

## ŞİŞECAM'S NINE-MONTH NET SALES REACH 136 BILLION TL

**With production operations spanning 14 countries across four continents and sales in over 150 countries, Sisecam achieved consolidated net sales of 136 billion TL in the first nine months of 2024. During this period, international sales accounted for 59 percent of total sales, while total investments reached 18.6 billion TL and exports amounted to 730 million USD.**

Şisecam announced its financial results for the first nine months of 2024. In this period, consolidated net sales reached 136 billion TL. International sales, representing the sum of exports from Türkiye and sales from production facilities outside Türkiye, accounted for 59 percent of total sales. Total investment in the first nine months reached 18.6 billion TL, while exports amounted to 730 million USD. During this period, Sisecam produced 4.2 million tons of glass, 3.5 million tons of soda ash, and 2.8 million tons of industrial raw materials.

Sisecam CEO Görkem Elverici shared the following statement regarding the financial results:

“In light of ongoing uncertainties within our operating sectors and economic fluctuations, our sales revenue and profitability targets have been impacted. In response to these challenges, we have maintained steady control of our operations, adapting our strategies as needed to remain aligned with our long-term objectives. During this period, we are prioritizing financial and operational efficiency, with a strong focus on budget control as a key area of emphasis

Founded just four years before World War II, Sisecam has faced numerous challenges over its 89-year history and has consistently emerged stronger from each one. The countless crises we have experienced have strengthened our resilience and our ability to cope with extremely rapid and volatile fluctuations. We have learned to take strategic steps and adapt quickly to changing conditions. Today, with this experience and the same determination, we are fully committed to managing evolving conditions with steadfast focus.

While effectively managing today's conditions, we also recognize the importance of preparing for the future. With this approach, we continue to take strategic steps focused on sustainability and digitalization. To shape the future of glass production technologies, Sisecam introduced the “Plant of the Future” platform. Through this open innovation-based platform, we aim to create a “service model,” which we plan to expand across our portfolio, starting with the soda ash industry, where we rank among the top three global producers. This platform will seek not best in class practices but next in class solutions.

Şişecam remains dedicated to creating value for all stakeholders, strengthening resilience in times of uncertainty and crisis, and staying focused on its long-term goals. Empowered by our 89-year legacy, we are committed to advancing our journey of growth with unwavering determination.”

#### **About Sisecam**

*Sisecam was founded in 1935 to establish Turkey’s glass industry in line with the vision of Mustafa Kemal Atatürk, a great leader respected worldwide. Today, Sisecam is a major global player in the fields of glass and chemicals. Sisecam is the only global company operating in all core areas of glass production – including flat glass, glassware, glass packaging and glass fiber. Currently, Sisecam is the world’s leader manufacturer of glassware and is among the top five producers of glass packaging and flat glass. Sisecam is also one of the three largest soda producers in the world and the world leader in chromium chemicals.*

*Sisecam plays a leading role in flat glass, glassware, glass packaging, chemicals, automotive, glass fiber, mining, energy, and recycling business lines. The company operates production facilities in Germany, Italy, Bulgaria, Romania, Slovakia, Hungary, Bosnia-Herzegovina, Russian Federation, Georgia, Ukraine, Egypt, India, and the USA in addition to Türkiye.*

*Sisecam takes firm steps towards its goal of becoming one of the world's top 3 manufacturers in all of its main fields of activity, with its competent human resources and smart technologies. Sisecam with 89 years of experience, more than 24 thousand employees, production activities in 14 countries on four continents, and a sales network of more than 150 countries, continues its growth journey with an inclusive approach that supports the development of its entire ecosystem. Sisecam takes responsibility for protecting the planet, empowering society and transforming life with its CareForNext strategy, which is compliant with and centered around the United Nations Sustainable Development Goals <http://www.sisecam.com.tr/en>*
