The Company's revenues generated from sale of goods decreased by approximately \$47 million, or 50%, from approximately \$95 million for the quarterly period ended June 30, 2016 to approximately \$48 million for the same period ended June 30, 2017.

The Company's revenues generated from project development decreased by approximately \$19 million, or 100%, from \$19 million for the quarterly period ended June 30, 2016 to zero for the same period ended June 30, 2017 respectively.

The overall poor performance is primarily due to the impact of large volumes of imported beef unsettling the local beef industry, which led to poor performance in the following segments: concentrated live-stock feed and deboning of the imported beef and there is no service revenue derived from consulting and services this quarter primarily due to Triway's desire not to incur any capital expenditures until such time as it will have successfully obtained sufficient debt and/or equity financing to carry out future farm development.
