Eurocopter and Ramco sign partnership agreement to offer cloud-based maintenance information systems for helicopters

Le Bourget, France, June 19, 2013

Eurocopter today announced its global partnership with Ramco Systems, the global Aviation Software provider on cloud, mobile and tablets. Both companies will join forces to offer state-of-the-art helicopter maintenance software which will ease the life of operators and maintenance centers.

This partnership agreement, formally signed at the 2013 Paris Air Show, enables Eurocopter and Ramco Systems to offer additional mobility and functionality for the collection and treatment of MRO-related data, thereby providing highly effective and cost-efficient fleet management services that are affordable and user friendly for all operators – including those with smaller numbers of helicopters.

“Ramco’s cloud-based maintenance software solution is an outstanding addition to our service offering,” said Matthieu Louvot, Senior Vice President of Support and Services. “The partnership will bring us closer to our customers’ maintenance operations, enabling us to offer them the best quality of service.”

Commenting on the global partnership, P. R. Venketrama Raja, Vice Chairman & Managing Director, Ramco Systems, said “The strength and capability of our Aviation solution gets a global endorsement with Eurocopter, the number one civil and parapublic helicopter manufacturer, choosing Ramco for its functionality, cloud-based solution with mobility, new user interface and role-based WorkSpaces. Ramco Aviation on Cloud is modular which makes it user friendly for small and large operators”.

With tens of thousands of parts in an aircraft, tracking and managing each stage of maintenance work would become unmanageable without a user friendly and comprehensive M&E/ MRO solution. The Ramco-Eurocopter cloud based MRO software addresses the unique needs of smaller Operators, MROs and CAMOs, which until now had to either run on disparate point solutions or operate manually using paper/ excel to track maintenance and manage safety and regulatory compliance.

About Eurocopter (Website: www.eurocopter.com)

Established in 1992, the Franco-German-Spanish Eurocopter Group is a division of EADS, a world leader in aerospace and defense-related services. The Eurocopter Group employs approximately 22,000 people. In 2012, Eurocopter confirmed its position as the world’s No. 1 helicopter manufacturer with a turnover of 6.3 billion Euros, orders for 469 new helicopters and a 44 percent market share in the civil and parapublic sectors. Overall, the Group’s helicopters account for 33 percent of the worldwide civil and parapublic fleet. Eurocopter’s strong international presence is ensured by its subsidiaries and participations in 21 countries. Eurocopter’s worldwide network of service centers, training facilities, distributors and certified agents supports more than 2,900 customers. There are currently more than 11,780 Eurocopter helicopters in service in 148 countries. Eurocopter offers the most comprehensive civil and military helicopter range in the world and is fully committed to safety as the most important aspect of its business.
