Mecaer Aviation Group (MAG), Inc. chooses Ramco Aviation MRO Software

Philadelphia, Pennsylvania/ Orlando, USA – March 4, 2015 – Mecaer Aviation Group (MAG), Inc. the authorized service center of AgustaWestland, today announced that it has chosen Ramco Aviation suite to manage its MRO (Maintenance, Repair & Overhaul) operations which covers both rotary and fixed wing aircraft.

Built with industry best practices, Ramco Aviation suite will enable MAG to automate their processes and integrate its Maintenance, Engineering & Programs, Materials and Finance, thereby ensuring better customer service and turn-around-time.

Mr. Ed Pears, President, Mecaer Aviation Group, Inc. said, "Customer has always been the center of our operating philosophy and in order to meet our commitments, our business certainly demanded for a solution that could ensure data accuracy across operations. We are very excited about the opportunity to be associated with Ramco. The implementation of Ramco Aviation software will aid us in creating the capability to provide legendary service to our customers, support technical growth and performance of our people and grow our business."

Commenting on the latest win, **Mr. Virender Aggarwal, CEO, Ramco Systems**, said, "After witnessing good growth in the heli-operator segment, we are happy to see growing number of MROs embracing Ramco Aviation Software. Ramco Aviation's ability to address fleet of all major OEMs, especially AgustaWestland, for whom MAG is the authorized service centre helped seal the deal. With Ramco Aviation solution, we believe that MAG will now be able to better analyze their profitability and efficiency, in order to boost their business growth."

With Emirates, Malaysia Airlines, Singapore Airlines Engineering Company, Petroleum Helicopters, Columbia Helicopters and 67 others onboard, Ramco is the solution of choice for several top airlines and 5 of the leading civilian heli-operators in the world. Designed to be accessible on cloud, mobile and tablets, Ramco Aviation continues to add technological innovations with wearable devices offering hands free computing, and straight through processing which helps cut down AOG time and TAT drastically.
