Mumbai, May 7, 2013: RPG Life Sciences Ltd., an RPG Group Company, announced its audited results for the financial year (FY) 2012-13 and unaudited results for the quarter ended (Q4) March 31, 2013.

For the year 2012-13, Net Sales increased by 14% to Rs.216.21 crores and Net Profit increased by 5 times over to Rs.4.41 crores as compared to FY 2011-12.

For the Q4 of FY 2012-13, Net Sales increased by 37% to Rs. 56.34 crores and Net Profit increased to Rs. 7.40 crores as compared to loss of Rs.5.69 Crores of the corresponding quarter of FY 2011-12.

All the Business verticals across API Synthetic & Fermentation, Generics and Domestic Formulations grew well, posting a 14% top-line growth year on year inspite of the non-availability of EUGMP certification during the financial year. During the year, investments were made in upgradation of manufacturing facilities, new product development and brand building for the domestic formulation business, thereby constraining the profitability, commented Mr. Ajit Singh Chouhan, the Managing Director of RPG Life Sciences Ltd. He further said, "We are pleased to state that we have since received multiple regulatory approvals of EUGMP certification from HHA, TGA Australia for Navi Mumbai API Plant, UKMHRA for Generic facility and WHO Certification for Fermentation API plant and Domestic Formulation facility. We strongly believe that in the current financial year all the investments and initiatives taken up till now would position the Company for growth in each of its verticals".
