## Notes:

- The above results for the quarter ended 31st December 2016, were reviewed by Audit Committee and approved by the Board of Directors in their meeting held on 4th February 2017 and Statutory Auditors have carried out Limited Review.
- The company recognises costs relating to its post employment defined benefit plan on actuarial basis both under IGAAP and Ind AS. Under IGAAP, the entire cost, including actuarial gains and losses are recognised in Profit and loss. Under Ind AS, remeasurement gains and losses are recognised in retained earnings through Other comprehensive income.
- Under IGAAP, spares were recognised as part of inventory and charged to Profit and loss as and when consumed. Under Ind AS, items of spares which meet the definition of Property, Plant and Equipment (PPE), are classified under CWIP and capitalised as and when put to use.
- Under IGAAP, long-term investments are usually carried at cost. However, when there is a decline, other than temporary, in the value of a long term investment, the carrying amount is reduced to recognise the decline. Under Ind AS, Long term Equity investments are re-measured at fair value through other comprehensive income.
- Under previous GAAP interest subvention loan and Deferred Sales tax loan are shown under long term borrowings, and Capital Investment subsidy is shown under Capital Reserve. Whereas, under Ind AS, interest subvention loan and deferred sales tax loan are classified as Government grants and amount proportionate to the notional interest cost is credited to Profit and loss account. And subsidy is recognised as Deferred Government grant in the Balance Sheet and amortised to profit and loss account over its remaining useful life of the assets.
- Under Ind AS provisions are need to be discounted if the time value is material and the effect of difference in value is given in the profit and loss account.
- Under Indian GAAP, dividend proposed after the date of the financial statements but prior to the approval of financial statements is considered as an adjusting event, and a provision for dividend is recognised in the financial statements of the period to which the dividend relates. Under Ind AS, dividend declaration is considered as a non-adjusting event and provision for dividend is recognised only in the period when the dividend is approved by the shareholders in Annual General Meeting.
- Under Indian GAAP, current investments in mutual funds are measured at cost or net realisable value, whichever is lower. Under Ind AS investments in mutual funds are classified as " Fair value through Profit and Loss" and are measured at fair value at each reporting date. The subsequent changes in the fair value of such investments are recognised in statement of Profit and loss.
- Under Indian GAAP deferred taxes are recognised using Income statement approach i.e., reflecting the tax effects of timing differences between accounting income and taxable income for the period. Under Ind AS, deferred taxes are recognised using balance sheet approach i.e., reflecting the tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes using the Income tax rates enacted or substantively enacted at reporting date. Also, deferred taxes are recognised on account of the above mentioned changes.

Figures have been regrouped wherever necessary.
