Overview- Innovation in digital image technology

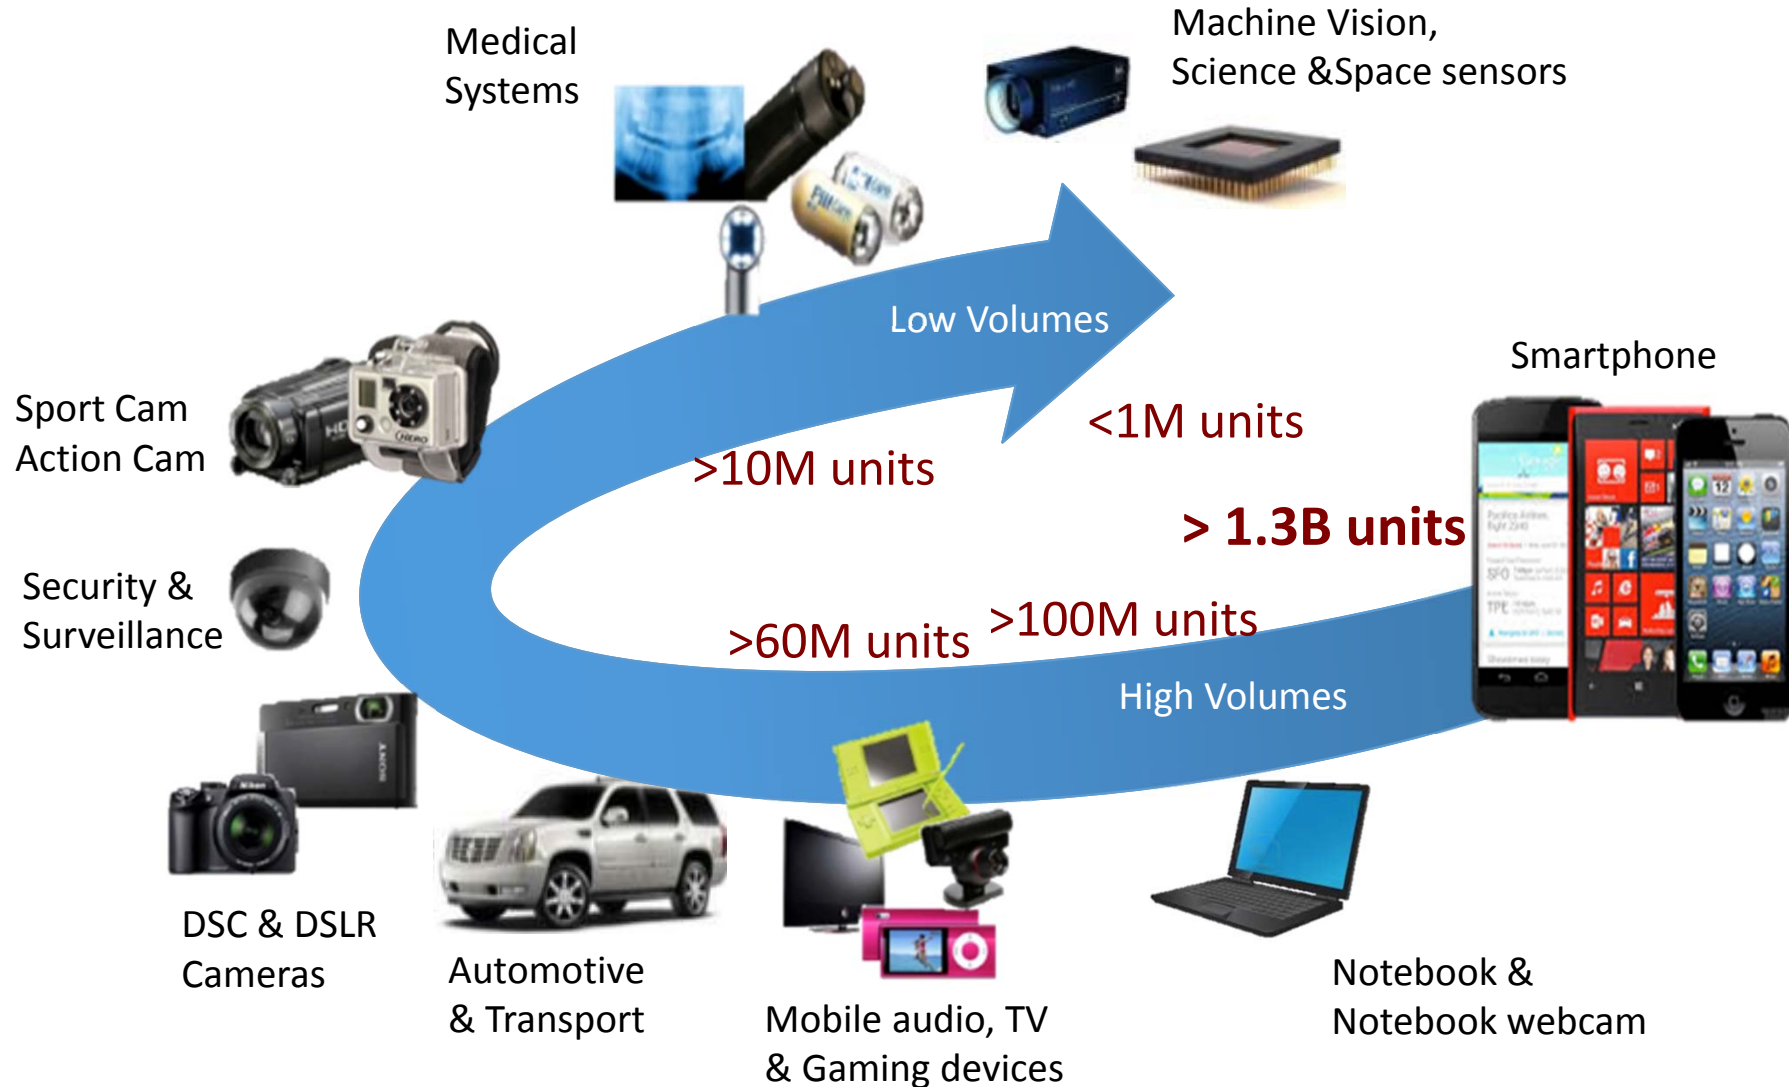

- Headquarter: Hsinchu, Taiwan
- Manufacture Site: Kunshan, China

Core Competence

Imaging Application Areas

Imaging Solutions

Mobile

- Image Signal Processor (ISP)
- Dual Camera & Camera Module
- SIP and Software

Autotronics

- Rear view camera
- Around view monitor system (AVM)
- Lane Departure Warning System
- Moving Object Detection (MOD)
- Auto parking
- Autonomous car

Medical

- Portable Healthcare & Diagnostic
- Screening & Diagnostic Optics/Camera
- Diagnostic Imaging
- Single-use Device
- Connected Solutions (Telehealth)

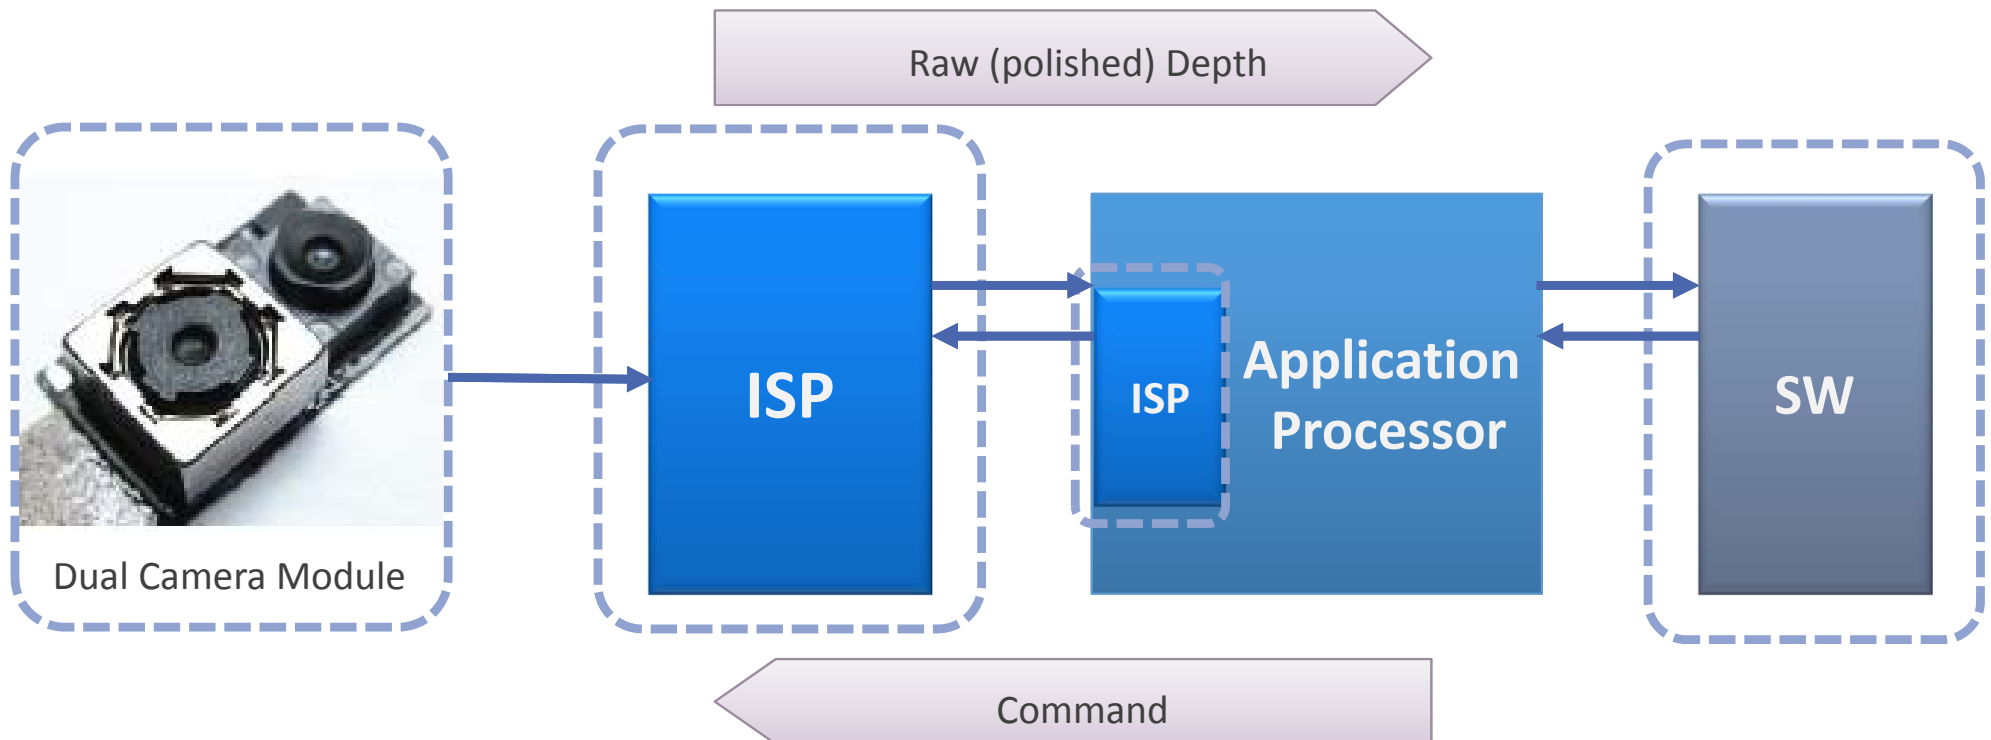

Image products

- Wearable Camera
- IP Camera
- Driving Recorder
- DSC

Mobile Imaging Solution

The Pioneer and Leader of Camera Solution for Smartphone

Mobile Imaging Solution

The first commercial dual camera for smartphone

Touch the phone's screen to focus on a specific object, blurring the background, without having to launch a specific camera mode or app.

Dual Camera: Refocus

- Change focal point
- Change depth of field
- Multi focus

Autotronic Imaging Solution

Around view monitor system (AVM)

Extended around view monitor system

Lane Departure Warning System

Rear view camera

Moving Object Detection (MOD)

Alley view monitoring system

Side view camera

Viewing Product
Sensing Product

Autotronic Imaging Solution

Around view monitor system (AVM)

The Eagle view system:
one ECU and four cameras

Medical Imaging Solution

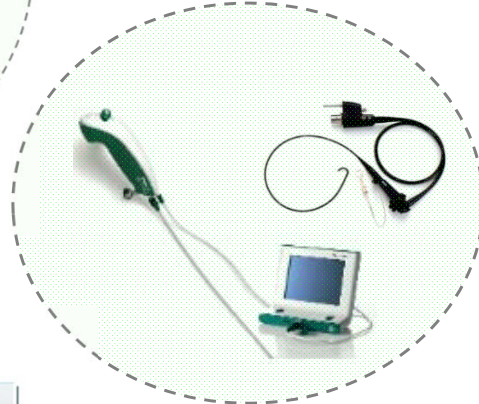

Strategic Medical Areas

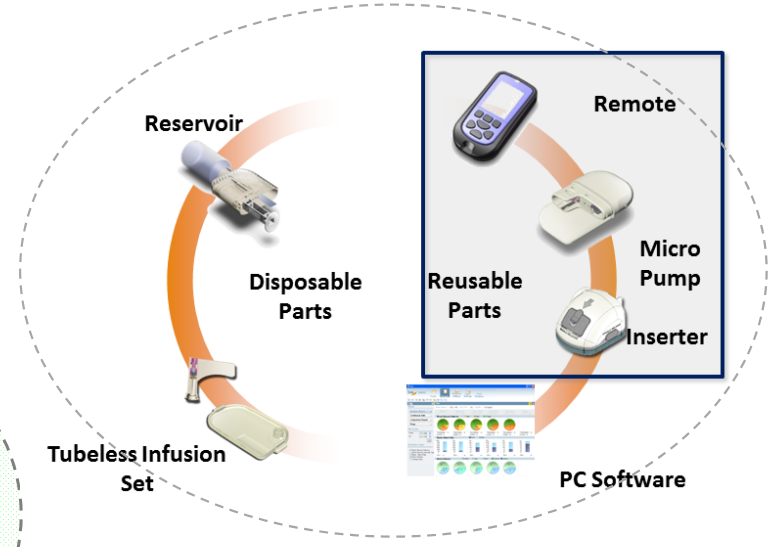

Medical Imaging

Endoscope

Disposable & Reusable Parts

Diabetes Care

Connected Diagnostic Health

Consumer Imaging Solution

Wearable Camera/Sport Camera is high growing

Wearable Camera:
Sport Camera

IP Camera

Thank You.
