Company is committed to becoming the “The Best Professional Reinsurer in Asia”. The Company has established the following development strategies based on the changes in business environment and market trends:

1. Optimize the advantage of domestic establishment; provide professional services

and continuously strengthen the breadth and depth of domestic market.

2. Steadily expand the international market; continuously elevate the operational standards; increase the geographic diversity of the business portfolio and strengthen accumulated risk control and ensure pricing adequacy to enhance the quantity and quality of our overseas business.
3. Develop suitable reinsurance programs to increase underwriting capacity and minimize performance volatility.
4. Regard customer needs; strive for high-quality business and increase service effectiveness to improve customer satisfaction.
5. Continuously elevate the effectiveness of fund utilization and improve asset quality; strengthen fund structure management to pursue steady income growth, thereby ensuring the sustainability of the Company.
6. Pay close attention to risk management as well as the development trend of emerging risks.
7. Instill compliance and internal audit/control procedures; focus on risk management; strengthen corporate governance.
8. Fulfill corporate social responsibilities; achieve sound ethical corporate management to facilitate the continuous development of the insurance market.
9. Cultivate outstanding talents; enhance professional skills and continuously improve business quality.

1.7 Influences of the External Competition, Regulatory Environment and Macro Environment

1.7.1 External Competition

As at the end of 2022, there were three reinsurance companies in Taiwan. Apart from the Company, the other two were General Reinsurance AG Taiwan Branch and RGA Global Reinsurance Company Limited Taiwan Branch. While the high retention ratio maintained by domestic insurers has led to the slowdown of domestic reinsurance market, the momentum in global reinsurance capacity remains abundance. The Company, therefore, is still facing a challenging

business environment.

1.7.2 Regulatory Environment

1.7.2.1 Regulations Governing the Acquisition and Disposal of Assets by Public Companies

In order to accommodate operational needs and strengthen the management of related-party transactions, the competent authority amended the “Regulations Governing the Acquisition and Disposal of Assets by Public Companies” on January 28, 2022. Key points of the amendment include the following:

- (1) Strengthen the management of related-party transactions: The amended Regulations stipulate that, for the acquisition or disposal of assets with a related party by a public company or its subsidiary that is not a domestic public company, if the transaction amount reaches 10% of the total assets of the public company, the public company shall submit relevant materials to the shareholders’ meeting for approval before proceeding in order to protect shareholders’ rights and interests. However, for the dealing of a public company with its parent company or subsidiary, or the dealing between its subsidiaries, the transaction is exempted from the resolution of the shareholders’ meeting. (Amendment of Article 15)
- (2) Improve the quality of external expert opinions: To clearly set out the procedures to be followed by external experts, the amended Regulations stipulate that when professional appraisers and their appraising officers, certified public accountants, attorneys or securities underwriters issue appraisal reports or opinions, in addition to handling relevant operations required when undertaking and executing cases, they shall follow the self – regulatory rules of the respective associations; For a construction enterprise that cannot obtain the appraisal report immediately due to legitimate reasons, after obtaining the appraisal report within two weeks from the date of the fact, a CPA’s opinion is required if the difference between the appraisal result and the transaction price reaches a

certain proportion. Considering the practical operation time required, the time period for a construction enterprise to obtain the aforementioned CPA's opinion has been relaxed to two weeks from the date of obtaining the appraisal report. (Amendment of Article 5 and Article 9)

- (3) Relax disclosure requirements on some transactions: When a public company buys or sells foreign bonds with a rating not lower than Taiwan's sovereign credit rating, the Company is not required to disclose the transaction; When an investment professional, engaging in investment activity on a primary market, either subscribes for foreign government bonds, or subscribes for or resells exchange-traded notes, the investment professional is not required to disclose the transaction. (Amendment of Article 31)

Based on the aforementioned Regulations, the Company has revised relevant internal rules to ensure compliance.

1.7.2.2 Regulations Governing the Preparation of Financial Reports by Insurance Enterprises

In order to align with international practices, enhance the independence of CPA firms and auditors, strengthen the transparency of information disclosure regarding cyber security risk management and coordinate with amendments to the International Financial Reporting Standards (IFRSs) and the current state of adoption of the IFRSs in Taiwan. The competent authority amended "Regulations Governing the Preparation of Financial Reports by Insurance Enterprises" separately on February 16, 2022 and December 29, 2022. Key points of the amendments are as follows:

- (1) In order to strengthen information disclosure regarding cyber security management, it requires insurance enterprises to describe their risk management framework, policies, concrete management programs, and resources invested. At the same time, it also requires insurance enterprises to report losses suffered, possible impacts and countermeasures of significant cyber security incidents. (Amendment of Article 20)

- (2) In order to align with international practices and enhance the independence of CPA firms and auditors, it requires that insurance enterprises disclose the fees paid to CPAs in specific amounts, and the amounts of non-audit fees paid to CPAs as well as the details of the non-audit services. (Amendment of Article 24)
- (3) To clarify the definition of the term “material” as used in the Regulations and to facilitate practical compliance, a new paragraph has been added that defines “material” and the factors that must be considered when evaluating materiality. The amended Regulations also clarify that when judging what qualifies as material information that must be disclosed, an insurance enterprise must consider the information needs of the primary users of financial reports. Other related provisions have also been amended to coordinate with these revisions. (Amendment of Article 4)
- (4) The terms “accounting estimates” and “accounting policies” are expressly defined. Changes in accounting estimates relating to a change in fair value valuation technique for depreciable, depletable and intangible assets must be handled in accordance with the “change in accounting estimates” procedures set out in Article 6. Also, a newly added provision requires a company to assess the effects of a change in accounting policies on the current year’s quarterly financial reports, and if that effects research the threshold set in Article 6, Paragraph 2, the Company will be required to restate its financial reports. (Amendment of Article 6)
- (5) To coordinate with the “Summary of the Auditor Engagement Standards” issued by the Auditing Standards Committee, some of Taiwan’s Statements of Auditing Standards have been renamed and renumbered, and some terminology therein has been revised. (Amendment of Article 9)
- (6) Insurance enterprises must carry out earnings distributions in accordance with the provisions of Article 148-1 of the “Insurance Act”, which requires that, at the end of every fiscal year, an insurance enterprise shall submit the earnings distribution plan for approval at a shareholders meeting. Accordingly, related forms and

notes have been amended. (Amendments of Form 11 of Article 21 and Form 15 of Article 22)

Based on the aforementioned Regulations, the Company has revised relevant internal rules to ensure compliance.

1.7.2.3 Regulations Governing Public Disclosure of Information by Non-life Insurance Enterprises and Regulations Governing Public Disclosure of Information by Life Insurance Enterprises

For the sake of consistency in financial supervision, the competent authority, on May 5, 2022, amended provisions in Article 8 of the “Regulations Governing Public Disclosure of Information by Non-life Insurance Enterprises” and Article 8 of the “Regulations Governing Public Disclosure of Information by Life Insurance Enterprises”, which govern the disclosure of information pertaining to insurance enterprises’ implementation of corporate governance requirements, achievement of sustainability goals, improvement of cyber security management, and performance in the area of ethical corporate management. Principal amendments to the Regulations include the following:

- (1) Newly added provisions require insurance enterprises shall describe the diversity policy of board of directors’ member and describe the specific objectives and the state of its implementation of that policy in its publicly filed statement.
- (2) In order to coordinate with international development trends and to achieve the goal of sustainable development, provisions referring to a company’s “performance in fulfillment of its corporate social responsibility” have been amended as “performance in promoting sustainable development”.
- (3) A company must describe its cyber security framework, policies, and concrete management programs, and must disclose losses suffered due to significant cyber security incidents, the possible impacts therefrom, and measures being or to be taken.
- (4) A company must describe its policy and action plan for ethical corporate management, the state of its implementation of ethical business practices, and the operation of its whistleblower procedure.

1.7.2.4 Regulations Governing Procedure for Board of Directors Meetings of Public Companies

In order to set out clear procedures for the dismissal of company chairpersons, and to fully develop the spirit of corporate governance, the competent authority amended “Regulations Governing Procedure for Board of Directors Meetings of Public Companies” on August 5, 2022. Key points of the amendment include the following:

- (1) A material matter on the agenda of a board of directors meeting shall not be raised as an extemporary motion: Considering that directors must have adequate information and time to assess material matters involving a company’s business operations before they decide upon such matters, the Regulations expressly provide that any board meeting agenda item which will entail discussion of material matters involving the Company’s business operations must be listed in the notice of reasons for convening the board meeting, and shall not be raised as an extemporary motion, even if an emergency or some other legitimate need for doing so is cited. (Amendment of Article 3)
- (2) The election or dismissal of a chairperson of the board of directors must be submitted to the board of directors or the board of managing directors for discussion: The “Company Act” expressly provides that the election of a chairperson shall be made by resolution of a board of directors or a board of managing directors, and any dismissal of a chairperson must also be made by resolution of the same directors or managing directors who made the original election. In view of the fact that the dismissal or election of a board chairperson is a matter of material significance, the Regulations therefore expressly provide that the dismissal or election of a board chairperson must be submitted to the board of directors or the board of managing directors for discussion, and it shall not be raised as an extemporary motion, even if an emergency or some other legitimate need for doing so is cited. (Amendment of Article 7)

Based on the aforementioned Regulations, the Company has revised relevant internal rules to ensure compliance.

1.7.3 Macro Environment

Global CPI inflation is not declining as smoothly as anticipated. Central banks downshift but may not find opportunity to pause. DM central banks delivered more than 300bps of rate hikes over the last six months, the largest tightening in four decades. That these moves came alongside legitimate recession threats. A mild US recession and Fed pivot in 2H23 is the consensus view. There's a risk that the peak in the Fed funds rate could be higher as a recession may be necessary to bring inflation back to central bank comfort zones as labor market conditions remain tight.

Wage pressures build in the Euro area 、UK and Japan. With policy stances still so far from the benchmark in mid-2022, the need for speed to close this gap was foremost. China reopening helps EM sentiment in the near-term. While China's recovery matters more for EM Asia than elsewhere, the sentiment shift from removing this headwind could be significant for EM more broadly. This is enough to postpone depreciation pressures on EM currencies on the back of a slowdown in the global manufacturing cycle.

The pace of global economic growth is strongly linked to the level of potential risks. The insurance industry, in term, is susceptible to changes in economic environment. As far as the reinsurance industry is concerned, the risk of climate change has been determined as the main cause of frequent catastrophe losses in recent years. The loss brought by COVID-19 and the volatility in capital market have affected profits but strengthened the self-discipline of the market. The results of recent renewals demonstrate improved reinsurance terms and premium rates; however, increased vulnerability and instability in global economy remain challenges to the insurance industry. Facing these challenges, the Company will continue to uphold the principles of stability and sustainability, commit to its core business and enhance capital management to achieve its business objectives.

2. COMPANY PROFILE

2.1 Date of Incorporation

October 31, 1968

2.2 Company History

1968~1999	On October 31, 1968, the Company was founded with a capital contribution of NT\$15 million by the Ministry of Finance (MOF) and based on experience from the Reinsurance Department of the Central Trust of China. Using Central Reinsurance Corporation as its full name, the Company is the sole domestic professional reinsurance company in Taiwan. On November 24, 1972, the Central Reinsurance Corporation Act was enacted and promulgated. Since then, the Company has gone through capital injections several times. By the end of 1999, the capital was increased to NT\$3,000 million, among which, 87.04% came from the Ministry of Finance and 12.96% came from the domestic insurance industry.
July 2000	On July 6, 2000, the Company's stocks were officially listed on Taiwan Stock Exchange. The Ministry of Finance allocated NT\$45 million shares for public underwriting, completing the first phase of stock release with the percentage of shareholding by the Ministry of Finance being dropped from 87.04% to 71.27%.
April 2002	The Taiwan Residential Earthquake Insurance Program was officially implemented on April 1, 2002. The Ministry of Finance appointed the Company as the manager of the residential earthquake insurance pool.
July 2002	On July 11, 2002, the Ministry of Finance began the second phase of stock release, with the percentage of government shareholding falling to 48.12%. Since then, the Company has gone private.
August 2003	On August 7, 2003, the Company increased its cash capital by NT\$600 million and paid-in capital from NT\$3,000 million to NT\$3,600 million. Evergreen Group became the largest shareholder of the Company. On behalf of the Taiwan Residential Earthquake Insurance Fund, the Company issued catastrophe bonds in the U.S. and successfully completed fundraising in New York, U.S. on August 25, 2003. This is the first time that our country has issued catastrophe bonds in the international market, with a total issuance amount of US\$100 million and a tenor of 3 years. By doing so, it not only further protects our country's residential earthquake insurance but also suggests that our insurance industry is more in line with the international capital market.
June 2004	On June 23, 2004, the abolition of the "Central Reinsurance Corporation Act" was announced by the Presidential Decree Hua-Zong-Yi-Yi-Zi No. 09300118321.
November 2004	On November 4, 2004, the Company increased its cash capital by NT\$600 million and paid-in capital from NT\$3,600 million to NT\$4,200 million.
August 2005	On August 31, 2005, the Company increased its cash capital by NT\$800 million and paid-in capital from NT\$4,200 million to NT\$5,000 million.
September 2005	On September 26, 2005, the Company was awarded the "Reinsurance Industry Contribution Award" in the 9th Asia Insurance Industry Awards by Asia Insurance Review.
October 2005	On October 26, 2005, the Amendment to the Company's Articles of Incorporation was approved by the special shareholders' meeting to reduce the number of directors from 9 to 7; meanwhile, directors and supervisors were re-elected, and the number of directors representing Evergreen International Corporation increased to 5.
October 2006	On October 20, 2006, the international credit rating agency Standard & Poor's and the domestic Taiwan Ratings Corporation upgraded the Company's financial strength ratings to A- and tw AA+, respectively. The aforementioned rating maintained the same from 2007 to 2012.

August 2007	On August 21, 2007, the Company increased its capital by NT\$250 million from retained earnings and paid-in capital from NT\$5,000 million to NT\$5,250 million.
June 2008	On June 13, 2008, the regular meeting of shareholders re-elected directors and supervisors. After the re-election, there were two independent directors among the seven directors.
August 2008	On August 22, 2008, the Company increased its capital by NT\$262.5 million from retained earnings and paid-in capital from NT\$5,250 million to NT\$5,512.5 million.
June 2010	On June 10, 2010, the international credit rating agency A.M. Best upgraded the Company's financial strength ratings to A. The rating has been maintained up until now.
June 2013	On June 10, 2013, the international credit rating agency Standard & Poor's upgraded the Company's financial strength ratings to A. The rating has been maintained up until now.
July 2013	On July 29, 2013, the Company increased its capital by NT\$110.25 million from retained earnings and paid-in capital from NT\$5,512.5 million to NT\$5,622.75 million.
June 2014	On June 11, 2014, the Annual General shareholders' meeting re-elected directors. After the re-election, there were three independent directors among the nine directors. In the meantime, the Audit Committee is set up to replace the supervisor.
January 2016	On September 8, 2015, the Company acquired the Financial Supervision Commission's approval to its application for the establishment permission of the Offshore Insurance Unit. The Offshore Insurance Unit started the business on January 1, 2016.
July 2018	On July 31, 2018, the Company increased its capital by NT\$281.14 million from retained earnings and paid-in capital from NT\$5,622.75 million to NT\$5,903.89 million.
December 2022	On December 23, 2022, the Company increased its cash capital by NT\$2,100 million and paid-in capital from NT\$5,903.89 million to NT\$8,003.89 million.

3. CORPORATE GOVERNANCE REPORT

3.1 Organization

3.1.1 Organizational Chart

3.1.2 Major Corporate Functions

Department Name	Department Responsibilities
Supervisory Division	Human Resources Department: Responsible for organizational structure and staffing, employee recruitment, appointment, dismissal, and transfer, assessment and promotion, education and training, salary and bonus, pension and severance, insurance and compensation, labor relations, and other matters assigned by superiors. Independent Director, Liu, Wei (Member of the Remuneration Committee, Member of the	➤ Education: Master of Arts, Economics & Energetics, New York University ➤ Professional qualifications and experience: Serves currently as the Contract Advisor in Chevron	Mr. Liu meets the independence criteria stipulated in “Regulations Governing Appointment of Independent Directors and Compliance Matters for Public Companies”.	0

Qualification Name	Professional Qualifications and Experience (Note 1)	Independence Criteria (Note 2)	Number of other public companies in which the individual is concurrently serving as an Independent Director or the member of Remuneration Committee
Audit Committee)	U.S.A. Inc. (Singapore Branch). Prior to this, he was the Director of First Securities Investment Trust Co., Ltd., the Executive Director of Dept. of Insurance Strategy, JPMorgan Asset Management (Taiwan) Ltd., the Senior Vice President of Dept. of Investment, Prudential Life Insurance Company of Taiwan Inc., the Senior Manager of Nan Shan Life Insurance Co., Ltd.		
Note 1: None of the 9 directors of the Company is in the circumstances stipulated in Article 30 of the Company Act. Note 2: The Company reviews the Independent Directors' eligibility once a year. The 3 Independent Directors and their spouses, relative within the second degree of kinship, or lineal relative by blood within the third degree of kinship are not the natural person shareholders holding in an aggregate of 1% or more of the total number of issued shares of the Company or ranking in the top 10 in shareholdings, nor are they directors, supervisors or employees of the Company and its affiliated companies. The 3 Independent Directors are not directors, supervisors or employees of the companies listed in Article 3, Paragraph 1, Subparagraphs 5 to 8 of the "Regulations Governing Appointment of Independent Directors and Compliance Matters for Public Companies". And apart from being an Independent Director and a member of the functional committees of the Company, they do not provide auditing or other professional services for the Company. Accordingly, all of the 3 Independent Directors meet the independence criteria.			

3.2.1.4 Diversity and independency of directors

(1) Diversity of the Board of Directors

- A. The paragraph 3 of Article 22 of the Company's "Corporate Governance Best-Practice Principles" stipulates the composition of the Board of Directors shall be determined by taking diversity into consideration, and the paragraph 4 stipulates all directors of the Board shall have the necessary knowledge, skills, and experience to perform their duties well. The directors of the Company have expertise in different fields such as Finance & Insurance, business management, law, finance accounting, etc., which can enhance the professionalism of the Board of Directors' decision-making and improve the Company's operation and long-term development.
- B. The Board of Directors of the Company consists of 9 directors, 3 of which are independent directors (accounting for 33.33%), 2 directors are the representatives of Ministry of Finance, R.O.C. (accounting for 22.22%), and 1 director who is an employee of International Business Branch (OIU) of the Company (accounting for 11.11%). All directors are Taiwanese.
- C. Gender equality in the board members' composition is deeply concerned by the Company, and the goal of female rate in board members is at least 20%. The current Board of Directors consists of 9 directors and 2 of whom is female, which accounts for 22.22% of the board.
- D. In order to improve corporate governance, the Company modifies the diversity policy in a timely manner according to the actual needs and operation situation of the Board of Directors.
- E. The Diversification of the Company's Board of Directors is as follows:

Title	Name	Gender	Business Management	Risk Management	Finance Insurance	Finance Accounting	Law	Transportation Management
Chairman	Yang, Cheng-Tui	Male	✓	✓	✓			
Director	Chang, Ming-Yuh	Male	✓					✓
Director	Wu, Jiang-Ming	Male	✓					✓
Director	Cheng, Ching-Fen	Female	✓		✓	✓		
Director	Lee, Yi-Fen	Female	✓			✓		
Director	Yang, Chin-Hen	Male	✓			✓		
Independent Director	Chou, Yu-Cheng	Male	✓		✓	✓		
Independent Director	Chang, Bing-Huang	Male	✓		✓		✓	
Independent Director	Liu, Wei	Male	✓		✓	✓		

(2) Independence of the Board of Directors:

- A. The Company has a total of 9 directors, of which 3 are independent directors, accounting for 33.33% of the total number of directors. In order to strengthen the independence and operational efficiency of the Board of Directors, the Company has formulated the “Rules for the Scope of Responsibilities of Independent Directors”. All independent directors perform their duties in accordance with the “Rule of Scope of Responsibilities of Independent Directors” and have not established any improper relationship with the management or the Company’s relationship during their term of office. The three independent directors are able to independently and effectively supervise the operation of the Board of Directors.
- B. There is no spousal relationship or the second degree of kinship among all directors of the Company. If the proposal of the board meeting involves the interests of the directors and may damage the interests of the Company, the directors shall not participate discussion and vote on the proposal so as to ensure that the Board of Directors can make a resolution independently and objectively.

Note1: The names of general managers and assistant general managers should be listed separately, with the disclosure in aggregate of the paid amounts. Where the director concurrently serves as the general manager or assistant general manager, this table, general manager and assistant general manager remuneration table, and remuneration range table should be provided.

Note2: It refers to the salary, allowance, severance paid to general managers and assistant general managers for 2022.

Note3: It refers to bonuses, incentives, travel allowance, special disbursement, various allowances, housing, company car, other physical supplies, and other compensation received by general managers and assistant general managers for 2022. Where the housing, cars, other vehicles, or specific personal expenditure are provided, the nature and cost of the assets provided, the actual value or the fair market value of rent, gasoline, and other payments should be disclosed. If equipped with a driver, please indicate in the note the relevant compensation paid by the Company to the driver, which shall not be included in the remuneration. The salary expense recognized in accordance with IFRS2 "Share-Based Payment" such as acquiring employee share subscription warrants, restricted stock awards, new restricted employee shares, and participating in capital increase by cash with subscription rights should be included in the remuneration.

Note4: It refers to the amount of employee compensation (including shares and cash) for the year of 2022 approved for distribution by the Board of Directors on March 8, 2023. If an estimate is not possible, the proposed distribution amount for this year should be calculated based on the actual distribution amount last year and the names of the managerial officers receiving employee compensation and the distribution table.

Note5: The total amount of remuneration paid to the general managers and assistant general managers of the Company by all the companies (including the Company) in the consolidated financial statements should be disclosed.

Note6: The total amount of remuneration paid to the general managers and assistant general managers by the Company. The names of general managers and assistant general managers should be disclosed in the corresponding aggregate remuneration range.

Note7: The total amount of remuneration paid to the general managers and assistant general managers of the Company by all the companies (including the Company) in the consolidated financial statements should be disclosed. The names of general managers and assistant general managers should be disclosed in the range for the corresponding aggregate remuneration.

Note8: Net income refers to the net income after tax stated in the parent company only financial reports or individual financial reports for 2022.

Note9: a. The amount of the relevant remuneration received by the general managers and assistant general managers of the Company from an invested company other than the Company's subsidiary or parent company should be clearly stated in this field (Please indicate "none" if none exist).

b. Where the general managers and assistant general managers of the Company receive relevant remuneration from an invested company other than the Company's subsidiary or parent company, the remuneration received by the general managers and assistant general managers from the invested company other than the Company's subsidiary or parent company should be included in the Field E of the Remuneration Range Table, with the field name changed to "Parent Company and All Reinvested Companies."

c. Remuneration refers to the relevant remuneration such as compensation, remuneration (including the compensation of employees, directors and supervisors), allowances, etc. received by the Company's general managers and assistant general managers serving as directors, supervisors, or managerial officers of an invested company other than the Company's subsidiary or parent company.

* The detailed information regarding the remuneration disclosed in this table is different from the term of income referred to in the Income Tax Act. As such, this table is for information disclosure only and not for tax purposes.

3.2.3.3 Comparison of Remuneration for Directors, President and Executive Vice Presidents in the most recent two fiscal years and Remuneration Policy for Directors, President and Executive Vice Presidents

- (1) Analysis of the total remuneration, as a percentage of net income stated in the parent company only financial reports or individual financial reports, as paid during the past 2 fiscal years to directors, President and Executive Vice Presidents

2022		2021	
Directors	3.55%	Directors	0.69%
President and Vice Presidents	10.45%	President and Vice Presidents	1.16%

An explanation for the relevance and reasonableness of the profit or loss after tax and changes in remuneration:

According to the Articles of Incorporation, after the deduction of accumulated losses from current year profit, the surplus, if any, should be distributed as remuneration no less than 0.5% to employees and no more than 1% to directors. The remuneration percentage for directors in 2022 complies with the Articles of Incorporation. Due to the decrease in after-tax income, the total remuneration as a percentage of after-tax income in 2022 increases from the previous year.

- (2) Remuneration policies, standards, and packages, the procedure for determining remuneration, and its linkage to operating performance and future risk exposure:

- ① Remuneration to directors includes the items as below:

A. Compensation: The total remuneration of directors is allocated in accordance with the Company's Articles of Incorporation, and within the total compensation to directors, the remuneration of each director is allocated in consideration of the participation of each director in the Company's operations and value of the contribution.

B. Return: Including salary and bonuses, based on the participation

of directors in the Company's operations and value of contribution as well as the circumstances of a similar business.

C. Severance

D. Allowance: travel allowance, other allowances, company car.

Directors' participation and contribution to the Company's operations is determined by Directors' self-performance and the performance appraisal on Board of Directors (including Directors' records of attendance in meetings and training courses, the participation in the Company's operation, and the communication with the management team, et al.).

② Remuneration to Directors, President and Executive Vice

Presidents includes the items as below:

A. Fixed remuneration: including salary and allowances, which are set to deliver according to the Company's salary structure and standards for ranks and levels.

B. Variable remuneration: year-end bonus and employee compensation

C. Severance or pension

Adjustments to the fixed remuneration and variable remuneration are determined based on the results of performance evaluation in the regular annual review, individuals' outstanding performance, and the contribution of departmental performance to the Company. Please refer to page 83.

③ Procedure for determining remuneration

The remuneration paid to Directors, President and Executive Vice Presidents of the Company is in accordance with the Company's Articles of Incorporation and relevant remuneration regulations. In consideration of future risks and circumstances of similar business, the distribution method is proposed and reported to the Compensation Committee for its approval and resolved by the Board of Directors

Note1: Explanation should be provided in the field of “Brief Explanation” regardless whether the answer to “Implementation Status” is “Yes” or “No”.

Note2:(1)The standards for evaluating the independence of CPAs:

Evaluation Item	Evaluation Result	Whether to meet independence or not
1. Whether the CPA is currently employed by the Company to perform routine work for which he or she receives a fixed salary.	No	Yes
2. Whether the CPA has previously served for the Company as an employee and has been separated from the position for less than two years.	No	Yes
3. Whether the CPA is a spouse, lineal relative, a direct relative by marriage, or a sibling of Chairperson or General Manager of the Company.	No	Yes
4. Whether the CPA or the spouse thereof, has invested in the Company, or shares in financial gains therewith.	No	Yes
5. Whether the CPA or the spouse thereof, is an interested part of a director, supervisor, managerial officer, employee, shareholder, etc., of the Company or its affiliated enterprise.	No	Yes

(2) The standards for evaluating the suitability of CPAs:

Evaluation Item	Evaluation Result	Whether to meet suitability or not
1. Whether the CPA is qualified as an accountant to perform accounting business.	Yes	Yes
2. Whether the CPA has been punished by the competent authority and the CPA Association, or punished in accordance with Article 37, Paragraph 3 of the Securities and Exchange Act.	Yes	Yes
3. Whether the CPA has relevant industry knowledge about the Company.	Yes	Yes
4. Whether the CPA conducted audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and generally accepted auditing standards.	Yes	Yes
5. Whether the CPA has no unfair competition in industry and commerce by taking advantage of the accountant status.	Yes	Yes

Note 3: Chief Corporate Governance Officer's continuing education and training:

3.3.5 The Composition and Operations of the Remuneration Committee or Nomination Committee:

3.3.5.1 Professional Qualifications and Independence Analysis of Remuneration Committee Members:

All of the Remuneration Committee members are independent director of the Company, and their professional qualification, experience, independence criteria and number of other public companies in which they concurrently serve as a remuneration committee member is disclosed on page 32 to 34.

3.3.5.2 The duties of the Remuneration Committee are as follows:

- (1) Establish and periodically review the performance evaluation and remuneration policy, system, standards, and structure for directors and managers.
- (2) Periodically evaluate and establish the remuneration of directors and managers.

3.3.5.3 Attendance of Members at Remuneration Committee Meetings:

- (1) The Remuneration Committee is composed of three members.
- (2) The term of office of current Remuneration Committee is from May 28, 2020 to May 27, 2023.
- (3) A total of 6 (A) meetings were held in 2022. Please refer to page 112 to 125 for resolutions made by the Remuneration Committee and the attendance of Committee member is as follows:

Title	Name	Attendance in Person(B)	By Proxy	Attendance Rate (%) 【B/A】 (Note 1 & 2)	Remarks
Convener	Chang, Bing-Huang	6	0	100%	-
Committee Member	Chou, Yu-Cheng	6	0	100%	-
Committee Member	Liu, Wei	6	0	100%	-
Other mentionable items:					

1. If the Board of Directors decline to adopt or modify a recommendation of the remuneration committee, it should specify the date of the meeting, session, content of the motion, resolution by the Board of Directors, and the Company's response to the remuneration committee's opinion (e.g. the remuneration passed by the Board of Directors exceed the recommendation of the remuneration committee, the circumstances and cause for the difference shall be specified): None.
2. Resolutions of the remuneration committee objected to by members or subject to a qualified opinion and recorded or declared in writing, the date of the meeting, session, content of the motion, all members' opinions and the response to members' opinion should be specified: None.

Note:

- (1) If any of the Compensation Committee members has resigned before the end of the year, the date of his/her resignation should be stated in the remarks column. The actual attendance rate (%) should be based on the number of committee meetings held during his/her tenure and the actual number of his/her attendance.
- (2) If any of the Compensation Committee members has been re-elected before the end of the year, both the information of current and former members should be filled in the table, and the status and the re-election date should also be specified in the remarks column. The actual attendance rate (%) should be based on the number of committee meetings held during his/her tenure and the actual number of his/her attendance.

3.3.5.4 Members and Operation of Nomination Committee:

None.

3.3.6 Sustainable Development Implementation Status and Deviations from the “Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies” and Reasons

Promotion Item	Implementation Status (Note 1)			Deviations from “the Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies” and Reasons
	Yes	No	Brief Explanation	
1. Has the Company appointed a full-time (part-time) business unit to facilitate sustainable development matters? Has the Board of Directors delegated a senior management level to administer these matters and to provide updated status to the Board? (The TWSE/TPEX listed companies shall provide the implementation status instead of adoption or explanation)	○		1. The governance structure of sustainable development: Since August 2015, the Project Division has taken charge of coordination and management of various corporate sustainability affairs. To cope with the domestic and international trends of sustainable development, and implement the promotion of various ESG tasks, in 2022, the Company established the “Sustainable Development Committee” (hereinafter referred to as “the Committee”) reporting to the Board of Directors, serving as the dedicated unit of the Company to promote sustainable development. The Committee is convened by a director, who also chairs the meetings. The members of the Committee include the President, Vice-President, and heads of each department and office (however, the Chief Auditor, Head of Compliance at the Head Office are excluded). Under the Committee, the “Execution Unit,” and seven promotion task forces, namely “Corporate Governance,” “Social Welfare,” “Environmental Sustainability,” “Climate Change,” “Product Services,” “Responsible Investment,” and “Employee Care.” The Execution Unit is responsible for assisting the internal communications and contacts within the Committee, and each task force is responsible for planning and implementing various	None

Promotion Item	Implementation Status (Note 1)			Deviations from “the Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies” and Reasons
	Yes	No	Brief Explanation	
			sustainability tasks depending on their respective duties. 2.Operation of the Sustainable Development Committee: The Committee complies with the Company’s sustainability development policies and the principles of the sustainable development, to incorporate the ESG issues of concern to stakeholders into the operating strategies; each promotion task force initiates each program of sustainability actions, with the annual plans formulated. In 2022, there were two meetings convened, to implement the Company’s solid management of sustainable development. 3.The Board of Directors’ supervision over sustainable development: The Company prepares the “Sustainability Report” based on the implementation of sustainable development and the results thereof, and reports such to the Board of Directors at least twice per year. In 2022, three reports were made to the Board of Directors. The contents included the operations of the Sustainable Development Committee, annual promotional plans, and communications with the stakeholders. The Board of Directors reviews the implementation and the results, and urges task forces to adjust, if necessary, to assist in the implementation of the related plans. The Board of Directors convenes regular meetings every quarter, to direct the Company’s major decision making and operating directions,	

Promotion Item	Implementation Status (Note 1)			Deviations from “the Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies” and Reasons
	Yes	No	Brief Explanation	
			including economic, environmental, social aspects, among other aspects, as well as review the implementation effects. In 2022, eight board meetings were convened; among which, 46 proposals were involved the ESG sustainable development related issues, such as additions and amendments to the “Corporate Governance Best Practice Principles,” the “Sustainable Development Policy,” the “Sustainable Development Best Practice Principles,” the “Risk Management Policy,” “Operating Procedures for Risk Management,” and the “Financial Disclosure Policy for Weather Related Risks,” among other proposals, accounting for 50% of total of proposals, to implement the supervision function of the Board of Directors. Additionally, the amendments to related regulations and change in organization must be approved by the Board of Directors, to manage and implement the Company’s sustainable development policies effectively.	
2. Has the Company, in accordance with materiality principle, conducted risk assessments on environmental, social and corporate governance issues related to the Company’s operations? Has the Company established relevant risk management policies or plans? (Note 2) (The TWSE/TPEX listed companies shall provide the implementation status instead of adoption or explanation)	○		The disclosures cover the Company’s sustainable development performance in Taiwan, the main region where our operations are located, from January to December in 2022. The Company assessed relevant risks of critical issues based on the principle of materiality for the sustainability report and formulated relevant risk management policies or strategies as per the risks assessed (see Table 7(3) on page 96 for details). Please visit “Information Disclosures/Corporate Sustainability” or the sustainability report on the Company’s website for details.	None

Promotion Item	Implementation Status (Note 1)			Deviations from “the Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies” and Reasons
	Yes	No	Brief Explanation	
3. Environmental issues (1) Has the Company established suitable environmental management system based on the characteristics of the industry?	○		(1) The Company is a professional reinsurance business and is not an energy-consuming industry with significant pollution. However, to implement the concept of environmental protection, the Company has formulated the Energy Conservation and Carbon Reduction Measures Implementation Guidelines of Central Re, and the General Affairs Department is responsible for formulating, launching, and maintaining relevant environmental management systems and specific action plans, while offering environmental education and training for all employees as appropriate to effectively reduce greenhouse gas emissions and achieve the goal of environmental sustainability. We also need to count the annual greenhouse gas emissions and disclose the figures in the Company's ESG report.	None
(2) Is the Company devoted to improving energy efficiency and using reusable materials with low environmental impact?	○		(2) The Company is committed to improving energy efficiency and reducing the burden on the environment. The specific measures are as follows: a. Improvement to energy efficiency: The Company adjusts the operating and service processes and adopts high energy-efficient equipment, such as announcement of information via the Internet, promotion of duplex printing, reduction of photocopier paper, implementation of a paperless process for meetings, regular maintenance and cleansing of the office air-conditioners	None

Promotion Item	Implementation Status (Note 1)			Deviations from “the Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies” and Reasons
	Yes	No	Brief Explanation	
			to improve the efficiency of the air- conditioned rooms, raising of the temperature of the central air-conditioning system in the office building, as well as the full replacement of lights with energy-efficient ones. b. Reduction of burden on the environment: The Company continues green procurement by purchasing energy-efficient and green labeled products and equipment as well as FSC/PEFC photocopier paper, prints non-important documents with recycled paper, and regularly sends discarded documents to professional paper mills for destruction every year as a source of recycled pulp. c. The Company received a certificate of appreciation in January 2022 from the Taipei City Government for our effort in responding to its ban on disposable and melamine tableware. We also continue to raise our employees’ awareness of waste classification and resource recycling to reduce waste and the burden on the environment. (3) As climate change may have an impact on the environment, ecology, economy, and industries, which will cause a significant impact on corporate sustainable development, the issue of climate change has become one of the main risks to the insurance industry.	
(3) Has the Company assessed potential risks and opportunities of climate change to the Company of the present and future? Has the Company taken measures to address related issues?	○			None

Promotion Item	Implementation Status (Note1)			Deviations from “the Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies” and Reasons
	Yes	No	Brief Explanation	
			To implement corporate governance and improve the risk management system, we have established a Risk Management Committee under the Board of Directors to be responsible for implementing the Company's risk management mechanism and regularly reporting to the Board of Directors on the implementation. Moreover, the Company has set the risk limits for catastrophe in the risk management policy. To control the risk of catastrophe (including climate change related), we have established an early warning mechanism and an over-limit mechanism under the Company's risk management mechanism, and we monitor the risk on a quarterly basis and regularly report the monitoring results to the Risk Management Committee and the Board of Directors. The Company has incorporated climate change risk factors into our operational strategy planning and decision-making process, while having formulated the Climate-related Financial Disclosures Policy with reference to the Guidelines on Climate-related Financial Disclosures of Insurance Companies to continuously optimize the relevant risk management mechanisms. We will also assess our risks and opportunities arising from climate change under the Task Force on Climate-related Financial Disclosures (TCFD) recommendations framework and take countermeasures to mitigate and adapt to the impact of climate change on our operations. Please visit	

Promotion Item	Implementation Status (Note 1)			Deviations from “the Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies” and Reasons
	Yes	No	Brief Explanation	
(4) Has the Company made statistics on greenhouse gas emissions, water consumption and total weight of waste in the past two years? Has the company formulated policies for greenhouse gas reduction, water use reduction or other waste managements?	○		“Information Disclosures/Corporate Governance/XIII. Risk Management Information” or the sustainability report on the Company’s website for details. (4) The Company conducts surveys and counts greenhouse gas emissions, total water consumption, and total weight of waste every year (see the Company’s ESG report for details and official website www.centralre.com) and has formulated the Energy Conservation and Carbon Reduction Measures Implementation Guidelines of Central Re as a reference for all employees to implement various energy conservation and carbon reduction measures. The Company’s management objective of energy conservation and carbon reduction is 0.5% reduction in water and electricity consumption annually. Our main measures implemented: - Continue to raise awareness of water and electricity conservation. - Set the air-conditioner at a temperature of 26-28 degrees; clean and maintain the air-conditioners on a regular basis to improve the energy efficiency. - Replace all traditional lights with energy-efficient ones and turn	None

	Yes	No	Brief Explanation	
4. Social issues (1) Has the Company established relevant management policies and procedures based on the International Bill of Human Rights and relevant regulations?	o		(1) The Company supports and follows the Universal Declaration of Human Rights and honors the basic human rights recognized internationally and never participates in any act that ignores and tramples upon human rights. We take specific actions to ensure that our internal employees and stakeholders are treated fairly and humanely and respected. In addition, we have formulated the Company's Human Rights Policy as per the Company's business characteristics. After a resolution by the Board of Directors on November 7, 2018 to adopt the policy, it was announced on the Company's website as a basis for implementation. The specific management measures related to human rights include the compliance with the competent authorities' regulations and various labor laws and regulations and the formulation of work rules and operating procedures as the basis for management to protect our employees' labor rights and ensure a decent work environment. The Company has never engaged in child labor and forced or compulsory labor, while discrimination, harassment, or any unequal treatment has never occurred in the Company due to race, gender, age, political ideology, or religion. In addition, we have announced the workplace sexual harassment prevention as well as sexual harassment prevention measures and	None

Promotion Item	Implementation Status (Note 1)			Deviations from “the Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies” and Reasons
	Yes	No	Brief Explanation	
(2) Has the Company established and executed reasonable employee benefit policies including salary and rewards, leave policies and so on? Has the Company appropriately reflected the business performance in the employee remuneration?	○		complaint and disciplinary measures on the Company’s internal website. Meanwhile, we offer relevant classes regularly to eliminate gender discrimination and prevent sexual harassment from occurring. (2) a. In accordance with the Labor Standards Law and the Act of Gender Equality in Employment, the Company has established and executed the employee benefit policies. Please refer to page 162. b. In accordance with the Company’s “Articles of Incorporation”, “Regulation of Payment for Managers” and “Regulations Governing the Salary and Compensation to Employees”, it is stipulated that salary and compensation of individual employees (including the management team) shall be adjusted based on their results of regular annual performance review and profit made by the Company. Employee performance reviews of the Company are conducted based on criteria such as “Leadership”, “Knowledge, Experience & Skills”, “Work Performance”, “Sense of Responsibility” and so on.	None
(3) Has the Company provide a safe and healthy working environment for its employees as well as relevant training on a regular basis?	○		(3) In accordance with the Occupational Safety and Health Act and related regulations, the Company has established occupational safety and health policies and management plans. Implementation methods are clearly listed to meet the goals of safety and hygiene, so as to	None

	Yes	No		
			construct a healthy and pleased workplace. In order to provide employees with a safe, healthy, and comfortable working environment, the Company has assigned special personnel to clean the office environment every day and to disinfect on a regular basis. During the COVID-19 prevention period, the office area is disinfected every week. Water quality and carbon dioxide level are inspected every six months and qualified fire protection company is entrusted with maintaining fire-fighting equipment and organizing fire drills for employees every year. In addition, security personnel is employed to implement full-day access control. Furthermore, the Company arranges health check and safety training for new recruits, offers health examination for employees on a regular basis, and provides on-site medical consultation and health education. There were two occupational accidents occurred in FY2022, with two injured employees, accounting for 1.19% of the total number of employees. The type of occupational accidents is falling and improper action. The Company provided the employees with medical treatment and occupational injury leave for the employees who suffered from the accidents. Also, the Company has raised the preventive awareness on occupational accidents to the employees.

	Yes	No	Brief Explanation	
(4) Has the Company established effective competency development plans for its employees?	○		(4) The Company provides professional training courses and seminars for its employees to enhance their professional skills, and also sends them to attend overseas training and conferences according to their qualifications and major projects. We also encourage our employees to pursue various professional certifications to enhance their abilities and develop themselves in various ways. We focus on the development of our managers’ business management and management skills including decision-making ability, strategic marketing, innovation management, global operating trends, organizational change and human resources development sustainable development, in order to provide them with the comprehensive leadership development. In 2022, there were 1,089 attendances to attend related domestic finance and reinsurance courses including 88 attendances for the ESG-related courses.	None
(5) With regard to the customer healthy and safety, customer privacy, marketing and labeling of its products and services, has the Company followed relevant regulations and international standards? Has the Company established relevant protection	○		(5) The Company is a reinsurance company, and its main clients are domestic and foreign insurance companies. Even the Company has no direct contact with consumers, it operates in accordance with the Insurance Law, the Company Law, the Securities Exchange Law, the Personal Data Protection Law and others required by competent authorities and establishes relevant internal control mechanisms. The	None

Promotion Item	Implementation Status (Note 1)			Deviations from “the Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies” and Reasons
	Yes	No	Brief Explanation	
consumers' right policies and grievance procedures?			Company also attaches great importance to information security and personal data protection and sets up a personal data protection team. In addition to the statements on privacy policy and personal data on the Company's website, it has formulated various information security operation manuals in accordance with ISO27001/CNS27001 and related regulations and introduced information security management system (ISMS), thoroughly implementing the protection of customer data. In addition, the Stakeholders section of the Company's website also posts the Company's “complaint and whistleblower operation procedures and complaint channels”. The specialized unit will promptly handle relevant complaints to ensure the protection of the rights of customers and relevant parties. Our business departments also have customer service windows to provide customers with immediate consultation and services.	
(6) Has the Company formulated a supplier management policy that requires suppliers to follow relevant regulations in areas of environmental protection, occupational safety and health, or labor rights, etc., and monitor its implementation?	○		(6) The Company and contractors are dedicated to fulfilling corporate social responsibility, promote sustainable development of the environment and protect basic human rights. The selection indicators of contractors include labor and human rights, health and safety, environmental protection and ethics. The supplier implements the specifications of the case, and requires the main suppliers to follow the contract and other relevant specifications before and after signing	None

Promotion Item	Implementation Status (Note1)			Deviations from “the Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies” and Reasons
	Yes	No	Brief Explanation	
			the contract. The purchasing unit will also set individual evaluation standards according to the different types of procurement cases to ensure that suppliers meet the requirements. In addition, to strengthen the existing or new contractors' concept of the rule of law and human rights, we have formulated the Supplier Management Regulations of the Central Reinsurance Corporation, Supplier CSR Self-Assessment Form, and Supplier Commitment for contractors to sign, thereby ensuring that they can comply with the regulations in the above four aspects during the performance of the contract, to effectively safeguard the quality of contract performance and relevant personnel's rights and interests. In 2022, there's no report about violation of human rights or labor issue of the Company's suppliers. In order to ensure that all contractors can understand the relevant regulations on safety, health and environmental protection in advance, the Company will require contractors to select the person who is responsible for site safety and health coordination, supervision and prevention of hazards for new real estate installations and conversions matters. The Company will also require contractors to survey the environment of construction site before the contract so that they are aware of the potential hazards of the workplace environment to facilitate their preparation of construction safety plans and environmental hazard prevention measures, and

			confirm that they can fully understand of the working environment and potential hazards of operations. In order to respond to global climate change and reduce the negative impact on the environment, the Company has stipulated the “Key Points of the Central Reinsurance Energy Conservation and Carbon Reduction Measures.” When purchasing energy equipment, suppliers are required to provide products which meet the relevant standard, and using green building materials for office repair project to strengthen suppliers’ environmental maintenance responsibilities, and hope to work with suppliers to promote environmental protection and reduce environmental impact to achieve sustainable corporate environment.	
5. Has the Company prepared sustainability report or non-financial information disclosure in accordance with the international standards or guidelines? Did the Company obtain third-party verification for past reports?	○		The Company prepared the 2021 Sustainability Report in June 2022 as per the internationally accepted Global Reporting Initiative (GRI) Standards, which was reviewed by PwC Taiwan under a limited assurance engagement using the standards published by the Accounting Research and Development Foundation in Statement of Assurance Principles No. 1, “Audit and Review of Non-financial Information”. A copy of the assurance report is included in the appendices of this report.	None
6. If the Company has established its own “Sustainable Development Best-Practice Principles for TWSE/TPEx Listed Companies”, please explain the difference between the actual practices and the Principles.				

In August 2015, the Board of Directors approved the formulation of the Company's Corporate Social Responsibility Best Practice Principles and then approved the amendments to said principles in March 2020, January and March 2022, and such principles were renamed Sustainable Development Best Practice Principles, as per which we actively strive to achieve sustainable development. The actual operations are in alignment with the principles.

7. Other important information which is helpful for understanding the Company's sustainable development implementation status:

(1) Appended below are the year of 2022 major implementation plan and achievements of the Company:

The major implementation plan	Achievements
Strengthened Corporate Governance	(1) Strengthen the internal auditors' professional competence: 1 employee passed the CISA exam and was certified in October 2022. (2) Enhanced ESG Information Disclosure: ➤ Disclose relevant ESG information for the first time by referring to SASB standards. ➤ The Company has initially appointed PricewaterhouseCoopers to conduct the verification of the 2021 Sustainability Report and completed the third-party verification by June 30. ➤ The first English version of the 2021 Sustainability Report has been published on the Company's website and uploaded to the Market Observation Post System (MOPS). ➤ In May, we have introduced ISO 14064-1 greenhouse gas inventory standard, and completed the greenhouse gas inventory and verification for the past two years, and the verification results have been disclosed on our official website. (3) The Company has demonstrated excellent performance in the corporate governance, or other specific benefits: purchased \$100 million of green bonds. (4) The Company discloses the information related to the corporate governance status, strategies, risk management, indicators and objectives for climate related risks and opportunities on the Company's website in accordance with the TCFD. (5) E-Learning Project: More than 180 classes have been taught since the e-Learning platform was officially launched in October 2022, with over 900 participants registered for the courses as of February 2023. (6) Executive Development Program: starting from September 2021, the Company has trained one chief auditor and three

The major implementation plan	Achievements
	VP level executives to receive senior executive mentorship and guidance. (7) Ethical management items: The Company has disclosed the “Ethical Management Policy,” “Ethical Corporate Best Practice Principles” and “Procedures for Ethical Management and Guidelines for Conduct” on the Company’s website for employees’ information. In addition, the Company conducts annual education and training on ethical management and law compliance to prevent dishonest behavior. The training was held in November 2022. The topics included prevention of bribery and bribe acceptance, unjust enrichment and unfair competition, infringement of trade secrets, and insider trading, etc. Practical examples were used to promote the importance of ethical management, whistle-blowing system and employee confidentiality. 149 participants attended the seminar. In addition, the Company’s Legal Affairs and Compliance Department provides a monthly report on insurance penalty cases at the management meeting and informs all units accordingly for the employees’ reference.
Promoting Environmental Sustainability	The Company has implemented energy saving and carbon reduction policies issued by the government to conserve water, electricity, gasoline, etc., and to recycle resources and keep track of them regularly. And in 2022, the Company introduced the ISO 14064-1 greenhouse gas inventory standard and completed the greenhouse gas inventory and verification for the past two years, and the verification results are disclosed on the Company’s official website. To fulfill the responsibility of environmental sustainability and to protect the ecology, a corporate-wide beach clean-up event was held on November 13, 2022, with 43 participants, a total of 253 kg of marine litter was removed.
Charity Involvement	(1) Donations to support disadvantaged groups: ➢ “Love the Elderly, Love to Reunite” project organized by the Huashan Social Welfare Foundation: Donated 100 New Year’s dishes, in the amount of NT\$100,000. ➢ Transportation expense subsidy for students in the after-school support program run by the Association for the Sustainable Development of Taiwan Indigenous Peoples in Tainan City: 52 students with a donation of NT\$100,000.

The major implementation plan	Achievements
	➤ Student Dinner Subsidy Program for Kaohsiung Namahsha Junior High School: 69 students benefited from the program, with a donation of NT\$100,000. ➤ Funding for the disability band: NT\$100,000 for 15 students. ➤ Remote Health Promotion Project for the Elderly in Remote Villages by the Digital Humanitarian Association: we sponsored the Lijia Village, Alishan Township Culture and Health Station in Chiayi for one year, in the amount of NT\$100,000. ➤ Meal subsidy for Hualien County Private School of Hope and Love, affiliated with Christian Born Anew Fellowship: donation amounted to NT\$100,000 for 20 students. ➤ Taiwan Mennonite Christian Medical Foundation Mountain and Community Health Care Foundation - Eastern District Vision Care Center: 10 sessions of vision screening services for residents in the eastern part of the countryside, benefiting about 400 people with a donation of NT\$100,000. (2) Financial education for the underprivileged who need banking services: sponsored the 2022 Finance Summer Camp at National Chengchi University, providing financial education opportunities for high school students. 77 participants and NT\$10,000 in donations. (3) To promote environmental conservation campaign: in order to fulfill the environmental sustainability responsibility, to raise employees' awareness on environmental protection and concern for the marine environment, and to jointly protect the environment and ecology, the Company held a corporate beach cleaning event in Wanli, Jinshan, New Taipei City on November 13, 2022, with 43 participants, a total of 253 kg of marine litter was removed. (4) Activities related to the insurance business: ➤ Donated 1,000 residential fire alarms to the New Taipei City Fire Department. ➤ Sponsored "Traffic Safety Education Scholarship for Schools with Excellent Performance" in the amount of NT\$50,000.

The major implementation plan	Achievements
Responding to Climate Change	(1) The “Financial Disclosure Policy for Climate Related Risks” is formulated with reference to the “Guidelines on Climate-related Financial Disclosures of Insurance Companies. ” (2) To assess the risks and opportunities associated with future climate change and to consider the possible trends in the short, medium and long term to reflect the likely course of climate related issues and to respond to the government’s policy to promote the 2050 net zero emissions target. (3) To understand the Company’s exposure to physical and transformational risks, the Company conducted an initial inventory on its insurance and investment businesses. (4) We identify the climate risks associated with the Company using different risk factors related to climate change. The “likelihood of occurrence” and “potential impact” are also used to assess the potential financial impact on the Company. The Company used internal questionnaires to conduct a survey and establish a climate matrix to rank the significance of “own operations, ” “insurance products” and “investment and financing” based on their weighted average results. The results are provided back to each unit for consideration in strategic planning and risk management. (5) The Company has constructed stress test scenarios for the possible growth or decline of the Company’s physical and transition risks based on the IPCC RCPs and the transition scenarios. The assessment results indicate that the Company’s current investment and business strategies are still resilient to a certain extent when faced with climate change risks. (6) The Company has completed an inventory and third-party verification for ISO 14064-1 Scope 1, Scope 2 and part of Scope 3 for 2020 and 2021. The Company’s main energy consumption is from purchased electricity.
Improving Product Service	(1) The Company continues to provide underwritten capacity to the direct contract market for green energy products, including electric vehicles, bicycles, and solar energy storage equipment, in the hope that by supporting the development of the green energy industry, we can achieve the goal of reducing carbon emissions gradually. (2) The risk of natural disasters in agricultural products has increased due to the climate changes in recent years. The Company continues to participate in the co-insurance mechanism of the Agricultural Insurance Fund to help diversify

The major implementation plan	Achievements
	risks and support the development of agricultural insurance. (3) We provide underwriting capacity to the government to promote financial commodity insurance platform to support more diversified channels to purchase financial products, which is beneficial to the financial development in society. (4) To fulfill its corporate social responsibility, the Company supports business under policy with affordable risk and continues to provide underwriting capacity for mandatory automobile liability insurance to increase the protection for all road users in the society. (5) As our country is located in an earthquake zone, the risk of earthquake damage is relatively high. In order to fulfill our corporate social responsibility, we have participated in the Residential Earthquake Insurance Fund since the beginning of its development and continue to provide underwriting capacity so that our people are fully protected from earthquake damage.
Implement Responsible Investment	(1) Incorporate the principles of responsible investment into internal regulations and continue to improve ESG. This topic is introduced to the four major investment flows. (2) Gradually improve the ESG rating status for the overall investment portfolio: evaluated the ESG performance of the overall investment portfolio based on the rating standards of domestic and foreign professional institutions, the proportion of the overall investment portfolio with better than average ESG performance has increased from 76.0% by the end of 2021 to 80.1% by the end of 2022. (3) Continue to invest in sustainability bonds (refer to the issuance information announced by the Taipei Exchange and marked by Bloomberg), which are regularly disclosed in the sustainability report and confirmed by the CPA. (4) The Company has issued periodic stewardship reports to disclose the results of its efforts in stewardship and responsible investment. According to the latest 2021 Institutional Investor Stewardship Information Disclosure Rating Report published by the Stock Exchange, the average score of the rating is 63.86, and the Company's rating is 70, which is higher than the average.

The major implementation plan	Achievements
Promoting Employee Care	(1) Shorten the regular health checkup interval for employees at certain ages and adjust it to once a year for employees over 60 years old instead of once every two years. (2) By considering the annual statistics of the top ten causes of death, we have added two new items to our employee health screening program to protect the employees' health and for early prevention.
Communication with stakeholders	The communication situation and contents reported this year are as follows: (1) Competent authority: ➤ In accordance with the corporate governance 3.0 promoted by the competent authority, the Company approved the establishment of the "Sustainable Development Committee" on March 17 2022 by the board of directors, and set up seven working groups to promote and strengthen the various ESG tasks. ➤ In accordance with the "Taiwan Stock Exchange Corporation Rules Governing the Preparation and Filing of Sustainability Reports by TWSE Listed Companies", the report verification norms were revised in December 2021 to enhance the quality of ESG disclosure. The 2021 Sustainability Report of the Company have been assured or verified by a third party, PricewaterhouseCoopers Taiwan, before June 30. ➤ According to the promotion of corporate governance 3.0 by the competent authority, in order to improve information transparency and promote sustainable management, the 2021 English version of the Sustainability Report was released for the first time this year, and it has been simultaneously disclosed on the Company's official website and uploaded to the Market Observation Post System (MOPS). ➤ In response to the "Sustainable Development Guidemap for TWSE- and TPEX-Listed Companies" launched by the Financial Supervisory Commission in March 2022, the ISO 14064-1:2018 greenhouse gas inventory standard was introduced in 2022. The Company's greenhouse gas inventory and verification operations for the past two-year (2020~2021) were completed in October. ➤ Disclosed the 2021 stewardship Report. ➤ Participated in 15 seminars organized by government, undertook more than 646 official letters from government, and completed more than 200 investigations into reports filed to the Taiwan Stock Exchange Corporation.

The major implementation plan	Achievements
	(2) Shareholders and investors: ➤ The Company made 52 major announcements in Chinese and English and held 1 shareholders' meeting、1 extraordinary shareholders' meeting and 2 investor conferences. ➤ Annual report and monthly revenue were announced on the Company's website on time for shareholders and investors to read. ➤ Reply to 35 calls or emails from investors. (3) Employees: ➤ A total of 4 labor-management meetings were held, 6 resolutions were passed, and 65 major topics were announced on the Company's internal website. ➤ To ensure the sustainable operation of the Company and avoid a gap in senior management, the Company has formulated a succession plan for important management positions, regularly reporting it to the board of directors for deliberation and implementation. (4) Clients: ➤ The Company held 2 seminars with a total of 58 participants. Through mutual exchange opportunities, the Company was able to understand customer needs, meanwhile conveying business philosophy. ➤ The Company held 417 business exchange meetings with a total of 1,269 participants. * If surplus or capital reserve is used to increase capital and allotment of shares, the market price and cash dividend information adjusted retrospectively according to the number of shares issued should be disclosed.

Note 1: Setting forth the highest and lowest market price per share of common stock for each fiscal year, and calculating each fiscal year's average market price based upon each fiscal year's actual transaction prices and volume.

Note 2: Using the number of the outstanding issued shares at year-end as the basis to calculate and the result of distribution resolved by the shareholders' meeting for the next year.

Note 3: If any retroactive adjustment is necessary due to circumstances such as dividend distributions, the earnings per share before after adjustments should be listed.

Note 4: If the terms and conditions of the issuance of equity securities indicate that the dividends not distributed in the current year can be accumulated until the year when there is a surplus and then distributed, any cumulated and unpaid dividends up to the current year their amount shall be disclosed separately.

Note 5: Price-earnings (P/E) ratio = Average closing price per share for the current year / Earnings per share

Note 6: Price-dividend (P/D) ratio = Average closing price per share for the current year / Cash dividends per share

Note 7: Cash dividend yield = Cash dividends per share / Average closing price per share for the current year

Note 8: Net value per share and earnings per share refer to the information during the most recent quarter up to the date of publication of the annual report audited (reviewed) and attested by a CPA. The remaining fields should be filled with information during the current fiscal year up to the date of publication of the annual report.

Note 9: Proposal for the year 2022 loss restitution has not yet been ratified at the stockholders' meeting as of the reporting date.

4.1.6 Dividend Policy and Earnings Distribution Implementation Status

4.1.6.1 Dividend Policy

Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 20% of the remaining amount shall be set aside as legal reserve. Afterwards, the Company shall recognize or reverse special reserve in accordance with regulations, and accumulated unappropriated earnings of the prior period. Appropriation of the remainder shall be proposed by the Board of Directors and resolved by the stockholders.

Shareholders' dividend may be distributed either all in cash, or in the combination of cash and stocks, with the cash dividend not less than 50% of the total amount of distribution.

4.1.6.2 Earnings Distribution Implementation Status

The Company's 2022 loss restitution proposal had been approved by the 24th meeting of the 18th Board of Directors on March 8, 2023. The Company proposed not to distribute dividends for the year 2022, and to cover the deficit of NT\$ 164,211 by legal reserve. The proposal will be submitted to the general meeting of shareholders on May 31, 2023 for adoption.

4.1.6.3 When a major change in the dividend policy is expected, it should be explained: None

4.1.7 The effect of the dividend distributions proposed by the Company's shareholders' meeting upon the Company's business performance and earnings per share:

The Company has not prepared the 2023 financial forecast, so it is not applicable.

4.1.8 Compensation of employees and directors:

4.1.8.1 The percentages or ranges with respect to employee and director compensation, as set forth in the Company's Articles of Incorporation

According to the Articles of Incorporation, minimum 0.5% of profit of the current year distributable as employees' compensation and not exceed 1% of profit of the current year distributable as remuneration of Directors shall be distributed when the Company has profit. However, the Company's accumulated losses shall have been covered before distributing employees' compensation and remuneration of Directors by the aforementioned principles. Employees' compensation may be distributed in the form of shares or in cash; Remuneration of Directors shall be distributed in the form of cash only.

The profit set out in the first Paragraph is meaning thereto income before income tax of the current year including the profit of employees' compensation and remuneration of Directors.

The amount of payment of the employees' compensation and the remuneration of Directors and the distribution manner of the employees' compensation shall be adopted by a majority vote at a meeting of the Board of Directors attended by two-third of the total number of directors and then to be reported to the shareholders' meeting.

4.1.8.2 The basis for estimating the amount of employee and director compensation, calculating the number of shares to be distributed as employee compensation, and the accounting treatment of the discrepancy, if any, between the actual distributed amount and the estimated figure the current period.

- (1) The amount of the employees' compensation of the Company for the year of 2022 is within the range specified in the Articles of Incorporation, based on the profit and a certain ratio of previous distribution, estimated at NT\$ 753,700, and the amount of the remuneration of Directors is based on the profit and the previous distribution experience during the tenure, estimated at NT\$ 240,000. If there is a discrepancy between the actual amount and the estimated amount, it shall be listed as the profit or loss for the year of distribution.
- (2) The basis for calculating the number of shares to be distributed as employee compensation: None.

4.1.8.3 Information on any approval by the Board of Directors of distribution of compensation:

- (1) The amount of any employee compensation distributed in cash or stocks and compensation for directors, and, if there is any discrepancy between that amount and the estimated figure for the fiscal year, these expenses are recognized, the discrepancy, its cause, and the status of treatment shall be disclosed.

The Company's resolution adopted by the 24th meeting of the 18th Board of directors on March 8, 2023 was that the employees' compensation for the year of 2022 was NT\$ 753,700 and the remuneration of Directors was NT\$ 240,000 and that both were distributed in cash. There is no discrepancy between the aforementioned amounts resolved by the Board of Directors and the amount recognized in the 2022 financial reports.

- (2) The amount of any employee compensation distributed in stocks and the size of that amount as a percentage of the sum of the after-tax net income stated in the parent company only financial reports

or individual financial reports for the current period and total employee compensation: None.

4.1.8.4 The actual distribution of employee and director compensation for the previous fiscal year (with an indication of the number of shares, monetary amount, and stock price, of the shares distributed), and, if there is any discrepancy between the actual distribution and the recognized employee or director compensation, additionally the discrepancy, cause, and how it is treated.

The Company's actual distribution in cash for the fiscal year of 2021 was NT\$25,010,082 for employees' compensation and NT\$4,850,000 for the remuneration of Directors. There is no discrepancy between the distributed amount and the amount resolved by the Board of Directors.

4.1.9 Status of a company repurchasing its own shares: None.

4.2 Corporate Bonds

None.

4.3 Preferred Stock

None.

4.4 Global Depositary Receipts

None.

4.5 Employee Stock Options

5.1.1.3 New Products, Potential Customers and Markets

Domestic Non-Life Business

The government has been actively encouraging the non-life insurers to develop new policies and underwrite the risk on agriculture insurance. Non-life insurers also diligently develop new personal insurance products to remain competitive. To facilitate its business development, the Company will also provide timely services to its clients in various aspects including new product design, underwriting techniques training and claim consultancy services.

Domestic Life Business

As for domestic life insurance, the demand for protection life insurance products and old-age protection insurance products such as nursing and elderly care insurance products has increased to match the enhanced insurance protection policies adopted by the competent authority and the trend of an aging population structure and sub-replacement fertility. The development of related life insurance products and sales of care-type health insurance are expected to show positive results. The Company will provide timely and diversified professional consultation on new products, establish and provide experience incidence rates, in order to expand the scope of business.

International Non-life Business

For International business, China, Japan, South Korea, Europe and Middle East are its core markets and the Company prudently expands business in ASEAN, U.S. and India markets. On the other hand, the Company keeps exploring other potential market and line of business to diversify and optimize its portfolio.

5.1.2 Industry Overview

5.1.2.1 Current status and development of the industry

Market Player

According to statistics released by the Insurance Bureau at the end of 2022 (Table 1), there were 52 insurance companies in Taiwan, of which 26 were life insurance companies, 23 were non-life insurance companies and 3 were reinsurance companies. Out of the 26 life insurance companies, 23 were domestic companies while 3 were branches of foreign companies. The 23 non-life insurance companies include 17 domestic and 6 foreign companies.

5.1.2.2 Relevance of the Upstream, Midstream and Downstream Industry

The upstream, midstream, and downstream segments of the insurance industry are reinsurance industry, insurance industry, and insured public, respectively. After non-life and life insurance companies obtain business, besides retaining business according to their own risk tolerance, they may purchase reinsurance from domestic and foreign reinsurance companies directly or through brokers to diversify the risks; therefore, reinsurance companies are the upstream segment of the insurance industry. Similarly, in order for reinsurance companies to diversify the risks and retain most of the business according to their own capacity, they may also purchase reinsurance from domestic and foreign insurance (or reinsurance) companies directly or through brokers. Therefore, retrocessionaires are the upstream segment of the reinsurance industry. The following diagram shows the relations between the upstream, midstream, and downstream segments of the professional reinsurance company (the Company):

Relation Diagram between Upstream, Midstream, and Downstream Segments of the Professional Reinsurance Company

The Company is a professional reinsurance company and undertakes both non-life and life reinsurance business. Business mainly comes from direct insurance companies. Based on the principle of risk diversification, an insurance company reinsures the risks covered under its insurance business to diversify risks. In the event of an insured incident, the Company shares the loss together. Especially, given a great loss of catastrophe event, if reinsurance is not properly arranged, an insurance company may encounter operational concerns. Therefore, the reinsurance industry acts as a stabilizing force in the risk environment to safeguard the sound development of the insurance market.

5.1.2.3 Development trends and competition for the Company's products

In view of the impact of the liberalization and internationalization trend of the insurance market, to improve their competitive advantages, all companies are keenly aiming to enhance service quality and reduce operating costs and form business strategies in response to market changes. As such, the developments of the non-life and life insurance policies and the reinsurance market in 2022 are described as follows:

Domestic Non-life insurance market:

In 2022, the written premium of non-life insurance policies was NT\$221,207 million, an increase of 6.63% compared to the previous year (Table 3). Overall, the written premium of voluntary automobile insurance increased by NT\$6,577 million or 7.28%, because of the stable sales of new cars and the rise of voluntary third-party motor liability insurance premium rate caused by increased loss ratio. Secondly, the written premium of fire increased by NT\$3,177 million or 10.47%, the overall fire insurance market revealed a growth due to some business with large insured amount, increased their total sum insured and adjusted their premium rates. In respect of product market share, automobile insurance continued to account for the highest proportion of all classes of insurance. It accounted for 52.44% of the market share, in which voluntary automobile insurance accounted for 43.80%, and compulsory automobile liability insurance accounted for 8.64%. Secondly, miscellaneous casualty insurance (including engineering insurance, liability insurance, bond insurance,

personal accident insurance, health insurance and miscellaneous property insurance, etc.) accounted for 27.81% of the market share. Fire insurance, marine insurance and aviation insurance accounted for 15.16%, 4.27% and 0.32% of the market share, respectively.

Data source: Taiwan Insurance Institute

In terms of non-life insurance loss in the past two years, the total direct insurance loss amount of the non-life insurance industry in 2022 was NT\$299,597 million, an increase of NT\$204,588 million from NT\$95,009 million in 2021 (Table 4); the direct loss ratio increases to 135.44% from 45.80% in 2021. The increase in the loss amount was mainly due to the increase in the health insurance loss amount, which increased NT\$156,124 million from NT\$1,470 million in 2021 to NT\$157,594 million. Among all

classes, health insurance had the highest loss ratio 2,674.26%, followed by miscellaneous property, 394.90%.

Data source: Taiwan Insurance Institute

The analysis on market share by company shows that Fubon Insurance still has the highest market share of 25.97%, followed by Cathay Century Insurance, Shinkong Insurance, Tokio Marine Newa Insurance, and MSIG Mingtai Insurance, with a market share of 13.62%, 10.80%, 8.01% and 7.19%, respectively. The top five non-life insurance industry's premium income accounted for more than half of that of the entire industry, which is 65.59%.

In addition, the retention ratio analysis shows that the competent authority,

from a supervisory policy perspective, is still making vigorous efforts to guide the industry to increase their retention ratio. In response to competition, non-life insurance companies have been adjusting their reinsurance structure with higher retention ratio. Therefore, the retention ratio of non-life insurance companies remains high.

Currently, the government has been progressively promoting agricultural insurance. In response to market competition, the non-life insurance companies continue to develop new individual insurance products. Both will contribute to the total premium income of the non-life insurance business.

Domestic life insurance market:

In 2022, the premium income of life insurance industry was nearly NT\$2,334,365 million, a decrease of 21.43%. The business results of life insurance industry during the most recent two years are shown in Table 5:

Table 5: Business Results of the Life Insurance Industry

Unit: NT\$, %

Item	2022	2021

Annual growth rate of premium income (%)	(21.43)	(6.10)

Data source: Figures and calculation results are based on relevant data published by the Taiwan Insurance Institute.

Analysis of premium income source: Life insurance accounted for 67.24%, accident insurance for 2.96%, health insurance for 17.94%, and annuity insurance for 11.86%. In terms of individual and group insurance, individual insurance as the key coverage accounted for 98.98%, and group insurance for 1.02%. The development status of various types of insurance: the Covid-19 pandemic has caused an impact on agent channel sales. The increase in interest rates in the U.S. has boosted sales of US dollar-denominated interest sensitive life insurance products; however, more conservative declared

interest rates result in a slowdown in the sales revenue of these products. In addition, USD insurance policy sales were affected by the volatility of the capital market and the depreciation of the NTD against the USD. Individual life insurance was decreased by 20.70% and individual annuity insurance was decreased by 46.62% as compared to last year. PA insurance was increased by 2.19%, and health insurance was increased by 2.57%. As Table 6:

Table 6 Life insurance premium income structure

Unit: 100 million of NT\$; %

Year Type of Insurance	2022			2021

Grand Total	23,343.65	(21.43)	100.00	29,710.96

Data source: Taiwan Insurance Institute

Reinsurance market:

In 2022, there remain three reinsurance companies in Taiwan. Within domestic market, non-life insurance industry has total premium ceded of NT\$66,506 million, NT\$2,573 million or 4.02% up from NT\$63,933 million in 2021. In terms of premium ceded to premium income, the ratio in 2022 is 30.07%, 75 basis points down from 30.82% in 2021. Meanwhile, life insurance industry has total premium ceded of NT\$26,272 million,

NT\$2,006 million or 8.27% up from NT\$24,266 million in 2021. Recently, the government has been encouraging the development of new types of products as well as the sales of protection-type products in order to improve insurance protection and retirement planning for citizens. As a result, protection-type reinsurance market is expected to grow in the future.

Competition situation:

The Company is a professional reinsurance company that has been cultivating Taiwan market for more than fifty years. Cooperating life and non-life reinsurance business with most domestic insurance companies for many years, the Company has built a solid business foundation. In spite of a high penetration in domestic market and a relatively stable market share, the Company still faces challenges of competition from foreign reinsurance companies.

The global reinsurance market has seen a major losses caused by secondary perils such as floods and wildfires in recent years. On the other hand, the frequency of catastrophes such as tropical cyclones, which are traditionally recognized as such, is also much higher than in the past, and inflation has led to an accelerated increase in claims costs. All of these factors have led to the supply of underwriting capacity in the international reinsurance market below expectations. In addition, the premium for risks in the international reinsurance market continues to rise, which may lead to a relaxation in restrictions on foreign reinsurers in some markets. These conditions are not only a major challenge but also an unprecedented opportunity for reinsurers.

The renewal results of this year demonstrate that reinsurers are firmly in control of terms, seeing tightened terms and soaring rates in most market. Despite the notable changes of capacity in the market and seems shifting toward a seller's market, it still remains competitive.

As “Offshore Banking Act” incorporated insurance business as part of international financial business, the insurance companies are allowed to set up offshore insurance units (OIU), which specialize in foreign currency denominated insurance business, reinsurance business, and other insurance related business approved by the competent authorities. The business income

tax exemption from OIU brings advantages to the Company for operating overseas business.

5.1.3 Research and Development

1. A listing of research and development expenditures by the Company during the most recent fiscal year or during the current fiscal year up to the date of publication of the annual report: None.
2. A listing of technologies and/or products successfully developed during the most recent fiscal year or the current fiscal year up to the date of publication of the annual report: None.
3. Future research and development plans and expected research and development expenditures:

The Company has invested considerable human resources and costs over the years and has continuously introduced new services to meet customers' reinsurance needs. However, the Company mainly provides intangible reinsurance services; therefore, R&D investment is not applicable.

4. Whether the Company has laid down an intellectual property management plan linked to operational goals: The Company is in reinsurance industry, mainly undertaking insurance risks arising from insurance products developed by direct insurance companies. Based on the industry's characteristics, there is neither additional intellectual property management plan nor trademark authorization.

5.1.4 Long-Term and Short-Term Business Development Plans

Long-Term Business Development Plan

The Company is committed to becoming the "The Best Professional Reinsurer in Asia". To achieve this goal, the following long-term business plans have been established:

- (1) Optimize the advantage of a domestic establishment; provide professional services to continuously strengthen the breadth and depth of the domestic market.
- (2) Steadily expand the international market; continuously elevate the operational standards; increase the geographic diversity of the business portfolio, strengthen accumulated risk control and ensure pricing adequacy

to enhance and quality of our overseas business.

- (3) Regard customer needs and increase service effectiveness to improve customer satisfaction.
- (4) Continuously elevate the effectiveness of fund utilization and improve asset quality; strengthen fund structure management to pursue steady income growth, thereby ensuring the sustainability of the Company.
- (5) Instill compliance and internal audit/control procedures; focus on risk management; strengthen corporate governance.
- (6) Fulfill corporate social responsibilities; achieve sound ethical corporate management; give back to insurance market and practice sustainable development.
- (7) Reinforce talent development and improve professions to widen the breadth of business development.

Short-Term Business Development Plan

When developing the business plans, the Company always upholds the principles of “Focusing on both quality and quantity; pursuing constant business growth”. While carefully monitoring its service quality, the Company also exercises good control on various risks to ensure continuous profit growth as well as steady operational performance. The 2021 business development plans for the Company’s respective business are highlighted below:

- (1) Domestic Reinsurance Business
 - ① Abide by underwriting disciplines and exercise stringent control over accumulated catastrophe risks to ensure sufficient risk pricing.
 - ② Actively strive for high-quality business, leverage the Company’s marketing advantages in the local market, regard customer needs, provide tailored services and continuously expand the breadth and width of our local market.
 - ③ Support the facultative reinsurance for our clients to tighten the business relationship, thereby increasing treaty reinsurance opportunities.
 - ④ Arrange pro rata retrocession to transfer the assumed property

catastrophe risk, thereby expanding underwriting capacity and reducing the retrocession cost of our catastrophe cover.

- ⑤ Provide professional services to maintain good and close customer relationship; improve the professional image and marketing advantage of the Company by organizing various events, including: professional seminars, consulting services on actuarial know-how and regulatory requirements, assistance on new product development and pricing as well as experience sharing platform for industry.
- ⑥ Constantly grasp the new product trend, the development of InsurTech as well as changes in regulations or policies to seize business opportunities.
- ⑦ Within the Company's risk appetite, continuously support the development of business initiated by the government in response to the implementation of ESG.

(2) International Reinsurance Business

- ① Prudently expand international business and further diversify the risk of geographical concentration and product line to increase the efficiency of capital utilization.
- ② Aim for underwriting profit oriented; periodically monitor the business performance to eliminate underperforming contracts.
- ③ Increase direct business; in the meantime, develop the small and medium size niche market so as to elevate the transparency of underwriting information and identify opportunities for further profit-making.
- ④ Develop high-quality facultative reinsurance business and make full use of underwriting capacity allocated by various markets to enhance profitability.
- ⑤ Pay attention to the impact of climate change and catastrophe risk on the business and arrange suitable retrocession programs to reduce fluctuation in business performance and enhance risk management benefits.

(3) Fund utilization

The Company will continue to follow a prudent investment strategy,

accompanied by strict risk control. Through strengthening asset quality as well as capital utilization, the Company aims for pursuing stable returns in order to support the sustainable development of reinsurance business.

5.2 Market and Sales Overview

Cession Rate (%)	30.07	1.13
Central Re's Inward	12,318	3,129
Our Market Share (%)	18.52	11.91

Source: Taiwan Insurance Institute

5.2.1.3 Market Development

Domestic Non-Life Business

The government has amended various insurance-related regulations. This fact, along with the launch of products initiated by the government and the steady growth in the automobile sales in recent years, are believed to have positive influence on the gross premium written of the non-life insurance industry.

Looking forward to 2023, reasonable underwriting profit is predicted subject to that there is no major large loss in the market.

Domestic Life Business

In order to help the insurance industry to develop and promote diversified insurance protection, to provide stability to the society, and to facilitate the insurance industry to comply with the IFRS 17, the competent authority has guided insurance companies to sell insurance products with low sensitivity in interest rates, such as protection and aging products, and to adjust the product structure in the direction of increasing protection and reducing the weight of savings. Main products have shifted to protection life insurance, unit-linked products, and health insurance products, which meet the demand for retirement, long-term care, and medical protection of new treatments. With the demand for protection products increasing and types of products diversified, there will be room for the growth for reinsurance business development.

International Non-life Business

After frequent catastrophes in recent years and pandemic, global reinsurers have gradually managed to improve the pricing and underwriting. The demand/supply of traditional underwriting capacity is expected to change slightly in the short term. Reinsurance demand for solutions to cope with the challenges from climate change, cyber risk, business interruption and inflation is expected to continue growing.

5.2.1.4 Competitive niche:

According to domestic market research reports, the main considerations for non-life and life insurance companies in selecting reinsurance companies are: (1) credit rating, (2) services provided, and (3) long-term and stable partnership. The analysis of the Company's qualifications for these three aspects are as follows:

(1) Increased financial strength and excellent credit ratings:

After capital increases several times, the Company's paid-in capital went from NT\$ 15 million when it was established, with more than 50 years of development, to NT\$8,004 million by the end of 2022, which is close to the authorized capital of NT\$6,000 million. In addition, in order to build a solid financial foundation and strengthen its solvency capacity, the Company provides

adequate reserves based on business situations.

The international credit rating agency A.M. Best and S&P Global Ratings have given the Company a credit rating of A and a stable rating outlook based on the Company's long-term and good partnership with domestic insurance companies, solid domestic market position, strong capital adequacy and satisfactory operating performance. Also, Taiwan Ratings Corporation has given the Company a credit rating of twAA+.

Having an excellent credit rating will contribute to the operation and development of good-quality business and fully demonstrate that the Company can realize its commitment to customers with strong solvency.

(2) Provide customers with diversified services:

In recent years, the Company has continued to provide diversified services to the insurance market, including:

- ① Providing capacity for reinsurance market and meeting customized reinsurance needs;
- ② Assisting customers in the design and development of new products;
- ③ Providing the market with the Company's experience and achievements in developing risk management;
- ④ Providing timely training for underwriting and claims skills as well as regulatory and actuarial consulting services;
- ⑤ To closely suit the needs of customers, strengthen customer service and enhance its professional image, the Company has held International Reinsurance Business Seminar and Casualty Insurance Underwriting Seminar in 2022.

The Company has organized various professional seminars to satisfy our clients' needs for years. Participants were given the opportunities to discuss on the market status and future trends, share information and improve their expertise. The courses and seminars also contributed to the tightening of client relationship for the Company.

(3) Keep long-term close partnership with customers

The Company has been established for more than 50 years and is the only professional reinsurance company founded in Taiwan. Based on long-term cooperative relationships, the Company has established a profound partnership with domestic non-life and life insurance companies, working together in prosperity for mutual trust and mutual benefit. The Company upholds a sound operation and a positive attitude of proactively responding to customers' needs, observing the reinsurance market's development trend to timely respond to customers' needs, aggressively proposing appropriate reinsurance business model, and providing customers with an optimal reinsurance solution.

5.2.1.5 Positive and negative factors for future development, and the Company's response to such factors:

(1) Positive factors:

① Upgrading credit ratings:

For the Company's financial strength rating, since 2010, the international credit rating agency A.M.Best raised the Company's credit rating to A. In 2013, the international credit rating agency S&P Global Ratings also upgraded its credit rating to A. It shows that international credit rating agencies have highly recognized the Company's long-term sound and good operating performance. A good credit rating will definitely help the Company to expand its business and strive for high-quality business.

② Long-term steady customer relationship and market position

Good customer relationships are critical to reinsurance business operations. As the Country's only professional reinsurance company, the Company's business development with customers in Taiwan is based on a long-term and good cooperative relationship.

③ Maintain a sufficient level of capacity

In recent years, the Company has progressively accumulated various liability reserves and expanded the capital base.

Currently, the special reserve under liabilities has accumulated about NT\$2,910 million, and the equity before distribution of dividends in 2022 was NT\$16,998 million, with a retention capacity remaining at a sufficient level.

- ④ The competent authority has successively lifted restrictions on the use of funds in the insurance industry in recent years.
- ⑤ The competent authority allows the insurance industry to set up an Offshore Insurance Unit (OIU) and provides business income tax exemption for operating overseas business.

(2) Negative factors:

- ① The growth of domestic reinsurance demand is limited. The fiercer market competition, the minor underwriting profits:
As domestic insurance companies continue to maintain a high retention rate, the government is also making a vigorous effort to open up foreign reinsurers and insurance brokers to come to Taiwan for commencing business and set up branches, making the reinsurance market more competitive, market grapple with oversupply, and underwriting profits even thinner.
- ② The weakening of economic data and anticipated decline in earnings expectations are pointing to markets that are likely to move lower, the drivers that made the markets resilient are running out of steam and recession is currently not priced in market. The increase of interest rates may lead to rebalancing of pension funds, adjustments to equity-to-bond conversions may pose potential downside risks to the stock market. Additionally, the volatility of the cryptocurrency market, the rising sentiment of retail investors, persistent inflation, higher terminal interest rates, and renewed geopolitical risks are all potential risks in the market, uncertainty and volatility will remain in 2023.

(3) The Company's response to such factors:

- ① In response to the domestic market's competitive environment, the Company keeps up with market development and

customers' needs. It actively provides reinsurance underwriting capacity for new types of insurance in the industry, thereby increasing new assumed reinsurance business while strengthening the non-proportional reinsurance pricing ability to cater to changes in customers' reinsurance needs and offering excess of loss reinsurance protection. Furthermore, the Company zeros in on the customers' needs, improving customer service with customized services and timely assisting customers in new product design, training for underwriting and claims skills and regulatory and actuarial consulting services, etc., which will enhance the Company's overall marketing advantage and create opportunities and a platform for expanding high-quality business. Meanwhile, it continuously cultivates and engages insurance professionals and marketing talents, promoting the Company's high-quality professional brand and image.

- ② Taiwan is still the main market for the Company to develop non-life and life insurance business. However, in view of diversifying geographic concentration risks and expanding the scale of operations, we will continue to steadily develop the international market, and within the catastrophe risk limits of each region instituted by the Company, expand foreign treaty and facultative reinsurance with caution to increase the source of underwriting profits and strengthen the efficiency in utilization of the funds.
- ③ Given the circumstances that the volatility will get higher in the financial market for the future, credit safety will still be the top concern for the Company's use of funds. As it enters the late stage of interest rate hike, we expect to gradually increase fixed income investment, the best investment choice is the one with a high credit rating, which provides the principal's safety. Also, the exchange rate dynamic hedging is adopted for foreign investment positions to conduct exchange rate hedging better depending on market dynamics, thereby effectively reducing

the cost and increasing the effectiveness of hedging. With moderate investment strategies and accompanied by rigorous risk control, the Company's goal is to pursue safe and stable income while supporting the reinsurance business's sustainable development.

5.2.2 Main product applications and production processes:

(1) Main products applications:

The Company mainly undertakes reinsurance business in Taiwan. After retaining certain amounts, the Company will cede the reinsurance to domestic insurance companies preferentially and the remaining to foreign insurance companies in exchange for reinsurance ceded opportunity. Therefore, such retrocession arrangement can not only diversify the geographical accumulation risk but also stabilize the sound development of insurance market.

(2) Manufacturing processes: Not applicable.

5.2.3 Status of supply of the Company's major raw materials:

Not applicable to the reinsurance industry.

5.2.4 Main clients (suppliers) accounting for over 10% of total sales (procurement) in recent 2 years and their individual purchase (sales) amounts and share and an explanation of the reason for increases or decreases in the above figures:

For main clients accounting for over 10% of total sales amount in recent 2 years, there have been no significant changes in the amounts and the percentage. With respect to statistics on net purchase amount, it is not applicable to the reinsurance industry.

The Net Sales for Main Clients in recent 2 years

5.4 Information on Environmental Protection Expenditure

Any losses suffered by the Company in the most recent year and up to the annual report publication date due to environmental pollution incidents (including any compensation paid and any violations of environmental protection laws or regulations found in environmental inspection, specifying the disposition dates, disposition reference numbers, the articles of law violated, and the content of the dispositions), and disclosing an estimate of possible expenses that could be incurred currently and in the future and measures being or to be taken. If a reasonable estimate cannot be made, an explanation of the facts of why it cannot be made shall be provided:

The Company operates in reinsurance business, which is free of environmental pollution. As of the date of publication of the annual report, the Company has not violated relevant environmental laws or regulations.

5.5 Labor Relations

5.5.1 The Company's implementation status of employee benefit plans, on-job training, continuing education and retirement systems; the status of labor-management agreements and measures for preserving employees' rights and interests are listed in the following.

Employee benefit plans:

- (1) Leave Policies: According to the Labor Standards Act, employees are entitled to annual leave.
- (2) Employee Insurances: Employees are covered by labor insurance, national health insurance, group personal accident insurance and travel insurance on overseas business trips.
- (3) Health Care: The Company offers employee physical examination programs on a regular basis to ensure the physical health of its employees (including physical examination for new employees).
- (4) Bonus: The Company distributes year-end bonus.
- (5) Employee Rewards: The Company distributes employee rewards based on the profit earned during the year and in accordance with the percentage stipulated in the Company's articles of incorporation. The proposed employee reward scheme shall be approved by the Board of Directors and reported to the shareholders at annual general meeting.
- (6) The Company has instituted the employee welfare committee to facilitate the promotion of employee welfare. The Company allocates employee welfare funds on a monthly basis, being a fixed percentage of its sales amount and employee payroll. The welfare funds are used to administer various employee welfare projects.
- (7) Varieties of cash gifts and subsidies: The Company provides cash gifts and subsidies in various occasions, including monetary payments and subsidies for wedding and funerals, as well as sympathy money for illness or injuries.

On-job training and Continuing education:

The Company does not only provide internal regular trainings but also assign employees attending the relevant financial or reinsurance courses in order to encourage its employees to elevate their professional abilities. In 2022, it totals 1,089 attendances to attend various domestic reinsurance, finance, or risk management courses. The Company also holds internal professional trainings and inspires employees to acquire professional certifications and licenses in order to self-improvement. Employees are granted paid official leaves for attending relevant examinations, as well as full-amount subsidy for the

enrollment fee. Please refer to page 8 to 9 for details.

Retirement system:

In accordance with the Labor Standards Law and the Regulations Governing Retirement, Indemnity and Severance of Employees, the Company continuously appropriates labor retirement reserve fund each month and deposits it in the Bank of Taiwan. At the same time, the Company also instituted the pension fund monitoring committee to administer this retirement fund.

After enforcing of Labor Pension Act on July 1, 2005, the amount of labor pension borne by the Company for employees who choose to be applicable to the pension system in the Act is six percent of the monthly wage. The pension fund is submitted to the Bureau of Labor Insurance and deposited into the respective pension fund account of employees.

Labor-management agreement:

The Company regularly holds the labor-management meetings to ensure efficient communication between the employees and the employer. Up to now, the communication runs smoothly.

Measures for preserving employees' rights and interests:

The Company sets forth the human resource regulations in accordance with the Labor Standards Act, the Act of Gender Equality in Employment and so on. In addition, the Company establishes dedicated mailbox and telephone line to receive employee grievance for company's policies, operational opinions or any loss of employee's rights and interests. The purposes are to increase two-way communication, solve problem quickly and prevent problem from occurring.

5.5.2 The loss suffered due to labor conflicts during the recent one year as at the date the annual report is printed, and the estimated amount for current and potential conflicts as well as the measures to deal with these issues:

1. As at the date the latest annual report is printed, the Company does not have any loss caused by labor conflicts during the recent year.

2. Estimated amount for current and potential conflicts as well as the measures to deal with these issues:

The Company has well-established management and welfare systems, and has been actively promoting employer/employee cooperation. It has maintained a harmonious employer/employee relationship. So far, the Company has not suffered from any loss caused by labor conflicts. It is very unlikely that the Company would suffer from any loss caused by labor conflicts in future.

5.5.3 Employee code of conduct or ethical principles:

The Company has established the code of ethical conducts, which shall be followed by all directors and employees. The Company also provides grievance channels for employees to express their opinions. According to the work rules of the Company, employees are required to observe the following service guidelines:

1. Obey the policies and rules of the Company and follow the reasonable guidance of the supervisors at different management levels.
2. Be dedicated to individual job responsibilities, maintain good order at work, and demonstrate team spirit to improve work efficiency.
3. Preserve the good reputation of the Company. The employee should report to the direct supervisor immediately on discovering any matters which may adversely impact the reputation of the Company. Concealment of facts is prohibited.
4. Any job reports should be made in accordance with the hierarchy of authority and responsibility. Bypassing the direct supervisor to report is prohibited. This shall not apply, however, in special cases or emergencies.
5. Supervisors should show respect and care to their subordinates and provide suitable guidance thereto.
6. Employees should cherish the public facilities and avoid waste of money.
7. Employees are not allowed to work for other employers unless required by law or approved by the Company.
8. When performing the duties, we should strive to be sure, and should not make excuses to each other or delay things for no reason.

5.5.4 Protective measures on environmental and personal safety:

1. The office building of the Company is featured by convenient transportation and high-quality work environment. The users of the office building have organized building management committee. The committee conducts regular fire safety and public utility inspections. Security systems and access control are available in the building to ensure the security of the environment and the personal safety of the employees. No case of occupational injury was reported in the office area in 2022.
2. As required by law, the Company has assigned the occupational safety and health affair supervisor and first-aid personnel. They are required to attend on-job trainings and have acquired relevant course certificates. The Company has also established its “Occupational Safety and Health Work Rules” and the annual occupational safety and health management plan as the guidelines for administering relevant employee health and safety matters
3. The Company has organized a Self-Defense Fire Protection Team based on its “Fire Protection Plan”, responsible to handle relevant issues in the building. The Company also organized internal labor safety training and fire-drill on a yearly basis. The drill for 2022 was completed on December 16. A disaster reporting system has been established to minimize the loss
4. The Company has established its Regulations for Energy Saving and Carbon Reduction to fulfill its environmental protection objectives. Regular inspections are conducted to monitor the carbon dioxide concentration in the offices. Water quality test on drinking machines and office disinfection are also carried out in respective floors of the office building.
5. The Company has established the “Regulations for Prevention, Correction, Complaint and Punishment of Sexual Harassment at Workplace”. Dedicated grievance instruments (including hotlines, dedicated fax lines and e-mail box) are available. The Company has disclosed relevant information on both its Intranet and external website.

5.6 Cyber Security Management

- #### 5.6.1
- The cyber security risk management framework, cyber security policy, the specific management programs, and the resources

invested in the cyber security management shall be specified:

1. cyber security risk management framework

To establish an information security operating environment in alignment with the principles of confidentiality, integrity, and availability, improve the security of operations, and reduce the risks, the Company introduced the information security management system (ISMS) in 2018, which is governed by the information security management task force of the personal data protection promotion team. The task force is responsible for coordinating the formulation and implementation of relevant information security policies, conducting risk management, and auditing compliance. The task force's executive secretary is served by the dedicated information security manager. It holds a meeting every year to review and resolve information security guidelines and policies, thereby ensuring the effectiveness of the implementation of information security management measures. The dedicated information security manager reports to the Board of Directors every year on the overall implementation of information security measures, management effectiveness, and relevant issues and strategies.

2. cyber security risk policy

The Company has formulated the Personal Data and Information Security Management Policy and Objectives to implement personal data protection and information security management while in compliance with the Personal Data Protection Act and competent authorities' relevant regulations on personal data protection and information security management, to protect the rights and information security of the parties involved in the personal data, reduce incidents of sensitive and confidential data being compromised, and alleviate the potential impact of information security incidents. The information and communication security policy are as follows:

- (1) Ensure the confidentiality of the Company's relevant business information and the security of personal data, and prevent the Company's sensitive and confidential business information and personal data from being tampered, exposed, damaged, or lost, or services from being terminated due to internal, external, intentional,

or accidental threats and damages.

- (2) Ensure the integrity and availability of the Company's relevant business information and correct implementation of the Company's operations and various business activities, to protect the security of the Company's information assets and ensure that the Company's equipment and network will not encounter service errors or interruptions due to various threats and damage.

3. Specific management programs and resources invested in the cyber security management

The Company has formulated various information security management system operation manuals as per ISO27001/CNS27001 and relevant laws and regulations as the specific compliance goals for various information security management programs. To strengthen information security, the Company has completed the introduction and pre-assessment of the ISMS as per the instructions under an official letter from the competent authority. The Company's ISMS has been pre-assessed by the external third party, SGS Taiwan Limited, in 2018, by which a certificate was issued.

The Company has commissioned external professional organizations to assess our information security as per the Self-Discipline Regulations on Information Security Protection by the Insurance Industry, to take the initiative to identify information security threats and vulnerabilities and continuously improve and enhance our own capabilities to protect the security of our network and information and communication systems. Furthermore, to effectively implement the information and communication security and personal data protection management work and ensure the implementation of our information and communication security and personal data protection management policies, the Company's personal data protection promotion team has established a Management Review Committee to be responsible for implementing, supervising, and improving the operations of the Company's information and communication security and personal data protection management system. The members of the committee are the Company's managers at all levels, and it shall hold a management review meeting at least once a year as per rules, to supervise

the Company's information and communication security and personal data protection operations, coordinate the use of resources, and confirm the effectiveness of the relevant risk management and control mechanisms.

The Company has established a dedicated information security unit as per the Regulations Governing Implementation of Internal Control and Auditing System of Insurance Enterprises to be responsible for launching, planning, and executing various information security management approaches as well as strengthening the information security monitoring mechanisms and constructing protective equipment in response to information security risks. The dedicated information security manager regularly reports the overall implementation of the Company's information security system to the Board of Directors every year, to allow the Company's management to keep abreast of the information security situation and increase their understanding of the Company's information security issues.

5.6.2 List the losses, possible impacts, and countermeasures due to major cyber security incidents in the most recent year up to the date of printing annual report. If it cannot be reasonably estimated, please state the reason:

The Company did not encounter any significant information security incident throughout the year.

5.7 Important Contracts

5.7.1 Non-Life Business

Type of Contract	Major Contents	Counterparty	Period	Restrictions
Reinsurance/ Retrocession Contracts	Non-life reinsurance inward businesses	Domestic non-life insurance companies	2022.01.01-2022.12.31 2023.01.01-2023.12.31	Some contracts include exclusion clauses
	Non-life reinsurance inward businesses	Overseas non-life insurance and reinsurance companies	Inception in each month of the year.	Some contracts include exclusion clauses
	Non-life reinsurance outward businesses	Domestic and overseas non-life insurance companies	2022.01.01-2022.12.31 2023.01.01-2023.12.31	Some contracts include exclusion clauses
	Non-life reinsurance outward businesses	Overseas non-life reinsurance companies	2022.01.01-2022.12.31 2023.01.01-2023.12.31	Some contracts include exclusion clauses

Type of Contract	Major Contents	Counterparty	Period	Restrictions
Catastrophe Reinsurance Contracts	To protect our domestic net retention excess catastrophe losses	Overseas non-life reinsurance companies	1. 2022.02.01-2023.01.31 2023.02.01-2024.01.31 2. 2022.03.01-2023.02.28 2023.03.01-2024.02.29	The contracts include exclusion clauses
	To protect our overseas net retention excess catastrophe losses	Overseas non-life reinsurance companies	2022.05.01-2023.04.30 2023.05.01-2024.04.30	The contracts include exclusion clauses
Stop Loss Reinsurance Contract	To protect our overseas net retention excess losses	Overseas non-life reinsurance companies	2022.01.01-2022.12.31 2023.01.01-2023.12.31	The contracts include exclusion clauses

5.7.2 Life Business

Type of Contract	Major Contents	Counterparty	Period	Restrictions
Reinsurance Contracts	Life reinsurance inward businesses	Domestic and overseas life insurance companies	2022.01.01-2022.12.31 2023.01.01-2023.12.31	Some contracts include exclusion clauses

Analysis of financial ratio in last two years. (If the difference doesn't exceed 20%, the analysis is not required)

1. Changes in Gross Premiums and Changes in Retention Premiums less than last year : Mainly due to gross premiums decreased in 2022.
2. Changes in Reinsurance Claims Paid more than last year : Mainly due to Reinsurance Claims Paid increased in 2022.
3. Return on Total Assets and Return on Equity less than last year : Mainly due to Net Income decreased in 2022.
4. Net Investment Gain on Available Fund and Return on Investments more than last year : Mainly due to Net gain from Investment increased in 2022.
5. Retention Combined Ratio and Retention Loss Ratio more than last year : Mainly due to Reinsurance Claims Paid increased in 2022.
6. Net Reinsurance Commission on Equity less than last year : Mainly due to Reinsurance Commission Revenue decreased in 2022.
7. Changes in Equity less than last year : Mainly due to Net income and other comprehensive income decreased in 2022.

Note:

1. The above financial analyses are prepared in accordance with the “Regulations Governing the Preparation of Financial Reports by Insurance Enterprises”, and these ratios are the key performance indicators of the Company.
2. The Company’s financial information as of March 31, 2023 has been reviewed by CPAs. According to the characteristics of the insurance industry, financial ratios are calculated on a non-annualized basis.

The calculation formula of the analysis item is as follows

1. Operating Ability

- (1) $\text{Changes in Gross Premiums} = (\text{Accumulated Gross Premiums for the current period} - \text{Accumulated Gross Premiums for the prior period}) / \text{Accumulated Gross Premiums for the prior period}$
- (2) $\text{Changes in Reinsurance Claims Paid} = (\text{Accumulated Reinsurance Claims Paid for the current period} - \text{Accumulated Reinsurance Claims Paid for the prior period}) / \text{Accumulated Reinsurance Claims Paid for the prior period}$
- (3) $\text{Changes in Retention Premiums} = (\text{Accumulated Retention Premium for the current period} - \text{Accumulated Retention Premium for the prior period}) / \text{Accumulated Retention Premium for the prior period}$
Retention Premiums = Gross premiums written – Reinsurance premiums ceded
- (4) $\text{Equity on Total Assets} = \text{Total Equity} / \text{Total Assets}$

2. Profitability

- (1) $\text{Return on Total Assets} = [\text{Income after tax} + \text{Interest Expense} * (1 - \text{tax rate})] / \text{Average Total Assets}$
 $\text{Average Total Assets} = (\text{Beginning of period Assets} + \text{End of period Assets}) / 2$
- (2) $\text{Return on Equity} = \text{Income after tax} / \text{Average Equity}$
 $\text{Average Equity} = (\text{Equity for the current period} + \text{Equity for the prior period}) / 2$
- (3) $\text{Net Investment Gain on Available Fund} = \text{Net Investment Gain for the current period} / [(\text{Beginning of period Available Fund} + \text{End of period Available Fund} - \text{Net Investment Gain for the current period})] / 2$
- (4) $\text{Return on Investments} = \text{Net Investment Gain for the current period} / [(\text{Beginning of period Assets} + \text{End of period Assets} - \text{Net Investment Gain for the current period})] / 2$
- (5) $\text{Retention Combined Ratio} = \text{Retention Expenses Ratio} + \text{Retention Loss Ratio}$
- (6) $\text{Retention Expenses Ratio} = \text{Retention Expenses} / \text{Retention Premiums}$
Retention Premiums = Reinsurance Premium written - Reinsurance premium ceded
Retention Expenses = Reinsurance Commission Expenses - Reinsurance Commission Revenue + Overriding Commission Expenses - Overriding Commission Revenue + Selling Expenses + Administration Expenses + Depreciation and Amortization of Own-use Property
- (7) $\text{Retention Loss Ratio} = \text{Retention Reinsurance Claims Paid} / \text{Retention Earned Premiums}$

$\text{Retention Reinsurance Claims Paid} = \text{Reinsurance Claims Paid} - \text{Reinsurance Claims Recovery} + \text{Net changes in Claims Reserve}$

$\text{Retention Earned Premiums} = \text{Gross premiums written} - \text{Reinsurance Premiums ceded} - \text{Net changes in Unearned Premium Reserve}$

3. Operating Structure

(1) $\text{Retention Premiums on Equity} = \text{Retention Premiums} / \text{Equity}$

(2) $\text{Gross Premiums on Equity} = \text{Gross premiums written} / \text{Equity}$

(3) $\text{Net Reinsurance Commission on Equity} = (\text{Unearned Premium Reserve} / \text{Retention Premiums}) * \text{Reinsurance Commission Income} / \text{Equity}$

(4) $\text{Insurance Liabilities on Equity} = \text{Insurance Liabilities} / \text{Equity}$
 $\text{Insurance Liabilities} = \text{Equalization Reserve} + \text{Claims Reserve} + \text{Unearned Premium Reserve} + \text{Other Reserve}$

(5) $\text{Changes in Equity} = (\text{Equity for the current period} - \text{Equity for the prior period}) / \text{Absolute Value of Equity for the prior period}$

(6) $\text{Expenses Ratio} = \text{Expenses} / \text{Reinsurance Premium written}$
 $\text{Expenses} = \text{Reinsurance Commission Expenses} + \text{Overriding Commission Expenses} + \text{Selling Expenses} + \text{Administration Expenses} + \text{Depreciation and Amortization of Own-use Property}$

6.5 A parent company only financial statement for the most recent fiscal year, certified by a CPA, but not including the statements of major accounting items

Not applicable.

6.6 If the Company or its affiliates have experienced financial difficulties in the most recent fiscal year or during the current fiscal year up to the date of publication of the annual report, the annual report shall explain how said difficulties will affect the

Company's financial situation

None.

Audit Committee's Review Report

TO : 2023 Annual General Meeting of Shareholders

Central Reinsurance Corporation (Central Re)

The Board of Directors has prepared the Company's 2022 business report, financial report, and deficit compensation proposal. The CPA firm of PricewaterhouseCoopers, Taiwan has audited the financial report and issued the audit report.

The above business report, financial report, and deficit compensation proposal have been reviewed and determined to be correct and accurate by the Audit Committee members of Central Re. In accordance with Article 14-4 of the Securities and Exchange Act and Article 219 of the Company Act, we hereby submit this report.

Central Reinsurance Corporation

Convener of the Audit Committee: Chou, Yu-Cheng

March 8, 2023

CENTRAL REINSURANCE CORPORATION
FINANCIAL STATEMENTS AND INDEPENDENT
AUDITORS' REPORT
DECEMBER 31, 2022 AND 2021

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

INDEPENDENT AUDITORS' REPORT

PWCR22000342

To Central Reinsurance Corporation

Opinion

We have audited the accompanying balance sheets of Central Reinsurance Corporation (the “Company”) as of December 31, 2022 and 2021, and the related statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2022 and 2021 and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Insurance Enterprises and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountants of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Company's 2022 financial statements. These matters were addressed in the context of our audit of the financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Recognition of reinsurance revenue

Description

For the accounting policy for reinsurance revenue, please refer to Note 4(25) of the financial statements; for critical accounting estimates and assumptions of reinsurance revenue, please refer to Note 5(2) of the financial statements.

The Company's reinsurance revenue accounts for 93% of its operating revenues. The Company estimates reinsurance revenue based on an accrual basis; that is, once reinsurance contracts are signed, the Company elects the ceding company's annual forecasted reinsurance information and then calculates the revenue proportion to be recognized in each month based on previous experience of actual statements. Thereafter, when actual statements are received, original estimates are reversed and actual statements are accrued. The Company then evaluates the reason for differences between actual statements and estimated amounts to adjust the estimated revenues of remaining period, accordingly. Because reinsurance revenue is material to the financial statements and the recognition of reinsurance revenue involves management's professional judgement, we have thus included the recognition of reinsurance revenue as one of the key audit matters in our audit.

How our audit addressed the matter

The procedures that we have conducted in response to specific aspects of the above-mentioned key audit matter are summarized as follows:

1. Obtained an understanding and assessed the Company's policies, internal controls, and processing procedures related to the recognition of reinsurance revenue.
2. On a sample basis, tested the effectiveness of internal controls related to the recognition of reinsurance revenue, including:
 - (1) Checking the accuracy and completeness of recording reinsurance contracts into their system.
 - (2) Checking the consistency of reinsurance revenue recorded in the system with the related information provided by the ceding company.
 - (3) Checking the revenue proportion allocated to each month during the contract period and recognized amounts used by management to determine their accuracy.
 - (4) Checking the accuracy of actual statements and recorded reversal of estimates.
 - (5) Checking whether management had provided clear reasons for its adjustments on the amounts of estimated revenues of each quarter and checked whether such adjustments were appropriately approved.
3. On a sample basis, checked information of actual statements to assess the reasonableness of the Company's adjustments to estimated reinsurance revenue.

Estimation of claims reserve

Description

For the accounting policy for claims reserve (under insurance liabilities), please refer to Note 4(20) of the financial statements; for critical accounting estimates and assumptions of claims reserve, please refer to Note 5(2) of the financial statements; for details on claims reserve, please refer to Note 6(8) of the financial statements.

The Company's claims reserve accounts for 68% of its insurance liabilities. Aside from statutorily required insurances, the Company estimates the ultimate loss ratio and provisions claims reserve based on assessment factors such as information provided by the ceding company, claim development factors, contract type, insurance risk characteristics, market information, and judgement for the experience of claims and underwriting. Because claims reserve is material to the financial statements and the methods and assumptions for calculating claims reserve involve management's professional judgement, we have thus included the estimation of claims reserve as one of the key audit matters in our audit.

How our audit addressed the matter

The procedures that we have conducted in response to specific aspects of the above-mentioned key audit matter are summarized as follows:

1. On a sample basis, checked the accuracy and completeness of financial information used in calculating claims reserve.
2. Used the work of actuarial specialists to assist us in assessing the reasonableness of Incurred-But-Not-Reported losses reserve (including assumed and ceded claims reserve), including:
 - (1) On a sample basis, examined the rationale of the method for calculating the Incurred-But-Not-Reported losses reserve.
 - (2) On a sample basis, examined the rationale of the assumptions used by the Company.
 - (3) On a sample basis, recalculated Incurred-But-Not-Reported losses reserve under the assumptions used by the Company to ensure the accuracy of the reserves recognized by the Company.
3. Tested a selection of material claims that were Reported-But-Not-Paid and assessed the reasonableness of the claims reserve for such cases.

Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Insurance Enterprises and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the Company's financial reporting process.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from error or fraud and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgement and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

CENTRAL REINSURANCE CORPORATION
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

(Expressed in thousands of New Taiwan dollars, unless otherwise stated)

1. HISTORY AND ORGANIZATION

Central Reinsurance Corporation (the “Company”) was originally a state-owned enterprise, incorporated on October 31, 1968, and provides a broad range of property and life inward and outward reinsurance services. The Company’s shares of stock have been traded on the Taiwan Stock Exchange since July 6, 2000. On July 9, 2002, the Ministry of Finance (MOF), the major shareholder of the Company, privatized the Company in accordance with rules of privatization of government-owned enterprises, effective on July 11, 2002. In addition, the Company has obtained the certificate for establishment and business license for its offshore insurance branch, and commenced its operation on January 1, 2016. Evergreen International Corporation holds 33.28% equity interest in the Company and has the ability to control the Company. Evergreen International Corporation is the Company’s parent company.

2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION

These financial statements were authorised for issuance by the Board of Directors on March 8, 2023.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS”) that came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by the FSC and became effective from 2022 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 3, ‘Reference to the conceptual framework’	January 1, 2022
Amendments to IAS 16, ‘Property, plant and equipment: proceeds before intended use’	January 1, 2022
Amendments to IAS 37, ‘Onerous contracts—cost of fulfilling a contract’	January 1, 2022
Annual improvements to IFRS Standards 2018–2020	January 1, 2022

The above standards and interpretations have no significant impact to the Company’s financial condition and financial performance based on the Company’s assessment.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Company

New standards, interpretations and amendments endorsed by the FSC effective from 2023 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IAS 1, 'Disclosure of accounting policies'	January 1, 2023
Amendments to IAS 8, 'Definition of accounting estimates'	January 1, 2023
Amendments to IAS 12, 'Deferred tax related to assets and liabilities arising from a single transaction'	January 1, 2023

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by International Accounting Standards Board
Amendments to IFRS 16, 'Lease liability in a sale and leaseback'	January 1, 2024
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'	January 1, 2023
Amendments to IAS 1, 'Classification of liabilities as current or non-current'	January 1, 2024
Amendments to IAS 1, 'Non-current liabilities with covenants'	January 1, 2024

Except for the following, the above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment. The quantitative impact will be disclosed when the assessment is complete.

A. IFRS 17, 'Insurance contracts'

IFRS 17, 'Insurance contracts' replaces IFRS 4 and establishes principles for the recognition, measurement, presentation and disclosure of insurance contracts issued. The standard applies to insurance contracts (including reinsurance contracts) issued, to reinsurance contracts held and to investment contracts with discretionary participation features issued, provided the entity also issues insurance contracts. Embedded derivatives, distinct investment components and distinct

performance obligations shall be separated from the insurance contracts. An entity shall, at initial recognition, disaggregate a portfolio into three groups of contracts: onerous, no significant risk of becoming onerous, and remaining contracts. IFRS 17 requires a current measurement model, where estimates are remeasured in each reporting period. The measurement is based on the building blocks of discounted, probability-weighted cash flows, a risk adjustment and a contractual service margin ('CSM') representing the unearned profit of the contract. An entity may apply a simplified measurement approach (the premium allocation approach) to some insurance contracts. An entity recognizes the profit from a group of insurance contracts over the period the entity provides insurance coverage, and as the entity is released from risk. If a group of contracts is or becomes loss-making, an entity recognizes the loss immediately. Entities are required to present separately insurance revenue, insurance service expenses and insurance finance income or expenses and to disclose information about amounts, judgements and risks arising from insurance contracts.

B. Amendments to IFRS 17, 'Insurance contracts'

The amendments to IFRS 17 include the deferral of effective date, expected recovery of insurance acquisition cash flows, contractual service margin attributable to investment services, reinsurance contracts held – recovery of losses and other amendments, and they are not intended to change the fundamental principles of the standard.

C. Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'

The amendment permits an entity to apply an optional classification overlay in the comparative period(s) presented on initial application of IFRS 17. The overlay allows all financial assets, including those held in respect of activities not connected to contracts within the scope of IFRS 17, to be classified, on an instrument-by-instrument basis, in the comparative period(s) in a way that aligns with how the entity expects those assets to be classified on initial application of IFRS 9. The overlay can be applied by entities that have already applied IFRS 9 or will apply it when they apply IFRS 17.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

These financial statements have been prepared in accordance with the “Regulations Governing the Preparation of Financial Reports by Insurance Enterprises”, International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the “IFRSs”).

(2) Basis of preparation

A. The Company does not have a subsidiary, and the Company's financial statements are separate financial statements composed of the balance sheet, statement of comprehensive income, statement of changes in equity, statement of cash flows, and relevant notes.

B. Except for the following items, these financial statements have been prepared under the historical cost convention:

- (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
- (b) Financial assets at fair value through other comprehensive income.
- (c) Defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligation.
- (d) Various insurance liabilities and reinsurance reserve assets recognized in accordance with specific statutory requirements and regulations relevant to insurance enterprises.

C. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 5.

(3) Foreign currency translation

A. Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (the "functional currency"). The financial statements are presented in New Taiwan Dollars ("NTD"), which is the Company's functional currency.

- (a) Transactions denominated in foreign currencies are translated into functional currency at the spot exchange rates prevailing at the transaction date. The translation differences upon actual payment are recognized in current profit or loss.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the reporting date. Exchange differences arising upon re-translation at the reporting date are recognized in current profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) Except for aforementioned non-monetary assets denominated in foreign currencies held at fair value through profit or loss, foreign exchange gains or losses that arise from investing activities are recognized under net gain (loss) from investment in the statement of comprehensive income. Other foreign exchange gains or losses that do not arise from investing activities are recognized under other operating revenues or other operating costs.

B. The financial position and financial performance of offshore insurance branch that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (a) Assets and liabilities for each balance sheet presented are translated at the spot exchange rate at the date of that balance sheet;
- (b) Income and expenses for each statement of comprehensive income are translated at spot exchange rates of the trade date; and
- (c) All resulting exchange differences are recognized in other comprehensive income.

(4) Cash equivalents

- A. The statement of cash flows is prepared on the basis of cash and cash equivalents.
- B. Cash equivalents refer to short-term, highly liquid investments that are:
 - (a) Readily convertible to known amount of cash; and
 - (b) Subject to an insignificant risk of changes in value.
- C. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations (including time deposits within 12 months of the contract period) are classified as cash equivalents.

(5) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortized cost or fair value through other comprehensive income. A financial asset is eligible for designation for the overlay approach if, and only if, the following criteria are met:
 - (a) It is measured at fair value through profit or loss applying IFRS 9 but would not have been measured at fair value through profit or loss in its entirety applying IAS 39; and
 - (b) It is not held in respect of an activity that is unconnected with contracts within the scope of IFRS 4.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. The Company subsequently measures the financial assets at fair value, and recognizes the gain or loss in profit or loss.
- D. The Company recognizes profit or loss when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.
- E. The Company values the difference of reclassification amounts of financial assets at fair value through profit or loss and fair value through other comprehensive income for the financial assets applying overlay approach, using:
 - (a) The amount reported in profit or loss for the designated financial assets applying overlay approach under IFRS 9; and

- (b) The amount that would have been reported in profit or loss for the designated financial assets if IAS 39 had been applied.

(6) Financial assets at amortized cost

- A. Financial assets at amortized cost are those that meet all of the following criteria:
 - (a) The objective of the Company's business model is achieved by collecting contractual cash flows; and
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at amortized cost are recognized and derecognized using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. Interest income from these financial assets is included in finance income using the effective interest method. A gain or loss is recognized in profit or loss when the asset is derecognized or impaired.

(7) Non-hedging and embedded derivatives

- A. Non-hedging derivatives are initially recognized at fair value on the date a derivative contract is entered into and recorded as financial assets or financial liabilities at fair value through profit or loss. They are subsequently remeasured at fair value and the gains or losses are recognized in profit or loss.
- B. Under the financial assets, the hybrid contracts embedded with derivatives are initially recognized as financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income and financial assets at amortized cost based on the contract terms.

(8) Impairment of financial assets

For financial assets at amortized cost such as accounts receivable, other financial assets and refundable deposits under other assets, etc., at each reporting date, the Company recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased or credit impaired since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts.

(9) Investment property

- A. An investment property is stated initially at its cost including related transaction costs; measured subsequently using the cost model and stated at cost less accumulated depreciation and accumulated impairment loss. Subsequent costs of major renewals and betterments are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. Repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

- B. The Company uses a portion of the property for its own use and another portion to earn rentals or for capital appreciation. When these portions can be sold separately, the own-use portion is accounted for in accordance with IAS 16, “Property, Plant and Equipment”. However, property held either to earn rental income or for capital appreciation or for both is subject to IAS 40, “Investment Property”. If part of property cannot be individually sold, and owner-occupied property is insignificant, it is accounted for as investment property.
- C. An investment property shall be derecognized on disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposal. When assets are derecognized, the cost and the accumulated depreciation at the time of sale or retirement are written off. Gain or loss on sale of the investment property, rental income, and relevant payment shall be recognized in gain or loss on investment property under net gain from investment. Except for land, property is depreciated on a straight-line basis over its estimated useful life of 3 to 60 years. The assets’ residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance sheet date. If expectations for the assets’ residual values and useful lives differ from previous estimates or the patterns of consumption of the assets’ future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, “Accounting Policies, Changes in Accounting Estimates and Errors”, from the date of the change.

(10) Leasing arrangements (lessee) — right-of-use assets/ lease liabilities

- A. Leases are recognized as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Company. For short-term leases or leases of low-value assets, lease payments are recognized as an expense on a straight-line basis over the lease term.
- B. Leases liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are fixed payments, less any lease incentives receivable. The Company subsequently measures the lease liability at amortized cost using the interest method and recognizes interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognized as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.
- C. At the commencement date, the right-of-use asset is stated at cost, which is the amount of the initial measurement of lease liability. The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset’s useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognized as an adjustment to the right-of-use asset.
- D. For lease modifications that decrease the scope of the lease, the lessee shall decrease the carrying amount of the right-of-use asset and remeasure the lease liability to reflect the partial or full termination of the lease, and recognize the difference in profit or loss.

(11) Reinsurance contract assets

Reinsurance contract assets include due from reinsurers and ceding companies, ceded unearned premium reserve, ceded claims reserve, ceded premium deficiency reserve, ceded liability reserve and ceded liability adequacy reserve. Each of the reinsurance contract assets should be in compliance with relevant regulation and policy of “Regulation Governing Financial and Business Operations of Professional Reinsurance Enterprises” and “Regulations Governing the Preparation of Financial Reports by Insurance Enterprises”.

(12) Impairment on reinsurance contract assets

Regular evaluation on reinsurance assets should be made to evaluate if there is any impairment. When there is objective evidence, as a result of an event that occurred after initial recognition of the reinsurance asset, that the Company may not receive all amounts due to it under the terms of the contract; and that event has a reliably measurable impact on the amounts that the Company will receive from the reinsurer, the Company should reduce its carrying amount accordingly and recognize impairment loss.

(13) Property and equipment

- A. Property and equipment are stated initially at its cost including related transaction costs, measured subsequently using the cost model and stated at cost less accumulated depreciation and accumulated impairment loss. Reserve for land revaluation increment tax set aside for revaluation over the current land value is recognized as deferred income tax liabilities. Subsequent costs of major renewals and betterments are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. Repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- B. Depreciation is computed using straight-line method over the estimated service lives as follows: buildings and equipment, 3 to 60 years; computer equipment, 3 to 6 years; transportation equipment, 3 to 10 years; and miscellaneous equipment, 3 to 10 years.
- C. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance sheet date. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, “Accounting Policies, Changes in Accounting Estimates and Errors”, from the date of the change.
- D. When an asset is retired or disposed, the cost plus revaluation increment, if any, and related accumulated depreciation are removed from the accounts, and the resulting gain or loss is credited or charged to non-operating income and expenses during the financial period in which they are incurred.

(14) Impairment of non-financial assets

The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized. Impairment loss and gain on reversal of impairment loss for investment property are recognized under operating revenue. Impairment loss and gain on reversal of impairment loss for property and equipment are recognized in non-operating income and expenses.

(15) Loss allowance

- A. Loss allowance for accounts receivable, other financial assets and refundable deposits under other assets should be assessed and recognized in accordance with IFRS 9 and the "Guidelines for Handling Assessment of Assets, Loans Overdue, Receivable on Demand and Bad Debts by Insurance Enterprises".
- B. Loss allowance for reinsurance contract assets and reinsurance liability reserves contributed under other assets should be assessed and recognized in accordance with IFRS 4 and the "Guidelines for Handling Assessment of Assets, Loans Overdue, Receivable on Demand and Bad Debts by Insurance Enterprises".

(16) Financial liabilities at fair value through profit or loss

- A. Financial liabilities at fair value through profit or loss are financial liabilities held for trading. Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorized as financial liabilities held for trading unless they are designated as hedges.
- B. At initial recognition, financial liabilities at fair value through profit or loss are measured at fair value plus transaction costs. The Company subsequently measures the financial liabilities at fair value, and recognizes the gain or loss in profit or loss.

(17) Derecognition of financial assets and financial liabilities

The Company derecognizes a financial asset when one of the following conditions is met:

- A. The contractual rights to receive the cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows of the financial asset have been transferred and the Company has transferred substantially all risks and rewards of ownership of the financial asset.
- C. The contractual rights to receive cash flows of the financial asset have been transferred; however, the Company has not retained control of the financial asset.

A financial liability is derecognized when the obligation specified in the contract is either discharged or cancelled or expires.

(18) Offsetting financial assets and financial liabilities

Financial assets and financial liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

(19) Classification of reinsurance contracts

Classification of reinsurance contracts should be made in compliance with IFRS 4, “Insurance Contracts”.

An insurance contract is a contract under which one party (the insurer) accepts significant insurance risk from another party (the policyholder) by agreeing to compensate the policyholder if a specified uncertain future event (the insured event) adversely affects the policyholder. A contract with no significant insurance risk being transferred is not classified as an insurance contract and is recognized by deposit accounting.

A contract that falls within the definition of insurance contract on the initial recognition will still be deemed as insurance contract before its maturity.

(20) Insurance liabilities

The reserves related to Compulsory Automobile Liability Insurance are determined in accordance with “Regulations for Management of the Reserve of Compulsory Automobile Liability Insurance”. The special reserve related to residential earthquake insurance is determined in accordance with “Regulations Governing Implementation of the Residential Earthquake Risk Spreading Mechanism”. The reserve related to nuclear insurance is determined in accordance with “Regulations Governing the Setting Aside of Nuclear Insurance Liability Reserves”.

The reserves excluding the reserve listed above were determined in accordance with “Regulations Governing Financial and Business Operations of Professional Reinsurance Enterprises” and “Regulations Governing the Preparation of Financial Reports by Insurance Enterprises” to calculate unearned premium reserve, claims reserve, premium deficiency reserve, liability reserve, liability adequacy reserve and other reserve of inward reinsurance business.

According to “Directions for Strengthening Special Reserve by Reinsurance Enterprises”, “Directions for Strengthening Co-insurance Reserve of Residential Earthquake Insurance” and “Regulations for Reserving Nuclear Energy Insurance Reserve by Non-Life Insurance Enterprises” dated December 28, 2012, subsequent special reserve recognized under liabilities by December 31, 2012 should still be recognized under liabilities. Starting from January 1, 2013, the additional provision for special reserve less income tax should be recognized as special reserve under equity after annual closing and should not be distributed without approval. The release of the special reserve shall be made through special reserve under liabilities first. If such reserves are insufficient for release, then the deficiency shall be released through special reserves under equity based on its net amount after tax in accordance with IAS 12.

Among the reserves above, except for unearned premium reserve for long-term fire insurance which was calculated at a rate of 7.8% based on the coefficient table of unearned premium reserve for long-term fire insurance, the other reserves were not calculated by discounting.

(21) Liability adequacy test

When the estimated future cash flow of insurance contracts recognized as insurance liability at book value is insufficient, the entire deficiency is recognized in current loss in accordance with the requirement of the Actuarial Institution of Republic of China.

(22) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expenses in that period when the employees render service.

B. Pensions

(a) Defined contribution plan

For defined contribution plan, the contributions are recognized as pension expenses when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plan

i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Company in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plan is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The defined benefit net obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability; when there is no deep market in high-quality corporate bonds, the Company uses interest rates of government bonds (at the balance sheet date) instead.

ii. Remeasurement arising on defined benefit plan are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.

iii. Past service costs are recognized immediately in profit or loss.

C. Employees' compensation and directors' remuneration

Employees' compensation and directors' remuneration are recognized as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts should be recognized in profit or loss of the following year.

(23) Income tax

A. The income tax expense (benefit) for the period comprises current and deferred income tax.

Income tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.

- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. Income tax on undistributed earnings is recorded as expense in the year when the stockholders approve to retain the earnings.
- C. Deferred income tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the balance sheet. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit nor loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.
- D. Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each reporting period, unrecognized and recognized deferred income tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current income tax assets against current income tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.

(24) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to common stock on the effective date of new shares issuance.

(25) Reinsurance revenues

Income from reinsurance business refers to various premiums earned from reinsurance operations, including those that meet the requirements in IFRS 4 and can be recognized as income. The Company's estimates for reinsurance premium income are assessed based on estimated premiums of reinsurance contracts, information provided by ceding companies, and historical trends. Reinsurance related revenues are recognized on the accrual basis.

(26) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision-Maker, who is responsible for allocating resources and assessing performance of the operating segments.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these financial statements requires management to make critical judgements in applying the Company's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors (including the impact of Covid-19). Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. The related information is addressed below:

(1) Critical judgements in applying the Company's accounting policies

None.

(2) Critical accounting estimates and assumptions

A. Reinsurance premiums

The Company's estimated reinsurance revenue is based on the ceding company's annual forecasted reinsurance information and then the Company calculates the revenue proportion to be recognized in each quarter based on previous experience of actual statements. Thereafter, when actual statements are received each quarter, original estimates are reversed and actual statements are accrued. The reason for differences between actual statements and estimated amounts is evaluated to adjust the estimated revenues of remaining period, accordingly.

B. Claims reserve (under insurance liabilities)

Aside from statutorily required insurances, the Company estimates the ultimate loss ratio and provisions claims reserve based on assessment factors such as information provided by the ceding company, claim development factors, contract type, insurance risk characteristics, market information, and judgement for the experience of claims and underwriting. Any change in the methodology and assumptions used in calculating the ultimate loss ratio would significantly affect the amount of claims reserve. A part of claims reserve is recognized using the case-by-case estimation method for Reported-But-Not-Paid cases while the remaining is provisioned for Incurred-But-Not-Reported claims.

C. Fair value measurement of financial instruments

Except for the financial instruments with available public pricing information, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured by using valuation techniques can be referred to current fair value of instruments with similar terms and characteristics in substance, discounted cash flow method or other valuation methods, including calculated by applying model using market information available at the balance sheet date. For details on the main methods and assumptions used to measure the fair value of financial instruments, please refer to Note 12 (1) D.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Cash:		
Petty cash	\$ 135	\$ 123
Checking accounts	15,664	9,107
Demand deposits	4,273,319	4,459,697
Cash equivalents:		
Time deposits	17,564,492	12,816,910
	<u>\$ 21,853,610</u>	<u>\$ 17,285,837</u>

A. The Company transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.

B. The Company has no cash and cash equivalents pledged to others.

C. Certain time deposits of the Company did not meet the definition of cash equivalents and are presented in other financial assets. Please see Note 6 (5).

(2) Accounts receivable

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Notes receivable	\$ -	\$ 220
Other receivables	424,506	282,697
Total	424,506	282,917
Less: Loss allowance	(28)	(23)
Net amount	<u>\$ 424,478</u>	<u>\$ 282,894</u>

As of December 31, 2022 and 2021, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the accounts receivable was \$424,478 and \$282,894, respectively. Information relating to credit risk and movements of loss allowance is provided in Note 13 (1).

(3) Financial assets and financial liabilities at fair value through profit or loss

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Financial assets mandatorily measured at fair value through profit or loss		
Domestic items:		
Listed and over-the-counter common stocks	\$ 940,525	\$ 1,995,278
Listed and over-the-counter preferred stocks	212,232	212,232
Unlisted stocks	-	166,747
Open-end funds	-	589,818
Index funds	496,756	304,780
Derivatives	7,025	96,269
Foreign items:		
Listed and over-the-counter common stocks	289,488	1,113,079
Index funds	1,354,343	85,065
	<u>3,300,369</u>	<u>4,563,268</u>
Valuation adjustment	291,366	2,692,846
	<u>\$ 3,591,735</u>	<u>\$ 7,256,114</u>
	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Financial liabilities held for trading		
Domestic items:		
Derivatives	\$ 508,430	\$ 771

A. The non-hedging derivative instruments transaction and contract information are as follows:

	<u>December 31, 2022</u>		<u>December 31, 2021</u>	
	Contract amount		Contract amount	
Derivative instruments	(Notional principal)	Contract period	(Notional principal)	Contract period
FX swap contracts	\$ 8,586,270	2021.01.04~ 2023.07.13	\$ 7,771,712	2020.08.19~ 2023.05.04
Forward foreign exchange contracts	922,942	2022.08.04~ 2023.09.13	1,622,681	2021.10.04~ 2022.11.28
Futures	237,346	2022.12.09~ 2023.01.08	-	-

Note: Contract amount is translated into thousands of New Taiwan dollars using the exchange rates prevailing at the end of the period.

(a) FX swap contracts

The Company entered into FX swap contracts with financial institutions to hedge risk on its foreign investments arising from variations in the exchange rate. However, these FX swap contracts are not accounted for under hedge accounting.

(b) Forward foreign exchange contracts

The Company entered into forward foreign exchange contracts with financial institutions to hedge risk on its foreign investments arising from variations in the exchange rate. However, these forward foreign exchange contracts are not accounted for under hedge accounting.

(c) Futures

The Company entered into futures with financial institutions to hedge risk on its investments arising from variations in stock prices. However, these futures are not accounted for under hedge accounting. As of December 31, 2022 and 2021, the related margins were \$366,665 and \$171,154, respectively.

B. The Company has no financial assets at fair value through profit or loss pledged to others.

C. Information relating to credit risk of financial assets at fair value through profit or loss is provided in Note 13 (1).

D. In adopting IFRS 9 effective January 1, 2018, the Company has elected to apply overlay approach and recognized gain or loss for designated financial assets in accordance with IFRS 4.

(a) The designated financial assets applying overlay approach that are connected with insurance contracts are as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Financial assets mandatorily measured at fair value through profit or loss		
Domestic items:		
Listed and over-the-counter common stocks	\$ 616,735	\$ 1,911,798
Listed and over-the-counter preferred stocks	212,232	212,232
Unlisted stocks	-	166,747
Open-end funds	-	589,818
Index funds	86,919	304,780
Foreign items:		
Listed and over-the-counter common stocks	267,778	1,110,667
Index funds	1,223,998	85,065
	<u>2,407,662</u>	<u>4,381,107</u>
Valuation adjustment	319,338	2,692,738
	<u>\$ 2,727,000</u>	<u>\$ 7,073,845</u>

(b) Reclassified amounts of the designated financial assets applying overlay approach at fair value through profit and loss and fair value through comprehensive income are listed below:

	2022	2021
(Loss) gain under IFRS 9	(\$ 964,928)	\$ 2,598,583
Less: (Gain) loss under IAS 39	(1,408,472)	(724,377)
Amount of reclassification applying overlay approach	(\$ 2,373,400)	\$ 1,874,206
Income tax (expense) benefit on other comprehensive income	(\$ 8,106)	\$ 52,659

(4) Financial assets at amortized cost

	December 31, 2022	December 31, 2021
Domestic items:		
Securitized financial asset products	\$ 250,000	\$ 250,000
Corporate bonds	775,183	1,200,870
Financial bonds	299,999	100,000
Government bonds	1,326,716	977,414
Foreign items:		
Securitized financial asset products	156,861	156,529
Corporate bonds	11,684,786	7,980,393
Financial bonds	897,562	1,808,512
	15,391,107	12,473,718
Less: Loss allowance	(3,928)	(3,719)
Less: Statutory deposits	(1,326,716)	(977,414)
	\$ 14,060,463	\$ 11,492,585

A. Amounts recognized in profit or loss in relation to financial assets at amortized cost are listed below:

	2022	2021
Interest income	\$ 400,080	\$ 319,596
Impairment (loss) reversal	(209)	627
Gain on disposal	-	48,410
	\$ 399,871	\$ 368,633

Gain or loss on disposal of the financial assets at amortized cost arose from infrequent sale or insignificant in value, both individually and in aggregate.

B. As of December 31, 2022 and 2021, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the financial assets at amortized cost held by the Company was \$15,387,179 and \$12,469,999, respectively.

C. Under the Insurance Act, the Company is required to deposit an amount equal to 15% of its paid-in capital. As of December 31, 2022 and 2021, the Company provided government bonds with a par value of \$1,250,000 and \$900,000 as statutory deposit, respectively.

D. Information relating to credit risk of financial assets at amortized cost is provided in Note 13 (1).

(5) Other financial assets

	December 31, 2022	December 31, 2021
Time deposits	\$ -	\$ 3,083,454

A. As of December 31, 2022 and 2021, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the other financial assets were \$0 and \$3,083,454, respectively.

B. The Company transacts with financial institutions all with high credit quality, so it expects that the probability of counterparty default is remote.

C. The Company has no other financial assets pledged to others.

D. Information relating to credit risk of other financial assets is provided in Note 13 (1).

(6) Structured entities

A. Information about the interests in structured entities that are not controlled by the Company is as follows:

December 31, 2022		
Type of structured entities	Book value	Nature
Securitized financial asset products	\$ 406,799	The risks and rewards associated with the assets of the structured entity were passed on to investors through issuing bonds.

December 31, 2021		
Type of structured entities	Book value	Nature
Securitized financial asset products	\$ 406,467	The risks and rewards associated with the assets of the structured entity were passed on to investors through issuing bonds.

The structured entities that are not controlled by the Company are held for the purpose of generating investment income.

B. As of December 31, 2022 and 2021, the structured entities that are not controlled by the Company are all accounted for as financial assets at amortized cost. The entity's maximum exposure is the carrying amount of assets held. The investment position is restricted by contract terms and conditions of issue and exposes the corresponding market risk. The Company has considered risk management approach of relevant market. Please see Note 13 (1).

(7) Investment property

	Land	Buildings	Total
<u>At January 1, 2022</u>			
Cost	\$ 355,331	\$ 74,260	\$ 429,591
Accumulated depreciation	-	(43,667)	(43,667)
	<u>\$ 355,331</u>	<u>\$ 30,593</u>	<u>\$ 385,924</u>
<u>2022</u>			
At January 1	\$ 355,331	\$ 30,593	\$ 385,924
Additions-from subsequent expenditure	-	479	479
Depreciation	-	(1,783)	(1,783)
At December 31	<u>\$ 355,331</u>	<u>\$ 29,289</u>	<u>\$ 384,620</u>
<u>At December 31, 2022</u>			
Cost	\$ 355,331	\$ 74,739	\$ 430,070
Accumulated depreciation	-	(45,450)	(45,450)
	<u>\$ 355,331</u>	<u>\$ 29,289</u>	<u>\$ 384,620</u>
	Land	Buildings	Total
<u>At January 1, 2021</u>			
Cost	\$ 411,606	\$ 87,185	\$ 498,791
Accumulated depreciation	-	(51,976)	(51,976)
	<u>\$ 411,606</u>	<u>\$ 35,209</u>	<u>\$ 446,815</u>
<u>2021</u>			
At January 1	\$ 411,606	\$ 35,209	\$ 446,815
Additions-from subsequent expenditure	-	277	277
Transferred from property and equipment	-	78	78
Transferred to property and equipment-cost	(56,275)	(13,280)	(69,555)
Transferred to property and equipment-accumulated depreciation	-	10,278	10,278
Depreciation	-	(1,969)	(1,969)
At December 31	<u>\$ 355,331</u>	<u>\$ 30,593</u>	<u>\$ 385,924</u>
<u>At December 31, 2021</u>			
Cost	\$ 355,331	\$ 74,260	\$ 429,591
Accumulated depreciation	-	(43,667)	(43,667)
	<u>\$ 355,331</u>	<u>\$ 30,593</u>	<u>\$ 385,924</u>

- A. Rental income from the lease of the investment property and direct operating expenses arising from the investment property are as follows:

	Year ended December 31, 2022	Year ended December 31, 2021
Rental revenue from the lease of the investment property	\$ 19,278	\$ 20,003
Direct operating expenses arising from the investment property that generated rental income in the period	4,396	4,952

The Company recognized rent income based on the operating lease agreement, which does not include variable lease payments.

- B. The Company leases investment properties to others under non-cancellable operating lease agreements. Rental contracts are typically made for periods between 1 and 3 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes, or a residual value guarantee was required. The maturity analysis of the lease payments under the operating leases is as follows:

	December 31, 2022	December 31, 2021
2022	\$ -	\$ 17,258
2023	17,158	11,451
2024	5,433	1,850
	<u>\$ 22,591</u>	<u>\$ 30,559</u>

- C. The fair values of the investment property held by the Company were estimated by an accredited external independent appraiser under “Regulations on Real Estate Appraisal” using valuation techniques of both the income approach and comparison approach, based on observable active market prices and the characteristics, locations and conditions of each asset on the measurement date—December 31, 2022 and 2021. The fair values of the investment property as at the aforementioned measurement dates were \$1,079,426 and \$1,031,859, respectively, which is categorized as Level 3 within the fair value hierarchy. Key assumptions of the income approach are as follows:

	December 31, 2022	December 31, 2021
Capitalization rate	1.30%~1.52%	1.25%~1.50%

- D. The above assets were not pledged to others as collateral.

(8) Reinsurance contract assets and insurance liabilities

A. Details of reinsurance contract assets are as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Due from reinsurers and ceding companies	\$ 4,455,286	\$ 4,914,348
Due from reinsurers and ceding companies-overdue	25,674	27,941
Reinsurance reserve assets		
Ceded unearned premium reserve	357,131	428,334
Ceded claims reserve	1,517,405	1,645,861
Ceded liability reserve	362,447	374,854
Ceded premium deficiency reserve	2,214	3,844
	<u>6,720,157</u>	<u>7,395,182</u>
Less: Loss allowance-Due from reinsurers and ceding companies	(20,117)	(21,866)
	<u>\$ 6,700,040</u>	<u>\$ 7,373,316</u>

- (a) The credit quality information of reinsurance contract assets that are neither past due nor impaired is as follows, and the evaluation of credit rating was conducted according to the ultimate reinsurers:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Group 1	\$ 27,991	\$ 2,824
Group 2	718,448	863,925
Group 3	4,759,416	5,433,846
Group 4	194,044	105,984
Group 5	7,352	15,198
Group 6	659,656	697,614
	<u>\$ 6,366,907</u>	<u>\$ 7,119,391</u>

Group 1: S&P AAA or equivalents.

Group 2: Over S&P AA- or equivalents.

Group 3: Over S&P A- or equivalents.

Group 4: Over S&P BBB- or equivalents.

Group 5: Under S&P BBB- or equivalents.

Group 6: Without credit rating etc.

- (b) The balances and ageing analysis of reinsurance contract assets that were past due but not impaired and impaired are as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Over one month, under three months	\$ 218,188	\$ 172,305
Over three months, under six months	102,529	65,595
Over six months, under nine months	4,499	20,302
Over nine months	28,034	17,589
	<u>\$ 353,250</u>	<u>\$ 275,791</u>

- i. The ages of due from reinsurance and ceding companies, except for the estimated reinsurance receivables or payables on closing date, are classified by its booking date.
 - ii. The overdue amounts due from reinsurance and ceding companies above indicate the ultimate reinsurers that were due but not paid and were transferred to overdue accounts in nine months after they became due.
- (c) Movement analysis on the Company's provision for impairment of reinsurance contract assets is as follows:

	<u>2022</u>	<u>2021</u>
At January 1	\$ 21,866	\$ 21,207
Write-off of bad debts	(566)	(222)
Provision of loss allowance	-	881
Recovery of loss allowance	(1,183)	-
At December 31	<u>\$ 20,117</u>	<u>\$ 21,866</u>

- (d) The Company does not hold any collateral as security.

B. Details of insurance liabilities are as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Unearned premium reserve	\$ 6,927,049	\$ 7,272,590
Claims reserve	21,708,587	20,436,561
Liability reserve	362,447	374,854
Special reserve	2,909,547	3,553,802
Premium deficiency reserve	57,789	62,397
	<u>\$ 31,965,419</u>	<u>\$ 31,700,204</u>

C. Movements of ceded unearned premium reserve and unearned premium reserve are as follows:

	2022	2021
Ceded unearned premium reserve		
At January 1	\$ 428,334	\$ 392,396
Provision	356,736	428,790
Recovery	(428,790)	(393,339)
Exchange differences on translation of foreign financial statements	851	487
At December 31	<u>\$ 357,131</u>	<u>\$ 428,334</u>
	2022	2021
Unearned premium reserve		
At January 1	\$ 7,272,590	\$ 6,773,592
Provision	6,921,201	7,280,429
Recovery	(7,280,429)	(6,790,105)
Exchange differences on translation of foreign financial statements	13,687	8,674
At December 31	<u>\$ 6,927,049</u>	<u>\$ 7,272,590</u>

D. Details and movements of ceded claims reserve and claims reserve are as follows:

	December 31, 2022	December 31, 2021
Ceded claims reserve		
Outstanding losses	\$ 1,058,720	\$ 848,846
Incurred but not reported losses	458,685	797,015
	<u>\$ 1,517,405</u>	<u>\$ 1,645,861</u>
	December 31, 2022	December 31, 2021
Claims reserve		
Outstanding losses	\$ 9,882,356	\$ 7,859,696
Incurred but not reported losses	11,826,231	12,576,865
	<u>\$ 21,708,587</u>	<u>\$ 20,436,561</u>
	2022	2021
Ceded claims reserve		
At January 1	\$ 1,645,861	\$ 1,428,299
Provision	1,517,405	1,645,861
Recovery	(1,645,861)	(1,428,299)
At December 31	<u>\$ 1,517,405</u>	<u>\$ 1,645,861</u>
	2022	2021
Claims reserve		
At January 1	\$ 20,436,561	\$ 17,748,343
Provision	21,708,587	20,436,561
Recovery	(20,436,561)	(17,748,343)
At December 31	<u>\$ 21,708,587</u>	<u>\$ 20,436,561</u>

E. Movements of ceded liability reserve and liability reserve are as follows:

	2022				2021			
	Foreign currency amount (in thousands)	Currency	Exchange rate	NTD (in thousands)	Foreign currency amount (in thousands)	Currency	Exchange rate	NTD (in thousands)
Ceded liability reserve								
At January 1	\$ 86,252	CNY	4.346	\$ 374,854	\$ 92,205	CNY	4.380	\$ 403,861
Provision	1,675			13,008	1,530			3,418
Recovery	(5,734)			(25,415)	(7,483)			(32,425)
At December 31	<u>\$ 82,193</u>	CNY	4.410	<u>\$ 362,447</u>	<u>\$ 86,252</u>	CNY	4.346	<u>\$ 374,854</u>

	2022				2021			
	Foreign currency amount (in thousands)	Currency	Exchange rate	NTD (in thousands)	Foreign currency amount (in thousands)	Currency	Exchange rate	NTD (in thousands)
Liability reserve								
At January 1	\$ 86,252	CNY	4.346	\$ 374,854	\$ 92,205	CNY	4.380	\$ 403,861
Provision	1,675			13,008	1,530			3,418
Recovery	(5,734)			(25,415)	(7,483)			(32,425)
At December 31	<u>\$ 82,193</u>	CNY	4.410	<u>\$ 362,447</u>	<u>\$ 86,252</u>	CNY	4.346	<u>\$ 374,854</u>

The provisions above include the effects of foreign exchange gains and losses.

F. Special reserves

(a) Details of special reserves are as follows:

	December 31, 2022	December 31, 2021
Special reserve for statutory insurance	\$ 1,108,472	\$ 972,724
Reserve for fluctuation of risk	1,637,500	2,055,296
Reserve for extraordinary business losses	163,575	525,782
	<u>\$ 2,909,547</u>	<u>\$ 3,553,802</u>

(b) Movement of special reserves is as follows:

	2022	2021
At January 1	\$ 3,553,802	\$ 3,515,773
Provision	135,748	38,029
Recovery	(780,003)	-
At December 31	<u>\$ 2,909,547</u>	<u>\$ 3,553,802</u>

(c) According to Jin-Kuan-Bao-Tsai Order No. 10102517491, “Directions for Strengthening Special Reserve by Reinsurance Enterprises”, Jin-Kuan-Bao-Chan Order No. 10102531541, “Directions for Strengthening Co-insurance Reserve of Residential Earthquake Insurance” and Jin-Kuan-Bao-Tsai Order No. 10102517091, “Regulations for Reserving Nuclear Energy Insurance Reserve by Non-Life Insurance Enterprises” dated December 28, 2012, the Company’s accounts applicable or not applicable for the reserve for the years ended December 31, 2022 and 2021 are as follows:

Year ended December 31, 2022				
	Earnings per share			
	Net income	(in dollars)	Total liabilities	Total equity
Applicable	\$ 253,273	\$ 0.41	\$ 33,274,040	\$ 16,997,748
Not applicable	(370,729)	(0.60)	31,680,712	18,591,076
Effect	<u>(\$ 624,002)</u>	<u>(\$ 1.01)</u>	<u>(\$ 1,593,328)</u>	<u>\$ 1,593,328</u>
Year ended December 31, 2021				
	Earnings per share			
	Net income	(in dollars)	Total liabilities	Total equity
Applicable	\$ 2,065,077	\$ 3.50	\$ 32,912,538	\$ 16,552,411
Not applicable	2,065,077	3.50	30,695,208	18,769,741
Effect	<u>\$ -</u>	<u>\$ -</u>	<u>(\$ 2,217,330)</u>	<u>\$ 2,217,330</u>

G. Movements of ceded premium deficiency reserve and premium deficiency reserve are as follows:

	2022	2021
Ceded premium deficiency reserve		
At January 1	\$ 3,844	\$ 1,128
Provision	2,214	3,844
Recovery	(3,844)	(1,128)
At December 31	<u>\$ 2,214</u>	<u>\$ 3,844</u>
	2022	2021
Premium deficiency reserve		
At January 1	\$ 62,397	\$ 49,598
Provision	57,789	62,397
Recovery	(62,397)	(49,598)
At December 31	<u>\$ 57,789</u>	<u>\$ 62,397</u>

H. The Company's future cash flows of insurance liabilities (excluding special reserve) are as follows:

December 31, 2022	Due in one year	Due after one year	Total
Insurance liabilities			
Unearned premium reserve	\$ 3,244,035	\$ 2,058,408	\$ 5,302,443
Claims reserve	11,907,160	7,555,344	19,462,504
Liability reserve	-	362,447	362,447
Premium deficiency reserve	35,355	22,434	57,789

Note: Insurance liabilities exclude statutory insurance (total amount of compulsory automobile liability insurance, residential earthquake insurance and nuclear insurance is \$3,870,689).

December 31, 2021	Due in one year	Due after one year	Total
Insurance liabilities			
Unearned premium reserve	\$ 3,428,019	\$ 2,264,473	\$ 5,692,492
Claims reserve	10,984,206	7,255,924	18,240,130
Liability reserve	-	374,854	374,854
Premium deficiency reserve	37,576	24,821	62,397

Note: Insurance liabilities exclude statutory insurance (total amount of compulsory automobile liability insurance, residential earthquake insurance and nuclear insurance is \$3,776,529).

(9) Reserves for unqualified reinsurance

A. Summary of unqualified reinsurance contracts are set forth as follows:

The Company entered into contracts with insurance companies and insurance brokers as follows:

The scope of reinsurance is the same as the Company's insurance contracts.

Insurance companies / Insurance brokers	Type of contract
BEST RE (L) LIMITED	Fire insurance and casualty insurance
MILLI REASURANS T. A. S. SINGAPORE BRANCH	Fire insurance, engineering insurance, marine hull insurance and marine cargo insurance
WILSON RE LIMITED	Casualty insurance
M.B. BODA REINSURANCE BROKERS PVT. LTD.	Fire insurance
COSMOS SERVICES CO., LTD.	Fire insurance
INTERLINK INSURANCE & REINSURANCE BROKERS PVT. LTD.	Fire insurance
J B BODA INSURANCE SERVICES (L) BHD	Fire insurance
GUY CARPENTER & COMPANY LTD.	Fire insurance and automobile insurance

B. As of December 31, 2022 and 2021, the Company's unqualified reinsurance premiums ceded were \$0 and \$5, respectively.

C. Reserve for unqualified reinsurance as of December 31, 2022 and 2021 were as follows:

	December 31, 2022	December 31, 2021
Ceded claims reserve	\$ 24	\$ 42

(10) Offsetting financial assets and financial liabilities

- A. The Company has derivative assets that do not meet the offsetting criteria in paragraph 42 of IAS 32. However, the Company has transactions that are or are similar to net settled master netting arrangements. If one party breaches the contract (in the case of default and insolvency or bankruptcy), the counterparty can choose to use net settlement. The related amount of offsetting shall not exceed the gross amounts of recognized financial assets and liabilities.
- B. The related information of financial assets and financial liabilities that can be settled under agreements of net settled master netting arrangements or similar arrangements are as follows:
- (a) Financial assets

Description	Gross amounts of recognized financial assets	Financial instruments not set off in the balance sheet	Net amount
December 31, 2022			
Derivatives	\$ 7,025	\$ 7,025	\$ -
December 31, 2021			
Derivatives	\$ 96,269	\$ 771	\$ 95,498

Note: The above-mentioned items are all accounted as financial assets at fair value through profit or loss.

(b) Financial liabilities

Description	Gross amounts of recognized financial liabilities	Financial instruments not set off in the balance sheet	Net amount
December 31, 2022			
Derivatives	\$ 508,430	\$ 7,025	\$ 501,405
December 31, 2021			
Derivatives	\$ 771	\$ 771	\$ -

Note: The above-mentioned items are all accounted as financial liabilities at fair value through profit or loss.

	<u>\$ 589,393</u>	<u>\$ 757,107</u>

(13) Employee benefits

A. Defined benefit obligation

(a) The Company has established a defined benefit pension plan in accordance with the Labor Standards Act. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by the end of December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method, to the employees expected to be qualified for retirement next year, the Company will make contributions to cover the deficit once or in installments.

(b) The amounts recognized in the balance sheet are as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Present value of defined benefit obligations	(\$ 25,778)	(\$ 37,338)
Fair value of plan assets	44,731	48,105
Net defined benefit assets	<u>\$ 18,953</u>	<u>\$ 10,767</u>

(c) Movements in net defined benefit assets (liabilities) are as follows:

	Present value of defined benefit obligations	Fair value of plan assets	Net defined benefit asset (liability)
Year ended December 31, 2022			
Balance at January 1	(\$ 37,338)	\$ 48,105	\$ 10,767
Current service cost	(414)	-	(414)
Interest (expense) income	(262)	337	75
	(38,014)	48,442	10,428
Remeasurements:			
Change in demographic assumptions	(102)	-	(102)
Change in financial assumptions	173	-	173
Experience adjustments	3,940	3,714	7,654
	4,011	3,714	7,725
Pension fund contribution	-	800	800
Paid pension	8,225	(8,225)	-
Balance at December 31	(\$ 25,778)	\$ 44,731	\$ 18,953
	Present value of defined benefit obligations	Fair value of plan assets	Net defined benefit asset (liability)
Year ended December 31, 2021			
Balance at January 1	(\$ 37,944)	\$ 47,342	\$ 9,398
Current service cost	(410)	-	(410)
Interest (expense) income	(132)	165	33
	(38,486)	47,507	9,021
Remeasurements:			
Change in demographic assumptions	(170)	-	(170)
Change in financial assumptions	323	-	323
Experience adjustments	51	708	759
	204	708	912
Pension fund contribution	-	834	834
Paid pension	944	(944)	-
Balance at December 31	(\$ 37,338)	\$ 48,105	\$ 10,767

(d) The Bank of Taiwan was commissioned to manage the Fund of the Company's and domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual investment and utilization plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund" (Article 6: The scope of utilization for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilization of the Fund, its minimum earnings

in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company and domestic subsidiaries have no right to participate in managing and operating that fund and hence the Company and domestic subsidiaries are unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2022 and 2021 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.

- (e) The principal actuarial assumptions used are as follows:

	Year ended December 31, 2022	Year ended December 31, 2021
Discount rate	1.36%	0.70%
Salary increment	4.61%	3.99%

Assumptions regarding the mortality and the disability rates are set based on Taiwan Standard Ordinary Experience Mortality Table.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis is as follows:

	Year ended December 31, 2022	Year ended December 31, 2021
Discount rate increase 0.5%	(\$ 1,368)	(\$ 1,738)
Discount rate decrease 0.5%	1,480	1,878
Salary increment increase 0.5%	1,425	1,808
Salary increment decrease 0.5%	(1,333)	(1,693)

The sensitivity analysis above is based on the condition that only one assumption is changed while all other assumptions remain unchanged. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

The method and assumption used in preparing the current year sensitivity analysis are identical with those of the prior year.

- (f) Expected contributions to the defined benefit pension plans of the Company for the year ended December 31, 2023 amounts to \$750.
- (g) As of December 31, 2022, the weighted average duration of the retirement plan is 11 years.

B. Defined contribution plan

- (a) Effective July 1, 2005, the Company has established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"). Under the New Plan, the Company contributes monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
- (b) The pension costs under the above-mentioned pension plan of the Company for the years ended December 31, 2022 and 2021 were \$9,100 and \$7,813, respectively.

(14) Share-based payment

The subscription price of the Company's cash capital increase reserved for employee preemption for the year ended December 31, 2022 was \$15.8 (in dollars). The employees' compensation cost of share-based payment arising from the cash capital increase reserved for employee preemption was \$42,000 and recognised as capital surplus. Details of the share-based payment transactions are as follows:

	<u>Cash capital increase reserved for employee preemption</u>
Grant date	2022/10/31
Quantity granted	21,000,000 shares
Employee granted	Employees that are in service on 2022/11/13
Vesting conditions	Vested immediately

(15) Common stock

As of December 31, 2022 and 2021, the Company's authorized capital were \$10,000,000 and \$6,000,000, respectively, and the paid-in capital were \$8,003,888 and \$5,903,888, respectively, with a par value of \$10 (in dollars) per share.

On August 10, 2022, the special shareholders' meeting approved the amendment of the Company's Articles of Incorporation to increase the Company's authorized capital from \$6,000,000 to \$10,000,000, and the Board of Directors approved the issuance of 210,000,000 new shares through cash capital increase on the same day ; the cash capital increase was approved through Jin-Kuan-Zheng-Fa Letter No. 1110359013 on October 19, 2022.

The proposal of cash capital increase has been reported and become effective on December 23, 2022. The amount of shares was \$3,318,000. All proceeds from share issuance was completed on February 3, 2023.

(16) Capital reserve

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalized mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient. However, according to Jin-Kuan-Bao-Tsai Letter No. 10202501991, for the purpose of strengthening the solvency and operation, insurance companies having no deficit should submit relevant documents demonstrating the financial soundness and steady operation of their companies to FSC for approval before the stockholders' meeting if they propose to use legal reserve provided under Article 145-1 of Insurance Act and capital surplus to issue cash to shareholders in proportion to their share ownership in accordance with Article 241 of the R.O.C. Company Act.

For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognized as compensation cost over the vesting period, with a corresponding adjustment to capital reserve.

(17) Retained earnings

A. Limitation on distribution of retained earnings and dividend policy

Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 20% of the remaining amount shall be set aside as legal reserve. Afterwards, the Company shall recognize or reverse special reserve in accordance with regulations, and accumulated unappropriated earnings of the prior

period. Appropriation of the remainder shall be proposed by the Board of Directors and resolved by the stockholders.

Shareholders' dividend may be distributed either all in cash, or in the combination of cash and stocks, with the cash dividend not less than 50% of the total amount of distribution.

Pursuant to the R.O.C. Insurance Act, legal reserve shall be set aside until the total amount reaches the total capital. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital. In addition, procedures for those requiring approval from competent authorities to use legal reserve for issuance of cash in accordance with Jin-Kuan-Bao-Tsai Letter No. 10202501991 are set out in Note 6 (16).

B. Special reserve

	December 31, 2022	December 31, 2021
Special reserve	\$ 3,921,030	\$ 3,145,711
Unrealized revaluation increment	126,557	126,557
Employees' education and training	16,027	16,027
	<u>\$ 4,063,614</u>	<u>\$ 3,288,295</u>

- (a) For the year 2022, the provision for special reserve amounting to \$775,319 had been recognized as special reserve under equity upon annual resolution and is not available for distribution.
- (b) The amounts previously set aside by the Company as special reserve in accordance with Jin-Kuan-Bao-Tsai Order No. 11004920441, dated June 11, 2021, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently. The Company had transferred the amount of \$126,557 of unrealized gain from real estate value-added to special reserve under equity.
- (c) In accordance with the regulations of Jin-Kuan-Bao-Tsai Order No. 10502066461 promulgated on July 13, 2016, upon appropriating the earnings of 2016 through 2018, the Company shall provision 0.5% of income after tax as special reserve. And starting from the subsequent year of the provision of such special reserve, special reserve as mentioned above may be reversed in an amount equal to expenditures that were for employees' education and training and for the protection of employees' interest. However, the above-mentioned order was repealed by Jin-Kuan-Bao-Tsai Order No. 10804932431 on July 30, 2019, resulting in the Company no longer having to provide special reserve starting 2019. The remaining special reserve as mentioned above may be reversed in an amount equal to expenditures that were for employees' education and training and for the protection of employees' interest. The Company had transferred the amount of \$16,027 for expenditures that were for employees' education and training and for the protection of employees' interest to special reserve under equity.
- C. On May 27, 2022, the distribution of earnings for 2021 as resolved by the stockholders was \$1,062,700 (cash dividends of \$1.8 (in dollars) per share). On March 8, 2023, the Board of Directors proposed that the Company will not appropriate shareholders' bonus in 2022, but instead cover the accumulated deficit using legal reserve amounting to \$164,211.
- Proposal for the year 2022 loss restitution has not yet been ratified at the stockholders' meeting as of the reporting date.

Detailed information on earnings appropriation resolved by the Board of Directors and ratified at the stockholders' meeting is posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

D. For information relating to employees' compensation and directors' remuneration, please see Note 6 (19).

(18) Income tax

A. Components of income tax (benefit) expense:

	Year ended December 31, 2022	Year ended December 31, 2021
Current income tax:		
Current income tax on profits for the period	\$ 187	\$ 451,673
Income tax on undistributed earnings	2,962	2,163
Prior year income tax (over) underestimation	(427)	3,306
Deferred income tax:		
Origination and reversal of temporary difference	(232,616)	(51,071)
Income tax (benefit) expense	<u>(\$ 229,894)</u>	<u>\$ 406,071</u>

B. The income tax relating to components of other comprehensive income are as follows:

	Year ended December 31, 2022	Year ended December 31, 2021
Exchange differences on translation of foreign financial statements	\$ 67,522	(\$ 20,499)
Other comprehensive income upon reclassification of applying overlay approach	8,106	(52,659)
Remeasurement of defined benefit obligations	1,545	182
	<u>\$ 77,173</u>	<u>(\$ 72,976)</u>

C. Reconciliation between income tax (benefit) expense and accounting profit:

	Year ended December 31, 2022	Year ended December 31, 2021
Tax calculated based on profit before tax and statutory tax rate	\$ 4,676	\$ 494,230
Impact of tax adjustments by tax regulations	(237,105)	(93,628)
Income tax on undistributed earnings	2,962	2,163
Prior year income tax (over) underestimation	(427)	3,306
Income tax (benefit) expense	<u>(\$ 229,894)</u>	<u>\$ 406,071</u>

D. Amounts of deferred tax assets or liabilities as a result of temporary difference are as follows:

	2022			
	January 1	Recognized in profit or loss	Recognized in other comprehensive income	December 31
Deferred tax assets				
Unrealized loss on valuation of financial assets	\$ -	\$ 100,162	\$ -	\$ 100,162
Employee benefits-pension expense	3,969	2,630	(1,545)	5,054
Employee benefits-unused compensated absences	1,981	208	-	2,189
Unrealized foreign exchange losses	146,060	(146,060)	-	-
Expected credit impairment and reversal of profit from investment	416	152	-	568
Expected credit impairment and reversal of profit from non-investment	4	1	-	5
Loss upon reclassification of applying overlay approach	9,793	-	(8,106)	1,687
Exchange differences on translation of foreign financial statements	71,937	-	(67,522)	4,415
Loss carryforward	-	348,289	-	348,289
	<u>\$ 234,160</u>	<u>\$ 305,382</u>	<u>(\$ 77,173)</u>	<u>\$ 462,369</u>
Deferred tax liabilities				
Unrealized profit on valuation of financial assets	\$ 19,035	(\$ 19,035)	\$ -	\$ -
Gain on revaluation of land	41,555	-	-	41,555
Unrealized foreign exchange gains	-	91,801	-	91,801
	<u>\$ 60,590</u>	<u>\$ 72,766</u>	<u>\$ -</u>	<u>\$ 133,356</u>

	2021			
	January 1	Recognized in profit or loss	Recognized in other comprehensive income	December 31
Deferred tax assets				
Employee benefits-pension expense	\$ 4,034	\$ 117	(\$ 182)	\$ 3,969
Employee benefits-unused compensated absences	1,734	247	-	1,981
Expected credit impairment and reversal of profit from investment	345	71	-	416
Expected credit impairment and reversal of profit from non-investment	4	-	-	4
Unrealized foreign exchange losses	118,208	27,852	-	146,060
Loss upon reclassification of applying overlay approach	-	-	9,793	9,793
Exchange differences on translation of foreign financial statements	51,438	-	20,499	71,937
	<u>\$175,763</u>	<u>\$ 28,287</u>	<u>\$ 30,110</u>	<u>\$ 234,160</u>
Deferred tax liabilities				
Gain on revaluation of land	\$ 41,555	\$ -	\$ -	\$ 41,555
Gain upon reclassification of applying overlay approach	42,866	-	(42,866)	-
Unrealized profit on valuation of financial assets	41,819	(22,784)	-	19,035
	<u>\$126,240</u>	<u>(\$ 22,784)</u>	<u>(\$ 42,866)</u>	<u>\$ 60,590</u>

E. The Company's income tax returns have been assessed and approved by the Tax Authority up to 2020.

(19) Employee benefits expense, depreciation and amortization

Employee benefits expense, depreciation and amortization by function are as follows:

Expense / Function	Year ended December 31, 2022		Year ended December 31, 2021	
	Operating Costs	Operating Expenses	Operating Costs	Operating Expenses
Employee benefits expense	\$ -	\$ 311,624	\$ -	\$ 300,073
Salaries	-	247,706	-	251,508
Employees' insurance	-	17,221	-	14,572
Pension	-	23,581	-	8,781
Directors' remuneration		9,010		14,273
Other employee benefits expense (Note 1)	-	14,106	-	10,939
Depreciation (Note 2)	1,783	7,850	1,969	6,618
Amortization	-	12,020	-	4,065

Note 1: Other employee benefits expense include employees' welfare and training expenses.

Note 2: The depreciation, which is classified as operating cost, is accounted for as deduction to gain on investment property.

- A. As of December 31, 2022 and 2021, the average numbers of employees were 165 and 145, respectively, and the average number of directors who were not employed as employees were both 8.
- B. According to the Company's Articles of Incorporation, after covering accumulated deficits with current year earnings, the remainder, if any, shall provision employees' compensation of no less than 0.5% and directors' remunerations of no more than 1%.
- C. The Company's estimated employees' compensation of \$754 and \$25,010 for the years ended December 31, 2022 and 2021, respectively, were determined from earnings and the distribution in the past on a pro-rata basis, which fell within the scope of the Company's Articles of Incorporation's requirements. The Company's estimated directors' remuneration were \$240 and \$4,850 for the years ended December 31, 2022 and 2021, respectively. The estimates, which fell within the scope of the Company's Articles of Incorporation's requirements, were determined from earnings and the past distribution experiences during the tenure of directors. The aforementioned amounts were recognized in directors' remuneration.
The 2021 employees' compensation of \$25,010 and directors' remuneration of \$4,850 as approved by the Board of Directors of the Company were in agreement with the amounts recognized in the 2021 financial statements, and employees' compensation and directors remuneration are distributed in the form of cash.
Information about the appropriation of employees' compensation and directors' remuneration by the Company as resolved by the Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.
- D. For the years ended December 31, 2022 and 2021, the averages of employee benefit expense were \$1,927 and \$2,086, respectively.
- E. For the years ended December 31, 2022 and 2021, the averages of employee salaries expense were \$1,578 and \$1,836, respectively, and the average employee salaries expense decreased by 14.05% for the year ended December 31, 2022.
- F. There was no supervisors' remuneration for the years ended December 31, 2022 and 2021.

Note: The Company has set up an audit committee, so there was no supervisors' remuneration.

G. The Company's compensation policy (including directors, managers, and employees):

- (a) Directors: According to the Company's Articles of Incorporation and the remuneration payment policies for directors, after covering accumulated deficits with current year earnings, the remainder, if any, shall be provisioned for directors' remunerations of no more than 1%. Individual directors' remuneration is distributed based on the degree of each director's participation in the operation of the Company and the value of their contributions as well as in consideration of the general pay levels of the industry within the total directors' remuneration. The degree of each director's participation in the operation of the Company and the value of their contributions are determined by individual behavior and performance (including attendance, training performance, degree of participation in the operation of the Company, interaction with the operation team, etc.).
- (b) Managers and employees: The distribution of managers' and employees' annual compensation is conducted in accordance with regulations such as the Company's Articles of Incorporation, compensation payment policies for managements, the management policies of employees' salary payment and factors such as profit of the current year and performance result after annual assessment; the distribution of year-end bonus and employees' compensation is also based on the same principles.
- (c) In addition, the Company has set a remuneration committee to review the policy, system, standard and structure of the directors' and managers' remuneration regularly and to assess and structure of directors' and managers' remuneration regularly.

7. RELATED PARTY TRANSACTIONS

(1) Names of related parties and their relationship with the Company

<u>Names of related parties</u>	<u>Relationship with the Company</u>
Evergreen International Corporation	Parent company
Evergreen Insurance Company Limited	Other related parties
Evergreen Marine Corporation	Other related parties
Directors, general managers, vice general managers, etc.	Key management of the Company

(2) Significant related party transactions and balances

A. Due from reinsurers and ceding companies (shown under reinsurance contract assets)

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Other related parties	\$ 203	\$ 11

B. Other payables (shown under accounts payable)

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Parent	\$ 650	\$ 1,230
Other related parties	-	11
	<u>\$ 650</u>	<u>\$ 1,241</u>

C. Operating revenues and operating costs

	Year ended December 31, 2022	Year ended December 31, 2021
Other related parties		
Gross premiums written	\$ 18,096	\$ 7,444
Reinsurance premiums ceded	(7)	166
Overriding commission revenue	-	1
Reinsurance commission expenses	3,325	1,161
Reinsurance commission revenue	7 (	42)
Reinsurance claims paid	12,307	9,984
Reinsurance claims recovery	(24)	26

D. Operating expenses

	Year ended December 31, 2022	Year ended December 31, 2021
Parent		
System service charge, fees paid to stock transfer agent and printing expenses, etc.	\$ 8,292	\$ 15,066
Rent expense (Note)	249	465
Other related parties		
Service fees-Others	41	82
	<u>\$ 8,582</u>	<u>\$ 15,613</u>

Note : The Company leased the building from the parent company, and the lease contract period is 3.5 months. Rents are calculated per square meter and paid by the end of each month.

The differences of prices and conditions between related parties and non-related parties were not significant.

(3) Key management compensation

	Year ended December 31, 2022	Year ended December 31, 2021
Salaries and other short-term employee benefits	\$ 32,465	\$ 38,574
Post-employment benefits	3,599	994
	<u>\$ 36,064</u>	<u>\$ 39,568</u>

8. PLEDGED ASSETS

Please see Note 6 (4).

9. COMMITMENTS

None.

10. SIGNIFICANT ACCIDENTAL LOSS

None.

11. SIGNIFICANT SUBSEQUENT EVENTS

None.

12. OTHERS

(1) Fair value information

A. The fair value of the Company's financial instruments not measured at fair value is provided in Note 12 (1) K. The fair value of the Company's investment property measured at cost model is provided in Note 6 (7).

B. The different levels that the inputs to valuation techniques are used to measure fair value of financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability takes place with sufficient frequency and volume to provide pricing information on an on-going basis. The fair value of the Company's investment in listed and over-the-counter stocks and beneficiary certificates is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Company's investment in off-the-run government bonds, corporate bonds, financial bonds and derivative instruments is included in Level 2.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Company's investment in part of investments in debt instrument without active market, unlisted stocks and investment property is included in Level 3.

C. The related information of financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities as of December 31, 2022 and 2021 is as follows:

<u>December 31, 2022</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Non-derivatives				
Assets				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through profit or loss				
Financial assets mandatorily measured at fair value through profit or loss

Financial liabilities at fair value through profit or loss				
FX swap contracts	\$ -	\$ 567	\$ -	\$ 567
Forward foreign exchange contracts	-	204	-	204

D. The methods and assumptions the Company used to measure fair value are as follows:

- (a) The instruments the Company used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

<u>Listed shares</u>	<u>Index funds</u>	<u>Open-end funds</u>
<u>Closing price</u>	<u>Closing price</u>	<u>Net asset value</u>

- (b) Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured by using valuation techniques method can be referred to current fair value of instruments with similar terms and characteristics in substance, discounted cash flow method or other valuation methods, including calculated by applying model using market information available at the balance sheet date (i.e. yield curves on the Taipei Exchange, average commercial paper interest rates quoted from Reuters).

- (c) When assessing non-standard and low-complexity financial instruments, for example, debt instruments without active market and swap contracts, the Company adopts valuation technique that is widely used by market participants. The inputs used in the valuation method to measure these financial instruments are normally observable in the market.
 - (d) The valuation of derivatives is based on valuation model widely accepted by market participants, such as present value techniques. Forward exchange contracts are usually valued based on the current forward exchange rate.
 - (e) The Company uses the market approach to evaluate the fair value of unlisted stocks. The used factors include unobservable input. The effect of unobservable inputs to the valuation of financial instruments is provided in Note 12 (1) I.
 - (f) The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Company's financial instruments. Therefore, the estimated value derived using valuation model is adjusted accordingly with additional inputs, for example, model risk or liquidity risk and etc. In accordance with the Company's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial instruments at the balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.
 - (g) The Company takes into account adjustments for credit risks to measure the fair value of financial instruments to reflect credit risk of the counterparty and the Company's credit quality.
- E. For the years ended December 31, 2022 and 2021, there were no transfer between Level 1 and Level 2.

F. The following table presents the changes in level 3 instruments for the years ended December 31, 2022 and 2021:

Year ended December 31, 2022							
	Opening balance	Recognized in profit or loss	Recognized in other comprehensive income (Note)	Acquired in the period		Disposed of in the period	
				Buy or issuance	Transfers into level 3	Sell, disposal or settle	Transfers out from level 3
Non-Derivatives							
Financial assets at fair value through profit or loss							
Financial assets mandatorily measured at fair value through profit or loss	\$ 2,798,704	\$ -	\$ -	\$ -	\$ -	\$ -	\$ (2,798,704)
							\$ -
Year ended December 31, 2021							
	Opening balance	Recognized in profit or loss	Recognized in other comprehensive income (Note)	Acquired in the period		Disposed of in the period	
				Buy or issuance	Transfers into level 3	Sell, disposal or settle	Transfers out from level 3
Non-Derivatives							
Financial assets at fair value through profit or loss							
Financial assets mandatorily measured at fair value through profit or loss	\$ 595,489	\$ -	\$ 2,203,215	\$ -	\$ -	\$ -	\$ -
							\$ 2,798,704

Note: Financial assets mandatorily measured at fair value through profit or loss recognized in other comprehensive income upon reclassification of applying overlay approach.

Unrealized gain or loss on valuation recognized in other comprehensive income arising from the assets held for the years ended December 31, 2022 and 2021 was \$0 and \$2,203,215, respectively.

G. Because unlisted stocks held by the Company became listed stocks on January 3, 2022, the Company has transferred the fair value from Level 3 into Level 1 for the year ended December 31, 2022. There were no transfer into or out from Level 3 for the year ended December 31, 2021.

H. Financial segment is in charge of valuation procedures for fair value measurements being categorized within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently updating inputs used to the valuation model and making any other necessary adjustments to the fair value. Financial segment set up valuation policies, valuation processes and rules for measuring fair value of financial instruments and ensure compliance with the related requirements in IFRS.

I. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

As of December 31, 2022, the Company does not hold any financial asset used in Level 3 fair value measurement.

	Fair value at December 31, 2021	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Financial assets at fair value through profit or loss					
Financial assets mandatorily measured at fair value through profit or loss					
Unlisted stocks (Note)	\$ 2,798,704	Market approach Black-Scholes model	Liquidity discount	3.60%	The lower the liquidity discount, the higher the fair value

Note: Items that affect the fair value measurement of unlisted stocks include observable stock prices.

J. The Company has carefully assessed the valuation models and assumptions used to measure fair value; however, different valuation model or input could result in different valuation results. Specifically, if the valuation of financial instrument classified in Level 3 increase or decrease 10%, the effects on other comprehensive income in the period would be as follows:

As of December 31, 2022, the Company does not hold any financial asset used in Level 3 fair value measurement.

	December 31, 2021	
	Change in fair value	
	recognized in other comprehensive income	
	Favorable	Unfavorable
Financial assets at fair value through profit or loss		
Financial assets mandatorily measured at fair value through profit or loss	\$ 279,870 (\$	279,870)

K. Fair value of the financial instruments not measured at fair value

Except for the financial instruments below and investment property, the carrying amounts of the Company's financial instruments not measured at fair value (including cash and cash equivalents, accounts receivable, other financial assets and accounts payable) are approximate to their fair values.

	December 31, 2022			December 31, 2021		
	Fair value			Fair value		
	Book value	Level 1	Level 2	Level 1	Level 2	Level 3
Financial assets						
Financial assets at amortized cost	\$ 15,387,179	\$ -	\$ 14,282,182	\$ -	\$ 12,843,022	\$ -

The different levels that the inputs to valuation techniques are used to measure fair value of financial instruments have been defined in Note 12 (1) B, and the methods and assumptions are as follows:

If recent transaction prices or market maker quotes are available, the fair value is based on such information. If there is no quoted market price available, the fair value is determined by using valuation techniques and calculated as the present value of the estimated cash flows.

(2) Assets and liabilities recoverable or payable within or over 12 months from the reporting date are as follows:

	December 31, 2022			December 31, 2021		
	Book value	Within 12 months	Over 12 months	Book value	Within 12 months	Over 12 months
Assets						
Cash and cash equivalents	\$ 21,853,610	\$ 21,853,610	\$ -	\$ 17,285,837	\$ 17,285,837	\$ -
Accounts receivable	424,478	424,478	-	282,894	282,894	-
Current income tax assets	18,217	-	18,217	-	-	-

Property and equipment	275,728	-	275,728	268,554	-	268,554
Right-of-use asset	1,808	-	1,808	1,337	138	1,199
Intangible assets	13,811	-	13,811	7,248	-	7,248
Other assets	2,484,909	422,170	2,062,739	1,793,526	210,032	1,583,494
Liabilities						
Accounts payable	\$ 589,393	\$ 587,855	\$ 1,538	\$ 757,107	\$ 755,268	\$ 1,839
Current income tax liabilities	2,962	2,962	-	276,454	276,454	-
Financial liabilities at fair value through profit or loss	508,430	508,430	-	771	771	-
Lease liabilities	1,824	564	1,260	1,346	380	966
Insurance liabilities	31,965,419	19,057,239	12,908,180	31,700,204	18,226,330	13,473,874
Provisions	2,853	-	2,853	-	-	-
Other liabilities	69,803	68,062	1,741	116,066	113,494	2,572

(3) Calculation of retention earned premiums are shown below:

Year ended December 31, 2022						
Category of insurance	Gross premiums written (1)	Reinsurance premiums ceded (2)	Retention premiums (3)=(1)-(2)	Net change in unearned premium reserve (4)	Retention earned premiums (5)=(3)-(4)	
Non-Compulsory insurance	\$ 16,980,773	\$ 1,272,727	\$ 15,708,046	\$ 331,413	\$ 16,039,459	
Compulsory insurance	2,733,297	-	2,733,297	44,239	2,689,058	
	<u>\$ 19,714,070</u>	<u>\$ 1,272,727</u>	<u>\$ 18,441,343</u>	<u>\$ 287,174</u>	<u>\$ 18,728,517</u>	

Year ended December 31, 2021						
Category of insurance	Gross premiums written (1)	Reinsurance premiums ceded (2)	Retention premiums (3)=(1)-(2)	Net change in unearned premium reserve (4)	Retention earned premiums (5)=(3)-(4)	
Non-Compulsory insurance	\$ 18,241,326	\$ 1,453,861	\$ 16,787,465	\$ 434,731	\$ 16,352,734	
Compulsory insurance	2,658,332	-	2,658,332	20,142	2,638,190	
	<u>\$ 20,899,658</u>	<u>\$ 1,453,861</u>	<u>\$ 19,445,797</u>	<u>\$ 454,873</u>	<u>\$ 18,990,924</u>	

(4) Calculation of retention reinsurance claims paid are shown below:

Year ended December 31, 2022			
Category of insurance	Reinsurance claims paid (1)	Reinsurance claims recovery (2)	Retention reinsurance claims paid (3)=(1)-(2)
Non-Compulsory insurance	\$ 13,109,655	\$ 799,509	\$ 12,310,146
Compulsory insurance	2,512,098	-	2,512,098
	<u>\$ 15,621,753</u>	<u>\$ 799,509</u>	<u>\$ 14,822,244</u>

Year ended December 31, 2021			
Category of insurance	Reinsurance claims paid (1)	Reinsurance claims recovery (2)	Retention reinsurance claims paid (3)=(1)-(2)
Non-Compulsory insurance	\$ 7,428,214	\$ 697,770	\$ 6,730,444
Compulsory insurance	2,594,919	-	2,594,919
	<u>\$ 10,023,133</u>	<u>\$ 697,770</u>	<u>\$ 9,325,363</u>

(5) Balance sheets for compulsory automobile liability insurance are as follows:

	December 31, 2022	December 31, 2021
Assets		
Cash and cash equivalents	\$ 4,311,137	\$ 4,093,501
Due from reinsurers and ceding companies	453,549	441,546
	<u>\$ 4,764,686</u>	<u>\$ 4,535,047</u>
Liabilities		
Unearned premium reserve	\$ 1,600,735	\$ 1,556,496
Claims reserve	2,246,064	2,196,412
Special reserve	917,887	782,139
	<u>\$ 4,764,686</u>	<u>\$ 4,535,047</u>

Note: As of December 31, 2022 and 2021, certain time deposits, which amounted to \$0 and \$188,400, respectively, included above as cash and cash equivalents of compulsory automobile liability insurance did not meet the definition of cash equivalents, consequently they are presented under other financial assets.

(6) Details of revenues and costs for compulsory automobile liability insurance are as follows:

	Year ended December 31, 2022	Year ended December 31, 2021
Operating revenues		
Reinsurance premiums	\$ 2,733,297	\$ 2,658,332
Net change in unearned premium reserve	(44,239)	(20,142)
Retention earned premiums	2,689,058	2,638,190
Interest income	8,440	5,618
	<u>\$ 2,697,498</u>	<u>\$ 2,643,808</u>
Operating costs		
Reinsurance claims paid	\$ 2,512,098	\$ 2,594,919
Net change in claims reserve	49,652	10,860
Net change in special reserve	135,748	38,029
	<u>\$ 2,697,498</u>	<u>\$ 2,643,808</u>

13. RISK MANAGEMENT

The Company has established risk management policy being the highest directive of promoting enterprise risk management, to efficiently identify, assess, respond and monitor all the risks assumed and to ensure that all risks are within the limitations as planned. Reasonable consideration relationship between risk and reward has been taken into account to maximize the value of equity, maintain the capital adequacy and solvency capability and strengthen the long-term operations of business. The Company has set up risk management committee which is in charge of executing risk management decisions made by the Board of Directors, as well as independent risk management unit which is responsible for executive affairs in daily monitoring, assessment and evaluation of risks.

With regard to various circumstances of the risk management and the monitoring specification, the Company implemented “Risk Managing Mechanism” covering market, credit, liquidity, operation, insurance, asset and liability, climate change and other risks. In addition, in order to better improve the strategic risk management efficiency, risk quantitative module, finance of risk variance are put to use to analyze various businesses. In addition, the Company sets up risk capacity and risk limit as the basis for risk management, and strengthening the management mechanism of various risks to strengthen the efficiency of risk management at the same time.

(1) Financial instruments

A. Financial risk management policies

Except for derivatives held by the Company, the Company’s financial instruments mainly comprise cash and cash equivalents, and all kinds of investments. The Company utilizes those instruments to achieve adjustments to operating cash flows. The Company holds other financial assets and liabilities as well, such as notes receivable from operating activities, due from (to) reinsurers and ceding companies, reinsurance receivables (payables), other accounts receivable, and other accounts payable.

The Company undertakes derivative financial instruments such as futures, forward foreign exchange contracts and FX swap contracts to hedge fair value risk arising from fluctuations in stock prices and exchange rates.

B. Significant financial risks and degrees of financial risks

(a) Market risk

i. Foreign exchange risk

To hedge cash flow fair value risk arising from fluctuations in exchange rates, the Company undertakes derivative financial instruments such as FX swap contracts and forward foreign exchange contracts to hedge recognized assets and liabilities denominated in foreign currencies.

The Company estimates that the conditions of the hedge instruments and the hedged items are the same, thus maximizing the hedging effectiveness.

(i) The Company's businesses involve some non-functional currency operations (the Company's functional currency: NTD, the Offshore Insurance Branch's currency: USD). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

December 31, 2022			
	Foreign currency amount (in thousands)	Exchange rate	Book value

JPY	1,001,407	0.240	240,807
KRW	19,132,553	0.023	445,600
USD	161,992	27.690	4,485,550

- (ii) Sensitivity analysis of foreign exchange risk for monetary financial assets and liabilities listed in the table below is performed for reasonably possible changes in foreign exchange rates with other conditions held constant and without considering foreign exchange derivatives for hedge, the effects on profit or loss before tax for the years ended December 31, 2022 and 2021 are as follows:

	Year ended December 31, 2022	Year ended December 31, 2021
Foreign currencies to NTD appreciate by 1%	\$ 117,601	\$ 101,275
Foreign currencies to NTD depreciate by 1%	(117,601)	(101,275)

ii. Price risk

- (i) The values of financial instruments may be changed by economic situations, industrial circumstances, market capital flows and government monetary policies. To hedge market value risk exposures, the Company adopts diversified assets allocation strategy taking into account the current trends of financial markets to flexibly adjust assets portfolio under the provisions of Article 146 (1) ~ (8) of the Insurance Act, regulating the limits of funds utilization ratios and accordingly, disperse the market value risk.
- (ii) The Company adopts the FX swap contracts and forward foreign exchange contracts to hedge exchange rate fluctuations risk on foreign-currency denominated assets. As the gain (loss) arising from exchange rate changes will mostly offset against the loss (gain) on hedged objectives, the Company estimates no material market value risk would arise. The Company is exposed to price risk because of investments in stock-related futures, which have fair value in the active market and are used for hedging purposes. The Company sets limits to control the transaction volume to reduce its market risk.
- (iii) The Company's investments comprise equity securities and REITs, etc. Their fair value would change due to the change of the prices of equity securities. If the prices of these equity securities and REITs had increased/decreased by 5% with all other variables held constant, the effects on profit and loss and equity in the years ended December 31, 2022 and 2021 are as follows:

December 31, 2022			
	Changes in variables	Changes in profit or loss before tax	Changes in other comprehensive income (before tax)
Financial assets at fair value through profit or loss	Increased/decreased by 5%	\$ 42,886	\$ 136,350
December 31, 2021			
	Changes in variables	Changes in profit or loss before tax	Changes in other comprehensive income (before tax)
Financial assets at fair value through profit or loss	Increased/decreased by 5%	\$ 4,300	\$ 353,692

iii. Interest rate risk

Sensitivity analysis of interest rate risk listed in the table below is performed for reasonably possible changes in interest rate with other conditions held constant, showing the effect on profit or loss before tax and other comprehensive income before tax. Measurement of interest rate risk only takes into consideration the duration but does not include convexity. Relevant effects may differ from the actual values, but the differences are not significant.

As of December 31, 2022 and 2021, debt instruments held by the Company were all classified as financial assets at amortized cost. Therefore, the Company was not exposed to interest rate risk.

(b) Credit risk

- i. When investing in financial instruments, the Company will encounter the risks that the transaction or credit counterparties may default on contracts and the custodians may incur operating difficulties. The Company utilizes funds and makes investments in accordance with the Article 146 of Insurance Act and relevant laws, and conducts transactions only with counterparties with good credit ratings, or ensures that financial instruments are issued or guaranteed by reputable financial institutions, or acquires adequate collaterals. The Insurance Act also puts a limit to the transaction amount on an individual transaction or credit counterparty. Accordingly, the maximum loss to the Company is the total amount of all book value.
- ii. The Company utilizes funds and makes investments in financial instruments except for short-term notes and bills, time deposits, demand deposits and cash equivalents in accordance with the Article 146 of Insurance Act and related laws, and sets limits to control the investment volume with an individual institution. Therefore, the Company has lower significant concentrations of credit risk. As for the management of credit risk of debt instruments, the Company identifies the credit risk by its rating provided by external institutions, credit quality, conditions of locations, and risk of counterparties. For credit ratings of transaction or credit counterparties, the Company strictly complies with the Article 146 of Insurance Act, the relevant legal interpretations and the Company's internal regulations on risk control. The transaction or credit counterparties of bond investments are those financial institutions and companies with a certain degree of credit rating.
- iii. The Company undertakes FX swap contracts and forward foreign exchange contracts only with high-credit-quality financial institutions. If the counterparties of Taiwan Stock Index Futures default, the futures brokers will be liable for the losses incurred on the default. Accordingly, the Company estimates no material credit risk would arise.
- iv. The Company recognizes the following events as financial instruments' credit risk increases significantly:
 - (i) Bond interest receivable and debt instrument investments at amortized cost:
 - a. When an independent external rating system has rated such investment instrument as investment grade, then it is classified as low credit risk;
 - b. When an independent external rating system has downgraded such investment instrument 2 notches and to non-investment grade; or
 - c. When an independent external rating system has rated such investment instrument as non-investment grade and decline in market value (against to the cost) exceeds 30%, then it is classified as the credit risk increases significantly.
 - (ii) Accounts receivable (excluding bond interest receivable) and other financial assets at amortized cost:

When contractual payments (excluding the debt instruments) are more than 30 days past due but less than 90 days, then it is classified as the credit risk increases significantly.
 - (iii) For the financial assets mentioned above, in order to accurately measure the impacts that Covid-19 has had on it due to a significant increase in credit risk, further and supplemental considerations would be needed.

- v. The Company uses the following indicators to assess whether a financial asset has a credit impairment:
 - (i) A breach of contract, such as a default or delinquency in interest or principal payments; when a contract (excluding the debt instruments) is overdue more than 90 days, it is deemed breached.
 - (ii) The issuer enters into bankruptcy or reorganization that significantly affects its business.
- vi. The Company wrote-off the financial assets partially or entirely to the extent of the amount which cannot be reasonably expected to be recovered. The indicators for reasonably expected to be unrecoverable include:
 - (i) The recourse procedure has ceased.
 - (ii) The debtor's assets or income is evaluated to be insufficient to repay outstanding payments.

vii. The Company uses credit ratings (including forward-looking information), probability of default and loss given default figures periodically published by international credit rating agencies to estimate expected credit loss of bond interest receivable and debt instruments at amortized cost. Information about expected loss rate is as follows:

	December 31, 2022		December 31, 2021	
	12 Months	Lifetime Significant increase in credit risk	12 Months	Lifetime Significant increase in credit risk
Bond interest receivable				
Group 1	0.0000%	-	0.0000%	-

Group 5: Under S&P BBB- or equivalents.

The following credit risk information for the accounts receivable – bond interest receivable and investments in debt instruments at amortized cost as of December 31, 2022 and 2021:

	December 31, 2022		December 31, 2021	
	12 Months	Lifetime Significant increase in credit risk	12 Months	Lifetime Significant increase in credit risk
Bond interest receivable				
Group 1	\$ 6,664	\$ -	\$ 6,050	\$ -
Group 2	39,370	-	35,559	-
Group 3	64,190	-	46,906	-
Group 4	3,759	-	4,373	-
Group 5	-	-	-	114
	<u>\$ 113,983</u>	<u>\$ -</u>	<u>\$ 92,888</u>	<u>\$ 114</u>
Debt instruments at amortized cost				
Group 1	\$ 765,494	\$ -	\$ 704,222	\$ -
Group 2	5,618,203	-	4,716,299	-
Group 3	8,232,228	-	6,052,328	-
Group 4	775,182	-	800,869	-
Group 5	-	-	-	200,000
	<u>\$ 15,391,107</u>	<u>\$ -</u>	<u>\$ 12,273,718</u>	<u>\$ 200,000</u>

Movements of loss allowance for bond interest receivable and investments in debt instruments at amortized cost as of December 31, 2022 and 2021 are as follows:

	2022		2021	
	12 Months	Lifetime Significant increase in credit risk	12 Months	Lifetime Significant increase in credit risk
Bond interest receivable				
At January 1	\$ 23	\$ -	\$ 23	\$ -
Provision	5	-	-	-
At December 31	<u>\$ 28</u>	<u>\$ -</u>	<u>\$ 23</u>	<u>\$ -</u>
	2022		2021	
	12 Months	Lifetime Significant increase in credit risk	12 Months	Lifetime Significant increase in credit risk
Debt instruments at amortized cost				
At January 1	\$ 3,208	\$ 511	\$ 3,224	\$ 1,122
Provision	720	-	-	-
Recovery	-	(511)	(16)	(611)
At December 31	<u>\$ 3,928</u>	<u>\$ -</u>	<u>\$ 3,208</u>	<u>\$ 511</u>

- viii. The Company considers expected loss rate based on historical and current information and takes into account forecasts of future economic conditions to estimate expected credit loss of accounts receivable (excluding bond interest receivable) and other financial assets at amortized cost. As of December 31, 2022 and 2021, the Company's accounts receivable (excluding bond interest receivable) and other financial assets at amortized cost are not overdue or past due no more than 30 days. The Company therefore assessed credit risk as low and do not recognize loss allowance for credit loss. The book value as of December 31, 2022 and 2021, are as follows:

	December 31, 2022	December 31, 2021
	12 Months	12 Months
Accounts receivable (excluding bond interest)	\$ 310,523	\$ 189,915
Other financial assets	-	3,083,454
Refundable deposits under other assets	388,107	192,583

(c) Liquidity risk

- i. The Company uses time deposits to adequately adjust its cash flows. When conducting investment evaluation, the Company will take into account the liquidity of financial instruments in secondary markets and may allocate some funds to lower-liquidity but higher-yield-rate financial instruments on condition that the risk is controlled. Even if those financial instruments are sold in the short-term, there is a less likelihood that liquidity risk

would arise due to the selling price being significantly lower than the fair value. However, those financial instruments are not intended to be sold in the short-term.

- ii. The notional principal of FX swap contracts and forward foreign exchange contracts is normally used as a calculation basis of receivables and payables for these transactions, and is not the actual settlement amount, except for new undertaking or non-renewing transactions. The actual settlement amount is usually lower than the notional principal. The Company has paid margins in advance before undertaking stock-related futures transactions, and daily evaluates the unsettled futures positions. In case additional margins have to be paid later on, the Company has sufficient working capital to fulfill its payment obligations. Accordingly, the Company estimates no material cash flow risk would arise.
- iii. The table below analyzes the Company's non-derivative financial liabilities and net-settled derivative financial liabilities into groupings based on the remaining period at the end of the reporting period to the contractual maturity date.

(i) Non-derivative financial liabilities

December 31, 2022	Due in one year	Due after one year through three years	Total
Accounts payable	\$ 587,855	\$ 1,538	\$ 589,393
Deposits-in (under other liabilities)	2,964	1,741	4,705
December 31, 2021	Due in one year	Due after one year through three years	Total
Accounts payable	\$ 755,268	\$ 1,839	\$ 757,107
Deposits-in (under other liabilities)	1,679	2,572	4,251

(ii) Net-settled derivative financial liability

December 31, 2022	Due in three months	Due after three months through one year	Total
FX swap contracts	\$ 457,882	\$ 43,366	\$ 501,248
Forward foreign exchange contracts	241	981	1,222
Futures	5,960	-	5,960
December 31, 2021	Due in three months	Due after three months through one year	Total
FX swap contracts	\$ -	\$ 567	\$ 567
Forward foreign exchange contracts	204	-	204

(2) Risk management of insurance contracts

All insurance contracts assumed by the Company, after assessment, were considered risks transferred by reinsurance. Risk management and procedures are summarized below:

A. Measurement and management of insurance risk:

Insurance risk occurs when loss frequency, severity, timing and other possible risk factors are far from past experience. For example, natural and man-made catastrophes risk may occur randomly and thus actual claims may be more than expected.

The Company follows underwriting and risk management related guidelines to assume reinsurance business. The Company's internal quantitative model, external monitoring model, internal control system and other related systems are developed to ensure insurance risks are efficiently identified, measured, steered and monitored.

(a) Underwriting policy

The reinsurance portfolio of the Company consists of various types of reinsurance and businesses from different countries and territories. The insurance types include life insurance, property and casualty insurance and others which are in compliance with regulatory requirement. The Company's development direction is to actively deepen the domestic market and steadily expand the international market to diversify risks of regional concentration.

(b) Retrocession strategy

In consideration of financial strength, capacity and the operation strategies, the Company arranges retrocession to increase the capacity, diversify risks, mitigate retained risk and increase business competitiveness. Furthermore, the Company has purchased catastrophe cover to minimize the exposure to catastrophe loss which may greatly impact the Company's financial performance. Stringent evaluation of the reputation and credit rating of the reinsurer is taken into account when the Company arranges a retrocession contract.

Although the Company adopts various prescribed methods to control insurance risk, given the random and unpredictable nature of insured incidents, deviation may occur between the actual result and the expectation derived from historical experience.

B. Concentration of insurance risk

Premium income and retention premium income ratio based on the business type are as follows:

Year Type	Year ended December 31, 2022		Year ended December 31, 2021	
	Reinsurance premiums	Retention premiums	Reinsurance premiums	Retention premiums
Domestic inward property reinsurance business	62.47%	61.69%	65.67%	64.75%
Domestic inward life reinsurance business	15.88%	16.62%	14.38%	15.14%
Subtotal-Domestic inward reinsurance business	78.35%	78.31%	80.05%	79.89%
Foreign inward reinsurance business	21.65%	21.69%	19.95%	20.11%
Total	100.00%	100.00%	100.00%	100.00%

C. Sensitivity analysis of insurance risk

The retention earned premium income of the Company (excluding the compulsory automobile liability insurance business) for the years ended December 31, 2022 and 2021 were \$16,039,459 and \$16,352,734, respectively. If the change of combined ratio of the Company is 1%, the estimated effect on gains and losses of underwriting for the years ended December 31, 2022 and 2021 would be approximately \$160,395 and \$163,527, respectively.

D. Loss development pattern

(a) As of December 31, 2022, the following table indicates the loss development pattern of the Company's inward business:

Year of underwriting	2017	2018	2019	2020	2021	2022	Total
Non-statutory insurance							
Accumulated estimated claim amount							
At the end of the year	\$ 4,676,211	\$ 4,930,116	\$ 5,429,011	\$ 6,182,109	\$ 7,121,181	\$ 6,244,330	
After the first year	7,200,462	8,375,507	8,960,138	10,391,862	17,191,845		
After the second year	7,175,700	8,368,857	8,642,445	9,750,131			
After the third year	7,025,963	8,047,413	8,631,181				
After the fourth year	6,916,847	7,847,939					
After the fifth year	6,691,771						
Accumulated estimated claim amount	6,691,771	7,847,939	8,631,181	9,750,131	17,191,845	6,244,330	\$ 56,357,197
Accumulated claim payment	(6,344,413)	(7,369,819)	(7,537,201)	(7,131,127)	(10,251,711)	(370,910)	(39,005,181)
Accumulated unpaid claim	347,358	478,120	1,093,980	2,619,004	6,940,134	5,873,420	17,352,016
Accumulated unpaid claim before 2016							2,110,488
Subtotal							19,462,504
Provision for statutory insurance claims reserve (Note)	-	-	34,790	474,193	1,146,030	591,070	2,246,083
Total							\$ 21,708,587

Note: Statutory insurance includes compulsory automobile liability insurance, residential earthquake insurance and nuclear insurance.

(b) As of December 31, 2022, the following table indicates the loss development pattern of the Company's retention business:

Year of underwriting	2017	2018	2019	2020	2021	2022	Total
Non-statutory insurance							
Accumulated estimated claim amount							
At the end of the year	\$ 4,427,596	\$ 4,566,834	\$ 4,965,602	\$ 5,507,600	\$ 6,488,150	\$ 5,713,533	
After the first year	6,686,191	7,512,520	8,197,721	9,303,467	16,256,724		
After the second year	6,712,808	7,418,997	7,937,308	8,729,938			
After the third year	6,546,353	7,159,109	7,966,700				
After the fourth year	6,461,136	7,006,103					
After the fifth year	6,252,331						
Accumulated estimated claim amount	6,252,331	7,006,103	7,966,700	8,729,938	16,256,724	5,713,533	\$ 51,925,329
Accumulated claim payment	(5,917,335)	(6,574,014)	(6,928,745)	(6,438,719)	(9,755,470)	(417,834)	(36,032,117)
Accumulated unpaid claim	334,996	432,089	1,037,955	2,291,219	6,501,254	5,295,699	15,893,212
Accumulated unpaid claim before 2016							2,051,887
Subtotal							17,945,099
Provision for statutory insurance claims reserve (Note)	-	-	34,790	474,193	1,146,030	591,070	2,246,083
Total							\$ 20,191,182

Note: Statutory insurance includes compulsory automobile liability insurance, residential earthquake insurance and nuclear insurance.

(c) As of December 31, 2021, the following table indicates the loss development pattern of the Company's inward business:

Year of underwriting	2016	2017	2018	2019	2020	2021	Total
Non-statutory insurance							
Accumulated estimated claim amount							
At the end of the year	\$ 4,823,223	\$ 4,676,211	\$ 4,930,116	\$ 5,429,011	\$ 6,182,109	\$ 7,121,181	
After the first year	7,371,808	7,200,462	8,375,507	8,960,138	10,391,862		
After the second year	7,038,930	7,175,700	8,368,857	8,642,445			
After the third year	6,840,249	7,025,963	8,047,413				
After the fourth year	6,705,805	6,916,847					
After the fifth year	6,678,514						
Accumulated estimated claim amount	6,678,514	6,916,847	8,047,413	8,642,445	10,391,862	7,121,181	\$ 47,798,262
Accumulated claim payment	(6,287,353)	(6,275,639)	(7,156,696)	(6,917,997)	(5,113,374)	(499,919)	(32,250,978)
Accumulated unpaid claim	391,161	641,208	890,717	1,724,448	5,278,488	6,621,262	15,547,284
Accumulated unpaid claim before 2015							2,692,846
Subtotal							18,240,130
Provision for statutory insurance claims reserve (Note)	-	-	24,983	454,002	1,109,042	608,404	2,196,431
Total							\$ 20,436,561

Note: Statutory insurance includes compulsory automobile liability insurance, residential earthquake insurance and nuclear insurance.

(d) As of December 31, 2021, the following table indicates the loss development pattern of the Company's retention business:

Year of underwriting	2016	2017	2018	2019	2020	2021	Total
Non-statutory insurance							
Accumulated estimated claim amount							
At the end of the year	\$ 4,501,311	\$ 4,427,596	\$ 4,566,834	\$ 4,965,602	\$ 5,507,600	\$ 6,488,150	
After the first year	6,787,551	6,686,191	7,512,520	8,197,721	9,303,467		
After the second year	6,519,989	6,712,808	7,418,997	7,937,308			
After the third year	6,321,303	6,546,353	7,159,109				
After the fourth year	6,192,607	6,461,136					
After the fifth year	6,166,722						
Accumulated estimated claim amount	6,166,722	6,461,136	7,159,109	7,937,308	9,303,467	6,488,150	\$ 43,515,892
Accumulated claim payment	(5,787,550)	(5,851,288)	(6,434,650)	(6,348,885)	(4,609,656)	(508,865)	(29,540,894)
Accumulated unpaid claim	379,172	609,848	724,459	1,588,423	4,693,811	5,979,285	13,974,998
Accumulated unpaid claim before 2015							2,619,271
Subtotal							16,594,269
Provision for statutory insurance claims reserve (Note)	-	-	24,983	454,002	1,109,042	608,404	2,196,431
Total							\$ 18,790,700

Note: Statutory insurance includes compulsory automobile liability insurance, residential earthquake insurance and nuclear insurance.

(3) Climate-related risk

The Company's Board of Directors had approved the policies on task force on climate-related risk financial disclosures to strengthen the management and disclosure of climate-related risks and opportunities and amended the policies on sustainable development to promote ESG (Environmental, Social, and Governance) in keeping with the times, including reaching the goal of sustainable coexistence with the environment. The Board of Directors takes the ultimate responsibility for the management of climate-related risk, sets up risk management committee and sustainable development committee under it to periodically review the climate-related risks and opportunities and includes the procedures for identification, assessment and management of climate change risk into the Company's overall risk management system.

By reference to the 'Guidelines on Climate-related Financial Disclosures of Insurance Companies' issued by the FSC, the Company identifies physical risk and transition risk of climate change and assesses their impact to the Company using qualitative or quantitative method through analysing the indicators of the occurrence probability and the impact degree of relevant risk factors, including potential impact that may arise from physical risk such as extreme weather, changes in climate patterns, sea levels and rising temperatures and transition risk impact such as policies and regulations, technology, market and reputation. After comprehensively considering the assessment results and conducting significance sequence, the Company formulated corresponding strategies for the assessment results of its own operations, insurance products and investment and financing. The Company will continue to optimise the risk management mechanism related to climate change, mitigate and adjust operational impacts arising from climate change and demonstrate the Company's resilience in facing climate risk to reach the goal of sustainable management.

14. THE OBJECTIVE, POLICY AND PROCEDURE OF CAPITAL MANAGEMENT

The Company's primary objectives when managing capital are to safeguard capital adequacy and solvency of the Company in order to support the Company's sustainable development and continuously create interests for shareholder.

In practice, Taiwan insurance enterprises usually measure whether the capital is adequate by using the ratio of self-owned capital to risk-based capital (the "capital adequacy ratio") and the net worth ratio. Pursuant to Article 5 of "Regulations Governing Capital Adequacy of Insurance Companies", the capital adequacy level of an insurance enterprise refers to the capital adequacy ratio equaling or exceeding 200% and the net worth ratio being at least 3% in one of the most recent two periods. The Company calculates the capital adequacy ratio every six months in accordance with the "Regulations Governing Capital Adequacy of Insurance Companies" to ensure that it can continuously meet the statutory capital requirement.

In accordance with the "Regulations Governing Capital Adequacy of Insurance Companies", the capital adequacy ratio is calculated as self-owned capital divided by risk-based capital. Self-owned capital is the total capital approved by the competent authority, which includes recognized owners' equity and other adjustment items as regulated by the competent authority; risk-based capital is the total capital calculated based on the extent of risk that an insurance enterprise assumes in its actual operations.

Capital adequacy ratios and the net worth ratio of the Company of the latest two years were all at capital adequacy level. In addition, the net worth ratio of the Company as of December 31, 2022 and 2021 is 33.81% and 33.46%, respectively, in accordance with the Article 15 of the “Regulations Governing the Preparation of Financial Reports by Insurance Enterprises”.

7.4 Impact of Major Capital Expenditures on Finance and Business Operations during 2022

None.

7.5 Investment Policy in the Last year, Main Causes for Profit or Losses, Improvement Plans and Investment Plans for the Coming Year

None.

7.6 The Analysis and Assessment of Risk Management in the last year up to the publication date of this report

1. Impact of interest rate, exchange rate, and inflation on the Company's earnings, and responsive measures:

The Company adopts the dynamic hedging strategy to the exchange rate risks from businesses and investment-related foreign currencies to reduce the impact of foreign exchange market fluctuations on the Company. The U.S. inflation rate is believed to reach the peak in the fourth quarter of 2022. Although there are still concerns about sticky prices, it is expected that the Fed will end the interest rate hike cycle in the first half of 2023. The Company's bond investments are mostly credit-rated and held to maturity, so interest rate risk is not expected to have a significant impact on the Company's overall bond valuation.

In view of the drastic changes in the financial environment in recent years, the Company will, based on the two goals of overall investment risk control and stable returns, appropriately adjust the investment positions allocation and hedging strategy to reduce the impact of the investment fluctuation factors.

2. Policies on high-risk and highly leveraged investments, loans to third parties, endorsements / guarantees, and trading of derivatives; describe the main causes of any profit or loss incurred and future responsive measures:

The Company's investments are carried out after careful evaluation of the price risk, liquidity risk, credit risk, and exchange rate risk. To date, the Company has not engaged in high-risk and highly leveraged investments, nor has it provided loans, endorsements or guarantees to other parties.

All derivatives transactions are for hedging. Relevant transactions are handled in accordance with the "Procedures for Transaction of Financial Derivatives" and "Investment Risk Management Operational Guidelines" established by the Company.

3. Future research and development plans and projected expenses:
Please refer to page 151.
4. Financial impacts and responsive measures due to change of local and foreign regulations in recent years: None.
5. Financial impacts and responsive measures due to technological (includes information security risk) or industrial changes:
 - (1) Technological change:

Although the Company, facing the technological change, does not have an e-commerce platform nor develop mobile device apps and other businesses that adopt emerging technologies to provide external services, we still perform vulnerability scanning and penetration test on all our information systems regularly every year, while patching vulnerabilities and threats as per regulations to reduce the risks of attacks on application systems and relevant information facilities. Before starting to adopt various emerging technologies, we have formulated relevant operating standards in accordance with the Operation Principles for the Use of Emerging Technologies in the Insurance Industry.

(2) Information and communication security risk:

In 2022, the Company duly complied with Article 6 and Article 6-1 of the Regulations Governing Implementation of Internal Control and Auditing System of Insurance Enterprises, and the information security this year was implemented duly and effectively. Moreover, we appointed the Institute for Information Industry this year to conduct the information security assessment of our computer systems, and there was no material abnormality in the assessment results. We conduct off-site backup drills every year for our core information system, during which we switch the operations completely to the off-site backup center to verify the backup effectiveness. With the above measures, we aim to minimize the information security risks.

(3) Industrial change: None.

6. Crisis management, impacts, and responsive measures due to change of corporate image: None.
7. Expected benefits, potential risks and responsive measures in relation to mergers and acquisitions undertaken: None.
8. Expected benefits, potential risks and responsive measures associated with plant expansions: None.
9. Risks and responsive measures associated with purchases or sales concentration: Regarding the analysis of the premium income for the year of 2022, if evaluated by the customer on the one hand, the premium income from Compulsory Motor insurance Pool accounted for 13.87%, which was the highest, and the rest were less than 10%; in respect of retrocession business, the Company will, by considering the credit rating of its counterparties, mainly choose reputable

insurance companies or brokers as its partners and thus have very low credit risk. On the other hand, if analyzed by business area, the Company's domestic assumed business accounted for 78.35% and foreign assumed business accounted for 21.65%. In the future, the Company will continue to expand its overseas business prudently make its business portfolio more complete and risks more diversified. The Company belongs to the reinsurance industry, so the disclosure of purchase-related matters is not applicable.

10. Impacts, risks and responsive measures following a major transfer of shareholding by directors, or shareholders with more than 10% ownership interest: None.
11. Impacts, risks and responsive measures associated with a change of management: None.
12. Major litigations, non-contentious cases, or administrative litigations involving the Company or any director, supervisor, president, person-in-charge or major shareholder with more than 10% ownership interest, whether concluded or pending judgment, that are likely to pose significant impact to shareholders' equity or security prices of the Company. Disclose the nature of dispute, the amount involved, the date the litigation first started, the key parties involved, and progress as of the publication date of this annual report: None.
13. Other material risks and responsive measures:

The Company continues to improve its operational resilience and strengthen its ability to respond to material events. We have implemented the operation of BCM mechanism in accordance with ISO 22301:2019 international standard, and conduct periodic operational impact analysis and review the BCM strategy. We also carry out self-evaluation and exercise and test on related plans to ensure uninterrupted service to protect our customers' rights and interests. To cope with the impact caused by the COVID-19 pandemic, we comply with the government's epidemic prevention and command center's requirements, and implement relevant measures such as working from backup site and working from home based on the Company's Operating Continuity Management Plan for Infectious Diseases.

As the only local professional reinsurance company in Taiwan, the Company is obliged to cooperate with government and insurance companies in Taiwan to build a social safety net. As a long-term trusted partner of the domestic insurance

industry, we will participate in some of the epidemic prevention insurance business in 2021 in response to market demand. The Company still conducts risk control and exposure assessment periodically. Although the operating performance in 2022 was affected by the COVID-19 variants and the change of the disease prevention policy, the loss of the business was reviewed by A.M. Best, S&P Global Rating and Taiwan Rating Corporation, which found that the loss was not harmful to the Company's solvency. In order to maintain capital levels, sustain steady growth in the underwriting capacity, consolidate our leading position in the Taiwanese market, and continue to develop our international business and enhance our competitiveness, we issued 210,000 thousand shares of common stock at a premium in 2022 through a cash capital increase, raising a total of NT\$3,318,000 thousand.

7.7 Other Importance Disclosure

None.

8. SPECIAL DISCLOSURE

8.1 Summary of Affiliated Companies

In 2022, the affiliation report prepared in accordance with “Criteria Governing Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises” set by the Financial Supervisory Commission , Please refer to pages 273 to 276.

Any events in 2022 and as of the date of this annual report had significant impacts on shareholders’ right or security prices as stated in subparagraph 2 paragraph 3 of Article 36 of the Securities and Exchange Act:

1. The Company reports a net income of NT\$253 million for the year of 2022, mainly due to the loss of epidemic prevention products.
2. The Company issued 210 million shares of common stock in 2022, leaving paid-in capital at NT\$8,004 million.

Risk Management:

1. Risk Management Framework and Policies:

(1) Risk Management Framework and Organization:

The Board of Directors is the highest decision maker of risk management and holds the ultimate responsibility for establishing the Company’s risk management system and operation.

A Risk Management Committee (RMC) has been assembled directly under the

Board of Directors. The independent director serves as the convener of RMC. The committee is responsible for the Company's overall risk management, laying down risk management policies, framework, and organizational function, and regularly submitting reports to the Board of Directors and implementing the Board's risk management decisions.

The risk management unit is responsible for daily risk monitoring, measurement, evaluation, and reporting affairs at the operational level. Collecting the overall risk management information quarterly submit it to the Risk Management Committee for review and discussion, and report to the Board of Directors.

The head of business unit is responsible for daily risk management and reports of the subordinate units and supervises the regular delivery of relevant risk management information to the risk management unit. The business unit is responsible to identify, measure, and monitor risks according to their scope of responsibility and business nature.

The Audit Office of the Board of Directors is responsible for auditing the implementation of each unit's risk management and to ensure the effectiveness of the Company's internal control system and make recommendations in a timely manner.

(2) Risk Management Policies:

The Company's risk management policy was approved by the Board of Directors in 2010 as the highest guiding principle for implementing risk management. The content thereof covers risk management strategies, risk management objectives, the risk management organization and its responsibilities, risk appetite and catastrophe risk limits, various types of risks, risk assessment, response and monitoring, as well as information, communication and documentation matters. Meanwhile, we have established risk management processing procedures and control mechanisms to implement the risk management function and ensure the Company's capital adequacy and solvency to achieve the goal of sustainable development.

2. Methods of Measuring and Controlling Risks and Quantitative Information on Exposure:

(1) Strategy and Process:

The Company's risk management strategy is to strengthen and carry out the risk

control mechanism and implement risk management processes to achieve risk management objectives. The main task includes: conducting risk management education for board members and all colleagues in the Company, and regularly in accordance with the “Risk Management Best Practice Principles for Insurance Enterprises” to conduct self-assessment to continuously strengthen the awareness and management of the risks of each business unit; updating relevant regulations on risk management, establishing risk management self-assessment operations, and setting risk limit early warning mechanisms to ensure risk management work and monitoring operations; performing catastrophe risk stress tests on a regular basis to examine the risk accumulation and its impact on the Company’s solvency; continuing to build risk models and understanding models’ limitations, so as to accurately grasp the Company’s risks and solvency levels ; regularly monitoring the risk appetite management, catastrophe risk limits and catastrophe accumulation risk, reinsurance business credit risk, RBC risk capital, funds allocations statutory ratio, liquidity, market risk value, credit risk, value-at-risk of the exchange rate, and other risks. Additionally, the focus of work for each risk category is described as follows:

① Insurance risk:

Conducting business pricing, underwriting and claims processing in accordance with the policies of underwriting and claims adjusting system and procedures; assessing the each single risk and the cumulative catastrophe risk of single accident event in accordance with the reinsurance risk management plan, and considering the Company’s capacity, arranging catastrophe reinsurance protection; identifying and measuring catastrophic events that may cause major losses to the Company, and regularly monitoring catastrophe risk limits; setting up the Company’s method for setting aside various reserves in accordance with regulations and the characteristics of the business, and performing reserve testing to assess the reserve adequacy.

② Market risk:

Regularly conducting risk assessments, and evaluating the holding position of each investment asset, and use Value at Risk (VaR) to calculate the maximum loss that may occur in the investment product positions over a

given time period for a given confidence interval, so that the overall market risk can be controlled within the upper limit of the total risk value.

③ Credit risk:

The Company may consider the overall financial market situation, regularly assessing the concentration of credit risk in the use of funds; establish a credit monitoring mechanism for the Company's reinsurers to control the reinsurance credit risk.

④ Operational risk:

Developing internal controls and continuously tracking the establishment of each unit's operational risk management mechanism and enhancing operational risks and loss events collection; researching and developing the internal loss database; developing the operational risk Key Risk Indicators (KRI) and self-assessment mechanism for each unit.

(2) Scope of risks report and measuring system:

① Insurance risk:

The Company may regularly conduct statistics on the relevant reports of facultative reinsurance and treaty reinsurance and report them to the senior management by the responsible unit. The overall company's reports for the premium risk capital limit, the catastrophe risk limits of the business in each region, the value at risk of each economic capital model, and so on, are regularly collected and reported by the risk management unit.

② Market risk:

The market risk control report shows the evaluation of the profit and loss of the investment assets at market prices or net values with regard to the risk factors such as market interest rate, exchange rate, price change, etc. It calculates the VaR and the stress tests are also regularly conducted. The Company may regularly conduct the back-testing of the actual change in the profit and loss of the market risk-related product positions and the estimated value at risk to examine the adequacy of the model. Reports of the asset risk capital limit and liquidity limit, etc. are collected and reported by the risk management unit on a regular basis.

③ Credit risk:

Evaluating the credit ratings of the counterparty, investment target or securities issuer, guarantee agency or debtor with which the funds are used, and reviewing the concentration of credit risk; regularly reviewing the credit rating of the insurance company or reinsurance company with which the retrocession business is conducted, and evaluating the impact of ineligible retrocession.

④ Operational risk:

Each unit conducts a self-examination and prepares the operational risk event report depending on the situation; the risk management unit consolidates the reports and also performs the tracking and controlling.

(3) Policies for hedging and risk mitigation:

- ① In respect of insurance risk, according to the underwriting guidelines of each line of business and the maximum tolerance limit, reducing the risk of undertaking business by retrocession business.
- ② In respect of market risk, the hedging strategy is based on the dynamics of the overall financial environment, to flexibly adjust asset allocation to avoid the risk of huge changes in the market price;
- ③ In respect of risk, establishing standards for the concentration of credit risk of the counterparties or issuers, and the credit ratings of reinsurers, and regularly checking and monitoring;
- ④ In respect of operational risk, regularly performing each unit's internal control and self-auditing, regulatory compliance self-assessment, risk management self-assessment, and other operations; in addition, the internal audit conducts a periodic audit on the implementation status of the operational risk management system.

(4) Ways to perform risk management:

The Company may aim to comply with the Insurance Act, the Risk Management Best-Practice Principles for Insurance Industry, and the relevant regulations, consider the Company's overall risks, establish a risk management

mechanism for all categories of risk, and adopt sound investment strategies, rigorous underwriting guidelines, proper reinsurance arrangements, and internal controls and management regulations for each business to reduce operating risks.

Effectively identifying, measuring, responding to and monitoring the risks of the entire company takes, implementing the risk limit early warning mechanism, ensuring that the risk control taken by the Company is under the tolerable risk levels, and considering the reasonable consideration between risks and rewards, creating the maximum value of shareholders' equity value, and maintaining self-owned capital adequacy and proper solvency capacity to improve the Company's long-term business operations.

Enhancing the effectiveness of the Company's strategic risk management, using risk quantification models to analyze the degree of the risk changes in the insurance, investment, and other businesses as an important reference for formulating business strategies, and setting the catastrophe risk limits as the basis for the management of the catastrophes and market risks of the insurance business. In addition, promoting the modularization of various types of risk continuously improves the effectiveness of risk control.

Implementation of Internal Control System

Internal Control System Statement

Central Reinsurance Corporation

Internal Control System Statement

Based on the findings of self-inspection, the Internal Control System of the Company for the period from January 1, 2022 to December 31, 2022 are as follow:

- I. The Company acknowledges that the Company's Board of Directors and managers are responsible for establishing, implementing, and maintaining an adequate internal control system. Its goals are to provide reasonable assurance on the target achievement on the results of operations, financial reporting, and legal compliance. The goal of operations is to pursue results and efficiency in operations including profitability, performance and asset security; the goal of financial reporting is to ensure reliability of external financial reporting; the goal of legal compliance is to ensure compliance with relevant laws and regulations. The legal compliance system is part of the internal control system dedicated to achieving legal compliance goals. Financial records and statements are prepared in accordance with the Insurance Act and related regulations based on consistent basis of preparation and they are results of the internal control system for financial reporting.
- II. There are inherent limitations regardless the most well-designed internal control system. An effective internal control system can only reasonably ensure the achievement of the aforementioned 3 goals. The effectiveness of the internal control system may be subject to changes due to surroundings and circumstances beyond our control. Nevertheless, the Company's internal control system contains self-monitoring mechanisms and the Company takes immediate remedial actions in response to any identified deficiencies.
- III. The Company determines the effectiveness of the design and implementation of its internal control system in accordance with the

“Regulations Governing Implementation of Internal Control and Auditing System of Insurance Enterprises” (hereinafter referred to as the “Regulations”) promulgated by the Financial Supervisory Commission. The aforementioned judgment is also based on the items for evaluating the effectiveness of the internal control system in the “Regulations.” The criteria adopted by the Regulations identify five key components of managerial internal control: 1. Control environment; 2. Risk assessment; 3. Control activities; 4. Information and communication; and 5. Monitoring. Each component includes a number of items for evaluation. Please refer to the “Regulations” for information on the items.

- IV. The Company has evaluated the effectiveness of the design and implementation of its internal control system according to the previously mentioned criteria.
- V. Based on the above-mentioned inspection results, the Company believes that the design and implementation of the internal control system (including operations, financial reporting, the status of overall implementation of information security, and legal compliance) during the period of the period are effective. In addition to the items listed in the schedule, it can reasonably ensure the Board of Directors and managers know the extent of which the operating goals have been achieved, the goals for financial reporting and legal compliance have been achieved; it is also believed that the financial records and statements are prepared in accordance with the Insurance Act and relevant regulations. The basis for the reports was consistent and the correctness was reasonable.
- VI. This statement shall become the primary content of the Annual Report and prospectus. Any falsehood, concealment, or other illegality in the content made public will involve legal liability under Articles 20, 32, 171, and 174 of the Securities and Exchange Act as well as regulations related in the Insurance Act.

VII. This Statement has been approved by the Company's meeting of Board of Directors on March 8, 2023.

CPA's Assurance Report on the Internal Control System

Tzu-Hui-Tsung-Zi No. 22008286

To Central Reinsurance Corporation:

The design and implementation of the internal control system of Central Reinsurance Corporation (hereinafter referred to as the "Company") as of December 31, 2022, in relation to external financial reporting (including the accuracy reports filed to the competent authority in accordance with the financial reporting internal control system), protection of the security of assets (ensuring the assets are not obtained, used, or disposed of under unauthorized conditions), and legal compliance, and the statement of the Company on March 8, 2023 regarding its internal control system which includes external financial reporting (the accuracy reports filed to the competent authority in accordance with the financial reporting internal control system), protection of the security of assets (ensuring the assets are not obtained, used, or disposed of under unauthorized conditions), and legal compliance; and stating that the internal control system was effectively designed and implemented as of December 31, 2022, have been audited by CPA.

Subject Matter, Subject Information and Applied Basis

The subject matter and the subject information of this assurance engagement are the design and implementation of the Company's internal control system relating to external financial reporting (including the accuracy reports filed to the competent authority in accordance with the financial reporting internal control system), protection of the security of assets (ensuring the assets are not obtained, used, or disposed of under unauthorized conditions), and legal compliance as of December 31, 2022, and the statement of the design and operating effectiveness of the internal control system as of December 31, 2022, in relation to external financial reporting (including the accuracy reports filed to the competent authority in accordance with the financial reporting internal control system), protection of the security of assets (ensuring the assets are not obtained,

used, or disposed of under unauthorized conditions), and legal compliance issued by the Company on March 8, 2023. Please refer to the attachment.

The applicable basis for measuring or evaluating the aforementioned assurance targets and subject information is the effectiveness of the internal control system under the Regulations Governing Implementation of Internal Control and Auditing System of Insurance Enterprises and the Regulations Governing Foreign Investments by Insurance Companies.

Inherent Limitations

Any internal control system has inherent constraints. Hence, it is possible that the aforementioned internal control system of Central Reinsurance Corporation will not be able to prevent or detect errors or frauds that have already taken place. In addition, future environment may change, and compliance to the internal control system may also decrease; hence, an effective internal control system in this period may not be as effective in the future.

Management's Responsibility

It is the management's responsibility to establish an internal control system in accordance with the "Regulations Governing Implementation of Internal Control and Auditing System of Insurance Enterprises", and other relevant laws and regulations, and to review it constantly to maintain the design and operating effectiveness of the internal control system, and to issue a statement on the internal control system after evaluating its effectiveness.

CPA's Responsibility

The CPA's responsibility is to perform the necessary procedures on the subject matter and subject information in accordance with the "Article 26 of Regulations Governing Implementation of Internal Control and Auditing System of Insurance Enterprises", "Regulations Governing Foreign Investments by Insurance Companies", Letter No. 10602506430 issued by the Financial Supervisory Commission on Jan 15, 2018, Letter No. 10804501381 issued by the Financial Supervisory Commission on Jun 25, 2019 and Letter No. 10904350082 issued by the Financial Supervisory

Commission on Jan 22, 2021 related to the Example for Auditing the Internal Control System of the Insurance Industry by CPA and the TWSAE 3000, “Assurance Engagements for Audits or Reviews of Non-Historical Financial Information.” The CPA also concluded that whether or not the subject matter and subject information complied, in all material respects, with the applicable basis and were fairly expressed.

Independence and Standards on Quality Management for CPA

The CPA and the firm have complied with The Bulletin of Norm of Professional Ethics for Certified Public Accountants of the Republic of China with respect to independence and other ethical standards, the fundamental principles of which are integrity, objectivity, professional competence and due care, confidentiality and professional behavior.

The firm applies Standard Quality Management No. 1, “Quality Management for Accounting Firms,” and therefore maintains a comprehensive quality management system that includes written policies and procedures related to compliance with the ethical norms, professional standards, and applicable laws and regulations.

Summary of the Procedures Performed

The CPA have planned and performed the necessary procedures based on the professional judgment to obtain evidence related to the subject matter and subject information. The procedures performed include understanding the Company’s internal control system, evaluating the process by which management has evaluated the effectiveness of the overall internal control system, testing and evaluating the effectiveness of the design and operating effectiveness of the internal control system in relation to external financial reporting (including the accuracy reports filed to the competent authority in accordance with the financial reporting internal control system), protection of the security of assets (ensuring the assets are not obtained, used, or disposed of under unauthorized conditions), and legal compliance, and such other assurance procedures as the CPA consider necessary.

Conclusion

In opinion of the CPA, the Company has complied, in all material respects, with the design and implementation of the internal control system as of March 8, 2023 relating to external financial reporting (including the accuracy reports filed to the competent authority in accordance with the financial reporting internal control system), protection of the security of assets (ensuring the assets are not obtained, used, or disposed of under unauthorized conditions), and legal compliance. The Company has complied in all material respects with the effectiveness of the internal control system under the “Regulations Governing Implementation of Internal Control and Auditing System of Insurance Enterprises”, and the “Regulations Governing Foreign Investments by Insurance Companies”. The statement of the design and operating effectiveness of the internal control system issued by the Company as of December 31, 2022, in relation to external financial reporting (including the accuracy reports filed to the competent authority in accordance with the financial reporting internal control system), protection of the security of assets (ensuring the assets are not obtained, used, or disposed of under unauthorized conditions), and legal compliance, is fairly expressed in all material respects.
