Total		6,133	144	316
			2.3%	5.2%

Total Headcount: 6,133 ,R&D personnel 460/ 7.5%

Topkey Group Composite Material Development

2018

Comprehensively emphasize in environmental protection material development and aviation material certification

2001

Production of Carbon fiber aircraft interior and medical relatives

1995

M&A Composite Solutions Corporation in Seattle , USA

1991

Production of carbon fiber Bicycle frame and Helmet

1980

Production of carbon fiber Racket

Diversification of Products and Industries

CFRP (Carbon-Fiber Rein-enforce Polymer) as the core material ,
Six industries in terms of scale and technology are leader of the industry.

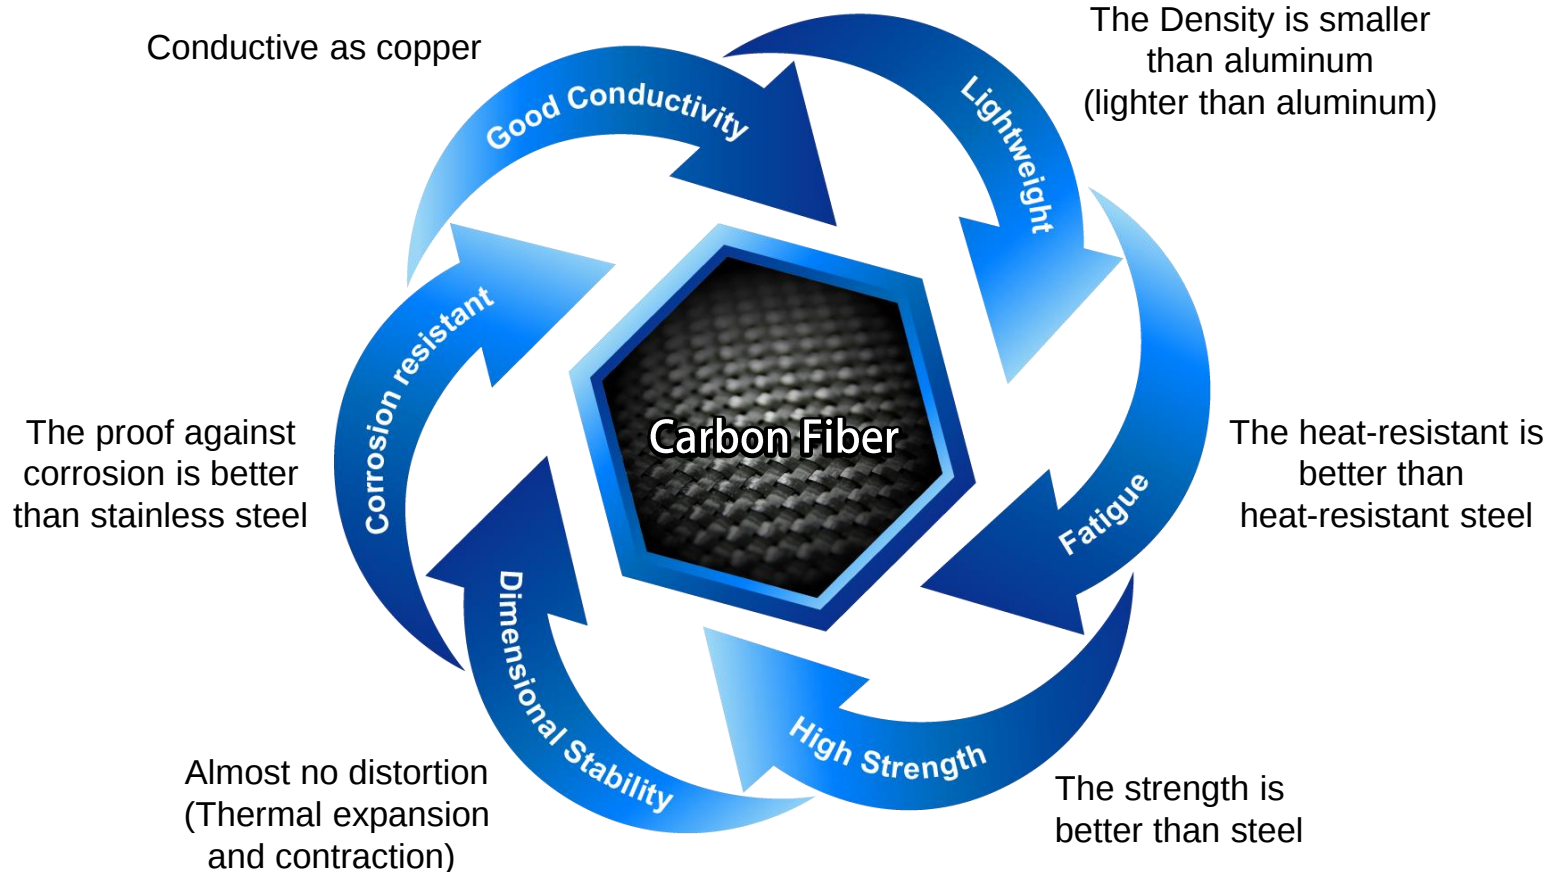

**GLOBAL
LEADER**

RACKETS & SPORTS

- Annual Production Capacity 1.2 Millions.
- World's Largest OEM Composite Racket Supplier.
- 40% Seed Player Selected Rackets.

BIKE PRODUCTS

- Annual Production Capacity 300,000 sets.
- Seven pro-teams Selected Bikes.
- Tour de France and Tour of Spain Champion, 2014.
- 2016 Girod'Italia Bicycle race Champion.

S-WORKS TURBO LEVO

SAFETY

- Year capacity 1.3 Millions.
- First design of carbon fiber helmet(1995).
- Lightest helmet (950g) in the world and meets EC standard(2008).
- AGV won 2017 Motor GP (Moto3) Champion.

MEDICAL

- Niche Market (Slope). Sole Source Supplier.
- World's leading Slope, Table Top & Accessories for MRI/CT.

AVIATION - Cabin Interior

Business class with economy class

- Lufthansa
- Air Berlin
- JAL
- ANA
- United Airline
- Fly Dubai
- Singapore Airline
- Cathay Pacific
- TACA
- TAM

AVIATION PRODUCTS

C-17 Lavatory (MD)

Designed and Tested by CSC for :

- Design Loads
- Shock and Vibration
- Environmental Criteria
- Flammability

AVIATION - Aircraft Substructure

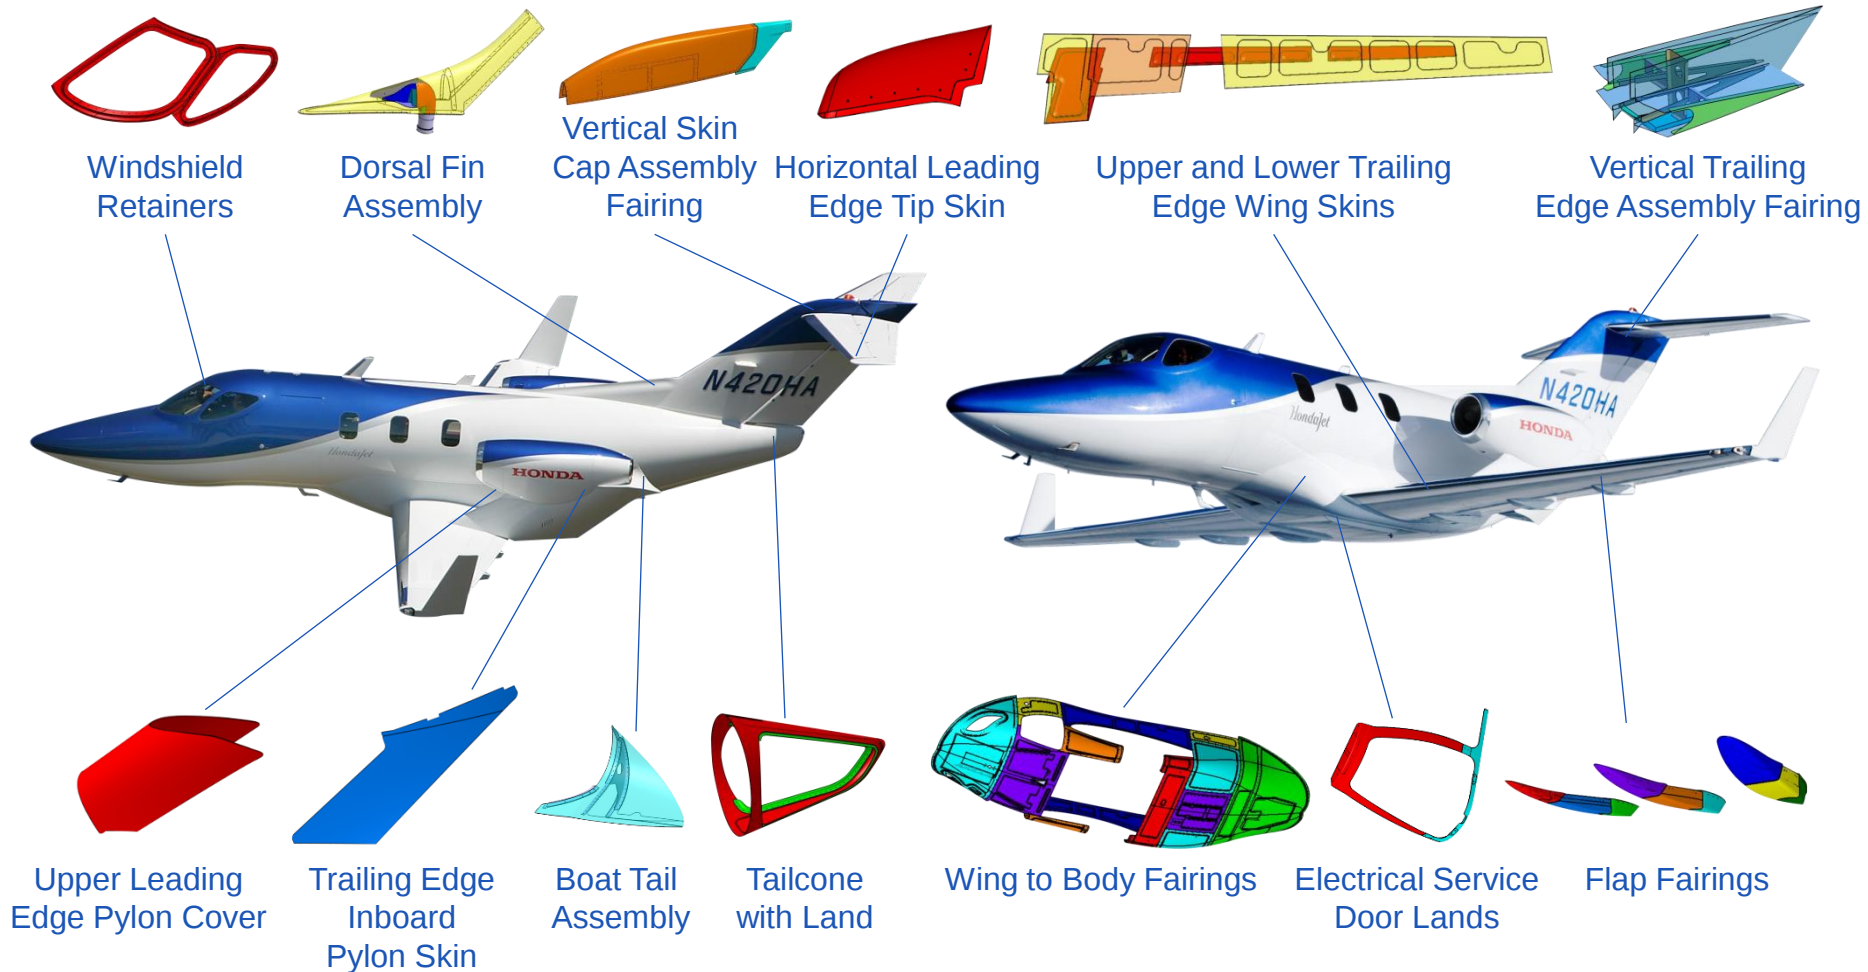

- Honda Jet Structural component Parts
- Tail Boom Assemblies for MD900, MD600N, MD520N
- Black Hawk, S-92 (Sikorsky)
- BA-609 (Bell/Agusta)

AVIATION PRODUCTS

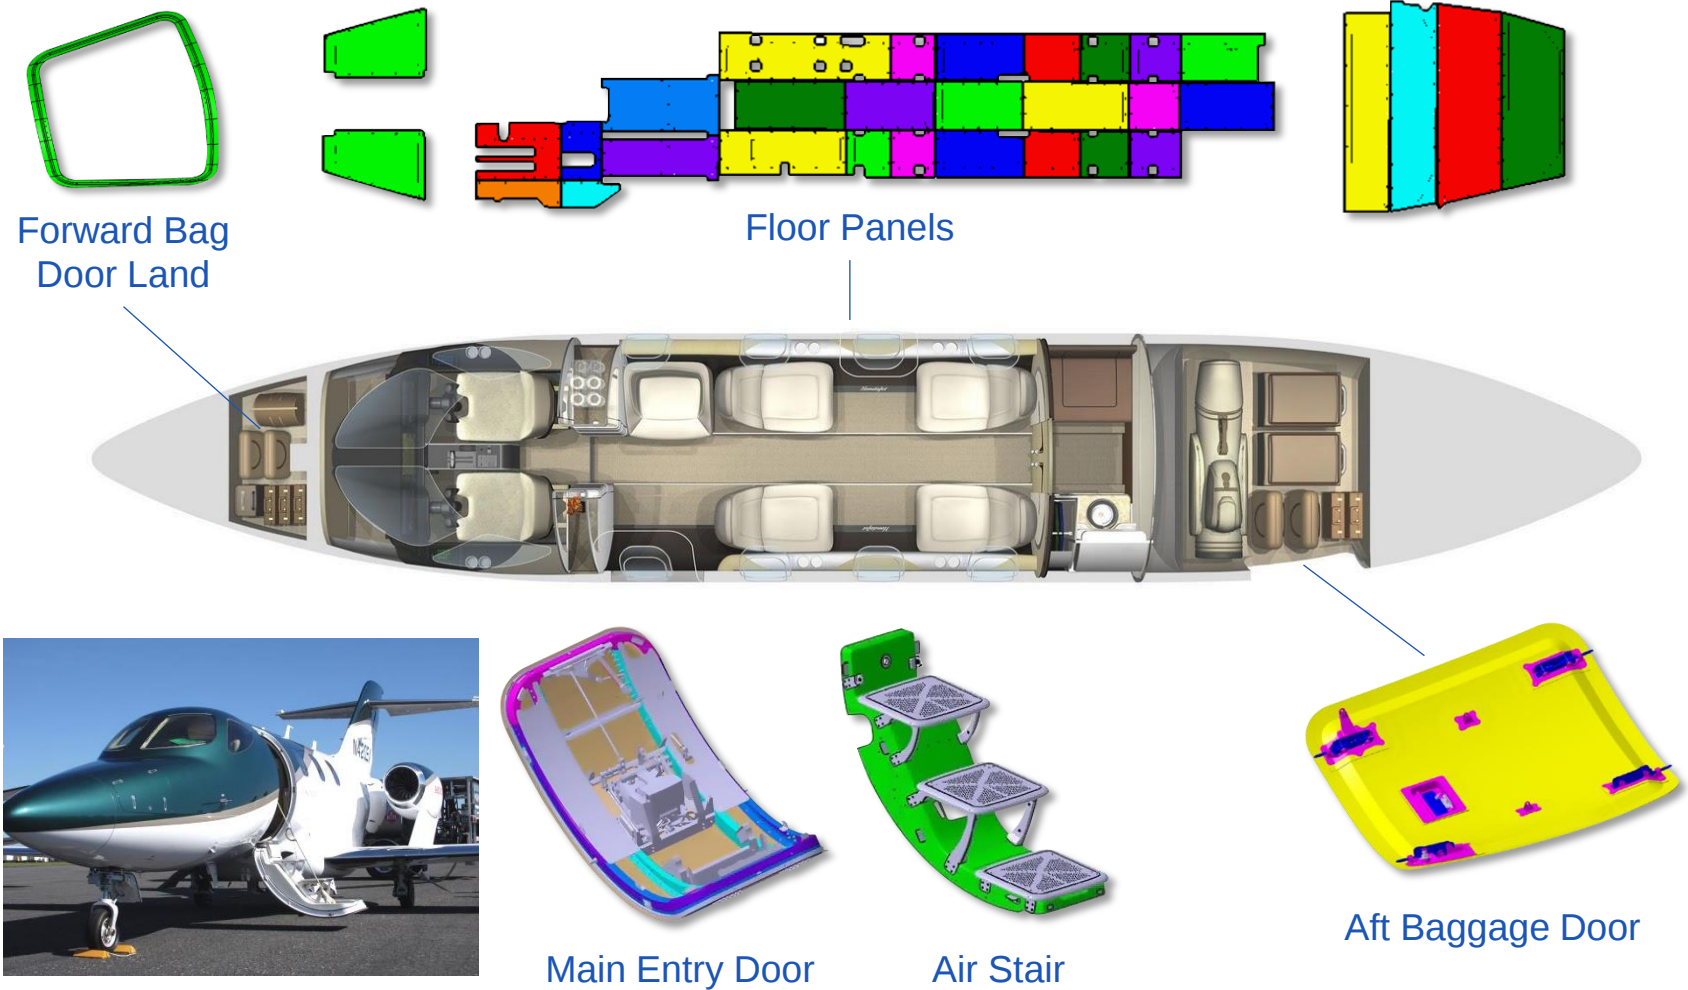

Honda Jet Structural component Parts

Honda Jet has passed FAA Certificate in 2016 and CSC started to produce around 70 parts. Right now, CSC ships 4 set monthly.

AVIATION PRODUCTS

Honda Jet Structural component Parts

AVIATION PRODUCTS

- Tail Boom Assemblies for
MD900 、MD600N 、MD520N
- Includes:
 - Tail Boom Assembly
 - Horizontal Stabilizer Assy
 - Thruster / Rotating Cone Assy
 - Vertical Stabilizers (MD900)
- Graphite/Epoxy Honeycomb
Primary Structures
- Delivered as Entire Shipsets
Ready for Installation

AVIATION PRODUCTS

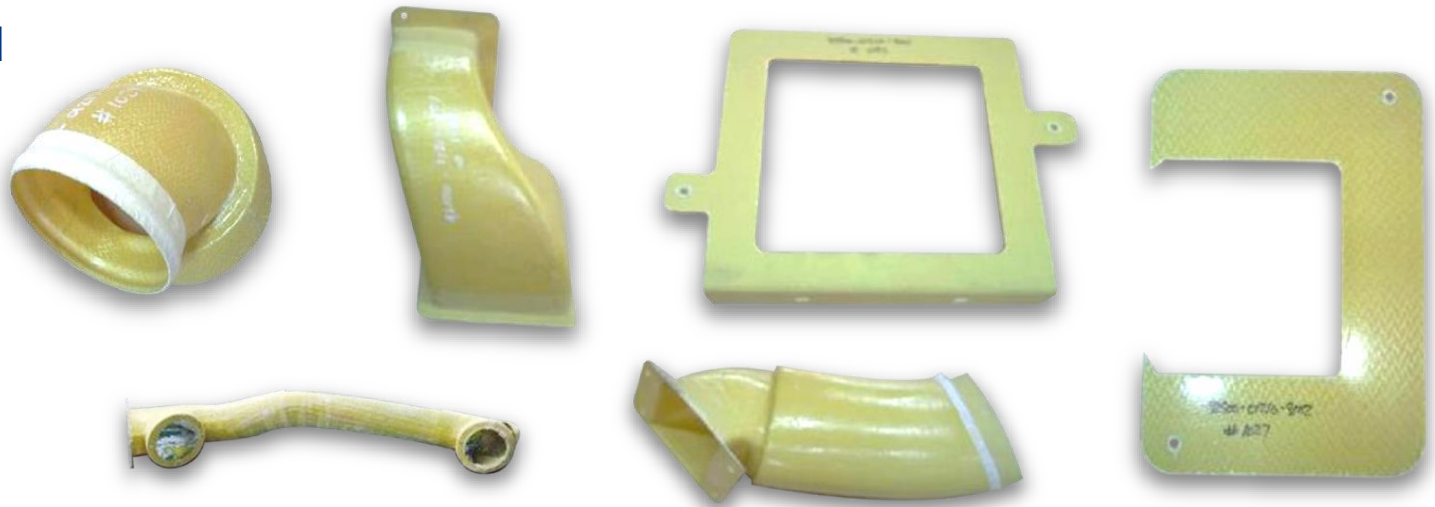

- **Black Hawk**
Draft Shaft Housing
Curing Mold/Tooling Mold

AVIATION PRODUCTS

- **S-92 (Sikorsky)**
Air Conditioning Duct
Plaster Mold

TP Composites Introduction

- Topkey has built 2 million M2 output production line.
- Topkey has developed 5 engineering plastic formulations and advanced engineering plastic formulations which were used in aviation almost complete.
- Leading industry with deep drawing fusion technology and one-time composite structure technology.

TP composite used in product design or most applied projects as follows:

Aerospace

- Aerial inside decoration
- Aerial structure or trailer

AUTO

- Car high temperature structure
- Car high attack parts and structure
- Car inside structure and decoration

3C & Others

- Consumer electronic structure, such like Laptop , Tablet , Smart Phone , and VR
- Sports equipment parts
- Consumer products impact resistance structure
- Safety and protective parts

New Business - Aviation

- Giant commercial aircraft tail parts.

New Business - Aviation

- Giant commercial aircraft interior material and parts.
- Giant commercial aircraft Business class seats.

New Business - Aviation

- Composite material will be used on commercial Aircraft Dinner car

New Business - Medical Devices

Exoskeleton Robot

Exoskeleton Robot Suit

Designed for military , service or construction use

Applications

Carry heavy loads , dangerous Environments and accident-prone work

Lower-Limb Type

The elderly , spinal cord Injury(SCI) patients

Applications

Not only give basic capacity such as walking , sitting-to standing motions also reduce leg loads for taking device accessories

Upper-Limb Type

Weakened arm muscles or has been amputated or loss arms people

Applications

Providing the user to feed by themselves and basic living skills

New Business - 3C Products

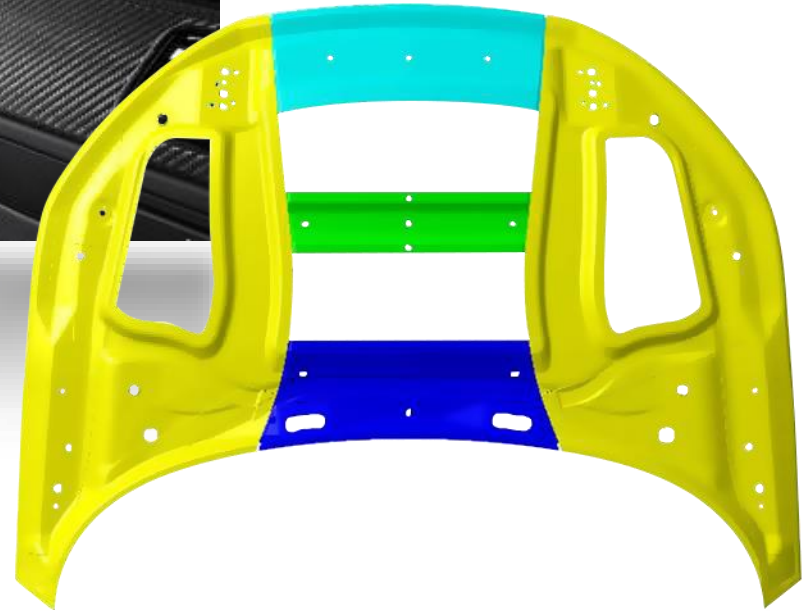

- Application in laptop, tablet and Phone case.
- Recently many products have entered the brand development certification stage.

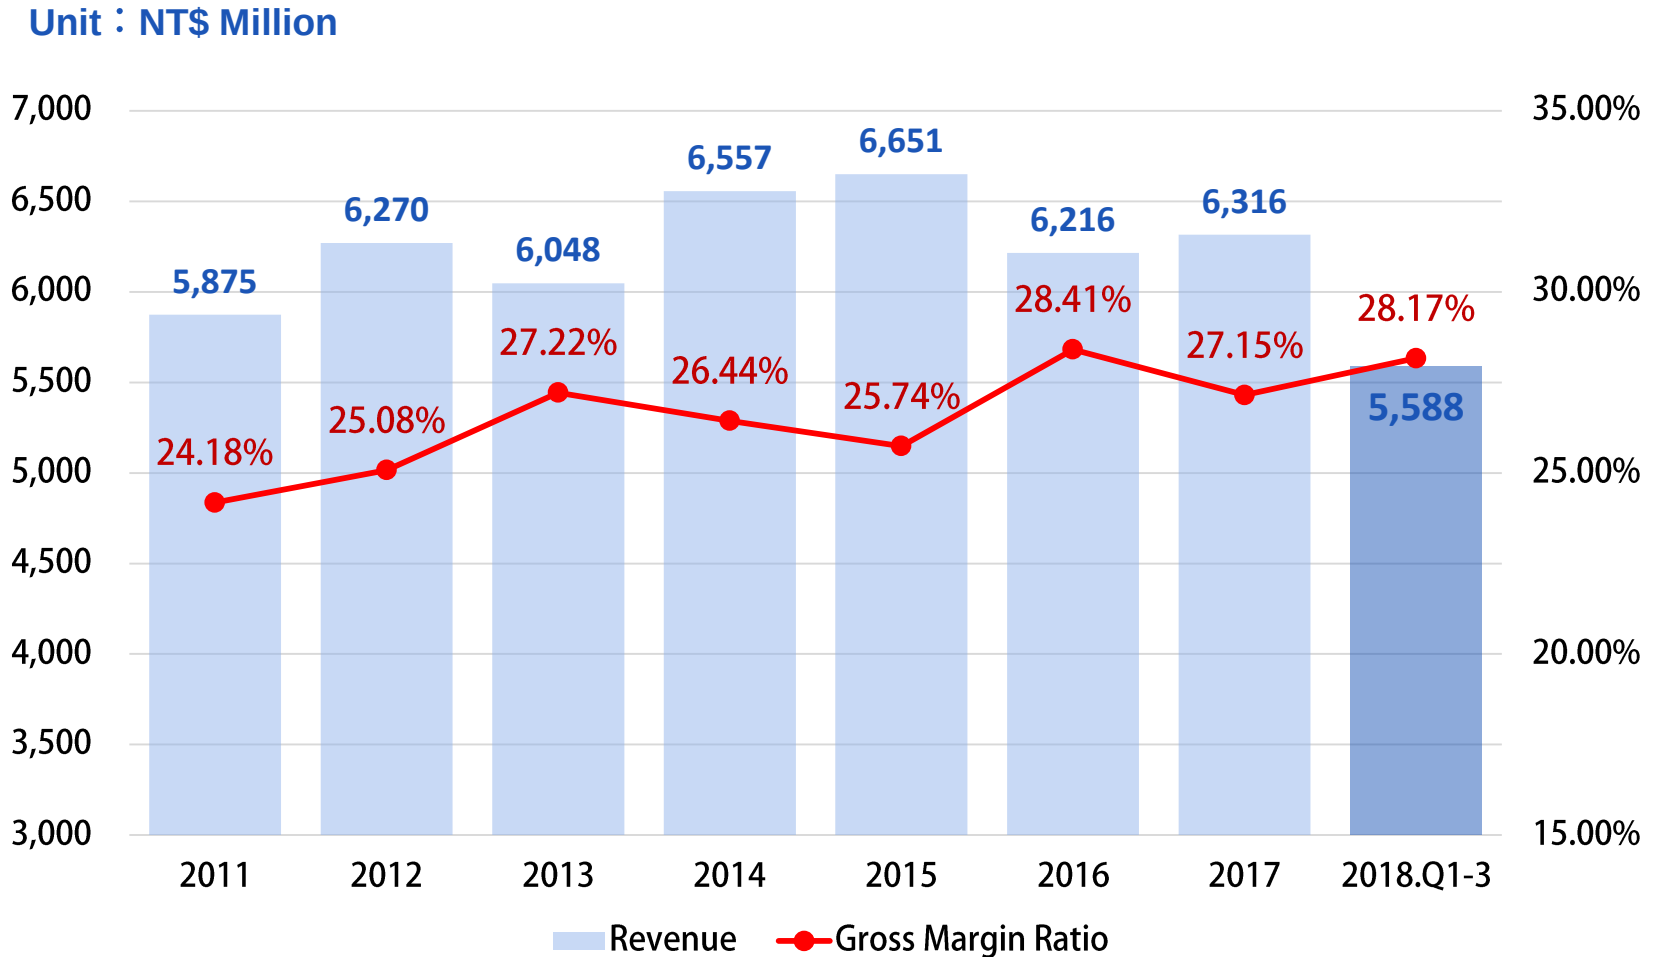

New Business - Auto

- Used in the car body structure and plate reinforcement.
- Currently working with a lots of depots design and development.

Topkey Group-Revenue & Gross Margin Ratio

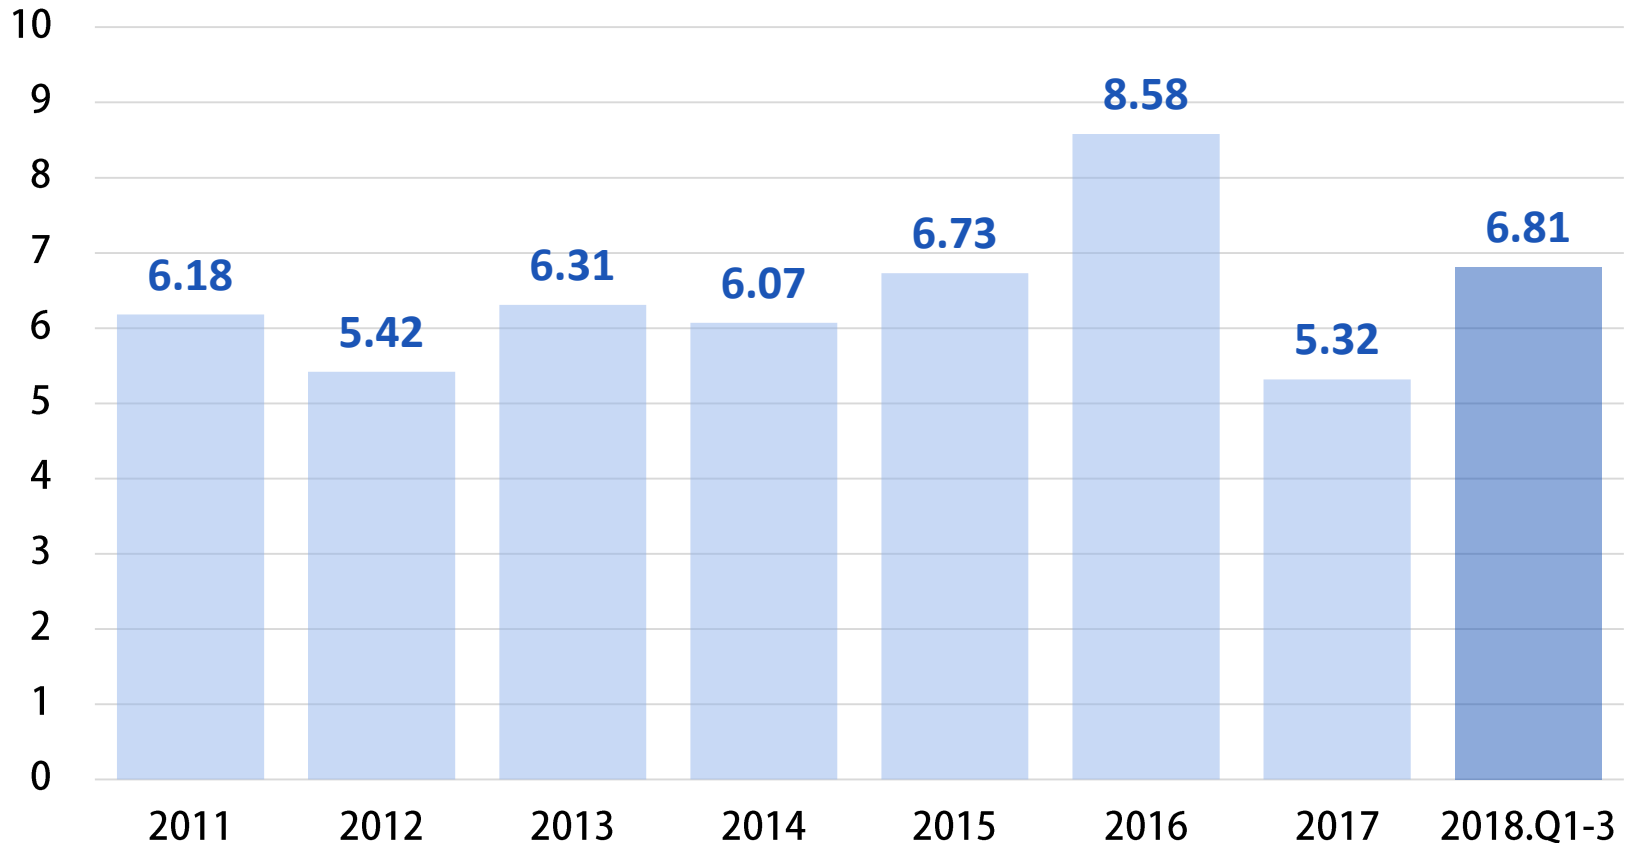

NOTE 1 : Revenue of 2018.Q1-3 show a 21.46% increase over the same period last year.

NOTE 2 : 2011 ROC GAAP ; 2012~2018 IFRS

TOPKEY GROUP - After-Tax EPS

Unit : New Taiwan Dollars

NOTE 1 : 2018.Q1-3 show a 60.24% increase over the same period last year.

NOTE 2 : 2011 ROC GAAP ; 2012~2018 IFRS

Topkey Group Topkey Family. We Care.

Employees as important assets---
to fill their life rich and diversified increasing their humanistic literacy.

Growing Healthily

Regularly we hold sport competitions and activities.
By participating sport competitions and club activities,
to balance the staffs' physical, mental, job and family perfectly.

Corporate Social Responsibilities-Social care

From the beginning...

- In order to practice corporate social responsibility ,TOPKEY Corporation , through the establishment of TOPKEY Education Foundation , invited Taichung area enterprises that interested in social responsibility , as enterprises volunteer , to contribute the community with social welfare organizations.
- As a promoter of corporate volunteer , every year TOPKEY Education Foundation participates Tai-Chung corporate volunteer day and invites all enterprises to join. During the Autumn is gone and the Winter is coming , through the service of children , the elderly , younger , women , new residents , aboriginals , physical and mental disabilities and other ethic groups , in the day with sweat and smile , irrigation heart and nourishing life , making a year of volunteer service results to harvest and collection.

Corporate Social Responsibilities-Social care

2012-2018 Tai-Chung corporate volunteer day

2018/11/17 Waipu Expo Site

- 46 companies, 567 volunteers
- 12 Social welfare organizations, 504 service objects
- Total 1,071 participants

2016/11/26 Civic Plaza

- 28 companies, 600 volunteers
- 26 Social welfare organizations, 600 service objects
- 115 park tour booth, 800 volunteers
- Total 2,100 participants

2017/12/02 Civic Plaza

- 60 companies, 850 volunteers
- 43 Social welfare organizations, 830 service objects
- 46 park tour booth, 300 volunteers
- Total 2,000 participants

2014/11/08 Civic Plaza

- 37 companies, 821 volunteers
- 32 Social welfare organizations, 985 service objects
- Total 1,806 participants

2015/11/07 Civic Plaza

- 44 companies, 1,200 volunteers
- 35 public interest proposal, 990 service objects
- Total 2,000 participants

2012/12/23 National Museum of Natural Science

- 20 companies, 600 volunteers
- 15 Social welfare organizations, 600 service objects
- Total 1,200 participants

2013/11/09 Charlotte Park

- 33 companies, 794 volunteers
- 25 Social welfare organizations, 861 service objects
- Total 1,655 participants
