

Press Release

30 June 2015

Fire at Hester's Mehsana Plant

There was a fire in one of the secondary production buildings at Hester's Mehsana plant at 5pm on Monday 29 June 2015. The fire was completely brought under control by 7pm.

The probable cause could have been electrical short circuit, though we have yet to ascertain the same.

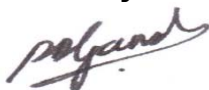

There has been no loss or damage to any life.

We are assessing the asset and raw material loss, which are covered under insurance.

There will not be any major impact on sales due to the temporary loss of production.

Investors having a desire to visit the plant to assess, are welcome on Friday 3 July 2015 for a 15-minute visit. Please inform at payal.shah@hester.in by Thursday 2 July to enable logistics planning.

Sincerely

Rajiv Gandhi
CEO & Managing Director
