QUICKLY.
OpenAI, Amazon
strike \$38 billion pact

Amazon.com will supply OpenAI with cloud computing services under a multi-year \$38 billion deal, giving the ChatGPT maker access to hundreds of thousands of Nvidia graphics processors to train and run its artificial intelligence models. The agreement underscores the AI industry's surging appetite for computing power, driven by the pursuit of technology capable of matching or surpassing human intelligence. OpenAI will begin using Amazon Web Services immediately, with all planned capacity set to come online by the end of 2026. REUTERS

UPI transactions hit record
high of ₹27 lakh cr in Oct

New Delhi: Fuelled by festive buying, the transaction through the popular Unified Payments Interface (UPI) touched a record high of ₹27.28 lakh crore and 20.7 billion in value and volume terms, respectively, in October, according to data released by the National Payments Corporation of India (NPCI). In terms of value, the last highest recorded was ₹25.14 lakh crore in May, while in terms of volume, the last high was 20 billion in August. PTI

New Delhi

The garments and textiles industry, reeling under the effect of US import tariffs, has asked the government for a slew of measures, including tax concessions for new units, depreciation allowance, interest subvention and rationalisation of key schemes in recent pre-Budget consultations. “Representatives of the textiles and garments industry, including exporters, met the Textiles Secretary recently to give submissions on expectations from the Budget 2026-27. With the US tariffs giving a sharp blow to the Indian industry, the government was urged to provide both tax and non-tax relief in Budget 2026-27 as well as during the ongoing fiscal,” a source tracking the matter told *businessline*. **CRUCIAL SECTOR** The textile and garments sector is crucial for India as it provides employment to over 45 million people and its current size, at \$174 billion, is

Modi meets exporters amid global headwinds

TRADE ROADMAP. US tariffs, growth strategy among issues discussed

Amiti Sen
New Delhi

Prime Minister Narendra Modi met exporters from various labour-intensive sectors on Monday to discuss ways to increase the country's exports amidst global uncertainties and US tariff woes. “Representatives from various labour-intensive sectors such as apparel, leather, marine, handicrafts, engineering and gems & jewellery attended the meeting. They discussed the issues they faced in the global market, including the hit suffered due to US tariffs, and how the country's export com-

petitiveness could be enhanced,” sources tracking the matter told *businessline*. India's goods exports growth, which was almost flat in FY25 at \$437.42 billion, suffered a new set back in the form of US tariffs of 50 per cent that were imposed

SC to examine plea to ban online gambling, betting platforms

Krishnadas Rajagopal
New Delhi

The Supreme Court on Monday asked the Union government to respond to a petition to prohibit online gambling and betting platforms operating under the guise of social and e-sports games. A Bench of Justices JB

Pardiwala and KV Viswanathan agreed to hear the petition on Tuesday even as the counsel for Centre for Accountability and Systemic Change and Shourya Tiwari, advocate Virag Gupta, submitted that details of about 2,000 betting and gambling apps had been shared with the Centre. Gupta said the petition was focused on protecting

children from being exposed to such apps. The plea sought a direction to the Ministries of Electronics and Information Technology, Information and Broadcasting, Finance, and Youth Affairs and Sports “to do a harmonious interpretation of provisions of Promotion and Regulation of Online Gaming Act, 2025, and laws made by State legis-

tariffs on most Indian goods from August-end, the country's exports to the US declined about 12 per cent to \$5.46 billion in September. Per an analysis done by research body GTRI, India's exports to the US have dropped almost 37.5 per cent between May and September, wiping out more than \$3.3 billion in monthly shipment value “The data confirm that the US has become India's most severely affected market since the tariff escalation began, with sectors such as textiles, gems and jewellery, engineering goods, and chemicals suffering the heaviest losses,” the report noted.

latures to prohibit online gambling and betting games operating in the guise of social and e-sports games”. It said betting and gambling was regarded as an unlawful activity in the majority of the States. However, over 65 crore people were still playing these games, creating annual business of more than ₹1.8 lakh crore for betting platforms in India.

Garments, textile manufacturers seek tax breaks, export support

UNDER PRESSURE. Exports of textiles, garments and made-ups fell 37 per cent from \$944 million in May to \$597 million in September 2025

ditionally, the industry is facing ongoing global recessionary pressures and stiff competition from nations enjoying lower input costs and preferential market access,” according to the Apparel Export Promotion Council (AEPCC).

US IS KEY MARKET The US is India's largest export market for the sector, accounting for 28.97 per cent of textile and apparel exports of \$37.7 billion in 2024-25. The industry also recommended that the concessional tax rate of 15 per cent (under Section 115BAB of the Income Tax Act) be introduced again to support the sustained growth of new manufacturing companies within the Indian apparel industry and enhance their competitive edge in the international market. To strengthen the liquidity position and global competitiveness of Indian exporters, exporters proposed that an accelerated depreciation allowance of 100 per cent over two years be extended to export-oriented enterprises on eligible capital assets for tax

computation purposes. “As it only advances the timing of the depreciation claims, this measure will not result in any revenue loss to the government while giving exporters a short-term liquidity advantage. It will enable them to reinvest in modernisation, technology upgradation, energy efficiency, and capacity expansion,” the source said. The industry also submitted that duty-free import of trims and accessories under IGCRR (import of goods at concessional rates of duty) Rules should not be restricted to the ultimate exporter and to physical exports, excluding intermediate suppliers and deemed exports. “IGCRR benefits should be extended to intermediate suppliers and deemed exporters. It is requested that minimum wastage of 10 per cent be allowed under the IGCRR Rules for import of trimmings and accessories by issuing an appropriate notification. It is requested that IGCRR facility should also be allowed for the imports done under courier mode,” the AEPCC noted.

ED attaches ₹7,500 cr assets in money laundering probe against Anil Ambani

Our Bureau
New Delhi

The Enforcement Directorate (ED) on Monday said it has attached assets worth over ₹7,500 crore belonging to Reliance Group Chairman Anil Ambani, his group companies and linked entities as part of a money laundering investigation. The federal agency issued four provisional attachment orders under the Prevention of Money Laundering Act (PMLA) on October 31, covering 42 properties. Among them are, the 66-year-old industrialist's family residence in Pali Hill, Mumbai, and several residential and commercial assets of his group firms. On Monday, the ED issued a fifth order attaching 32 acres of land of Dhirubhai Ambani Knowledge City (DAKC) in Navi Mumbai, Maharashtra, worth ₹4,462 crore in the Reliance Communications Ltd. (RCOM) linked alleged bank fraud case.

Anil Ambani, Chairman of Reliance Anil Dhirubhai Ambani Group REUTERS

Mahal building, flats in BHA Millennium Apartments in Noida, and Camus Capri Apartments in Hyderabad. The total value of the attached assets is more than ₹7,500 crore, the agency said in a statement.

There was no immediate response from Anil Ambani or his group on the agency's action. The ED alleged that several companies of the Reliance Anil Dhirubhai Ambani Group (ADAG) — including RCOM, Reliance Home Finance Ltd (RHFL), Reliance Commercial Finance Ltd (RCFL), Reliance Infrastructure Ltd (R-Infra) and Reliance Power Ltd — were involved in the fraudulent diversion of public funds. A separate search under the Foreign Exchange Management Act (FEMA) against Reliance Infrastructure revealed that ₹40 crore was allegedly siphoned off from the Jaipur-Reengus highway project, the agency said. “Funds moved through Surat-based shell companies to Dubai. The trail has unearthed a wider international hawala network exceeding ₹600 crore,” it added. According to the ED, between 2010 and 2012, RCOM and its group companies raised thousands of crores from Indian banks, of

which ₹19,694 crore remains outstanding. These loans later turned non-performing, and five banks have declared RCOM's loan accounts as fraudulent, it said. **THE ALLEGATIONS** The agency alleged that loans taken by one entity were often used to repay borrowings of other group entities, or diverted to related parties and mutual fund investments — violating loan terms. “RCOM and its group companies diverted over ₹13,600 crore in evergreening loans, over ₹12,600 crore to connected parties, and over ₹1,800 crore into fixed deposits and mutual funds,” the statement said. Some loans, it added, were siphoned abroad through foreign remittances. The agency also linked the alleged irregularities to investments made by Yes Bank between 2017 and 2019. It said Yes Bank invested ₹2,965 crore in RHFL instruments and ₹2,045 crore in RCFL instruments, which later turned into non-performing investments. As of December 2019, the “outstanding” amounts stood at ₹1,353.5 crore for RHFL and ₹1,984 crore for RCFL. Reliance Infrastructure Ltd informed the stock exchanges that company assets have been provisionally attached by ED for the alleged violations under PMLA. “There is no impact on the business operations, shareholders, employees or any other stakeholders of Reliance Infrastructure Ltd,” the disclosure read as per company sources. It also informed that Anil D. Ambani is not on the Board of Reliance Infrastructure Ltd for more than 3.5 years.

Niva Bupa Health Insurance reports ₹35 crore net loss in Q2

Mithun Dasgupta
Kolkata

Standalone health insurance provider Niva Bupa Health Insurance Company on Monday reported a net loss of ₹35.27 crore for the second quarter this fiscal, as it posted an operating loss of around ₹62 crore for the same period. The company had posted a net profit of ₹13.02 crore for the same period last fiscal, when it registered an operating profit of ₹58.47 crore. On a quarter-on-quarter basis, the insurer's net loss narrowed in Q2FY26 compared

to ₹145.22 crore net loss in Q1FY26, according to a stock exchange filing. The company, in a statement, said its net profit for the second quarter of FY26 more than doubled to ₹62 crore from ₹24 crore for the corresponding period of FY25. During the period under review, gross premium written rose 3.69 per cent year-on-year at ₹1,843.07 crore as against ₹1,777.33 crore in the year-ago period. Net premium income grew 4.07 per cent y-o-y at ₹1,450.06 crore in Q2FY26. The company said for Q2FY26 it reported an overall GWP of

₹2,108 crore on a without 1/n basis. Commenting on the financial performance, Krishnan Ramachandran, MD & CEO, Niva Bupa Health Insurance, said, “Our Q2 performance reflects disciplined execution and strong operating leverage in our business. We are very encouraged by the sustained retail health growth and continued improvement in real-time quality of business metrics. The sharp improvement in claims settlement ratio to 95.2 per cent demonstrates the impact of our data science-led underwriting and integrated risk controls.”

Adani Power, Bangladesh opt for arbitration to resolve payment dispute

Avinash Nair
Ahmedabad

Adani Power said on Monday that the company, along with the Bangladesh Power Development Board (BPDB), will pursue an international arbitration process to resolve disagreements related to issues surrounding payments for electricity supplied to Bangladesh. “As per the PPA's dispute resolution mechanism, any difference in opinion over any aspect of the PPA, being an international contract, is to be resolved only through the international arbitration process. Currently, there are disagreements in the way certain cost elements are calculated and billed. Hence, both partners have agreed to invoke the dispute resolution process and are confident of a quick, smooth and mutually beneficial resolution,” Adani Power said in a statement shared with *businessline*. The company's ultra-supercritical 1600 MW Godda Thermal Power Plant in Jharkhand has been exporting all its electricity to Bangladesh.

While the move aims to address ongoing financial disputes and ensure a transparent resolution between Adani Power and BPDB regarding cross-border power trade agreements, Adani Power said it will continue to supply to Bangladesh in accordance with the Power Purchase Agreement (PPA). “Adani Power continues to meet its supply commitment to the Bangladesh Power Development Board (BPDB) in accordance with the PPA and their supply schedule. Adani Power has been receiving regular payments from the BPDB to the extent admitted by them... Adani Power reaffirms its commitment to the PPA and will continue to support Bangladesh by supplying reliable, cost-competitive and high-quality power,” the company added. Under a 25-year PPA with Bangladesh, the plant was last hit by payment arrears exceeding \$500 million from Bangladesh's power utility. The businessline had last week reported that most of the outstanding dues have been paid by Bangladesh and only half a month of payment is currently due.
