**Press Release**

## **Inox Wind Wins Repeat Order from Roha Dyechem for 40 MW**

- **Order Features Inox's Revolutionary 113 meter rotor dia Turbine**
- **Project Scheduled to be Commissioned by March 2017**

**Noida, 17<sup>th</sup> November 2016:** Inox Wind Limited, one of India's leading wind energy solutions providers, has bagged a repeat order for a 40 MW wind power project to be deployed in the state of Gujarat from Roha Dyechem Private Limited. Established in 1972, Roha Dyechem Private Limited (RDPL) is one of the fastest growing manufacturers of natural & synthetic colours, specializing in the food & beverage, paints, fertilizers, cosmetics and pharmaceutical industries. RDPL has diversified its activities in Renewable Energy, as one of the emerging sectors of its business in the years to come. RDPL has already successfully invested in an aggregate of 52.5 MW of Solar Energy and 13.5 MW in Wind Energy and further plans to reach a combined milestone of 500 MW at various locations.

The project is scheduled to be commissioned by March 2017 and will be executed on turnkey basis. The 40 MW order from Roha is part of the 350 MW of orders announced by Inox Wind on 3<sup>rd</sup> October 2016.

The order comprises of supply and installation of 20 units of Inox Wind's pioneering 113 meter rotor diameter turbine. The 113 meter rotor diameter turbines are part Inox's successful 2 MW platform and presently the company's most technologically advanced wind turbine variant.

As part of the turnkey order, Inox Wind will provide Roha Dyechem with end to end solutions from development and construction to commissioning and providing long term operations and maintenance services.

*"We are delighted with the repeat order from an esteemed customer like Roha Dyechem. With the new order, we will further build on our strong relationship with them as well as our market position in Gujarat as the leading wind energy solutions provider in the state. We are pleased to further build on the success of Inox's 2 MW platform in India."* said **Mr. Kailash Tarachandani, Chief Executive Officer of Inox Wind Limited** in his statement.

*"The group believes in sincerely contributing towards a cleaner, greener and safer planet, while pursuing the goal of helping to create a better place for people to live in. We have found a reliable partner in Inox and are assured by Inox's capability in delivering a sustainable and quality project for us" said Mr. Ramakant Tibrewala, Chairman Roha Group in his statement*

**ABOUT INOX WIND:**

Inox Wind is India's leading wind energy solutions provider servicing IPPs, Utilities, PSUs, Corporates and Retail Investors. Inox Wind is a fully integrated player in the wind energy market with three state-of-the-art manufacturing plants in Gujarat, Himachal Pradesh and Madhya Pradesh. The plant near Ahmedabad (Gujarat) manufactures Blades & Tubular Towers while Hubs & Nacelles are manufactured at the company's facility at Una (Himachal Pradesh). The new integrated manufacturing facility at Barwani (Madhya Pradesh) manufactures blades, towers and will manufacture nacelles and hubs. The facility at M.P., which will be amongst the largest in the world, has doubled Inox Wind's manufacturing capacity to 1,600 MW per annum.

IWL manufactures key components of WTGs in-house to maintain high quality, most advanced technology, reliability and cost competitiveness. IWL has obtained ISO 9001:2008, ISO 14001:2004, OHSAS 18001 and ISO 3834 certifications for its management systems pertaining to manufacturing, installation, commissioning and O&M of wind turbines.

IWL offers complete end to end solutions from concept to commissioning. Besides manufacturing and supply of WTGs, IWL offers services including wind resource assessment, site acquisition, infrastructure development, erection and commissioning, and long term O&M of wind power projects.
