Aksh Optifibre Limited has been awarded the eminent Jaipur Smart City Project

Press Release
For Immediate Dissemination

Jaipur, 12th July, 2017: Aksh Optifibre Limited, the leading Indian manufacturer of Optical Fibre, Optical Fibre Cables, Fibre Reinforced Composites and a major e-Governance & Turnkey service provider has been awarded the eminent Jaipur Smart City Project.

Jaipur Smart City is a project led and implemented by Jaipur Smart City Limited, (JSCL) who invited a bid for Development of Smart Road in ABD areas of Jaipur. Aksh participated in the said bid and has been awarded with the Letter of Acceptance (LOA) from JSCL.

JSCL leads the project with a vision to combat and manoeuvre the growing requirements of Jaipur city by making a planned implementation of development schemes to meet its objective of providing safety and security solutions and to facilitate the citizens as well as civil administration of Jaipur. The project envisages development of Smart City solutions and state-of-art City Operation Centre. AKSH shall deploy the OFC network to install the Smart city Wi-Fi network, Smart LED Lighting system for energy efficiency, IP based surveillance system with Vehicle Identification & Counting, Environment sensors for monitoring the environment, Smart Parking system, and Smart Communication.

Network connectivity plays an important role in building Jaipur as a Smart City by bringing together different city management vertical solutions on a single foundational network infrastructure. The converged network facilitates information exchange between resources and applications across different domains. It is an end-to end open platform enabling IOT (Internet of Things) services for cities. AKSH shall set up the network, provide internet connectivity through ISP to things, people, devices, and vehicles in the city street; Wired and wireless, scalable, and highly secure network platform; a data management framework to help enable data collection, organization, and distributed compute and storage services, location services, and security services. The organization shall maintain the network for five years.

Aksh has forayed into Smart City projects with a vision for planned development and progressive growth in various cities of the country, in sync with the smart cities mission of Government of India.

Mr. Satyendra Gupta, Deputy Managing Director at Aksh Optifibre Limited, commented,
“Aksh is committed towards playing a pivotal role in the development of cities by bringing innovation and technology coupled with planned implementation in order to benefit the citizens at large. Our mission is to provide smart services and solutions in the cities which would also at the same time, assist the civil administration and contribute to the government’s smart cities mission unequivocally.”

In addition to it, Aksh has also stepped into energy sector with an aim to revolutionize it by introducing “Energy Efficient Lighting Programs” wherein Aksh intends to provide cost and energy effective lighting products to serve the people across the county.

About Aksh OPTIFIBRE LIMITED:

AKSH OPTIFIBRE LIMITED is an over 30 year old organization which started with the manufacturing of Optical Fibre (OF) and Optical Fibre Cables (OFC) in 1994.
