MLSL unveils "Nguru MathPlus" – one-stop solution for an immersive experience of learning, practicing and having fun with multi-sensory approach

Engages learner in the process of learning, aiming to remove 'fear of Math' at an early age

New Delhi, February 21, 2017: MindChampion Learning Systems Limited (MLSL), NIIT's wholly owned subsidiary for its K-12 school learning initiative, unveiled **Nguru MathPlus** – a unique solution designed for fostering mathematical skills using colours, shapes and real-life examples. The program has been carefully designed for students of class 1 to class 8, keeping in mind the guidelines of the National Curriculum Framework (NCF 2005) developed by NCERT. Nguru MathPlus is highly engaging, makes students curious and interested in the concept, encouraging them to want to know more. It provides insight to the learner on various career options and highlights the relevance of math in real life.

Nguru MathPlus emphasizes experiential learning for the students, using TLM-Lab-App (Teaching Learning Material-Laboratory-Application) combo that brings the best of inter-connected resources that can be used for learning Math in a fun way. Interesting elements like comic strips, interactivities, Multimedia (through QR codes) have been incorporated keeping in mind the interest of the age-group. All the components of the solution work in a coherent manner to accomplish the L-A-D approach (Learn-Apply-Diagnose). The Nguru MathPlus Book Series is completely based on Robert Mills Gagne's "Nine Steps of Instruction" – an American Education Psychologist best known for his "conditions of learning". This is the first book series all over India which is based on this theory.

Nguru MathPlus is an effective program for kids which facilitates and empowers them with practical math experience instead of the monotonous rote learning followed since ages. It uses 360-degree approach to help students explore mathematics through interesting curriculum books, intriguing MathLab that includes digital/physical activities, app-based logins to help students practice sitting at home, and provides assessment and report of students' progress.

Speaking on the occasion **Mr. Gavin Dabreo, CEO, MindChampion Learning Systems Limited (MLSL)**, said, *"Math in its true sense is a colorful world, full of shapes, figures and patterns. In its original form, it is as much fun and as fundamental for a child's cognitive development as playing, talking & reading. However, children start fearing the subject at an early age. Many a research has shown that this fear stems from rote teaching-learning techniques and parenting practices that play a key role in students getting disconnected from Math. Nguru MathPlus is an innovative product that engages the learner in the process of learning, aiming to remove the 'fear of Math'. All stakeholders – students, parents & teachers are able to relate to Math intuitively through real life applications, thus making the subject interesting and fun."*

Nguru MathPlus way of learning Math makes it an immersive experience, making learning co-incident. It is delivered through state-of-art courseware for students of classes 1 to 8 and also offers QR code for accessing digital content from home. The process of learning is made more realistic and hence, curbs the 'fear of math' at early age. Library of projects for all classes with

guidelines and worksheets integrated in course material, app based teaching-learning material, lesson plan for all classes, question bank for each concept are other unique features of this solution.

NIIT Nguru is a holistic range of School Learning Solutions which aims to make the vital process of teaching and learning simpler, thus bringing back the joy of learning for students.

About MindChampion Learning Systems Limited

As NIIT's wholly owned subsidiary for its K-12 school learning initiative - **MindChampion Learning Systems Limited (MLSL)**, is providing technology based learning to around 2,000 private schools across India, reaching out to more than a million students.
