Notes:

- 1 The Company had implemented the 1,200 MW gas based power plant at Dahej (DGEN), which started its commercial operations from November 2014. In FY 2015-16, the Company could operate the plant for intermittent periods. Thereafter, it did not operate the plant in subsequent periods but maintained it in cold standby mode for immediate start-up, as and when required.

On account of supply exceeding demand, there has been substantial reduction in the LNG prices all-over the world. The over-supply position in the world market is expected to continue as more LNG plants are being commissioned in the next 2 to 3 years to cater to long term demand, while the global demand for LNG is expected to remain subdued in the foreseeable future. With this scenario, the issues relating to gas based power plants in terms of both availability and affordability of gas are expected to be resolved to a large extent. It is also expected that the power demand in the country would improve in view of GDP growth projections and various initiatives launched by Government of India. Considering the above among other factors, the estimated value in use does not indicate any requirement for impairment provision in the carrying amount of the fixed assets of ₹ 4,646.35 Crore relating to the DGEN plant as at 31st December, 2017.

- 2 The Company mainly operates in one segment i.e. "Electricity". The Company's Cables Business, in terms of revenue, results, assets and liabilities is not a reportable segment, as per Indian Accounting Standard 108 'Operating Segment' (Ind AS 108), as it is insignificant.
- 3 The entire immovable and movable assets including current assets, both present and future, of the Company are mortgaged and hypothecated by way of first pari passu charge in favour of holders of Non Convertible Debentures of ₹ 1,095.00 Crore.
- 4 The figures for the previous periods have been regrouped / recast, wherever necessary, to make them comparable with the figures for the current periods.
- 5 The Audit Committee has reviewed the above results and the same have been subsequently approved by the Board of Directors in their respective meetings held on 7th February, 2018.

- 2 Torrent Pipavav Generation Limited ("TPGL"), a subsidiary of the Company, had paid for acquisition of land in Amreli, Gujarat for the purpose of developing a coal based power plant of 1,000+ MW. Due to non-availability of fuel linkage, the Government of Gujarat has communicated during current quarter that the said project may not be developed and accordingly, the joint venture between Torrent Power Limited and Gujarat Power Corporation Limited is intended to be dissolved. The cost of land would be reimbursed through disposal by the State Government. Since, TPGL has been following the accounting treatment of carrying the value of assets and liabilities at lower of cost or net realizable value, consistently in earlier periods, there is no impact of the above on the TPGL results for the current quarter.
- 3 The Company and its subsidiaries mainly operate in one segment i.e. "Electricity". The Company's Cables Business, in terms of revenue, results, assets and liabilities is not a reportable segment, as per Indian Accounting Standard 108 'Operating Segment' (Ind AS 108), as it is insignificant.

- 5 The figures for the previous periods have been regrouped / recast, wherever necessary, to make them comparable with the figures for the current periods.
- 6 The Audit Committee has reviewed the above results and the same have been subsequently approved by the Board of Directors in their respective meetings held on 7th February, 2018.
- 7 The Stand-alone financial results for the quarter ended 31st December, 2017 are available on Company's website at www.torrentpower.com.
