AURIONPRO SIGNS DEFINITIVE AGREEMENTS TO SELL ITS E2E INFOTECH BUSINESS TO LONG-TERM PARTNER CAMERONTEC

July 01, 2013 – London, U.K. (Marketwire)

Aurionpro Solutions, a leading software and consulting services firm, today announced that it has signed definitive agreements to sell its Capital Markets technologies business, E2E infotech, to CameronTec Intressenter AB. CameronTec, a long-standing partner of E2E, is the global standard in connectivity technology and trading infrastructure. E2E provides solutions and services that are fully complementary to CameronTec's current offerings and is expected to accelerate the growth of the combined company.

The decision by Aurionpro's Executive Management Team and Board of Directors to approve the transaction was based on a comprehensive review of the company's corporate strategy and targeted business objectives. Divesting the E2E business will enable the company to focus more sharply on its core business lines.

"While E2E was peripheral to Aurionpro's core business, it has been a consistently strong performer and has provided industry-leading services and solutions to its Capital Markets customers," reflected Samir Shah, Aurionpro's Global COO. "CameronTec's focus is fully aligned with E2E's value proposition and the complementary solution set will enable the company to provide an expanded suite of offerings to its combined client base and increase its competitive advantage."

Anders Henriksson, CameronTec's CEO, added: "Today's announcement is a natural and welcome progression resulting from several years of operational collaboration with E2E. This addition fits well with CameronTec's connectivity and trading business and is in-line with our customer interests. We see good growth opportunities to address both standard and bespoke solution integrations when supporting CameronTec's product portfolio."

The closing of the transaction remains subject to the completion of closing conditions and applicable regulatory approvals.

About Aurionpro

Aurionpro Solutions (NSE: AURIONPRO) (BSE: 532668) is a publicly traded technology company that helps Fortune 1000 companies to be more efficient through domain-driven software and consulting offerings.
