Ref: your email dt. 18.08.2021

Dear Sir,

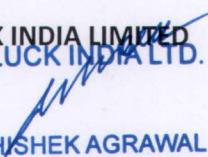

Sub: Clarification – Corporate Announcement

This has reference to your email dt. 18.08.2021 in regard to the clarification sought in relation to our announcement submitted with exchange on 17.08.2021 for Production Capacity Enhancement. Our point wise clarification is as follows:

- | | | |
|----------------------------------|---|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Existing capacity utilization | : | The existing capacity for CDW tubes is fully utilized (90%). |
| 2. Investment required | : | Rs. 6 Cr. |
| 3. Mode of financing | : | Internal Accrual |
| 4. Rationale | : | The Company foresees a strong demand from overseas buyer. The Company has been a dominant player in US market for last so many years and demand in Auto Sector is in accelerated mode worldwide. After COVID, Auto demand has picked up in India as well. So to cater the increased demand, the enhancement is required as the plant is already running at maximum production capacity. |

Hope you will find the same in order.

Thanking You.
