2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS

2.1 Basis of Presentation

Statement of Compliance

The condensed consolidated interim financial statements as at and for the six-month period ended 30 June 2022 have been prepared in accordance with IAS 34 “Interim Financial Reporting”. They do not include all of the information required for complete annual financial statements and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2021.

Board of Directors has approved the consolidated financial statements as of 30 June 2022 on 10 August 2022. General Assembly and the related regulatory bodies have the authority to modify the statutory financial statements.

TÜRK HAVA YOLLARI ANONİM ORTAKLIĞI AND ITS SUBSIDIARIES

Notes to the Condensed Consolidated Interim Financial Statements

As At And For the Six-Month Period Ended 30 June 2022

(All amounts are expressed in Million US Dollars (USD) unless otherwise stated.)

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (cont'd)

2.1 Basis of Presentation (cont'd)

Basis of Preparation

The consolidated financial statements, except for derivative financial instruments, have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for goods or services.

Functional and Reporting Currency

Functional currency

The consolidated financial statements of the Group are presented in USD, which is the functional currency of the Group.

Although the currency of the country in which the Group is domiciled is Turkish Lira (TL), the Group's functional currency is determined as USD. USD is used to a significant extent in, and has a significant impact on the operations of the Group and reflects the economic substance of the underlying events and circumstances relevant to the Group. Therefore, the Group uses the USD in measuring items in its financial statements and as the functional currency. All currencies other than the currency selected for measuring items in the consolidated financial statements are treated as foreign currencies. Accordingly, transactions and balances not already measured in USD have been remeasured in USD in accordance with the relevant provisions of IAS 21 *the Effects of Changes in Foreign Exchange Rates*.

IAS 29 requires the financial statements of an entity with a functional currency that is hyperinflationary to be restated for the changes in the general pricing power of the functional currency. The Group uses the USD in measuring items in its financial statements and uses the USD as the functional currency. Therefore, no adjustments have been made for high inflation according to IAS 29.

Except where otherwise indicated, all amounts disclosed in financial statements and notes are rounded the nearest million (USD 000,000).

Basis of Consolidation

- a. The consolidated financial statements include the accounts of the parent company, THY, its subsidiaries and its joint ventures on the basis set out in sections (b) below. Financial statements of the subsidiaries and joint ventures are adjusted where applicable in order to apply the same accounting policies. All transactions, balances, profit and loss within the Group are eliminated during consolidation.
- b. The Group has twelve joint ventures (Note: 1). These joint ventures are economical activities whereby decisions about strategic finance and operating policy are jointly made by the consensus of the Group and other investors. The joint ventures are controlled by the Group and other shareholders jointly, and are accounted for using the equity method. Under the equity method, joint ventures are initially recognized at cost and adjusted to recognize any distributions received, impairments in the joint ventures and the Group's share of the profit or loss after the date of acquisition. Joint ventures' losses that exceed the Group's share are not recognized, unless the Group has incurred legal or constructive obligations on behalf of the joint venture.
- c. The non-controlling share in the assets and results of subsidiaries for the year are separately classified as "non-controlling interest" in the consolidated statements of financial position and consolidated statements of profit or loss.

2.2 Changes and Errors in Accounting Policies Estimates

The significant estimates and assumptions used in preparation of these condensed consolidated interim financial statements as at and for the period ended 30 June 2022 are consistent with those used in the preparation of the Group's consolidated financial statements as at and for the year ended 31 December 2021.

2.3 Summary of Significant Accounting Policies

The accounting policies used in preparation of condensed consolidated interim financial statements as at 30 June 2022 are consistent with those used in the preparation of consolidated statements for the year ended 31 December 2021.

2.4 New and Revised Standards and Interpretations

a) Standards, amendments and interpretations applicable as at 30 June 2022:

Amendments to IFRS 7, IFRS 4 and IFRS 16 Interest Rate Benchmark Reform Phase 2 (effective 1 January 2021); The Phase 2 amendments address issues that arise from the implementation of the reforms, including the replacement of one benchmark with an alternative one. The Phase 2 amendments provide additional temporary reliefs from applying specific IAS 39 and IFRS 9 hedge accounting requirements to hedging relationships directly affected by IBOR reform.

Amendments to IFRS 4 Insurance Contracts – deferral of IFRS 9 (effective 1 January 2021); These amendments defer the date of application of IFRS 17 by two years to 1 January 2023 and change the fixed date of the temporary exemption in IFRS 4 from applying IFRS 9, Financial instrument until 1 January 2023.

Amendment to IFRS 16, 'Leases' – COVID-19 related rent concessions Extension of the practical expedient (effective 1 April 2021); As a result of the coronavirus (COVID-19) pandemic, rent concessions have been granted to lessees. In May 2020, the IASB published an amendment to IFRS 16 that provided an optional practical expedient for lessees from assessing whether a rent concession related to COVID-19 is a lease modification. On 31 March 2021, the IASB published an additional amendment to extend the date of the practical expedient from 30 June 2021 to 30 June 2022. Lessees can elect to account for such rent concessions in the same way as they would if they were not lease modifications. In many cases, this will result in accounting for the concession as variable lease payments in the period(s) in which the event or condition that triggers the reduced payment occurs.

b) Standards, amendments and interpretations that are issued but not effective as at 30 June 2022:

IFRS 17, 'Insurance Contracts', as amended in December 2021; effective from annual periods beginning on or after 1 January 2023. This standard replaces IFRS 4, which currently permits a wide variety of practices in accounting for insurance contracts. IFRS 17 will fundamentally change the accounting by all entities that issue insurance contracts and investment contracts with discretionary participation features.

Amendments to IAS 1, Presentation of financial statements' on classification of liabilities; effective date deferred until accounting periods starting not earlier than 1 January 2024. These narrow-scope amendments to IAS 1, 'Presentation of financial statements', clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (for example, the receipt of a waiver or a breach of covenant). The amendment also clarifies what IAS 1 means when it refers to the 'settlement' of a liability.

Narrow scope amendments to IAS 1, Practice statement 2 and IAS 8; effective from annual periods beginning on or after 1 January 2023. The amendments aim to improve accounting policy disclosures and to help users of the financial statements to distinguish between changes in accounting estimates and changes in accounting policies.

Amendment to IAS 12 – Deferred tax related to assets and liabilities arising from a single transaction; from annual periods beginning on or after 1 January 2023. These amendments require companies to recognize deferred tax on transactions that, on initial recognition give rise to equal amounts of taxable and deductible temporary differences.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (cont'd)

2.4 New and Revised Standards and Interpretations (cont'd)

b) Standards, amendments and interpretations that are issued but not effective as at 30 June 2022 (cont'd):

A number of narrow-scope amendments to IFRS 3, IAS 16, IAS 37 and some annual improvements on IFRS 1, IFRS 9, IAS 41 and IFRS 16; effective from annual periods beginning on or after 1 January 2022.

- **Amendments to IFRS 3**, 'Business combinations' update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations.
- **Amendments to IAS 16**, 'Property, plant and equipment' prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognize such sales proceeds and related cost in profit or loss.
- **Amendments to IAS 37**, 'Provisions, contingent liabilities and contingent assets' specify which costs a company includes when assessing whether a contract will be loss-making.

Annual improvements make minor amendments to IFRS 1, 'First-time Adoption of IFRS', IFRS 9, 'Financial instruments', IAS 41, 'Agriculture' and the Illustrative Examples accompanying IFRS 16, 'Leases'. These amendments do not have a significant impact on the financial position and performance of the Group.

2.5 Determination of Fair Values

Various accounting policies and explanations of the Group necessitate to determinate the fair value of both financial and non-financial assets and liabilities. If applicable, additional information about assumptions used for determination of fair value are presented in notes particular to assets and liabilities.

Evaluation methods in terms of levels are described as follows:

- Level 1: Quoted (unadjusted) prices in active markets for identical assets and obligations.
- Level 2: Variables obtained directly (via prices) or indirectly (by deriving from prices) which are observable for similar assets and liabilities other than quoted prices mentioned in Level 1.
- Level 3: Variables, which are not related to observable market variable for assets and liabilities (unobservable variables).

2.6 Going Concern

The Group has prepared its consolidated financial statements with the assumption on the Group's ability to continue its operations in the foreseeable future as a going concern. The Group's current liabilities exceed its current assets by USD 1,919 as of 30 June 2022.

The Group's net cash from operating activities increased by USD 1,880 compared to the same period of 2021. In addition, current liabilities exceeding current assets decreased by USD 298 compared to the same period of 2021.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (cont'd)**2.6 Going Concern (cont'd)**

The Group maintains its credit limits in banks and does not expect any hardship for future bank loan needs. Bank loans decreased by USD 1,467 compared to the same period of previous year. The Group's available bank loan limits are USD 3,334 as of 30 June 2022 (31 December 2021: USD 3,166).

2.7 Impact of COVID-19 Pandemic on Group Activities

Since the beginning of 2020, the COVID-19 pandemic has significantly affected global air traffic. As of June 2022, the impact of the Covid-19 pandemic on air traffic has decreased considerably in Turkey and around the globe. The Group constantly assesses further developments.

2.8 Other***Russia-Ukraine Conflict***

Due to the Russia-Ukraine conflict that broke out towards the end of February, Turkish Airlines suspended Ukraine and Belarus flights as of February 24, 2022. The closure of the airspaces of these countries to European air carriers caused some airline companies to make route changes, while others were unable to fly to the far east region, the impact of the conflict was limited for the Group due to the geographical location of Istanbul Airport and the Russian airspace being open to Turkish carriers. The Group constantly assesses further developments.

(*) Transfers are mainly consists of aircraft that lease payments have been acquired and ownership has been transferred to the Group.

The Group negotiated with the airport operator company (İGA Havalimanı İşletmesi A.Ş.) regarding the rental areas, rental fee, renting conditions and period for İstanbul Airport. As of May 2022, the agreement is signed with the airport operator company. Lease liabilities are discounted to present value by using the Group's incremental borrowing rate since there is no interest rate implicit in the lease agreement. The borrowing rates used are 25.78% and 3.862% for TL and Euro, respectively. The rental period has been determined as 22 years, taking into account the extension periods in the contract.

17. EMPLOYEE BENEFITS

Provisions for retirement pay liability as of 30 June 2022 and 2021 is comprised of the following:

	30 June 2022	31 December 2021
Provision for retirement pay liability	137	113

Under Labor Law effective in Turkey, it is an obligation to make legal retirement pay to employees whose employment is terminated in certain ways. Also, according to Article 60 of Social Security Law numbered 506 which was revised by the laws 2422, dated 6 March 1981 and numbered 4447, dated 25 August 1999, it is an obligation to make legal retirement pay to those who entitled to receive retirement pay when leaving their work. Some transfer provisions related to employment conditions prior to retirement are removed from the Law by the revise made on 23 May 2002. Retirement pay liability assumptions and calculations are changed in line with the revise made on 8 May 2008, which altered age of retirement.

Retirement pay liability is subject to an upper limit of monthly USD 921 (full) (equivalent of TL 15,371 (full)) as of 30 June 2022. (31 December 2021: USD 812 (full) equivalent of TL 10,849 (full)).

Retirement pay liability is not subject to any funding legally. Provisions for retirement pay liability are calculated by estimating the present value of probable liability that will arise due to retirement of employees.

IAS 19 (“Employee Benefits”) stipulates the progress of the Group’s liabilities by use of actuarial valuation methods under defined benefit plans. Actuarial assumptions used in calculation of total liabilities are described as follows:

The key assumption is that maximum liability amount increases in accordance with the inflation rate for every service year. Provisions in the accompanying consolidated financial statements as of 30 June 2022 are calculated by estimating present value of liabilities due to retirement of employees. Provisions in the relevant balance sheet dates are calculated with the assumptions of 15.55% annual inflation rate (31 December 2021: 15.55%) and 20% interest rate (31 December 2021: 20%). Estimated amount of non-paid retirement pay retained in the Group due to voluntary leaves is assumed as 2.33% (31 December 2021: 2.45%). Ceiling for retirement pay is revised semi-annually. Ceiling amount of USD 921 (full) which is in effect since 30 June 2022 is used in the calculation of Group’s provision for retirement pay liability.

Movement in the provisions for retirement pay liability is as follows:

	1 January -	1 January -
	30 June 2022	30 June 2021

f) Decisions relating to merges and liquidation,

g) Decisions cancelling flight routes or significantly decreasing frequency of flight routes, not including the ones that cannot even recover their operational expenses, subject to the market conditions.

Restricted Profit Reserves

Turkish Commercial Code (TCC) stipulates that the general legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Group's paid-in share capital. Additionally, not limited with 20% of paid-in share capital, the general legal reserve is appropriated at the rate of 10% per annum of all cash dividends in excess of 5% of the paid-in share capital. Under TCC, the legal reserves can only be used to offset losses, to sustain business when conditions get worse, to prevent unemployment and are not available for any other usage unless they exceed 50% of paid-in share capital.

Foreign Currency Translation Differences

Currency translation differences under equity arise from Group's joint ventures, provisions for unused vacation, legal claims and retirement pay liability accounted under equity method which have functional currencies other than USD.

Distribution of Dividends

Listed companies distribute dividend in accordance with the Communiqué No. II-19.1 issued by the CMB which is effective from 1 February 2014.

Companies distribute dividends in accordance with their dividend payment policies settled and dividend payment decision taken in general assembly in accordance with relevant legislations. The communiqué does not constitute a minimum dividend rate. Companies distribute dividend in accordance with their dividend policy or articles of associations. In addition, dividend can be distributed by fixed or variable installments and advance dividend can be paid in accordance with profit on financial statements of the Group.

Actuarial Differences on Defined Benefit Plans

As a result of the adoption of IAS 19, all actuarial differences are recognized in other comprehensive income.

Gains/Losses from Cash Flow Hedges

Hedge gain/losses against cash flow risk arise from the accounting of the changes in the fair values of effective derivative financial instruments designated against financial risks of future cash flows under equity. Total of deferred gain/loss arising from hedging against financial risk are accounted in profit or loss when the hedged item impacts profit or loss.

As of 2022, lease liabilities and investment borrowings in Japanese Yen, Swiss Frank and Euro for investment financing are designated as cash flow hedge against exchange rate risk due to highly probable future same foreign currency revenues. Group's revenue denominated in Euro and Swiss Frank covered borrowings of such foreign currency, Japanese Yen revenue covered %18, Euro revenue covered %5, Swiss Frank covered %10 of borrowings. In this context, exchange differences arising from such these loans repayment are taken to equity and recognized in other comprehensive income.

Corporate Tax

Turkish tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, tax liabilities, as reflected in these consolidated financial statements, have been calculated on a separate-entity basis.

As of 30 June 2022, the corporate tax rate is 23% in Turkey (December 31, 2021: 25%). Corporation tax rate is applied to net income of the companies after adjusting for certain disallowable expenses, exempt income and allowances.

26. TAX ASSETS AND LIABILITIES (cont'd)

Deferred Tax

The Group recognizes deferred tax assets and liabilities based upon temporary differences arising between its financial statements as reported for IFRS purposes and its statutory tax financial statements. These differences usually result in the recognition of revenue and expenses in different reporting periods for IFRS and tax purposes and they are given below.

In Turkey, the companies cannot declare a consolidated tax return; therefore, subsidiaries that have deferred tax assets position were not netted off against subsidiaries that have deferred tax liabilities position and they are disclosed separately.

Deferred tax assets and liabilities as of 30 June 2022 are calculated with 23% tax rate for the temporary differences which will be realized in 2022, and with 20% tax rate for those which will be realized after 2022 and onwards.

Breakdown of the deferred tax assets / (liabilities) is as follows:

27. EARNINGS PER SHARE

Earnings per share disclosed in the consolidated profit or loss and other comprehensive income is determined by dividing the net income by the weighted average number of shares that have been outstanding during the relevant period.

In Turkey, companies can increase their share capital by making a pro-rata distribution of shares ("bonus interest") to existing shareholders from retained earnings. For the purpose of earnings per share computations, such bonus shares are regarded as issued shares. Accordingly, the weighted average number of shares outstanding during the years has been adjusted in respect of bonus shares issued without a corresponding change in resources, by giving them retroactive effect for the period in which they were issued and for each earlier year.

Number of total shares and calculation of profits / losses per share at 1 January – 30 June 2022 and 2021:

	1 January - 30 June 2022	1 January - 30 June 2021
Number of shares outstanding at 1 January (in full)	138,000,000,000	138,000,000,000
Number of shares outstanding at 30 June (in full)	138,000,000,000	138,000,000,000
Weighted average number of shares outstanding during the period (in full)	138,000,000,000	138,000,000,000

Basic earnings per share (Full US Cents) (*)	0.53	(0.00)
Diluted earnings per share (Full US Cents) (*)	0.53	(0.00)

(*) Basic and diluted earnings / (losses) per share are the same as there are no dilutive potential ordinary shares.

29. NATURE AND LEVEL OF RISKS DERIVING FROM FINANCIAL INSTRUMENTS (cont'd)

Foreign currency risk management (cont'd)

The Group is exposed to foreign exchange risk primarily from TL, EURO, JPY and CHF. The following table details the Group's sensitivity to a 10% increase and decrease in TL, EURO, JPY and CHF against USD. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management and represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates. The sensitivity analysis includes external loans as well as loans to foreign operations within the Group where the denomination of the loan is in a currency other than the currency of the lender or the borrower. A positive number indicates an increase in profit or loss with a same effect on equity. The Group accounted investment loans and aircraft financial liabilities in scope of cash flow hedge accounting and foreign exchange income/expense arising from these loans and liabilities are recognized in equity. 10% increase and decrease effect of foreign exchange rates are calculated with the same method and the calculated foreign exchange gains/losses are presented as hedged portion in the foreign exchange sensitivity table. Furthermore, the hedged portion of foreign exchange gains/losses via forwards and cross currency swap transactions is classified as the amount hedged against USD in the statement of exchange rate sensitivity analysis.
