Dear Sir/ Madam,

This refers to the Company's Annual Report 2019-2020 filed with the Stock Exchanges on September 05, 2020. Kindly note that on page no 3, in Resolution No. 3, there was a typographical error where the words "subject to the approval of Members in the General Meeting, consent of the Board be and is hereby accorded for re-appointment of" were inadvertently added which have been accordingly rectified and approval of the Members have been accorded on such revised resolution at the 37th Annual General Meeting (AGM). The resolution which has been part of the Notice of the AGM and Annual Report 2019-20 has been accordingly modified.

The updated Annual Report is enclosed herewith.

We request you to kindly take the enclosed Annual Report on record. We also request all our shareholders and readers of the Annual Report to take note of the updated Annual Report.

We regret the inconvenience caused.

37th Annual Report 2019-20

Chairman's Speech

Dear Shareholders,

It gives me immense pleasure to present the 37th Annual Report of the Company to all of you.

I hope you and your family are safe and healthy. We are witnessing the most extraordinary times that none of us could have predicted at the start of this year. Ensuring the safety and well-being of our employees and their families was our highest priority. We enabled work from home as soon as lockdown was announced and continue to do so at certain locations.

During these extraordinary times of the COVID-19 pandemic, our Company has been contributing positively to the social and financial wellbeing towards our employees, customers, stakeholders, investors. In a short time, the pandemic has had a far-reaching impact globally, impacting the economy, our society and human life in all aspects. And yet, amidst all of this, we have seen some magnificent examples of human resilience, solidarity and innovation. In the current context, organisations have to be intensely future-oriented and we remain focused on our long-term strategy. Even though the impact of the pandemic was towards the end of the financial year, the outcome on our operations was substantial.

Coming to the Financials of your Company, the Revenue from operations of the Company on a Standalone basis for the year 2019-20 stood at ₹ 13,969.65 lakhs as against ₹ 13,338.51 lakhs in the previous year, reflecting stability of operations in an otherwise uncertain market. Profit before tax stood at ₹ 3,111.42 lakhs in FY 2019-20 as compared to ₹ 3,043.05 lakhs in the previous year. Net profit after tax stood at ₹ 2,313.12 lakhs for the FY 2019-20 as compared to ₹ 2,311.82 lakhs in the previous year. Even though the growth has been minimal yet your Company has made all the veracious efforts in sustaining with the ever changing dynamics of the market Your Company believes in developing itself with changing times and exploring newer avenues to continue to enhance shareholder value.

Your Company truly believes in giving back to all its stakeholders and the community at large. During the FY 2019-20, your Company had bought back 874,791 Equity Shares at an average price of ₹ 114.23/- per share for an aggregate consideration of ₹ 9,99,24,123.60/- and approved the closure of Buyback of Equity Shares on September 04, 2019. Your Company has further declared an interim dividend of ₹ 3.00/- per Share (i.e. 30%) on Equity Shares having face value of ₹ 10/- each. Your Company strives to improve the lives of others through our CSR efforts. We undertook various CSR activities during the year focussing majorly on imparting education and upliftment of underprivileged and poor section of the society.

In our endeavour to battle the COVID-19 pandemic, the Company is now developing such products which are in line with the Customers' requirement and aspirations, with innovation and hard work being our key motto. The challenges posed by the pandemic have pushed us to accelerate our digitalisation drive, to ensure both business continuity as well as process automation. With the Indian economy gradually opening up and lives getting back to normalcy, we are hopeful that the path ahead will be more illuminating.

Although the world is facing challenging times, your Company is well-positioned to navigate through this crisis and register an acceptable business performance. Focus during the year will be on scaling up our operations, securing cash flows, meticulous execution of the orders in hand, cost containment, acquisition of orders and customer satisfaction. In this direction, your Company has decided to proceed with its new Brownfield expansion in Gujarat for setting up a processing and finishing unit for fabrics. Further, various measures are being undertaken to protect our employees, safeguard our operations and support our business allies through this crisis to ensure business continuity.

I would like to extend my gratitude to all my fellow board members, shareholders, customers, vendors, bankers, suppliers and employees of the Company for their unstinted support. I take this opportunity to thank everyone who has contributed to deliver the performance in fiscal 2019-20 and thank for their continued belief in us.

Regards,

Pankaj Seth

The following discussion and analysis should be read in conjunction with the Company's financial statements included herein and the notes thereto.

Global Economy

The global economy experienced a slump in FY20 due to reduced global trade and investments. Both advanced (especially the European) nations and Emerging Markets and Developing Economies (EMDEs) experienced a slowdown. Crucial economic factors fell down to their lowest levels since the worldwide financial crisis. International Monetary Fund (IMF) in its latest outlook note has forecasted a 4.9% contraction in global GDP for the year 2020, 1.9% points below the April 2020 estimate. The COVID-19 pandemic has had a more negative impact on activity in the first half of 2020 than anticipated, and the recovery is projected to be more gradual than previously forecast. As a result of the pandemic, the global economy is projected to contract sharply by 3% in 2020, much worse than the one during 2008–09 financial crisis. In a baseline scenario, which assumes that the pandemic fades in the second half of 2020 and containment efforts can be gradually unwound—the global economy is projected to grow by 5.8 % in 2021 as economic activity normalizes, helped by policy support.

Indian Economy

In line with the global trend, the Indian economy had also remained sluggish in FY 2019-20. Growth during this period came in at 4.2%, which has been much lower than initial estimates for the year and also weaker than the Country's economic expansion in recent years. Economic slowdown resulted in a declining trend in each consecutive quarter and was already estimated to decelerate further in the fourth quarter even before the disruption caused by the virus.

According to International Monetary Fund (IMF), India's economy is projected to contract by 4.5% following a longer period of lockdown and slower recovery than anticipated in April.

However, going forward, continuation of structural reforms, additional policy measures to boost the investment climate as well as expansion of consumption may help the country revert to its growth trajectory.

In India, GDP is expected to reach 2610.00 USD Billion by the end of 2020, according to Trading Economics global macro models and analysts expectations. In the long-term, the Indian GDP is projected to trend around 2950.00 USD Billion in 2021 and 3200.00 USD Billion in 2022, according to certain economists. The Foreign Direct Investment has seen a surge in India in FY 2019-20 which stood at US\$ 49.97 billion and is expected to rise to US\$ 75 billion over the next five years as per the report by UBS.

Impact of COVID-19 on Economy

The economy was in the midst of turbulent tides in the final few quarters of FY 2019-20. Any hopes of revival in the final quarter of the fiscal year were put down by the outbreak of COVID-19. The outbreak has impacted nearly every sector of the economy, the worst affected being tourism, hospitality and aviation. The retail sector has taken a significant hit with supermarkets, malls and theatres being closed. This comes on the back of minimum to no activity in sectors like entertainment, construction, etc. The pandemic is expected to cost Indian trade \$348 million. India is one of the top 15 nations which is directly affected due to the manufacturing slowdown in China. Considering the challenges being faced by

businesses and consumers, numerous agencies have revised their growth projections for Indian for the years 2020 and 2021. With travel restrictions, subdued consumption, supply chains disruptions and low investment levels, the country has an uphill task of adapting to the scenario and bringing the economy back on track.

Global Textile Industry

The Textile Industry is an ever-growing market, with key competitors being China, the European Union, the United States, and India. The global textile market is expected to decline from \$673.9 billion in 2019 to \$655.2 billion in 2020 at a compounded negative annual growth rate (CAGR) of 2.8%. The market is then expected to recover and grow at a CAGR of 7% from 2021 and reach \$795.4 billion in 2023.

Indian Textile Industry

The textiles and apparel industry in India strengths across the entire value chain from fiber, yarn, fabric to apparel. It is highly diversified with a wide range of segments ranging from products of traditional handloom, handicrafts, wool and silk products to the organized textile industry. The organized textile industry is characterized by the use of capital-intensive technology for mass production of textile products and includes spinning, weaving, processing, and apparel manufacturing.

During FY 2019-20, India's textiles industry contributed 7% of the industry output (in value terms) and 15% of the country's export earnings. The textiles and apparel industry in India is the second-largest employer in the country providing employment to 45 million people which is expected to increase to 55 million by 2020. The domestic textiles and apparel market stood at an estimated US\$ 100 billion in FY 2019-20.

The textiles sector has witnessed a spurt in investment during the last five years. The industry (including dyed and printed) attracted Foreign Direct Investment (FDI) worth US\$ 3.44 billion from April 2000 to March 2020.

Due to the COVID-19 pandemic, businesses and supply chains are witnessing a drastic shift from traditional products to new ones such as PPEs, N-95 masks, technical textiles, synthetic material, etc. Before the outbreak of the pandemic, the PPE requirement in India was approximately 50,000 [units] per year. However, since the outbreak, India has become self-reliant in these segments with production capacity of PPE coveralls reaching 450,000 [units] per day, from zero production capacity. India has also become the second-largest manufacturer of PPE in the world. More than 600 companies in India are certified to produce PPEs today, whose global market worth is expected to be over \$92.5 bn by 2025, up from \$52.7 bn in 2019.

With various Government initiatives like proposal of National Technical Textiles Mission is proposed for a period from 2020-21 to 2023-24 at an estimated outlay of ₹ 1,480 crore (US\$ 211.76 million) in the Union Budget 2020-21, the future for the Indian textiles industry looks promising, buoyed by strong domestic consumption as well as export demand. With consumerism and disposable income on the rise, the retail sector has experienced a rapid growth in the past decade with the entry of several international players like Marks & Spencer, Guess and Next into the Indian market. High economic growth has resulted in higher disposable income. This has led to rise in demand for products creating a huge domestic market.

Impact of Covid-19 Pandemic on Textile & Apparel Industry

Among the massive impact that Covid-19 has had on the economies, fashion is one of the hardest-hit industries. Due to pandemic, the Indian Textile Industry fell as the yarn and ready-made garments exports fell by 90% during April. Apparel exports are expected to fall due to drying up of order in the last quarter of FY 2020-21, working capital issues and lack of clarity on the duties and incentives especially when exporters from Bangladesh, Sri Lanka and Vietnam receive preferential access.

It is estimated that the combined apparel consumption of EU and the US might fall to about US\$ 308 billion, 40-45% lower than the 2020 projected consumptions. This will be a tough time for Indian apparel exporters as about 60% of the country's apparel exports are destined for EU and the US markets.

However, on the brighter side, a number of countries around the world, such as the USA & Japan, have decided to learn lessons from this calamity and look for alternate production sources other than China. India could capitalize on this situation and present itself as a credible alternative to increase its textile and apparel exports share. Further, manufacturers may incorporate digital strategy in the buying process and can also enter markets other than the US & Europe such as Japan and South Korea.

INDEPENDENT AUDITOR'S REPORT

To the Members of Orbit Exports Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **Orbit Exports Limited** ("the Company"), which comprise the Standalone Balance Sheet as at March 31, 2020, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Cash Flows and the Standalone Statement of Changes in Equity for the year then ended and notes to standalone financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020 and its profit (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statement in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules framed thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statement.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters:

Sr.No	Key Audit Matters (KAMs)	How the KAMs were addressed in our audit
1	Implementation of new accounting standard on revenue recognition Refer note 1.5 (a) of the Statement of Significant Accounting Policies. The accuracy of recognition, measurement, presentation and disclosure of revenues and other related balances in terms of Ind AS 115 "Revenue from Contracts with Customers" involves certain key judgements relating to identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue.	- Our audit approach consisted testing of the effectiveness of the internal controls relating to such process including substantive testing, which included review of terms and conditions of selected sample of existing contracts and new contracts. - We <i>inter alia</i> tested the operating effectiveness of the internal control relating to identification of the distinct performance obligations, determination of transaction price, criteria relating to transfer of control over the promised goods and measurement and recording of revenue. - We performed cut-off testing for samples of revenue transactions recorded before and after the financial year-end date by comparing with relevant underlying documentation, which included goods dispatch notes and shipping documents, to assess whether the revenue was recognized in the correct period.

Information Other than the Standalone Financial Statements and Our Report thereon

The Company's Management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in Annual Report, but does not include the standalone financial statements and our report thereon. The entire Annual Report is expected to be made available to us after the date of this report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our

knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to Those Charged With Governance and take appropriate actions in accordance with Standards on Auditing.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including Ind AS and relevant provisions of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of the misstatement in the standalone financial statement that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statement may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and evaluating the results of our work; and (ii) to evaluate the effects of any identified misstatements in the standalone financial statement.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the

audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A", a statement on the matters specified in the paragraph 3 and 4 of the Order.

 - c) The Standalone Balance Sheet, the Standalone Statement of Profit and Loss (Including Other Comprehensive Income), the Standalone Statement of Cash Flows and the Standalone Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - d) In our opinion, the aforesaid the standalone financial statements comply with the Accounting Standards specified under section 133 of the Act, read with relevant rules issued thereunder and relevant provisions of the Act;
 - e) On the basis of the written representations received from the directors as on March 31, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2020 from being appointed as a director in terms of section 164(2) of the Act;
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to standalone financial statements;
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:
In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act; and
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed details of pending litigations, however, it does not have adverse impact on its financial position. Refer note 4.03 to standalone financial statements;
 - ii. The Company did not have any material foreseeable losses on long term contracts including derivative contracts; and
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

Annexure B - referred to in paragraph 2(f) under "Report on Other Legal and Regulatory Requirements" of our Independent Auditor's report of even date, to the members of Orbit Exports Limited on the Standalone Financial Statements for the year ended March 31, 2020

Report on the Internal Financial Controls under section 143(3)(i) of the Act

We have audited the internal financial controls with reference to standalone financial statements of **Orbit Exports Limited** ("the Company") as of March 31, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2020 based on the internal controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("Guidance Note") issued by the Institute of Chartered Accountants of India.

Management's Responsibility for Internal Financial Controls with reference to Standalone Financial Statements

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal controls with reference to financial statements criteria established by the Company considering the essential components

of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ("Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for Internal Financial Controls with reference to Standalone Financial Statements

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness.

Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI.

The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to Standalone Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes to Standalone Financial Statements for the year ended March 31, 2020

Background

Orbit Exports Limited, a Public Limited Company incorporated under Companies Act 1956, principally operates in two business segments: Manufacturing of Textile and Renewable Source of Energy. The equity shares of the Company are listed on Bombay Stock Exchange and National Stock Exchange of India Limited.

Authorisation of standalone financial statements

The Standalone Financial Statements were authorized for issue in accordance with a resolution of the directors on June 22, 2020.

1. Significant Accounting Policies

This note provides a list of the significant accounting policies adopted in the presentation of these standalone financial statements.

1.1 Basis of Preparation

(i) Compliance with Ind AS

The standalone financial statements comply in all material aspects with Indian Accounting Standards ("Ind AS") notified under Section 133 of the Companies Act, 2013 ("the Act"), and relevant rules issued thereunder and the relevant provisions of the Act. In accordance with provision to the Rule 4A of the Companies (Accounts) Rules, 2014, the terms used in these financial statements are in accordance with the definitions and other requirements specified in the applicable Accounting standards.

(ii) Historical cost convention

The standalone financial statements have been prepared on a historical cost basis, except for the following :

- a) certain financial assets and liabilities (including derivative instruments) are measured at fair value; and
- b) defined benefit plans - plan assets measured at fair value.

1.2 Rounding of Amounts

All amounts disclosed in the Standalone Financial Statement and notes have been rounded off to the nearest Lakhs, except where otherwise indicated.

1.3 Current versus Non-Current classification

The Company presents its assets and liabilities in the Balance Sheet based on current / non-current classification.

An asset is classified as current if it is :

- a) expected to be realised or intended to be sold or consumed in normal operating cycle;
- b) held primarily for the purpose of trading;
- c) expected to be realised within twelve months after the reporting period; or
- d) the cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current if it is:

- a) it is expected to be settled in normal operating cycle;
- b) it is held primarily for the purpose of trading;
- c) it is due to be settled within twelve months after the reporting period; or
- d) there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The company has identified twelve months as its normal operating cycle.

Notes to Standalone Financial Statements for the year ended March 31, 2020

1.4 Use of Judgements, Estimates and Assumptions

While preparing standalone financial statements in conformity with Ind AS, the management makes certain estimates and assumptions that require subjective and complex judgments. These judgments affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses, disclosure of contingent liabilities at the statement of financial position date and the reported amount of income and expenses for the reporting period. Financial reporting results rely on our estimate of the effect of certain matters that are inherently uncertain. Future events rarely develop exactly as forecast and the best estimates require adjustments, as actual results may differ from these estimates under different assumptions or conditions. The management continually evaluate these estimates and assumptions based on the most recently available information.

Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the standalone financial statements are as below:

Key assumptions:

(i) Financial Instruments: (Refer note 4.09)

Management uses valuation techniques in measuring the fair value of financial instruments where active market quotes are not available. Details of the assumptions used are given in the notes regarding financial assets and liabilities. In applying the valuation techniques, management makes maximum use of market inputs and uses estimates and assumptions that are, as far as possible, consistent with observable data that market participants would use in pricing the instrument. Where applicable data is not observable, management uses its best estimate about the assumptions that market participants would make. These estimates may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

(ii) Useful lives of Property, Plant and Equipment and Intangible Assets: (Refer notes 1.6, 1.7 and 1.8)

The company reviews the useful life of Property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

(iii) Valuation of Inventories: (Refer note 1.10)

The Company estimates the net realisable value (NRV) of its inventories by taking into account estimated selling price, estimated cost of completion, estimated costs necessary to make the sale, obsolescence considering the past trend. Inventories are written down to NRV where such NRV is lower than their cost.

(iv) Assets and obligations relating to employee benefits: (Refer note 4.07)

The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligations are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These interalia include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(v) Recognition and measurement of other Provisions

The recognition and measurement of other provisions is based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the closing date. The actual outflow of resources at a future date may therefore, vary from the amount included in other provisions.

1.5 Revenue Recognition

a) Revenue From Contracts With Customers

The Company derives revenues primarily from sale of products and services. Revenue from sale of goods is recognised net of returns and discounts.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expect to receive in exchange for those products or services.

To recognise revenues, the Company applies the following five step approach :

1. Identify the contract with a customer;

Notes to Standalone Financial Statements for the year ended March 31, 2020

2. Identify the performance obligations in the contract;
3. Determine the transaction price;
4. Allocate the transaction price to the performance obligations in the contract; and
5. Recognise revenues when a performance obligation is satisfied.

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties.

The Company presents revenues net of indirect taxes in its statement of profit and loss.

Performance obligation may be satisfied over time or at a point in time. Performance obligations satisfied over time if any one of the following criteria is met. In such cases, revenue is recognised over time:

1. The customer simultaneously receives and consumes the benefits provided by the Company's performance; or
2. The Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
3. The Company's performance does not create an asset with an alternative use to the Company and the Company has an enforceable right to payment for performance completed to date.

For performance obligations where one of the above conditions are not met, revenue is recognised at the point in time at which the performance obligation is satisfied.

- b) Export incentives are accounted on accrual basis and include the estimated value of export incentives receivable under the Duty Draw Back Scheme and other applicable schemes.
- c) Dividend Income is recognised when the Company's right to receive is established which generally occurs when the shareholders approve the dividend.
- d) Revenue from services is recognised when all relevant activities are completed and the right to receive income is established.
- e) Revenue in respect of insurance/other claims, commission, interest for delayed payment etc. is recognised only when it is reasonably certain that the ultimate collection will be made.
- f) For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate method (EIR).

1.6 Property, Plant and Equipment

- a) Property, Plant and Equipment is stated at cost, less accumulated depreciation and accumulated impairment losses. The initial cost of an asset comprises its purchase price, non-refundable purchase taxes and any costs directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by management, the initial estimate of any decommissioning obligation, if any, and, for assets that necessarily take a substantial period of time to get ready for their intended use, finance costs. The purchase price is the aggregate amount paid and the fair value of any other consideration given to acquire the asset.
- b) The cost of an item of Property, Plant and Equipment is recognised as an asset if, and only if, it is probable that the economic benefits associated with the item will flow to the Company in future periods and the cost of the item can be measured reliably. Expenditure incurred after the Property, Plant and Equipment have been put into operations, such as repairs and maintenance expenses are charged to the Statement of Profit and Loss during the period in which they are incurred.
- c) An item of Property, Plant and Equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net realisable value and the carrying amount of the asset) is included in the Statement of Profit and Loss.
- d) The residual values and useful lives of Property, Plant and Equipment are reviewed at each financial year end, and changes, if any, are accounted prospectively.

**Notes to Standalone Financial Statements for the year ended March 31, 2020**

- e) Long-term lease arrangements in respect of land are treated as Property, plant and equipment, in case such arrangements result in transfer of control and the present value of the lease payments is likely to represent substantially all of the fair value of the land. Cost in respect of the same is amortised over the period of respective lease arrangement.

1.7 Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles are not capitalised and the related expenditure is reflected in the Statement of Profit and Loss in the period in which the expenditure is incurred. Intangible assets with finite lives are amortised on straight line basis over their useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at each year end. The amortisation expense on Intangible assets with finite lives and impairment loss is recognised in the Standalone Statement of Profit and Loss.

1.8 Depreciation and Amortisation

Depreciation on Property, Plant and Equipment is provided on straight line method. In accordance with requirements prescribed under Schedule II to the Companies Act, 2013, the Company has assessed the estimated useful lives of its Property, Plant and Equipment and has adopted the useful lives and residual value as prescribed therein except following cases which are based on internal technical assessment:

Particulars	Useful Life of Assets
Leasehold Land	Remaining period of Lease
Software	5 Years
Windmill	25 Years
Plant & Machinery	14 Years

1.9 Impairment of Financial Assets

Carrying amount of Tangible assets and Intangible assets, investments in Subsidiaries and Associates (which are carried at cost) are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or company's assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

1.10 Inventories

Raw materials, stores and spares are valued at lower of cost and net realisable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost in case of Raw material and Packing material, Stores and Spare and Traded Goods include purchase cost net of refundable taxes and other overheads incurred in bringing such items of inventory to its present location and condition.

Cost of raw materials, components and stores and spares which do not meet the recognition criteria under Property, Plant and Equipment is determined on a weighted average basis.

Finished goods and work-in-progress include cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Provision is made for the cost of obsolescence and other anticipated losses, wherever considered necessary.

Notes to Standalone Financial Statements for the year ended March 31, 2020

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. The factors that the Company considers in determining the allowance for slow moving, obsolete and other non-saleable inventory in determining net realisable value include ageing of inventory, price changes and such other related factors.

1.11 Cash and Cash Equivalents

Cash and Cash Equivalents in the Balance Sheet comprises of cash at banks and in hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of change in value.

For the purpose of statement of cashflows, cash and cash equivalents consist of cash, short-term deposits as defined above, bank overdrafts and short-term highly liquid investments that are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value as they are considered as an integral part of the Company's management.

1.12 Government Grant

Government grants are recognised when there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised in statement of profit and loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate.

The above criteria is also used for recognition of incentives under various scheme notified by the Government. When the grant relates to an asset, it is recognised as deferred income and amortised over the useful life of such assets.

1.13 Financial Instruments

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments.

Initial Recognition and Measurement- Financial Assets and Financial Liabilities

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the Standalone Statement of Profit and Loss.

Classification and Subsequent Measurement : Financial Assets

The Company classifies financial assets as subsequently measured at amortised cost, fair value through Other Comprehensive Income ("FVTOCI") or fair value through profit or loss ("FVTPL") on the basis of following :

- the entity's business model for managing the financial assets; and
- the contractual characteristics of financial asset.

Amortised Cost

A financial asset is classified and measured at amortised cost if both of the following conditions are met :

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes to Standalone Financial Statements for the year ended March 31, 2020

FVTOCI

A financial asset is classified and measured at FVTOCI if both of the following conditions are met :

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

FVTPL

A financial asset is classified and measured at FVTPL unless it is measured at amortised cost or at FVTOCI.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Impairment of Financial Assets

The Company assesses on a forward-looking basis the expected credit loss associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected life time losses to be recognised from initial recognition of the receivables.

(Classification and Subsequent Measurement: Financial Liabilities)

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

Financial Liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or are designated upon Initial recognition as FVTPL.

Gains or losses on financial liabilities held for trading are recognised in the Standalone Statement of Profit and Loss.

Other Financial Liabilities

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Derecognition of Financial Asset and Financial Liabilities

The Company de-recognises a financial asset when the contractual rights to the cash flow from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the Company enters into transactions whereby it transfers assets recognised on its Standalone Statement of Balance Sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is reported in the Standalone Statement of Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counter party.

Notes to Standalone Financial Statements for the year ended March 31, 2020

1.14 Financial Liabilities and Equity Instruments

Classification as Debt or Equity :

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity Instruments :

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company are recognised at the proceeds received.

1.15 Investments in Subsidiary and Associate

A Subsidiary is an entity that is controlled by another entity. An investor controls an investee if and only if the investor has the following:

- (i) Power over the investee;
- (ii) Exposure, or rights, to variable returns from its involvement with the investee; and
- (iii) The ability to use its power over the investee to affect the amount of the investor's returns.

An Associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies. The Company's investments in its Subsidiary and Associate are accounted at cost.

1.16 Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

1.17 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a current pre-tax rate. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent Liabilities are disclosed in the case of :

- A present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- A present obligation arising from past events, when no reliable estimate is possible;
- A possible obligation from past events, unless the probability of outflow of resources is remote.

Contingent Assets is disclosed when inflow of economic benefits is probable.

1.18 Gratuity and other Post-Employment Benefits

a) Short-Term Obligations

Short term employee benefits are recognised as an expense at an undiscounted amount in the Standalone Statement of Profit and Loss of the year in which the related services are rendered

b) Post-Employment Obligations

The Company operates the following post-employment schemes :

- defined benefit plans such as gratuity; and
- defined contribution plans such as provident fund.

Notes to Standalone Financial Statements for the year ended March 31, 2020

Gratuity Obligations

The liability or asset recognised in the Standalone Balance Sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cashoutflows by reference to market yields at the end of the reporting period on government bonds that have term approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Standalone Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised at amount net of taxes in the period in which they occur, directly in Other Comprehensive Income. They are included in retained earnings in the statement of changes in equity and in the Standalone Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the Standalone Statement of Profit and Loss as past service cost.

c) Other Long Term Employee Benefit Obligations

The Leave Encashment are presented as short term provision in the Standalone Balance Sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

d) Bonus Plan

The company recognises a liability for expense for bonuses. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

1.19 Taxes on Income

(i) Current Tax

Tax on income for the current period is determined on the basis on estimated taxable income and tax credits computed in accordance with the provisions of the relevant tax laws and based on the expected outcome of assessments /appeals.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the Standalone Statement of Profit and Loss.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) Deferred Tax

Deferred tax is provided using the Standalone Balance Sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the Statement of Profit and Loss is recognised outside the Standalone Statement of Profit and Loss. Deferred tax items are recognised in correlation to the underlying transaction either in Other Comprehensive Income or directly in equity.

Notes to Standalone Financial Statements for the year ended March 31, 2020

The break-up of the major components of the deferred tax assets and liabilities as at Standalone Balance Sheet date has been arrived at after setting off deferred tax assets and liabilities where the Company have a legally enforceable right to set-off assets against liabilities and where such assets and liabilities relate to taxes on income levied by the same governing taxation laws.

(iii) MAT Credit:

Minimum Alternate Tax (MAT) paid in a year is charged to the Standalone Statement of Profit and Loss as current tax. The Company recognises MAT credit available as an asset only to the extent that there is reasonable certainty that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. The MAT credit to the extent there is reasonable certainty that the Company will utilise the credit is recognised in the Standalone Statement of Profit and Loss and corresponding debit is done to the Deferred Tax Asset as unused tax credit.

1.20 Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends, if any, and attributable taxes) by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders is adjusted for after income tax effect of interest and other financing costs associated with dilutive potential equity shares and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

1.21 Foreign currency translation

a) Functional and presentation currency

The Company's financial statements are prepared in INR, which is also the Company's functional and presentation currency.

b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in the Standalone Statement of Profit and Loss.

In case of advance payment for purchase of assets/goods/services and advance receipt against sales of products/services, all such purchase/sales transaction are recorded at the rate at which such advances are paid/received.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Standalone Statement of Profit and Loss, within finance costs. All other foreign exchange gains and losses are presented in the Standalone Statement of Profit and Loss on a net basis within other gains / (losses).

Non - Monetary items :

Non - monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

1.22 Dividend Distribution

The Company recognises a liability to make cash or non-cash distributions to equity holders of the Company when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the Companies Act, 2013, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

1.23 Leases

Effective April 1, 2019, the Company has adopted Ind AS 116 'Leases' using the modified retrospective approach, under which the Company recorded the lease liability at the present value of the remaining lease payments discounted at the incremental borrowing rate as on the date of transition and has measured right of use asset an amount equal to lease liability adjusted for any related prepaid and accrued lease payments previously recognised. Accordingly, the comparative information has not been restated and continues to be reported under Ind AS 17 'Lease'. Additionally,

Notes to Standalone Financial Statements for the year ended March 31, 2020

the disclosure requirements in Ind AS 116 have not generally been applied to comparative information. The following is the summary of the new and/or revised significant accounting policies related to Leases. Refer Note 1 'Significant Accounting policies', in the Company's 2019 Annual Report for the policies in effect for Leases prior to April 1, 2019. The effect of transition on Ind AS 116 was insignificant.

Company as a lessee

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. For these short-term leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease. The Company recognises lease liabilities to make lease payments and Right of Use assets representing the right to use the underlying assets as below.

Right of Use (ROU) assets

The Company recognises Right of Use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right of Use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of Right of Use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right of Use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Lease Liabilities

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. Lease liabilities are remeasured with a corresponding adjustment to the related ROU assets.

Lease liabilities and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

4.02 Leases

- 1 The Company's lease asset primarily consist of leases for Office Space, Warehouse Space and Vehicle having various lease terms. Effective April 1, 2019, the Company has adopted Ind AS 116 'Leases' and applied the standard to all lease contracts existing on April 1, 2019 using the modified retrospective method. Consequently, the Company recorded the lease liability at the present value of the remaining lease payments discounted at the incremental borrowing rate as on the date of transition and has measured right of use asset an amount equal to lease liability adjusted for any related prepaid and accrued lease payments previously recognised.
- 2 The effect of this adoption is insignificant on the profit before tax, profit for the year and earnings per share. Ind AS 116 has resulted in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments.
- 3 The following is the summary of practical expedients elected on initial application :
 - a Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date.
 - b Applied the exemption not to recognise Right of Use assets and liabilities for leases with less than 12 months of lease term on the date of initial application.
 - c Applied the practical expedient by not reassessing whether a contract is, or contains, a lease at the date of initial application. Instead applied the standards only to contracts that were previously identified as leases under Ind AS 17.
 - d Used hindsight in determining the lease term where the contract contained options to extend or terminate the lease.
 - e The Company has elected, by class of underlying asset, not to separate non-lease components from lease components, and instead account for each lease component and any associated non-lease components as a single lease component.

- 6 An explanation to difference between operating lease commitments as per Ind AS 17 and lease liabilities as per Ind AS 116 as on April 1, 2019 is as below :**

- The weighted average incremental borrowing rate applied to lease liabilities as at April 1, 2019 is 9%
- The difference between lease obligation recorded as of March 31, 2019, under Ind AS 17 and the value of lease liability as of April 1, 2019, is on account of practical hindsight in determining the lease term, where the contract contained options to extend or terminate the lease in measuring the lease liability in accordance with Ind AS 116, reclassification of finance lease obligations as lease liabilities and discounting the lease liabilities to the present value under Ind AS 116.

2. Defined Benefits Plans

The Company sponsors unfunded defined benefit plans for qualifying employee therefore there are no plan assets which are maintained exclusively thereof. In computation of gratuity liability, Project Unit Credit Method is used.

These plans typically expose the Company to Actuarial risks such as : investment risk, longevity risk and salary risk. No other post-retirement benefit are provided to the employees.

Investment Risk	The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.
Longevity Risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
Salary Risk	The present value of the defined plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

**Notes to Standalone Financial Statements for the year ended March 31, 2020****4.09 Financial Instruments****(i) Methods and assumptions used to estimate the fair values**

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

- The carrying amounts of receivables and payables which are short term in nature such as trade receivables, other bank balances, deposits, loans to employees, trade payables, payables for acquisition of non-current assets, demand loans from banks and cash and cash equivalents are considered to be the same as their fair values.
- The fair values for long term loans, long term security deposits given and remaining non-current financial assets were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs.
- The fair values of long term security deposits taken, non-current borrowings and remaining non-current financial liabilities are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs.
- For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

(ii) Categories of financial instruments

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Directly or indirectly observable market inputs, other than Level 1 inputs; and

Level 3: Inputs which are not based on observable market data.

**Notes to Standalone Financial Statements for the year ended March 31, 2020****Financing arrangements**

The Company has sufficient sanctioned line of credit from its bankers / financiers; commensurate to its business requirements. The Company reviews its line of credit available with bankers and lenders from time to time to ensure that at all point of time there is sufficient availability of line of credit to handle peak business cycle.

The Company pays special attention to the net operating working capital invested in the business. In this regard, as in previous years, considerable work has been performed to control and reduce collection periods for trade and other receivables, as well as to optimise accounts payable with the support of banking arrangements to mobilise funds and minimise inventories.

c. Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company is exposed in the ordinary course of business to risks related to changes in foreign currency exchange rate and interest rate.

(i) Market Risk – Foreign Exchange

Foreign exchange risk arises on all recognised monetary assets and liabilities which are denominated in a currency other than the functional currency of the Company. The Company has foreign currency trade payables and receivables. However, foreign exchange exposure mainly arises from trade receivable and trade payables denominated in foreign currencies.

Foreign currency risk is that risk in which the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company operates internationally and a portion of its business is transacted in several currencies and therefore the Company is exposed to foreign exchange risk through its overseas sales and purchases in various foreign currencies. The Company hedges the receivables as well as payables by forming view after discussion with Forex Consultant and as per policies set by Management.

The Company does not enter into or trade financial instrument including derivative for speculative purpose

The carrying amount of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

4.13 As per the directives of both the Central and State Governments in the wake of COVID-19 pandemic, the Company had suspended operations across various locations, which has adversely impacted the business.

The Company has considered the possible effects that may result due to the lockdown announced consequent to outbreak of COVID-19 on the carrying amounts of property, plant and equipment, investments, inventories, receivables and other current assets. Based on internal and external sources of information and economic forecasts, the Company expects the carrying amount of these assets will be recovered and sufficient liquidity would be available as and when required to fund the business operations. A definitive assessment of the impact, at this stage, is not possible in view of the highly uncertain economic environment and the situation is still evolving. The Company is continuously monitoring material changes in such information and economic forecasts.

The Company has started operating its manufacturing facilities and operations in a phased manner from the first week of May 2020.

4.14 According to the information available with the management, on the basis of intimation received from its suppliers regarding their status under the Micro, Small and Medium Enterprises Development Act, 2006, the Company has amounts due to micro and small enterprises under the said Act as at March 31, 2020 as follows :

INDEPENDENT AUDITOR'S REPORT

To,

To the Members of Orbit Exports Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **Orbit Exports Limited** ("the Holding Company"), and its subsidiaries (the Holding Company and its subsidiaries together referred to as the Group) and its associate, comprising of the Consolidated Balance Sheet as at March 31, 2020, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement for the year then ended, and notes to consolidated financial statements and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the considerations of reports of other auditors of subsidiaries and of the associate, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its associate as at March 31, 2019 and their consolidated profit (including other comprehensive income), their consolidated statement of changes in equity and their consolidated cash flows for the year ended on that date.

Basis of Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the rules framed thereunder and we have fulfilled our other ethical responsibilities in accordance with these requirements and ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters:

Sr.No	Key Audit Matters	How our audit addressed the Key Audit Matters
1	Implementation of new accounting standard on revenue recognition Refer note 1.6(a) of the Statement of Significant Accounting Policies. The accuracy of recognition, measurement, presentation and disclosure of revenues and other related balances in terms of Ind AS 115 "Revenue from Contracts with Customers" involves certain key judgements relating to identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue	- Our audit approach consisted testing of the effectiveness of the internal controls relating to such process including substantive testing, which included review of terms and conditions of selected sample of existing contracts and new contracts. - We <i>inter alia</i> tested the operating effectiveness of the internal control relating to identification of the distinct performance obligations, determination of transaction price, criteria relating to transfer of control over the promised goods and measurement and recording of revenue. - We performed cut-off testing for samples of revenue transactions recorded before and after the financial year end date by comparing with relevant underlying documentation, which included goods dispatch notes and shipping documents, to assess whether the revenue was recognized in the correct period.

Information Other than the Consolidated Financial Statements and Our Report thereon

The Holding Company's Management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in Annual Report, but does not include the consolidated financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the balance part of Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to Those Charged With Governance and take appropriate actions in accordance with Standards on Auditing.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group including its associate in accordance with the accounting principles generally accepted in India, including Ind AS and relevant provisions of the Act. The respective Board of Directors of the companies included in the Group and its associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and of its associate and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and its associate are responsible for assessing the ability of the Group and of its associate to continue as a going concern, disclosing, as applicable and using the going concern basis of accounting unless the management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and its associate are responsible for overseeing the financials reporting process of the Group and its associate.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the consolidated financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of the misstatement in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and evaluating the results of our work; and (ii) to evaluate the effects of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure A referred to in paragraph 2(f) under "Report on Other Legal and Regulatory Requirements" of our Independent Auditor's report of even date, to the members of Orbit Exports Limited ("the Holding Company") on the consolidated financial statements for the year ended March 31, 2020

Report on the Internal Financial Controls under section 143(3)(i) of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Holding Company as of and for the year ended March 31, 2020, we have audited the internal financial controls with reference to financial statements of **Orbit Exports Limited** (hereinafter referred to as 'the Holding Company'). Since the subsidiaries and associate of the Company are not incorporated in India, this reporting requirements under section 143(3)(i) of the Act are not applicable to these entities and accordingly, this report is only in respect of the Holding Company.

Opinion

In our opinion, the Holding Company which is company incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to consolidated financial statements and such internal financial controls

with reference to consolidated financial statements were operating effectively as at March 31, 2020, based on the internal control with reference to consolidated financial statements criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("Guidance Note") issued by the Institute of Chartered Accountants of India.

Management's Responsibility for Internal Financial Controls with reference to Consolidated Financial Statements

The respective Board of Directors of the Holding company is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Holding Company, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for Internal Financial Controls with reference to Consolidated Financial Statements

Our responsibility is to express an opinion on Holding Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and specified under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness.

Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial control system with reference to financial statements.

Meaning of Internal Financial Controls with reference to Consolidated Financial Statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes to Consolidated Financial Statements for the year ended March 31, 2020

1. Significant Accounting Policies

The Consolidated Financial Statements comprise financial statements of Orbit Exports Limited (the "Company") and its subsidiaries (collectively the "Group") for the year ended March 31, 2020. The Company is a public limited company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on two recognised stock exchanges in India.

The Group principally operates in two business segments: Manufacturing of Textile and Renewable source of Energy. Information on other related party relationships of the Group is provided in Note 4.05.

Authorisation of consolidate financial statements:

The consolidated financial statements were authorised for issue in accordance with a resolution of the board of directors dated June 22, 2020.

1.1 Basis of Preparation

(i) Compliance with Ind AS

The Consolidated Financial Statements comply in all material aspects with Indian Accounting Standards ("Ind AS") notified under Section 133 of the Companies Act, 2013 ("the Act"), and relevant rules issued thereunder and the relevant provisions of the Act. In accordance with proviso to the Rule 4A of the Companies (Accounts) Rules, 2014, the terms used in these consolidated financial statements are in accordance with the definitions and other requirements specified in the applicable Accounting standards.

(ii) Historical cost convention

The Consolidated financial statements have been prepared on a historical cost basis, except for the following :

- a) certain financial assets and liabilities (including derivative instruments) are measured at fair value; and
- b) defined benefit plans - plan assets measured at fair value.

1.2 Rounding of Amounts

All amounts disclosed in the Consolidated financial statement and notes have been rounded off to the nearest Lakhs, except where otherwise indicated.

1.3 Current versus Non-Current classification

The Company presents its assets and liabilities in the Balance Sheet based on current / non-current classification.

An asset is classified as current if it is :

- a) expected to be realised or intended to be sold or consumed in normal operating cycle;
- b) held primarily for the purpose of trading;
- c) expected to be realised within twelve months after the reporting period; or
- d) the cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current if it is:

- a) it is expected to be settled in normal operating cycle;
- b) it is held primarily for the purpose of trading;
- c) it is due to be settled within twelve months after the reporting period; or
- d) there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Notes to Consolidated Financial Statements for the year ended March 31, 2020

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its normal operating cycle.

1.4 Use of Judgements, Estimates and Assumptions

While preparing consolidated financial statements in conformity with Ind AS, the management makes certain estimates and assumptions that require subjective and complex judgments. These judgments affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses, disclosure of contingent liabilities at the statement of financial position date and the reported amount of income and expenses for the reporting period. Financial reporting results rely on our estimate of the effect of certain matters that are inherently uncertain. Future events rarely develop exactly as forecast and the best estimates require adjustments, as actual results may differ from these estimates under different assumptions or conditions. The management continually evaluate these estimates and assumptions based on the most recently available information. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the Consolidated Financial Statements are as below :

Key assumptions:

(i) Financial Instruments: (Refer note 4.09)

Management uses valuation techniques in measuring the fair value of financial instruments where active market quotes are not available. Details of the assumptions used are given in the notes regarding financial assets and liabilities. In applying the valuation techniques, management makes maximum use of market inputs and uses estimates and assumptions that are, as far as possible, consistent with observable data that market participants would use in pricing the instrument. Where applicable data is not observable, management uses its best estimate about the assumptions that market participants would make. These estimates may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

(ii) Useful lives of Property, Plant and Equipment and Intangible assets; (Refer notes 1.7, 1.8 and 1.9)

The Company reviews the useful life of Property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

(iii) Valuation of inventories: (Refer note 1.11)

The Company estimates the net realisable value (NRV) of its inventories by taking into account estimated selling price, estimated cost of completion, estimated costs necessary to make the sale, obsolescence considering the past trend. Inventories are written down to NRV where such NRV is lower than their cost.

(iv) Assets and obligations relating to employee benefits: (Refer note 4.07)

The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligations are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These interalia include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(v) Recognition and measurement of other Provisions

The recognition and measurement of other provisions is based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the closing date. The actual outflow of resources at a future date may therefore, vary from the amount included in other provisions.

Critical Accounting Judgements

The Company has equity stake in various entities for strategic reasons concerning its operation. The relationship with these entities have been determined based on principles laid down in Ind AS 110 – Consolidated Financial Statements.

1.5 Principles of Consolidation and Equity Accounting

(i) Subsidiaries

Subsidiaries are all entities over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those

Notes to Consolidated Financial Statements for the year ended March 31, 2020

returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intergroup transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the Consolidated Statement of Profit and Loss, Consolidated Statement of Changes in Equity and Consolidated Balance Sheet respectively. Consolidated Statement of Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

(ii) Associates

Associates are all entities over which the group has significant influence but not control or joint control. This is generally the case where the group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (see (iii) below), after initially being recognised at cost.

(iii) Equity Method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the group's share of the post-acquisition profits or losses of the investee in profit and loss, and the Group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates are recognised as a reduction in the carrying amount of the investment.

When the group's share of losses in an equity accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the group and its associates are eliminated to the extent of the group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equity accounted investments are tested for impairment in accordance with the policy described in note 1.10 below.

1.6 Revenue Recognition

a) Revenue From Contracts With Customers

The Group derives revenues primarily from sale of products and services. Revenue from sale of goods is recognised net of returns and discounts.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Group expects to receive in exchange for those products or services.

To recognise revenues, the Group applies the following five step approach :

1. Identify the contract with a customer;
2. Identify the performance obligations in the contract;
3. Determine the transaction price;
4. Allocate the transaction price to the performance obligations in the contract; and
5. Recognise revenues when a performance obligation is satisfied.

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties.

The Group presents revenues net of indirect taxes in its Consolidated Statement of Profit and Loss.

Performance obligation may be satisfied over time or at a point in time. Performance obligations satisfied over time if any one of the following criteria is met. In such cases, revenue is recognised over time :

Notes to Consolidated Financial Statements for the year ended March 31, 2020

1. The customer simultaneously receives and consumes the benefits provided by the Group's performance; or
2. The Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
3. The Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

For performance obligations where one of the above conditions are not met, revenue is recognised at the point in time at which the performance obligation is satisfied.

- b) Export incentives are accounted on accrual basis and include the estimated value of export incentives receivable under the Duty Draw Back Scheme and other applicable schemes.
- c) Dividend Income is recognised when the Group's right to receive is established which is generally occur when the shareholders approve the dividend.
- d) Revenue from services is recognised when all relevant activities are completed and the right to receive income is established.
- e) Revenue in respect of insurance/ other claims, commission, interest for delayed payment etc. is recognised only when it is reasonably certain that the ultimate collection will be made.
- f) For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR).

1.7 Property, Plant and Equipment

- a) Property, Plant and Equipment is stated at cost, less accumulated depreciation and accumulated impairment losses. The initial cost of an asset comprises its purchase price, non-refundable purchase taxes and any costs directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by management, the initial estimate of any decommissioning obligation, if any, and, for assets that necessarily take a substantial period of time to get ready for their intended use, finance costs. The purchase price is the aggregate amount paid and the fair value of any other consideration given to acquire the asset.
- b) The cost of an item of Property, Plant and Equipment is recognised as an asset if, and only if, it is probable that the economic benefits associated with the item will flow to the Group in future periods and the cost of the item can be measured reliably. Expenditure incurred after the Property, Plant and Equipment have been put into operations, such as repairs and maintenance expenses are charged to the Consolidated Statement of Profit and Loss during the period in which they are incurred.
- c) An item of Property, Plant and Equipment is de-recognised upon disposal or when no future economic benefits are expected to arise from the continued use of the assets. Any gain or loss arising on the disposal or retirement of an item of Property, Plant and Equipment, is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Consolidated Statement of Profit and Loss.
- d) The residual values and useful lives of Property, Plant and Equipment are reviewed at each financial year end, and changes, if any, are accounted prospectively.
- e) Long-term lease arrangements in respect of land are treated as Property, plant and equipment, in case such arrangements result in transfer of control and the present value of the lease payments is likely to represent substantially all of the fair value of the land. Cost in respect of the same is amortised over the period of respective lease arrangement.

1.8 Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles are not capitalised and the related expenditure is reflected in the Consolidated Statement of Profit and Loss in the period in which the expenditure is incurred. Intangible assets with finite lives are amortised on straight line basis over their useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at each year end. The amortisation expense on Intangible assets with finite lives and impairment loss is recognised in the Consolidated Statement of Profit and Loss.

**Notes to Consolidated Financial Statements for the year ended March 31, 2020****1.9 Depreciation and Amortisation**

Depreciation on Property, Plant and Equipment is provided on straight line method. In accordance with requirements prescribed under Schedule II to the Companies Act, 2013, the Group has assessed the estimated useful lives of its Property, Plant and Equipment and has adopted the useful lives and residual value as prescribed therein except following cases which are based on internal technical assessment:

Particulars	Useful Life of Assets
Leasehold Land	Remaining period of Lease
Software	5 Years
Windmill	25 Years
Plant and Machinery	14 Years

1.10 Impairment of Financial Assets

Carrying amount of Tangible assets and Intangible assets (which are carried at cost) are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or Group's assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

1.11 Inventories

Raw materials, stores and spares are valued at lower of cost and net realisable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost in case of Raw material and Packing material, Stores and Spare and Traded Goods include purchase cost net of refundable taxes and other overheads incurred in bringing such items of inventory to its present location and condition. Cost of raw materials, components and stores and spares which do not meet the recognition criteria under Property, Plant and Equipment is determined on a weighted average basis.

Cost of raw materials, components and stores and spares which do not meet the recognition criteria under Property, Plant and Equipment is determined on a weighted average basis.

Finished goods and work-in-progress include cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Provision is made for the cost of obsolescence and other anticipated losses, wherever considered necessary.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. The factors that the Company considers in determining the allowance for slow moving, obsolete and other non-saleable inventory in determining net realisable value include ageing of inventory, price changes and such other related factors.

1.12 Cash and Cash Equivalents

Cash and Cash Equivalents in the Consolidated Balance Sheet comprises of cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of change in value.

For the purpose of Consolidated cash flows, cash and cash equivalents consist of cash, short-term deposits as defined above, bank overdrafts and short-term highly liquid investments that are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value as they are considered as an integral part of the Group's management.

Notes to Consolidated Financial Statements for the year ended March 31, 2020

1.13 Government Grant

Government grants are recognised when there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised in statement of profit and loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate.

The above criteria is also used for recognition of incentives under various scheme notified by the Government. When the grant relates to an asset, it is recognised as deferred income and amortised over the useful life of such assets.

1.14 Financial Instruments

Financial assets and financial liabilities are recognised when a Group becomes a party to the contractual provisions of the instruments.

Initial Recognition and Measurement- Financial Assets and Financial Liabilities

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the Consolidated Statement of Profit and Loss.

Classification and Subsequent Measurement : Financial Assets

The Group classifies financial assets as subsequently measured at amortised cost, fair value through Other Comprehensive Income ("FVTOCI") or fair value through profit or loss ("FVTPL") on the basis of following :

- the entity's business model for managing the financial assets and
- the contractual characteristics of financial asset

Amortised Cost

A financial asset is classified and measured at amortised cost if both of the following conditions are met :

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

FVTOCI

A financial asset is classified and measured at FVTOCI if both of the following conditions are met :

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

FVTPL

A financial asset is classified and measured at FVTPL unless it is measured at amortised cost or at FVTOCI.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Impairment of Financial Assets

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Notes to Consolidated Financial Statements for the year ended March 31, 2020

(Classification and Subsequent Measurement: Financial Liabilities)

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

Financial Liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or are designated upon Initial recognition as FVTPL.

Gains or losses on financial liabilities held for trading are recognised in the Consolidated Statement of Profit and Loss.

Other Financial Liabilities

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Derecognition of Financial Asset and Financial Liabilities

The Group de-recognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the Group enters into transactions whereby it transfers assets recognised on its Consolidated Balance Sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised. A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is reported in the Consolidated Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counter party.

1.15 Financial Liabilities and Equity Instruments

Classification as Debt or Equity :

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity Instruments :

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all offits liabilities. Equity instruments issued by a Group are recognised at the proceeds received.

1.16 Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

1.17 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a current pre-tax rate. The increase in the provision due to the passage of time is recognised as interest expense.

Notes to Consolidated Financial Statements for the year ended March 31, 2020

Contingent Liabilities are disclosed in the case of :

- A present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- A present obligation arising from past events, when no realisable estimate is possible;
- A possible obligation from past events, unless the probability of outflow of resources is remote.

Contingent Assets is disclosed when inflow of economic benefits is probable.

1.18 Gratuity and other Post-Employment Benefits

a) Short-Term Obligations

Short term employee benefits are recognised as an expense at an undiscounted amount in the Consolidated Statement of Profit and Loss of the year in which the related services are rendered

b) Post-Employment Obligations

The Company operates the following post-employment schemes :

- defined benefit plans such as gratuity; and
- defined contribution plans such as provident fund.

Gratuity Obligations

The liability or asset recognised in the Consolidated Balance Sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cashout flows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Consolidated Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised at amount net of taxes in the period in which they occur, directly in Other Comprehensive Income. They are included in retained earnings in the Consolidated statement of changes in equity and in the Consolidated Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the Consolidated Statement Profit and Loss as past service cost.

c) Other Long Term Employee Benefit Obligations

The Leave Encashment are presented as short term provision in the Balance Sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

d) Bonus Plan

The company recognises a liability for expense for bonuses. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

1.19 Taxes on Income

(i) Current Tax

Tax on income for the current period is determined on the basis of estimated taxable income and tax credits computed in accordance with the provisions of the relevant tax laws and based on the expected outcome of assessments / appeals.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the Consolidated Statement of Profit and Loss.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Notes to Consolidated Financial Statements for the year ended March 31, 2020

(ii) Deferred Tax

Deferred tax is provided using the Balance Sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the assets are realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the Consolidated Statement of Profit and Loss is recognised outside the Consolidated Statement of Profit and Loss. Deferred tax items are recognised in correlation to the underlying transaction either in Other Comprehensive Income or directly in equity.

The break-up of the major components of the deferred tax assets and liabilities as at Consolidated Balance Sheet date has been arrived at after setting off deferred tax assets and liabilities where the Group have a legally enforceable right to set-off assets against liabilities and where such assets and liabilities relate to taxes on income levied by the same governing taxation laws.

(iii) MAT Credit:

Minimum Alternate Tax (MAT) paid in a year is charged to the Consolidated Statement of Profit and Loss as current tax. The Company recognises MAT credit available as an asset only to the extent that there is reasonable certainty that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. The MAT credit to the extent there is reasonable certainty that the Company will utilise the credit is recognised in the Consolidated Statement of Profit and Loss and corresponding debit is done to the Deferred Tax Asset as unused tax credit

1.20 Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends, if any, and attributable taxes) by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders is adjusted for after income tax effect of interest and other financing costs associated with dilutive potential equity shares and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

1.21 Foreign currency translation

a) Functional and presentation currency

The Group's Consolidated financial statements are prepared in INR, which is also the Group's functional and presentation currency.

b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in the Consolidated Statement of Profit and Loss.

In case of advance payment for purchase of assets/goods/services and advance receipt against sales of products/services, all such purchase/sales transaction are recorded at the rate at which such advances are paid/received.

Notes to Consolidated Financial Statements for the year ended March 31, 2020

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Consolidated Statement of Profit and Loss, within finance costs. All other foreign exchange gains and losses are presented in the Consolidated Statement of Profit and Loss on a net basis within other gains / (losses).

Non-monetary items

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

1.22 Dividend Distribution

The Group recognises a liability to make cash or non-cash distributions to equity holders of the Group when the distribution is authorised and the distribution is no longer at the discretion of the Group. As per the Companies Act, 2013, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity

1.23 Leases

Effective April 1, 2019, the Group has adopted Ind AS 116 'Leases' using the modified retrospective approach, under which the Group recorded the lease liability at the present value of the remaining lease payments discounted at the incremental borrowing rate as on the date of transition and has measured right of use asset an amount equal to lease liability adjusted for any related prepaid and accrued lease payments previously recognised. Accordingly, the comparative information has not been restated and continues to be reported under Ind AS 17 'Lease'. Additionally, the disclosure requirements in Ind AS 116 have not generally been applied to comparative information. The following is the summary of the new and/or revised significant accounting policies related to Leases. Refer Note 1 'Significant Accounting policies', in the Group's 2019 Annual Report for the policies in effect for Leases prior to April 1, 2019. The effect of transition on Ind AS 116 was insignificant.

Group as a lessee

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether: (i) the contract involves the use of an identified asset (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Group has the right to direct the use of the asset.

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. For these short-term leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease. The Group recognises lease liabilities to make lease payments and Right of Use assets representing the right to use the underlying assets as below.

Right of Use (ROU) assets

The Group recognises Right of Use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right of Use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of Right of Use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right of Use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset

Lease Liabilities

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. Lease liabilities are re-measured with a corresponding adjustment to the related ROU assets.

Lease liabilities and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

4.02 Leases

- 1 The Group's lease asset primarily consist of leases for Office Space, Warehouse Space and Vehicle having various lease terms. Effective April 1, 2019, the Group has adopted Ind AS 116 'Leases' and applied the standard to all lease contracts existing on April 1, 2019 using the modified retrospective method. Consequently, the Group recorded the lease liability at the present value of the remaining lease payments discounted at the incremental borrowing rate as on the date of transition and has measured right of use asset an amount equal to lease liability adjusted for any related prepaid and accrued lease payments previously recognised.
- 2 The effect of this adoption is insignificant on the profit before tax, profit for the year and earnings per share. Ind AS 116 has resulted in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments.
- 3 The following is the summary of practical expedients elected on initial application :
 - a Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date.
 - b Applied the exemption not to recognise Right of Use assets and liabilities for leases with less than 12 months of lease term on the date of initial application.
 - c Applied the practical expedient by not reassessing whether a contract is, or contains, a lease at the date of initial application. Instead applied the standards only to contracts that were previously identified as leases under Ind AS 17.
 - d Used hindsight in determining the lease term where the contract contained options to extend or terminate the lease.
 - e The Group has elected, by class of underlying asset, not to separate non-lease components from lease components, and instead account for each lease component and any associated non-lease components as a single lease component.

**Notes to Consolidated Financial Statements for the year ended March 31, 2020**

Total	213.18

- 6 An explanation to difference between operating lease commitments as per Ind AS 17 and lease liabilities as per Ind AS 116 as on April 1, 2019 is as below :**

- The weighted average incremental borrowing rate applied to lease liabilities as at April 1, 2019 is 9%
- The difference between lease obligation recorded as of March 31, 2019, under Ind AS 17 and the value of lease liability as of April 1, 2019, is on account of practical hindsight in determining the lease term, where the contract contained options to extend or terminate the lease in measuring the lease liability in accordance with Ind AS 116, reclassification of finance lease obligations as lease liabilities and discounting the lease liabilities to the present value under Ind AS 116.

- 7 Amounts recognised in the statement of cash flows**

₹ in Lakhs

Particulars	2019-20
Total Cash outflow for leases	260.72

- 8** Total cash outflow recorded during the year was ₹ 392.75 lakh except for short term lease and low value assets.
- 9** The maturity analysis of lease liabilities are disclosed in note 4.10. The Group does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

**Notes to Consolidated Financial Statements for the year ended March 31, 2020**

- 10 Certain lease agreements are subject to escalation clause and with extension of lease term options. At the expiry of the lease term, in case of lease agreements other than land and building, the lessee has an option to purchase the assets at Fair Market Value

4.03 Contingent Liabilities

- (a) The Group's pending litigations comprise of proceedings pending with Income Tax and other government authorities. The Group has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed the contingent liabilities where applicable, in its standalone financial statements. The outcome of these proceedings will not have adverse effect on its financial. In respect of litigations, where the management assessment of a financial outflow is probable, the Group has made an adequate provision in the Consolidated Financial Statements.

- (b) The Hon'ble Supreme Court of India by their order dated February 28, 2019, has clarified the principles based on which allowances paid to the employees should be identified for inclusion in basic wages for the purposes of computation of Provident Fund contribution. The same has been implemented w.e.f. April 1, 2019. However, pending directions or clarification from the EPFO, the quantification of impact, if any for the period upto March 31, 2019 is not ascertainable and consequently no effect has been given in the accounts.

4.04 Capital and other Commitments

- a) Estimated amount of contracts remaining to be executed on capital account and not provided for (net of advances) ₹ 2192.68 Lakhs (March 31, 2019 : ₹ 53.90 Lakhs)
- b) Export obligations under Export Promotion Capital Goods Scheme (EPCG) towards import of capital goods at concessional rate of custom duty (duty amount involved is March 31, 2020: ₹ 351.39* lakhs, March 31, 2019: ₹ 351.39* lakhs)

* Export obligation for this year has already been fulfilled, however, procedural formalities for the closure of the EPCG Licenses are pending.

- 4.05** The Group has two segments Manufacturing of Textile and Renewable source of energy. The gross operating income and profit from the Renewable source of energy segment is below the norms prescribed in Ind AS 108, hence separate disclosure have not been made.

4.06 Corporate Social Responsibility

As required under section 135 of the Companies Act 2013, the Company has constituted Corporate Social Responsibility (CSR) committee. The relevant particulars are disclosed hereunder:

The company is required to spend ₹ 61.90 Lakhs; (March 31, 2019: ₹ 64.57 Lakhs) on CSR activities.

Amount spend during the year is as follows:

*During the Financial Year 2019-20, the Company had spent ₹ 154.44 Lakhs towards CSR Expenditure. Out of the said spent amount, ₹ 61.90 Lakhs is towards Financial Year 2019-20, ₹ 46.67 Lakhs towards Financial Year 2017-18 and ₹ 45.87 Lakhs towards Financial Year 2016-17.

**During the Financial Year 2018-19, the Group had spent Rs.116.06 Lakhs towards CSR Expenditure. Out of the above spent amount, ₹ 40.11 Lakhs is towards the Financial Year 2014-15; Rs.56.34 Lakhs for the Financial Year 2015-16 and ₹ 19.61 Lakhs for the Financial Year 2016-17.

**Notes to Consolidated Financial Statements for the year ended March 31, 2020****4.07 Employee Benefit Plans****1. Defined contribution plans**

The amounts of contribution to provident fund and ESIC recognized as expenses during the year is ₹ 93.62 Lakhs (March 31, 2019: ₹ 109.99 Lakhs) for the year ended March 31, 2020.

2. Defined Benefits Plans

The Group sponsors unfunded defined benefit plans for qualifying employee therefore there are no plan assets which are maintained exclusively thereof. In computation of gratuity liability, Project Unit Credit Method is used.

Investment Risk	The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.
Longevity Risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
Salary Risk	The present value of the defined plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

4.08 Capital Management

The Group's objectives when managing capital are to safeguard its ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, and maintain an optimal capital structure to maximise shareholder value. In order to maintain or achieve a capital structure that maximises the shareholder value, the Group allocates its capital for distribution as dividend or re-investment into business based on its long term financial plans. As at March 31, 2020, the Group has only one class of equity shares and has no debts. Hence, there are no externally imposed capital requirements.

₹ in Lakhs

Particulars	2019-20	2018-19
Dividend on equity shares paid during the year		
Interim dividend for the year ended March 31, 2020 of ₹ 3/- (March 31, 2019 - ₹ Nil) per equity share of ₹ 10/- each	821.49	-
Dividend distribution tax on the above dividends	168.86	-

The Group's capital requirement is mainly to fund its business expansion and repayment of borrowings. The principal source of funding of the Group has been, and is expected to continue to be, cash generated from its operations supplemented by funding from bank borrowings

The Group has adhered to material externally imposed conditions relating to capital requirements and there has not been any delay or default during the period covered under these financial statements with respect to payment of principal and interest. No lender has raised any matter that may lead to breach of covenants stipulated in the underlying documents.

The Group monitors its capital using gearing ratio, which is net debt divided to total equity. Net debt includes, interest bearing loans and borrowings less cash and cash equivalents.

4.09 Financial Instruments

(i) Methods and assumptions used to estimate the fair values

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

- The carrying amounts of receivables and payables which are short term in nature such as trade receivables, other bank balances, deposits, loans to employees, trade payables, payables for acquisition of non-current assets, demand loans from banks and cash and cash equivalents are considered to be the same as their fair values.
- The fair values for long term loans, long term security deposits given and remaining non-current financial assets were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs.
- The fair values of long term security deposits taken, non-current borrowings and remaining non-current financial liabilities are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs.
- For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

(ii) Categories of financial instruments

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Directly or indirectly observable market inputs, other than Level 1 inputs; and

Level 3: Inputs which are not based on observable market data.

4.10 Financial Risk Management

The Group's financial risk management is an integral part of how to plan and execute its business strategies. The Group's financial risk management policy is set by the Managing Board. The details of different types of risk and management policy to address these risks are listed below:

The Group's activities are exposed to various risks viz. Credit risk, Liquidity risk and Market risk. In order to minimise any adverse effects on the financial performance of the Group, it uses various instruments and follows policies set up by the Board of Directors / Management.

a. Credit Risk :

Credit risk arises from the possibility that counter party will cause financial loss to the Group by failing to discharge its obligation as agreed.

Credit risks from balances with banks are managed in accordance with the Group policy. For derivative and financial instruments, the Group attempts to limit the credit risk by only dealing with reputable banks having high credit-ratings assigned by credit-rating agencies.

Based on the industry practices and business environment in which the Group operates, management considers that the trade receivables are in default if the payment are more than 2 years past due.

Trade receivables primarily consists of Outstanding against exports sales and sales to certain domestic customers with no significant concentration of credit risk. The outstanding trade receivables are regularly monitored and appropriate action is taken for collection of overdue receivables.

Total	82.86	82.09

b. Liquidity Risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The Group's approach for managing liquidity is to ensure that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to Group's reputation. In addition, processes and policies related to such risks are overseen by the senior management. The Management monitors the Group's net liquidity position through rolling forecasts on the basis of expected cash flows.

Financing arrangements

The Group has sufficient sanctioned line of credit from its bankers / financiers; commensurate to its business requirements. The Group reviews its line of credit available with bankers and lenders from time to time to ensure that at all point of time there is sufficient availability of line of credit to handle peak business cycle.

**Notes to Consolidated Financial Statements for the year ended March 31, 2020**

The Group pays special attention to the net operating working capital invested in the business. In this regard, as in previous years, considerable work has been performed to control and reduce collection periods for trade and other receivables, as well as to optimise accounts payable with the support of banking arrangements to mobilise funds and minimise inventories.

c. Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: currency risk, and interest rate risk.

(i) Market Risk – Foreign Exchange

Foreign currency risk is that risk in which the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group operates internationally and a portion of its business is transacted in several currencies and therefore the Group is exposed to foreign exchange risk through its overseas sales and purchases in various foreign currencies. The Group hedges the receivables as well as payables by forming view after discussion with Forex Consultant and as per policies set by Management.

The Group does not enter into or trade financial instrument including derivative for speculative purpose

Based on internal and external sources of information and economic forecasts, all group expects the carrying amount of these assets will be recovered and sufficient liquidity would be available as and when required to fund the business operations. A definitive assessment of the impact, at this stage, is not possible in view of the highly uncertain economic environment and the situation is still evolving. The group is continuously monitoring material changes in such information and economic forecasts. The Holding company has started operating its manufacturing facilities, warehousing operations, Branch office in a phased manner and with limited operation from the first week of May 2020. Our subsidiary company has also started operation from May, 2020.
