Press Release

Linde India Q1 revenue and operating profit increased by 5 percent

Pune, India – 23 April, 2015: Linde India Limited, a member of The Linde Group, announced its unaudited financial results for the quarter ending 31 March 2015 which was approved by the Company's Board of Directors at its meeting held earlier today.

For Q1 2015, the Company reported a gross turnover of Rs 3,916 million, an increase of 5 percent compared against Rs 3,723 million recorded in the same quarter last year. The gases business recorded a growth of 11 percent; while the engineering business recorded a net of inter-segment revenue of 30 percent lower as compared to the same quarter last year due to fewer new projects.

The Company recorded an operating profit of Rs 599 million, an increase of 5 percent as compared to Rs. 568 million for the same quarter in 2014. The Company recorded a net profit of Rs 144 million after taxes compared against a loss of Rs 5 million in same quarter last year. The increase was mainly due to a tax benefit arising from a deferred tax release on investment allowance as per Section 32AC of the Income Tax Act, 1961. This tax benefit was partly off-set by the separation cost of employees who were offered a voluntary retirement scheme.

About Linde India Limited:

Linde India Limited, formerly known as BOC India Limited, is the leader in gases business in India since 1935, providing a one-stop solution to all businesses for gas supply and related equipment and services. We manufacture cryogenic and non-cryogenic vessels and also design and commission projects. The company has excelled through successfully blending local innovation and adaptation with international expertise from The Linde Group. Be it for food processing, medical, domestic or industrial use, Linde India provides tailor-made solutions for its customers, conforming to the strictest international standards of production and safety.
