Forward-looking statements

In this Annual Report, we have disclosed forward-looking information to enable investors to fully appreciate our prospects and take informed investment decisions. This report and other statement - written and oral - that we periodically make, contain forward-looking statements that set our anticipated results based on management plans and assumptions.

We have tried, where possible, to identify such statements by using words such as 'anticipate', 'expect', 'project', 'intend', 'plan', 'believe', and words of similar substance in connection with any discussion of future performance.

We cannot, of course, guarantee that these forward-looking statements will be realised, although we believe we have been prudent in our assumptions. Achievement of results is subject to risks, uncertainties, and potentially inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should bear this in mind.

We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

THE VIKAS ECOTECH STRATEGIC ADVANTAGE

History & Timelines

2016

- Commenced construction of state of the art manufacturing plant and Innovation (R&D) Center at Dahej, Gujarat
- Capacity to produce 6,000 MT of Organotin stabilisers (MTM) and 5,000 MT of special polymer compounds annually

2015

- Added facility to manufacture Organotin Stabilizers in Rajasthan
- Rebranded the company as Vikas Ecotech Ltd. with a focus on eco-friendly specialty chemicals
- Upgraded to 2 Star Export house status

2014

- Offered ESOP to its employees
- Issued Bonus Shares in the ratio 3:2 to all its shareholders
- Received Star Export house status

2009

Commissioned production facility to manufacture Bio Plasticiser

2011

- Established the export division
- Vikas Garg took over as Managing Director
- Ranked as India's fastest growing mid-sized company by Inc. 500

2008

- Backward integration into manufacturing. Commissioned 2 units in Jammu for TPR Compounds and Organotin Stabilizers
- Commissioned production facility to manufacture Mineral fillers for Rubbers & Plastics in Rajasthan
- Name changed to Vikas Globalone Ltd

1984

Founded as a Non Banking Finance Company – Vikas Leasing

1995

Listed on BSE & NSE

1998

Started trading and distribution of petrochemical products

FOUNDED IN 1984, VIKAS ECOTECH'S HISTORY IS ROOTED IN TRANSFORMATION THROUGH SCIENCE AND INNOVATION. MOVING AWAY FROM TRADING TO MANUFACTURING OF **HIGH-END SPECIALTY CHEMICALS**, THE COMPANY'S MANUFACTURING DIVISION HAS GROWN MORE THAN 500% IN THE PAST FEW YEARS. TODAY, THE COMPANY IS A LEADING PLAYER IN SPECIALTY CHEMICALS EXPORTING PRODUCTS TO OVER **20 COUNTRIES**.

Message from the MD

With global manufacturing shifting to the East, the Indian specialty chemicals industry is experiencing a ‘force multiplier’ effect

Dear Shareholders,

Fiscal 2015-16 saw your Company's strategic metamorphosis into a new Vikas Ecotech. This transformation was essential to reinforce our position as a science-led specialty chemicals manufacturer that gives the highest importance to environmental and safety issues. During the year, your Company has not only experienced rapid growth, but has achieved it in a responsible and sustainable manner.

We are committed to demonstrating that it is possible to manufacture high-quality specialty chemical solutions that are environmentally friendly and safe to use. At the same time, we remain true to our fundamentals: a distinctive strategy to provide quick turnaround for

custom-made polymer solutions to address customer challenges, high value and profitable product differentiation and commitment to research and innovation. During the year under review, we have succeeded under difficult conditions and our performance has exceeded the goals that we had set for ourselves.

Positive headwinds amid global turmoil

The last year continued to be choppy for global markets with oil and commodity prices falling to new lows. While the US and European economies have registered low or negative growth, developing, emerging and frontier economies have also performed erratically. According to IMF, global growth in 2015 is estimated at 3.1 percent and is projected at 3.4 percent for 2016 and 3.6 percent in 2017. What should worry global businesses is the divergence in growth rates between various regions due to local or country specific factors.

Geopolitical uncertainties like the British referendum, the economic sanctions imposed against various countries, and the expansionary monetary policies adopted by central banks in developed countries have made business dealings uncertain across the world. However, developing and emerging economies today

account for 70% of global growth. This trend is expected to continue, although in a muted manner. The rebalancing of the Chinese economy from investment-led growth towards consumption and services is causing great economic upheaval around the world. The two other BRIC economies of Brazil and Russia continue to display recessionary trends and economic distress. This leaves India as the only major economy that is expected to exhibit substantial economic growth.

India is a star among emerging economies

The Indian economy has been successful in insulating itself from the global recession and economic shocks during the last year. A robust monetary policy to rein in inflation, a newfound political will to hasten policy-based decision making and the central bank's ability to discipline the banking system have combined to strengthen the fundamentals of the Indian economy. Complementing these measures are initiatives like 'Make in India', 'Skill India' and 'Digital India' that will help the Indian economy and its workforce become better equipped to cater to global demand.

With global manufacturing shifting to the East, the Indian specialty chemical industry is experiencing a 'force multiplier' effect. Our nation is fast emerging as a global specialty chemicals manufacturing hub – the

market size is projected to become \$33.2 billion by 2019. As the per capita consumption of chemicals in India is much lower than the global average, the great Indian consumption story is waiting to be written in the specialty chemicals segment. With key end-user industries such as agriculture, automobiles, medical devices and packaging expected to see robust growth, domestic demand will grow further. In a market that largely comprises unorganised players, large-scale manufacturers like your Company are at a distinct advantage.

Moreover, it is expected that there will be a significant growth in demand as India gains a competitive advantage over China. Since the last year, the Chinese economy has been undergoing a rebalancing process and is fast losing its status as the high-end manufacturer to the world. Global companies, especially those who offer science-led solutions require qualified yet affordable human resources. This factor will lead to a shift in manufacturing activities to India and your company stands to benefit.

Implementing a growth strategy for market leadership

During the past year, Vikas Ecotech's performance has been exemplary in an environment where slow growth is being defined as the new normal. While I will mention the financial performance figures later, let me share with you the overall strategy that has

During the past year, **Vikas Ecotech's** performance has been exemplary in an environment where slow growth is being defined as the new normal

helped and will continue to achieve profitable and sustainable growth for your Company.

Our first strategy that has worked well is our ability to work closely with customer R&D teams to develop specialty chemical solutions much ahead of the competition. Today, our customers while developing new products or strengthening the current ones intimate our team of the need gap requirements. Our ability to understand the clients' needs and come up with scientific solutions in a fast and effective manner has resulted in customer stickiness and our ability to command premium prices.

The above strategy has helped us identify 'premium customers' who value our R&D and science-led solutions focus. Going ahead, we will work with a select set of customers both in India and abroad to solve their end customer needs in a more

focused manner. During the year we have consciously moved away from customers looking at only a low cost-led solution from us. Subsequently, we looked at higher revenue from each customer account through tighter partnerships and associating with them through their entire product development journey.

Our second strategy has been to sharpen our R&D focus to develop a robust pipeline of sustainable and environmentally friendly specialty chemical solutions and products. Globally and in India, we see definite regulatory and voluntary action towards phasing out of harmful additives like lead and other toxic materials. Today, one of our products, Organotin, a popular lead-free alternative additive, is seeing significant traction both in domestic and export markets, especially among

PVC pipes manufacturers. We are the only Indian company that has the scientific know-how to offer this solution. This advantage is helping us match global quality standards for our customers across the world while simultaneously giving us the ability to offer value driven prices.

With Organotin stabiliser being US FDA approved, our product in the same category - Tinmate has an immense growth opportunity. Your company is fast gaining credence and recognition as a global supplier to the safety-critical healthcare industry and medical devices and components industries. With new capacity enhancements, innovative product formulations and a focus on premium value-added products, we are forging ahead to becoming a leader in the non-toxic alternatives market.

One of the high growth products in Polymer Additives is flame-retardant material that finds applications in the engineering and construction sectors among others. With the Bureau of Indian Standards setting mandatory requirements for the use of flame-retardants in various industries to promote fire safety, our product, V-ECOFLAMEX, will see increased demand and contribute to the safety efforts of our customers.

Your Company has maintained an R&D focus on using recycled plastic and oil as raw material to create products that have equal efficacy and strength

as those produced by competition from virgin raw materials. This R&D breakthrough is a first by an Indian company and we see two key benefits; one, we are helping the environment by reducing landfills of waste plastic. Second, our raw material costs are significantly lower while our end product selling price is almost equal to the competition's product. This strategy has helped up improve our margins significantly while benefiting the customers through a strategic price advantage.

Our third strategy is ensuring geographic and revenue de-risking for the company. Today, global and country-based volatility is the biggest macro challenge for any business that has international operations and ambitions. Our export focus is helping ensure that we have a healthy revenue mix from both domestic and international customers. During the year, we have achieved 48.5% of our sales from global customers. Over the next 36 months, we expect to generate an equal amount of revenue from domestic sales and exports. Today, our specialty chemicals are supplied to markets in the EU and USA where they meet the strictest standards of quality and environmental regulations.

In India, we are focusing on penetrating the Western and Southern markets with our new plant coming up at Dahej in Gujarat. The state-of-the-art plant and innovation centre will start initial operations in the

Today, our **specialty chemicals** are supplied to markets in the EU and USA where they meet the strictest standards of quality and environmental regulations

next fiscal year and contribute to a 200% increase in capacity. This will help us service our local customers in a shorter time and also enable us to shorten the timelines for exports. With our market domination in North India continuing, we hope to create a pan-India marketing and distribution network in the next few years.

Within the country, we have focused our sales efforts in three key markets of North, West and South India. We export to over 30 countries divided into 5 clusters (EU, USA, MENA, South East Asia and African countries). Thus, with over eight clear market clusters (domestic and exports) and over 33 micro markets, we have 'ring fenced' our revenues from a sudden fall in demand in any one region due to macroeconomic factors.

Profitable growth through science-led applications

The performance of the current year clearly shows that we have delivered profitable growth. This is due to our increasing focus on an R&D-led specialty chemical product and solutions focus. With an experienced team of scientists and increased spending on R&D, our margins have improved significantly.

Your company delivered a 45% revenue growth of INR 97 crore and achieved total revenues of INR 312 crore for the year ending March 31, 2016. Net profit stood at INR 25.53 crore, an increase of 575% on a Y-o-Y basis.

Our strategy of sweating our assets is helping us increase production without a corresponding increase in capex while driving down per-unit production costs

During the year we have concentrated on operational efficiencies and derived the maximum production from our manufacturing assets. Our strategy of sweating our assets is helping us increase production without a corresponding increase in capex while driving down per-unit production costs. Our human resource policy has ensured that our safety and health standards match global levels and that all our manufacturing plants meet environment, health and safety norms.

We have invested in zero-pollution manufacturing equipment and started a practice of using recycled materials to make advanced new formulations. We have also installed facilities to convert waste cooking oil into specialty additives. Recently, pollution control norms have been tightened in India. This is another area where your Company has an edge over the unorganised sector. Vikas Ecotech is

fully equipped to meet the stringent rules pertaining to the operations of our manufacturing plants. As a strategy, we have been investing in green practices over the last few years and we stand better placed to reap the benefits of the newly introduced government policies.

A future driven by intellect, innovation and invention

Today we live in a world that sees change on a regular basis due to rapid advances in technology and science. New products and processes disrupt the status quo and threaten incumbents. In India, we are witnessing a surge of entrepreneurial activity that promises to lead to the growth of improved business models like e-commerce and the digitalization of various industries. It is highly likely that your company will also have to face these challenges and we assure you that we are fully prepared to do so.

At Vikas Ecotech, we are committed to harnessing our collective intellect for innovation and continuous invention in specialty sciences. With support and encouragement of all our stakeholders, we pledge to persevere in our efforts to manufacture products that contribute to a safer and greener tomorrow.

With best wishes,
Vikas Garg

Management Discussion and Analysis

The year 2015 started and ended on a tepid and uneven note. While global indices showed minimal to negative growth, many economic pockets bottomed out, some contracted and few economies grew ahead of the curve. The mixed bag of events in the past year made us look at the world in relevant boroughs. A heartening development was that most countries implemented measures to correct and rebalance their economic exuberance in 2015. Overall, global recovery continues,

albeit in a recalibrated and slow manner.

China remains a key fulcrum of global economic recovery. Today it is the world's largest economy in terms of purchasing power parity and a dominant trade partner to major nations. Its strategic yet complex transition from a manufacturing to a services economy led to global upheaval resulting in oversupply and demand weaknesses. In the long-term, China's steps will help the global

economy in predicting more realistic and sustainable growth numbers. However, in the short-run, this will lead to major trade imbalances in many local economies. China's upheaval is a major opportunity for India. For a country with an equally big economy, our actual growth and statistics are in semblance and we enjoy robust banking and fiscal discipline along with a vibrant democracy. MNCs are looking to set up 2nd big manufacturing base in India after China.

in the coming
year

The Indian economy
is at a unique cusp
of value creation
through value
addition

Among major developed economies, the US economy has started performing in 2015 in an unspectacular yet stable fashion. The US economy is still recovering from the financial effects of 2008. While local consumption led to increased spending during the year, weak performance by major US energy sector players and continued global weakness left the American GDP growth rate at a mere 2.4% for the year, according to data released by the World Bank. However, to build efficiencies, US businesses will increase outsourcing to deliver cost efficiency and corporate profitability. Indian exports to USA especially in value-added and sustainable sectors will grow.

European Union lagged in economic performance due to political pressures like the EU referendum and refugee influx. The polity's will to take definite corrective economic measures has pummeled. Major countries in EU experienced negative to zero growth with industrial production decreasing and unemployment increasing. The Brexit effect and political narratives seem to overshadow economic realities in the near term. For statistical purposes, in 2015 the euro region registered a 1.5% GDP growth while in the EU28 it was 1.8%. European businesses continue to look at cost efficiencies by replacing uneconomical

manufacturing - a trade off for key export economies like India.

On the whole, the world continues to behave like a fragile economy where rare pockets of performance continue to exist and grow. Asian economies especially China and India continued to deliver above average GDP growth of 7-8% on the twin handles of a robust domestic consumption and export competitiveness from value added manufacturing. China registered its slowest GDP growth in the past 25 years at 6.8% in 2015. For India, its knowledge-led skilled workforce is an added competitive advantage, especially on the exports front. Increased threats of non-economic nature continued to create risk potential to hurt commerce.

While economic progress remained a challenge, financial markets in developed economies showed improvement due to Central Bank measures. Finally, with coordinated measures to firm up oil and commodity prices, 2015 seemed to be the beginning of a better world from the bottom up!

Make in India – The Lion Roars

During the year, India roared back into the global center-stage both as a political and economic heavyweight. A new found political energy under the leadership of Prime Minister Shri Narendra Modi reinstated the faith of

TOP DESTINATION FOR FOREIGN DIRECT INVESTMENT (FDI)

Top 3 preferred investment destinations

\$256 billion

FDI in projects

BRICS countries declined to **\$256** billion - a 6% decline. India was the only **notable exception**, re-affirming that it is the only story built on a solid foundation

global investors to invest their money in the country. Also, several policy measures were unveiled to make India the global manufacturing hub for value added science, chemical and engineering services.

With a GDP growth of 7.4% in 2015 and expected to touch 8% in the coming year, the Indian economy is at a unique cusp of value creation through value addition. Along with China and other Asian economies like Vietnam, Bangladesh and Philippines have recently become exporters to the world. Unregulated labor laws, outdated industrial practices and environmental compromises counter balance their low cost and low end manufacturing due to cheap labor. India through its focus on quality & trained manpower, transparent policy & regulations and emphasis on R&D has tapped the value added exports market, a trend that is here to continue.

The Indian economy continues to display tremendous domestic growth potential based on the twin factors of increased private consumption-led demand and heightened government spending on infrastructure, industry support (subsidy) and tax reforms. Unlike other developed economies, favorable demographics, a young and educated workforce and a robust central bank with accommodative yet non-populist monetary policies

aid India. Thus, India is leveraging its higher productivity to become the value added manufacturing and R&D hub to the world.

India's ability to ring-fence itself against global financial crises is commendable. Be it the 2008 crisis or the recent Brexit one, the Indian financial and banking system is able to withstand global upheavals with minimum domestic disruption. This in turn has ensured local fiscal stability and hedging of export risks on thin exchange fluctuations. Moreover, the implementation of GST by the next financial year will act as a game changer for organized industry players.

In year 2015, India replaced China as the top destination for Foreign Direct Investment (FDI) as reported by the Financial Times, garnering \$63 billion in new FDI projects. Liberalization, policy clarity and ease of doing business has made India one of the top three preferred investment destinations for multinational enterprises, along with China and USA. While overall FDI inflows to BRICS countries declined by 6% to \$256 billion, India was the only notable exception. This reaffirms that India is the only story built on a solid foundation and stands strong among all the BRICS nations.

SPECIALTY CHEMICALS AN ATTRACTIVE PREMIUM PLAY WITH AN INDIA ADVANTAGE

December 2015 was a defining moment for the specialty chemical industry. DuPont and Dow Chemicals announced their merger making a behemoth with a combined market capitalization of \$130 billion with consolidated \$83 billion in Sales and \$3 billion of cost synergies. Both these companies in the recent past had re-invented their diversified chemical businesses and re-aligned their portfolios by divesting lower margin businesses and concentrating on high margin specialty chemicals. The merger is seen as a direct market

McKinsey & Company
pegs the Indian
specialty chemicals
sector to grow 4-5
times from the
current market size
of \$22 billion to \$80-
100 billion by 2020

validation of the attractiveness of the specialty chemicals sector.

McKinsey & Company pegs the Indian specialty chemicals sector to grow 4-5 times from the current market size of \$25 billion to \$80- 100 billion over next decade. This firms up the inherent opportunities that lie ahead for India's specialty chemical players. A highly specialized and science-led, R&D-oriented approach is the key to succeed in the market. Customers are looking at high value efficacy-led specialty chemical applications that

DuPont and Dow Chemical announced their merger making a behemoth with a combined market capitalization of \$130 billion with consolidated \$83

billion in Sales and \$3 billion of cost synergies

The Indian specialty chemicals segment will see increased demand as the manufacturing sector gets a fillip with 'Make in India' initiatives

impart valued-added properties in the end product. At the same time reducing input costs and ensuring sustainable future best practices is key. The same strategy will also boost exports.

Indian Government policy to give a fillip to manufacturing

India is tweaking its economic policy to give a fillip to manufacturing. Till recently, the services sector had been driving healthy growth while manufacturing had stagnated. With the need for specialty chemicals in nearly 80% of manufacturing applications, the Indian specialty chemicals segment will see increased demand as the manufacturing sector gets a fillip with 'Make in India' initiatives.

With FDI being allowed in most of the sectors, global MNC players across industries will set up manufacturing base in India. As a measure of competitiveness, raw material sourcing will be met

locally. Standalone Indian specialty chemical players with cutting-edge R&D and import substitute equivalent products will see a surge in demand. In turn, they will attract growth investments for strengthening R&D, manufacturing and expanding locally and in global markets.

East is the new West

With western economies experiencing demand stagnation and battling uneconomical costs of production, the next decade of manufacturing and economic demand consumption will have shifted to the East. Be it automobiles, construction, polymers, agriculture or pharma, specialty chemical players have followed their customers to the Asian markets of China and India. China's inability to produce as per global standards has led to softening of exports benefitting Indian specialty chemical players. Today, Indian players have a cost advantage of over Chinese firms after taking into account the additional investments by Chinese

companies in environment, health and safety.

In India, Gujarat and Maharashtra have emerged as favored manufacturing destination zones for MNC's, due to friendly government policies and access to both local and export markets. With MNC and Indian companies setting up local base to manufacture for the Indian consumer and supply to global marketplace, Indian specialty chemical companies will ride this demand naturally by aligning to their customer growth initiatives. Local players that have good R&D setups and are offering import substitutes will get additional preference to meet this demand.

R&D-led premium solutions – Up the supply chain & technology ladder

Today, the Indian specialty chemicals segment at \$25 billion garners an abysmal share of 3% of the global specialty chemicals industry. This is due to industry fragmentation,

100% FDI

being allowed in this sector, increased global investments will flow to local players along with MNC's setting up base

Today, the Indian specialty chemicals industry at **\$25 bn** garners an abysmal share of 3% of the global specialty chemicals industry

Indian specialty chemical industry will contribute **6-7%** of the global demand by 2023, almost doubling its market share

low investments in R&D and most players targeting local markets. With Indian local consumption driving volumes and moving up the value chain, demand for premium specialty chemical applications is set to increase. Indian specialty chemical players will contribute 6-7% of the global demand by 2023, almost doubling their market share. This will include meeting the current local demand that is being met through expensive imports.

customers in science-based product applications.

Societal awareness & activism-led natural demand generation

Sustainable production and responsible environmental conduct by businesses are becoming critical. With increased activism and government intervention, harmful chemical applications are being phased out for human consumption. The specialty chemical industry has been a torch

industry action is being implemented in China and India with a clear hope of new regulations against harmful chemicals that impact both human health and the environment being put in place soon. Specialty chemical companies need to align their product portfolio with human safety for a greener tomorrow. Such companies will see increased demand whilst enjoying reputation and goodwill premium from investors, regulators and industry peers.

With increased spending on R&D and local demand getting more sophisticated, the unorganized and volume players will be separated from high end R&D-led organized manufacturers. With implementation of GST, the unsaid price advantage will cease to exist and the unorganized players' market share will get transferred to organized players. Essentially, Indian specialty chemical players will rise up the supply value chain and technology ladder to become strategic partners to their

bearer in developing sustainable science-based applications that replace the harmful chemical effects in the product supply chain.

For example, the global PVC stabilizer market expected to reach \$3.8 billion by 2020 from the current \$2.7 billion has seen volunteerism from industry to shift to non-toxic lead-free stabilizers. A complete phase out of lead-based stabilizers driven by the 'Comprehensive Chemicals Regulation' (REACH) in Europe Union has led this shift. Similar proactive

Vikas Ecotech envisages making eco-friendly and sustainable products, replacing the harmful chemical effects of traditional additives. Our growth will be driven by innovative chemical solutions in the areas of stabilizers, plasticizers and recycled materials. Manufacturing products that are import replacements will result in additional business and not only saving of precious foreign exchange reserves for the country but also foreign exchange earning in form of incremental exports.

PERFORMANCE - PROFITABLE GROWTH, SUSTAINABLE BUSINESS FOCUS

3 FOCUS AREAS

**Specialty
Additives**

**Plastic
Compounds**

**Recycled
materials**

PVC is one of the most durable, **cost-effective** yet smart alternatives to steel and iron in the **global infrastructure** and construction industry

For the year 2015-16, the company registered net revenue of ₹311.98 crore as compared to ₹214.72 crore for FY 2014-15, a jump of 45.30%. PAT stood at ₹25.53 crore, a steep improvement of 574.47% from ₹3.79 crore for the corresponding period of last year.

The company's performance is remarkable in two aspects. In the immediate terms, we improved on both our topline and bottom-line significantly in spite of macro-challenges. However, what is satisfying is that we are able to implement a clear strategy for sustainable business in the long term. This reset focuses on large customer relationships, continued operational efficiency and R&D-led product development. We believe it will sustain our growth momentum in the long term.

During the year and going forward, our focus will be on the specialty chemicals business. Within the

segment, we have identified 3 focus areas:

- Specialty Additives
- Polymer Compounds
- Recycled Materials

We achieved superior financial performance across all quarters by focusing on the following operational aspects:

Process efficiency: During the year, a TQM (Total Quality Management) project was implemented across all our factories. It covered all the functions from sourcing to production to end sales. The company closed several inefficiency gaps like material, manpower and time wastage. This resulted in achieving a lower cost per unit of production. Automation led to energy savings and intelligent manpower allocation, thereby raising productivity.

Superior quality of outstanding debt: With our focus shifting from small to large enterprise customers,

Vikas Ecotech is the only homegrown manufacturer in India with an in-house **R&D** function, manufacturing **MTM**

Our product meets stringent international norms in **USA** and **EU** countries

our debtor quality has gone up. Thus, outstanding debts turning bad remained insignificant. We upgraded our credit appraisal norms through the use of predictive analytics, ensuring that in case of any client's health concern, our system alerts us to factor it in our dealings ahead of others.

Premium price realization: Our in-house R&D-led product and applications development led to clients paying a premium for our solutions. Few of our prime products like lead-free eco-friendly Organotin stabilizers are IPR equivalent and not available with many competitors. Only a few large US and European MNC specialty chemicals and a some of Chinese players have similar solutions.

Be it exports or domestic sales, customers are looking at scientific applications by which their end product can be bettered. Our focus of closely working with customer's

R&D teams from an early stage of product development led to our solutions being integrated in the product development journey from the beginning.

With oil and other commodity prices coming down further, raw material input cost savings helped our bottom-line driven topline performance. Going ahead, we wish to adhere to our strategy of maintaining and winning through a profitable market share.

Sector-wise Products

Specialty Additives

Our extensive range of toxin-free, high-performance specialty additives like organotin heat stabilizers (Methyl Tin Mercaptide - MTM), Plasticizers and Flame Retardants saw increased demand during the year. The MTM production process was reengineered to achieve better stabilization with a lesser amount of

the main ingredients like Tin being wasted in the process. Leading manufacturers of agri and infra PVC pipes and fittings, medical devices, medical components and packaging players are our key customers.

Vikas Ecotech is the only homegrown manufacturer in India with an in-house R&D function, manufacturing MTM right from tin metal. Few other players in the world have such technological capability. Organotin or MTM is the only heat stabilizer that can be used for transparent and food-grade PVC applications. It is the strongest stabilizer for PVC (Ca-Zn being the weakest) and is suitable for critical applications. Our Organotin stabilizers are US FDA compliant, giving us the ability to supply all over the world and substitute costly imports for Indian manufacturers locally.

With the Indian market demand for Organotin Stabilizers at 6,000 MT p.a. (growing at 20% CAGR) and

SPECIALTY ADDITIVES

global market demand at 1,40,000 MT p.a., we see a continued demand for our product due to advantages that no other player in India currently provides.

The nascent Indian market of CPVC (Chlorinated polyvinyl chloride) pipes and fittings in India is estimated to grow at more than 100% CAGR over the next 2-3 years and is giving leaders like Vikas Ecotech a distinct advantage. CPVC is a thermoplastic produced from PVC resin that is much more flexible and has the ability to withstand higher temperatures than standard PVC. It is eco-friendly, corrosion-resistant and has a long service life. CPVC is used in the manufacturing of pipes for hot & cold water and industrial liquids.

Organotin is the only heat stabiliser used in the manufacture of CPVC pipes & fittings and the dosage is 3 folds in CPVC as compared to UPVC pipes & fittings. With both the Indian

Indian market demand

The nascent CPVC (Chlorinated polyvinyl chloride) pipes and fittings market is estimated to grow at more than 100% CAGR

100%

over next 2-3 years

PVC heat stabiliser market (currently 60,000 MT per annum) and global PVC heat stabiliser market demand growing continuously, our expansion plans are in line with domestic and international demands. During the current year our market share in India for Organotin Stabilizers was approximately 10%. Our vision is to attain 25% share of the expanded market in the near future.

The demand for Organotin stabilizers – lead-free alternative additives – is witnessing a rise both in India as well as globally. Specialty additive demand will rise across the world due to this unique phenomenon. Asian countries like India is seeing increased demand for PVC pipes due to infrastructure growth and adoption of modern agri-practices. Western economies like the USA and EU countries are using PVC pipes to replace their crumbling municipality and city infrastructure especially, underground pipelines.

Plastic Compounds

Vikas Ecotech's strides as a leading manufacturer of specialty polymer compounds continued both in the global and Indian market. Today, we offer one of the most sophisticated range of differentiated compounds like Thermoplastic Rubber (TPR), Thermoplastic Elastomer (TPE) and Speciality compounds of PVC, PET and EVA. Many of the world's and

India's leading footwear brands today use our polymer compounds for enhancing comfort and longevity in shoe soles – a testament of our R&D capabilities in developing localized customer focused solutions.

The company has built a unique competitive advantage by developing various innovative technologies in-house. We have a blue membership of SATRA, a UK-based independent testing and research organization. Our test procedures and manufacturing processes are SATRA compliant. Our R&D focus has led us to create few interesting solutions like compounds for soles of snow resistant boots for the Indian Army through our tie up with FDDI - Footwear Design & Development Institute (under the Ministry of Commerce & Industry, Government of India). Global Specialty polymers market is showing a high growth worldwide with a CAGR of 5.9%, our expansion plans are in line with the huge domestic and international demand.

Recycled Materials

Our strategy of reusing materials to make advanced new formulations has been well received by customers. With a dual advantage of near-to-equal virgin efficacy at lesser prices compared to virgin materials, clients are appreciating our value driven R&D approach. By using recycled

raw material we are able to increase our profitability and also reduce the impact on the environment.

Import Substitute Focused Manufacturing Excellence

To ensure stringent quality and a 'near to customer' strategy, we have commissioned the construction of our new state of the art manufacturing plant in Dahej SEZ, Gujarat. When complete, it will add a capacity of 6,000 MT of Organotin stabilizers

(MTM), the lead-free alternative additive, and 5,000MT of specialty polymers compounds annually.

The increased capacity will act as a genuine import substitute for additives and stabilizers across industries operating in India, both MNC and local firms. It will benefit customers by time savings due to local sourcing, reduce logistics hassles and ultimately deliver cost savings. India will benefit from foreign exchange savings.

The Innovation Center will act as a catalyst to the company's discovery efforts for chemical molecules. The plant is strategically located to serve both the domestic markets of West and South India and also, feed our export markets by accessing the sea-route. Stated for production by early next year, it will add over 200% capacity for the company.

We have a blue membership of SATRA, a UK-based independent testing and research organisation

R&D FOCUSED FOR A BETTER & SAFER TOMORROW

As a homegrown specialty chemicals player, our R&D-led scientific product innovations are the key to our success. From the initial days, R&D for 'incremental innovation' has been our mantra in solving customer's problems in an efficacy-led and value driven manner. Today, we channel a significant part of our revenues and resources towards R&D efforts.

Smart innovation, strategic portfolio focus and superior customer insights are key in developing Vikas Ecotech's R&D program in a result-oriented manner. A PwC report suggests that about 96% of goods manufactured by industry are somehow touched by chemistry – a reason why innovation is critical for survival.

Incremental Innovation

As leading specialty chemical majors across the world have realized, spending on R&D without a focus on Returns on Investments (ROI) is unsustainable in the long run. As a growing organization, we believe

A PwC report suggests that 96% of goods manufactured are somehow touched by chemistry – a reason why innovation is critical for survival

'incremental innovation' in current applications and chemicals is an effective way to harness our R&D efforts. Our customers appreciate this approach - our R&D efforts are time based, cost effective and lead to significant benefits in deploying capital efficiently.

One of our key innovations has been in re-engineering used PVC material to produce a high performance PVC compound that matches the quality attributes of virgin PVC. Typically, products made from recycled PVC are considered to be of lower grade and hence command lower prices. We have been able to defy this through 'intelligent' chemical application. This has helped clients benefit from near-to-equal finished products at a better price while improving our margins.

Commitment to the principles of a circular economy

We believe a 'circular economy' is key to sustainable development and our R&D efforts are bearing fruit in this direction. Unlike the 'linear economy' that practices the take, make and dispose model of production, here, nothing is wasted and everything is re-used or recycled. A World Economic Forum (WEF) report mentions that over \$1 trillion annually could be generated by 2025 globally if companies focus on building circular supply chains to

increase the rate of recycling, reuse and remanufacture.

Our R&D team has invented a niche chemical process whereby “used cooking oil” is converted (recycled) to a specialty additive. We have been successful in developing a sourcing supply chain of used cooking oil for one of India’s largest and reputed Indian snack manufacturers, Haldirams. This has resulted in

clean & green products through an environment-friendly process and no-pollution facilities. Once scaled up, it is an opportunity to be tapped.

At Vikas Ecotech, our R&D efforts are focused towards creating a more sustainable and less polluting world. We see a strategic shift in R&D for specialty chemicals to discover new technologies for renewable and reusable product usage. This will be

important in effective and optimum utilization of resources. For us, it has become a key competitive edge owing to better economics.

Our accelerated R&D strategy will continue to focus on deep diving into targeted higher value products, narrowing our industry choice and an accelerated go-to-market strategy from the lab to the customer.

INTELLECT, INNOVATION & INVENTION

As a science-oriented organization, Vikas Ecotech’s people culture is built on three distinct pillars of Intellect, Innovation and Invention! We understand the distinction between Innovation and Invention. While we focus on incremental improvements through innovation, we strive towards big inventions in specialty sciences over a period of time. And, to achieve both, intellect with a scientific temperament is key.

During the year, we continued to refine our human resource program

that addresses people issues in a holistic manner. Having mapped out the entire career life cycle for our employees, it helps us ensure both professional and personal growth. We choose every employee in a discerning manner and similarly strive to grow him or her in a goal-based and humane manner. During the year cordial relationships were maintained in our manufacturing plants and offices with special attention to human safety and accident prevention.

A merit-driven
performance-oriented
workplace is our motto.
Our HR philosophy is built
on the below 3 principles:

Professional work
environment

Dignity and
respect for every
individual

Equal and fair
employment
opportunities

A merit-driven performance-oriented workplace is our motto. Our HR philosophy is built on the below 3 principles:

- Professional work environment
- Dignity and respect for every individual and
- Equal and fair employment opportunities

To keep pace with the Sector's and Vikas Ecotech's exponential growth, we are aware of the leadership bandwidth that needs to be built across the organization. Thus, we aim to recruit, train and grow leaders for tomorrow. As a future ready organization, we are building a strong second level of managers who are ready to lead various functions across the organization tomorrow. A key goal during the year has been to create an organization with a clear-cut talent acquisition strategy.

Today, our people comprise of a healthy mix of scientists, chemical

technologists, engineers, marketing & sales professionals and the workforce at manufacturing plants. We believe ideas for innovation can come from anywhere. Thus, we have implemented an organization-wide 'ideation' culture where employees are encouraged to come up with ideas for betterment. During the year, various process improvements suggested by employees, helped in time and cost reduction, saving significant resources.

Recognize (recruit): Our recruitment process is today scientifically oriented to Recognize the best talent both with professional and human skill sets. We believe superior professional talent without an inquisitive mind, a strong moral and ethical foundation is of little use. Hence, we recruit people who have excelled in academic and professional fields yet demonstrate uncompromising character traits for doing the right things in the right manner.

Reward (to retain): Our HR evaluation process is merit oriented and regularly Rewards performance. In a disruptive world, where talent is scarce and opportunities galore, we believe in retaining our talent by giving them challenging opportunities, handholding them for success and sharing rewards in a fair manner.

Respect: As a science-based organization, our scientists are involved in various experiments and discovery. We have learnt to Respect the IPR-driven culture whereby we give credit for scientific innovations to individual scientists. This has helped us attract and retain few of the best intellectual minds in the industry.

Going ahead, a key competitive edge of your company will be its people!

OUR PEOPLE COMPRISE OF A HEALTHY MIX OF SCIENTISTS, CHEMICAL TECHNOLOGISTS, ENGINEERS, MARKETING & SALES PROFESSIONALS AND THE WORKFORCE AT MANUFACTURING PLANTS

Scientists

Chemical technologists

Engineers

Marketing & sales professionals

Workforce

Lead - The silent killer

NURTURING RESPONSIBLE INNOVATION TO ENSURE SAFETY

With lead exposure causing

600,000

cases of intellectual disabilities.

Every year, we are committed to help people live safer lives and bring to customers products they can trust.

Vikas Ecotech has taken the lead in manufacturing safe, eco-friendly alternatives to toxic lead-based stabilizers to curb the contamination of water although current domestic regulations enable their use.

Such progressive stances combined with our responsible innovation process enable global customers to be confident of the high-quality, performance and safety of our products.

Sustainable lead replacement

A TIDAL WAVE PHASING OUT LEAD GLOBALLY

MITIGATION OF RISKS & CONCERNS

Only 12.2% (61) of Fortune 500 companies of 1955 still appear in the same list for 2014 – six decades later the rest 88% have either gone bankrupt, merged or faded away. 3D (Technological Disruption, (Changing) Demographics and (Newer) Demand have created a world that is more risky and more rewarding than ever. Leaders need to be better prepared, well heeded and innovation driven. At Vikas Ecotech, other than regular risk management programs, we are addressing challenges in 4 key areas for staying relevant and competitive.

R&D-led Product Development:

A key reason science-based companies face peril is product or technology obsolescence. We believe our in-house R&D skills and product development capabilities are a key strategic advantage for the company's growth and market leadership. Today, some of our chemical applications and products are IPR-equivalent and meet stringent regulatory norms of developed countries of EU and USA. Our products act as genuine import substitutes that were being imported

to India, with similar effectiveness yet cost benefit to customers.

We will continue to develop and discover superior products from our chemical applications by investing continually in R&D. Going ahead, we look forward to legally protecting our inventions through IPR-driven programs and letting industry use our technology with a patent-centric approach.

Business Continuity Planning:

Non-economic risks like natural calamities, acts of terror or local community challenges often lead to stoppage of work. At Vikas Ecotech, our three manufacturing plants across North and West India will mirror each other in production capabilities. Thus, any risk will be quarantined at a local level while the other plant continues unhindered production for our customers.

A focus on implementing IT-based MIS across the company ensures real-time monitoring of every situation and immediate exception handling. Technology aided by geographic separation will ensure

WE ARE ADDRESSING CHALLENGES IN 4 KEY AREAS FOR STAYING RELEVANT AND COMPETITIVE

R&D-led Product Development

Business Continuity Planning

Customer & Segment Diversity

Geographic De-risking (Domestic & Exports)

**VIKAS ECOTECH HAS IDENTIFIED
9 KEY SECTORS THAT WOULD
DRIVE GROWTH FOR ITS
SPECIALTY CHEMICAL BUSINESS**

Agriculture

Automobile

Wires & Cables

Organic & Inorganic
Chemicals

Polymers

Healthcare Industry

Packaging

Artificial Leather

Footwear

During the **current year**, the mix of domestic and export revenues stood at **₹158.18 crores** and **₹148.97 crores** respectively, a share of 51.50:48.50.

strategic business continuity at your company.

Customer & Segment Diversity:

Today, Vikas Ecotech has identified 9 key sectors that would drive growth for its specialty chemical business. They are Agriculture, Automobile, Wires & Cables, Organic & Inorganic Chemicals, Polymers, Healthcare industry, Packaging, Artificial Leather and Footwear. This sector diversity will ensure that any demand contraction or technology-led change does not affect your company in a severe manner.

Secondly, we have rolled out a customer acquisition strategy of owning large B2B customer accounts. This will help us engage with a few large customers in depth rather than spreading us thin across multiple retail buyers. B2B customers can now get stabilizers, plasticizers, compounds and additives from a single one-stop solutions partner – a value proposition that is difficult to replicate. However, we will ensure that no single customer impacts more than 10% of the total revenues.

While each of the above are growth sectors both in domestic and global demand, our aim is that each sector should contribute not more than 10-15% of the total revenues. We will continue to look for newer growth sectors to spread our offerings while

we go deeper with our scientific innovations in the current ones.

Geographic De-risking (Domestic & Exports):

During the current year, the mix of domestic and export revenues stood at ₹158.18 crores and ₹148.97 crores respectively, a share of 51.50:48.50. At Vikas Ecotech, we have rolled out a clear marketing and brand strategy to address demand through a 'micro markets' approach. We believe in the near future, macro data will look slow and grim while 'pockets of excellence' drive growth and profitability. We have a clear strategy for both our domestic market and exports market whereby we identify, serve and win in our own 'micro markets'.

In India, we are building a robust sales and dealer network across the three key demand markets of North, West and South India. Our three manufacturing plants are strategically located to employ a 'near to customer' approach. We want to be near to our customer's manufacturing facilities and drive a 'just in time' efficiency. With India being divided into 3 aggressive markets and 1 (East India) developing market, we are growing a healthy client base that is well spread out across the regions and the 9 sectors that we address.

During the year, our exports touched a total of 30 countries across USA, EU,

MENA, South East Asia and African regions. These 5 clusters are our key focus. Within each cluster, we want a single country to contribute not more than 10-15% of revenue and in each country, we want no single customer with revenue of more than 5-10%.

Currently, we are entering newer markets and are in a growth phase. The above metrics will fall in place once we mature our presence in the 9 'micro markets' that we have identified. Thus, our strategic intent is to de-risk and meet the above goals.

Internal Control Systems– Growth through Governance

Today, Vikas Ecotech has embarked on a journey to become a true homegrown MNC. We are aware that as we expand ourselves globally, governance will play a key role in our growth. Predictability of Revenues, Transparency of Conduct, and Regard for Reputation are the pillars of our Governance approach. Every

act of the company and its team should live up to global standards of propriety and goodness.

Robust internal control systems with due intervention of Information Technology and plant automation through ERP is being implemented during the year. A best in class Business Intelligence (BI) software is being deployed to harness the benefits of big data and analytics for business reporting, trend analysis and exception handling.

We are securing data through a matrix method of information flow that will ensure critical information like intellectual property and product innovation is dispersed in a segmented and layered manner. Security measures for data trail, theft and misuse are being implemented at the organization level. Regular statutory and voluntary audit mechanisms are ensuring adherence to the above on a regular basis.

Outlook – Responsible Growth for a Safer and Healthier Tomorrow

As mentioned earlier, the specialty chemicals sector, especially organized Indian players will continue to deliver profitable growth both in local and international markets. We foresee the below macroeconomic developments to act as a force multiplier for the Indian specialty chemicals industry.

Demand shift to eco-friendly specialty chemical solutions in India

Developed economies have already realized the net effect of harmful specialty chemical applications in end products of human use. It is being realized even by developing countries like India and China. Like Europe and USA, we foresee major sectors like PVC pipes to artificial leather manufacturers shift to toxin-free eco-friendly stabilizers and compounds on a regulation-led or voluntary basis. This shift will

create an automatic demand for Vikas Ecotech's lead-free Organotin stabilizer Tinmate as no other player in Asia currently has this proprietary green technology.

Sustainable R&D for specialty chemical solutions through re-use and re-cycling

With the Indian government both at the central and local municipality levels focusing on industrial pollution and effluent treatment, the specialty chemical industry will act as a catalyst in providing solutions for re-use and re-cycling. This will create a similar movement and awareness like the e-waste sector. Vikas Ecotech has developed a niche technique of converting used edible oil to specialty plastic additives. When scaled up at the national level, it will act as a strong deterrent to repeated re-heating of cooking oil as toxic aldehydes are released that are harmful to humans.

Global Safety Norms for World-class "Make in India" Infrastructure

The Indian government is spending significantly in upgrading the country's infrastructure across private, industry and public spaces. Thus, the application of fire-resistant flame-retardant specialty chemical solutions for public places like factories, malls, stadiums, movie theaters etc. is becoming mandatory. The Bureau of Indian Standards requirements will automatically result in an increased demand for Vikas Ecotech's V-ECOFLAMEX fire retardant additive and contribute to the safety measures being implemented across public spaces, factories and private homes.

Meeting China's export demand for the entire world

With China clamping down on industries and enforcing stricter environmental norms, the country's export competitiveness in the

specialty chemicals sector has been hit overnight. Local unorganized players have vanished. After implementing new environmental investments, reports suggest, China's cost is 10-15% higher than Indian players. Thus, in the coming times, global demand for specialty chemicals will be met from India owing to the 'Make in India' thrust and implementation of global standards of environment norms and industrial safety. Vikas Ecotech's growth into sophisticated high value developed markets will be aided by this measure.

We see natural demand-led growth for Indian specialty chemical players in the years to come due to the above macroeconomic developments. As one of India's leading homegrown organized specialty chemical players, Vikas Ecotech is well prepared to ride this growth journey with profitable yet sustainable results.

Vikas Ecotech's **V-ECOFLAMEX** fire retardant additive contributes to the safety measures being implemented across public spaces, factories and private homes.

No other player in India currently has the proprietary green technology for **lead-free Organotin Stabilisers**.

FINANCIAL REPORTS & STATEMENTS

BOARD'S REPORT

The Members,
Vikas EcoTech Limited

Your Directors have pleasure in presenting the 31st Annual Report on the business and operations of the Company and Audited Statement of Accounts for the year ended March 31, 2016.

1. FINANCIAL SUMMARY OR HIGHLIGHTS

The Company's financial performance, for the year ended March 31, 2016 is summarized below:-

(₹ in lacs)		
Particulars	2015-2016	2014-2015
Net Sales /Income from Business Operations	30,715.20	21,101.55
Other Income	483.09	370.70
Total Income	31,198.29	21,472.24
Gross Expenditure	25,818.12	19,437.03
Less Interest	1,133.53	1,071.12
Profit before Depreciation	4,246.64	964.09
Less Depreciation	337.07	341.80
Profit after depreciation and Interest/Net Profit Before Tax	3,925.68	622.29
Less Current Tax	1,324.36	124.51
Less Previous year adjustment of Income Tax	38.46	63.63
Less Deferred Tax	(17.83)	(36.43)
Mat Credit Availed	27.24	92.00
Net Profit after Tax	2,553.45	378.58
Add Share of Profit from Partnership firm/Minority Interest	-	-
Profit for the Period	2,553.45	378.58
Less Proposed Dividend	127.11	127.11
Less Provision for Dividend Distribution Tax	25.87	24.26
Net Profit after dividend and Tax	2,400.47	227.21
Amount transferred to General Reserve	178.73	26.50
Profits carried to Balance Sheet	2,221.74	200.71
Earnings per Share (Basic)	1.00	0.15
Earnings per Share (Diluted)	1.00	0.15

Vikas EcoTech Limited achieved 46% growth in its gross revenue to ₹323 Crores in 2015-16 as against ₹221 crores in 2014-15. The financial year 2015-16 embarked upon visible improvement in operating profit margins due to focused cost efficiency measures, price discipline and low commodity prices. Vikas EcoTech sustained its investment in brand and manpower to prepare for next growth phase. The operating profit before tax grew by 530% to ₹39.25 crores in financial year 2015-16 as compared to ₹6.22 crores in financial year 2014-15. Your Company is financially strong and self reliant in terms of funds generation, debt servicing and has been able to generate sufficient profits for dividend payouts. A constant rise in turnover and profits of the Company is apparent and your Directors are expecting better results both in terms of operations of the Company and its financial position.

2. STATE OF AFFAIRS OF THE COMPANY

The Company has been expanding its operations both in terms of product base and customer base. We have been trying to capture new markets for our products. The operations of the Company are growing steadily and constant raise in performance of the Company is evident from its promising financial prospects.

The Manufacturing plants of the Company are located in the state of J&K and Rajasthan. This has been done keeping in mind the strategic and locational advantages with regard to availability of raw material and potential for finished goods.

Future Outlook

As a move forward and with the help of information technology, your Company is planning to introduce new products in market. The Company is scheduling another manufacturing unit at land allotted by Gujarat Industrial Development Corporation (A Government of Gujarat undertaking) at Dehej-II, Industrial Estate, District- Bharuch (Gujarat) to cater the market of Western and Southern India and also for exports its products like Methyle Tin Mercaptile and Epoxidised Soya Bean Oil.

Subsidiary Companies, Joint Venture and Consolidated Financial Statements

During the period under review the Company does not have any Subsidiary.

3. RESERVES

Your Company proposes to carry ₹1.78 crores to the general reserve and retain ₹22.22 crores in the profit and loss account.

4. DIVIDEND

Your Directors are pleased to recommend a dividend @ 5% i.e. of ₹0.05/- (Five Paise) per share on 25,42,39,675 (Twenty Five Crore Forty Two Lac Thirty Nine Thousand Six Hundred Seventy Five) Equity Shares for the current financial year. The dividend if approved and declared in the ensuing Annual General meeting would result in a payout of ₹1,27,11,983.75/- (Rupees One Crore Twenty Seven Lac Eleven Thousand Nine Hundred Eighty Three and Paise Seventy Five) and Dividend Distribution Tax of ₹25,87,906/- aggregating a total outflow of ₹1,52,99,889/-.

The dividend would be payable to all Shareholders whose names appear in the Register of Members as on the Book Closure Date. The Register of Members and Share Transfer books shall remain closed from Saturday, September 24, 2016 to Friday, September 30, 2016 (both days inclusive).

5. MATERIAL CHANGES AND COMMITMENTS, IF ANY, AFFECTING THE FINANCIAL POSITION OF THE COMPANY WHICH HAVE OCCURRED BETWEEN THE END OF THE FINANCIAL YEAR OF THE COMPANY TO WHICH THE FINANCIAL STATEMENTS RELATE AND THE DATE OF THE REPORT

No material changes and commitments affecting the financial position of the Company occurred between the end of the financial year to which this financial statements relate and the date of this Report.

6. CHANGE IN THE NATURE OF BUSINESS, IF ANY

There was no change in the nature of business of the Company during the financial year ended March 31, 2016.

7. DETAILS OF DIRECTORS OR KEY MANAGERIAL PERSONNEL INCLUDING THOSE WHO WERE APPOINTED OR HAVE RESIGNED DURING THE YEAR

Pursuant to the provisions of Section 152 of the Companies Act, 2013, Shri Vivek Garg, Whole-time Director, is due to retire by rotation at the ensuing Annual General Meeting, and being eligible, offers himself for re-appointment.

The details of Director being recommended for re-appointment as required under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 are contained in the accompanying Notice convening the ensuing Annual General Meeting of the Company.

Mrs. Vibha Mahajan was appointed as Additional Director (Women Director) of the Company on August 12, 2015 and regularize in the meeting of shareholders held at September 30, 2015.

Mr. Narender Kumar Garg, Non Executive Independent Director resigned on May 15, 2015.

Ms. Gayatri Chawla working as Company Secretary of the Company w.e.f. 14.02.2015 resigned on 29.02.2016. Thereafter Mr. Siddharth Agrawal was appointed as Company Secretary of the Company on 23.05.2016

Appropriate Resolution(s) seeking your approval to the appointment/ re-appointment of Directors are also included in the Notice.

8. NUMBER OF MEETINGS OF BOARD OF DIRECTORS

During the financial year 2015-2016, the Board of Directors of the Company, met 4 (Four) times on, May 30, 2015, August 12, 2015, October 26, 2015, February 4, 2016.

9. DIRECTORS' RESPONSIBILITY STATEMENT

Pursuant to Section 134(3) (c) of the Companies Act, 2013, the Directors to the best of their knowledge hereby state and confirm that:

- a) in the preparation of the annual accounts, the applicable accounting standards had been followed along with proper explanation relating to material departures;
- b) the directors had selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the company at the end of the financial year and of the profit of the company for that period;
- c) the directors had taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of this Act for safeguarding the assets of the company and for preventing and detecting fraud and other irregularities;
- d) the directors had prepared the annual accounts on a going concern basis;
- e) the internal financial controls to be followed by the company were laid down and such internal financial controls were adequate and were operating effectively; and
- f) the directors had devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

10. DECLARATION BY INDEPENDENT DIRECTOR(S) AND RE-APPOINTMENT, IF ANY

All the Independent Directors have submitted their disclosures to the Board that they fulfill all the requirements as stipulated in Section 149(6) of the Companies Act, 2013 so as to qualify themselves to be appointed as Independent Directors under the provisions of the Companies Act, 2013 and the relevant rules.

11. NOMINATION AND REMUNERATION POLICY OF DIRECTORS, KEY MANAGERIAL PERSONNEL AND OTHER EMPLOYEES

In adherence of section 178(1) of the Companies Act, 2013, the Board of Directors of the Company in its Meeting held on 14th February 2014, approved a policy on directors' appointment and remuneration including criteria for determining qualifications, positive attributes, independence of a director and other matters provided u/s 178(3), based on the recommendations of the Nomination and Remuneration Committee. The broad parameters covered under the Policy are – Company Philosophy, Guiding Principles, Nomination of Directors, Remuneration of Directors, Nomination and Remuneration of the Key Managerial Personnel (Other than Managing/ Whole-time Directors), Key-Executives and Senior Management and the Remuneration of Other Employees.

The Company's Policy relating to appointment of Directors, payment of Managerial remuneration, Directors' qualifications, positive attributes, independence of Directors and other related matters as provided under Section 178(3) of the Companies Act, 2013 is furnished in ANNEXURE – D and forms part of this Report.

12. FORMAL ANNUAL EVALUATION

In line with the statutory requirements enshrined under the Companies Act, 2013 and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Board carried out a performance evaluation of itself, its Committees, the Chairman and each of the other Directors. As in previous year, this was carried out on the basis of framework approved by the Nomination and Remuneration Committee. The Committee had unanimously consented for an 'in-house' review built on suggestive parameters. Based on the suggestive parameters approved by the Nomination and Remuneration Committee, the following evaluations were carried out:

- ▶ Review of Board as a whole by all the Members of the Board
- ▶ Review of all Board Committees by all the Members of the Board
- ▶ Review of Individual Directors by rest of the Board Members except the Director being evaluated

13. EXTRACT OF THE ANNUAL RETURN

27. CORPORATE GOVERNANCE

Your Company upholds the standards of governance and is compliant with the Corporate Governance provisions as stipulated under SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 in both letter and spirit. The Company's core values of honesty and transparency have since its inception been followed in every line of decision making. Setting the tone at the top, your Directors cumulatively at the Board level, advocate good governance standards. Vikas EcoTech has been built on a strong foundation of good corporate governance which is now a standard for all operations across your Company.

Parameters of Statutory compliances evidencing the standards expected from a listed entity have been duly observed and a Report on Corporate Governance as well as the Certificate from Statutory Auditors confirming compliance with the requirements of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 forms part of the Annual Report.

Further, the Management Discussion and Analysis Report and CEO / CFO Certificate as prescribed under SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 are also presented in separate sections forming part of the Annual Report.

28. ENVIRONMENT, HEALTH AND SAFETY

Your Company is continuously working towards laying a strong foundation and creating a sustainable future for our organization, our people and the society as a whole. Here, Environment Health and Safety (EHS) management is a key pillar of our sustainable growth agenda. We are committed to lead and excel in all aspects of environmental stewardship, safety, health and social responsibility, always striving to provide safe and healthy work environment to our employees and efficient, safe and

environmentally responsible products to our customers. Your Company's primary focus in this regard is on product innovation, developing safe and efficient products which are environmentally friendly, i.e. energy-efficient, safer to use, using non-toxic / eco-friendly raw-materials, having long use life and those can be safely disposed and dismantled at the end of their use life. Further, we are actively working towards improving the EHS systems and practices within our operations. From environment aspect, our efforts are directed towards resource conservation and efficiency within our operations. We have initiated an energy conservation drive within our plants with the objective of monitoring our energy consumption at micro-level, benchmarking our performance and implementing solutions for continuous improvements.

29. RESEARCH & DEVELOPMENT

With the objective of enhancing in-house R&D capability, the Company is investing in world class infrastructure and test laboratories at all plant locations. The company has strong focus on in-house research & development and promotes culture for innovation. Company's CRI (Centre for Research and Innovation) team focuses on continuous and sustainable product innovations, working across the product lifecycle aspects including design, development, manufacturing and use phases. During the year, the R&D activities continued to focus on developing intelligent, eco-friendly and energy efficient products, as well as, extending the range of existing products.

30. LISTING OF SECURITIES

The shares of the Company are listed on the National Stock Exchange of India Limited (NSE) and BSE Limited (BSE). Subsequent to the notification of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (Listing Regulations) during the year, the Company has entered into "Uniform Listing Agreement" with both the Stock Exchanges where its securities are listed, namely, National Stock Exchange of India Limited and BSE Limited in order to carry out a novation of the erstwhile Listing Agreement. The listing fee for the year 2016-17 has already been paid to the credit of both the Stock Exchanges.

31. TRANSFER TO INVESTOR EDUCATION AND PROTECTION FUND

During the year under review, the Company has not transferred any amount in Investor Education and Protection Fund.

32. CONSERVATION OF ENERGY, TECHNOLOGY, ABSORPTION AND FOREIGN EXCHANGE, EARNINGS AND OUTGO

As a Percentage of revenue for F.Y. 2015-16	0.12%	-	-	0.12%
As a Percentage of net profit for F.Y. 2015-16	1.40%	-	-	1.40%

ANNEXURE D REMUNERATION POLICY

INTRODUCTION

In pursuance of the Company's policy to consider human resources as its invaluable assets, to pay equitable remuneration to all Directors, Key Managerial Personnel (KMP) and employees of the Company, to harmonize the aspirations of human resources consistent with the goals of the Company and in terms of the provisions of the Companies Act, 2013 and the Listing Agreement as amended from time to time this policy on nomination and remuneration of Directors, Key Managerial Personnel and Senior Management has been formulated by the Committee and approved by the Board of Directors.

OBJECTIVE AND PURPOSE

The objective and purpose of this policy are:

- ▶ To lay down criteria and terms and conditions with regard to identifying persons who are qualified to become Directors (Executive and Non-Executive) and persons who may be appointed in Senior Management and Key Managerial positions and to determine their remuneration.
- ▶ To carry out evaluation of the performance of Directors, as well as Key Managerial and Senior Management Personnel.
- ▶ To provide them reward linked directly to their effort, performance, dedication and achievement relating to the Company's operations.
- ▶ To retain, motivate and promote talent and to ensure long term sustainability of talented managerial persons and create competitive advantage. In the context of the aforesaid criteria the following policy has been formulated by the Nomination and Remuneration Committee and adopted by the Board of Directors at its meeting held on 14th February, 2015.

DEFINITIONS

- ▶ **Board** means Board of Directors of the Company.
- ▶ **Director** means Directors of the Company.
- ▶ **Committee** means Nomination and Remuneration Committee of the Company as constituted or reconstituted by the Board.
- ▶ **Company** means Vikas EcoTech Limited.
- ▶ **Independent Director** means a director referred to in Section 149(6) of the Companies Act, 2013.
- ▶ **Key Managerial Personnel (KMP)** means a KMP as defined under Section 203 of the Companies Act, 2013 and includes:
 - i. CEO/Managing Director/Manager;
 - ii. Whole-time Director;
 - iii. Chief Financial Officer;
 - iv. Company Secretary;
 - v. Such other officer as may be prescribed under the applicable statutory provisions/regulations.
- ▶ **Senior Management** means personnel of the Company occupying the position of Chief Executive Officer (CEO) of any unit / division or Vice President including Vice President of any unit / division of the Company General Manager including General Manager of any division or unit. Unless the context otherwise requires, words and expressions used in this policy and not defined herein but defined in the Companies Act, 2013 as may be amended from time to time shall have the meaning respectively assigned to them therein.

APPLICABILITY

This Nomination and Remuneration Policy applies to:

- ▶ All Directors (Executive and Non Executive)
- ▶ Key Managerial Personnel
- ▶ Senior Management Personnel
- ▶ Other Employees

GENERAL

This Policy is divided in three parts: Part – A covers the matters to be dealt with and recommended by the Committee to the Board, Part – B covers the appointment and nomination and Part – C covers remuneration and perquisites etc.

PART – A**MATTERS TO BE DEALT WITH, PERUSED AND RECOMMENDED TO THE BOARD BY THE NOMINATION AND REMUNERATION COMMITTEE****The Committee shall:**

- ▶ Formulate the criteria for determining qualifications, positive attributes and independence of a director. Identify persons who are qualified to become Director and persons who may be appointed in Key Managerial and Senior Management positions in accordance with the criteria laid down in this policy.
- ▶ Recommend to the Board, appointment and removal of Director, KMP and Senior Management Personnel.

PART – B**POLICY FOR APPOINTMENT AND REMOVAL OF DIRECTOR, KMP AND SENIOR MANAGEMENT****Appointment criteria and qualifications:**

- ▶ The Committee shall identify and ascertain the integrity, qualification, expertise and experience of the person for appointment as Director, KMP or at Senior Management level and recommend to the Board his / her appointment.
- ▶ A person should possess adequate qualification, expertise and experience for the position he/she is considered for appointment. The Committee has discretion to decide whether qualification, expertise and experience possessed by a person is sufficient / satisfactory for the concerned position.
- ▶ The Company shall not appoint or continue the employment of any person as Wholetime Director who has attained the age of seventy years. Provided that the term of the person holding this position may be extended beyond the age of seventy years with the approval of shareholders by passing a special resolution based on the explanatory statement annexed to the notice for such motion indicating the justification for extension of appointment beyond seventy years.

TERM / TENURE**A. Managing Director / Whole-Time Director**

The Company shall appoint or re-appoint any person as its Managing Director or Executive Director (Whole-time Director) for a term not exceeding five years at a time. No re-appointment shall be made earlier than one year before the expiry of term.

B. Independent Director

An Independent Director shall hold office for a term up to five consecutive years on the Board of the Company and will be eligible for re-appointment for another term of upto five consecutive years on passing of a special resolution by the Company and disclosure of such appointment in the Board's report.

No Independent Director shall hold office for more than two consecutive terms, but such Independent Director shall be eligible for appointment after expiry of three years of ceasing to become an Independent Director. Provided that an Independent Director shall not, during the said period of three years, be appointed in or be associated with the Company in any other capacity, either directly or indirectly.

At the time of appointment of Independent Director it should be ensured that number of Boards on which such Independent Director Serves is restricted to seven listed companies as an Independent Director and three listed companies as an Independent Director in case such person is serving as a Whole-time Director of a listed company.

EVALUATION

The Committee shall carry out evaluation of performance of every Director (including Independent Director), KMP and Senior Management Personnel at regular interval (yearly).

REMOVAL

Due to reasons for any disqualification mentioned in the Companies Act, 2013, rules made thereunder or under any other applicable Act, rules and regulations, the Committee may recommend, to the Board with reasons recorded in writing, removal of a Director, KMP or Senior Management Personnel subject to the provisions and compliance of the said Act, rules and regulations.

RETIREMENT

The Director, KMP and Senior Management Personnel shall retire as per the applicable provisions of the Companies Act, 2013 and the prevailing policy of the Company. The Board will have the discretion to retain the Director, KMP, Senior Management Personnel in the same position / remuneration or otherwise even after attaining the retirement age, for the benefit of the Company.

PART – C

POLICY RELATING TO THE REMUNERATION FOR THE WHOLE-TIME DIRECTOR, KMP AND SENIOR MANAGEMENT PERSONNEL

General:

The remuneration / compensation / commission etc. to the Whole-time Director, KMP and Senior Management Personnel will be determined by the Committee and recommended to the Board for approval. The remuneration / compensation / commission etc. shall be subject to the prior/post approval of the shareholders of the Company and Central Government, wherever required.

The remuneration and commission to be paid to the Whole-time Director shall be in accordance with the percentage / slabs / conditions laid down in the Articles of Association of the Company and as per the provisions of the Companies Act, 2013, and the rules made thereunder.

Increments to the existing remuneration / compensation structure may be recommended by the Committee to the Board which should be within the slabs approved by the Shareholders in the case of Whole-time Director.

Where any insurance is taken by the Company on behalf of its Whole-time Director, Chief Executive Officer, Chief Financial Officer, the Company Secretary and any other employees for indemnifying them against any liability, the premium paid on such insurance shall not be treated as part of the remuneration payable to any such personnel. Provided that if such person is proved to be guilty, the premium paid on such insurance shall be treated as part of the remuneration.

Remuneration to Whole-time / Executive / Managing Director, KMP and Senior Management Personnel:

Fixed Pay

The Whole-time Director / KMP and Senior Management Personnel shall be eligible for a monthly remuneration as may be approved by

the Board on the recommendation of the Committee. The breakup of the pay scale and quantum of perquisites including, employer's contribution to P.F, pension scheme, medical expenses, club fees etc. shall be decided and approved by the Board on the recommendation of the Committee and approved by the shareholders and Central Government, wherever required.

Minimum Remuneration

If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay remuneration to its Whole-time Director in accordance with the provisions of Schedule V of the Companies Act, 2013 and if it is not able to comply with such provisions, with the previous approval of the Central Government.

Provisions for excess remuneration:

If any Whole-time Director draws or receives, directly or indirectly by way of remuneration any such sums in excess of the limits prescribed under the Companies Act, 2013 or without the prior sanction of the Central Government, where required, he / she shall refund such sums to the Company and until such sum is refunded, hold it in trust for the Company. The Company shall not waive recovery of such sum refundable to it unless permitted by the Central Government.

Remuneration to Non- Executive / Independent Director:**Remuneration / Commission**

The remuneration/commission shall be fixed as per the slabs and conditions mentioned in the Articles of Association of the Company and the Companies Act, 2013 and the rules made thereunder.

Sitting Fees

The Non- Executive/Independent Director may receive remuneration by way of fees for attending meetings of Board or Committee thereof. Provided that the amount of such fees shall not exceed Rupees One Lac per meeting of the Board or Committee or such amount as may be prescribed by the Central Government from time to time.

Commission

Commission may be paid within the monetary limit approved by shareholders, subject to the limit not exceeding 1% of the profits of the Company computed as per the applicable provisions of the Companies Act, 2013.

THE ANNUAL REPORT ON CSR ACTIVITIES ANNEXURE F TO THE BOARD'S REPORT

Information as per Section 134 (3) (m) of Companies Act, 2013 read with Companies (Accounts) Rules, 2014 and forming part of the Board's Report for the year ended 31st March, 2016:

CONSERVATION OF ENERGY

Energy Conservation measures taken, Steps taken for utilizing alternate source of energy, Capital investment on energy conservation equipment:

- ▶ The Company has professionally designed & maintained Power factor Panels. These are specifically designed panels ensuring optimum use of the electricity being consumed at our factories.
- ▶ The power factor calculations on our electricity consumption calculations show that VEL is nearing perfect results in getting the best output from the electrical energy consumed in the plants.
- ▶ VEL closely monitors the throughput of all the machines to ensure that every part of the electrical energy consumed is justified with nearly nil wastage of energy.

Proper production planning also contributes positively to avoid wastage of electrical energy & optimum outputs.

WATER CONSERVATION

- ▶ Water extraction, storage, desalinization (softening hard water, filtration for further use in process) also involve a considerable consumptions of electrical energy.
- ▶ VEL plants have the rainwater harvesting systems in place which not only help conserve water but also the electrical energy involved in extraction of the volume of water thus collected.

The Company shall continue its endeavor to improve energy conservation and utilization

TECHNOLOGY ABSORPTION

1) Efforts made in technology absorption & Benefits derived:

Major initiatives are being taken to upgrade the various processes by making use of latest and better techniques. Efforts are being made to make best use of available infrastructure and at the same time importing new technology to bring out efficiency and economy. As a step towards it, the Company has procured highly sophisticated machinery for its newly set up plant at Shahjahanpur, Rajasthan, for commencing production of an additional range of Polymer Additives.

Research & Development (R&D)

- a) **Specific Areas in which R&D carried out by the Company:** During the year, the Company has inclined its efforts in the development of its production efficiency by improving its methods and technology.
- b) **Benefits derived as a result of above R&D:** Increased in market share.
- c) **Future Plan of Action/Expansions Plans:** As the relevant industry is gearing up to cater to the growing demand, Vikas EcoTech Limited, is all set to expand their business in a big way in the coming years. The company is also progressive in installation of additional line to increase the production of Polymer and Polyester Compound at its existing plant located at Shahjahanpur, Alwar, Rajasthan.

CORPORATE GOVERNANCE REPORT

SEBI vide its notification No. SEBI/LAD-NRO/GN/2015-16/013 dated 2 September 2015 notified the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (hereinafter referred as 'SEBI Listing Regulations, 2015'), which were made applicable with effect from 1st December 2015 and repealed the erstwhile listing agreement with the stock exchanges.

This Report, therefore, states the compliance status as per requirements of Companies Act, 2013 and SEBI Listing Regulations, 2015. Given below are the Company's corporate governance policies and practices for 2015-16. As will be seen, Vikas EcoTech's corporate governance practices and disclosures have gone well beyond complying with the statutory and regulatory requirements stipulated in the applicable laws, including SEBI Listing Regulations, 2015.

In terms of Regulation 34(3) read with Section C of SCHEDULE V to SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, a Report on Corporate Governance for the year ended March 31, 2016 is presented below:

1) A BRIEF STATEMENT ON THE COMPANY'S PHILOSOPHY ON CODE OF GOVERNANCE

This simple philosophy underlines our approach to Corporate Governance. So, if profit is our intention, how we achieve this profit is a part of our Corporate Governance. For us, Corporate Governance goes beyond philanthropy and compliance but actually deals with how we manage our triple bottom lines – economic, social and environmental impacts. It monitors our role as well as the quality of our relationships in key spheres of influence including the workplace, the market place, the supply chain, the community and the public policy realm. As a Company, we distinguish ourselves in the market by offering a portfolio of ecologically responsible electrical products and service that deliver powerful, sustainable and energy efficient solutions that do not compromise on capacity or security. Our eco-friendly approach is evident in our efforts to develop an alternate energy strategy so as to reduce the environmental impact of our business. We are equally committed to managing a responsible supply chain in a manner that is consistent and compliant with our high standards for environment and business practices. We recognize that there are barriers that 'constrain innovation, both in individuals and communities and we work to overcome them.' We build communities and promote the exchange of ideas through assistive technologies; participative programs and standardization that transforms the way people experience our products. Our energy efficient solutions enable people to save money and protect their capital investment while also lowering their energy usage and protecting the environment. This contributes to our CSR responsibility of sustenance of depleting environmental resources.

Corporate Governance and Ethics

As a Company we have always worked on the side of ethics and have shunned expediency in any form. We believe that if something is important enough to be done, it is important that we do it ethically. We supplement our traditionally held values of ethical behaviour and moral conduct with explicit rules and regulations that guide our efforts in financial, propriety, customer care and business excellence. We uphold the policy of "Leadership with trust" that has come to play a vital role in how our customers perceive us. This is important, given the climate of unparalleled public distrust of people in positions of power and authority in contemporary business and politics.

2) BOARD OF DIRECTORS

The Board of Directors has an optimum combination of Executive and Non-Executive Directors with one woman director and more than fifty per cent of the Board of Directors comprised of Non-Executive Directors. The Chairperson of the Board is a Non-Executive Director and more than half of the board of directors is comprised of Independent Directors. The Board meets at least four times a year and more often if Company needs merit additional oversight and guidance. During the financial year 2015-16, the time gap between any two Board Meetings did not exceed one hundred and twenty days. The Board of Directors periodically reviews compliance reports pertaining to all laws applicable to the Company. All statutory and other matters of significance including information as mentioned in Part A of Schedule II to the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 are tabled before the Board to enable it to discharge its responsibility of strategic supervision of the Company.

a) Composition of the Board and attendance record of directors for 2015-16

The policy on dealing with related party transactions is available on the website of the Company under 'Corporate Governance' in the 'Investors' section and can be accessed at <http://vikasecotech.com/investors-corporate-governance.aspx>

16) DISCLOSURE OF THE EXTENT TO WHICH THE DISCRETIONARY REQUIREMENTS AS SPECIFIED IN PART E OF SCHEDULE II HAVE BEEN ADOPTED.

a) The Board

b) Shareholder Rights: Quarterly financial statements are published in leading newspapers and uploaded on Company's website www.vikasecotech.com.

c) Modified opinion(s) in audit report: The Auditors have raised no qualification on the financial statements.

d) Separate posts of Chairperson and CEO: Presently, Shri Vikas Garg is Managing Director of the Company and Mr. Ashutosh Kumar Verma is CEO of the Company.

e) Reporting of Internal Auditor: The Company has appointed Amit Pandey & Associates as the Internal Auditors for conducting the internal audit, representatives whereof report to the CFO and has direct access to the Audit Committee.

17) DISCLOSURE OF COMPLIANCE OF REGULATION 17 TO 27 AND CLAUSES (B) TO (I) OF SUB REGULATION (2) OF REGULATION 46

The Company has complied with all the mandatory requirements specified in Regulations 17 to 27 and clauses (b) to (i) of sub-regulation (2) of Regulation 46 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

18) DECLARATION SIGNED BY THE CHIEF EXECUTIVE OFFICER STATING THAT THE MEMBERS OF BOARD OF DIRECTORS AND SENIOR MANAGEMENT PERSONNEL HAVE AFFIRMED COMPLIANCE WITH THE CODE OF CONDUCT OF BOARD OF DIRECTORS AND SENIOR MANAGEMENT.

The Company is committed to conduct its business in accordance with the applicable laws, rules and regulations and with the highest standards of business ethics. VEL's Code of Ethics is intended to provide guidance and help in recognizing and dealing with ethical issues, mechanisms to report unethical conduct, and to help foster a culture of honesty and accountability. The Board has adopted a Code of Conduct for Directors, Senior Management and other Employees of the Company. The Code is available on the website of the Company under 'Code of Conduct' in the 'Corporate Governance' section.

19) COMPLIANCE CERTIFICATE FROM EITHER THE AUDITORS OR PRACTICING COMPANY SECRETARIES REGARDING COMPLIANCE OF CONDITIONS OF CORPORATE GOVERNANCE:

The Certificate from the Statutory Auditors of the Company regarding compliance of conditions of corporate governance is annexed with the Directors' Report and forms an integral part of the Annual Report.

20) DISCLOSURES WITH RESPECT TO DEMAT SUSPENSE ACCOUNT/ UNCLAIMED SUSPENSE ACCOUNT:

The Company does not have any shares in the demat suspense account or unclaimed suspense account.

OTHER USEFUL INFORMATION FOR SHAREHOLDERS

ECS Facility:

The Company provides facility of "Electronic Clearing Service" (ECS) for payment of dividend to its shareholders. ECS facility assists in quick remittance of dividend without possible loss/delay in postal transit. Shareholders holding shares in physical form are requested to provide details of their bank account for availing ECS facility. However, if the shares are held in dematerialized form, the ECS mandate has to be communicated to the respective Depository Participant (DP). Changes, if any, in the details furnished earlier may also be communicated to the Company or DP, as the case may be.

Update E-mails for receiving notice/ documents in e-mode:

The Ministry of Corporate Affairs (MCA) has through its circulars issued in 2011, allowed service of documents by companies including Notice calling General Meeting(s), Annual Report etc. to their shareholders through electronic mode. This green initiative was taken by MCA to reduce paper consumption and contribute towards a green environment. As a responsible corporate citizen, your Company fully supports the MCA's endeavour.

In accordance of the same, your Company had proposed to send Notice calling General Meetings, Annual Report and other documents in electronic mode in future to all the shareholders on their email addresses. It was also requested to inform the Company in case the shareholders wish to receive the above documents in physical form. Accordingly, the Annual Report along with Notice will be sent to the shareholders in electronic mode at their email addresses.

The shareholders who have not registered their email addresses with the Company are requested to kindly register their e-mail addresses with the Company in the Form annexed with the Notice of Annual General Meeting enabling the Company to better service shareholder correspondence through e-mode. The shareholders have also an option to register their email addresses with their Depository through Depository Participant.

Dematerialization of Shares:

Equity Shares of the Company are under compulsory demat trading segment. Considering the advantages of scrip less trading, members are advised to consider dematerialization of their shareholding so as to avoid inconvenience involved in the physical shares such as mutilation, possibility of loss/ misplacement, delay in transit etc. and also to ensure safe and speedy transaction in securities.

Transfer / Transmission / Transposition of Shares:

The Securities and Exchange Board of India (SEBI), vide its Circular No. MRD/DoP/Cir-05/2009 dated May 20, 2009 and Circular No. MRD/DoP/SE/RTA/Cir-03/2010 dated January 7, 2010 made it mandatory that a copy of the PAN Card is to be furnished to the Company in the following cases:

- ▶ registration of physical transfer of shares;
- ▶ deletion of name of deceased shareholder(s) where shares are held jointly in the name of two or more shareholders;
- ▶ transmission of shares to the legal heirs where shares are held solely in the name of deceased shareholder; and
- ▶ transposition of shares where order of names of shareholders are to be changed in the physical shares held jointly by two or more shareholders.

CEO'S/CFO'S CERTIFICATE

We, Ashutosh Kumar Verma, Whole-time Director and CEO and Pankaj Kumar Gupta, CFO of Vikas EcoTech Limited, to the best of our knowledge and belief, certify that:

- a. We have reviewed the financial statements and the cash flow statement for the year ended 31st March, 2016 and that to the best of our knowledge and belief :
 - i. these statements do not contain any materially untrue statement or omit any material fact or contain statements, that might be misleading;
 - ii. these statements together present a true and fair view of the Company's affairs and are in compliance with existing accounting standards, applicable laws and regulations.
- b. There are, to the best of our knowledge and belief, no transactions entered into by the Company during the year which are fraudulent, illegal or violative of the Company's code of conduct.
- c. We accept responsibility for establishing and maintaining internal controls for financial reporting and that we have evaluated the effectiveness of internal control systems of the Company pertaining to financial reporting and we have disclosed, to the auditors and the Audit Committee, wherever applicable, deficiencies in the design or operation of such internal controls, if any, of which we are aware and the steps we have taken or propose to take to rectify these deficiencies.
- d. We have indicated to the auditors and the Audit Committee, wherever applicable,
 - i. significant changes in internal control over financial reporting during the year;
 - ii. significant changes in accounting policies during the year and that the same have been disclosed in the notes to the financial statements; and
 - iii. instances of significant fraud of which we have become aware and the involvement therein, if any, of the management or any employee having a significant role in the Company's internal control system over financial reporting.

AUDITOR'S CERTIFICATE

To
The Members of Vikas EcoTech Limited

We have examined the compliance of conditions of corporate governance by Vikas EcoTech Limited, for the year ended on 31st March, 2016, as stipulated in Chapter IV of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 pursuant to the Listing Agreement of the said Company with stock exchange(s).

The compliance of conditions of corporate governance is the responsibility of the management. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the provisions as specified in Chapter IV of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 pursuant to the Listing Agreement of the said Company with stock exchange(s).

We further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

INDEPENDENT AUDITOR'S REPORT

To
The Members of
Vikas Ecotech Limited.
New Delhi

Report on the Financial Statements

1. We have audited the accompanying Financial Statements of M/s Vikas Ecotech Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2016, and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended). This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act, safeguarding the assets of the Company; preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these financial statements based on our audit.
4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the Auditor's Report under the provisions of the Act and the Rules made there under.
5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting

principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2016 and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

9. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure- A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

10. As required by section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c. the financial statements dealt with by this Report are in agreement with the books of account;
 - d. in our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended);
 - e. On the basis of written representations received from the directors as on March 31, 2016 and taken on the Board of Directors, none of the directors is disqualified as on March 31, 2016, from being appointed as a director in terms of section 164(2) of the Act.
 - f. We have also audited the internal financial controls over financial reporting of the Company as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date and our report dated 23rd May 2016 as per Annexure-B expressed an unqualified opinion; and
 - g. in our opinion and to the best of our information and according to the explanations given to us, we report as under with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014:
 - i. the Company has disclosed the impact of pending litigations on its financial position in its financial statements (Refer to Note No 32)
 - ii. The Company did not have any long-term contracts including derivative contracts; as such the question of commenting on any material foreseeable losses thereon does not arise (Refer to Note No 46); and
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

Annexure –“A” to the Independent Auditor’s report of even date to the members of M/s Vikas Ecotech Limited (“the Company”) on the financial statements for the year ended March 31, 2016

Report on the matters required by the Companies (Auditor’s Report) Order, 2016, issued by the Central Government of India in term of sub-section 11 of section 143 of the Companies Act, 2013.

(i) In respect of Fixed Assets :

- a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- b) As explained to us, fixed assets, according to the practice of the Company, are physically verified by the management at reasonable intervals, in a phased verification programme, which in our opinion, is reasonable, looking to the size of the company and the nature of its business. According to the information and explanation given to us by the Management, no material discrepancies were noticed on such verification.
- c) The Title deeds of immovable properties are held in the name of the company.

(ii) In respect of Inventory :

- a) The inventory has been physically verified during the year by the management. In our opinion, the frequency of verification is reasonable.
- b) The procedures of physical verification of inventories followed by the management are reasonable and adequate in relation to the size of the Company and the nature of its business.
- c) On the basis of our examination of the records of inventory, we are of the opinion that the Company is maintaining proper records of inventory. The discrepancies noticed on verification between the physical stocks and the book records were not material.

(iii) The Company has not granted any loan, secured or unsecured to companies, firms, Limited Liability Partnerships (LLPs) or other parties covered in the register maintained under section 189 of the Act. Accordingly, clauses 3(iii) (a), 3(iii) (b) and 3(iii) (c) of the Order are not applicable to the Company.

(iv) The Company has not given any loans or made any investments or provided any guarantees and security covered under Section 185 and 186 of the Act. Accordingly, the provisions of Clause 3(iv) of the Order are not applicable.

(v) The Company has not accepted any deposits within the meaning of sections 73 to 76 of the Companies Act’ 2013 and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.

(vi) We have broadly reviewed the books of accounts maintained by the company pursuant to the Rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act’ 2013 and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained.

(vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including provident fund, Employee’s State Insurance Fund, income tax, sales tax, service tax, duty of customs, value added tax, cess and other material statutory dues have been deposited during the year by the Company with the appropriate authorities but delay in deposit of the same has been observed in some of the cases. Further it has been observed that the company has not deposited the Employees State Insurance Act’ 1948 (ESI) and Provident fund of two of its units i.e of Bawana and Sitarganj Units.

- (b) According to the information and explanations given to us, no other undisputed amounts payable in respect of provident fund, income tax, sales tax, service tax, duty of customs, value added tax, cess and other material statutory dues were in arrears as at March 31, 2016 for a period of more than six months from the date they became payable Except ESI of ₹24,699/- and PF of ₹97,316/- of Sitarganj Unit and ESI of ₹34,149/- and PF of ₹1,34,548/- of Bawana and except as stated hereunder for which appeals are pending :-

Nature of Statute	Period to which amount relates	Nature of Dues	Amount (in ₹)	Forum where dispute is pending
Income Tax Act		Income Tax demand	31,44,000/-	ITAT, Delhi
Custom Act		Custom Duty Demand	5,33,266/-	Custom Authorities, Rajasthan
VAT		Vat Demand	88,000/-	VAT Authorities, Jammu
VAT		Vat Demand	90,67,107/-	Special Commissioner department of trade and taxes, Rajasthan
Income Tax Act	Assessment Year 2012-13	Income Tax Demand	27,64,140/-	Commissioner of Income Tax Appeal – IX, Delhi
Income Tax Act	Assessment Year 2013-14	Income Tax Demand	4,02,480/-	Commissioner of Income Tax Appeal – IX, Delhi
Income Tax Act*	Assessment Year 2012-13	Income Tax Demand of Sigma Plastic Industries	38,53,030/-	Commissioner of Income Tax Appeal – XIV, Delhi
Income Tax Act*	Assessment Year 2013-14	Income Tax Demand of Sigma Plastic Industries	7,08,640/-	Commissioner of Income Tax Appeal – XIV, Delhi
Excise *		Excise Duty Refund (Sigma Plastic Industries)	31,24,983/-	CESTET (Delhi)
Excise		Excise Duty Refund	4,09,226/-	CESTET (DELHI)

Note :- The Company Vikas Ecotech Limited acquired 100% share in Sigma Plastic Industries, and merged the same in the Vikas Ecotech Limited in FY. 2014-15, by virtue of this, pending litigation of Sigma Plastic Industries is also become part of pending litigation of Vikas Ecotech Limited

- (c) According to the information and explanations given to us, there has not been an occasion in case of the Company during the year under report to transfer any sums to the Investor Education and Protection Fund. The question of reporting delay in transferring such sums does not arise.

- (viii) Based on our audit procedures and on the information and explanations given by the management, we are of the opinion that the company has not defaulted in repayment of loans or borrowings to any financial institution or a bank or any dues to debenture-holders during the year.
- (ix) As per information & explanations given by the Company, monies raised by way of Initial Public Offer or further public offer (including debt instruments) and Term Loan have been applied for the purpose for which they were raised.
- (x) No fraud by the Company or on the Company by its officers or employees has been noticed or reported during the period covered by the audit.
- (xi) As per information & explanations given to us, the Company has paid or provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Companies Act, 2013
- (xii) In our opinion, the Company is not a Nidhi Company. Accordingly, the provisions of clause 3(xii) of the Order are not applicable.

- (xiii) In our opinion and according to information and explanations given to us, all transactions with the related parties are in compliance with sections 177 and 188 of the Act where applicable and the requisite details have been disclosed in the financial statements as required by the applicable accounting standards.
- (xiv) During the year, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures. Accordingly, the provisions of clause 3(xiv) of the order are not applicable.
- (xv) During the year, the Company has not entered into any non-cash transactions with directors or persons connected with them. Accordingly, the provisions of clause 3(xv) of the Order are not applicable.
- (xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

**Annexure “B” To The Independent Auditor’s Report Of Even Date To The Member of M/s Vikas Ecotech Limited On
The Standalone Financial Statements for the year ended 31st March 2016**

**Independent Auditor’s Report on the Internal Financial Controls under section 143(3)(i) of the Companies Act, 2013
 (“the Act”)**

1. In conjunction with our audit of the standalone financial statements of M/s VIKAS ECOTECH LIMITED (“the Company”) as of and for the year ended March 31, 2016, we have audited the Internal Financial Controls over Financial Reporting (IFCoFR) of the Company as of that date.

Management’s Responsibility for Internal Financial Controls

2. The Company’s Board of Director is responsible for establishing and maintaining internal financial controls based on the Internal Control over Financial Reporting (IFCoFR) criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (IFCoFR) (“the Guidance note”) issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company’s business, including adherence to Company’s policies, safeguarding of its assets, prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

3. Our responsibility is to express an opinion on the Company’s Internal Financial Controls over Financial Reporting (IFCoFR) based on our audit. We conducted our audit in accordance with the Standards on Auditing, Issue by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of Internal Financial Controls over Financial Reporting (IFCoFR), and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate Internal Financial Controls over Financial Reporting (IFCoFR) were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal Financial Controls over Financial Reporting (IFCoFR) and their operating effectiveness. Our audit of Internal Financial Controls over Financial Reporting (IFCoFR) included obtaining an understanding of Internal Financial Controls over Financial Reporting (IFCoFR), assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s Internal Financial Controls over Financial Reporting (IFCoFR).

Meaning of Internal Financial Controls over Financial Reporting

6. A company’s Internal Financial Control over Financial Reporting (IFCoFR) is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s Internal Financial Control over Financial Reporting (IFCoFR) includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the

transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of Internal Financial Controls over Financial Reporting (IFCoFR), including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the Internal Financial Controls over Financial Reporting (IFCoFR) to future periods are subject to the risk that the Internal Financial Control over Financial Reporting (IFCoFR) may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the company has, in all material respects, adequate Internal Financial Control over Financial Reporting (IFCoFR) and such (IFCoFR) were operating effectively as of 31 March 2016, base on the Internal Financial Control over Financial Reporting (IFCoFR) criteria established by the Company considering the essential components of internal control stated in the guidance note issued by the ICAI.

NOTE 1:**Background and Nature of Operations**

Vikas Ecotech Limited (VEL) (Formally known as Vikas Globalone Limited) is a Delhi based professionally managed Company incorporated on November 30, 1984 under the Companies Act, 1956, having its registered office at Vikas Apartments, 34/1, East Punjabi Bagh, New Delhi-110026 and is actively engaged in the business of Manufacturing and Distribution of Specialty Polymers Compounds and Additives. The Company is listed in National Stock Exchange of India (NSE) and Bombay Stock Exchange (BSE).

The Company is engaged in the business of manufacturing and distribution of high end products used in Agricultural Pipes, Auto Parts, Wires and Cables, Artificial Leather, Footwear, Organic Chemicals, Polymers, Pharmaceuticals and Packaging industries while alongside acting as distributor of global conglomerates with niche in specialty chemicals and polymers.

Manufacturing plants of the Company are spread in various geographical locations across India, in the state of J&K and Rajasthan. This has been done keeping in mind the Strategic and Location advantages with regard to availability of raw material, tax incentives, subsidy grants as well as market potential for finished goods. These industrial units have speedy connectivity to Road, Rail and Air transport. The Company has built the plants with the best of the machineries and technical knowhow available from the world's leading suppliers. The manufactured products of the Company have been well received in the market and have further scope of greater development with increased production capacities. The products manufactured by the Company are environmental friendly.

Summary of Significant Accounting Policies

The significant accounting policies adopted by the Company, in respect of the financial statements are set out below.

Basis of Presentation: These financial statements have been prepared in accordance with the generally accepted accounting principles in India under the historical cost convention on accrual basis. These financial statements have been prepared to comply in all material aspects with the accounting standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 & other relevant provisions of the Companies Act, 2013 & guidelines issued by the SEBI. The accountings policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard require a change in the accounting policy hitherto in use.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting year end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Hence, the differences between the actual results and estimates are recognized in the year in which the results are known/materialized.

Inventories:

- i) Raw Material/Trading is valued at lower of cost OR net realizable value.
- ii) Finished products are valued at lower of cost OR net realizable value. Cost being the weighted average material cost & includes cost of conversion & other cost incurred in bringing the goods to their present location & condition. Closing balance of finished stock are accounted for on the basis of physically verified quantities.
- iii) Packing Material, stores & spares parts are valued at lower of moving weighted average cost and net realizable value.
- iv) Inventory on construction activities has been valued at cost incurred.

- v) **Obsolescence:** Obsolete, slow moving & defective inventories are identified at the time of physical verification of inventories & wherever necessary provision is made for such inventories.
- vi) Shortage/Excess of Packing Material, Stores & spares parts and finish goods arising from physical verification are charged/adjusted to consumption/production.

Prior Period Items: Significant items of Income and Expenditure which relates to prior accounting period are accounted in the statement of profit and loss under the head “prior period expenses/income” other than those occasioned by events occurring during or after the close of the year and which are treated as relatable to the current year.

Fixed Assets, Impairment: Fixed assets are stated at cost of acquisition less accumulated depreciation and impairment of losses if any. The Company capitalizes all direct costs relating to the acquisition and installation of fixed assets. Advances paid towards the acquisition of fixed assets outstanding at each balance sheet date and the cost of fixed assets not ready to use before such date are disclosed under ‘Capital Advances’.

Depreciation and Amortization:

- Depreciation on tangible asset is provided on Written Down Value Method (WDV) over the useful lives of assets estimated by the management. Depreciation on asset purchased/sold during the period is proportionately charged. Intangible assets are amortized over their respective individual estimated useful lives on Straight Line Basis, commencing from the date the asset is available to the Company for its use. The management estimates the useful lives for the fixed assets as follow:

• Building Office	60 Years
• Building Factory	30 Years
• Plant and Machinery	15 Years
• Office Equipment	5 Years
• Furniture and fixture	10 Years
• Electricity Fitting and Installation	10 Years
• Vehicles	
• Motor cycles, scooters	10 Years
• Motor cars	8 Years
• Computers	3 Years
• Lease Hold Land	Remaining useful live As per lease agreement

- Depreciation and amortization methods, useful lives and residual values are reviewed predictably including at each financial year end.

Impairment:

At each balance sheet date, the Company assesses whether there is any indication that an asset may be impaired, based on internal or external factors. If any such indication exists, the Company estimates the recoverable amount of the asset or the cash generating unit. If such recoverable amount of the asset or cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life. The reduction is treated as an impairment loss and is recognized in the Profit and Loss Account. If, at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the reassessed recoverable amount. Impairment losses previously recognized are accordingly reversed.

Investments: Investments are classified as long term or current investments. Long term investments are stated at cost and provision for diminution in their value, other than temporary, is recorded in the books of account. Current investments are stated at the lower of cost or fair value. 100% Provision has been made in case the realizable value is uncertain.

Revenue recognition: Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

- ▶ **Sale of goods:** Revenue from sale of goods is recognized when significant risks and rewards of ownership of goods are transferred to the customers. Sales are net of sales return, free quantities delivered and trade discounts.
- ▶ **Interest:** Interest income from deposits and others is recognized on accrual basis (i.e. time proportion basis).
- ▶ **Construction Contract:** The Company follows complete contract method of accounting in respect of its construction activity. Under this method, the profit on unit sold is recognized only when the work in respect of the relevant unit is completed or substantially completed which is determined on technical estimations and the underlying sale deed is executed.
- ▶ **Profit on sale of Investment:** Profit on sale of investment is recognized on the date of transaction of sale and is computed with reference to the cost of investments.
- ▶ **Other Revenue Receipts:** Other revenue receipts are recognized on accrual basis (i.e. time proportion basis).

Borrowing Costs: Borrowing costs attributable to the acquisition, construction or production of qualifying assets are capitalized as part of cost of the asset. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to revenue in the year in which they are incurred.

Earnings Per Share: Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. The Weighted average no of Equity shares outstanding during the year after adjusted for the events of bonus issue element in a right issue to equity shareholders, share split and reserve share split (consolidation of shares).

Operating Leases: Leases of assets under which all the risks and rewards of ownership are effectively retained by the lessor are classified as operating leases. Lease payments under operating leases are recognized as an expense on a straight-line basis over the lease term in accordance with Accounting Standard 19 (AS 19) - Leases as notified under the Companies (Accounting Standards) Rules, 2006, as amended.

Cash & Cash Equivalent: Cash and cash equivalents in the balance sheet comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

Cash Flow Statement: Cash Flows are reported using indirect method, whereby profit before tax is adjusted for effects of transactions of non cash nature and any deferral or accruals of any past or future cash receipts or payments. The Cash Flows from regular revenue generating, financing and investing activity of the Company segregated.

Employees' Retirement Benefits:▶ **Short Term Employee Benefits**

Short Term Employee Benefits are recognized as Expenditure in the profit and loss accounts of the year in which the related services are rendered.

▶ **Post Employment Benefits**▶ **Defined Contribution Plans**

Contribution payable by the Company to the Central Government authorities in respect of Provident fund, Family Pension fund and Employee State Insurance are defined plans. These contributions are recognized as expenses in the statement of Profit and Loss during the period in which the employee renders the related services. The Company does not have any further obligation in this respect beyond such contribution.

▶ **Defined Benefit Plans**

The Company provides for gratuity the liability with regard to gratuity plan are determine by Actuarial Valuation, performed by an independent Actuary at each balance sheet date. Gratuity are covered under the Gratuity Policy respectively, of Life Insurance Corporation of India (LIC). The Present Value of the Obligation is determined by using projected unit Credit method. Actuarial Gains and Loss arising on such valuation are recognized immediately in the profit and loss account.

Taxes on Income: Tax expense comprises of current tax and deferred tax.

Current Income Tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act 1961. Deferred income taxes are recognized for the future tax consequences attributable to timing differences between the financial statement income and taxable income for the year. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Deferred Tax Assets are recognized and carried forward only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. Unrecognized deferred tax assets of earlier periods are re-assessed and recognized to the extent that it has become reasonably certain that future taxable income will be available against which deferred tax assets can be realized.

Provisions, Contingent Liabilities and Contingent Assets: Provisions are recognized only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made. Provisions are not discounted to its present value and are determined based on management estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current management estimates. Contingent liability is disclosed for:

- i) Possible obligations which will be confirmed only by future events not wholly within the control of the Company or,
- ii) Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent Assets are not recognized in the financial statements since this may result in the recognition of income that may never be realized.

Foreign Currency Transactions:

- i) **Initial Recognition:** Foreign currency transactions are recorded in the reporting currency, by applying the exchange rate between the reporting currency and the foreign currency at the date of the transaction to the foreign currency amount.
- ii) **Conversion:** Foreign currency monetary items are converted to reporting currency using the closing rate. Non monetary items denominated in a foreign currency which are carried at historical cost are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or any other similar valuation denominated in a foreign currency is reported using the exchange rates that existed when the values were determined.
- iii) **Exchange Differences:** Exchange differences arising on the settlement of monetary items or on reporting Company's monetary items at rates different from those at which they were initially recorded, are recognized as income or expense in the year in which they arise except those arising from investments in non-integral operations.
- iv) **Forward Exchange Contract:** In case of forward Exchange contract, difference between the forward rates and the exchange rate on the date of transaction is recognized as expenses or income over the life of the contract. Exchange difference on such contract is recognized in the statement of profit and loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognized as income or expenses for the year.

Government Grants: Government grants are recognized when there is reasonable assurance that the group will comply with the condition attaching to them and grants will be received. Revenue grants are recognized in the statement of Profit and loss account. Capital grants relating to Specific Fixed Assets are reduced from gross value of respectively fixed assets and other grant are credited to capital reserve account.

Employee Stock Option Scheme: The Company account for Equity Settled Stock Options as per accounting treatment prescribed by Securities and Exchange Board of India (Share Based Employee Benefits) Regulations 2014 and the guidance note on the Employees Share-Based Payments issued by the Institute of Chartered Accountant of India using the intrinsic value method. Earlier scheme was formulated under the guidelines issued by SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines 1999.

Note No 33.

Inventory as stated in note no 15 includes real estate inventory of ₹266.17 Lacs.

Note No 34.**Segment Reporting**

The segment reporting of the Company has been prepared in accordance with Accounting Standard (AS-17) Accounting for Segment Reporting issued by The Institute of Chartered Accountant of India.

The Company has determined the following business segments as the primary segments for disclosure:

- ▶ Chemical Division
- ▶ Real Estate Division
- ▶ Agro Division
- ▶ Service Division

The geographical Segment consists of:

- ▶ Domestic (Sales to customers located in India)
- ▶ International (Sales to customers located outside India)

The above business segments have been identified and reported considering:

- ▶ The nature of the services
- ▶ The related risk and returns
- ▶ The internal financial reporting systems

Purchase directly attributable to segments is reported based on items that are individually identifiable to that segment. Common allocable costs are allocated to each segment to that common cost.

Note No 45.

In the AGM of the Company held on September 28, 2011, the members of the Company passed a resolution for introducing a Stock Compensation Plan called the Employees Stock Option Scheme, 2011 (ESOS 2011), for the benefit of employees of the Company. The resolution also accorded approval for the Board of Directors, to formulate the Scheme as per broad parameters outlined in the resolution, either directly or through a committee. Accordingly, a committee of directors called Compensation Committee was constituted. The Committee, after due deliberations and after studying the provisions of SEBI employee Stock option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 as amended from time to time, has formulated the Employees Stock Option Scheme, 2011 (ESOS 2011). The Scheme has been approved by the Stock Exchange on May 7, 2012 (NSE) and May 2, 2012 (BSE). The Compensation Committee at its meeting held on June 2, 2012 has granted Stock Option to the eligible employees and accordingly the options granted shall vest over a period of 3 years, or as may be decided by the CC, as per schedule as under.

Year from the date of Grant	Vesting of Options Granted
End of first Year	30 % of the Grant
End of Second Year	30 % of the Grant
End of third year	40 % of the Grant

There shall be a minimum period of one year between grant date and the vesting period for the first lot of vesting of granted options. The interval between the subsequent lots shall be one year.

The Employee Stock Options granted by the Company pursuant to its ESOP Scheme, 2011, lapsed on December 1, 2015. No employee opted for ESOP during the year under consideration. consequent to effect of lapse of options, the balance of ₹1,05,03,337 appearing in Employee Stock Option Reversal account has been reversed and shown as under the head, Employee Stock Option Compensation account under "Other Income", Consequent to the same, Other income has been increased and corresponding increase in profit for the year by ₹1,05,03,337.

Note No 46.

The company does not see any material foreseeable losses on any long term contracts entered by the company, therefore no provision is required in this respect. Further the Company has not entered into any foreign exchange derivative instruments during the year under consideration.
