Final Terms

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Securities are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the European Economic Area. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, the "**EU MiFID II**"); (ii) a customer within the meaning of Directive (EU) 2016/97, as amended, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of the EU MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the "**EU Prospectus Regulation**"). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**EU PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the European Economic Area has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the European Economic Area may be unlawful under the EU PRIIPs Regulation.

GBP 3,500,000 Securities due November 2025 pursuant to the Global Structured Securities Programme (the "**Tranche 1 Securities**")

Issue Price: 100.00 per cent.

This document constitutes the final terms of the Securities (the "**Final Terms**") described herein for the purposes of Article 8 of the Regulation (EU) 2017/1129 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended) and regulations made thereunder (as amended, the "**UK Prospectus Regulation**") and is prepared in connection with the Global Structured Securities Programme established by Barclays Bank PLC (the "**Issuer**"). These Final Terms complete and should be read in conjunction with GSSP Base Prospectus 16 which constitutes a base prospectus drawn up as separate documents (including the Registration Document dated 5 March 2021 as supplemented on 30 July 2021 and the second supplement dated 04 November 2021 and the Securities Note relating to the GSSP Base Prospectus 16 dated 29 June 2021, as supplemented on 30 July 2021 and the second supplement dated 04 November 2021) for the purposes of Article 8(6) of the UK Prospectus Regulation (the "**Base Prospectus**"). Full information on the Issuer and the offer of the Securities is only available on the basis of the combination of these Final Terms and the Base Prospectus. A summary of the individual issue of the Securities is annexed to these Final Terms.

The Base Prospectus, and any supplements thereto, are available for viewing at *https://www.home.barclays/investor-relations/fixed-income-investors/prospectus-and-documents/structured-securities-prospectuses* and during normal business hours at the registered office of the Issuer and the specified office of the Issue and Paying Agent for the time being in London, and copies may be obtained from such office.

Words and expressions defined in the Base Prospectus and not defined in the Final Terms shall bear the same meanings when used herein.

What are the key risks that are specific to the Issuer?

The Barclays Bank Group has identified a broad range of risks to which its businesses are exposed. Material risks are those to which senior management pay particular attention and which could cause the delivery of the Barclays Bank Group's strategy, results of operations, financial condition and/or prospects to differ materially from expectations. Emerging risks are those which have unknown components, the impact of which could crystallise over a longer time period. In addition, certain other factors beyond the Barclays Bank Group's control, including escalation of terrorism or global conflicts, natural disasters, pandemics and similar events, although not detailed below, could have a similar impact on the Barclays Bank Group.

- **Material existing and emerging risks potentially impacting more than one principal risk:** In addition to material and emerging risks impacting the principal risks set out below, there are also material existing and emerging risks that potentially impact more than one of these principal risks. These risks are: (i) the impact of COVID-19; (ii) potentially unfavourable global and local economic and market conditions, as well as geopolitical developments; (iii) the UK's withdrawal from the EU; (iv) the impact of interest rate changes on the Barclays Bank Group's profitability; (v) the competitive environments of the banking and financial services industry; (vi) the regulatory change agenda and impact on business model; (vii) the impact of climate change on the Barclays Bank Group's business; and (viii) the impact of benchmark interest rate reforms on the Barclays Bank Group.

- **Credit and Market risks:** Credit risk is the risk of loss to the Barclays Bank Group from the failure of clients, customers or counterparties, to fully honour their obligations to members of the Barclays Bank Group. The Barclays Bank Group is subject to risks arising from changes in credit quality and recovery rates of loans and advances due from borrowers and counterparties in any specific portfolio. Market risk is the risk of loss arising from potential adverse change in the value of the Barclays Bank Group's assets and liabilities from fluctuation in market variables.

- **Treasury and capital risk and the risk that the Issuer and the Barclays Bank Group are subject to substantial resolution powers**: There are three primary types of treasury and capital risk faced by the Barclays Bank Group which are (1) liquidity risk – the risk that the Barclays Bank Group is unable to meet its contractual or contingent obligations or that it does not have the appropriate amount of stable funding and liquidity to support its assets, which may also be impacted by credit rating changes; (2) capital risk – the risk that the Barclays Bank Group has an insufficient level or composition of capital; and (3) interest rate risk in the banking book – the risk that the Barclays Bank Group is exposed to capital or income volatility because of a mismatch between the interest rate exposures of its (non-traded) assets and liabilities. Under the Banking Act 2009, substantial powers are granted to the Bank of England (or, in certain circumstances, HM Treasury), in consultation with the United Kingdom Prudential Regulation Authority, the UK Financial Conduct Authority and HM Treasury, as appropriate as part of a special resolution regime. These powers enable the Bank of England (or any successor or replacement thereto and/or such other authority in the United Kingdom with the ability to exercise the UK Bail-in Power) (the "Resolution Authority") to implement various resolution measures and stabilisation options (including, but not limited to, the bail-in tool) with respect to a UK bank or investment firm and certain of its affiliates (as at the date of the Registration Document, including the Issuer) in circumstances in which the Resolution Authority is satisfied that the relevant resolution conditions are met.

- **Operational and model risks:** Operational risk is the risk of loss to the Barclays Bank Group from inadequate or failed processes or systems, human factors or due to external events where the root cause is not due to credit or market risks. Model risk is the risk of potential adverse consequences from financial assessments or decisions based on incorrect or misused model outputs and reports.

- **Conduct, reputation and legal risks and legal, competition and regulatory matters**: Conduct risk is the risk of detriment to customers, clients, market integrity, effective competition or the Barclays Bank Group from the inappropriate supply of financial services, including instances of wilful or negligent misconduct. Reputation risk is the risk that an action, transaction, investment, event, decision or business relationship will reduce trust in the Barclays Bank Group's integrity and competence. The Barclays Bank Group conducts activities in a highly regulated market which exposes it and its employees to legal risk arising from (i) the multitude of laws and regulations that apply to the businesses it operates, which are highly dynamic, may vary between jurisdictions, and are often unclear in their application to particular circumstances especially in new and emerging areas; and (ii) the diversified and evolving nature of the Barclays Bank Group's businesses and business practices. In each case, this exposes the Barclays Bank Group and its employees to the risk of loss or the imposition of penalties, damages or fines from the failure of members of the Barclays Bank Group to meet their respective legal obligations, including legal or contractual requirements. Legal risk may arise in relation to any number of the material exising and emerging risks summarised above.

KEY INFORMATION ON THE SECURITIES

What are the main features of the Securities?

Type and class of Securities being issued and admitted to trading, including security identification numbers

The Securities are derivative securities in the form of notes issued in global bearer form and will be uniquely identified by: Series number: NX00312494; Tranche number: 1; ISIN: XS2316713150; Common Code: 231671315.

The Securities are cleared and settled through Euroclear Bank S.A./N.V. and/or Clearstream Banking, *société anonyme*.

Currency, denomination, issue size and term of the Securities

The Securities will be denominated in GBP (the "**Currency**"). The specified denomination per Security is GBP 1,000. The issue size is GBP 3,500,000.00 and the issue price is 100.00% of par.

The issue date is 18 November 2021 and the redemption date is 18 November 2025 (the "**Redemption Date**"). Such date may be postponed if the determination of any value used to calculate an amount payable under the Securities is delayed.

Rights attached to the Securities

Each Security includes a right to a potential return and an amount payable on redemption, together with certain ancillary rights such as the right to receive notice of certain determinations and events and to vote on future amendments.

The potential return on the Securities will be a redemption amount linked to the change in value of the GBP Preference Share issued by Teal Investments Limited (Class number: PEISC059), the "**Underlying Preference Share**", the value of which is dependent on the performance of each Underlying Preference Share Reference Asset. Information on the Underlying Preference Share can be found on https://barxis.barcap.com/GB/1/en/home.app.

The Securities will not bear interest.

Final redemption in respect of the Securities

Unless previously redeemed or purchased and cancelled, the Securities will be redeemed by the Issuer by payment on the Redemption Date of a cash amount per Calculation Amount in the Currency equal to (i) the Calculation Amount multiplied by (ii) the Preference Share Value$_{final}$ divided by the Preference Share Value$_{initial}$.

Where:

- **Preference Share Value$_{final}$:** the value of the Underlying Preference Share on 11 November 2025, being the "**Final Valuation Date**". The Final Valuation Date is subject to adjustment.

- **Preference Share Value$_{initial}$:** the Underlying Preference Share on 18 November 2021, being the "**Initial Valuation Date**". The Initial Valuation Date is subject to adjustment.

Value of the Underlying Preference Share

The value of the Underlying Preference Share will be calculated in accordance with the following:

If:

The Final Performance of the Worst Performing Underlying Preference Share Reference Asset is greater than or equal to the Knock-in Barrier Price of the Worst Performing Underlying Preference Share Reference Asset:

Value of the Underlying Preference Share = the Calculation Amount (being GBP 100.00) multiplied by the sum of (a) the number of occasions on which the fixed return condition is satisfied multiplied by the Fixed Return Percentage and (b) 100%. The fixed return condition is satisfied if, in respect of a Fixed Return Valuation Date, the closing price or level of the Worst Performing Underlying Preference Share Reference Asset is equal to or greater than the Fixed Return Barrier on such Fixed Return Valuation Date.

If:

The Final Performance of the Worst Performing Underlying Preference Share Reference Asset is less than the Knock-in Barrier Price of the Worst Performing Underlying Preference Share Reference Asset:

Value of the Underlying Preference Share = the Calculation Amount (being GBP 100.00) multiplied by the sum of (a) the number of occasions on which the fixed return condition is satisfied multiplied by the Fixed Return Percentage and (b) the Final Performance divided by the Strike Price Percentage (being 100.00%). The fixed return condition is satisfied if, in respect of , the closing price or level of the Worst Performing Underlying Preference Share Reference Asset is equal to or greater than the Fixed Return Barrier on such Fixed Return Valuation Date.

Where:

- **Calculation Amount:** GBP 100.00.

- **Final Performance:** in respect of the Worst Performing Underlying Preference Share Reference Asset, an amount which is calculated by dividing the Final Valuation Price of such Worst Performing Underlying Preference Share Reference Asset by the Initial Price of such Worst Performing Underlying Preference Share Reference Asset.

- **Final Valuation Price:** in respect of each Underlying Preference Share Reference Asset, the closing price or level of such Underlying Preference Share Reference Asset on 11 November 2025, subject to adjustment.

- **Fixed Return Barrier:** in respect of each Underlying Preference Share Reference Asset and a Fixed Return Valuation Date, an amount which is calculated as the Fixed Return Barrier Percentage specified in the table below in respect of such Fixed Return Valuation Date multiplied by the Initial Price of such Underlying Preference Share Reference Asset.

- **Fixed Return Percentage:** 3.00%.

- **Initial Price:** in respect of each Underlying Preference Share Reference Asset, the Initial Price specified in respect of such Underlying Preference Share Reference Asset in the table below, being the closing price or level of such Underlying Preference Share Reference Asset on 11 November 2021 subject to adjustment.

Underlying Preference Share Reference Asset	**Initial Price**
STXE 600 Insurance EUR	320.78
STXE 600 Banks (EUR) Pr	149.32
STOXX Europe 600 Basic Resources Price EUR	569.22

- **Knock-in Barrier Percentage:** 65.00%.

- **Strike Price Percentage:** 100.00%.

- **Underlying Preference Share Reference Asset:** STOXX Europe 600 Insurance Price EUR, STOXX Europe 600 Banks Price EUR and STOXX Europe 600 Basic Resources Price EUR.

- **Worst Performing Underlying Preference Share Reference Asset:** the Underlying Preference Share Reference Asset with the lowest performance. The 'performance' of an Underlying Preference Share Reference Asset is calculated by dividing the Final Valuation Price of such Underlying Preference Share Reference Asset by its Initial Price.

Early redemption of the Underlying Preference Shares following an autocall event (phoenix):

If the closing level of the Worst Performing Underlying Preference Share Reference Asset observed in respect of an Autocall Valuation Date (Phoenix) is greater than or equal to its corresponding Autocall Barrier (Phoenix) in respect of such Autocall Valuation Date (Phoenix), the Underlying Preference Shares will be redeemed on the Autocall Early Redemption Date (Phoenix) immediately following such Autocall Valuation Date (Phoenix). In such an event, the value of the Underlying Preference Share will be equal to the Calculation Amount (being GBP 100.00) multiplied by the sum of (a) the number of occasions on which the fixed return condition is satisfied multiplied by the Fixed Return Percentage and (b) 100%, payable on the relevant Autocall Early Redemption Date (Phoenix).

The 'Autocall Barrier (Phoenix)' of each Underlying Preference Share Reference Asset is calculated as the Autocall Barrier Percentage(Phoenix) specified in the table below multiplied by the Initial Price of such Underlying Preference Share Reference Asset.

Autocall Valuation Date (Phoenix)	Autocall Early Redemption Date (Phoenix)	Autocall Barrier Percentage (Phoenix)
11 November 2022	21 November 2022	90.00%
13 February 2023	21 February 2023	90.00%
11 May 2023	19 May 2023	90.00%
11 August 2023	21 August 2023	90.00%
13 November 2023	21 November 2023	90.00%
12 February 2024	20 February 2024	85.00%
13 May 2024	21 May 2024	85.00%
12 August 2024	20 August 2024	80.00%
11 November 2024	19 November 2024	80.00%
11 February 2025	19 February 2025	75.00%
12 May 2025	20 May 2025	75.00%
11 August 2025	19 August 2025	75.00%

Early redemption in respect of the Securities

Securities may at the option of the Issuer (in the case of (i) or (ii)) or shall (in the case of (iii)) be redeemed earlier than the scheduled redemption date (i) if performance becomes unlawful or impracticable, (ii) following the occurrence of an additional disruption event which may include, but not be limited to, a change in applicable law or a currency disruption event, or (iii) following the occurrence of the redemption the Underlying Preference Shares (other than by scheduled redemption pursuant to its terms).

The early redemption amount due in respect of each Security will be calculated in the same way as if the Securities were redeemed on the scheduled redemption date save that for such purpose the final value in respect of the Underlying Preference Share shall be its value as of the day on which it is determined that the Security will be early redeemed, all as determined by the determination agent in good faith and in a commercially reasonable manner.

Status of the Securities: The Securities are direct, unsubordinated and unsecured obligations of the Issuer and rank equally among themselves.

Description of restrictions on free transferability of the Securities: Securities are offered and sold outside the United States to non-US persons in reliance on 'Regulation S' and must comply with transfer restrictions with respect to the United States. Securities held in a clearing system will be transferred in accordance with the rules, procedures and regulations of that clearing system. Subject to the foregoing, the Securities will be freely transferable.

Where will the Securities be traded?

Application is expected to be made by the Issuer (or on its behalf) for the Securities to be admitted to trading on the Regulated Market of the London Stock Exchange with effect from 18 November 2021.

What are the key risks that are specific to the Securities?

The Securities are subject to the following key risks:

- **Depending on the performance of the Underlying Preference Share, you could lose some or all of your investment**. The return on the Securities depends on the change in value of the Underlying Preference Share, which may fluctuate up or down depending on the performance of the Underlying Preference Share Reference Asset(s). Past performance of the Underlying Preference Share Reference Asset(s) should not be taken as an indication of future performance. If the value of the Underlying Preference Share on final valuation is less than upon initial valuation, you will lose some or all of your investment. The Securities may drop in value after issuance and therefore if you sell them prior to maturity in the secondary market (if any) you may lose some of your investment.

- **You are subject to the credit risk of the Issuer.** The payment of any amount due under the Securities is dependent upon the Issuer's ability to fulfil its obligations when they fall due. The Securities are unsecured obligations. They are not deposits and they are not protected under the UK's Financial Services Compensation Scheme or any other deposit protection insurance scheme. Therefore, if the Issuer fails or is otherwise unable to meet its payment obligations under the Securities, you will lose some or all of your investment.

- **Taxation risks:** The levels and basis of taxation on the Securities and any reliefs for such taxation will depend on your individual circumstances and could change at any time over the life of the Securities. This could have adverse consequences for you and you should therefore consult your own tax advisers as to the tax consequences to you of transactions involving the Securities.

- **Risks relating to the Underlying Preference Share Reference Asset(s)**:

  - As the Underlying Preference Share Reference Assets are equity indices the Underlying Preference Share may be subject to the risk of fluctuations in market interest rates, currency exchange rates, equity prices, inflation, the value and volatility of the relevant equity index, and also to economic, financial, regulatory, political, terrorist, military or other events in one or more jurisdictions, including factors affecting capital markets generally. This could have an adverse effect on the value of the Underlying Preference Share which, in turn, will have an adverse effect on the value of your Securities.

  - The value of the Underlying Preference Share depends on the level of the Underlying Preference Share Reference Asset(s) reaching or crossing a 'barrier' on a specified date. If the Underlying Preference Share Reference Asset(s) performs in such a way so that the Final Performance of the Worst Performing Underlying Preference Share Reference Asset is less than its Knock-in Barrier Percentage on such specified date, the value of and return on the Underlying Preference Share and, in turn, the Securities may be dramatically less that if the level of the Underlying Preference Share Reference Asset(s) had reached or crossed the 'barrier'.

  - You will be exposed to the performance of the Underlying Preference Share Reference Asset which has the worst performance, rather than the basket as a whole. Regardless of how the other Underlying Preference Share Reference Asset(s) perform, if the worst performing Underlying Preference Share Reference Asset fails to meet a relevant threshold or barrier, the value of and return on the Underlying Preference Share and, in turn, the Securities may be reduced and you could lose some or all of your investment.

- **Risks of a lack of secondary market or sale in such market:** There may not be a secondary market for the Securities and, therefore, you may not be able to sell them prior to their scheduled maturity or only for a substantial loss.

- **Reinvestment risk/loss of yield:** Following an early redemption of your Securities for any reason, you may be unable to reinvest the redemption proceeds at an effective yield as high as the yield on the Securities being redeemed which may have an adverse effect on your investment prospects.

- **Risks relating to potential adjustments to the terms of the Underlying Preference Share:** You will not have any rights in respect of the Underlying Preference Share or the Underlying Preference Share Reference Asset(s). The terms of the Underlying Preference Share may be adjusted in respect of, for example, valuation of the Underlying Preference Share Reference Asset(s) which may be exercised by the issuer of the Underlying Preference Share(s) in a manner which has an adverse effect on the market value and/or amount repayable in respect of the Securities.
