Dear Sir / Madam,

Hardwyn India Ltd. Launches New Hardware Range; Secures Orders from Leading Institutional Projects Across India

Hardwyn India Ltd., a leading manufacturer of architectural hardware solutions, has announced the launch of its ISI-certified Floor Spring, alongside securing multiple orders from prominent institutional and government-backed infrastructure projects across India.

The newly launched Floor Spring is engineered to deliver reliable glass door control, smooth closing action, and certified performance for frameless glass door installations. Designed to meet stringent Indian safety standards, the product is particularly suited for high-traffic commercial and institutional environments, where durability and consistent performance are critical.

Manufactured with precision engineering, the ISI-marked Floor Spring ensures seamless integration with modern glass door fittings, maintaining accurate door alignment and controlled closing speed. Its robust internal mechanism is built to withstand demanding usage conditions, making it an ideal choice for applications such as hospitals, universities, and government buildings. The product is available in Silver and Black finishes, catering to contemporary architectural aesthetics.

In parallel with the product launch, the company has received purchase orders from several prestigious projects, including medical colleges, universities, and government establishments across states such as Uttar Pradesh and Chhattisgarh. These orders reinforce the growing demand for high-quality, certified door control solutions in large-scale infrastructure developments.

Management Commentary:

A spokesperson for Hardwyn India Ltd. said, "The launch of our ISI-certified Floor Spring marks a significant step in strengthening our product portfolio with solutions that combine safety, performance, and design. The encouraging response from reputed institutional projects underscores the market's trust in certified, high-quality architectural hardware. We remain committed to delivering products that meet evolving infrastructure needs while adhering to the highest standards of quality and reliability."

With increasing focus on compliance, safety, and durability in India's infrastructure and real estate sectors, Hardwyn India Ltd. continues to position itself as a trusted partner for advanced architectural hardware solutions, catering to both institutional and commercial segments.

This is for your information and also for the information of members and the public at large.

Thanking you,

Your Faithfully,

For Hardwyn India Ltd.
