Central Registration System No	0309011471300010

### b. Activities

Doğuş Otomotiv, the representative of 13 international brands and 14 affiliated product groups, each of which is the leader in its own sector, including passenger cars, light commercial vehicles, heavy vehicles, industrial and marine engines, and cooling systems sectors, offers its individual and corporate customers a wide product portfolio that includes the Volkswagen Passenger Cars, Audi, SEAT, CUPRA, Škoda, Bentley, Lamborghini, Porsche, Volkswagen Commercial Vehicles, and Scania brands and more than 80 models of these brands. The company also competes with the Scania brand in the industrial and marine engines market, with the Thermo King brand in the cooling systems market, and with the Meiller brand in the semi-trailer tipper products market. The sales and servicing of semi-trailer products in Türkiye are also provided under the Wielton brand. In addition, under the DOD brand, Doğuş Otomotiv offers services to its used vehicles customers. As for after-sales services and spare parts procurement in the maritime sector, the company operates within a corporate structure under the Doğuş Marine Services brand. Additionally, sales and servicing of Novamarine brand boats and speedboats in Türkiye are offered. In 2023, Doğuş Şarj Sistemleri Pazarlama ve Ticaret A.Ş. commenced its operations in the establishment and operation of charging units, charging stations, a charging network, and the provision of charging services. Considering unconditional customer satisfaction its number one priority in the services it provides, Doğuş Otomotiv has the largest Authorized Dealer and Service network in Turkey. More than 680 customer service points spread all over the country offer Doğuş Otomotiv's customers extensive and uninterrupted sales, repair, and spare parts services.

In addition to its import and distributorship operations, Doğuş Otomotiv continues to operate in areas such as consumer finance, fleet management, spare parts and accessories sales, logistics and customer services, used vehicle sales, express service, vehicle inspection, and insurance, in line with its strategy of having a presence in all rings of the automotive value chain. With the Value and Care Center established in 2014 as a result of the efforts for achieving customer satisfaction, our company provides 24/7 roadside assistance to its customers.

Doğuş Otomotiv shares, which were offered to the public in 2004, are traded on the Borsa İstanbul (BIST) with the code "DOAS.IS". Our company has published its first Corporate Sustainability Report in 2009 and signed the United Nations Global Compact in 2010. As part of its product and service responsibility, our company has been engaging in social awareness activities for the past 20 years without interruption, starting with the slogan "Traffic is Life!" in 2004, in an attempt to raise awareness about safe driving in traffic. The program aligns with Goal 3.6 of the UN Sustainable Development Goals and continues to contribute to personal and social security through awareness initiatives on traffic safety in education and training settings.

Doğuş Otomotiv continued to be listed in the BIST Sustainability Index as of March 2024. In addition to the BIST Sustainability Participation Index, our company has been also listed in the BIST Sustainability 25 Index, which started to be published on November 21, 2022, and consists of large and liquid companies with a high sustainability performance.

Moreover, the company was awarded the title of the Second Company with the Highest Corporate Governance Rating by the Corporate Governance Association of Turkey in 2024, recognizing its commitment to corporate governance principles and its adherence to good practices.

### c. Information on Capital Structure and Partnership

The paid-in capital of our company, consisting of 220,000,000 shares with a nominal value of 1 TRY each, without different types of shares and privileges granted to certain shareholders, is 220,000,000 TRY and the registered capital ceiling is 1,000,000,000 TRY. No capital increase or issuance of any capital market instruments was made by our Company within the period.

Partner's Business Name	Capital Share

## 5 - DONATIONS

Donations made in accordance with the legislation and the "Donation and Charity Policy" on the website [www.dogusotomotiv.com.tr/en/home](http://www.dogusotomotiv.com.tr/en/home), approved by the General Assembly, amounted to 615,266 thousand TRY in the current period (March 31, 2023: 16,875 thousand TRY).

## **6 – NUMBER OF EMPLOYEES**

The average number of employees throughout the period was 2,032 (December 31, 2023: 2,074).

## **7 – RISK MANAGEMENT**

Our company's risk management approach signifies minimizing threats to the organization, personnel, and assets within rational and clearly documented methods, and increasing the effectiveness of the oversight duty. Early recognition of the causes that may endanger the existence, development, and continuation of the company, implementation of the necessary measures, evaluation of the opportunity areas, and effective management of risk are commanded and coordinated by the Early Risk Detection Committee. Risks that may arise in this context are monitored under the headings of "Financial Risks (summarized in note 23 of the financial statements) and Operational Risks and Other Risks".

## **8 – GENERAL ASSEMBLY INFORMATION**

a) Our Company's Ordinary General Assembly for the year 2023 was held on April 16, 2024 and the following summary decisions were taken. All of the decisions are available on the website: [www.dogusotomotiv.com.tr/en/home](http://www.dogusotomotiv.com.tr/en/home).

- ✓ The annual report and financial statements of the Board of Directors were approved.
- ✓ Members of the Board of Directors were released from liability.
- ✓ A decision was reached to distribute 9,000,000,000 TRY as cash dividends, with profit distribution commencing on April 19, 2024.
- ✓ The Board of Directors was set at 6 members, with the following individuals elected to serve: Mr. Emir Ali BİLAŁOĞLU for a term of 3 (three) years, Mr. Gür ÇAĞDAŞ for a term of 3 (three) years, Mr. Koray ARIKAN for a term of 3 (three) years and Ms. Özlem DENİZMEN KOCATEPE for a term of 3 (three) years, along with Mr. Adnan MEMİŞ (Independent Member) for a term of 2 (two) years and Ms. Adalet Yasemin AKAD (Independent Member) for a term of 1 (one) year.
- ✓ PwC Bağımsız Denetim ve Serbest Muhasebeci Mali Müşavirlik AŞ was selected as the independent auditor for the 2024 accounting period.
- ✓ It was decided that the Donations and Aid limit for the fiscal period would remain at 500,000,000 TRY, with 50% allocated to the 'Hatay TOKİ Social Housing' project under the coordination of the Disaster and Emergency Management Authority.

## **9 – AMENDMENTS TO THE ARTICLES OF ASSOCIATION MADE DURING THE YEAR**

No changes were made to our Company's articles of association during the period.

## **10 - CORPORATE GOVERNANCE AND SUSTAINABILITY PRINCIPLES COMPLIANCE STATEMENT**

### **Corporate Governance Principles**

The Corporate Governance Principles Compliance Statement is included in our annual report. In addition, the "Corporate Governance Compliance Report" (CRF), "Corporate Governance Information Form" (CGIF), and "Sustainability Principles Compliance Statement" were disclosed on the public disclosure platform. The information required to be included in the Annual Report as required by the Corporate Governance Reporting Framework has been also included. You may access the report on the website: [www.dogusotomotiv.com.tr/en/home](http://www.dogusotomotiv.com.tr/en/home).

Within the scope of public disclosure, in addition to the information that is required to be disclosed in accordance with the legislation, the trade registry information, the most recent partnership and management structure, the Board of Directors, information regarding the absence of preferred stocks, the date and number of the Trade Registry Gazettes in which the amendments were published, the final version of the Company's Articles of Association, material events disclosures, investor information presentations, financial reports, annual reports, prospectus, agendas of the General Assembly Meetings, list of attendees and meeting minutes, proxy voting form, internal directive, Dividend Distribution Policy, Information Policy, Remuneration and Compensation Policy, Repurchase of Shares Policy, Donation and Charity Policy, Sustainability Reports and Policies, Human Resources Policy, Code of Ethics created by the Company, and information requests, questions, and notices and answers given to them under the Frequently Asked Questions heading are published at the [www.dogusotomotiv.com.tr/en/home](http://www.dogusotomotiv.com.tr/en/home) website.

In addition, following the analysis of 456 criteria defined in the methodology prepared by Kobirate International Credit Rating and Corporate Management Services Corp. (Kobirate Uluslararası Kredi Derecelendirme ve Kurumsal Yönetim Hizmetleri A.Ş.), Doğuş Otomotiv has improved its score of 7.75 in 2010 to 9.76 in 2023 in the field of corporate governance, which it internalized and largely complied with its good practices.

### **Sustainability Principles**

Within the scope of the "Communiqué (II-17.1. a) on the Amendment of the Corporate Governance Communiqué (II-17.1)", published in the Official Gazette No. 31262 on October 2, 2020", explanations within the scope of sustainability principles harmonization framework have been added in the reports regarding compliance with corporate governance principles. Although the implementation of these principles is voluntary, the "Comply or Explain" principle renders it obligatory to report whether they have been implemented or not. It has started to be implemented as of the 2021 annual reports, including 2020 data, for the partnerships specified in the 5th paragraph of the 1st article of the Corporate Governance Communiqué numbered II-17.1. After the Doğuş Otomotiv Sustainability Principles Compliance Statement was first published in the 2020 Annual Report, it was included in the annexes of the 2021, 2022 and 2023 Annual Reports. In addition, our Company has published the Integrated Sustainability Report for the first time in 2021, updated the Sustainability Principles Compliance Statement, and published in the annex of the 2021 Integrated Sustainability Report. In July 2023, the 14th edition of the Integrated Sustainability Report was released, providing a comprehensive overview of our sustainability performance in 2022 to our stakeholders. The Sustainability Principles Compliance Statement was also updated and included in the appendix of the 2022 Integrated Sustainability Report.

Our Company, which published its first Corporate Sustainability Report in 2009 and signed the United Nations Global Compact in 2010, became a signatory to the United Nations Women's Empowerment Principles (UN WEPs) in 2022. For this reason, the UN WEPs index has been incorporated in the Appendices of the 2022 Integrated Sustainability Report.

Doğuş Otomotiv has included the United Nations Sustainable Development Goals index within the Sustainability Reports it has published since 2017 and disclosed the harmony of its areas of focus and its performances related to the principles that match its sphere of influence regarding 14 of these 17 objectives. In addition, Doğuş Otomotiv follows the methodology suggested by AccountAbility AA1000SES (Stakeholder Engagement Standard) as a guide when determining its priority areas of focus, key stakeholders, and the strategy of dialog platforms it maintains with all stakeholders. The company acts by taking into account the framework and principles of this standard in all its stakeholder engagement-oriented performances.

In addition, our company has received limited assurance from PwC for the last three years in line with the expectation of "Independent auditing of the data published in the report", which is principle requirement in the United Nations Global Compact Reporting Principles and global sustainability reporting standards. Doğuş Otomotiv also included the Global Automotive Sustainability Practical Guidance Index of the Automotive Industry Action Group (AIAG), which is supported by our most important stakeholders (OEMs), in its 2022 Integrated Sustainability Report. Indicators specific to our industry published by SASB (Sustainability Accounting Standards Board) are also included in the appendices of the report as an index for the second time after 2021. Doğuş Otomotiv will continue to publish reports in line with the SASB Index and strive to be among the leading companies in complying with the standards developed by IFRS.

Doğuş Otomotiv continues to be a role model in its sector in terms of managing the medium- and long-term risks that may arise from climate change and ensuring that necessary process improvements are made. In this direction, in addition to ISO 14001 Environmental Management System, ISO 50001 Energy Management System, ISO 9001 Quality Management System, ISO 45001 Occupational Health and Safety Management System and ISO 27001 Information Security Management Systems were successfully established in 2021, their certificates were received in the second quarter of 2022, and the transition to the Integrated Management System has been realized. In April and May of 2023, the first interim audits for ISO 9001, ISO 45001, ISO 50001, and ISO 27001, as well as the second interim audit for ISO 14001, were successfully conducted as part of the Integrated Management Systems. Doğuş Otomotiv's Integrated Sustainability Report, which also includes the 2021 GRI Standards Index and has been published in accordance with international standards, may be accessed on the company's website. Doğuş Otomotiv has prepared its 2022 Sustainability Report in accordance with the updated GRI Standards 2021 version, which follows the 2016 version.

Doğuş Otomotiv was among the six countries that participated as a pilot country in the GoToZero @Retail program, which Volkswagen AG initiated as a pilot across the globe in 2021. The second phase of the program was started in September 2022, while the program, which includes activities such as calculating carbon emissions and raising awareness about climate change, still continues at our Authorized Dealers and Services. In 2022, 54 dealers participated in the program. In 2023, the participation of 60 dealers is targeted. In addition, 2 authorized dealers and service centers participated in the pilot phase of the sustainability certification program initiated by Volkswagen AG. The program is currently in progress.

As of 2022, 11 Authorized Dealers and Services have embraced renewable energy through the Solar Power Systems (SPS) project, which involved a total investment of 2.4 million US dollars. The project has installed a total number of 14,469 panels, resulting in a power capacity of 5,914 kWp and an annual energy production of 9,631 MWh. Thanks to the SPS Project, our logistics operations now procure 115% of their electricity from renewable solar energy as of 2022.

Risk categorization and initial audits were completed in the Sustainable Supply Chain program. All of our suppliers categorized as high-risk underwent an audit, which included an assessment of their compliance with sustainability criteria.

In addition, as Doğuş Otomotiv, we have applied for the Zero Waste Certificate in the process managed by the Turkish Ministry of Environment and Climate Change to render our waste management more effective. According to the results of the environmental awareness survey conducted after the environmental and energy management training given to Doğuş Otomotiv employees in May 2022, 87% of our employees stated that they had close attention to ecological environmental pollution and that climate change is among the most important problems of the planet.

In addition, 3,587 hybrid vehicles were sold in 2022. The emission values for each brand per vehicle sold have been included in the Appendices of the 2022 Integrated Sustainability Report.

The Battery Repair Center, which will serve the Central and Eastern Europe region, has commenced operations at the Doğuş Oto Kartal venue. The plan is to expand the number of battery repair centers to 5 by 2024. In addition, in 2023, our Company (Doğuş Otomotiv) established Doğuş Şarj Sistemleri Pazarlama ve Ticaret A.Ş., a 100% owned subsidiary, to operate in the establishment, operation, and charging service of electric charging units, charging stations, and a charging network.

The workshop component of the program, which was initiated in 2022 to identify Doğuş Otomotiv's risks and opportunities related to human rights, began in 2023 and the company's priorities pertaining to human rights were determined by following a methodology consistent with the United Nations Guiding Principles on Business and Human Rights. Together with the 2022 Sustainability Report, our performance, and targets regarding human rights were disclosed in line with these priorities. In addition, Doğuş Otomotiv once again has held the areas of focus workshop in May 2023. Our company will update its priorities in line with the Double Materiality principle and will share its new targets with its stakeholders in this context.

## 11 – EXPECTATIONS FOR 2024

We predict that the total domestic automotive market sales will reach 900 thousand units in 2024. Accordingly, we expect our Company to sell over 105 thousand units during the calendar year (excluding Skoda). We also aim to continue our profitability-oriented approach for long-term success. While we try to strengthen operational efficiency and continue to monitor the prudent expense management structure in the light of all re-evaluated project and marketing plans, we plan to give more importance to digitalization projects for our investment plans and expect our spending amount to reach some 4.7 billion TRY. In the light of the effects of geopolitical risks and macroeconomic dynamics, we plan to reevaluate our predictions according to the exchange rate levels and the course of the economic conditions.

## 12 - DOĞUŞ OTOMOTİV'S DIGITAL TRANSFORMATION STRATEGY

The foundations of digital transformation works at Doğuş Otomotiv were initiated with the establishment of the Digital Transformation department in 2017, with the motto of identifying the current trends and customer expectations within the framework of operational excellence, and reconfiguring the future by redefining the value chain, and accelerated with the expansions made in the following years. As of 2019, agile project portfolio management, in which all digital and IT software projects across the Company were jointly evaluated, has been adopted and relevant roles and duties have been defined.

The development of a total of 15 digital projects was completed in 2019, 31 in 2020, and 64 in 2021, with a cumulative total of 73 by the end of 2022. By the end of 2023, the company had completed a total of 100 digital projects. Based on time, cost, and income projections, the estimated gain from software projects completed in 2022 amounts to around 133 million TRY. The gain from software projects completed in 2023, following those of 2022, is estimated at approximately 204 million TRY per year, based on time, cost, and income forecasts. Invested digital projects are analyzed from the perspective of dissemination and productization. While 20% of the projects completed in 2022 are considered productizable and 40% are disseminable, 16% of the projects completed in 2023 are considered productizable and 39% are disseminable.

Software development will continue at a similar pace and with similar efficiency targets in 2024. As of the first quarter of 2024, a total of 30 digital projects have been completed and software development works for 88 other projects have continued. Besides corporate applications implemented in various areas, from sales processes to finance, human resources processes, and logistics processes, we have implemented a range of projects using digital technologies such as RPA, IoT, BI, Web/Mobile, Generative AI (GenAI), Machine Learning, and Artificial Intelligence.

In line with the digital transformation vision and strategy, trainings and seminars, data analytics studies, and agile project management studies continue within the scope of the program to increase the digital competencies of employees. In line with this program, horizontal and vertical programs have been determined in order to increase awareness of digitalization and digital technologies throughout the company. While horizontal programs cover Digital Transformation Training, Vertical Programs focus on Data Science School, Robotic Process Automation (RPA), Customer Experience (UX/UI) and Trends, and Artificial Intelligence. The Digital Competence program, which started in 2021 under CO-DCTL Academy, continues in 2024, with an expanded training scope, taking into consideration the results of the company employees' digital awareness survey and training requests. Furthermore, topics such as GenAI, IoT, and BI are being incorporated.

Alongside these initiatives, "Data Strategy and Data Roadmap" studies were launched in 2021 to determine Doğuş Otomotiv's data processing strategies. With these efforts, it is aimed to develop data, use it correctly, manage its storage and destruction, increase its quality, establish systems (architecture) suitable for needs, and ensure maximum benefit from data analytics studies. These long-term studies, which are planned to manage data in an effective and professional manner in general, are carried out in a way that maximizes the use of data and technology. Within the scope of this roadmap, a total of 16 projects have been created, and efforts to implement the projects over a span of 2-3 years have been commenced.

As of the end of the first quarter of 2024, 14 out of 16 projects have been completed, while the work on 2 projects is ongoing. In addition to these projects, efforts on data sets and on data projects focusing on standardized data governance processes and creating value from data continue in line with the dissemination targets. Approximately 60 employees from Doğuş Otomotiv and Doğuş Technology played an active role in these processes.

As Doğuş Otomotiv, we have taken new steps with the responsibility of always carrying the value we place on information and information security a step further. In a world where digitalization is increasing day by day, the last of our efforts to protect, improve, and develop digitalization and all the processes it brings along with proven and verified methods has been the receipt of the DIN EN ISO 27001 Information Security Management Systems Certificate for Doğuş Otomotiv. With the ISO 27001 Certificate, Doğuş Otomotiv has proven the importance it places on information as an automotive company. This step, taken in line with the goal of continuous improvement, supported the documentation and announcement of 360-degree assurance in Doğuş Otomotiv's digitalization journey. Doğuş Otomotiv has been continuing its journey as the holder of the ISO 27001- Information Security Management Systems certificate as of July 2022.
