INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

PWCR25000627

To the Board of Directors and Shareholders of Taiwan Fu Hsing Industrial Co., Ltd.

Opinion

We have audited the accompanying consolidated balance sheets of Taiwan Fu Hsing Industrial Co., Ltd. and subsidiaries (the "Group") as at December 31, 2025 and 2024, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

In our opinion, based on our audits and the report of other auditors (please refer to the *Other matter* section), the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2025 and 2024, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of

China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. Based on our audits and the report of other auditors, we believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Group's 2025 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Group's 2025 consolidated financial statements are stated as follows:

Cut-off of export sales revenue recognition

Description

Please refer to Note 4(27) for accounting policies on revenue recognition.

The Group is primarily engaged in export. The sales revenue should be recognised when the entity has transferred to the buyer the control of the goods based on the terms of sales orders, contracts or other agreements. As the procedures for the timing of revenue recognition involves checking of sales situation and relevant documents, and those procedures were performed manually, it may have a significant effect on the appropriateness of revenue recognition near the end of the reporting period. Thus, we consider the cut-off of export sales revenue recognition as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

- A. We understood, assessed and tested the design and the execution of internal controls on revenue recognition; and
- B. We performed cut-off tests on export sales revenue for a certain period around balance sheet date, verified corroboration of sales revenue recognition, assessed the timing of revenue recognition based on trade terms to ensure the appropriateness of sales revenue recognition.

Allowance for inventory valuation losses

Description

Please refer to Note 4(13) for accounting policies on inventory valuation, Note 5 for the uncertainty of accounting estimates and assumptions applied on inventory valuation, and Note 6(5) for details of inventory valuation.

The Group recognised inventories at the lower of cost and net realisable value. As there are many types of inventory, the net realisable value which was used in the individual identification and valuation of obsolete or damage inventory, involved subjective judgement and uncertainty of estimation, thus, we consider the allowance for inventory valuation losses as a key audit matter.

How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

- A. We assessed the reasonableness of provision policies and procedures on allowance for inventory valuation losses, including inventory clearance, the reasonableness of obsolete inventory, and the consistency of accounting estimates; and

B. We verified that the information on the inventory valuation loss statement was consistent with its policies, randomly checked individual inventory number and inventory clearance, and then assessed the appropriateness of allowance for inventory valuation losses.

Other matter – Reference to the audits of other auditors

We did not audit the financial statements of certain subsidiaries which were audited by other auditors. Therefore, our opinion expressed herein, insofar as it relates to the amounts included in respect of these subsidiaries, is based solely on the reports of the other auditors. Total assets of these subsidiaries amounted to NT\$83,153 thousand and NT\$104,477 thousand, constituting 0.91% and 1.08% of the consolidated total assets as at December 31, 2025 and 2024, respectively, and the operating revenue amounted to NT\$17,361 thousand and NT\$17,701 thousand, constituting 0.24% and 0.22% of the consolidated total operating revenue for the years then ended, respectively.

Other matter – Parent company only financial reports

We have audited and expressed an unmodified opinion with other matter section on the parent company only financial statements of Taiwan Fu Hsing Industrial Co., Ltd. as at and for the years ended December 31, 2025 and 2024.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the Group's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgement and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

TAIWAN FU HSING INDUSTRIAL CO. LTD. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2025 AND 2024

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANIZATION

Taiwan Fu Hsing Industrial Co., Ltd. (the ‘Company’) was incorporated as a company limited by shares on November 23, 1957. The Company is engaged in the sales and manufacture of door locks and related accessories and furniture.

The Company has been a listed company since March 15, 1995.

The main activities of the Company and its subsidiaries (collectively referred herein as the ‘Group’) are provided in Note 4(3).

2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION

These consolidated financial statements were authorized for issuance by the Board of Directors on March 3, 2026.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS”) Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by the FSC and became effective from 2025 are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by International Accounting Standards Board</u>
Amendments to IAS 21, ‘Lack of exchangeability’	January 1, 2025

The above standards and interpretations have no significant impact to the Group’s financial condition and financial performance based on the Group’s assessment.

(2) Effect of new issuances of or amendments to IFRS Accounting Standards as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC effective from 2026 are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by International Accounting Standards Board</u>
Amendments to IFRS 9 and IFRS 7, ‘Amendments to the classification and measurement of financial instruments’	January 1, 2026

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 9 and IFRS 7, ‘Contracts referencing nature-dependent electricity’	January 1, 2026
IFRS 17, ‘Insurance contracts’	January 1, 2023
Amendments to IFRS 17, ‘Insurance contracts’	January 1, 2023
Amendment to IFRS 17, ‘Initial application of IFRS 17 and IFRS 9 – comparative information’	January 1, 2023
Annual Improvements to IFRS Accounting Standards—Volume 11	January 1, 2026

Except for the following, the above standards and interpretations have no significant impact to the Group’s financial condition and financial performance based on the Group’s assessment.

Amendments to IFRS 9 and IFRS 7, ‘Amendments to the classification and measurement of financial instruments’

Update the disclosures for equity instruments designated at fair value through other comprehensive income (FVOCI). The entity shall disclose the fair value of each class of investment and is no longer required to disclose the fair value of each investment. In addition, the amendments require the entity to disclose the fair value gain or loss presented in other comprehensive income during the period, showing separately the fair value gain or loss related to investments derecognised during the reporting period and the fair value gain or loss related to investments held at the end of the reporting period; and any transfers of the cumulative gain or loss within equity during the reporting period related to the investments derecognised during that reporting period.

(3) IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRS Accounting Standards as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 10 and IAS 28, ‘Sale or contribution of assets between an investor and its associate or joint venture’	To be determined by International Accounting Standards Board
IFRS 18, ‘Presentation and disclosure in financial statements’	January 1, 2027(Note)
IFRS 19, ‘Subsidiaries without public accountability: disclosures’	January 1, 2027
Amendments to IAS 21, ‘Translation to a Hyperinflationary Presentation’	January 1, 2027

Note: The FSC has announced in a press release on September 25, 2025 that public companies will apply IFRS 18 starting from the fiscal year 2028. Additionally, entities can choose to adopt IFRS 18 earlier based on their requirements after the FSC endorses IFRS 18.

Except for the following, the above standards and interpretations have no significant impact to the Group’s financial condition and financial performance based on the Group’s assessment.

IFRS 18, 'Presentation and disclosure in financial statements'

IFRS 18, 'Presentation and disclosure in financial statements' replaces IAS 1. The standard introduces a defined structure of the statement of profit or loss, disclosure requirements related to management-defined performance measures, and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the 'IFRSs').

(2) Basis of preparation

A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:

- (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
- (b) Financial assets at fair value through other comprehensive income.
- (c) Defined benefit assets and liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation.

B. The preparation of financial statements in compliance with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

(3) Basis of consolidation

A. Basis for preparation of consolidated financial statements:

- (a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.

- (b) Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.
- (d) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity.
- (e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognised in profit or loss. All amounts previously recognised in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognised in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

B. Subsidiaries included in the consolidated financial statements:

- C. Subsidiaries not included in the consolidated financial statements: None.
- D. Adjustments for subsidiaries with different balance sheet dates: None.
- E. Significant restrictions: None.
- F. Subsidiaries that have non-controlling interests that are material to the Group: None.

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan dollars, which is the Company's functional and the Group's presentation currency.

A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.

(d) All foreign exchange gains and losses are presented in the statement of comprehensive income within 'other gains and losses'.

B. Translation of foreign operations

The operating results and financial position of all the group entities, associates and jointly controlled entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

(a) Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;

(b) Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and

(c) All resulting exchange differences are recognised in other comprehensive income.

(5) Classification of current and non-current items

A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:

(a) Assets that are expected to be realised, or are intended to be sold or consumed in the normal operating cycle;

(b) Assets that are held primarily for the purpose of trading;

(c) Assets that are expected to be realised within twelve months after the reporting period;

(d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities for at least twelve months after the reporting period.

B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:

(a) Liabilities that are expected to be settled in the normal operating cycle;

(b) Liabilities that are held primarily for the purpose of trading;

(c) Liabilities that are due to be settled within twelve months after the reporting period;

(d) It does not have the right at the end of the reporting period to defer settlement of the liability at least twelve months after the reporting period.

(6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(7) Financial assets at fair value through profit or loss

A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income.

B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.

- C. At initial recognition, the Group measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.
- D. The Group recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(8) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:
 - (a) The objective of the Group's business model is achieved both by collecting contractual cash flows and selling financial assets; and
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:
 - (a) The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.
 - (b) Except for the recognition of impairment loss, interest income and gain or loss on foreign exchange which are recognised in profit or loss, the changes in fair value of debt instruments are taken through other comprehensive income. When the financial asset is derecognised, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss.

(9) Financial assets at amortised cost

- A. Financial assets at amortised cost are those that meet all of the following criteria:
 - (a) The objective of the Group's business model is achieved by collecting contractual cash flows.
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at amortised cost are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. Interest income from these financial assets is included in finance income using the effective interest method. A gain or loss is recognised in profit or loss when the asset is derecognised or impaired.

D. The Group's time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial.

(10) Accounts receivable and notes receivable

A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.

B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(11) Impairment of financial assets

For debt instruments measured at fair value through other comprehensive income and financial assets at amortised cost, at each reporting date, the Group recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognises the impairment provision for lifetime ECLs.

(12) Derecognition of financial assets

The Group derecognises a financial asset when one of the following conditions is met:

A. The contractual rights to receive the cash flows from the financial asset expire.

B. The contractual rights to receive cash flows of the financial asset have been transferred and the Group has transferred substantially all risks and rewards of ownership of the financial asset.

C. The contractual rights to receive cash flows of the financial asset have been transferred; however, the Group has not retained control of the financial asset.

(13) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in process comprises raw materials, direct labour, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

(14) Property, plant and equipment

A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.

- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance sheet date. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings and structures	25 ~ 55 years
Machinery and equipment	2 ~ 10 years
Molds	2 ~ 10 years
Other equipment	2 ~ 10 years

(15) Leasing arrangements (lessee) – right-of-use assets/ lease liabilities

- A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of fixed payments, less any lease incentives receivable.
The Group subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.
- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:
 - (a) The amount of the initial measurement of lease liability; and
 - (b) Any lease payments made at or before the commencement date.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

(16) Intangible assets

- A. Goodwill arises in a business combination accounted for by applying the acquisition method.
- B. Computer software is stated at cost and amortised on a straight-line basis over its estimated useful life of 3 to 5 years.
- C. Patent are initially recorded at cost and are amortised on a straight-line basis over its estimated useful life.

(17) Impairment of non-financial assets

- A. The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. Except for goodwill, when the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.
- B. The recoverable amounts of goodwill that have not yet been available for use shall be evaluated periodically. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. Impairment loss of goodwill previously recognised in profit or loss shall not be reversed in the following years.
- C. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units, or groups of cash-generating units, that is/are expected to benefit from the synergies of the business combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

(18) Borrowings

Borrowings comprise lone-term and short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

(19) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(20) Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability specified in the contract is discharged, cancelled or expires.

(21) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

(22) Non-hedge derivatives

Non-hedging derivatives are initially recognised at fair value on the date a derivative contract is entered into and recorded as financial assets or financial liabilities at fair value through profit or loss. They are subsequently remeasured at fair value and the gains or losses are recognised in profit or loss.

(23) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date, which is discounted using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to passage of time is recognised as interest expense. Provisions are not recognised for future operating losses.

(24) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expenses in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expenses when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plans

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The defined benefit net obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability.
- ii. Remeasurement arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.

C. Termination benefits

Termination benefits are employee benefits provided in exchange for the termination of employment as a result from either the Group's decision to terminate an employee's employment before the normal retirement date, or an employee's decision to accept an offer of redundancy benefits in exchange for the termination of employment. The Group recognises expense as it can no longer withdraw an offer of termination benefits or it recognises relating restructuring costs, whichever is earlier. Benefits that are expected to be due more than 12 months after balance sheet date shall be discounted to their present value.

D. Employees' bonus and directors' remuneration

Employees' remuneration and directors' remuneration are recognised as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is paid by shares, the Group calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

(25) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.

- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred income tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.
- D. Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred income tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realise the asset and settle the liability simultaneously.

(26) Dividends

Cash dividends are recorded as liabilities in the Company's financial statements in the period in which they are resolved by the Company's Board of Directors. Stock dividends are recorded as stock dividends to be distributed in the Company's financial statements in the period in which they are resolved by the Company's shareholders and are reclassified to ordinary shares on the effective date of new shares issuance.

(27) Revenue recognition

Sales of goods

- A. The Group manufactures and sells door locks and related accessories and furniture. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer based on the agreed terms, the customer has full discretion over the usage of the products, and there is no unfulfilled obligation. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.
- B. The products are often sold with sales discounts based on aggregate sales over a one-year period. Revenue from these sales is recognised based on the price specified in the contract, net of the estimated sales discounts. Accumulated experience is used to estimate and provide for the sales discounts using the expected value method. A refund liability (shown as ‘other payables’) is recognised for expected sales discounts payable to customers in relation to sales made until the end of the reporting period.
- C. The Group’s obligation to provide a refund for faulty products under the standard warranty terms is recognised as a provision.
- D. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(28) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision-Maker, who is responsible for allocating resources and assessing performance of the operating segments.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group’s accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

(1) Critical judgements in applying the Group’s accounting policies

None.

(2) Critical accounting estimates and assumptions

Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Group must determine the net realisable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technology innovation, the Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

As of December 31, 2025, the carrying amount of inventories was \$932,716.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	<u>December 31, 2025</u>	<u>December 31, 2024</u>
Cash:		
Cash on hand and petty cash	\$ 1,037	\$ 794
Checking and demand deposits	<u>1,265,250</u>	<u>1,229,139</u>

Cash equivalents:		
Time deposits	<u>438,966</u>	<u>1,352,254</u>
	<u>\$ 1,705,253</u>	<u>\$ 2,582,187</u>

A. The Group transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote. The Group's maximum exposure to credit risk at balance sheet date is the carrying amount of all cash and cash equivalents.

B. The Group has no cash and cash equivalents pledged to others.

(2) Financial assets at fair value through profit or loss-current

<u>Item</u>	<u>December 31, 2025</u>	<u>December 31, 2024</u>
Financial assets mandatorily measured at fair value

	<u>\$ 742,723</u>	<u>\$ 564,980</u>

A. The information on financial assets at fair value through profit or loss recognised in net gains and losses is provided in Note 6(21).

B. The Group entered into contracts relating to derivative financial assets which were not accounted for under hedge accounting. The information is listed below:

<u>Derivative financial instruments</u>	<u>December 31, 2025</u>	
	<u>Contract amount (notional principal)</u>	<u>Contract period</u>
Current items:		
Pre-sale forward foreign exchange contracts	<u>USD 1,000 thousand</u>	2026.01

There were no such transactions as of December 31, 2024.

The Group entered into forward foreign exchange contracts to sell US dollars to hedge exchange rate risk of export proceeds. However, these forward foreign exchange contracts are not accounted for under hedge accounting.

B. The Group has no financial assets at fair value through profit or loss pledged to others.

C. Information relating to credit risk of financial asset at fair value through profit or loss is provided in Note 12(2).

(3) Financial assets at amortised cost

<u>Items</u>	<u>December 31, 2025</u>	<u>December 31, 2024</u>
Current items:		
Restricted bank deposits	\$ 5,972	\$ 6,230
Time deposits with original maturity date	<u>92,148</u>	<u>344,472</u>
	<u>\$ 98,120</u>	<u>\$ 350,702</u>

A. Interest income from time deposits is recognised under interest income from bank deposits.

B. As at December 31, 2025 and 2024, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the financial assets at amortised cost held by the Group were \$98,120 and \$350,702, respectively.

C. Details of the Group's financial assets at amortised cost pledged to others as collateral are provided in Note 8.

D. Information relating to credit risk of financial assets at amortised cost is provided in Note 12(2). The counterparties of the Group's investments in certificates of deposits are financial institutions with high credit quality, so the Group expects that the probability of counterparty default is remote.

(4) Notes and accounts receivable

	<u>\$ 29,155</u>	<u>\$ 1,096,364</u>	<u>\$ 38,929</u>	<u>\$ 1,304,617</u>

The above ageing analysis was based on past due date.

B. As of December 31, 2025 and 2024, accounts receivable and notes receivable were all from contracts with customers. And as of January 1, 2024, the balance of receivables from contracts with customers amounted to \$1,736,308.

C. As at December 31, 2025 and 2024, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the Group's notes and accounts receivable were \$1,116,805 and \$1,335,271, respectively.

D. Information relating to credit risk of accounts receivable and notes receivable is provided in Note 12(2).

(5) Inventories

- A. No borrowing costs was capitalized for the years ended December 31, 2025 and 2024.
- B. The significant components of buildings include main plants and renovations, which are depreciated 40~55 and 25 years, respectively.
- C. Information on property, plant and equipment pledged to others as collaterals, please refer to Note 8.

D. In 2024, as the subsidiaries in Asia assessed that there is a decrease in the Group's expected future inflow of certain machinery and equipment, the recoverable amount of the above assets was less than its carrying amount, resulting in the impairment loss being recognized in profit or loss. In addition, as the Group gradually sold certain equipment, the impairment loss was reversed. Please refer to Note 6(21) Other gains and losses. There were no such transactions for the year ended December 31, 2025. On December 31, 2025 and 2024, the Group's balance of accumulated impairment both amounted to \$9,410.

(9) Lease transactions – lessee

- A. In March 2025, the Group leased the real estate located in Wanli West Section, Gangshan District, Kaohsiung City, and rental contracts are made for periods of 5 years. In December 2022, the Group leased the national land of Pingtung Technology Industrial Park from Pingtung Export Processing Zone Administration, Ministry of Economic Affairs, and rental contracts are made for periods of 10 years. In addition, the Group's subsidiary paid consideration for certain 50-year land use rights that were obtained from a local government in the People's Republic of China. The rental contract was determined based on mutual agreement and did not impose special covenants or agreements.
- B. The carrying amount of right-of-use assets and the depreciation charge are as follows:

	<u>December 31, 2025</u>	<u>December 31, 2024</u>
Land and building	\$ 86,236	\$ 75,122
	<u>2025</u>	<u>2024</u>

(15) Pensions

A. (a) The Company and its domestic subsidiaries have a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company originally contributed monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the

independent retirement fund committee. However, the labor pension reserves contributed by the Company and its domestic subsidiaries have accumulated to an amount which was sufficient to cover the labor pensions. Therefore, the suspension of contributions was reported to the respective competent authorities for the approval after being reviewed by the independent retirement fund committee of the Company and its domestic subsidiaries. The suspension of contributions was approved by the respective competent authorities in April 2025.

(d) The Bank of Taiwan was commissioned to manage the Fund of the Company's and domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company and its domestic subsidiaries have no right to participate in managing and operating that fund and hence the Company and its domestic subsidiaries are unable to disclose the classification of plan asset fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2025 and 2024 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.

(e) The principal actuarial assumptions used were as follows:

	<u>For the years ended December 31,</u>	
	<u>2025</u>	<u>2024</u>
Discount rate	<u>1.30%</u>	<u>1.60%</u>
Future salary increases	<u>3.00%</u>	<u>3.00%</u>

Future mortality rate was estimated based on the 6th Taiwan Standard Ordinary Experience Mortality Table.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discount rate		Future salary increases	
	Increase	Decrease	Increase	Decrease
	0.25%	0.25%	0.25%	0.25%
Effect on present value of defined benefit obligation				
December 31, 2025	(\$ 3,535)	\$ 3,635	\$ 3,025	(\$ 2,960)
December 31, 2024	(\$ 4,204)	\$ 4,328	\$ 3,654	(\$ 3,571)

The sensitivity analysis above was arrived at based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

- (f) The Group assessed that the labor pension reserves contributed had accumulated to an amount which was sufficient to cover the labor pensions. The contributions were expected to be suspended within one year.
- (g) As of December 31, 2025, the weighted average duration of the retirement plan is 5 ~ 8 years. The analysis of timing of the future pension payment was as follows:
- | | | |
|----------------------|----|---------|
| Within 1 year | \$ | 124,502 |
| Within 2 years | | 24,400 |
| Within 3 years | | 23,815 |
| Within 4 years | | 17,517 |
| Within 5 years | | 20,265 |
| Within 6 to 10 years | | 62,190 |
- B. (a) Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined contribution pension plan (the “New Plan”) under the Labor Pension Act, covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees’ monthly salaries and wages to the employees’ individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
- (b) Ziyong Hardware Products (Taicang) Co., Ltd., Arctek Security Technologies (Shanghai) Co., Ltd, Formflex Metal Industrial (Changshu) Co., Ltd., Fortress Door Control Product (Changshu) Co., Ltd. and Changshu Fortune Packing Material Co., Ltd. have a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People’s Republic of China (PRC) are based on certain percentage of employees’ monthly salaries and wages. Other than the monthly contributions, the Group has no further obligations.

(c) The pension costs under the defined contribution pension plans of the Group for the years ended December 31, 2025 and 2024 were \$54,449 and \$57,239, respectively.

(16) Share capital

A. As of December 31, 2025, the Company's authorized capital was 242,400 thousand shares (of which 10,000 thousand shares are reserved for the issuance of stock warrants, preferred shares with stock warrants and corporate bonds with stock warrants), at a par value of \$10 (in dollars) per share. One share has a voting right and the right to receive dividends, and the number of shares issued and for which the proceeds have been collected were both 150,762 thousand shares.

B. Movements in the number of the Company's ordinary shares outstanding are as follows:

	2025	2024
At January 1	188,452	188,452
Cash capital decrease	(37,690)	-
At December 31	<u>150,762</u>	<u>188,452</u>

C. On May 23, 2025, the shareholders of the Company at their annual shareholders' meeting resolved to reduce capital by 37,690 thousand shares, and the amount of capital reduction was 376,904. After the capital reduction, the paid-in capital was \$1,507,617. The case was approved by the Taiwan Stock Exchange under Tai-Zheng-Shang-Yi-Zi No. 1141803328, dated August 1, 2025. The capital reduction was set effective on August 8, 2025, and the registration for the change was completed on August 27, 2025. The share replacement due to the capital reduction was set effective on October 3, 2025.

(17) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(18) Retained earnings

A. Where the Company accrues profit every year, after paying all regulatory taxes and dues, 10% of the earnings should be set aside as legal reserve until the amount of legal reserve is equal to the amount of total capital. And set aside or reverse special reserve as required by the regulations when necessary.

When the Company appropriates special reserve in accordance with the laws, an equivalent amount of special reserve shall be set aside from the undistributed earnings of the prior year based on the insufficiency of the cumulative decrease of equity of the prior year before the earnings distribution. If it is insufficient to be set aside, the current post-tax profit plus the amount other than the current post-tax profit are included in the appropriation of the current unappropriated earnings.

After the provision or reversal of special reserve as required by the regulations, the appropriation of the remaining earnings along with the unappropriated earnings of prior years as accumulated distributable earnings for shareholders shall be proposed by the Board of Directors and approved by the shareholders.

The appropriation shall be proposed by the Board of Directors and resolved by the shareholders if the Company distributes dividends and bonus, legal reserve and capital surplus, in whole or in part, by issuing new shares; the appropriation shall be authorized to the Board of Directors, upon approval adopted by the majority vote at its meeting attended by two-thirds of the total number of directors, and then reported to the shareholders, if dividends and bonus, legal reserve and capital surplus, in whole or in part, are distributed in the form of cash.

The Company's dividend distribution policy aligns with the future development plan by taking into account of factors such as investment environment, capital needs, domestic and overseas competition, along with the consideration of shareholders' interest. Each year the dividend must not be less than 30% of earnings. The dividend and bonus can be distributed in cash or shares, among which the cash dividend must not be less than 50% of the appropriated dividend.

- B. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- C. (a) In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
- (b) The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Order No. Financial-Supervisory-Securities-Corporate-1010012865, dated April 6, 2012, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently.

In accordance with the abovementioned rules, the special reserve appropriated as a result of the Company's choice of reclassifying provision for land revaluation increment to retained earnings as of December 31, 2025 and 2024 were both \$48,991.

- D. On March 5, 2025, the Board of Directors resolved that total cash dividends for the distribution of earnings for the year of 2024 was \$584,202 at NT\$3.1 (in dollars) per share, and reported to the shareholders on May 23, 2025. On March 6 2024 the shareholders resolved that total cash dividends for the distribution of earnings for the year of 2023 was \$565,356 at NT\$3.0 (in dollars) per share, and reported to the shareholders on May 24, 2024.
- On March 3, 2026, the Board of Directors resolved that total cash dividends for the distribution of earnings for the year of 2025 was \$376,904 at NT\$2.5 (in dollars) per share.

12. OTHERS

(1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain the capital needed for expanding and upgrading plants and equipment, the Group's management shall ensure that there are necessary financial resources and operating plans to support operations, capital expenditures, research and development expenses, debt repayment and dividend payment in the next 12 months.

The Group uses debt ratio to control capital. The Group's policy is to maintain a stable debt ratio and the ratios are as follows:

B. Financial risk management policies

In order to control effectively and decrease financial risk, the directors of the Group focus on identifying, evaluating and hedging market uncertainties to minimise potential adverse effects from markets on the Group's financial performance. The risk includes market risk (including foreign exchange risk, interest rate risk and other price risk); credit risk and liquidity risk. Risk management is carried out by related segments under approved policies.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

- i. The Group operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the USD、RMB and THB. Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations. In order to prevent decrease in value of assets denominated in foreign currencies and estimated future cash flows fluctuation by foreign currency exchange, the Group hedges currency risk through derivative financial instruments (including forward exchange agreements). These derivative financial instruments assist in decreasing foreign currency fluctuation but cannot eliminate the impact.
- ii. The Group's strategic investment is to hold certain investments in foreign operations, thus, the Group does not hedge the investment.
- iii. The Group's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: RMB and THB). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

	December 31, 2025		
	Foreign currency amount (In Thousands)	Exchange rate	Book value (NTD)
(Foreign currency: functional currency)			
<u>Financial assets</u>			
<u>Monetary items</u>

Price risk

- i. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, it is expected that significant price risk would not happen as the Group had assessed the bearable price risk at the time of investing and managed with proper authorisation.
- ii. The Group's investments in equity securities comprise shares and open-end funds issued by the domestic companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased / decreased by 5% with all other variables held constant, post-tax profit for the years ended December 31, 2025 and 2024 would have increased/decreased by \$37,136 and \$28,249, respectively, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would have increased/decreased by \$20,779 and \$23,140, respectively, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.

Interest rate risk

The Group's long-term borrowings are floating-rate debt, therefore the effective interest rate of its long-term borrowings will vary according to changes in market interest rates, creating fluctuations in future cash flows. If the market interest rate decreases by 100 basis points, the cash outflows for the years ended December 31, 2025 and 2024, will decrease by \$1,956 and \$2,399, respectively.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of debt instruments stated at amortised cost.
- ii. The Group's treasury measures and control credit risk of deposits with banks, fixed investment income and other financial instruments. The Group's clients and performing parties are banks with good credit quality or financial institutions and companies with investment, thus, the possibility of default is remote and the credit risk is insignificant.
- iii. The Group manages their credit risk taking into consideration the entire group's concern. To maintain quality of accounts receivable, the Group has established procedures relating to credit risk management. Individual customers' risk assessment considers several factors that may influence the customers' ability to pay, such as the customer's financial position, historical transactions and current economic situation. Individual risk limits are set based on internal or external ratings in accordance with limits set by the sales department. The utilisation of credit limits is regularly monitored. When appropriate, the Company applies certain credit enhancement tools, such as collecting sales revenue in advance to reduce credit risk of specific customers.
- iv. The Group adopts the assumptions under IFRS 9, the default occurs when the contract payments are past due over 90 days.
- v. As of December 31, 2025 and 2024, the Group assesses the default possibility of accounts receivable for its customers: The provision for not past due and up to 30 days past due both were 0.01% and 0.10%, respectively; The provision for 31 to 360 days past due was 25%~50%; And the provision for past due over a year was 100%. In addition, as of December 31, 2025 and 2024, the Group's balance of receivables past due over 31 days constitutes 1.43% and 0.68%, respectively, of total receivables.
- vi. As of December 31, 2025 and 2024, notes and accounts receivables from the Group's top 3 customers constituted 68% of the Group's total notes and accounts receivables. The credit concentration risk of the remaining accounts receivable is relatively insignificant.

vii. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:

- (i) It becomes probable that the issuer will enter bankruptcy or other financial reorganization due to their financial difficulties;
- (ii) The disappearance of an active market for that financial asset because of financial difficulties;
- (iii) Default or delinquency in interest or principal repayments;
- (iv) Adverse changes in national or regional economic conditions that are expected to cause a default.

viii. Movements in relation to the Group applying the modified approach to provide loss allowance for accounts receivable are as follows:

	2025	2024
At January 1	\$ 8,275	\$ 2,078
Reversal of impairment loss	440	6,196
Others	(1)	1
At December 31	\$ 8,714	\$ 8,275

For provisioned loss in 2025 and 2024, the impairment losses arising from customer contracts is \$440 and \$6,196, respectively.

(c) Liquidity risk

The objectives for managing liquidity risk are maintaining cash and deposits needed for operations, high liquidity marketable securities and adequate borrowing credits to ensure the Company is financially flexible.

The table below analyses the Group's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities.

The amounts disclosed in the table are the contractual undiscounted cash flows.

(3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks and beneficiary certificates is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in derivative instruments is included in Level 2.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in equity investment without active market is included in Level 3.

B. Financial instruments not measured at fair value

The carrying amounts of cash and cash equivalents, financial assets at amortised cost, notes receivable, accounts receivable, other financial assets, short-term borrowings, notes payable, accounts payable, other payables, long-term borrowings (including current portion), lease liabilities and guarantee deposits received are approximate to their fair values.

C. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities is as follows:

(a) The related information of natures of the assets and liabilities is as follows:

<u>December 31, 2025</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Assets:				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through profit or loss

	<u>\$ 999,463</u>	<u>\$ -</u>	<u>\$ 28,322</u>	<u>\$1,027,785</u>
Liabilities:None				

(b) The methods and assumptions the Group used to measure fair value are as follows:

i. The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	<u>Listed shares</u>	<u>Open-end fund</u>
Market quoted price	Closing price	Net asset value

ii. Except for financial instruments with active markets, when assessing non-standard and low-complexity financial instruments, for example, forward foreign exchange contracts, the Group adopts valuation technique that is widely used by market participants. The inputs used in the valuation method to measure these financial instruments are normally observable in the market.

D. For the years ended December 31, 2025 and 2024, there was no transfer between Level 1 and Level 2.

E. For the years ended December 31, 2025 and 2024, there was no transfer into or out from Level 3.

F. The Group's treasury is in charge of valuation procedures for fair value measurements being categorised within Level 3 periodically, which is to evaluate and measure the fair value of financial instruments. The Group's equity securities for fair value measurements being categorised within Level 3 are investments in unlisted companies evaluated by net asset value method.

14. SEGMENT INFORMATION

(1) General information

In order to respond to objectives of providing services to clients, upgrading overall competition and globalization, except in Taiwan, the Company established operating bases in Mainland China and America to provide high speed and quality services. Management has determined the reportable operating segments based on reporting information used for normal performance management and strategic decisions reviewed and implemented, and the two geographical reportable operating segments are Asia and America.

(2) Measurement of segment information

The Group uses the operating profit as the measurement for operating segment profit and the basis of performance assessment.

(3) Information about segment profit or loss, assets and liabilities

The segment information provided to the Chief Operating Decision-Maker for the reportable segments is as follows:

	For the year ended December 31, 2025			
	Asia	America	Adjustment and elimination	Total
