In the event of a conflict between these financial statements and the original Chinese version or difference in interpretation between the two versions, the Chinese language financial statements shall prevail.

Independent Auditors' Review Report

To Jia Wei Lifestyle, Inc.

Introduction

We have reviewed the accompanying consolidated balance sheets of Jia Wei Lifestyle, Inc. (the “Company”) and its subsidiaries as of 30 June 2024 and 2023, the related consolidated statements of comprehensive income for the three-month and six-month periods ended 30 June 2024 and 2023 and consolidated statements of changes in equity and cash flows for the six-month periods ended 30 June 2024 and 2023, and notes to the consolidated financial statements, including the summary of significant accounting policies (together “the consolidated financial statements”). Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, “Interim Financial Reporting” as endorsed and became effective by Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Scope of Review

We conducted our reviews in accordance with the Standard on Review Engagements 2410, “Review of Financial Information Performed by the Independent Auditor of the Entity” of the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing of the Republic of China does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Company and its subsidiaries as of 30 June 2024 and 2023, and its consolidated financial performance for the three-month and six month periods ended 30 June 2024 and 2023, and its consolidated cash flows for the six-month periods ended 30 June 2024 and 2023, in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, “Interim Financial Reporting” as endorsed and became effective by Financial Supervisory Commission of the Republic of China.

English Translation of Financial Statements Originally Issued in Chinese
JIA WEI LIFESTYLE, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX-MONTH PERIODS ENDED 30 June 2024 AND 2023
(Expressed in thousands of New Taiwan Dollars unless otherwise Specified)

1. History and organization

Jia Wei Lifestyle, Inc. (the Company) was incorporated on 21 April 2005. The Company's common shares were publicly listed on the Taipei Exchange (TPEX) on 27 February 2008. Due to business needs, its registered office and the main business location were moved to the 14F.-4, No. 296, Sec. 4, Xinyi Rd., Da'an Dist., Taipei City 106, Taiwan (R.O.C.) on 14 August 2019. The main business project is the design, development, manufacturing and sales of household products.

2. Date and procedures of authorization of financial statements for issue

The consolidated financial statements of the Company and its subsidiaries ("the Group") for the six-month periods ended 30 June 2024 and 2023 were authorized for issue in accordance with a resolution of the Board of Directors' meeting on 9 August 2024.

3. Newly issued or revised standards and interpretations

- (1) Changes in accounting policies resulting from applying for the first time certain standards and amendments

The Group applied International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), and Interpretations issued, revised or amended which are recognized by the Financial Supervisory Commission (FSC) and became effective for annual periods beginning on or after 1 January 2024. The nature and the impact of each new standard and amendment have no material effect on the Group.

- (2) Standards or interpretations issued, revised or amended, by International Accounting Standards Board ("IASB") which are endorsed by FSC, and not yet adopted by the Group as at the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	Lack of Exchangeability – Amendments to IAS 21	1 January 2025

- (a) Lack of Exchangeability – Amendments to IAS 21

These amendments specify whether a currency is exchangeable into another currency and, when it is not, to determining the exchange rate to use and the disclosures to provide.

The abovementioned amendments are applicable for annual periods beginning on or after 1 January 2025 and have no material impact on the Group.

- (3) Standards or interpretations issued, revised or amended, by IASB which are not endorsed by FSC, and not yet adopted by the Group as at the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures	To be determined by IASB
b	IFRS 17 “Insurance Contracts”	1 January 2023
c	IFRS 18 “Presentation and Disclosure in Financial Statements”	1 January 2027
d	Disclosure Initiative – Subsidiaries without Public Accountability: Disclosures (IFRS 19)	1 January 2027
e	Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7	1 January 2026
f	Annual Improvements to IFRS Accounting Standards – Volume 11	1 January 2026

- (a) IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures

The amendments address the inconsistency between the requirements in IFRS 10 *Consolidated Financial Statements* and IAS 28 *Investments in Associates and Joint Ventures*, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors’ interests in the associate or joint venture.

(b) IFRS 17 “Insurance Contracts”

IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects (including recognition, measurement, presentation and disclosure requirements). The core of IFRS 17 is the General (building block) Model, under this model, on initial recognition, an entity shall measure a group of insurance contracts at the total of the fulfilment cash flows and the contractual service margin. The carrying amount of a group of insurance contracts at the end of each reporting period shall be the sum of the liability for remaining coverage and the liability for incurred claims.

Other than the General Model, the standard also provides a specific adaptation for contracts with direct participation features (the Variable Fee Approach) and a simplified approach (Premium Allocation Approach) mainly for short-duration contracts.

IFRS 17 was issued in May 2017 and it was amended in 2020 and 2021. The amendments include deferral of the date of initial application of IFRS 17 by two years to annual beginning on or after 1 January 2023 (from the original effective date of 1 January 2021); provide additional transition reliefs; simplify some requirements to reduce the costs of applying IFRS 17 and revise some requirements to make the results easier to explain. IFRS 17 replaces an interim Standard – IFRS 4 Insurance Contracts – from annual reporting periods beginning on or after 1 January 2023.

(c) IFRS 18 “Presentation and Disclosure in Financial Statements”

IFRS 18 replaces IAS 1 Presentation of Financial Statements. The main changes are as below:

(1) Improved comparability in the statement of profit or loss (income statement)

IFRS 18 requires entities to classify all income and expenses within their statement of profit or loss into one of five categories: operating; investing; financing; income taxes; and discontinued operations. The first three categories are new, to improve the structure of the income statement, and requires all entities to provide new defined subtotals, including operating profit or loss. The improved structure and new subtotals will give investors a consistent starting point for analyzing entities’ performance and make it easier to compare entities.

(2) Enhanced transparency of management-defined performance measures

IFRS 18 requires entities to disclose explanations of those entity-specific measures that are related to the income statement, referred to as management-defined performance measures.

(3) Useful grouping of information in the financial statements

IFRS 18 sets out enhanced guidance on how to organize information and whether to provide it in the primary financial statements or in the notes. The changes are expected to provide more detailed and useful information. IFRS 18 also requires entities to provide more transparency about operating expenses, helping investors to find and understand the information they need.

(d) Disclosure Initiative – Subsidiaries without Public Accountability: Disclosures (IFRS 19)

This standard permits subsidiaries without public accountability to provide reduced disclosures when applying IFRS Accounting Standards in their financial statements. IFRS 19 is optional for subsidiaries that are eligible and sets out the disclosure requirements for subsidiaries that elect to apply it.

(e) Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7

The amendments include:

- (1) Clarify that a financial liability is derecognised on the settlement date and describe the accounting treatment for settlement of financial liabilities using an electronic payment system before the settlement date.
- (2) Clarify how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features.
- (3) Clarify the treatment of non-recourse assets and contractually linked instruments.
- (4) Require additional disclosures in IFRS 7 for financial assets and liabilities with contractual terms that reference a contingent event (including those that are ESG-linked), and equity instruments classified at fair value through other comprehensive income.

(f) Annual Improvements to IFRS Accounting Standards – Volume 11

(1) Amendments to IFRS 1

The amendments mainly improve the consistency in wording between first-time adoption of IFRS and requirements for hedge accounting in IFRS 9.

(2) Amendments to IFRS 7

The amendments update an obsolete cross-reference relating to gain or loss on derecognition.

(3) Amendments to Guidance on implementing IFRS 7

The amendments improve some of the wordings in the implementation guidance, including the introduction, disclosure of deferred difference between fair value and transaction price and credit risk disclosures.

(4) Amendments to IFRS 9

The amendments add a cross-reference to resolve potential confusion for a lessee applying the derecognition requirements and clarify the term “transaction price”.

(5) Amendments to IFRS 10

The amendments remove the inconsistency between paragraphs B73 and B74 of IFRS 10.

(6) Amendments to IAS 7

The amendments remove a reference to “cost method” in paragraph 37 of IAS 7.

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Group’s financial statements were authorized for issue, the local effective dates are to be determined by FSC. As the Group is still currently determining the potential impact of the new or amended standards and interpretations listed under (a), (c), (e), and (f), it is not practicable to estimate their impact on the Group at this point in time. The remaining new or amended standards and interpretations have no material impact on the Group.

4. Summary of significant accounting policies

(1) Statement of compliance

The consolidated financial statements of the Group for the six-month periods ended 30 June 2024 and 2023 have been prepared in accordance with Regulations Governing the Preparation of Financial Reports by Securities Issuers (“the Regulations”) and IAS34 “Interim Financial Reporting” which is endorsed and become effective by FSC.

(2) Basis of preparation

The consolidated financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The consolidated financial statements are expressed in thousands of New Taiwan Dollars(“NT\$”) unless otherwise stated.

(3) Basis of consolidation

Preparation principle of consolidated financial statements

Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Company controls an investee if and only if the Company has:

- (a) power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- (b) exposure, or rights, to variable returns from its involvement with the investee, and
- (c) the ability to use its power over the investee to affect its returns

When the Company has less than a majority of the voting or similar rights of an investee, the Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee
- (b) rights arising from other contractual arrangements
- (c) the Group's voting rights and potential voting rights

The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Subsidiaries are fully consolidated from the acquisition date, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using uniform accounting policies. All intra-group balances, income and expenses, unrealized gains and losses and dividends resulting from intra-group transactions are eliminated in full.

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction.

Total comprehensive income of the subsidiaries is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

If the Company loses control of a subsidiary, it:

- (a) derecognizes the assets (including goodwill) and liabilities of the subsidiary;
- (b) derecognizes the carrying amount of any non-controlling interest;
- (c) recognizes the fair value of the consideration received;
- (d) recognizes the fair value of any investment retained;
- (e) reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss, or transfer directly to retained earnings if required by other IFRS; and
- (f) recognizes any surplus or deficit in profit or loss.

The consolidated entities are listed as follows:

Investor	Subsidiary	Main businesses	Percentage of ownership (%)		
			30 June2024	31 Dec 2023	30 June2023
The Company (Note 1)	Achieve Goal Limited (AG)	Investment holding	100%	100%	100%
The Company (Note 2)	Golden Star Ocean Ltd (GS)	Investment holding	100%	100%	100%
The Company (Note 3)	Freshlink Product Development, LLC DBA PREPARA (PREPARA)	Design and sales of household products	100%	100%	100%
The Company (Note 4)	First Design Global, Inc (FDG)	International trade	99.87%	99.84%	99.84%
The Company (Note 5)	Jia Wei Lifestyle Vietnam Limited Company	Production and sales of household products	100%	100%	-
AG (Note 1)	Tzehg Shyng Plastic Product (Heyuan) Co., Ltd. (TSP)	Production and sales of household products	100%	100%	100%
AG (Note 1)	Tzeng Shyng Melamine Products (Heyuan) Co., Ltd. (TSM)	Production and sales of household products	100%	100%	100%
GS (Note 2)	Tzeng Shyng Industries Corporation. (Seychelles) (TZ)	International trade	100%	100%	100%
GS (Note 2)	First Design Global, Inc.	International trade	0.13%	0.16%	0.16%

Note: The Group acquired Golden Star Ocean Ltd and Achieve Goal Limited through an investment agreement on 5 June 2019 and acquired 100% equity of Freshlink Product Development, LLC DBA PREPARA through an investment agreement on 18 July 2019. By investment agreement was controlled on 1 August 2019, so it was included in the consolidated entity and the Golden Star Ocean Ltd. and Achieve Goal Limited 100% owned subsidiaries are also included in the consolidated entity.

Note 1: The Group adjusted its operating strategy and acquired the 100% equity of Achieve Goal Limited held by Golden Fame Co., Ltd. from Golden Fame Co., Ltd. on 17 April 2019 by the board of directors and on 28 May 2019 by shareholders' meeting, an investment agreement was signed for an acquisition contract on 5 June 2019, and the transaction amount was not higher than USD23,600 thousand. The Group approved the amount of USD23,600 thousand according to the investment review committee of the Ministry of Economic Affairs. The Group had remitted USD23,600 thousand, and completed the transfer.

Note 2: The Group adjusted its operating strategy and acquired its 100% equity interest in Golden Star Ocean Ltd. from Lucky Star Worldwide Ltd. on 17 April 2019 by the board of directors and on 28 May 2019 by shareholders' meeting on 5 June 2019, an investment agreement was signed for an acquisition contract, and the transaction amount was not higher than USD57,000 thousand; in addition, on 15 October 2019 the price adjustment mechanism was started to reduce the purchase price to USD48,500 thousand. (It is equivalent to NT\$1,484,100 thousand). The Company had paid NT\$1,484,100 thousand in accordance with the contract, and completed the transfer.

Note 3: The Group adjusted its operating strategy and acquired the 100% equity of Freshlink Product Development LLC. on 3 July 2019 by the board of directors and an investment agreement was signed for an acquisition contract, the transaction amount was USD3,500 thousand, the shares were transited on 26 July 2019, and the amount was paid. As of 9 August 2024, the board of directors authorized cash capital increase of USD13,000 thousand and finished cash capital increase of USD12,500 thousand.

Note 4: Due to the need for the operation and improvement of the financial structure of First Design Global, Inc., the board of directors of the Company authorized cash capital increase of USD7,000 thousand. As of 9 August 2024, the Group had finished capital increase of USD6,500 thousand.

Note 5: The Group approved an investment of USD19,500 thousand in Vietnam by the board of directors. As of 30 June 2024, a total of USD12,500 thousand has been invested.

(4) Foreign currency transactions

The Group's consolidated financial statements are presented in NT\$, which is also the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies are initially recorded by the Group entities at their respective functional currency rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency closing rate of exchange ruling at the reporting date. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

All exchange differences arising on the settlement of monetary items or on translating monetary items are taken to profit or loss in the period in which they arise except for the following:

- (a) Exchange differences arising from foreign currency borrowings for an acquisition of a qualifying asset to the extent that they are regarded as an adjustment to interest costs are included in the borrowing costs that are eligible for capitalization.
- (b) Foreign currency items within the scope of IFRS 9 Financial Instruments are accounted for based on the accounting policy for financial instruments.
- (c) Exchange differences arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation is recognized initially in other comprehensive income and reclassified from equity to profit or loss on disposal of the net investment.

When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange component of that gain or loss is recognized in other comprehensive income. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss is recognized in profit or loss.

(5) Translation of financial statements in foreign currency

The assets and liabilities of foreign operations are translated into NT\$ at the closing rate of exchange prevailing at the reporting date and their income and expenses are translated at an average rate for the period. The exchange differences arising on the translation are recognized in other comprehensive income. On the disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation, recognized in other comprehensive income and accumulated in the separate component of equity, is reclassified from equity to profit or loss when the gain or loss on disposal is recognized.

On the partial disposal of a subsidiary that includes a foreign operation that does not result in a loss of control, the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is re-attributed to the non-controlling interests in that foreign operation. In partial disposal of an associate or joint arrangement that includes a foreign operation that does not result in a loss of significant influence or joint control, only the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is reclassified to profit or loss.

Any goodwill and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and expressed in its functional currency.

(6) Current and non-current distinction

An asset is classified as current when:

- (a) The Group expects to realize the asset, or intends to sell or consume it, in its normal operating cycle
- (b) The Group holds the asset primarily for the purpose of trading
- (c) The Group expects to realize the asset within twelve months after the reporting period
- (d) The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- (a) The Group expects to settle the liability in its normal operating cycle.
- (b) The Group holds the liability primarily for the purpose of trading.

- (c) The liability is due to be settled within twelve months after the reporting period.
- (d) The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

(7) Cash and cash equivalents

Cash and cash equivalents comprises cash on hand, demand deposits and short-term, highly liquid time deposits (including ones that have maturity within 3 months) or investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(8) Financial instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities within the scope of IFRS 9 Financial Instruments are recognized initially at fair value plus or minus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

i. Financial instruments: Recognition and Measurement

The Group accounts for regular way purchase or sales of financial assets on the trade date.

The Group classified financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss considering both factors below:

- A. the Group's business model for managing the financial assets and
- B. the contractual cash flow characteristics of the financial asset.

Financial assets measured at amortized cost

A financial asset is measured at amortized cost if both of the following conditions are met and presented as note receivables, trade receivables financial assets measured at amortized cost and other receivables etc., on balance sheet as at the reporting date:

- (a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are subsequently measured at amortized cost (the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount and adjusted for any loss allowance) and is not part of a hedging relationship. A gain or loss is recognized in profit or loss when the financial asset is derecognized, through the amortization process or in order to recognise the impairment gains or losses.

Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

- (a) purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
- (b) financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Financial asset measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- (a) the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Recognition of gain or loss on a financial asset measured at fair value through other comprehensive income are described as below:

- (a) A gain or loss on a financial asset measured at fair value through other comprehensive income recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognized or reclassified.
- (b) When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.
- (c) Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

- (i) Purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
- (ii) Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Besides, for certain equity investments within the scope of IFRS 9 that is neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which IFRS 3 applies, the Group made an irrevocable election to present the changes of the fair value in other comprehensive income at initial recognition. Amounts presented in other comprehensive income shall not be subsequently transferred to profit or loss (when disposal of such equity instrument, its cumulated amount included in other components of equity is transferred directly to the retained earnings) and these investments should be presented as financial assets measured at fair value through other comprehensive income on the balance sheet. Dividends on such investment are recognized in profit or loss unless the dividends clearly represents a recovery of part of the cost of investment.

Financial asset measured at fair value through profit or loss

Financial assets were classified as measured at amortized cost or measured at fair value through other comprehensive income based on aforementioned criteria. All other financial assets were measured at fair value through profit or loss and presented on the balance sheet as financial assets measured at fair value through profit or loss.

Such financial assets are measured at fair value, the gains or losses resulting from remeasurement is recognized in profit or loss which includes any dividend or interest received on such financial assets.

ii. Impairment of financial assets

The Group recognizes a loss allowance for expected credit losses on debt instrument investments measured at fair value through other comprehensive income and financial asset measured at amortized cost. The loss allowance on debt instrument investments measured at fair value through other comprehensive income is recognized in other comprehensive income and not reduce the carrying amount in the statement of financial position.

The Group measures expected credit losses of a financial instrument in a way that reflects:

- (a) an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- (b) the time value of money; and
- (c) reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The loss allowance is measured as follows:

- (a) At an amount equal to 12-month expected credit losses: the credit risk on a financial asset has not increased significantly since initial recognition or the financial asset is determined to have low credit risk at the reporting date. In addition, the Group measures the loss allowance at an amount equal to lifetime expected credit losses in the previous reporting period, but determines at the current reporting date that the credit risk on a financial asset has increased significantly since initial recognition is no longer met.
- (b) At an amount equal to the lifetime expected credit losses: the credit risk on a financial asset has increased significantly since initial recognition or financial asset that is purchased or originated credit-impaired financial asset.
- (c) For trade receivables or contract assets arising from transactions within the scope of IFRS 15, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.
- (d) For lease receivables arising from transactions within the scope of IFRS 16, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.

At each reporting date, the Group needs to assess whether the credit risk on a financial asset has increased significantly since initial recognition by comparing the risk of a default occurring at the reporting date and the risk of default occurring at initial recognition. Please refer to Note 12 for further details on credit risk.

iii. Derecognition of financial assets

A financial asset is derecognized when:

- (a) The rights to receive cash flows from the asset have expired.
- (b) The Group has transferred the asset and substantially all the risks and rewards of the asset have been transferred.
- (c) The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the consideration received or receivable including any cumulative gain or loss that had been recognized in other comprehensive income, is recognized in profit or loss.

iv. Financial liabilities and equity

Classification between liabilities or equity

The Group classifies the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The transaction costs of an equity transaction are accounted for as a deduction from equity (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

Compound instruments

The Group evaluates the terms of the convertible bonds issued to determine whether it contains both a liability and an equity component. Furthermore, the Group assesses if the economic characteristics and risks of the put and call options contained in the convertible bonds are closely related to the economic characteristics and risk of the host contract before separating the equity element.

For the liability component excluding the derivatives, its fair value is determined based on the rate of interest applied at that time by the market to instruments of comparable credit status. The liability component is classified as a financial liability measured at amortized cost before the instrument is converted or settled; For the embedded derivative that is not closely related to the host contract (for example, if the exercise price of the embedded call or put option is not approximately equal on each exercise date to the amortized cost of the host debt instrument), it is classified as a liability component and subsequently measured at fair value through profit or loss unless it qualifies for an equity component. The equity component is assigned the residual amount after deducting from the fair value of the instrument as a whole the amount separately determined for the liability component. Its carrying amount is not remeasured in the subsequent accounting periods. If the convertible bond issued does not have an equity component, it is accounted for as a hybrid instrument in accordance with the requirements under IFRS 9 Financial Instruments.

Transaction costs are apportioned between the liability and equity components of the convertible bond based on the allocation of proceeds to the liability and equity components when the instruments are initially recognized.

On conversion of a convertible bond before maturity, the carrying amount of the liability component being the amortized cost at the date of conversion is transferred to equity.

Financial liabilities

Financial liabilities within the scope of IFRS 9 Financial Instruments are classified as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost upon initial recognition.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated as at fair value through profit or loss. A financial liability is classified as held for trading if:

- i. it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
- ii. on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking; or
- iii. it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

If a contract contains one or more embedded derivatives, the entire hybrid (combined) contract may be designated as a financial liability at fair value through profit or loss; or a financial liability may be designated as at fair value through profit or loss when doing so results in more relevant information, because either:

- i. it eliminates or significantly reduces a measurement or recognition inconsistency; or
- ii. a group of financial assets, financial liabilities or both is managed and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, and information about the group is provided internally on that basis to the key management personnel.

Gains or losses on the subsequent measurement of liabilities at fair value through profit or loss including interest paid are recognized in profit or loss.

Financial liabilities at amortized cost

Financial liabilities measured at amortized cost include interest bearing loans and borrowings that are subsequently measured using the effective interest rate method after initial recognition. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or transaction costs.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified (whether or not attributable to the financial difficulty of the debtor), such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

v. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

(9) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (a) In the principal market for the asset or liability, or
- (b) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

(10) Inventories

Inventories are valued at lower of cost and net realizable value item by item.

Costs incurred in bringing each inventory to its present location and condition are accounted for as follows:

Raw materials - Purchase cost on average basis

Finished goods and work in progress - Cost of direct materials and labor and a proportion of manufacturing overheads based on normal operating capacity but excluding borrowing costs.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(11) Non-current assets for sale

Non-current assets or disposal groups to be sold refer to those who can be sold immediately under general conditions and business practices under current circumstances, and are highly likely to complete the sale within one year. Non-current assets classified as for sale and the disposal group are measured by the lower of the carrying amount and fair value less the disposal cost.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortized.

(12) Investments accounted for using the equity method

The Group's investment in its associate is accounted for using the equity method other than those that meet the criteria to be classified as held for sale. An associate is an entity over which the Group has significant influence. A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture.

Under the equity method, the investment in the associate or an investment in a joint venture is carried in the balance sheet at cost and adjusted thereafter for the post-acquisition change in the Group's share of net assets of the associate or joint venture. After the interest in the associate or joint venture is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. Unrealized gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the Group's related interest in the associate or joint venture.

When changes in the net assets of an associate or a joint venture occur and not those that are recognized in profit or loss or other comprehensive income and do not affect the Group's percentage of ownership interests in the associate or joint venture, the Group recognizes such changes in equity based on its percentage of ownership interests. The resulting capital surplus recognized will be reclassified to profit or loss at the time of disposing the associate or joint venture on a prorata basis.

When the associate or joint venture issues new stock, and the Group's interest in an associate or a joint venture is reduced or increased as the Group fails to acquire shares newly issued in the associate or joint venture proportionately to its original ownership interest, the increase or decrease in the interest in the associate or joint venture is recognized in Additional Paid in Capital and Investment accounted for using the equity method. When the interest in the associate or joint venture is reduced, the cumulative amounts previously recognized in other comprehensive income are reclassified to profit or loss or other appropriate items. The aforementioned capital surplus recognized is reclassified to profit or loss on a pro rata basis when the Group disposes the associate or joint venture.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Group. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate or an investment in a joint venture is impaired in accordance with IAS 28 Investments in Associates and Joint Ventures. If this is the case the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value and recognizes the amount in the 'share of profit or loss of an associate' in the statement of comprehensive income in accordance with IAS 36 Impairment of Assets. In determining the value in use of the investment, the Group estimates:

- (a) Its share of the present value of the estimated future cash flows expected to be generated by the associate or joint venture, including the cash flows from the operations of the associate and the proceeds on the ultimate disposal of the investment; or
- (b) The present value of the estimated future cash flows expected to arise from dividends to be received from the investment and from its ultimate disposal.

Because goodwill that forms part of the carrying amount of an investment in an associate or an investment in a joint venture is not separately recognized, it is not tested for impairment separately by applying the requirements for impairment testing goodwill in IAS 36 Impairment of Assets.

Upon loss of significant influence over the associate or joint venture, the Group measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence and the fair value of the retaining investment and proceeds from disposal is recognized in profit or loss. Furthermore, if an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate, the entity continues to apply the equity method and does not remeasure the retained interest.

(13) Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such costs include the cost of dismantling and removing the item and restoring the site on which it is located and borrowing costs for construction in progress if the recognition criteria are met. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognizes such parts as individual assets with specific useful lives and depreciation, respectively. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition provisions of IAS 16 Property, plant and equipment. When a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Buildings	6~35 years
Machinery and Equipment	5~12 years
Office Equipment	4~6 years
Other Facilities	4~20 years
Leasehold Improvements	the shorter one of the useful life or lease term

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in profit or loss.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

(14) Leases

The Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Group assesses whether the contract, throughout the period of use, has both of the following:

- (a) the right to obtain substantially all of the economic benefits from use of the identified asset; and
- (b) the right to direct the use of the identified asset.

For a contract that is, or contains, a lease, the Group accounts for each lease component within the contract as a lease separately from non-lease components of the contract. For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. The relative stand-alone price of lease and non-lease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge the Group for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the Group estimates the stand-alone price, maximising the use of observable information.

Group as a lessee

Except for leases that meet and elect short-term leases or leases of low-value assets, the Group recognizes right-of-use asset and lease liability for all leases which the Group is the lessee of those lease contracts.

At the commencement date, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses its incremental borrowing rate. At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- (a) fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- (b) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- (c) amounts expected to be payable by the lessee under residual value guarantees;
- (d) the exercise price of a purchase option if the Group is reasonably certain to exercise that option; and
- (e) payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

After the commencement date, the Group measures the lease liability on an amortised cost basis, which increases the carrying amount to reflect interest on the lease liability by using an effective interest method; and reduces the carrying amount to reflect the lease payments made.

At the commencement date, the Group measures the right-of-use asset at cost. The cost of the right-of-use asset comprises:

- (a) the amount of the initial measurement of the lease liability;
- (b) any lease payments made at or before the commencement date, less any lease incentives received;
- (c) any initial direct costs incurred by the lessee; and
- (d) an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

For subsequent measurement of the right-of-use asset, the Group measures the right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses. That is, the Group measures the right-of-use applying a cost model.

If the lease transfers ownership of the underlying asset to the Group by the end of the lease term or if the cost of the right-of-use asset reflects that the Group will exercise a purchase option, the Group depreciates the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Group depreciates the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The Group applies IAS 36 “Impairment of Assets” to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

Except for those leases that the Group accounted for as short-term leases or leases of low-value assets, the Group presents right-of-use assets and lease liabilities in the balance sheet and separately presents lease-related interest expense and depreciation charge in the statements comprehensive income.

For short-term leases or leases of low-value assets, the Group elects to recognize the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

For the rent concession arising as a direct consequence of the Covid-19 pandemic, the Group elected not to assess whether it is a lease modification but accounted it as a variable lease payment and the practical expedient has been applied to such rent concessions.

Group as a lessor

At inception of a contract, the Group classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. At the commencement date, the Group recognizes assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease.

For a contract that contains lease components and non-lease components, the Group allocates the consideration in the contract applying IFRS 15.

For the rent concession arising as a direct consequence of the Covid-19 pandemic, the Group elected not to assess whether it is a lease modification but accounted it as a variable lease payment and the practical expedient has been applied to such rent concessions.

(15) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditures are reflected in profit or loss for the year in which the expenditures are incurred.

The useful lives of intangible assets are assessed as finite and indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at least once at the end of each financial year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Intangible assets with a non-determined useful life are not amortized, but impairment tests are conducted at the level of individual assets or cash-generating units in each year. Intangible assets with indefinite useful life are assessed in each period whether there are events and circumstances that continue to support that the asset's useful life is still indefinite. If the service life is changed from non-determined to limited service life, the application will be postponed.

Gains or losses arising from derecognition of an intangible asset are recognized in profit or loss.

Patent

The patents have been granted for a period of 10 years by the relevant government agency with the option of renewal at the end of this period.

The accounting policies of the Group's intangible assets are summarized as follows:

Category	Patent	Computer software	Customer relations	Human Resources	Other
Finite lives	8~10 years	3~5 years	11 years	3 years	3~5 years
Amortization method	straight-line basis	straight-line basis	straight-line basis	straight-line basis	straight-line basis
Internally generated or externally acquired	Acquired by mergers and acquisitions	Externally acquired	Acquired by mergers and acquisitions	Acquired by mergers and acquisitions	Externally acquired

(16) Impairment of non-financial assets

The Group assesses at the end of each reporting period whether there is any indication that an asset in the scope of IAS 36 Impairment of Assets may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ("CGU") fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been an increase in the estimated service potential of an asset which in turn increases the recoverable amount. However, the reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

A cash generating unit, or groups of cash-generating units, to which goodwill has been allocated is tested for impairment annually at the same time, irrespective of whether there is any indication of impairment. If an impairment loss is to be recognized, it is first allocated to reduce the carrying amount of any goodwill allocated to the cash generating unit (group of units), then to the other assets of the unit (group of units) pro rata on the basis of the carrying amount of each asset in the unit (group of units). Impairment losses relating to goodwill cannot be reversed in future periods for any reason.

An impairment loss of continuing operations or a reversal of such impairment loss is recognized in profit or loss.

(17) Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probably that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

(18) Revenue recognition

The Group's revenue arising from contracts with customers are primarily related to sale of goods. The accounting policies are explained as follow:

Sale of goods

The Group manufactures and sells products. Sales are recognized when control of the goods is transferred to the customer and the goods are delivered to the customers. The main product of the Group is household products and revenue is recognized based on the consideration stated in the contract.

The Group provides its customer with a warranty with the purchase of the products. The warranty provides assurance that the product will operate as expected by the customers. And the warranty is accounted in accordance with IAS 37.

The credit period of the Group's sale of goods is from 30 to 180 days. For all of the contracts, when the Group transfers the goods to customers and has a right to an amount of consideration that is unconditional, these contracts are recognized as trade receivables. The Group usually collects the payments shortly after transfer of goods to customers; therefore, there is no significant financing component to the contract. However, for some rendering of services contracts, part of the consideration was received from customers upon signing the contract, and the Group has the obligation to provide the services subsequently; accordingly, these amounts are recognized as contract liabilities. The period between the transfers of contract liabilities to revenue is usually within one year, thus, no significant financing component is arised.

(19) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

(20) Post-employment benefits

All regular employees of the Company and its domestic subsidiaries are entitled to a pension plan that is managed by an independently administered pension fund committee. Fund assets are deposited under the committee's name in the specific bank account and hence, not associated with the Company and its domestic subsidiaries. Therefore, fund assets are not included in the Group's consolidated financial statements. Pension benefits for employees of the overseas subsidiaries and the branches are provided in accordance with the respective local regulations.

For the defined contribution plan, the Company and its domestic subsidiaries will make a monthly contribution of no less than 6% of the monthly wages of the employees subject to the plan. The Company recognizes expenses for the defined contribution plan in the period in which the contribution becomes due. Overseas subsidiaries and branches make contribution to the plan based on the requirements of local regulations.

(21) Income taxes

Income tax expense (income) is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or equity and not in profit or loss.

The income tax for undistributed earnings is recognized as income tax expense in the subsequent year when the distribution proposal is approved by the Shareholders' meeting.

Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- i. where the deferred tax liability arises from a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- ii. in respect of taxable temporary differences associated with investments in subsidiaries and associates, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- i. Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- ii. In respect of deductible temporary differences associated with investments in subsidiaries and associates, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Deferred tax assets are reassessed at each reporting date and are recognized accordingly.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The income tax expenses in the interim period will be accrued and disclosed at the tax rate applicable to the expected total surplus of the current year, which means that the estimated annual average effective tax rate will be applied to the pre-tax benefits in the interim period.

(22) Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred, the identifiable assets acquired and liabilities assumed are measured at acquisition date fair value. For each business combination, the acquirer measures any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are accounted for as expenses in the periods in which the costs are incurred and are classified under administrative expenses.

When the Group acquires a business, it assesses the assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

Any contingent consideration to be transferred by the acquirer will be recognized at the acquisition-date fair value. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability, will be recognized in accordance with IFRS 9 Financial Instruments either in profit or loss or as a change to other comprehensive income. However, if the contingent consideration is classified as equity, it should not be remeasured until it is finally settled within equity.

Goodwill is initially measured as the amount of the excess of the aggregate of the consideration transferred and the non-controlling interest over the net fair value of the identifiable assets acquired and the liabilities assumed. If this aggregate is lower than the fair value of the net assets acquired, the difference is recognized in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units. Each unit or group of units to which the goodwill is so allocated represents the lowest level within the Group at which the goodwill is monitored for internal management purpose and is not larger than an operating segment before aggregation.

Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation. Goodwill disposed of in this circumstance is measured based on the relative recoverable amounts of the operation disposed of and the portion of the cash-generating unit retained.

5. Significant accounting judgements, estimates and assumptions

The preparation of the Group's consolidated financial statements require management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumption and estimate could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(1) Inventories

Estimates of net realisable value of inventories take into consideration that inventories may be damaged, become wholly or partially obsolete, or their selling prices have declined. The estimates are based on the most reliable evidence available at the time the estimates are made.

(2) Income tax

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Given the wide range of international business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Group establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective countries in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective Group company's domicile.

Deferred tax assets are recognized for all carryforward of unused tax losses and unused tax credits and deductible temporary differences to the extent that it is probable that taxable profit will be available or there are sufficient taxable temporary differences against which the unused tax losses, unused tax credits or deductible temporary differences can be utilized. The amount of deferred tax assets determined to be recognized is based upon the likely timing and the level of future taxable profits and taxable temporary differences together with future tax planning strategies.

(3) Accounts receivables-estimation of impairment loss

The Group estimates the impairment loss of accounts receivables at an amount equal to lifetime expected credit losses. The credit loss is the present value of the difference between the contractual cash flows that are due under the contract (carrying amount) and the cash flows that expects to receive (evaluate forward looking information). However, as the impact from the discounting of short-term receivables is not material, the credit loss is measured by the undiscounted cash flows. Where the actual future cash flows are lower than expected, a material impairment loss may arise.

(4) Impairment of non-financial assets

An impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The fair value less costs to sell calculation is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date less incremental costs that would be directly attributable to the disposal of the asset or cash generating unit. The value in use calculation is based on a discounted cash flow model. The cash flows projections are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the cash generating unit being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

6. Contents of significant accounts

(1) Cash and cash equivalents

	30 Jun. 2024	31 Dec. 2023	30 Jun. 2023
Cash on hand	\$1,999	\$1,693	\$1,940
Time deposits and demand deposits	324,063	521,942	799,154
Total	<u>\$326,062</u>	<u>\$523,635</u>	<u>\$801,094</u>

(2) Accounts receivable, net

	30 Jun. 2024	31 Dec. 2023	30 Jun. 2023
Accounts receivable	\$1,045,351	\$1,033,508	\$840,644
Less: loss allowance	(85,182)	(78,492)	(88,693)
Total	<u>\$960,169</u>	<u>\$955,016</u>	<u>\$751,951</u>

Accounts receivable were not pledged.

The Group assesses impairment in accordance with International Financial Reporting Standards No. 9 requirements. For information about allowance for loss, please refer to Note 6.(15) For information on credit risk, please refer to Note 12.

(3) Inventories

	30 Jun. 2024	31 Dec. 2023	30 Jun. 2023
Work in progress	\$201,243	\$320,433	\$151,759
Finished goods	195,118	322,206	217,633
Raw Materials and supplies (including in transit)	265,579	243,347	328,794
Total	<u>\$661,940</u>	<u>\$885,986</u>	<u>\$698,186</u>

- A. For the three-month and six-month periods ended 30 June 2024, the Group recognized the cost of inventories as expenses are \$731,239 thousand and \$1,988,923 thousand, respectively. In addition to the cost of inventories, gains from sales recognized reversal are \$9,946 thousand and \$30,482 thousand, respectively.
- B. For the three-month and six-month periods ended 30 June 2023, the Group recognized the cost of inventories as expenses are \$618,264 thousand and \$1,510,938 thousand, respectively. In addition to the cost of inventories, losses from inventory valuation and obsolescence are \$161 thousand and \$21,623 thousand, respectively.
- C. No inventories were pledged.

(4) Advance Payment

	30 Jun. 2024	31 Dec. 2023	30 Jun. 2023
Prepayment for purchases	\$8,807	\$19,031	\$25,085
Overpaid sales tax	37,596	28,439	17,784
Other prepayments	23,106	32,328	26,823
Total	<u>\$69,509</u>	<u>\$79,798</u>	<u>\$69,692</u>

(5) Property, plant and equipment

	Buildings	Machinery and equipment	Office equipment	Other facilities	Lease improvement	Construction in progress and equipment awaiting examination	Total

Housing Provident Fund

The provision for this liability is estimated and allocated based on the local policy of the subsidiary in China to set aside reserves for related fund.

(13) Equities

I. Common stock

- A. On 19 June 2019, the Company used private equity to issue cash capital increase 14,975 thousand new shares, with a nominal value of \$10 per share, issued at a premium of \$19.624 per share, and paid-in capital of \$149,750 thousand. On 19 June 2019 is the base date for capital increase. As of 13 August 2019, the change registration has been completed. The equity obligations of private placement new shares are the same as those of ordinary shares already issued. However, in accordance with the provisions of the Securities Exchange Law, privately-raised ordinary shares may not be freely transferred within three years after issuance.
- B. As of 30 June 2024, 31 December 2023 and 30 June 2023, the authorized capital of the Company is \$2,050,000 thousand, with a face value of \$10 per share, divided into 205,000 thousand shares, issued capital were 803,004 thousand, each at a per value of NT\$10, and issued shares were 80,300 thousand shares (including 11,730 thousand shares of private equity). All outstanding stock have been paid and each share has one voting right and the right to receive dividends.

II. Additional paid-in capital

	30 Jun. 2024	31 Dec. 2023	30 Jun. 2023
Share premium	\$672,119	\$672,119	\$672,119
Share options of convertible bonds	4,908	4,908	4,908
Employee stock options	5,111	5,111	5,111
Total	<u>\$682,138</u>	<u>\$682,138</u>	<u>\$682,138</u>

According to the Company Act, the capital reserve shall not be used except for making good the deficit of the company. When a company incurs no loss, it may distribute the capital reserves related to the income derived from the issuance of new shares at a premium or income from endowments received by the company. The distribution could be made in cash or in the form of dividend shares to its shareholders in proportion to the number of shares being held by each of them.

III. Retained earnings and dividend policies

The company's original articles of association stipulate the surplus distribution shall be made in each half-fiscal year. The company's shareholders' meeting held on 29 May 2023 passed a resolution to amend the company's articles of association. After the amendment, the surplus distribution can be made after the end of each annual financial year. The revised articles of association stipulate that the company shall estimate and retain taxable contributions, make up for losses in accordance with the law, estimate retention of employee remuneration and directors' remuneration, and reserve 10% of the statutory surplus but when the statutory surplus reserve has reached the total paid-in capital of the company, this is not the case. If necessary, the special surplus reserve will be drawn or converted according to law. If there is surplus, the cumulative undistributed surplus will be the shareholder Dividends shall be distributed by the board of directors and the board of directors make a resolution in accordance with Article 240-5 of the Company Act when they are distributed in cash; if new shares are to be issued, they shall be submitted to the shareholders meeting for distribution after a resolution.

The Company shall distribute the whole or a part of the reserve in accordance with the laws or regulations of the competent authority in consideration of financial, business, and management factors. If the distribution is made in cash, the board of directors may make a resolution in accordance with Article 241 of the Company Act, and report to the shareholders' meeting without submitting a request for approval to the shareholders' meeting.

The policy of dividend distribution should reflect factors such as financial situation of the company and capital budgets in the future. The Board of Directors shall make the distribution proposal annually and present it at the shareholders' meeting. Dividend distribution should account for more than 20% of the total distributable earnings. Accordingly, at least 10% of the dividends must be paid in the form of cash.

According to the Company Act, the Company needs to set aside amount to legal reserve unless where such legal reserve amounts to the total authorized capital. The legal reserve can be used to make good the deficit of the Company. When the Company incurs no loss, it may distribute the portion of legal serve which exceeds 25% of the paid-in capital by issuing new shares or by cash in proportion to the number of shares being held by each of the shareholders.

According to existing regulations, when the Company distributing distributable earnings, it shall set aside to special reserve, from the profit/loss of the current period and the undistributed earnings from the previous period, an amount equal to “other net deductions from shareholders’ equity for the current fiscal year, provided that if the company has already set aside special reserve in the first-time adoption of the IFRS, it shall set aside supplemental special reserve based on the difference between the amount already set aside and other net deductions from shareholders’ equity. For any subsequent reversal of other net deductions from shareholders’ equity, the amount reversed may be distributed from the special reserve.

The distribution of earnings and dividends for 2023 and 2022 was approved by the stockholders’ meeting held on 27 May 2024 and 29 May 2023, respectively. The details of distribution are as follows:

	Appropriation of earnings		Dividend per share	
	2023	2022 (Note)	2023	2022
Legal reserve	\$38,642	\$56,476	-	-
Special reserve (Reversal)	\$13,061	(\$28,066)	-	-
Cash dividend	\$240,901	\$642,403	\$3.00	\$8.00

(Note): The cash dividend for 2022 includes a first-half cash dividend of \$240,901 thousand and a second-half cash dividend of \$401,502 thousand.

(14) Operating revenues

For the six-month periods ended 30 June 2024 and 2023, the Group's total cash outflows for leases amounting to \$36,421 thousand and \$30,351 thousand, respectively.

(e) Other information relating to leasing activities

Option to extend lease and option to terminate lease

Some of the Group's property rental agreement contain extension and termination options. In determining the lease terms, the non-cancellable period for which the Group has the right to use an underlying asset, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. These options are used to maximize operational flexibility in terms of managing contracts. The majority of extension and termination options held are exercisable only by the Group. After the commencement date, the Group reassesses the lease term upon the occurrence of a significant event or a significant change in circumstances that is within the control of the lessee and affects whether the Group is reasonably certain to exercise an option not previously included in its determination of the lease term, or not to exercise an option previously included in its determination of the lease term.

(17) Summary statement of employee benefits, depreciation and amortization expenses by function:

Function Nature	For the three-month period ended 30 June					
	2024			2023		
	Operating costs	Operating expenses	Total amount	Operating costs	Operating expenses	Total amount
Employee benefits expense						
Salaries	\$55,916	\$95,307	\$151,223	\$54,399	\$74,849	\$129,248
Labor and health insurance	-	\$5,056	\$5,056	-	\$4,618	\$4,618

According to the Company's Articles of Incorporation, no less than 3% of profit of the current year is distributable as employees' compensation and no higher than 5% of profit of the current year is distributable as remuneration to directors and supervisors. However, the company's accumulated losses shall have been covered. The aforementioned employee compensation is stock or cash, including employees of subordinate companies that meet legal requirements. The Company may by a resolution adopted by a majority vote at a meeting of Board of Directors attended by two-thirds of the total number of directors, have the profit distributed as employees' compensation in the form of shares or in cash; and in addition thereto a report of such distribution is submitted to the shareholders' meeting. Information on the Board of Directors' resolution regarding the employees' compensation and remuneration to directors and supervisors can be obtained from the "Market Observation Post System" on the website of the TWSE.

For the six-month period ended 30 June 2024, the Company estimated the amounts of the employees' compensation and remuneration to directors to be both 4% of profit of the current year, and amounted to both \$20,437 thousand, recognized as salary expense.

For the six-month period ended 30 June 2023, the Company estimated the amounts of the employees' compensation and remuneration to directors to be both 4% of profit of the current year, and amounted to both \$11,523 thousand, recognized as salary expense.

On 27 May 2024, the Stockholders' meeting resolved to distribute employee compensation and director remuneration for the year 2023 in cash, amounting to both \$21,364 thousand, which is not significantly different from the amount recognized as expenses in the financial statements for that year, as of 9 August 2024 not yet distributed.

(18) Non-operating income and expenses

A. Interest income

	For the three-month periods ended 30 June		For the six-month periods ended 30 June	
	2024	2023	2024	2023
Financial assets at amortized cost	\$2,071	\$1,610	\$2,881	\$1,971

B. Other income

	For the three-month periods ended 30 June		For the six-month periods ended 30 June	
	2024	2023	2024	2023
Others	\$5,328	\$3,506	\$7,482	\$8,251

C. Other gains and losses

	2024	2023	2024	2023
Interest on borrowings from bank	(\$17,404)	(\$10,349)	(\$39,675)	(\$25,338)
Interest on lease liabilities	(1,556)	(599)	(3,098)	(1,153)
Total	<u>(\$18,960)</u>	<u>(\$10,948)</u>	<u>(\$42,773)</u>	<u>(\$26,491)</u>

(19) Components of other comprehensive income

For the six-month period ended 30 June 2024:

	Arising during the period	Reclassification adjustments during the period	Other comprehensive income, before tax	Income tax relating to components of other comprehensive income	Other comprehensive income, net of tax
To be reclassified to profit or loss in subsequent periods:					
Exchange differences resulting from translating the financial statements of a foreign operation	\$95,406	-	\$95,406	(\$19,801)	\$76,325
Total of other comprehensive income (loss)	<u>\$95,406</u>	<u>-</u>	<u>\$95,406</u>	<u>(\$19,801)</u>	<u>\$76,325</u>

For the three-month period ended 30 June 2024:

	Arising during the period	Reclassification adjustments during the period	Other comprehensive income, before tax	Income tax relating to components of other comprehensive income	Other comprehensive income, net of tax
To be reclassified to profit or loss in subsequent periods:					
Exchange differences resulting from translating the financial statements of a foreign operation	\$18,573	-	\$18,573	(\$3,714)	\$14,859
Total of other comprehensive income (loss)	<u>\$18,573</u>	<u>-</u>	<u>\$18,573</u>	<u>(\$3,714)</u>	<u>\$14,859</u>

For the six-month period ended 30 June 2023:

	Arising during the period	Reclassification adjustments during the period	Other comprehensive income, before tax	Income tax relating to components of other comprehensive income	Other comprehensive income, net of tax
To be reclassified to profit or loss in subsequent periods:					
Exchange differences resulting from translating the financial statements of a foreign operation	(\$26,774)	-	(\$26,774)	\$5,355	(\$21,419)
Total of other comprehensive income (loss)	(\$26,774)	-	(\$26,774)	\$5,355	(\$21,419)

For the three-month periods ended 30 June 2023:

	Arising during the period	Reclassification adjustments during the period	Other comprehensive income, before tax	Income tax relating to components of other comprehensive income	Other comprehensive income, net of tax
To be reclassified to profit or loss in subsequent periods:					
Exchange differences resulting from translating the financial statements of a foreign operation	(\$30,478)	-	(\$30,478)	\$6,096	(\$24,382)
Total of other comprehensive income (loss)	(\$30,478)	-	(\$30,478)	\$6,096	(\$24,382)

(20) Income tax

The major components of income tax expense for the six-month ended 30 June 2024 and 2023 are as follows:

Income tax expense recognized in profit or loss

	For the three-month periods ended 30 June		For the six-month periods ended 30 June	
	2024	2023	2024	2023
Current income tax expense:				
Current income tax charge	\$27,572	\$22,477	\$132,154	\$75,532
Adjustments in respect of current income tax of prior periods	588	1,923	588	1,977
Deferred tax expense (income):				
Deferred tax income related to origination and reversal of temporary differences	(7,438)	(8,087)	(29,002)	(13,873)
Total income tax expense	\$20,722	\$16,313	\$103,740	\$63,636

Income tax relating to components of other comprehensive income

	For the three-month periods		For the six-month periods	
	ended 30 June		ended 30 June	
	2024	2023	2024	2023
Income tax relating to components of other comprehensive loss(income)	\$3,714	(\$6,096)	\$19,081	(\$5,355)

The assessment of income tax returns

As of 30 June 2024, the assessment of the income tax returns of the Company and its subsidiaries is as follows:

	<u>The assessment of income tax returns</u>
The Company	Assessed and approved up to 2022
Freshlink Product Development, LLC DBA PREPARA	(Note)
Tzehg Shyng Plastic Product (Heyuan) Co., Ltd.	(Note)
Tzeng Shyng Melamine Products (Heyuan) Co., Ltd.	(Note)
First Design Global, Inc.	(Note)

(Note): The foreign subsidiary has completed the declaration on time according to the tax laws and regulations of various countries.

Unrecognized deferred tax assets

As of 30 June 2024 and 2023, deferred tax assets that have not been recognized amount both are \$0.

(21) Earnings per share

Basic earnings per share amounts are calculated by dividing net profit for the period attributable to ordinary equity holders of the parent entity by the weighted average number of ordinary shares outstanding during the period.

Diluted earnings per share amounts are calculated by dividing the net profit attributable to ordinary equity holders of the parent entity (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the period plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

	For the three-month periods ended 30 June		For the six-month periods ended 30 June	
	2024	2023	2024	2023
A. Basic earnings per share				
Profit attributable to ordinary equity holders of the Company (in thousand)	\$80,321	\$51,417	\$371,345	\$212,032
Weighted average number of ordinary shares outstanding for basic earnings per share (thousand shares)	80,300	80,300	80,300	80,300
Basic earnings per share	\$1.00	\$0.64	\$4.62	\$2.64
	For the three-month periods ended 30 June		For the six-month periods ended 30 June	
	2024	2023	2024	2023
B. Diluted earnings per share				
Profit attributable to ordinary equity holders of the Company (in thousand)	\$80,321	\$51,417	\$371,345	\$212,032
Profit attributable to ordinary equity holders of the Company after dilution (in thousand)	\$80,321	\$51,417	\$371,345	\$212,032
Weighted average number of ordinary shares outstanding for basic earnings per share (thousand shares)	80,300	80,300	80,300	80,300
Effect of dilution:				
Employee compensation-stock (thousand shares)	58	50	268	182
Weighted average number of ordinary shares outstanding after dilution (thousand shares)	80,358	80,350	80,568	80,482
Diluted earnings per share	\$1.00	\$0.64	\$4.61	\$2.64

There have been no other transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of completion of financial statements.

7. Related party transactions

Significant transactions with the related parties

(1) Key management personnel compensation

	For the three-month periods ended 30 June		For the six-month periods ended 30 June	
	2024	2023	2024	2023
Short-term employee benefits (Note)	\$15,966	\$12,050	\$54,852	\$34,260
Post-employment benefits	108	108	216	216
Total	\$16,074	\$12,158	\$55,068	\$34,476

(Note): Including the rental fee for house using by key management.

(2) Others

A. The Group's loans are jointly and severally guaranteed by related parties.

B. The Group obtained a right-of-use asset-buildings and structures valued at \$13,658 thousand from related parties in the first half year of 2024.

8. Assets pledged as security

The following table lists assets of the Group pledged as security:

	Carrying amount			Guaranteed debt content
	30 Jun. 2024	31 Dec. 2023	30 Jun. 2023	
Other financial assets, current	\$34,100	\$42,100	\$54,100	Long-term loans
Property, plant and equipment	578,859	564,673	574,782	Short-term loans
Right-of-use asset	262,594	-	-	Long-term loans
Total	<u>\$875,553</u>	<u>\$606,773</u>	<u>\$628,882</u>	

9. Significant contingencies and unrecognized contractual commitments

(1) Amounts available under unused letters of credit as of 30 June 2024 were USD11,674 thousand.

(2) Guaranteed notes issued with the bank due to borrowing as of 30 June 2024 were \$3,952,100 thousand.

(3) To adjust the operating strategy, the Group and the seller signed the share purchase agreement, which acquired Achieve Goal Limited and its subsidiaries: Tzeng Shyng Plastic Product (Heyuan) Co., Ltd. and Tzeng Shyng Melamine Products (Heyuan) Co., Ltd. As of 30 June 2024, due to Guangzhou Lili Industrial Co., Ltd. couldn't pay off the mature debts, Ganzhou Dongxin Chemical Materials Co., Ltd. applied bankruptcy liquidation to Guangzhou Intermediate People's Court. The details of debt receivables the Guangzhou Lili Industrial Co., Ltd. submitted requested the Group's Sub-Subsidiary, Tzeng Shyng Melamine Products (Heyuan) Co., Ltd. to pay off the debt amounted to RMB12,374 thousand. Few days ago, the court dismissed the prosecute of the plaintiff Guangzhou Lili Industrial Co., Ltd. Meanwhile, the dispute of set-off in bankruptcy between the original owner of Tzeng Shyng Melamine Products (Heyuan) Co., Ltd. and Guangzhou Lili Industrial Co., Ltd. is still being trialed by the court. Also, a commitment has been issued, if the case finally requires compensation, the seller will fulfill it. After the Group's assessment, the aforementioned case has no significant impact on current operation.

- (4) A company in Utah, USA, allege that the group infringe their patent, and ask the group to pay compensation. As of the date releasing report, both parties are still under negotiation, and the contingency has been evaluated.

10. Losses due to major disasters

None.

11. Significant subsequent events

None.

12. Other

(1) Categories of financial instruments

Financial assets

	30 Jun. 2024	31 Dec. 2023	30 Jun. 2023
Financial assets measured at amortized cost:			
Cash and cash equivalents (excluding cash on hand)	\$324,063	\$521,942	\$799,154
Accounts receivables	960,169	955,016	751,951
Other receivables	14,174	14,333	21,852
Other financial assets, current	34,100	42,100	54,100
Refundable deposits	16,090	15,530	6,654
Total	<u>\$1,348,596</u>	<u>\$1,548,921</u>	<u>\$1,633,711</u>

Financial liabilities

	30 Jun. 2024	31 Dec. 2023	30 Jun. 2023
Financial liabilities at amortized cost:			
Short-term loans	\$696,659	\$1,541,310	\$991,426
Short-term notes payable	99,754	14,963	44,988
Accounts payable	123,269	240,686	81,030
Other payables	549,412	359,291	643,490
Long-term loans (including current portion)	520,626	210,390	270,390
Lease liabilities (including current and non-current)	119,679	104,972	57,681
Total	<u>\$2,109,399</u>	<u>\$2,471,612</u>	<u>\$2,089,005</u>

(2) Financial risk management objectives and policies

The Group's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activities. The Group identifies measures and manages the aforementioned risks based on the Group's policy and risk appetite.

The Group has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant transactions, due approval process by the Board of Directors and Audit Committee must be carried out based on related protocols and internal control procedures. The Group complies with its financial risk management policies at all times.

(3) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market prices comprise currency risk, interest rate risk and other price risk (such as equity risk).

In practice, it is rarely the case that a single risk variable will change independently from other risk variable, there is usually interdependencies between risk variables. However, the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

A. Foreign currency risk

The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense are denominated in a different currency from the Group's functional currency) and the Group's net investments in foreign subsidiaries.

The Group has certain foreign currency receivables to be denominated in the same foreign currency with certain foreign currency payables, therefore natural hedge is received. The Group also uses forward contracts to hedge the foreign currency risk on certain items denominated in foreign currencies. Hedge accounting is not applied as they did not qualify for hedge accounting criteria. Furthermore, as net investments in foreign subsidiaries are for strategic purposes, they are not hedged by the Group.

The foreign currency sensitivity analysis of the possible change in foreign exchange rates on the Group's profit is performed on significant monetary items denominated in foreign currencies as at the end of the reporting period. The Group's foreign currency risk is mainly related to the volatility in the exchange rates for USD. The information of the sensitivity analysis is as follows:

When NTD strengthens/weakens against USD by 1%, the profit for the six-month periods ended 30 June 2024 and 2023 to increases by (\$4,509) thousand and (\$5,178) thousand, respectively.

B. Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to bank borrowings with fixed interest rates and variable interest rates.

The Group manages its interest rate risk by having a balanced portfolio of fixed and variable loans and borrowings and entering into interest rate swaps. The interest rate sensitivity analysis is as follow:

When the market interest rate is change of ten basis points, could cause the profit for the six-month periods ended 30 June 2024 and 2023 to increases by (\$959) thousand and (\$454) thousand, respectively.

(4) Credit risk management

Credit risk is the risk that a counterparty will not meet its obligations under a contract, leading to a financial loss. The Group is exposed to credit risk from operating activities (primarily for accounts receivables and notes receivables) and from its financing activities, including bank deposits and other financial instruments.

Credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to credit risk management. Credit limits are established for all counter parties based on their financial position, rating from credit rating agencies, historical experience, prevailing economic condition and the Group's internal rating criteria etc. Certain counter parties' credit risk will also be managed by taking credit enhancing procedures, such as requesting for prepayment or insurance.

The Group's top ten customer accounts receivable as of 30 June 2024, 31 December2023 and 30 June 2023 accounted for 88.23%, 83.35% and 85.22% of the Group's total accounts receivable, respectively. The credit concentration risk of other accounts receivables is insignificant.

Credit risk from balances with banks, fixed income securities and other financial instruments is managed by the Group's treasury in accordance with the Group's policy. The Group only transacts with counterparties approved by the internal control procedures, which are banks and financial institutions, companies and government entities with good credit rating. Consequently, there is no significant credit risk for these counter parties.

In addition, when the Group assesses that it cannot reasonably expect to recover the financial assets (such as the issuer or debtor's major financial difficulties, or has gone bankrupt), it shall recognize 100% of the allowance loss.

(5) Liquidity risk management

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of cash and cash equivalents, highly liquid equity investments, bank borrowings, convertible bonds and finance leases. The table below summarizes the maturity profile of the Group's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amount includes the contractual interest. The undiscounted payment relating to borrowings with variable interest rates is extrapolated based on the estimated interest rate yield curve as of the end of the reporting period.

Non-derivative financial liabilities

	< 1 year	2 to 3 years	4 to 5 years	> 5 years	Total
As of 30 June 2024					
Loans	\$775,331	\$202,009	\$105,623	\$210,530	\$1,293,493
Short-term notes payable	\$99,754	-	-	-	\$99,754

Accounts payable	\$724,520	-	-	-	\$724,520
Lease liabilities	\$23,273	\$28,705	\$7,090	\$3,379	\$62,447

(6) Reconciliation of liabilities arising from financing activities

Reconciliation of liabilities for the six-month period ended 30 June 2024:

	Short-term loan	Short-term note payables	Long-term loan	Lease liabilities	Total liabilities arising from financing activities
1 January 2024	\$1,541,310	\$14,963	\$210,390	\$104,972	\$1,871,635
Cash flow	(858,256)	84,791	307,618	(17,707)	(483,554)
Non-cash movement	-	-	-	27,756	27,756
Exchange differences	13,605	-	2,618	4,658	20,881
30 June 2024	\$696,659	\$99,754	\$520,626	\$119,679	\$1,436,718

Reconciliation of liabilities for the six-month period ended 30 June 2023:

	Short-term loans	Short-term note payables	Long-term loans	Lease liabilities	Total liabilities arising from financing activities
1 January 2023	\$1,332,313	\$44,991	\$290,390	\$46,064	\$1,713,758
Cash flow	(340,887)	(3)	(20,000)	(13,852)	(374,742)
Non-cash movement	-	-	-	25,897	25,897
Exchange differences	-	-	-	(428)	(428)
30 June 2023	\$991,426	\$44,988	\$270,390	\$57,681	\$1,364,485

(7) Fair values of financial instruments

A. The methods and assumptions applied in determining the fair value of financial instruments:

- a. The carrying amount of cash and cash equivalents, trade receivables, accounts payable and other current liabilities approximate their fair value due to their short maturities.
- b. For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities, beneficiary certificates, bonds and futures etc.) at the reporting date.
- c. Fair value of debt instruments without market quotations, bank loans, bonds payable and other non-current liabilities are determined based on the counterparty prices or valuation method. The valuation method uses DCF method as a basis, and the assumptions such as the interest rate and discount rate are primarily based on relevant information of similar instrument (such as yield curves published by the GreTai Securities Market, average prices for Fixed Rate Commercial Paper published by Reuters and credit risk, etc.)
- d. The fair value of derivatives which are not options and without market quotations, is determined based on the counterparty prices or discounted cash flow analysis using interest rate yield curve for the contract period. Fair value of option-based derivative financial instruments is obtained using on the counterparty prices or appropriate option pricing model (for example, Black-Scholes model) or other valuation method (for example, Monte Carlo Simulation).

B. Fair value of financial instruments measured at amortized cost

Other than cash and cash equivalents, trade receivables, accounts payable and other current liabilities whose carrying amount approximate their fair value, the fair value of the Group's financial assets and financial liabilities measured at amortized cost is listed in the table below:

	Book value		
	30 Jun. 2024	31 Dec. 2023	30 Jun. 2023
Financial liabilities :			
Short-term loan	\$696,659	\$1,541,310	\$991,426
Short-term notes payable	\$99,754	\$14,963	\$44,988
Long-term loans (including current portion)	\$520,626	\$210,390	\$270,390
	Fair value		
	30 Jun. 2024	31 Dec. 2023	30 Jun. 2023
Financial liabilities :			
Short-term loan	\$696,659	\$1,541,310	\$991,426
Short-term notes payable	\$99,754	\$14,963	\$44,988
