An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Statement of Consolidated Financial Results. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Statement of Consolidated Financial Results, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Holding Company's preparation and fair presentation of the Statement of Consolidated Financial Results in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Holding Company's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the Statement of Consolidated Financial Results.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.
