Commissioning of Grinding Unit at Jhajjar, Haryana

We are glad to inform that, the Company's 13th Grinding unit with a capacity of 1.6 mtpa has been commissioned at Jhajjar, Haryana. With this the Company's cement capacity stands augmented to 63.1 mtpa.

The 3rd line at Aditya Cement, Rajasthan commissioned in March-15 will cater to the clinker requirement of this plant.

North region accounts for almost 35% of all India demand for Cement and is expected to grow at ~8%. With this commissioning, the Company will further increase its capacity in North region and this grinding unit located at a distance of less than 100 kms from the markets of NCR and Haryana will assist in capturing the growing demand for Cement in this region with timely and effective supplies to the customers.

Disclaimer: Statements in the above "communication" describing the Company's objectives, estimates, expectations or predictions may be "forward looking statements" within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include global and Indian demand supply conditions, finished goods prices, feedstock availability and prices, typical demand and pricing in the Company's principal markets, changes in Government regulations, tax regimes, economic developments within India and the countries within which the Company conducts business and other factors such as litigation and labour negotiations. The Company assumes no responsibility to publicly amend, modify or revise any forward looking statement, on the basis of any subsequent development, information or events, or otherwise.
