TCS Recognized as a Leader in Magic Quadrant for Application Testing Services for Third Consecutive Year by Gartner

NEW YORK | MUMBAI, December 14, 2016: Tata Consultancy Services (TCS), (BSE: 532540, NSE: TCS) a leading global IT services, consulting and business solutions organization, today announced it has been recognized by Gartner, Inc. as a Leader in its "Magic Quadrant for Application Testing Services, Worldwide," report, by Susanne Matson, Patrick J. Sullivan and Gilbert van der Heiden, 28th November 2016.

Gartner evaluated 18 service providers, including TCS, on their ability to execute and completeness of vision. According to Gartner, Leaders are performing well today, gaining traction and mind share in the market; they have a clear vision of market direction and are actively building competencies to sustain their leadership position in the market. Leaders generally have a global client base; a track record of complex, global engagements that support business transformation; and well-balanced business, process and industry consulting, implementation and service management capabilities that are supported by rigorous tools and methodologies.

TCS has invested in several patents, frameworks and proprietary tools, including the branded MasterCraft suite of products to provide test assets through the entire test life cycle and NETRA which facilitates continuous integration and continuous deployment. TCS is the first to use Artificial Intelligence (AI) in testing through their AI product called 360 Degree Assurance, which enables a self-healing Quality Assurance IT ecosystem.

"TCS is focused on radical innovations in testing and enhancing the digital competencies of our associates to ensure our customers remain competitive," said Jayashree Natarajan, Global Head of Assurance Services, TCS. "We believe TCS' position as a Leader for the third consecutive year is a testament of our leadership in the area of Application Testing through deep testing expertise, and comprehensive products and services catering across industries. Additionally, our Global Network Delivery Model™ provides timely delivery, resources with regularly updated skillsets and innovative tools, frameworks and methodologies, fortifying our leadership position in the Magic Quadrant."

With one of the most comprehensive testing portfolios available, TCS Assurance Services addresses business, quality and risk management challenges for its global clients. TCS empowers organizations across industries to ensure first-time-right releases, reduce cost while improving quality, and enable a superior customer experience. TCS offers Assurance Services across the testing value cycle, including test consulting and advisory, test services implementation, and managed services for test environment and test data management.

Gartner does not endorse any vendor, product or service depicted in its research publications, and does not advise technology users to select only those vendors with the highest ratings or other designation.
