Dear Sir,

Sub : Press Release - Alstom T&D India will supply turnkey substation at Bihta for BSPTCL

Please find enclosed herewith Press Release titled – “Alstom T&D India will supply turnkey substation at Bihta for BSPTCL”.

Thanking you,

Yours faithfully,
For ALSTOM T&D India Limited

Manoj Prasad Singh
Company Secretary

Encl: As above

2 January 2014

Alstom T&D India will supply turnkey substation at Bihta for BSPTCL

Alstom T&D India has secured an order worth INR 544 million (€6.5 million) approximately, for a turnkey 220kV Air-Insulated substation (AIS) at Bihta and associated 220/132/33kV bays extensions at various locations for Bihar State Power Transmission Company Limited (BSPTCL) in Bihar.

The state government of Bihar plans to add a number of new 400kV/220 kV voltage level substations at various locations in the state in near future. In this context, the substation at Bihta is important as it is the first in the series in the energy expansion plan of the state. It also aims to strengthen the state's transmission network at 220kV level.

The scope of this turnkey contract covers the design, engineering, manufacture, supply, testing, erection and commissioning of 220/ 132 / 33 KV AIS substation including supply of 2 Nos. 160 MVA and 2 Nos. 50 MVA transformers. In addition to this, all major equipment like circuit breakers, instruments transformers and control and protection system will be manufactured in Alstom T&D India's state-of-the-art manufacturing facilities spread across the country.

Commenting on the contract win, Rathin Basu, Managing Director, Alstom T&D India said, *"Alstom T&D India is happy to earn the confidence of BSPTCL to build the T&D infrastructure of the State. Alstom T&D India, with its leading edge technologies and turnkey project expertise, is strongly poised to support the transmission growth plans of Bihar. Alstom T&D India has a wide repertoire of products and solutions for the high voltage and ultra-high voltage electricity transmission."*

Bihar is one of the most rapidly growing states in India and it plans to revamp and replace its obsolete power as well as T&D infrastructure. These steps will aim to increase the capacity, reduce reliance on central pool as well as provide electricity to the end consumers.

About Alstom

Alstom is a global leader in the world of power generation, power transmission and rail infrastructure and sets the benchmark for innovative and environmentally friendly technologies. Alstom builds the fastest train and the highest capacity automated metro in the world, provides turnkey integrated power plant solutions and associated services for a wide variety of energy sources, including hydro, nuclear, gas, coal and wind, and it offers a wide range of solutions for power transmission, with a focus on smart grids. The Group employs 93,000 people in around 100 countries. It had sales of over €20 billion and booked close to €24 billion in orders in 2012/13.

Alstom T&D India is a market leader in the Indian power transmission sector. It has over 100 years of expertise in building the transmission infrastructure for the country. Alstom has a strong portfolio of products, solutions and services, comprising the entire range of transmission equipment up to Extra and Ultra High Voltages (765 kV and beyond) including air-insulated switchgear (AIS) and locally manufactured power transformers and gas-insulated switchgear (GIS). It also provides power electronics solutions (HVDC, FACTS) to create super highways and offers highly advanced power management Smart Grid solutions for transmission and distribution including renewable energies integration. With over 3,500 employees and eight world class manufacturing units, Alstom T&D India is future ready to support the rapidly evolving transmission sector in India.
