Dalal Street,  
Mumbai-400001.

Dear Sirs,

**Sub.: News clarification – lockout at the Padubhidri blade manufacturing unit ("RBU").**

This is to inform and clarify as under:

1. The unruly action and behaviour of certain workers has caused hindrance in the smooth operation of the plant. After several attempts and exploring various peaceful solutions to resolve the matter, the Company was constrained and compelled to give a notice to suspend the operations and declare a lockout, effective from 29<sup>th</sup> November 2017 at the RBU to safeguard our people and the property.
2. Thus, the decision to suspend the operations is not due to business compulsions but on account of industrial relations.
3. Apart from Padubhidri, the Company has rotor blade manufacturing units spread across 6 other locations Pan-India comprising of ~2800 MW capacity. Thus, the suspension of operations at the RBU will not impact our current business activities in any manner.
4. The Company would continue its endeavours for peaceful solution and to reinstate the operations of the RBU.

Hope the above clarifies.

Thanking you,

Yours faithfully,  
**For Suzlon Energy Limited**
