## ASE Technology Holding Co., Ltd.

### Business Report

2018 was a challenging year! We saw the growth in the first half of 2018 and then declines in the second half due to the intensifying US-China trade war. At the beginning of 2018, the global economic development started with a positive outlook but then went downhill, which tested the flexibility and responsiveness of the management of corporations. The International Monetary Fund (IMF) revised downward the 2018 economic growth rate to 3.7%. According to the statistics of Gartner<sup>1</sup>, the total sales of the global semiconductor market was US\$ 476.7 billion, increased by 13.4% from 2017. Gartner also estimated the total global semiconductor sales in 2019 to be US\$ 488.9 billion, with a marginal growth rate of 2.6% compared to 2018.

According to the statistics of IEK ITIS Program of Industry Technology Intelligence Service (ITIS), the total production value of the IC Packaging and Testing industry in 2018 amounted to NT\$ 493 billion, growing by 3.4% compared to 2017. The total production value of the IC Packaging market reached NT\$344.5 billion, up 3.5% from the previous year, and the IC Testing market NT\$ 148.5 billion, going up by 3.1% from 2017. The operational performance of the Company and its subsidiaries (referred hereinafter to as “the Group”) in the past year is as follow:

#### Operational Performance in 2018

##### 1. Outcomes of the 2018 Operational Plan

The consolidated revenues of the Group in 2018 amounted to NT\$ 371.1 billion, increased by approx. NT\$ 80.7 billion compared to the previous year, with an annual growth rate of 27.8%. The consolidated revenues of the business area of IC packaging were NT\$ 214.2 billion, going up by NT\$ 61.8 billion with a growth rate of 40.6% from 2017, mainly attributed to the contributions of Siliconware since its joining the Group on Apr. 30, 2018. In addition, in the business area of Electronic Contract Manufacturing (ECM), the consolidated revenues in 2018 grew by NT\$ 17.9 billion at NT\$ 151.9 billion from 2017 with an annual growth rate of 13.4%.

##### 2. Budget Execution

The Company's Financial Forecast in 2018 was not disclosed.

##### 3. Analysis of Financial Expenditures and Profitability

In 2018, the Company's paid-in capital was NT\$ 43.2 billion. As specified in the Company's 2018 consolidated financial statement, the total equities owned by the Company's proprietors totaled at NT\$ 203 billion, accounting for 38.1% of the total assets of NT\$ 533.4 billion. The long-term capital assets accounted for 175.7% of those of properties, plants, and equipment, with a 129% current ratio and a 6.5% return on asset (ROA). The financial ratio was not far from that of the previous year. Moreover, although the gross profit ratio of 16.5% in 2018 was slightly lower than that of 18.2% in 2017, the profits from operation rose by 5.6%(NT\$ 1.4 billion) from 2017 to NT\$ 26.6 billion in 2018. Profits before income tax was NT\$ 32 billion, going up by NT\$ 1.1 billion at a 3.6% rate from the previous year. This is attributed by the net profit attributable to owner of the Company is NT\$ 25.3 billion at a 9.9%rate from the previous year. We have seen improved profitability in 2018 from 2017.

##### 4. Research and Development

With the prevalence of PCs and mobile devices, the technology of single-chip integration has gradually matured, a trend that is in line with Moore’s Law that drives the efficiency of global microelectronics and semiconductors. Moreover, during the course of the diversification of terminal computing triggered by the Internet of Things (IoT) effects, the industry chain strives to advance to a more valuable and higher level of system integration. This highlights the materiality of innovation of heterogeneous integration in the field of IC packing so that functional integration and the scaling-down technology can be enhanced at the same time, for creating intelligent internet connection environment and devices with better performance and for facilitating a more convenient and intelligent life of humankind. The Group continues to build platforms of key technologies such as the advanced system packaging and modulation, flip chip bumping/copper wire and low and medium pin count packaging. Key products and technologies successfully developed in 2018 are as follows:

- (1) Flip Chip Packaging (FCP): technically attested process of 7- and 10-nano chips, the 14- and 16-nano copper-electroplating process/Low-K dielectric FCP application and silver-alloy wires for hybrid flip chip ball grid array packages.
- (2) Wire-bonding packaging: the development of the second generation of advanced embedded component packaging, pressure sensor packaging, the technology of bonding copper/gold wires with ultra-fine spacing and wire internals, and Mobile DRAM.
- (3) Wafer Level Packaging: the silicon photonic component technology, Through-Wafer Via, glass substrate panel packaging, hexahedral Wafer Level Chip Scale Packaging (WLCSP), Fan-Out PoP Chip product development, and the die-to-wafer fitting process.
- (4) Advanced packaging and modulation: low power consumption antenna design and packaging, bendable substrate panel and packaging, dual side thinning and wireless communication modulation, and 5G antenna packaging product development.

## Summary of the 2019 Business Plan

### 1. Operational Guideline of the Group

- (1) To provide clients with services with the “highest quality.”
- (2) To generate long-term and stable profits for the Company and clients.
- (3) To collaborate with vendors and partners to jointly create prosperity.
- (4) To train employees to become experts and elites in respective fields.
- (5) To treat all employees “fairly” and “reasonably.”
- (6) To provide employees with ‘a harmonious, enjoyable and open’ work environment.
- (7) To maintain operational flexibility whenever possible.

### 2. Estimated Sales Volume and Supporting Info

Based on the industry prospect, future market demands, and the productivity of the Group, the estimated sales volume of the Group in 2019 is as follows:

| Sales Items | Estimated Sales Volume     |
|-------------|----------------------------|
| Assembly    | Approx. 28.8 billion units |
| Testing     | Approx. 5.2 billion units  |

### 3. Key Production and Sales Policies

Looking back in 2018, we founded ASE Technology Holding Co., Ltd. on Apr. 30, 2018. It’s a big leap forward both for the development of the Group and the entire semiconductor industry.

As the semiconductor industry is gradually maturing, “the big will get bigger” doesn’t necessarily apply to the future. With giants working hand-in-hand, there will be more talents and capital investment for higher shares of the market. In addition, on the pro forma basis, the Group’s revenues of semiconductor packaging and testing in 2018 reached US\$ 8.2 billion. Meanwhile, the revenues of ECM operation amounted to a record high of US\$ 5 billion. System in Package (SiP) grew by 14% to US\$ 2.2 billion from the previous period. It’s estimated that the momentum of growth in SiP will continue to 2019 and even further. In 2018, the capital expenditures of our machinery and equipment were mainly spent on the testing operation. The annual growth rate reached 4% with that in the second half of 2018 going to 8%. The growth momentum is estimated to last next year. Next year, we will continue to increase the capital expenditure in a steady fashion, with the main focuses on the integration of new technologies, Fan-Out Wafer Level Packaging (Fan-Out), and SiP. We will also expand the production base and implement factory automation infrastructure. Our production scale and innovation capacities are our fundamental impetus for continuous growth. And we believe SiP and Fan-Out operations will continue to grow. The Group will forge ahead to work on new development and applications of SiP and Fan-Out, and the integrated solutions of low voltage and embedded power supply.

### **Future Development Strategies of the Group**

The Group has been through the two waves of growth in Cu Wire and SiP and will embrace the next wave of the great cycle of heterogeneous integration. The designs of semiconductors in the future will definitely not be about that of a chip or die. Instead, it’s about a holistic system, i.e. the design of heterogeneous integration. It becomes very important to create a cross-functional platform that integrates SiP electronic design automation with domain knowledge. At the new peak of development in the future, we should reconsider adjusting the four key areas, including business partners, cooperation models, innovation and economic benefits. Regarding the adjustment of business partners, we will strive to have a voice in the value allocation of the global semiconductor industry, increasing cooperation within and across the industries, governments, and academia, and connecting allocated business values. As for cooperation models, we will operate and cooperate with specific global competitors. Regarding innovation, as the Moore’s Law has not diminished and is gradually slowing down, the heterogeneous integration of IC packaging and testing in the future will determine the efficacy of the execution of the Moore’s Law. Lastly, with respect to economic benefits, processes equipped with AI and Industry 4.0 capabilities will appear essential.

### **Impacts of the external competitive, regulatory, and overall operational environments**

Due to the impacts of the intensifying trade conflicts between the US and China, international forecasting institutes have revised down their original optimistic figures. All of a sudden the global economy is overshadowed by trade protectionism. The US-China trade war is intrinsically a political issue. An immense trade deficit lies between both countries and its impacts cover a wide range of areas, including the industrial and real estate industries. Fortunately, both parties have stayed refrained and it’s expected that the trade war will not deteriorate to a greater extent. Even though the US and China have reached consensus recently, the trade war created a temporary turmoil. The trade issues that lie between both countries still depend on global economic development. The Group has plans at the global level and will

respond to the market development and clients' demands to make flexible deployment and adjustment of production capacities in order to minimize the impacts. For the outlook in 2019, as uncertainties still exist domestically and internationally, we will not only keep watching out international economic trends and stay watchful but also endeavor for stability and continuous growth.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Parent Company Only Financial Statements for the  
Years Ended December 31, 2018 and 2017 and  
Independent Auditors' Report**

### INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders  
ASE Technology Holding Co., Ltd.

#### Opinion

We have audited the accompanying parent company only financial statements of ASE Technology Holding Co., Ltd. (the "Company"), which comprise the balance sheets as of December 31, 2018 and 2017, and the statements of comprehensive income, changes in equity and cash flows for the years then ended, and the notes to the parent company only financial statements, including a summary of significant accounting policies (collectively referred to as the "parent company only financial statements").

In our opinion, based on our audits and the report of other auditors (please refer to the Other Matter paragraph), the accompanying parent company only financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2018 and 2017, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

#### Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Parent Company Only Financial Statements section of our report. We are independent of the Company in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the parent company only financial statements for the year ended December 31, 2018. These matters were addressed in the context of our audit of the parent company only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matter of the Company's parent company only financial statements for the year ended December 31, 2018 is discussed as follows.

#### The Identification and Valuation of Intangible Assets from Acquisition of Subsidiaries

The Company completed the acquisition of Siliconware Precision Industries Co., Ltd. ("SPIL") in April 2018 at the consideration of NT\$168,440,585 thousand. Goodwill of NT\$39,334,426 thousand and the other intangible assets of NT\$29,338,821 thousand arose from the acquisition were included in the Company's investments accounted for using the equity method and constituted 23% of total assets of the Company as of December 31, 2018, which was significant to the accompanying parent company only financial statements taken as a whole. Management has completed the identification of the difference between the cost of the investment and the Company's share of the net fair value of SPIL's identifiable assets and liabilities.

While identifying the difference between the cost of the investment and the Company's share of the net fair value of SPIL's identifiable assets and liabilities, management estimated the fair value of the intangible assets using the related estimated cash flow projections or relief from expenses. Certain assumptions were of high uncertainty since they required management to make significant estimates and judgment related to semiconductor industry varied by economic trends. In addition, it also has impact on the amortization recognized based on the estimated economic beneficial lives and the impairment assessment of the Company's investments accounted for using the equity method in the future. Therefore, we determined that identification and valuation of intangible assets from the acquisition of SPIL as a key audit matter.

Please refer to Notes 4(d), 5 and 6 to the accompanying parent company only financial statements for related accounting policies and the uncertainty around the accounting estimates and assumptions regarding the investment in SPIL.

In addition to the understanding of the management's process of identification and valuation of intangible assets from the acquisition of SPIL's shareholdings, our key audit procedures included the followings:

1. We inquired and evaluated the professional competency and objectivity of the external appraisers engaged by the management in the process of identification and valuation of intangible assets.
2. We assessed the reasonableness of the management's assumptions in the process of identification and valuation of intangible assets. We also engaged our valuation specialists in evaluating the reasonableness of the valuation report issued by the external appraisers, including the valuation model used, the factors applied, the categories of intangible assets identified and the related economic benefit lives estimated in the valuation report. Our valuation specialists also tested the mathematical accuracy of the calculation in the valuation report.
3. We tested the accuracy of the amortization expenses recognized for those identified intangible assets and evaluated the completeness and reasonableness of the disclosures regarding the acquisition of subsidiaries in the parent company only financial statements.

### **Emphasis of Matter**

As discussed in Note 1 to the parent company only financial statements, the share exchange was conducted on April 30, 2018 (date of incorporation) in accordance with the joint share exchange agreement at an exchange ratio of 1 ordinary share of Advanced Semiconductor Engineering, Inc. (ASE) for 0.5 ordinary share of the Company, and then the Company owned 100% shareholdings of ASE. The aforementioned share exchange was an organization restructure under common control that the Company was essentially the continuation of ASE. The related assets and liabilities in the Company's parent company only financial statements before the date of incorporation were recognized based on the carrying amounts of those in ASE's parent company only financial statements. The parent company only financial statements of the Company for prior periods are prepared under the assumption that the Company owned 100% shareholdings of ASE at the very beginning and accounted for ASE as a subsidiary using the equity method.

In addition, as discussed in Note 1 to the parent company only financial statements that ASE spun off its investment department which was responsible for managing the ordinary shares and assets of USI Inc. (USIINC) as well as relevant assets (including assets, liabilities and business) into a newly established company, USI Global Inc. (USI Global), USI Global then issued new ordinary shares to the Company as the consideration. The aforementioned transaction was also an organization restructure under common control. The parent company only financial statements of the Company for prior periods are prepared under the assumption that the spin-off has been completed at the very beginning and the Company accounted for USI Global as a subsidiary using the equity method.

## **Other Matter**

We did not audit the financial statements of SPIL, the Company's investment in which was accounted for (1) as a subsidiary accounted for using the equity method as of December 31, 2018 and for the period from April 30, 2018 through December 31, 2018 and (2) as an investment accounted for using the equity method of the Company's subsidiary as of December 31, 2017 and for the year then ended, and the period from January 1, 2018 through April 29, 2018, but such financial statements were audited by other auditors. Our opinion, insofar as it relates to the amounts included for SPIL, is based solely on the report of other auditors. The carrying amount of the investment in SPIL accounted for using the equity method constituted 54% and 24%, respectively, of the Company's total assets as of December 31, 2018 and 2017, and the share of profit of SPIL constituted 30% and 4%, respectively, of the Company's net profit for the years then ended.

## **Responsibilities of Management and Those Charged with Governance for the Parent Company Only Financial Statements**

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for such internal control as management determines is necessary to enable the preparation of the parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the Company's financial reporting process.

## **Auditors' Responsibilities for the Audit of the Parent Company Only Financial Statements**

Our objectives are to obtain reasonable assurance about whether the parent company only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent company only financial statements.

As part of an audit in accordance with the auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material

uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence regarding the financial information of entities or business activities within the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision, and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements for the year ended December 31, 2018 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Jia-Ling Chiang and Cheng-Hung Kuo.

## Item 16G. Corporate Governance

As a company listed on the NYSE, we are subject to certain corporate governance rules of the NYSE. The application of the NYSE's corporate governance rules is limited for foreign private issuers, recognizing that they have to comply with domestic requirements. As a foreign private issuer, we must comply with the following NYSE corporate governance rules: 1) satisfy the audit committee requirements of the SEC; 2) chief executive officer must promptly notify the NYSE in writing upon becoming aware of any material non-compliance with applicable NYSE corporate governance rules; 3) submit annual and interim affirmations to the NYSE regarding compliance with applicable NYSE corporate governance requirements; and 4) provide a brief description of any significant differences between our corporate governance practices and those required of U.S. companies under the NYSE listing standards. The table below sets forth the significant differences between our corporate governance practices and those required of U.S. companies under the NYSE listing standards.

We do not assess the independence of our directors under the independence requirements of the NYSE listing standards. Pursuant to relevant laws and regulations of the R.O.C., we have three independent directors on our board of directors that were elected through the candidate nomination system at our extraordinary general shareholders' meeting on June 21, 2018. |
| To empower non-management directors to serve as a more effective check on management, the non-management directors of each company must meet at regularly scheduled executive sessions without management. | All of our directors attend the meetings of the board of directors. Our non-management directors do not meet at regularly scheduled executive sessions without management. The R.O.C. Company Law does not require companies incorporated in the R.O.C. to have their non-management directors meet at regularly scheduled executive sessions without management.                                                                                                                    |

**Nominating/Corporate governance committee**

Listed companies must have a nominating/corporate governance committee composed entirely of independent directors and governed by a written charter that provides for certain responsibilities of the committee set out in the NYSE listing standards.

We do not have a nominating/corporate governance committee. The R.O.C. Company Law does not require companies incorporated in the R.O.C. to have a nominating/corporate governance committee. Currently, our board of directors performs the duties of a corporate governance committee and regularly reviews our corporate governance principles and practices.

The R.O.C. Company Law requires that directors be elected by shareholders. Under R.O.C. law and regulations, companies that have independent directors are required to adopt a candidate nomination system for the election of independent directors. Our three independent directors were elected through the candidate nomination system provided in our Articles of Incorporation. All of our non-independent directors were elected directly by our shareholders at our shareholders' meetings without a nomination process.

**Compensation committee**

Listed companies must have a compensation committee composed entirely of independent directors and governed by a written charter that provides for certain responsibilities of the committee set out in the NYSE listing standards.

We have a compensation committee as required by the regulations promulgated by the FSC. The charter of such committee contains similar responsibilities as those provided under NYSE listing standards.

In addition to any requirement of Rule 10A-3(b)(1), all compensation committee members must satisfy the independence requirements for independent directors set out in the NYSE listing standards.

We do not assess the independence of our compensation committee member under the independence requirements of the NYSE listing standards but adopt the independence standard as promulgated under the R.O.C. Regulations

### Corporate governance guidelines

Listed companies must adopt and disclose corporate governance guidelines.

We currently comply with the domestic non-binding Corporate Governance Best-Practice Principles for TWSE and Taipei Exchange Listed Companies promulgated by the TWSE and the Taipei Exchange, and we provide an explanation of the differences between our practice and the principles, if any, in our R.O.C. annual report.

### Code of ethics for directors, officers and employees

Listed companies must adopt and disclose a code of business conduct and ethics for directors, officers and employees, and promptly disclose any waivers of the code for directors or executive officers.

We have adopted a code of ethics that satisfies the requirements of Item 16B of Form 20-F and applies to all employees, officers, supervisors and directors of our company and our subsidiaries and will disclose any waivers of the code as required by Item 16B of Form 20-F. We have posted our code of ethics on our website.

### Description of significant differences

Listed foreign private issuers must disclose any significant ways in which their corporate governance practices differ from those followed by domestic companies under NYSE listing standards.

This table contains the significant differences between our corporate governance practices and those required of U.S. companies under the NYSE listing standards.

### CEO certification

Each listed company CEO must certify to the NYSE each year that he or she is not aware of any violation by the company of NYSE corporate governance listing standards, qualifying the certification to the extent necessary.

As a foreign private issuer, we are not required to comply with this rule; however, our chief executive officer provides certifications under Sections 302 and 906 of the Sarbanes-Oxley Act.

Each listed company CEO must promptly notify the NYSE in writing after any executive officer of the listed company becomes aware of any material non-compliance with any applicable

We intend to comply with this requirement.
