Dear Sir,

Sub : Press Release - Alstom T&D India Limited announces Q1, 2013-14 results

Please find enclosed herewith Press Release titled – “Alstom T&D India Limited announces Q1, 2013-14 results”.

Thanking you,

Yours faithfully,
For ALSTOM T&D India Limited

Manoj Prasad Singh
Company Secretary

Encl: As above

30th July 2013

Alstom T&D India Limited announces Q1, 2013-14 results

Alstom T&D India Limited announced its financial results on July 27, 2013, for the first quarter ended June 2013, following approval by the company's Board of Directors.

The company continues to maintain a healthy backlog of 63 BINR by winning 7 BINR orders during the last quarter. Sales revenue was 5.6 BINR and Profit After Tax was 151 MINR.

Despite the challenging economic environment, the company succeeded in winning new Orders at better margins during the quarter. The market continues to be sluggish and decisions on major orders were postponed.

The main orders won by the company were from Central and State Utilities such as Power Grid, WBSETCL APTRANSCO, MSETCL and CSEPTCL. These orders were in the domain of Air-Insulated and Gas-Insulated Substations, Network Management Systems, Load despatch Systems and Reactors ranging from 220 kV to 765 kV. The company continues to maintain its market leadership position.

The company won 'Best International Exhibitor' award at the prestigious Gridtech 2013 exhibition held at Delhi during April 2013 where it displayed its state-of-the-art Smart Grid model.

Commenting on the results, Mr Rathin Basu, Managing Director, Alstom T&D India said: *"Through consistent efforts, the company has succeeded in improving margin on new Orders quarter on quarter. A significant part of our Sales were postponed, despite having a healthy backlog of Order Book, due to delays in customer projects caused by prevailing uncertainty in the business environment. Alstom T&D India continues its efforts to optimise its cost structure to improve its profitability. The on-going SEB Financial Restructuring Plan is expected to create additional T&D demands in SEBs, IPPs and Industry for which we are geared to offer our high-end technology solutions."*

About Alstom

Alstom is a global leader in the world of power generation, power transmission and rail infrastructure and sets the benchmark for innovative and environmentally friendly technologies. Alstom builds the fastest train and the highest capacity automated metro in the world, provides turnkey integrated power plant solutions and associated services for a wide variety of energy sources, including hydro, nuclear, gas, coal and wind, and it offers a wide range of solutions for power transmission, with a focus on smart grids. The Group employs 93,000 people in around 100 countries. It had sales of over €20 billion and booked close to €24 billion in orders in 2012/13.

***Alstom T&D India** (globally known as Alstom Grid), is a market leader in the Indian power transmission sector. It has over 100 years of expertise in building the transmission infrastructure for the country. Alstom has a strong portfolio of products, solutions and services, comprising the entire range of transmission equipment up to Extra and Ultra High Voltages (765 kV and beyond) including air-insulated switchgear (AIS) and locally manufactured power transformers and gas-insulated switchgear (GIS). It also provides power electronics solutions (HVDC, FACTS) to create super highways and offers highly advanced power management Smart Grid solutions for transmission and distribution including renewable energies integration. With over 3,500 employees and eight world class manufacturing units, Alstom T&D India is future ready to support the rapidly evolving transmission sector in India.*
