## **REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**To the Board of Directors of  
Koza Anadolu Metal Madencilik İşletmeleri Anonim Şirketi**

### **Introduction**

We have reviewed the accompanying interim condensed consolidated statement of financial position of Koza Anadolu Metal Madencilik İşletmeleri Anonim Şirketi (the Company) and its subsidiaries (collectively referred to as the "Group") as of June 30, 2023 and the interim condensed consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and the consolidated statement of cash flows for the six-month period then ended, and explanatory notes. Group management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with Turkish Accounting Standard 34, Interim Financial Reporting (TAS 34). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

### **Scope of Review**

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim consolidated financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an audit conducted in accordance with Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Basis for Qualified Conclusion**

- 1) As explained in detail in note 11, pursuant to the decision of the Ankara 5th Criminal Court of Peace dated October 26, 2015, the management of the Company was transferred to the Board of Trustees and then to the Savings Deposit Insurance Fund ("SDIF") on September 22, 2016, and various examinations and studies are continuing before the Group by the Prosecutor's Office, the Police Financial Crimes Branch and the CMB as of the balance sheet date. Regarding the reports that will constitute the basis of the relevant decision and the status of the ongoing legal process, we could not obtain sufficient and appropriate audit evidence as to whether any correction is required in the financial statements of the Group.

**Building a better  
working world**

- 2) As explained in detail in Note 5, the control over the Group's UK-based subsidiary Koza Ltd was lost as a result of the General Meeting of the Company on September 11, 2015 and its registration in England on November 2, 2015. The legal process initiated by the CMB regarding loss of control pursuant to its decision dated February 4, 2016 continues as of the date of this report. Due to the fact that the Group could not present the fair value determination work to be done in accordance with the provisions of TFRS 9 - Financial Instruments Standard, since the shares of the Company are accounted as financial assets and TFRS 10 - Consolidated Financial Statements Standard after loss of control, we could not obtain sufficient appropriate audit evidence as to whether any adjustments to the financial statements are necessary.

#### **Emphasis of Matter**

We draw attention to Note 22 explaining that the independently audited consolidated financial statements of the Group for the years ended December 31, 2016, 2017, 2018, 2019, 2020, 2021 and 2022 were approved and published by the Board of Directors with the resolutions dated April 24, 2018, April 30, 2018, February 28, 2019, February 27, 2020, March 1, 2021, March 1, 2022 and March 1, 2023 respectively by excluding the possible cumulative reflections of the works and transactions belonging to the previous financial periods on the tables in accordance with the provisions of Article 401/4 of the Turkish Commercial Code No. 6102 ("TCC"). Independently audited consolidated financial statements for the year ended December 31, 2015, on the other hand, were not approved by the Board of Directors in accordance with the provisions of Article 401/4 of the TCC. Ordinary general assembly meetings of the Company for the years 2015, 2016, 2017, 2018, 2019, 2020, 2021 and 2022 could not be held due to the reasons stated in the paragraph of the basis for qualified conclusion and the consolidated financial statements of the relevant periods could not be submitted to the approval of the General Assembly. However, this issue does not affect the result announced by us.

We also draw attention to Note 12, which explains the decision of the Supreme Court 3rd Criminal Chamber dated April 14, 2023 and numbered 2023/2215, regarding the transfer of the Group's shares to the Treasury by confiscation, without prejudice to the rights of the Group's bona fide shareholders and third parties.

However, the above-mentioned matters do not affect our opinion.

Building a better  
working world

### Qualified Conclusion

Based on our review, with the exception of the matters described in the Basis for Qualified Conclusion paragraph, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with TAS 34.

Koza Altın İşletmeleri A.Ş., a subsidiary of the Group, established UK-based Koza Ltd., which owns 100%, in order to establish abroad mining ventures on March 31, 2014. The control of Koza Ltd, which the Company was consolidated until September 11, 2015, was lost as a result of the General Assembly held on September 11, 2015. The legal process initiated by the CMB regarding loss of control pursuant to decision dated February 4, 2016 continues as of the date of the consolidated financial statements. Under condensed consolidated financial statements, the Group has presented Koza Ltd. under the "Financial Investments" account with a cost value amounting to Thousand TL 218.325 (December 31, 2022: Thousand TL 218.325).

Group's consolidated participations located in Turkey until December 31, 2015, Bugün Televizyon Radyo ve Perakende A.Ş., Yaşam Televizyon Yayın Hizmetleri A.Ş. ve Koza İpek Basın ve Basım Sanayi ve Ticaret A.Ş. and subsidiaries Koza Prodüksyon ve Ticaret A.Ş., Rek-Tur Reklam Pazarlama ve Ticaret Ltd. Şti. ve İpek Online Bilişim Hizmetleri Ltd. Şti. has not been included in the scope of consolidation since 2016 due to the official cancellation of the trade registry record with the Decree Law in 2016.

As of June 30, 2023, the number of employee is 2.776 (December 31, 2022: 2.821 people).

**Approval of condensed consolidated financial statements**

The condensed consolidated financial statements dated June 30, 2023 were approved by the Board of Directors and authorized to be published on August 9, 2023.

**2. Basis of presentation of consolidated condensed financial statements**

**2.1 Basis of presentation**

**Financial reporting standards**

The Company and its subsidiaries established in Turkey, prepare its financial statements in accordance with the Turkish Commercial Code (TCC) numbered 6102, tax legislation and the Uniform Chart of Accounts published by the Ministry of Finance.

The accompanying condensed consolidated financial statements are prepared in accordance with the requirements of Capital Markets Board ("CMB") Communiqué Serial II, No: 14.1 "Basis of Financial Reporting in Capital Markets", which were published in the Resmi Gazete No:28676 on June 13, 2013. The accompanying condensed consolidated financial statements are prepared based on the Turkish Financial Reporting Standards and Interpretations ("TAS/TFRS") that have been put into effect by the Public Oversight Accounting and Auditing Standards Authority ("POA").

The accompanying notes form an integral part of these financial statements.

for the periods ended June 30, 2023

(All amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

**2. Basis of presentation of consolidated condensed financial statements**

**2.1 Basis presentation (continued)**

The consolidated condensed consolidated financial statements and notes are presented in accordance with the "2019 TAS Taxonomy" announced by the POA with the principle decision dated June 7, 2019. The condensed consolidated financial statements are based on legal records and expressed in TL, and have been prepared by subjecting to some corrections and classification changes in order to present the Group's status according to TAS and TFRS.

**Foreign currency**

*Functional and reporting currency*

The condensed consolidated financial statements are presented in TL, which is the functional currency of the Group and the presentation currency of the Group.

*Foreign currency transactions and balances*

Foreign currency transactions have been converted over the exchange rates valid on the dates of the transaction. Monetary assets and liabilities based on foreign currency are converted using the exchange rates valid on the date of the statement of financial position. Exchange difference income or expense arising from foreign currency-based operational transactions (trade receivables and debts) is presented under the "other income / expenses from operating activities", while the exchange difference income or expense arising from the translation of other foreign currency based monetary assets and liabilities is presented under "finance income / expenses" in the statement of profit or loss.

**Adjustment of Financial Statements in High Inflation Periods**

TAS 29 Financial Reporting in Hyperinflation Economies requires entities whose functional currency is that of a hyperinflationary economy to prepare their financial statements in terms of the measuring unit current at the end of the reporting period. TAS 29 describes characteristics that may indicate that an economy is hyperinflationary, and it requires all entities that report in the currency of the same hyperinflationary economy apply this Standard from the same date. Therefore, it is expected that TAS 29 will start to be applied simultaneously by all entities with the announcement of Public Oversight Accounting and Auditing Standards Authority to ensure consistency of the application required by TAS 29 throughout the country. However, the Authority has not published any announcement that determines entities would restate their financial statements for the accounting period ending on June 30, 2023 in accordance with TAS 29. In this context, TMS 29 is not applied, and inflation adjustment has not been reflected in the condensed financial statements as of June 30, 2023.

**Going concern**

The Group has prepared its condensed consolidated financial statements according to the going concern principle.

**Declaration of conformity to TFRS**

The Group has prepared its condensed consolidated financial statements for the period ending on June 30, 2023, in accordance with the CMB's Communiqué Serial: II-14.1 and its announcements clarifying this communiqué. The condensed consolidated financial statements and notes are presented in accordance with the formats recommended by the CMB and including the required information.

**2. Basis of presentation of consolidated condensed financial statements (continued)**

**2.1 Basis presentation (continued)**

**Comparative information and correction of previous period financial statements**

The financial statements of the Group are prepared in comparison with the previous period in order to allow the determination of financial status and performance trends. In order to comply with the presentation of the current period financial statements, comparative information is reclassified when necessary and significant differences are explained. The classification made in the profit or loss and other comprehensive income statement of the Group's of 30 June 2023 is as follows;

- Advertising expenses amounting to TL 33.626 thousand, which were accounted for under general administrative expenses in the income statement on 30 June 2022, were reclassified as marketing, sales and distribution expenses.

**2.2 Consolidation principles**

(a) Consolidated financial statements include the accounts of the Company and its subsidiaries prepared according to the principles stated below. During the preparation of the financial statements of the companies included in the scope of consolidation, necessary corrections and classifications were made in terms of compliance with TFRS and the accounting policies and presentation styles applied by the Group.

(b) The subsidiaries controlled by the company has been included in the consolidated financial statements by full consolidation method. Control is provided only when all of the following indicators are present on the enterprise in which the Company invests;

- a) has power over the enterprise in which it invests,
- b) is exposed to or is entitled to varying returns due to its relationship with the investee,
- c) has the ability to use its power over the investee to influence the amount of returns it will generate.

During the consolidation process, the registered participation values of the shares owned by the Company and its subsidiaries were netted mutually with the relevant equities. Intra-group transactions and balances between the Company and the subsidiaries have been netted during the consolidation process. The registered values of the shares owned by the Company and the dividends arising from them have been netted from the relevant equity and profit or loss statement accounts. The subsidiaries have been included in the scope of consolidation as of the date the control over its activities was transferred to the Group.

Şti. has not been included in the scope of consolidation since 2016 due to the official cancellation of the trade registry record with the Decree Law in 2016.

**2.3 Accounting policies, changes in accounting estimates and errors**

Accounting policy changes arising from the implementation of a new TAS / TFRS for the first time are applied retrospectively or prospectively in accordance with the transition provisions of the TAS / TFRS, if any. If there is no transition requirement, significant optional changes in accounting policies or detected accounting errors are applied retrospectively and the financial statements of the previous period are restated. Changes in accounting estimates are applied in the current period when the change is made if they are related to only one period, and if they are related to future periods, they are applied both in the period of change and prospectively.

**2.4 The new standards, amendments and interpretations**

The accounting policies adopted in preparation of the consolidated financial statements as of June 30, 2023 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRS interpretations effective as of January 1, 2023 and thereafter. The effects of these standards and interpretations on the Group's financial position and performance have been disclosed in the related paragraphs.

**i) The new standards, amendments and interpretations which are effective as of January 1, 2022 are as follows:**

- Amendments to TAS 8 - Definition of Accounting Estimates
- Amendments to TAS 1 - Disclosure of Accounting Policies
- Amendments to TAS 12 – Deferred Tax related to Assets and Liabilities arising from a Single Transaction

The amendments did not have a significant impact on the financial position or performance of the Group.

**ii) Standards issued but not yet effective and not early adopted**

Standards, interpretations and amendments to existing standards that are issued but not yet effective up to the date of issuance of the consolidated financial statements are as follows. The Group will make the necessary changes if not indicated otherwise, which will be affecting the consolidated financial statements and disclosures, when the new standards and interpretations become effective.

- Amendments to TFRS 10 and TAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture
- TFRS 17 - The new Standard for insurance contracts
- Amendments to TAS 1- Classification of Liabilities as Current and Non-Current Liabilities
- Amendments to TFRS 16 - Lease Liability in a Sale and Leaseback

Overall, the Group expects no significant impact on its balance sheet and equity.

**2. Basis of presentation of consolidated condensed financial statements (continued)**

**2.4 The new standards, amendments and interpretations (continued)**

**iii. The new amendments that are issued by the International Accounting Standards Board (IASB) but not issued by Public Oversight Authority (POA)**

The following amendments to IAS 12 as well as IAS 7 and IFRS 7 are issued by IASB but not yet adapted/issued by POA. Therefore, they do not constitute part of TFRS. The Group will make the necessary changes to its consolidated financial statements after the amendments are issued and become effective under TFRS.

- Amendments to IAS 12 - International Tax Reform – Pillar Two Model Rules
- Amendments to IAS 7 and IFRS 7 - Disclosures: Supplier Finance Arrangements

Overall, the Group expects no significant impact on its balance sheet and equity.

**2.5 Summary of significant accounting policies**

Consolidated financial statements for the period ending on June 30, 2023 have been prepared in accordance with TAS 34 standard for the preparation of consolidated financial statements of TAS / TFRS.

The consolidated financial statements for the period ending on June 30, 2023 have been prepared by applying accounting policies consistent with the accounting policies applied during the preparation of the financial statements for the year ending on December 31, 2022. Therefore, these consolidated financial statements should be evaluated together with the financial statements for the year ended December 31, 2022.

**2.6 Significant accounting judgments estimates and assumptions**

In the preparation of condensed consolidated financial statements, the Group management requires the use of estimates and assumptions that may affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and the amounts of income and expenses reported during the accounting period. Accounting judgments, estimates and assumptions are continuously evaluated by considering past experience, other factors and reasonable expectations about future events under current conditions. Necessary corrections are made and presented in the profit or loss statement in the period when it realized. Although these estimates and assumptions are based on management's best knowledge of current events and transactions, actual results may differ from their assumptions.

a) Mining assets consists of mine site development costs, mining rights, mining lands, deferred stripping costs and discounted costs associated with the improvement, rehabilitation and closure of mine sites. Mining assets are accounted in the consolidated financial statements with their net book value after deducting the accumulated depreciation and permanent impairment, if any, from their acquisition costs. Mining assets start to be amortized on a production basis according to producible ore reserve with the commencement of production. The depreciation expenses of the mining assets are associated with the production costs on the basis of the relevant mining sites.

Within the scope of long-term plan studies, which are regularly updated, the Group conducts studies to determine the remaining reserves of mining assets, revising the possible effects of employee benefit obligations, production-based depreciation calculations, and rehabilitation provisions within this scope.

**2. Basis of presentation of consolidated condensed financial statements (continued)**

**2.6 Significant accounting judgments estimates and assumptions (continued)**

The Group management reviews the estimates made in relation to the visible and probable mineral reserves in each balance sheet period. In certain periods, the Group management has independent professional valuation companies make valuation studies in accordance with the Australian Exploration Results, Mineral Resources and Gold Reserves 2012 Standards ("JORC") to determine the amount of visible, possible and probable mineral reserves and It is updated by or under the supervision of persons who have the competencies specified in. The reserves and resource amounts in question have been audited and approved by the independent professional valuation company "SRK Consulting" in line with the "JORC" standards as of 31 December 2022. Inspection of reserves and resources according to UMREK standards has been completed and approved.

Within the scope of these studies, the assumptions and methods used in determining the mineral reserves contain some uncertainties (such as gold prices, exchange rates, geographic and statistical variables), and the assumptions and methods developed in relation to the mineral reserve may change significantly depending on the availability of new information. The cost and depreciation of mining assets are adjusted prospectively based on these updates.

Mining assets are amortized using the "production" method and the visible and possible gold reserve amount is used to calculate the depreciation rate. Other Property, plant and equipment, both movable and fixed, other than mining assets are depreciated using the straight-line method over their useful lives, limited with lifetime of the mines they are related to. The depreciation amounts calculated on the basis of the visible and possible gold reserves and using the production units method may vary between periods, the depreciation may be affected by the deviation between the actual and estimated production amounts. These differences arise from the variables or assumptions stated below;

- Changes in the amount of visible and possible gold reserves as a result of the work done,
- The reserve's tenor ("grade") ratio, which can vary significantly from time to time,
- The actual gold price and the estimated gold price taken into account in reserve valuation and tenor determination studies,
- Other matters that may occur in the mine sites and cannot be predicted in advance and may affect the activities,
- Unpredictable changes in mining, processing and rehabilitation costs, discount rates, exchange rate changes,
- The effects of changes in mineral life on the useful life of Property, plant and equipment depreciated with the straight-line method and whose useful life are limited to the mine life.

The impairment tests performed by the Group management depend on the management's estimates about the future gold prices, current market conditions, exchange rates and pre-tax discount rate together with the relevant project risk. The recoverable value of the cash-generating units is determined as the higher one from the use value of the relevant cash-generating unit or its fair value after deducting sales costs. These calculations require the use of some assumptions and estimates. Changes in assumptions and estimates based on gold prices may affect the useful lifes of mines and conditions may arise that may require adjustment on the carrying values of both goodwill and related assets. Assets are grouped as independent and smallest cash generating units. If an impairment indicator is determined, estimates and assumptions are established for the cash flows to be obtained from each cash-generating unit determined. Impairment tests of both Property, plant and equipment and goodwill contain a certain amount of uncertainty due to the estimates and assumptions used. This uncertainty arises from the amount of visible and possible workable gold reserves used, current and future predicted gold prices, discount rates, exchange rates and estimated production costs.

**2. Basis of presentation of condensed consolidated financial statements (continued)**

**2.6 Significant accounting judgments estimates and assumptions (continued)**

b) Amount of provisions reflected in condensed consolidated financial statements regarding environmental rehabilitation, improvement of mine sites and closure of mine sites is based on the plans of the Group management and the requirements of the relevant legal regulations. Changes in the aforementioned plans and legal regulations, up-to-date market data and prices, discount rates used, changes in estimates based on mineral resources and reserves may affect provisions.

As of June 30 2023, the Group reassessed the provision amounts due to changes in discount rates, costs, production areas subject to rehabilitation and reserve lifetimes. The Group evaluates the mine rehabilitation provision annually. Significant estimates and assumptions are made in determining the provision for mine rehabilitation due to the large number of factors that may affect the final liability to be paid. These factors include estimates of the scope and cost of rehabilitation activities, technological changes, changes in regulations, cost increases proportional to inflation rates and changes in net discount rates (June 30, 2023: 5,07%, December 31, 2022: 4,07%). These uncertainties may cause future expenditures to differ from the amounts estimated today.

The provision amount at the reporting date represents the best estimate of the present value of future rehabilitation costs. Changes in estimated future costs are accounted in the balance sheet by increasing or decreasing the rehabilitation obligation or asset if the initial estimate was initially recognized as part of an asset measured in accordance with TAS 16 Property, plant and equipment. Any reduction in the rehabilitation obligation and hence any reduction in the rehabilitation asset cannot exceed the carried value of that asset. In case of excess, the amount exceeding the carried value is immediately taken to profit or loss.

c) Deferred tax assets are recorded when it is determined that it is possible to generate taxable income in the coming years. In cases where taxable income is likely to occur, deferred tax assets are calculated over temporary differences. The Group management, as a result of its assessment, has been recognized as a deferred tax asset for financial losses that can be used within a predictable period and within the framework of tax laws. This evaluation is based on the assumptions used that the related subsidiary has taxable profit in the future periods.

d) As the Group operates in the mining industry, it is exposed to many risks arising from laws and regulations. As of the balance sheet date, The results of current or future legal practices can be estimated within a certain ratio, based on the past experiences of the Group management and as a result of the legal consultancy received. Negative effects of a decision or application that may be taken against the Group may significantly affect the activities of the Group.

At the stage of determining the amount of the provision for the lawsuits, the management consider the possibility of the ongoing lawsuits to be concluded against the Group and the legal advisors' evaluation of the consequences that may arise in case these lawsuits are concluded against the Group. The Group management makes the best estimate based on the information provided.

e) The gold in circuit inventory amount, which is followed as a semi-finished product and has not yet turned into finished gold during the production process, is evaluated separately for each production facility by making technical production calculations and estimations. The gold in circuit process, which is common for both tank leaching and heap leach production plants, ends after finished gold is obtained. Since the production processes of tank leaching and heap leaching facilities are different from each other, the amount of gold stock in the circuit differs on the basis of facilities, and the estimated amount of gold that can be obtained from the gold in circuit stocks of each facility at the end of the production process and the life of mine is analyzed based on technical calculations

The accompanying notes form an integral part of these financial statements.

The principal assumption is that the maximum liability for each year of service will increase in line with inflation. Thus, the discount rate applied represents the real rate net of expected effects of inflation. The severance pay ceiling is revised in every six months, and the ceiling amount of TL 19.982,83 (July 1, 2022: TL 15.371,40) as of July 1, 2023 was taken into consideration in the calculation of the provision for severance pay. TFRS requires actuarial valuation methods to be developed to estimate the provision for severance pay. Accordingly, the following actuarial assumptions were used in the calculation of the total liability:

	June 30, 2023	December 31, 2022
Net discount rate	2,00%	2,00%
Probability of qualifying for seniority	95,27%	94,41%

The movements of the provision for severance pay within the accounting periods of June 30, 2023 and June 30, 2022 are as follows:

	2023	2022
<b>January 1</b>	<b>118.198</b>	48.919
Interest cost	12.986	5.167
Service cost	7.238	3.954
Past year service cost	2.622	-
Actuarial loss	60.360	23.061
Severance paid	(24.520)	(5.626)
<b>June 30</b>	<b>176.884</b>	75.475

Liability of employment termination benefits is not subject to any funding as there isn't an obligation. Provision is calculated by estimating the present value of the future probable obligation of the Group arising from the retirement of the employees. TAS 19 "Employee Benefits" requires actuarial valuation methods to be developed to estimate the Group's obligation under the defined benefit plans. The following actuarial assumptions are used in the calculation of the total liability.

The sensitivity analysis of the important assumptions used in the calculation of the provision for employee termination benefits as of June 30, 2023 is as follows:

	Discount rate		Rate of retirement	
	%0,50 increase	%0,50 decrease	%0,50 increase	%0,50 decrease
2023	(22.386)	27.873	6.939	(6.347)
<b>Discount rate</b>				
	%0,50 increase	%0,50 decrease	%0,50 increase	%0,50 decrease
2022	(7.727)	9.334	1.775	(1.833)

**d) Important ongoing cases**

**i- Lawsuits related to the Ovacık mine**

For the cancellation of the EIA positive decision issued for the Ovacık 3rd waste storage facility, the İzmir 3rd Administrative Court's case numbered 2017/1432 E. was filed against the Ministry of Environment and Urbanization, and the Company intervened to the case. The court delivered a judgement of dismissal on March 12, 2020, in favor of the Company, which is open to appeal to the Council of State. It was appealed by the plaintiffs with a request for a stay of execution. The Council of State rejected the appeal requests of the plaintiffs in favor of our company with the decision dated September 24, 2020 and decided to send the file to the local court for procedural reasons that do not affect the merits. The trial has ended and will not affect the company's operations.

For the cancellation of the EIA affirmative decision issued for the Ovacık gold mine in accordance with the provisions of the 2009/7 circular, İzmir 6th Administrative Court's case numbered 2017/1317 E. was filed against the Ministry of Environment and Urbanization and the Company intervened to the case. İzmir 6th Administrative Court rejected the case in favor of the Company in the case file numbered 2017/1317 E., and file numbered 2020/350 E in the same court the Council of State dismissed the appeal requests of the plaintiffs and ordered to change of venue by delivering the file to the local court for procedural rules of law, not for the substantive ones. The trial has ended and will not affect the company's operations. Therefore, the Company continues activities of production within the scope of the relevant EIA affirmative report.

The results of other lawsuits regarding the Ovacık gold mine are not such as to affect the Company's activities.

**ii- Lawsuits related to Kaymaz mine**

The Company has filed lawsuits in Eskisehir 1st Administrative Court numbered 2014/1084 E. and Eskisehir 1st Administrative Court numbered 2014/760 E. Requesting cancellation and stay of execution against the operations related to the cessation of operations in the agricultural lands of the Kaymaz gold mine located in the field bearing a registration number of 43539 and 82567. Among these lawsuits, with respect to the lawsuit numbered 2014/760 E. in Eskisehir 1st Administrative Court filed regarding the field with license number of İR 43539 and the lawsuit numbered 2014/1084 E. regarding the field with license number of İR 82567; the court ordered to the cancellation of proceedings subject to the case, with open appeal. Both cases were concluded in favor of the Company. Upon the appeal of the plaintiffs in both files, the Council of State ordered to suspend the execution of the court decisions. In the examination of the appeal, a decision was made in favor of the company in terms of both files, and the trial continues at the stage of correction of the decision.

The Company intervened in the case along with the defendant Ministry of Environment and Urbanization which was filed for the cancellation and stay of execution of the EIA affirmative decision given regarding the 2nd Waste Storage Facility project planned to be made in the field site with the operation license number of 82567 and the trial is ongoing in Eskisehir 1st Administrative Court in the cases filed with the number 2020/302 E. and 2020/350 E. The plaintiffs appealed the files and the Council of State upheld both decisions of the Eskisehir 1st Administrative Court in favor of our company in the files of the Eskisehir 1st Administrative Court, numbered 2020/302 E. and 2020/350 E.

**iii- Lawsuits related to other mines**

These lawsuits are related to the expansion of the activities in some licensed fields and / or the permits and licenses of the new areas to be operated.

**Lawsuits related to Çukuralan mine:**

A lawsuit numbered 2017/1656 E. was filed against the Ministry of Environment and Urbanization in İzmir 6th Administrative Court for the cancellation of the EIA affirmative report issued for the 3rd capacity increase Project of Çukuralan mining facility, and the Company intervened in the case. The court decided to cancel the transaction subject to the case, and the Council of State reversed the decision in favor of the company by not being hit by the decision of the local court after the appeal review. While the trial continued in Izmir 6th Administrative Court on the basis number of 2019/574, the court decided to cancel the said transaction with the decision dated 23.02.2021. The decision has been appealed.

Regarding the 3rd capacity increase 2009/7 project of Çukuralan Gold Mine, Izmir 6th Administrative Court has been sued for the suspension of execution and cancellation of the Environmental Impact Assessment (EIA) positive Decision issued by the Ministry of Environment and Urbanization with the 2019/1120 E. file. has been opened. Our company intervenes in the relevant case together with the defendant Ministry. The previous base number and court of the relevant file is Izmir 3rd Administrative Court 2019/171 E. Due to the connection with the Çukuralan 3. Capacity Increase file, the main record of the file was closed by the decision of the İzmir Regional Administrative Court 4th Administrative Law Department and it was decided by the İzmir 3rd Administrative Court to send it to the İzmir 6th Administrative Court due to the relevant connection. While the relevant case continued with the number 2019/1120 of the Izmir 6th Administrative Court, the EIA affirmative decision, which was subject to the court decision, was annulled and an appeal was filed and the trial is ongoing before the Council of State. At this point, it is stated that, according to the decision of the Council of State, for the 2019/574 E. file, it is not possible to apply two different EIA Positive decisions related to the same project together, due to a second EIA Positive decision regarding the project in question, and that the EIA Positive decision, which is the subject of the case, was implicitly withdrawn by the respondent Ministry. Since it was concluded that it should be accepted and that the subject of the pending case is no more, it is certain that the decision of the 6th Administrative Court of İzmir, numbered 2019/574 E. In terms of the 2019/1120 E. file, it has been decided that there is no legal inaccuracy in the decision of the İzmir 6th Administrative Court regarding the cancellation of the action in question, and that the appeal requests of our intervening company as well as the respondent Ministry and the respondent Ministry are rejected.

In addition, the company was involved in the lawsuit filed by some plaintiffs against the İzmir Governor's Office for the cancellation of the decision of the İzmir 6th Administrative Court for the cancellation of the Environmental Impact Assessment Not Required for the Çukuralan Gold Mine Crushing and Screening Plant Project planned to be made by the company in the file 2020/1479 E. The company's appeals were partially accepted and partially rejected. Regarding the 3rd capacity increase project of the Çukuralan Gold Mine Plant planned to be carried out by the company, some plaintiffs have filed a lawsuit against the Ministry of Environment and Urbanization by some of the plaintiffs for the stay of execution and cancellation of the Environmental Impact Assessment (EIA) positive Decision given by the Ministry of Environment and Urbanization. Administrative Court filed a lawsuit with file numbered 2021/1407 E. and 2021/1013 E. In both files, the company was involved in the relevant lawsuit alongside the defendant ministry, and in both files, the court decided to reject the lawsuit on the grounds that the EIA Positive decision was in compliance with the law. The decision rendered in the file numbered 2021/1407 E. of the İzmir 4th Administrative Court and numbered 2021/1013 E. of the İzmir 4th Administrative Court, as a result of the appeal proceedings appealed by the plaintiffs, the appeal of the plaintiffs was accepted and a more detailed examination was procedural. The decision of the court of first instance was overturned by unanimous vote, with the mention that it should be done, and the file was sent to the court of first instance for a more detailed examination. However, since there is no final decision yet, in the current situation, all of the production activities subject to the court decisions of the Çukuralan Gold Mine Plant 3rd Capacity Increase Project, within the scope of the new EIA Positive decision, mining (production) activities continue in accordance with the relevant legislation.

**Lawsuit related to Çanakkale Project:**

In the lawsuit filed for the cancellation of the EIA positive decision and the stay of execution of the S:20101197 Gold Silver Mine Project, which is planned to be built around the Sergiler and Terziler villages of the Merkez district of Çanakkale, the company is involved in the 2020/763 E. file alongside the Ministry of Environment and Urbanization. At the present stage, Çanakkale 1st Administrative Court decided to cancel the action subject to the lawsuit, an appeal was filed against the decision and the appeal process continues.

**iv- Lawsuits regarding the Company's subsidiary abroad**

Legal actions has been initiated against the amendment in the main contract and establishment of privileged share as well as the board change with respect to London-based Koza Ltd., in which the Company owns 100% shares, and the legal process is ongoing before London courts. On the date of January 23, 2019, it has been decided by the 10th Commercial Court of First Instance of Ankara (case file number 2017/349 E) with an open appeal within two weeks from the notification date that 60.000.000 British Pounds shall be taken from the defendants to Koza Altın İşletmeleri A.Ş. as of September 1, 2015, together with the interest to be accrued according to the article 4 / a of the law numbered 3095. Following an appeal filed by the defendants against this court decision, the 21st Civil Chamber of Ankara Regional Court of Justice, which is the court of appeal, ordered to deem the defendants' request of appeal has not been filed for procedural reasons, with the decision numbered 2019/699 E. and 2019/1189 K. An appeal was filed by the defendants against this decision. The Court of Cassation decided to quash the file for procedural reasons. Ankara 10th Commercial Court of First Instance, with its additional decision, decided that the appeal application of the defendants was not made. The defendants appealed the decision. The appeal process continues.

**v- Liability lawsuits filed against former managers**

As a result of the evaluations made by the CMB after the decision to appoint a trustee, the Company was instructed to file a liability lawsuit against previous board members for various reasons, and various liability lawsuits were filed against former managers on behalf of Ankara Commercial Courts, and the lawsuits are still pending. Lawsuits that may affect the activities of the Company are announced on the public disclosure platform in legal periods.

**vi- Other legal processes**

Pursuant to the decision of the Ankara 5th Criminal Court of Peace dated October 26, 2015, the management of the Company was transferred to the Trustee Board, and then to the Savings Deposit Insurance Fund ("TMSF") on September 22, 2016. The indictment prepared by the Ankara Chief Public Prosecutor's Office regarding the events leading to the appointment of a trustee was accepted by the Ankara 24th High Criminal Court, and their trial began with the file no. 2017/44 E. and the case was decided by the court of first instance. In the first instance court decision; It was decided to confiscate the company shares that belonged to the previous members of the board of directors. Until the decision becomes final, it has been decided to continue the same measure as the appointment of a trustee described above. Within the scope of the file numbered 2017/44 E. of the Ankara 24th High Criminal Court, the appeal review was completed and the decision of the appeal court was announced on the Public Disclosure Platform.

**a) Share capital (continued)**

Public companies make their dividend distributions according to the CMB's "Dividend Communiqué" numbered II19.1, which entered into force as of February 1, 2014.

Companies distribute their profits within the framework of profit distribution policies to be determined by their general assemblies and in accordance with the provisions of the relevant legislation, by the decision of the general assembly. Within the scope of the said communiqué, a minimum distribution rate has not been determined. Companies pay dividends as specified in their articles of association or profit distribution policies. In addition, dividends can be paid in installments of equal or different amounts and dividend advances can be distributed over the profit in the financial statements.

Unless the reserves that should be set aside according to the TCC and the dividend determined for the shareholders in the articles of association or in the profit distribution policy are reserved; it cannot be decided to allocate other reserves, to transfer profits to the next year, and to distribute dividends to dividend owners, members of the board of directors, company employees and persons other than shareholders, and no dividends can be distributed to these persons unless the dividend determined for shareholders is paid in cash.

50,000,000 Koza Gold shares were repurchased as part of the share repurchase process initiated with the decision of the Koza Altın İşletmeleri A.Ş. Board of Directors. Within the scope of share purchase and sale transactions, 7,778,677 Koza Anadolu Metal shares were purchased and 57,778,677 shares in total were purchased for 1,293,854 thousand TL.

**b) Restricted reserves**

The Company's restricted reserves are as follows:

Legal reserves	<b>356.980</b>	356.980
<b>Total</b>	<b>356.980</b>	356.980

According to the Turkish Commercial Code, legal reserves consist of first and second legal reserves. The TCC stipulates that the first legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Company's paid-in share capital. The second legal reserve is 10% of the distributed profit in excess of 5% of the paid-in share capital. According to the Turkish Commercial Code, as long as the legal reserves do not exceed 50% of the paid-in capital, they can only be used to offset the losses, it is not possible to use them in any other way.

**16. Income taxes**

**Current income tax**

The corporate tax rate to be accrued on taxable corporate income is over the remaining tax base after adding the non-deductible expenses from the tax base in the determination of the commercial income and deducting the tax-exempt gains, non-taxable incomes and other deductions (if any, previous year losses and investment allowances used if preferred). is calculated.

The effective tax rate applied in 2023 is 20% (2022: 23%).

The 20% tax rate specified in the first paragraph of Article 32 of the Corporate Tax Law No. 5520, with the Law No. 7061 on "Amendment to Some Tax Laws and Some Other Laws" adopted on 28 November 2018, % for the corporate earnings of the 2018, 2019 and 2020 taxation periods. The provision that applies as 22 has been added with the provisional article. In addition, with the same "Bag Law", the 75% of the tax exempted portion of the income from the sale of the immovables that are in the assets of the "Institutions for at least two full years," stated in the first paragraph of the 5520 numbered Corporate Tax Law, has changed to 50%. In Turkey, provisional tax is calculated and accrued on a quarterly basis. The provisional tax rate to be calculated on corporate earnings during the taxation phase of 2021 corporate earnings as of temporary tax periods is 20% (2022: 23%). Losses can be carried forward for a maximum of 5 years, to be deducted from the taxable profits that will arise in future years. However, the losses incurred cannot be deducted retrospectively from the profits of previous years.

In the deferred tax calculation for the period of January 1 - June 30, 2023; Deferred tax assets or liabilities, which are included in the measurement heading of TAS-12 "Income Taxes" standard, are based on tax rates (and tax laws) that are in force as of the end of the reporting period (and tax laws), which are expected to be applied in the periods when assets are converted into income or liabilities are paid. calculated using the In accordance with the provision, 20% for short-term assets and liabilities and 20% for long-term assets and liabilities have been taken into account in the calculation of deferred tax in Turkey for 2022. There is no definitive and definitive agreement procedure regarding tax assessment in Turkey. Companies prepare their tax returns between 1-25 April of the year following the closing period of the relevant year. These declarations and the accounting records based on them can be reviewed and changed within 5 years by the Tax Office.

**Income Withholding Tax**

In addition to corporate taxes, companies should also calculate income withholding taxes and funds surcharge on any dividends distributed, except for companies receiving dividends who are Turkish residents and Turkish branches of foreign companies. Income withholding tax applied in between April 24, 2003 and July 22, 2006 is 10% and commencing from July 22, 2006, this rate changed to 15% upon the Council of Minister's Resolution No: 2006/10731. Commencing from December 21, 2021, this rate has been changed to 10% upon the Presidential Decree numbered 31697/4936.. Undistributed dividends incorporated in share capital are not subject to income withholding tax.

**Tax Advantages Obtained Under the Investment Incentive System:**

Tax Advantages Obtained Under the Investment Incentive System: The Group's earnings from investments tied to an incentive certificate are subject to corporate tax at discounted rates, starting from the accounting period in which the investment is partially or fully operational, until the investment contribution amount is reached. In this context, tax advantage amounting to 2.604 thousand TL (31 December 2022: 325,710 thousand TL) that the Group will benefit from in the foreseeable future as of 30 June 2023 is reflected in the consolidated financial statements as a deferred tax asset. As a result of the recognition of the said tax advantage as of 30 June 2023, deferred tax income amounting to 422 thousand TL has been realized in the consolidated profit or loss statement for the period from 1 January to 30 June 2023.

Deferred tax assets are recognized when it is determined that taxable income is likely to occur in the coming years. In cases where taxable income is likely to occur, deferred tax assets are calculated over deductible temporary differences, tax losses and tax advantages vested in indefinite-lived investment incentives that allow reduced corporate tax payments. In this context, the Group bases the reflection of deferred tax assets arising from investment incentives in the consolidated financial statements on longterm plans and evaluates the recoverability of deferred tax assets related to these investment incentives as of each balance sheet date, based on business models that include taxable profit estimations. It is foreseen that the deferred tax assets in question will be recovered within 5 years from the balance sheet date.

In the sensitivity analysis carried out as of 30 June 2023, when the inputs in the basic macroeconomic and sectoral assumptions that make up the business plans are increased/decreased by 10%, the recovery period of deferred tax assets regarding investment incentives, which is foreseen as 5 years, has not changed.

Corporate tax liabilities recognized in the balance sheet as of June 30, 2023 and December 31, 2022 are as follows:

Current income tax expense	<b>(456.789)</b>	(474.714)
Deferred tax expense / (income)	<b>142.295</b>	29.145
<b>Total tax expense</b>	<b>(314.494)</b>	(445.569)

**Deferred taxes**

The Group recognizes deferred tax assets and liabilities for temporary differences arising from differences between its tax base legal financial statements and its condensed consolidated financial statements prepared in accordance with TMS / TFRS. The aforementioned differences are generally due to the fact that some income and expense items are included in different periods in the financial statements subject to tax and the condensed consolidated financial statements prepared in accordance with TMS / TFRS, and these differences are stated below. In the calculation of deferred tax assets and liabilities, the tax rates expected to be applied in the periods when assets are converted into income or debts are paid are taken into account.

**17. Earnings per share**

Earnings per share is calculated by dividing the current year net profit of the parent " by the weighted average number of shares traded throughout the year.

Companies in Turkey have right to increase its capital through the distribution of bonus shares to be met from the re-valuation fund or accumulated profits. During the calculation of earnings per share, these increases are accepted as shares distributed as dividends. Dividend distributions added to the capital are also evaluated in the same way. Therefore, while calculating the average number of shares, it is assumed that such shares are in circulation throughout the year. For this reason, the weighted average of the number of shares used in calculating the earnings per share is determined by considering the retroactive effects.

The earnings per share of the Group as of June 30, 2023 and 2022 are as follows:

	January 1 – June 30, 2023	January 1 – June 30, 2022	April 1 – June 30, 2023	April 1 – June 30, 2022

**19. Nature and level of risks arising from financial instruments**

The main financial instruments of the Group consist of cash and short-term deposits. The main purpose of financial instruments is to provide financing for the Group's activities. Apart from these, the Group has financial instruments such as trade receivables and payables that arise as a result of its activities.

The main risk posed by the Company's financial instruments is foreign currency risk. Risk management policy is to focus on unexpected changes in the financial markets.

The management policy of financial risks should be made by the Group's senior management and commercial and financial affairs department in line with the policies and strategies approved by the Board of Directors. The Board of Directors should prepare general principles and policies for the management of currency, interest and capital risks, and closely monitor financial and operational risks (especially arising from fluctuations in gold prices). The Group does not have an Early Risk Detection Committee.

The purpose that the Group should set to manage financial risks can be summarized as follows:

- Ensuring the continuity of the cash flow obtained from the activities and main assets of the Group, taking into account the exchange rate and interest risks,
- Keeping a sufficient amount of credit resources available to be used effectively and efficiently under the most appropriate conditions in terms of type and maturity,
- Keeping the risks arising from the counterparty at a minimum level and following them effectively.

The main risks arising from the financial instruments of the Group are interest rate risk, foreign currency risk, credit risk and liquidity risk. The policies of the management regarding to manage these risks are summarized below.

**a) Credit risk:**

The risk of financial loss of the Group due to the failure of one of the parties to the financial instrument to fulfill its contractual obligation is defined as credit risk. Financial instruments of the Group that may cause a significant concentration of credit risk mainly consist of cash and cash equivalents and trade receivables. The maximum credit risk that the Group may be exposed to is up to the amounts reflected in the consolidated financial statements.

The Group has cash and cash equivalents in various financial institutions. The Group manages this risk by continuously evaluating the reliability of the financial institutions.

The Group sales consist gold dore bars with a right of first refusal to domestic banks on consignment to be sold to the Central Bank of the Republic of Turkey and silver to a domestic refinery on consignment. Due to the fact that the sales are made on demand and the customer is corporate, the Company considers that there is no significant risk of receivables.

**b) Market risk**

Due to operations, the Group is exposed to financial risks related to changes in exchange rates and interest rates. Market risks encountered at the Group level are measured on the basis of sensitivity analysis. In the current year, there is'nt any change in the market risk that the Group is exposed to, or the method of handling the encountered risks or the method used to measure these risks, compared to the previous year.

Transactions in foreign currency cause exchange risk. The Group controls this risk through a natural precaution that occurs by netting foreign currency assets and liabilities.

**19. Nature and level of risks arising from financial instruments (continued)**

*Price risk*

The most important operational risk of the Group is the gold price risk.

The operational profitability of the Group and the cash flows it provides from its operations are affected by the changes in gold prices in the markets. If the gold prices decrease comparing under the cash-based operational production costs of the Group and continue in this way for a certain period, the operational profitability of the Group may decrease.

The Group does not expect any significant change in gold prices in the near future. Accordingly, the Group has not used any derivative instruments to hedge the risk of falling gold prices and has not made a similar agreement.

The Group management follows the net debt / total capital ratio regularly and updates it when necessary. The Group does not have an Early Detection of Risk Committee.

**c) Capital risk management:**

While managing the capital, the goals of the Group are to ensure the continuation of the Group's activities with the most appropriate capital structure in order to provide return and benefit to its partners and to reduce the cost of capital.

In order to return capital to shareholders, the Group could maintain or reorganize its capital structure, issue new shares, and sell assets to reduce borrowing.

The Group monitors capital by using the ratio of net debt / total equity, parallel to other companies in the industry. Net debt is calculated by deducting cash and cash equivalents from the total debt amount (including loans and other debts to related parties as shown in the balance sheet).

The Group management follows the net debt / total capital ratio regularly and updates it when necessary. The Group does not have an Early Detection of Risk Committee.

**20. Financial instruments (fair value disclosures and disclosures within the framework of hedge accounting)**

Fair value of the financial instruments

The Group classifies the fair value measurements of the financial instruments measured at their fair values in the consolidated financial statements according to the source of the inputs of each financial instrument class, using a three-level hierarchy as follows.

- First level: Quotation prices (unadjusted prices) in active markets for identical assets and liabilities that the entity can reach at the measurement date.
- Second level: These are directly or indirectly observable inputs for the asset or liability and other than quoted prices within Level 1.
- Third level: These are unobservable inputs to the asset or liability.

*Level classifications of financial assets measured at their fair values:*
