

## **arGEN-X to Host Conference Call & Webcast to Report Fourth Quarter Business Update and Full Year 2014 Financial Results on March 18, 2015**

**Breda, the Netherlands / Ghent, Belgium, 11 March 2015** - arGEN-X N.V. (Euronext Brussels: ARGX), a clinical-stage biopharmaceutical company focused on creating and developing differentiated therapeutic antibodies for the treatment of cancer and severe autoimmune diseases, today announced it will report its fourth quarter business update and its full year 2014 financial results after market close on Wednesday, 18 March 2015.

The arGEN-X management team will host a conference call and audio webcast at 6:00pm CET (midday ET) to discuss the financial results, as well as provide a fourth quarter business update.

To participate in the conference call, please select your phone number [here](#), and use the confirmation code 92395735. The webcast may be accessed on the homepage of the arGEN-X website at [www.argen-x.com](http://www.argen-x.com) or by [clicking here](#).

A replay of the webcast will also be available at the arGEN-X website: [www.argen-x.com/reports-and-presentations/](http://www.argen-x.com/reports-and-presentations/)

### **About arGEN-X**

arGEN-X is a clinical-stage biopharmaceutical company focused on creating and developing differentiated therapeutic antibodies for the treatment of cancer and severe autoimmune diseases. arGEN-X has generated a pipeline of differentiated clinical and preclinical antibody candidates using its SIMPLE Antibody(TM) discovery platform. SIMPLE Antibody(TM) has a particular strength in addressing novel, complex disease targets that are difficult to access using established antibody technology platforms. Proprietary Fc engineering technologies (NHance® and ABDEG(TM)) and POTELLIGENT® technology (licensed from BioWa, Inc.) further enhance the therapeutic properties of SIMPLE Antibody(TM) leads in terms of tissue penetration/residence time in the body, ability to clear disease targets or pathogenic antibodies and cell-killing potency through Antibody-Dependent Cell-mediated Cytotoxicity (ADCC), respectively. arGEN-X has leveraged its suite of antibody technologies in forging strategic collaborations with pharmaceutical and biotechnology companies to provide new approaches to diseases with unmet medical needs.

arGEN-X is listed on the Euronext Brussels exchange under the symbol ARGX.
