European MRO, Ingeniería Semasa refines its art of maintenance with Ramco

Chooses Ramco Aviation Suite to streamline MRO operations

Madrid, Spain / Chennai, India – October 28, 2015 – Ramco Systems, the global Aviation software provider on Cloud, Mobile & Tablets, today announced that it has got an order from Madrid-headquartered **Ingeniería Semasa**, to fully integrate the company's Maintenance, Repair and Overhaul (MRO) functions.

Ingeniería Semasa, specialists in maintaining and testing equipment and components for various airlines and operators across Europe, Middle East and Africa, will implement Ramco Aviation Suite V5.7 with modules of Maintenance, Material Management, MRO Sales along with Finance. As a fast growing European Component MRO, Ingeniería Semasa performs component maintenance, NDT Testing and calibration laboratory in disparate locations. With the implementation of Ramco Aviation Software, Ingeniería Semasa will be able to seamlessly track and monitor the MRO activities and inventory.

Mr. Sergio Sanchez, CEO of Ingeniería Semasa, said, "As we continued to expand and add global clients, we faced difficulties in managing operations using our current set of multiple systems. Another very important aspect to an organization like Semasa was to choose a system that would be able to scale up as we grow and also look for a system that is designed for the future. Our search for an easy to use, integrated MRO software which would suit our lean organization lead us to Ramco. With its fully integrated MRO and Finance software, Ramco will eliminate data silos and enable us to electronically track and carry out our core activities, from all locations, thus ensuring integration of operations across business units."

Mr. Virender Aggarwal, CEO, Ramco Systems said, "The Aviation MRO industry is going through massive changes as manufacturers focus on delivering next-gen aircraft and engines. This has triggered the need to innovate, and adapt the business to changing needs. Technology, as we all see, will be a prime driver in enabling organizations thrive in disruptive market conditions. We at Ramco, are excited to be partnering with Ingeniería Semasa in their technology transformation phase as they embrace next-gen technologies to address customer and market needs, effectively."

With Several MROs like Able Engineering, ADAC, Airlines like Astra, Emirates, Malaysia Airlines, operator s like Cobham Aviation Services, Petroleum Helicopters, and several others on-board, Ramco is the solution of choice for organizations from almost all the segments of the aviation Industry. Designed to be accessible on cloud, mobile and tablets, Ramco Aviation Software continues to add technological innovations with wearable devices offering hands-free computing, and the 'one user once screen' concept called HUB.

About Ingeniería Semasa:

Ingeniería Semasa is a Spanish Company with over 25 Years of experience working majorly with National and International airlines. They are based out of two major locations, their Headquarters in Madrid, Spain and another facility in the Canary Islands.

Their Primary responsibilities include Repair brakes, wheels, oxygen bottles & extinguishers (hydrostatic testing and refilling), landing gear, evacuation slides, vests, helicopter floats and life rafts and batteries, etc.

Other main areas include the non-destructive testing (NDT) using all methods: Eddy current, ultrasonic, dye penetrant, radiographic, magnetic particles and thermography. In addition to applying these methods in the aviation field, they serve other sectors such as Formula 1, & 2 and oil platforms.

Semasa also have calibration laboratory accredited by ENAC where they calibrate torque wrenches, manometers, sphygmomanometers cables, Pitot Static Tester, calipers, external micrometers, comparators, digital scales etc

About Ramco Systems:

Ramco Systems is part of the USD 1 Billion diversified conglomerate, the Ramco Group of companies. Ramco Systems is a rapidly growing cloud enterprise software company focused on providing multi-tenanted enterprise software to corporates in the area of HCM and Payroll, ERP and M&E MRO for Aviation, with Mobile first philosophy and In-memory based Planning and Optimization engine. At Ramco, we understand that functionality alone cannot help a product succeed in today's crowded marketplace. With utmost importance to usability, Ramco has charted out a product philosophy of MUSIC—an acronym for Mobility, User Interface, Social, In-Memory and Context-aware applications. Headquartered in Chennai (India), the company has 20 offices spread across India, USA, Canada, Europe, Australia, Middle East, South Africa and APAC.
