PPAC to rope in consulting firm to study the future of oil & gas sector

KEEN INTEREST. Stakeholders have requested PPAC for details on energy transitions, biofuels, exports

Rishi Ranjan Kala
New Delhi

The data collection agency of the Ministry of Petroleum & Natural Gas (MoPNG), Petroleum Planning & Analysis Cell (PPAC) which plans to hire a consulting firm to study the future of oil and gas in the age of energy transition has floated an expression of interest (EoI) for hiring a knowledge partner.

The agency said that various stakeholders have requested PPAC for studies, especially related to the future of oil & gas industry in the energy transitions, biofuels and refined petroleum product exports (POL).

FUTURE PLANNING
“To effectively discharge its responsibilities, PPAC ac-

KEY REQUIREMENT. Given the nature of studies being planned, the knowledge partner for Petroleum Planning & Analysis Cell may need a team of five members'S REUTERS

cordingly intends to hire a knowledge partner to assist it in specific studies/activities,” it added.

PPAC maintains the data bank in the oil and gas sector. Besides, it is also responsible for energy modelling and

POL demand forecasting as well as conducting various studies in the energy domain.

In addition to administration of subsidies, PPAC also monitors and analyses trends in oil & gas sector and provide appropriate support to the

Ministry. It carries out various studies through working groups, committees and stakeholders’ consultation in the sector.

According to the EoI, the knowledge partner will “assist with sector promotion activities, especially among global investors through investor engagement programmes and facilitate prospective investors in oil, energy, gas, renewable sector assist PPAC in holding industry wide events such as stakeholders meet, foundation day to provide a platform for industry players to express their views,” it added.

The partner will also assist PPAC with various policy formulations and sector publications including its monthly ready reckoner, quarterly report and the most important ‘comprehensive annual report to be put up before the

MoPNG during the general body meeting, it said.

The knowledge partner’s annual sales turnover generated from services related to consulting during each of the last three financial years (excluding current financial year) as per the last published Balance sheets), should be at least ₹10 crore.

TEAM OF EXPERTS
PPAC said that given the nature of studies which are being planned between 2025-26 and onwards, it is estimated that the knowledge partner for PPAC may need a team of five members.

The team would include an expert in global oil & gas, power, RE, biofuel and hydrogen economy with at least 7 years of professional experience and at least 3 years’ experience in the oil & gas and energy sector.

Cryptocurrency trade tops 30% in May; Bitcoin and Ethereum prices rise

Sanjana B
Bangaluru

A significant increase in cryptocurrency trading volumes was seen recently, with spot trading rising by more than 30 per cent in May compared to April, signalling growing confidence among investors.

The rise in trading volumes matches wider trends like more institutional investors entering the market, positive changes in regulations, and strong technical signals in major cryptocurrencies like Bitcoin and Ethereum. After breaking above the \$105,500 neckline, Bitcoin’s price surged and could reach around \$111,000, experts observed.

Piyush Walke, Derivatives Research Analyst, Delta Exchange, said “Bitcoin is trading above its anchored VWAPs, reinforcing the prevailing positive market sentiment. Ethereum mirrored Bitcoin’s momentum with a strong upside move. It may encounter minor resistance near \$2,720, while \$2,560 is likely to act as a support level. On the institutional side, Bitcoin spot ETFs recorded net inflows of \$386.2 million, while Ethereum ETFs attracted \$53 million, indicating growing investor interest in both assets.”

In its May 2025 Transparency Report, CoinDCX said it saw a 32 per cent increase in spot trading volumes, rising to \$492 million in May from \$374 million in April. Sumit Gupta, Co-Founder, of CoinDCX attributed this to the increasing policy momentum in key markets and

India’s growing participation in the digital asset economy.

SURGE FACTORS
BTC and ETH were the most actively traded tokens on CoinDCX in May, with volumes of \$29.5 million and \$21.7 million respectively. Moo Deng emerged as a breakout performer with \$14.4 million.

The surge in trading volumes was driven by a convergence of macroeconomic events, institutional participation, and renewed retail engagement, Sathvik Vishwanath, Co-founder and CEO of Unocoin explained. This uptick reflects growing investor confidence and market activity across major and mid-cap digital assets.

The approval and inflow into US spot Bitcoin and Ethereum ETFs playing a key role in legitimising crypto among institutional investors, he said.

Optimism around US-China trade talks and anticipation of inflation data created short-term volatility, inviting speculative trading opportunities.

This resulted in heightened volume, especially in assets like PEPE, SOL, and meme coins, which thrive during periods of high engagement.

“The volume surge confirms bullish sentiment and signals a phase of aggressive positioning ahead of global economic triggers...traders are advised to remain cautious, watching for continuation patterns and potential exit liquidity events,” Vishwanath noted.

‘India had an opportunity to take control of PoK during Operation Sindoor’

Lauding the valour of Indian armed forces during Operation Sindoor, India’s strike against terrorist bases, West Bengal Chief Minister Mamata Banerjee on Tuesday claimed that India had an “opportunity to take control” of Pakistan-occupied Kashmir (PoK) during the military operation.

West Bengal Chief Minister Mamata Banerjee ANI

Addressing the Assembly on adopting a resolution hailing the role of Indian armed forces, Banerjee alleged that the terror attack in Jammu and Kashmir’s Pahalgam was a result of total failure and callousness of the Centre, which failed to ensure national security. She also accused the BJP of politicising the bravery of the armed forces.

The term, “Operation Sindoor”, was never mentioned in the tabled resolution. Opposition BJP hit back at the State government and questioned why the term was not mentioned in the resolution.

“We do not support terrorism. Regarding the Pahalgam attack on tourists, and the way they were killed, we express condolences ...and we show solidarity,” Banerjee said.

LESSON TAUGHT
Hailing India’s military action, she said, “There was a need for teaching them a lesson. We salute the bravery of our armed forces.”

The Chief Minister said that India had an opportunity to take control of Pakistan-occupied Kashmir during the military operation.

“Why were no security

forces had an eye on elections. Taking a swipe at Prime Minister Narendra Modi, Banerjee alleged, “The PM is only busy advertising about himself.”

The BJP protested, demanding acknowledgment of Modi’s role in the operation. “What kind of appreciation, when Operation Sindoor hasn’t even been mentioned in the resolution? We understand what exactly Mamata Banerjee wants. We understand her feelings towards our armed forces and Prime Minister Narendra Modi. Two things cannot go hand-in-hand,” BJP leader Agnimitra Paul said.

Centre to float 30 GWh BESS tender by August

Rishi Ranjan Kala
New Delhi

The Ministry of Power is aggressively pushing to add solar and wind power capacities, along with battery energy storage systems (BESS) and pumped storage projects (PSPs).

The move is largely to ensure optimum utilisation of thermal power capacities and grid infrastructure. Besides, BESS and PSPs will help to provide reliable and economical electricity supply during non-solar hours.

Under this, the Ministry will float a tender for 30 GWh BESS capacity in three months with a viability gap funding (VGF) of ₹5,400 crore at a rate of ₹18 lakh per MWh.

located BESS projects commissioned on or before June 30, 2028 shall be 100 per cent, if the power from such projects is consumed outside of the State, where the BESS project is commissioned, it added.

TRANSMISSION ISSUES
The Power Minister said the Centre is working with the States, discoms and stakeholders to tackle the issues impacting expansion of the power evacuation infrastructure. He pointed to the Centre’s latest move to increase the compensation for land used in laying transmission lines to ease the Right of Way issues.

Compensation for the tower area has hiked to 200 per cent of the land value from 85 per cent, and for the RoW corridor from 15 per cent to 30 per cent, directly linking land value to market rates. Haryana and Delhi have already adopted the new guidelines issued on March 21, 2025.

To attract more private investment and ensure financial discipline, the late payment surcharge (LPS) rules have been expanded to include intra-State transmission systems. This crucial reform, previously applied only to inter-State transmission systems, aims to expand the intra-state transmission networks to absorb renewable electricity.

Standard bidding documents to procure inter-State transmission services were amended on June 5, 2025.

ISTS WAIVER EXTENDED
At a media interaction, Power Minister Manohar Lal said that the ₹5,400-crore scheme aims to attract ₹33,000 crore investment, meeting India’s BESS requirement by 2028.

The waiver of ISTS charges for storage projects has been extended until June 30, 2028, benefitting PSPs awarded, and BESS commissioned, before this date. This extension is crucial for meeting India’s growing storage needs and optimising the utilisation of transmission lines, he added.

The Ministry said that ISTS charges waiver for Hydro PSP projects for which the construction work has been awarded on or before June 30, 2028 shall be 100 per cent.
