Earnings after taxes	€k	38,430				38,430

EARNINGS POSITION

The development of the Bechtle Group in the first quarter of 2025 was adversely affected by the persistently difficult macroeconomic framework conditions. As expected, the start of the year was therefore subdued.

Incoming orders totalled €2,016 million in the first three months of 2025, which corresponds to slight growth of 2.9 per cent compared to the previous year (€1,959 million). March in particular showed first signs of improvement. The order backlog amounted to €2,605 million as at 31 March 2025, up by 1.9 per cent compared to 31 December 2024 (€2,556 million).

The business volume developed moderately and totalled €1,967.1 million in the first three months of 2025, up by 0.8 per cent to €1,951.0 million on the same quarter of the previous year. In organic terms, the business volume fell by 0.9 per cent. Revenue dropped by 2.8 per cent to €1,461.0 million between January and March 2025 compared to the same quarter of the previous year. The main reason for this development is the continued high proportion of software business in the business volume, which is only recognised in the amount of the margin in revenue in accordance with IFRS 15. In addition, the ongoing reluctance to invest on the part of our SME customers and – at least at the beginning of the year – the public-sector division is also evident. In organic terms, the decline in revenue was 5.0 per cent.

Group revenue

in €m

Internationally, we see slightly positive development supported by acquisitions with an increase in revenue of 1.3 per cent. Belgium, Italy, the Netherlands and the United Kingdom, in particular, recorded significant growth. In Germany, revenue fell by 5.8 per cent. The reluctance of SME and public customers to invest was particularly pronounced here.

Revenue by segments

Revenue – group and segments

in €k

	Q1/2025	Q1/2024	Change
Group	1,461,036	1,503,415	-2.8%
Domestic	820,840	871,242	-5.8%
Abroad	640,196	632,173	1.3%
IT System House & Managed Services	867,231	932,338	-7.0%
IT E-Commerce	593,805	571,077	4.0%

Gross profit fell by 3.1 per cent in the first quarter of 2025. The gross margin remained almost constant at 18.4 per cent, compared to 18.5 per cent in the same quarter of the previous year. The cost of materials fell by 4.4 per cent, due in particular to the product mix with a higher proportion of software, which we only recognise in the amount of the margin in revenue in accordance with IFRS 15. In contrast, however, personnel expenses and, in particular, depreciation and amortisation within the cost of sales rose more sharply.

Costs also increased in the two functional areas of sales and administration, due partly to higher depreciation and amortisation and higher personnel expenses. Distribution costs increased by 5.8 per cent. The distribution cost ratio increased from 7.2 per cent to 7.8 per cent. Administrative expenses increased by 9.3 per cent. The administrative expense ratio rose from 6.5 per cent to 7.3 per cent. Other operating income fell from €12.6 million to €9.5 million. The high prior-year figure was due to manufacturer grants for the implementation of the transformation of new IT infrastructures and technologies, which, as expected, were not repeated in this quarter.

EBITDA fell by 17.9 per cent compared to the same quarter of the previous year. The EBITDA margin was 6.6 per cent (previous year: 7.8 per cent).

Depreciation and amortisation increased significantly by 18.7 per cent, due partly to the acquisitions made and the higher investment volume in the previous year. Depreciation and amortisation of property, plant and equipment, which increased from €27.1 million to €32.2 million, continues to account for the majority of depreciation and amortisation.

EBIT fell by 32.1 per cent compared to the same quarter of the previous year, from €84.1 million to €57.2 million. The EBIT margin fell to 3.9 per cent, compared to 5.6 per cent in the same quarter of the previous year.

With almost constant financial earnings, EBT fell by 32.5 per cent to €55.3 million and the EBT margin fell from 5.5 per cent in the previous year to 3.8 per cent.

EBT and EBT margin

in €m and %

The tax rate in the first quarter of 2025 was slightly higher than in the previous year at 30.5 per cent.

Earnings after taxes of the shareholders of Bechtle AG fell by 33.6 per cent to €38.9 million. EPS therefore stood at €0.31.

EBIT and EBIT margin – group and segments

		Q1/2025	Q1/2024	Change in %
EBIT	€k	57,157	84,148	-32.1

IT System House & Managed Services	%	4.3	5.8	
IT E-Commerce	%	3.3	5.2	

ASSETS AND FINANCIAL POSITION

As of 31 March 2025, the balance sheet total of the Bechtle Group was €4,116.6 million, slightly lower than on 31 December 2024 (€4,217.3 million).

There were no major changes in non-current assets. They increased by €4.5 million and totalled €1,583.6 million at the end of the quarter.

Current assets fell by €105.1 million and totalled €2,533.0 million. Trade receivables in particular, were €109.4 million lower than at the end of the year. Cash and cash equivalents amounted to €555.2 million (31 December 2024: €643.1 million). In contrast, other assets increased by €52.1 million, partly because of higher VAT receivables.

The average days sales outstanding (DSO) of our receivables fell from 39.9 days to 39.4 days as of 31 March 2025 compared to the same period of the previous year. At €616.2 million, total liquidity (cash and cash equivalents including time deposits and securities) of the Bechtle Group is at a comfortable level.

Liquidity (incl. time deposits and securities)

Working capital increased by 11.3 per cent compared to 31 December 2024 and now stands at €624.3 million. The main reason for this development was the decline in trade payables.

On the liabilities side, there were only minor changes in non-current liabilities. They totalled €693.7 million, compared to €694.0 million at the end of the year. Current liabilities fell by €137.9 million to €1,470.3 million. This was due especially to trade payables, which fell by €162.5 million. Equity increased by €37.5 million compared to 31 December 2024, amounting to €1,952.6 million. The equity ratio increased accordingly from 45.4 per cent to 47.4 per cent. The annualised return on equity as of 31 March 2025 was 8.5 per cent (previous year: 14.3 per cent).

Equity ratio

Operating cash flow decreased compared to the same period last year and was negative at –€21.5 million in the first quarter due to seasonal factors. The cash inflow from trade receivables remained at a high level, albeit lower than in the same period of the previous year. The cash outflow due to the increase in inventories was slightly higher than in the same quarter of the previous year. However, the significant increase in cash outflow from trade payables was the main factor.

Free cash flow totalled –€45.4 million in the first quarter, compared to €27.1 million in the same period of the previous year. In addition to the lower operating cash flow, cash outflow for investments in intangible assets and property, plant and equipment increased. Reasons are amongst others the ongoing investments in real estate in the Bechtle Group as well as a larger leasing project for a customer.

Operating cash flow

in €m

PEOPLE AT BECHTLE

As at 31 March 2025, the Bechtle Group employed a total of 15,729 employees, including 815 trainees. Compared to 31 March 2024, the number of employees has thus increased by 484 people, an increase of 3.2 per cent. A significant proportion of the increase is attributable to acquisitions, at 370 colleagues, or 76 per cent. Excluding acquisitions, the increase in personnel is 0.7 per cent. Compared to 31 December 2024, the number of employees decreased by 72 or 0.5 per cent.

Employees in the group

In Germany, the increase in the number of employees was 249, or 2.3 per cent, while the number of employees at the international companies rose by 235 people, or 5.2 per cent.

Employees by regions

Converted to full-time equivalents (FTEs), an average of 15,253 employees worked for Bechtle in the first quarter of 2025 (previous year: 14,697), representing an increase of 556 people, or 3.8 per cent.

As at 31 March 2025, Bechtle had 815 young trainees, which is 54 more than in the same quarter of the previous year.

FORECAST

The economic and geopolitical situation has not changed significantly since the publication of our forecast in March 2025 and remains challenging. However, uncertainties have further increased, particularly with regard to US tariff policy and its potential impact on global trade.

In Germany, the ifo business climate index has risen in the first four months of the year in succession, but remains at a low level. Growth expectations for German gross domestic product for the current year have been revised downwards again. Stagnation is now predicted.

We at Bechtle are also feeling the effects of this difficult economic situation, marked by ongoing economic and rising geopolitical challenges. At the same time, we expect positive impetus over the course of the year from the formation of a new government in Germany, which has now been finalised and should ensure an increased willingness to invest, particularly among our public-sector division clients.

We continue to expect a significant upturn in our business with public-sector division clients in the second half of the year. The Executive Board therefore reaffirms the forecast for the 2025 fiscal year as published on pages 93 to 101 of the Annual Report in March 2025. This includes an expected growth in business volume of between 0 per cent and 5 per cent, revenue performance of between –3 per cent and +3 per cent, and a development in earnings before taxes (EBT) of between –5 per cent and +5 per cent. We expect the EBT margin to be slightly lower or constant compared to the previous year.
