Tata Communications readies Sky for Ultra High Definition ahead of 2017 FIA Formula One World Championship™ season

London, UK – September 21st, 2016 – Tata Communications, Official Connectivity Provider of Formula 1®, Formula One Management and Sky have tested in action live Ultra High Definition (UHD) broadcasting at the 2016 FORMULA 1 SINGAPORE AIRLINES SINGAPORE GRAND PRIX. Following this first ever end-to-end broadcast of an F1® race in UHD, Sky will show [all races of the 2017 season](#) in UHD.

The successful proof of concept involved the installation of multiple state-of-the-art UHD cameras at the Singapore circuit. The footage from these was mixed in the FOM Broadcast Centre onsite, and the UHD output distributed live to Sky's HQ in Osterley in the UK using Tata Communications' Video Connect service. Video Connect enables broadcasters to deliver live video feeds over the world's largest wholly-owned subsea fibre network, ensuring the highest quality experience for viewers.

"This proof of concept with Sky and Tata Communications demonstrates our ongoing commitment to make F1® the ultimate sports experience by harnessing the power of cutting-edge broadcasting technologies," says John Morrison, Chief Technical Officer of Formula One Management.

"Delivering the race action seamlessly in UHD from any Grand Prix location to homes requires superfast, reliable connectivity on a global scale," says Mehul Kapadia, Managing Director of F1® Business at Tata Communications. "And, other game-changing technologies like virtual reality will rely on ubiquitous, superfast connectivity too. As the break-neck speed of technology innovation continues, we'll work with Formula One Management to enable fans to experience the exhilarating world of F1® in new ways."

"We pride ourselves on being an extremely forward-thinking F1® broadcaster with a special focus on innovation," says Keith Lane, Director of Operations at Sky. "UHD offers four times higher resolution than HD, making F1® a more powerful, immersive experience for fans than ever before. The success of this proof of concept in Singapore shows that we're on track to show every race live in UHD next season using our next-generation Sky Q home entertainment service, and to continue to give our customers the action-packed F1® experiences that they crave."

The UHD test in Singapore follows a series of other ambitious proof of concepts by Tata Communications and Formula One Management around [live Over the Top content delivery](#) and [4K broadcasting](#).

Ends...

About Tata Communications

Forward-looking and cautionary statements

Certain words and statements in this release concerning Tata Communications and its prospects, and other statements, including those relating to Tata Communications' expected financial position, business strategy, the future development of Tata Communications' operations, and the general economy in India, are forward-looking statements. Such statements involve known and unknown risks, uncertainties and other factors, including financial, regulatory and environmental, as well as those relating to industry growth and trend projections, which may cause actual results, performance or achievements of Tata Communications, or industry results, to differ materially from those expressed or implied by such forward-looking statements. The important factors that could cause actual results, performance or achievements to differ materially from such forward-looking statements include, among others, failure to increase the volume of traffic on Tata Communications' network; failure to develop new products and services that meet customer demands and generate acceptable margins; failure to successfully complete commercial testing of new technology and information systems to support new products and services, including voice transmission services; failure to stabilize or reduce the rate of price compression on certain of the company's communications services; failure to integrate strategic acquisitions and changes in government policies or regulations of India and, in particular, changes relating to the administration of Tata Communications' industry; and, in general, the economic, business and credit conditions in India. Additional factors that could cause actual results, performance or achievements to differ materially from such forward-looking statements, many of which are not in Tata Communications' control, include, but are not limited to, those risk factors discussed in Tata Communications Limited's Annual Reports. The Annual Reports of Tata Communications Limited are available at www.tatacommunications.com. Tata Communications is under no obligation to, and expressly disclaims any obligation to, update or alter its forward-looking statements.
