Persistent Systems Achieves Oracle PartnerNetwork Specialization for Oracle Identity Governance and Oracle Access Management

Santa Clara, CA July 31, 2014

News Summary

Persistent Systems (BSE NSE: PERSISTENT), a leader in software product and technology services and a Gold level member of Oracle PartnerNetwork (OPN), today announced it has achieved OPN Specialized status for both Oracle Identity Governance Suite 11g and Oracle Access Management Suite Plus 11g.

Persistent Systems' approach to Identity and Access Management is fast, iterative and industry-specific, harnessing its allied experience in areas of Cloud, Mobility and Analytics. It has expanded its Oracle Identity and Access Management offerings to cover value-added services such as platform upgrades (from 10g to 11g), migrations and post-implementation training and managed services support. Persistent Systems also offers a suite of ready-to-deploy integrations and preconfigured functionality that can translate into rapid time to value, fast return on investment and lower CapEx.

Details

- By achieving a Specialized distinction, Persistent is recognized by Oracle for its expertise in delivering services specifically for both Oracle Identity Governance Suite 11g and Oracle Access Management Suite Plus 11g through competency development, business results and proven success.
- To achieve OPN Specialized status, Oracle partners are required to meet a stringent set of requirements that are based on the needs and priorities of the customer and partner community.

Persistent Quote

"For almost twenty years we have been working with Oracle to provide customers with ideal Identity and Access Management solutions. We've built trust with our customers who rightfully see IAM programs as some of the most vital and visible Business Transformation initiatives in their enterprises," said Milind Patwardhan, senior vice president at Persistent Systems. "Our Specializations in Oracle Identity and Access Management Suite demonstrate our commitment to help customers respond rapidly to the swift proliferation of digital identities, increased regulatory requirements and heightened corporate fraud and security risks, all of which create the need for enhanced management capabilities."
