KPIT Cummins announces release of new generation diagnostics products

Munich, GERMANY - July 09, 2013 – KPIT Cummins (BSE: 532400; NSE: KPIT), a global product engineering and IT consulting partner to automotive, manufacturing and energy & utilities corporations, announces release of its new generation diagnostics products – “In2Soft Diagnostic Tools”. The enhanced version comes with features that ensure smoother and more seamless diagnostics for the OEMs.

The new products significantly reduce the time needed for typical diagnostic use-cases like creation of diagnostic data, commissioning and validation of ECU, provide flexibility across every kind of ECU project and are highly user friendly.

Commenting on the announcement Güven Kivran, Head of Diagnostics, KPIT Cummins, said, “With our commitment of being the diagnostic process partner of choice to our customers, we are releasing an enhanced three-in-one authoring, communicator and debugging tool. It offers compatibility with multiple vehicle databases, test sequences and the diagnostic database, providing customers an integrated test framework and interface. We are glad that the new products are generating huge interest among the carmakers and suppliers.”

The enhanced tools are a part of KPIT’s complete diagnostic portfolio. Besides the tools, KPIT also offers customer-specific solutions and reliable services to its customers around the world in the diagnostics space.

About KPIT Cummins

KPIT Cummins (BSE: 532400, NSE: KPIT), a global product engineering and IT Consulting partner, is focused on co-innovating domain intensive technology solutions for automotive & transportation, manufacturing and energy & utilities corporations.

KPIT’s diagnostics practice, headquartered in Germany and with development centres in Europe and APAC, caters to 60+ OEMs and Tier1s. Its state-of-the-art products offer an ideal platform to address complex customer challenges. KPIT has a rich experience in managing the entire diagnostic lifecycle including R&D/ Engineering, Production/ EOL and After-sales phases. By being a single partner for proprietary and ISO based diagnostics, KPIT helps the Automotive Ecosystem future proof diagnostics strategy. KPIT is an active member of ASAM, ISO standardization workgroups and is the recommended diagnostic partner by one of the top 3 OEMs in the world and recognized.
