(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise indicated.)

---

**NOTE 2 – BASIS OF PRESENTATION OF FINANCIAL STATEMENTS**

**2.1 Basis of presentation**

**2.1.1 Statement of compliance**

The accompanying interim condensed financial statements are prepared in accordance with the Communiqué Serial II, No: 14.1, “Principals of Financial Reporting in Capital Markets” published in the Official Gazette numbered 28676 on 13 June 2013. According to the article 5 of the Communiqué, financial statements are prepared in accordance with Turkish Accounting Standards / Turkish Financial Reporting Standards (“TAS” / “TFRS”) and its addendum and interpretations (“IFRIC”) issued by the Public Oversight Accounting and Auditing Standards Authority (“POAASA”) Turkish Accounting Standards Board.

The Company prepared its condensed interim financial statements for the period ended 30 September 2023 in accordance with (“TAS”) 34 “Interim Financial Reporting” in the framework of the Communiqué Serial II, No: 14.1, and its related announcement. The condensed interim financial statements and its accompanying notes are presented in compliance with the format recommended by CMB including its mandatory information.

In compliance with the TAS 34, entities have preference in presenting their interim financial statements whether full set or condensed. In this framework, the Company preferred to present its condensed financial statements. The Company’s condensed interim financial statements do not include all disclosure and notes that should be included at year-end financial statements. The financial statements are presented in accordance with the “TFRS taxonomy” published by POA on 4 October 2022 and the formats specified in the Financial Statement Examples and User Guide published by CMB. Therefore the condensed interim financial statements should be read in conjunction with the financial statements as at 31 December 2022.

The Company maintains its accounting records and prepares its statutory financial statements in accordance with the Turkish Commercial Code (“TCC”), tax legislation and the uniform chart of accounts issued by the Ministry of Finance. The financial statements, except for land, buildings and land improvements and the financial assets and liabilities presented with their fair values, are maintained under historical cost conversion in TL. These financial statements are based on the statutory records which are maintained under historical cost conversion, with the required adjustments and reclassifications reflected for the purpose of fair presentation in accordance with the TAS/TFRS.

With the decision 11/367 taken on 17 March 2005, the CMB announced that, effective from 1 January 2005, the application of inflation accounting is no longer required for the companies operating in Turkey and preparing their financial statements in accordance with CMB Financial Reporting Standards. Accordingly, TAS 29, “Financial Reporting in Hyperinflationary Economies” issued by the IASB, has not been applied in the financial statements for the accounting year commencing from 1 January 2005.

**VESTEL BEYAZ EŞYA SANAYİ VE TİCARET ANONİM ŞİRKETİ NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE INTERIM PERIOD 1 JANUARY – 30 SEPTEMBER 2023**

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise indicated.)

---

**NOTE 2 – BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Cont'd)**

**2.1 Basis of presentation (Cont'd)**

**2.1.1 Statement of compliance (Cont'd)**

In accordance with the announcement of POA on January 20,2022, companies that apply TFRS should not adjust financial statements for TAS 29 for the year ended 31 December 2021. As of the preparation date of the financial statements, POA did not make an additional announcement and no adjustment was made to the financial statements for 30 September 2023 in accordance with TAS 29.

**2.2 Offsetting**

All items with significant amounts and nature, even with similar characteristics, are presented separately in the financial statements. Insignificant amounts are grouped and presented by means of items having similar substance and function. When the nature of transactions and events necessitate offsetting, presentation of these transactions and events over their net amounts or recognition of the assets after deducting the related impairment are not considered as a violation of the rule of non-offsetting. As a result of the transactions in the normal course of business, revenue other than sales are presented as net if the nature of the transaction or the event qualify for offsetting.

**2.3 Comparative information and restatement of prior period financial statements**

Financial statements of the Company have been prepared comparatively with the preceding financial period, in order to enable determination of trends in financial position and performance. Comparative figures are reclassified, where necessary, to conform to changes in presentation in the financial statements.

**2.4 Restatement and errors in the accounting estimates**

Major changes in accounting policies are applied retrospectively and any major accounting errors that have been detected are corrected and the financial statements of the previous period are restated. Changes in accounting policies resulting from the initial implementation of a new standard, if any, are implemented retrospectively or prospectively in accordance with the transition provisions. If changes in accounting estimates are related to only one period, they are recognized in the period when changes are applied; if changes in estimates are related to future periods, they are recognized both in the period where the change is applied and future periods prospectively.

**NOTE 2 – BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Cont'd)**

**2.5. Amendments in Turkey Financial Reporting Standards**

**a) Standards, amendments, and interpretations applicable as of 30 September 2023:**

**Narrow scope amendments to TAS 1, Practice statement 2 and TAS 8;** effective from annual periods beginning on or after 1 January 2023. The amendments aim to improve accounting policy disclosures and to help users of the financial statements to distinguish between changes in accounting estimates and changes in accounting policies.

**Amendment to TAS 12 – Deferred tax related to assets and liabilities arising from a single transaction;** effective from annual periods beginning on or after 1 January 2023. These amendments **require** companies to recognise deferred tax on transactions that, on initial recognition give rise to equal amounts of taxable and deductible temporary differences.

**Amendment to TAS 12 - International tax reform - pillar two model rules;** The deferred tax exemption and disclosure of the fact that the exception has been applied, is effective immediately. The other disclosure requirements are effective annual periods beginning on or after 1 January 2023. These amendments give companies temporary relief from accounting for deferred taxes arising from the Organisation for Economic Co-operation and Development's (OECD) international tax reform. The amendments also introduce targeted disclosure requirements for affected companies.

**b) Standards, amendments, and interpretations that are issued but not effective as of 30 September 2023:**

**Amendment to TAS 1 – Non current liabilities with covenants;** effective from annual periods beginning on or after 1 January 2024. These amendments clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability.

**Amendment to TFRS 16 – Leases on sale and leaseback;** effective from annual periods beginning on or after 1 January 2024. These amendments include requirements for sale and leaseback transactions in TFRS 16 to explain how an entity accounts for a sale and leaseback after the date of the transaction. Sale and leaseback transactions where some or all the lease payments are variable lease payments that do not depend on an index or rate are most likely to be impacted.

**Amendments to TAS 7 and TFRS 7 on Supplier finance arrangements;** effective from annual periods beginning on or after 1 January 2024. These amendments require disclosures to enhance the transparency of supplier finance arrangements and their effects on a company's liabilities, cash flows and exposure to liquidity risk. The disclosure requirements are the IASB's response to investors' concerns that some companies' supplier finance arrangements are not sufficiently visible, hindering investors' analysis

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise indicated.)

---

**NOTE 2 – BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Cont'd)**

**2.5. Amendments in Turkey Financial Reporting Standards (Cont'd)**

**TFRS S1, ‘General requirements for disclosure of sustainability-related financial information;** effective from annual periods beginning on or after 1 January 2024. This is subject to endorsement of the standards by local jurisdictions. This standard includes the core framework for the disclosure of material information about sustainability-related risks and opportunities across an entity's value chain.

**TFRS S2, ‘Climate-related disclosures’;** effective from annual periods beginning on or after 1 January 2024. This is subject to endorsement of the standards by local jurisdictions. This is the first thematic standard issued that sets out requirements for entities to disclose information about climate-related risks and opportunities.

**2.6 Going concern**

The Company prepared financial statements in accordance with the going concern assumption.

**2.7. Summary of significant accounting policies**

The condensed interim financial statements for the period ended September 30, 2023 have been prepared in accordance with TAS 34. The accounting policies used in the preparation of the condensed interim financial statements for the period ended September 30, 2023 are consistent with those used in the preparation of annual financial statements for the year ended December 31, 2022. Accordingly, these condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended December 31, 2022.

**2.8. Critical accounting estimates and judgments**

The frequency of revaluations is determined to ensure that the carrying amounts of the revalued items of property, plant and equipment are not materially different from their fair values at the end of the reporting period. The frequency of revaluations depends on the change in the fair value of the items of property, plant and equipment. Where the fair value of a revalued asset is considered to be materially different from its carrying amount, the revaluation is required to be repeated and this is done for the entire asset class in which the revalued asset is included as of the same date. On the other hand, it is not considered necessary to repeat the revaluation of property, plant and equipment whose fair value changes are insignificant.

In this context, as a result of the assessments made by the Company management, it is assumed that the fair values of land, buildings and land improvements determined in the valuation studies performed as of December 31, 2022 will converge to their respective fair values as of September 30, 2023 after deducting current period depreciation.

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise indicated.)

**NOTE 3 - SEGMENT REPORTING**

Operating segments are identified on the same basis as financial information is reported internally to the Company's chief operating decision maker. The Company Board of Directors has been identified as the Company's chief operating decision maker who is responsible for allocating resources between segments and assessing their performances. The Company management determines operating segments by reference to the reports reviewed by the Board of Directors to make strategic decisions.

The Management believes that the Company operates in a single industry sector as the risks and returns for the activities do not show any material difference because the scope of activity covers only the production of white goods and the production processes and classes of customers are similar. As a result all information related to the industrial segment has been fully presented in the attached financial statements.

The Management has decided to use geographical segments for segment reporting considering the fact that risks and returns are affected by the differences in geographical regions.

**Long term provisions for employee benefits:**

	<b>30 September 2023</b>	<b>31 December 2022</b>
Provision for employment termination benefits	509.393	518.760

Under Turkish law, the Company is required to pay employment termination benefits to each employee whose employment is terminated without due cause. In addition, under the existing Social Security Law No. 506, clause No. 60, amended by the Labor Laws dated 6 March 1981, No. 2422 and 25 August 1999, No. 4447, the Company is also required to pay termination benefits to each employee who has earned the right to retire by receiving termination indemnities.

The amount payable is the equivalent of one month's gross salary for each year of service and is limited to a maximum of TL 23.489,83 TL/ year as of 30 September 2023 (31 December 2022: TL 15.371,40 /year).

The provision for employee termination benefits is not funded.

(Amounts expressed in thousands of Turkish Lira (“TL”) unless otherwise indicated.)

**NOTE 16-EMPLOYEE BENEFITS (Cont'd)**

The provision is calculated by estimating the present value of the future obligation of the company arising from retirement of employees. Turkish Accounting Standards No: 19 (“Employee Benefits”) requires actuarial valuation methods to be developed to estimate the enterprise’s obligation under defined employee plans. Accordingly actuarial assumptions were used in the calculation of the total liability which is described below:

The principal assumption is that the maximum liability for each year of service will increase in line with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. An expected inflation rate and appropriate discount rate should both be determined, the net of these being real discount rate. Consequently in the accompanying financial statements as at 30 September 2023 the provision is calculated by estimating the present value of the future obligation of the company arising from retirement of employees. As of 30 September 2023 provision is calculated based on real discount rate of 2% (31 December 2022: 2%) assuming 13,53 % annual inflation rate and 15,80% discount rate.

The main assumption is that the seniority ceiling for each year of service increases in line with inflation. Thus, the discount rate applied represents the actual rate adjusted for the expected effects of inflation. As the maximum liability is revised every six months, the maximum amount of TL 23.489,83 (1 January 2023: TL 19.982,83) effective from 1 July 2023 has been taken into consideration in calculating the reserve for employment termination benefits of the Company.

The movements in the provision for employment termination benefit are as follows:

**e) Dividend distribution**

For quoted companies dividends are distributed in accordance with the Communiqué Serial II -19.1 on “Principals Regarding Distribution of Interim Dividends” issued by the CMB effective from 1 February 2014.

Companies distribute dividends in accordance with their dividend payment policies settled and dividend payment decision taken in general assembly and in conformity with relevant legislations. The communiqué does not state a minimum dividend rate. Companies distribute dividends in accordance with the method defined in their dividend policy or articles of association. Additionally, dividend can be distributed in fixed or variable installments and dividend advances can be paid over the profit on interim financial statements.

Unless the general reserves that has to be appropriated in accordance with TCC or the dividend to shareholders as determined in the articles of association or dividend policy are set aside; no decision can be taken to set aside other reserves, to transfer reserves to the subsequent year or to distribute dividends to holders of redeemed shares right certificates, to board of directors members or to employees; and no dividend can be distributed to those unless the determined dividend to shareholders is paid in cash.

On the other hand, in accordance with the Articles of Association of the Company, up to 5% of retained earnings after dividend distribution could be allocated to the Board of Directors or used for certain reasons designated by the Board of Directors when necessary.

- Based on the approval of the General Assembly, up to 3% of retained earnings after dividend distribution could be allocated to plant investments designated in accordance with article of 468 in TCC,
- Up to 5% of retained earnings after dividend distribution could be allocated to the Board of Directors as necessary,
- Up to 5% of retained earnings after dividend distribution could be allocated to donations, bonuses etc.

In accordance with the provisions of the Turkish Commercial Code and the Tax Procedure Law, the Company paid TL 352,828 to the shareholders in cash as dividend for the 2022 accounting period (gross TL 0.2205, net TL 0.1985 for each share with a nominal value of TL 1.00).

Pursuant to paragraph 1 of Article 6 of the Corporate Tax Law No. 5520, corporate tax is calculated on the net corporate income of the taxpayers for an accounting period.

Pursuant to paragraph 2 of the same article, by taking into account the provisions of Income Tax Law No. 193 on commercial income, pure corporate income is calculated by adding legally unacceptable expenses to the commercial income and deducting the exempt earnings and discounts from the commercial income.

With the amendment made to Article 32 of the Corporate Tax Law No. 5520 with Article 21 of the Law No. 7456, corporate taxpayers other than banks, companies within the scope of the Law No. 6361, electronic payment and money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies are subject to corporate tax at the rate of 25% on their net corporate earnings in 2023 and the following taxation periods. For banks, companies within the scope of Law No. 6361, electronic payment and money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies, the same legal amendment set the rate at 30%.

**NOTE 24 – TAXES ON INCOME (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES) (Cont'd)**

The above-mentioned amendment regarding the corporate tax rate will take effect starting from the declarations to be submitted on October 1, 2023. For the declarations submitted before this date, the corporate tax rate is 20%.

In addition to the corporate tax levied on corporate income, withholding income/corporate tax burden may arise if all or part of the profits of corporations are subject to profit distribution. By full taxpayer corporations;

- Full taxpayer real persons,
- For non-income and corporate taxpayers,
- For those exempt from income tax,
- Narrow taxpayer real persons,
- Limited taxpayers exempt from income tax,
- Institutions exempt from corporate tax,
- To limited taxpayer corporations or limited taxpayers exempt from corporate tax, except for those who obtain dividends through a place of business or permanent representative in Turkey,

In case of dividend distribution, 10% withholding income/corporate tax is payable. According to the Turkish tax legislation, capitalization of profit is not considered as dividend distribution.

Corporations are required to calculate advance tax on their quarterly earnings for the first 9 months of their accounting periods in accordance with the principles set out in the Income Tax Law No. 193 and at the corporate tax rate and declare it until the 17th day of the second month following that period and pay it until the evening of the 17th day.

Advance tax paid during the year belongs to that year and is deducted from the corporate tax to be calculated on the corporate tax return to be submitted in the following year.

Corporations are exempt from corporate tax on 75% of the gains arising from the sale of participation shares included in their assets for at least two full years and 25% of the gains arising from the sale of immovables included in their assets on July 15, 2023 for the same period.

As of July 15, 2023, corporate tax exemption is not applied to the gains arising from the sale of immovables taken into assets.

**NOTE 24 – TAXES ON INCOME (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES) (Cont'd)**

Under Turkish tax legislation, tax losses carried forward can be carried forward to offset against future taxable income for up to 5 years. However, tax losses cannot be offset against retained earnings.

In Turkey, there is no such practice as reconciliation with the tax authority on taxes payable. Corporate tax returns are required to be filed with the tax office by the 30th of the fourth month following the close of the accounting period and corporate tax is payable within the same period.

However, tax authorities may examine the accounting records within five years and the amount of tax payable may change if incorrect transactions are detected.

Earnings from the Company's investments subject to incentive certificates are subject to corporate tax at reduced rates from the accounting period in which the investment starts to be operated partially or completely until the investment contribution amount is reached.

Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which they can be utilized. Where it is probable that taxable income will be available, deferred tax assets are recognized in respect of deductible temporary differences, tax losses and tax advantages arising from investment incentives with indefinite useful lives that allow for the payment of reduced corporate income tax.

Due to modernization, plant extension and investments incentive documents in Manisa Organized Industrial Zone, the Company has reduced rate of corporate tax advantage.

As of September 30, 2023, the tax advantage amounting to TL 579.717 that the Company will benefit from in the foreseeable future is reflected in the financial statements as deferred tax asset. In line with the precautionary principle of accounting and in line with the budget made by the Company, the tax advantage arising from the investment incentives that the Company expects to benefit from in the coming year has been recognized as deferred tax asset in the financial statements.

**NOTE 24 – TAXES ON INCOME (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES) (Cont'd)**

However, the tax advantage amounting to TL 3.031.011 that the Company is entitled to use has not been recognized in deferred tax assets in accordance with the precautionary principle of accounting. Total tax advantage arising from investment incentive certificate used in the current period is TL 614.012.

The Company assesses the recoverability of deferred tax assets related to investment incentives based on business models that include estimates of taxable profit. These business models include forward-looking management estimates such as sales volumes, selling prices and exchange rate expectations. As a result of the sensitivity analyses on the forward-looking use of investment incentives, it has been concluded that a 10% increase/decrease in the related estimates has no impact on the recoverability of the related deferred tax assets.

**NOTE 27 – FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT**

**Foreign currency risk:**

The Company is exposed to exchange rate risk due to its foreign currency denominated transactions. The main principle of foreign currency risk management is to maintain foreign exchange position at the level that minimizes the impact of foreign exchange fluctuations.

Derivative instruments are used in foreign currency risk management where necessary. In this respect the Company mainly prefers using foreign exchange forward contracts.
