Ramco wins order from Mission Aviation Fellowship

Provides connectivity in remote locations to enrich lives across the globe

Nampa, Idaho, USA/ Chennai, India – August 10, 2015 – Ramco Systems, the global Aviation software provider on cloud, mobile & tablets, today announced new order from US-based Christian mission organization **Mission Aviation Fellowship (MAF)**. Ramco will implement Ramco Aviation Suite with OFMS (Offline Field Maintenance System) to help MAF track multi-location maintenance operations & inventories.

Ramco Aviation Suite, the preferred aviation and MRO software of noted players in the industry, will provide modules of Maintenance and Engineering, Compliance and Quality, Inventory and Procurement, and Mobility. The enterprise solution will also offer OFMS, thereby addressing MAF's fleet management needs in remote regions with limited or no connectivity.

On signing the deal, **Mr. John Boyd, President & CEO, Mission Aviation Fellowship**, said, "MAF serves those living in the most remote locations of the world. Connectivity has always been a challenge in these areas. After evaluating some of the leading aviation IT vendors, we found Ramco's offering to be the best fit, especially for managing our remote operations. With Ramco, we will now be able to electronically track and perform day-to-day work in zero connectivity, therefore ensuring automated business operations."

Commenting on the association, **Mr. Virender Aggarwal, CEO, Ramco Systems**, said "Ramco has been recognized by many players in the industry for its innovation-led focus on mobility and simple user experience such as gesture computing, email based transactions, straight-through processing and voice recognition, amongst others. Today, we have redefined mobility, joining hands with Mission Aviation Fellowship, by offering to manage operations seamlessly, even in zero connectivity areas in the remote corners of the globe. We are also extremely pleased with our increasing presence in the North American region."

With Emirates, Malaysia Airlines, Petroleum Helicopters Inc., Cobham Aviation Services, Columbia Helicopters, Able Engineering & Aerospace, and seventy others onboard, Ramco is the solution of choice for several large airlines and five of the top heli-operators in the world. Designed to be accessible on cloud, mobile and tablets, Ramco Aviation Software continues to add technological innovations with wearable devices offering hands-free computing, and the 'one user once screen' concept called HUB, amongst others that help significantly reduce transaction time both during AOG conditions and critical aircraft turnarounds.

About Mission Aviation Fellowship:

Founded in 1945, Mission Aviation Fellowship (www.maf.org) is a family of organizations with a singular mission: to share the love of Jesus through aviation and technology so that isolated people may be physically and spiritually transformed. MAF serves in 31 countries of Africa, Asia, Eurasia, and Latin America with a fleet of 132 aircraft. Its recent work includes coordinating transportation to remote areas of Nepal devastated by earthquakes, helping combat an Ebola

outbreak last summer in the Democratic Republic of the Congo, and supporting the work of churches, missionaries, and Bible translators around the world.

About Ramco Systems:

Ramco Systems is part of the USD 1 Billion diversified conglomerate, the Ramco Group of companies. Ramco Systems is a rapidly growing cloud enterprise software company focused on providing multi-tenanted enterprise software to corporates in the area of HCM and Payroll, ERP and M&E MRO for Aviation, with Mobile first philosophy and In-memory based Planning and Optimization engine. At Ramco, we understand that functionality alone cannot help a product succeed in today's crowded marketplace. With utmost importance to usability, Ramco has charted out a product philosophy of MUSIC—an acronym for Mobility, User Interface, Social, In-Memory and Context-aware applications. Headquartered in Chennai (India), the company has 20 offices spread across India, USA, Canada, Europe, Australia, Middle East, South Africa and APAC.
