Dear Sirs,

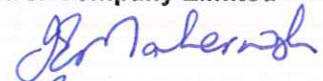

**Tata Power's Generation crosses 52,000 MUs for the first time in FY17**

Tata Power, today announced that the Company's generation, for the first time, has crossed 52,000 Million Units (MU), collectively from all its power plants in FY17. The Company also reported capacity increase by 16% per cent in FY17 as compared to FY16. The Company, together with all its subsidiaries and jointly controlled entities, has an installed generation capacity of 10,613 MW (as of May 2017) as compared to 9,180 MW in FY16 from various fuel sources such as thermal (coal, gas and oil), hydroelectric power, renewable energy (wind and solar PV) and waste heat recovery.

The Company continued its robust operations in FY17 and the Company's consolidated generation through all its subsidiaries stood at 52,512 MU as compared to 47,347 MU in FY16.

The Press Release to be issued by the Company is attached for your ready reference.

Yours faithfully,  
For The Tata Power Company Limited

  
Company Secretary

Encl.

## **Tata Power's Generation crosses 52,000 MUs for the first time in FY17**

- Total Generation Capacity up by 16% in FY17-

**National, 22nd May, 2017:** Tata Power, India's largest integrated power company, today announced that the Company's generation, for the first time, has crossed 52,000 Million Units (MU), collectively from all its power plants in FY17. The company also reported capacity increase by 16% per cent in FY17 as compared to FY16. The Company, together with all its subsidiaries and jointly controlled entities, has an installed generation capacity of 10,613 MW (as of May 2017) as compared to 9,180 MW in FY16 from various fuel sources such as thermal (coal, gas and oil), hydroelectric power, renewable energy (wind and solar PV) and waste heat recovery.

The Company continued its robust operations in FY17 and the Company's consolidated generation through all its subsidiaries stood at 52,512 MU as compared to 47,347 MU in FY16.

Generation from significant stations for the quarter were as follows. Mundra reported generation of 27,460 MU, while Maithon plant reported 7,357 MU. Trombay Thermal Power Station generated 6,394 MU, Jojobera Thermal Power Station generated 2,833 MU and Haldia reported generation of 779 MU. Industrial Energy Limited reported generation of 2,457 MU, TPREL generated 556 MU through clean sources of energy (Solar & Wind) and WREPL generated 884 MU.

Commenting on this development, **Mr. Ashok Sethi, COO & ED, Tata Power**, stated, *"Tata Power has and will continue to serve the nation earnestly and will continue to be part of India's growth story. We are confident that in the next few years we will have greater contribution towards the Government and consumers' vision of a power sufficient nation. Towards this end, we are constantly growing, evolving, and evaluating suitable options to spread our footprint in different geographies in a sustainable way. The Company aims to pursue a well charted growth strategy by demonstrating a high level of commitment towards cleaner sources of generation thus increasing the share of non-fossil fuel based generation output to 35- 40% by 2025."*

*With the support of leading technological innovations, excellence in project execution, world class safety processes, customer care, and green initiatives, the Company has succeeded in establishing a strong foothold across the country and overseas. Tata Power continues to be on the lookout for feasible organic and inorganic projects, both greenfield and brownfield, in India and abroad.*

**About Tata Power:**

Tata Power is India's largest integrated power company with a growing international presence. The Company together with its subsidiaries and jointly controlled entities has an installed gross generation capacity of 10,613 MW and a presence in all the segments of the power sector viz. Fuel Security and Logistics, Generation (thermal, hydro, solar and wind), Transmission, Distribution and Trading. It has successful public-private partnerships in Generation, Transmission and Distribution in India namely "Tata Power Delhi Distribution Limited" with Delhi Vidyut Board for distribution in North Delhi, 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi and 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1,050 MW Mega Power Project at Jharkhand. Tata Power is serving more than 2.6 million distribution consumers in India and has developed the country's first 4,000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. It is also one of the largest renewable energy players in India with a clean energy portfolio of 3,141 MW. Its international presence includes strategic investments in Indonesia through a 30% stake in the leading coal company PT Kaltim Prima Coal (KPC), 26% stake in mines at PT Baramulti Suksessarana Tbk ("BSSR"); in Singapore through Trust Energy Resources to securitize coal supply and the shipping of coal for its thermal power generation operations; in South Africa through a joint venture called 'Cennergi' to develop projects in sub-Sahara Africa; in Zambia through 50:50 joint venture with ZESCO for 120 MW Hydro which has become operational in 2016; in Georgia through AGL which is a joint venture with Clean Energy, Norway & IFC for development of 187 MW hydro project and in Bhutan through a hydro project in partnership with The Royal Government of Bhutan. With its track record of technology leadership, project execution excellence, world class safety processes, customer care and driving green initiatives, Tata Power is poised for a multi-fold growth and committed to 'lighting up lives' for generations to come".
