JAYPEE RESOLUTION

JAL's ₹750 cr can't be part of NBCC resolution plan, says SC

FE BUREAU
New Delhi, October 8

THE WAIT FOR Jaypee Infratech (JIL) for the resolution and completion of its stalled projects may get longer. The Supreme Court on Thursday said the ₹750 crore deposited by JIL's parent firm, Jaiprakash Associates (JAL), pursuant to the apex court's May 2018 order, cannot be part of the NBCC resolution plan, and the state-owned construction firm cannot use it for construction of the stalled residential projects.

While JIL's promoter group has sought back the ₹750 crore, which was transferred from the SC registry to the National Company Law Tribunal (NCLT), NBCC has been opposing it on the grounds that the amount was an integral part of its resolution plan for the acquisition and completion of JIL's projects.

NBCC vehemently opposed the transfer of money to JAL, saying that it cannot be forced to execute the project in this situation. However, a Bench led by Justice AM Khanwilkar, while reserving its judgment on a huge batch of appeals and petitions, said the money belongs to JAL and it would restrain NBCC from withdrawing from the project in case the money is given back to the parent company. However, some part of the deposit (around ₹200 crore plus interest) will be adjusted with JIL (corporate debtor), it said.

Both the bidders, NBCC and Mumbai-based Suraksha Realty, had included the ₹750 crore in their resolution plans.

The Supreme Court had in August transferred to itself all the appeals pending before the NCLAT to ensure that there is no further delay in execution of the approved resolution plan of state-owned NBCC, and 20,000 homebuyers get possession of their stalled flats.

However, homebuyers are hopeful that the Supreme Court will uphold the resolution plan and direct the NBCC to implement the resolution plan. "We hope the NBCC's RP will go through and the court can retain NBCC, which can complete the residential flats," lawyers added.

While NBCC had offered land and road assets to lenders under a land-debt swap deal, the NCLT, while approving its resolution plan, had made "unilateral" and "arbitrary modifications" by allowing objections of dissenting creditor ICICI Bank and Yamuna Expressway Industrial Development Authority even as the plan was approved by a majority of 97.36% vote in the Committee of Creditors.

An IDBI Bank-led consortium had initiated insolvency proceedings against JIL for failing to repay total debt of around ₹24,000 crore.

State-owned NBCC has vehemently opposed the transfer of money to JAL, saying that it cannot be forced to execute the project in this situation

Mercedes drives in first electric car to India at ₹99.3L

The EQC will be available in 6 cities in the first phase

FE BUREAUS
New Delhi/Pune, October 8

GERMAN LUXURY carmaker Mercedes-Benz is seeing a 25% month-on-month growth in sales numbers after the lockdown and hopes to come back to last year's level soon.

"We have already reached 70-80% of pre-Covid-19 level sales," Mercedes-Benz India MD & CEO Martin Schwenk said.

New car sales in the luxury segment are also coming from those who have shifted from air traffic to road traffic. On certain routes such as Delhi-Jaipur or Bengaluru-Chennai or Mumbai-Pune, a lot of people earlier used to take flights but now that entire traffic has moved to the roads. "There are people doing those routes who want safer and more luxurious cars, and that is driving luxury car sales to an extent," he said. "We are seeing more and more customers who want to buy, for example, the E-Class, because they don't want to fly on shorter routes that can be done on a car in 3-5 hours."

On Thursday, Mercedes launched the EQC electric car, priced ₹99.3 lakh (ex-showroom). This price, for the first 50 units, includes the AC wall-box charger, home electrical charger, five-year unlimited on-road assistance, five-year service package, five-year unlimited km extended warranty, and 8 years, 160,000 km battery cover.

The EQC, a CBU import, has a range of 450 km on full charge, and for inter-city travel Mercedes-Benz India has more than 100 charging points in 48 cities; these are equipped with wall-box charging facility.

"There is a growing number of luxury car owners who want a luxury EV. There is no option in the Indian market right now and we have the first-mover advantage here. The green number plate, we think, will attract new customers," Schwenk said.

The EQC is being launched in six cities in the first phase (Delhi, Mumbai, Pune, Bengaluru, Hyderabad and Chennai), and will be launched in other metro cities later.

Legal recourse: Valli slaps legal notice on Murugappa group

Last month, AIL shareholders comprising largely family members, voted against a resolution to appoint her as a non-executive director of the company with 91.36% of votes cast against her appointment.

"With the family voting unanimously to reject appointment to the AIL board, we have seemingly reached the end of the road for an amicable settlement," she said in a statement.

Valli has pointed out how other less qualified and less experienced family members have been appointed to the board simply because they were male.

Valli said a considerable portion of her late father's estate has been tied to AIL, and it was entirely unreasonable to expect her family to relinquish control and visibility over these holdings to the broader Murugappa family. To date, no logical or legally valid explanation has been provided by the Murugappa family as to why her family should be subordinated in this manner. "Given how the Murugappa family has treated our family branch over the past three years, we have no confidence that our substantial stake in the family business will be safeguarded by them. Perhaps most confounding to us is that the Murugappa family has attempted to project their stand as principled and righteous," Valli said.

Under the Hindu Succession (Amendment) Act, 2005, women can become the karta or head of the family and daughters can become coparceners and inherit as much as sons. Arunachalam is the karta of the MVM Hindu undivided family, which holds the stake in Ambadi Investments. AIL is the holding company of the ₹38,000-crore Murugappa Group.

Nilekani on Covid vaccine: Set up Aadhaar-like model for 10 million doses a day

Highlighting the enormity of the vaccination challenge, Nilekani said the Aadhaar system enrolled 1.5 million citizens a day and it took the UIDAI five-and-a-half years to cover a billion-plus people. "(But) here the entire population needs to be vaccinated in 2 years. If it's a dual-dose vaccination, it would mean 2.6 billion vaccinations in 2 years. That is over 100 million vaccinations a month, which is more than 3 million a day. So this is a scale challenge which is unprecedented in our history," he added.

On the issue of pricing, Nilekani said the government has to bear the responsibility of vaccinating a large segment of the population for free through programmes like the Ayushman Bharat, while the private sector needs to take the onus of vaccinating their employees as well as family members. The vaccinations can also be made a part of the corporate social responsibility so that companies can invest in such programmes against their CSR obligations, he added.

Asked about an antitrust proposal by the US House of Representatives that contains a "thinly veiled call to break up" large technology firms like Apple, Amazon, Facebook and Google, the non-executive chairman of Infosys said he believed in using the technology to solve any issue relating to technology itself. "The best antidote for all this is technology and rules for technology done in an innovative way, which is what India is doing". "By creating a neutral ID system like Aadhaar or a UPI platform which allows multiple fintech companies and banks to participate, we have democratized access to identity and payments".

Responding to a question as to why India, despite having highly talented professionals to head giant global tech corporations, hasn't been able to create a Facebook or a Google, Nilekani said, unlike the US, our country doesn't have a large digital advertising market worth hundreds of billions of dollars. Even Chinese players like Alibaba and Tencent had the benefit of a large local market as well as government protection to grow in strength before they went overseas to acquire further scale. India's digital advertising in 2019 stood at just ₹13,683 crore, according to a report by the Dentsu Aegis Network.

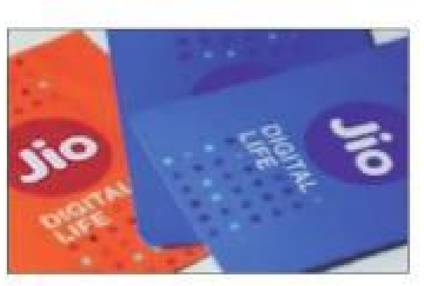
The issue of fake news through social media, Nilekani said, had its origins in the fact that social media is treated like a platform – the village square – where the owners have no legal liability for what is posted. If, however, "like you guys", there is a process of holding the platform responsible, things could look different.

Jio designed to help country lead 4th industrial revolution, says RIL CMD Mukesh Ambani

New Delhi, October 8

HAVING MISSED MOST of the first three industrial revolutions, India has its chance to lead the fourth one through a convergence of its IT prowess, ultra-high-speed internet connectivity and affordable smart devices, billionaire Mukesh Ambani said on Thursday.

The richest Indian man, who heads the nation's most valuable company Reliance Industries, said his group's telecom and digital unit Jio was conceived to provide the key ingredients needed to lead the fourth industrial revolution.



India missed the first two industrial revolutions and the changes brought about by them. During the third industrial revolution, where IT came to prominence, India joined the race but still remained behind, trying to catch up with the leaders.

"As we step into the fourth industrial revolution, India has the opportunity, not just to catch up with the leaders but to emerge as a global leader itself," he said at TM Forum's Digital Transformation World Series.

The fourth industrial revolution, he said, is driven by the convergence of digital and physical technologies such as digital connectivity, cloud and edge-computing, IoT and smart devices, AI, robotics, blockchain, AR/VR and genomics. "And the three foundational requirements needed to participate in this revolution are ultra-high-speed connectivity, affordable smart devices and transformational digital apps. Jio was conceived to enable this journey," he said. **—PTI**

ITC: Will focus on expanding dairy footprint in east in next few years

FE BUREAU
Kolkata, October 8

ITC, WHICH FORAYED into the milk category two years ago, will focus on expanding its range and footprint of fresh dairy products in eastern India in the next few years.

The conglomerate produces fresh dairy products like pouch milk, pouch curd, paneer and lassi, ghee and milkshakes.

"For the pouch milk and fresh dairy offerings, we will focus on east India for superior business in the next few years. We would like to expand our range and footprints in West Bengal and Bihar," Sanjay Singal, chief operating officer, Dairy and Beverages, ITC, said while launching Aashirvaad Svasti Select, a new milk variant, in Kolkata on Thursday.

ITC's pouch milk is available only in Kolkata and 23 cities in Bihar, while ghee is available in six states. Although the company is currently selling its milkshakes only in the south, it will be making them available in many of the big markets.

"In terms of market share in pouch milk, we have reached a very comfortable [figure of] 8-10% in Kolkata, and it is growing," he said.
