technical support

Help to improve human health
by using technology

We Become What We Drink

Fact:

60% of human body is water. Brain & Heart are 73% Water, Lungs are about 83% water. Even skin and bones contain water, making it vital part of our body.

The kind of water you consume directs the quality of the life you will lead.

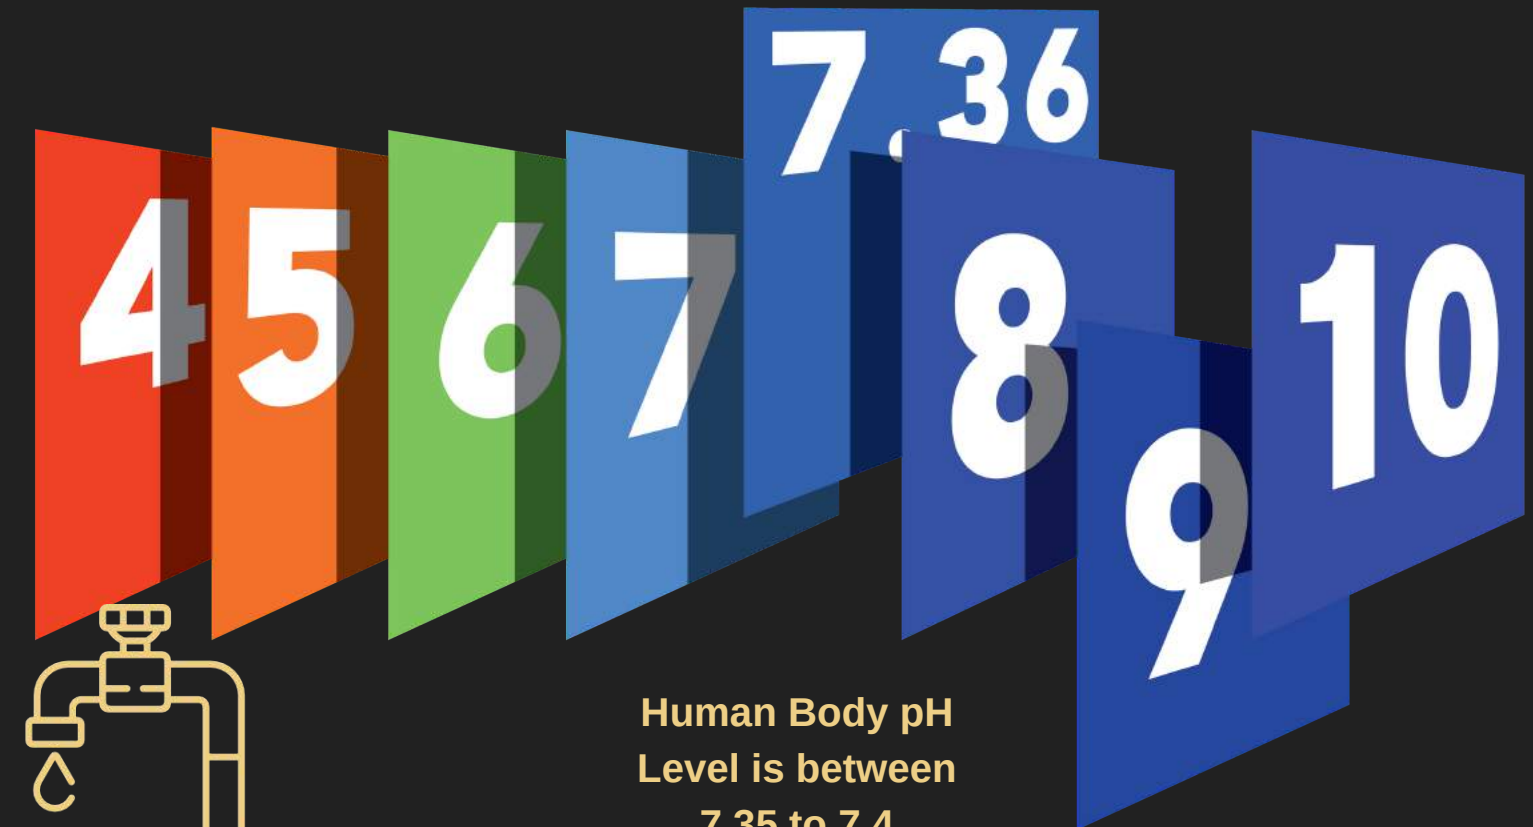

AQUATATVA

AquaTatva Water is alkaline and rich with essential minerals like calcium, potassium, magnesium and bicarbonate which are essential for the human body, as compared to regular tap water.

Acidic

Alkaline

Tap water

WHO standard for potable water is pH 8.0

Human Body pH Level is between 7.35 to 7.4

AquaTatva provides water with pH 8.5 to 10.5

What Are We Drinking?

- Most packaged water available is acidic.
- Moreover, a study by the University of New York showed **93%** of bottle water contained over **10,000 micro plastic particle per liter.**
- These compounds included **Bromates - A Group 2B Carcinogen.**

- Tap water contains hazardous and inorganic minerals like lead, chromium & fluoride.
- Chlorine is commonly used in water treatment which is dangerous for our body

AQUATATVA

What We Should Be Drinking!

- AquaTatva provides super charged ionized pH 9.5 water for drinking
- No chemicals are added in the process, making it safe and potable
- AquaTatva maintains an ORP up to -600, which gives it its strong antioxidant properties.

AQUATATVA

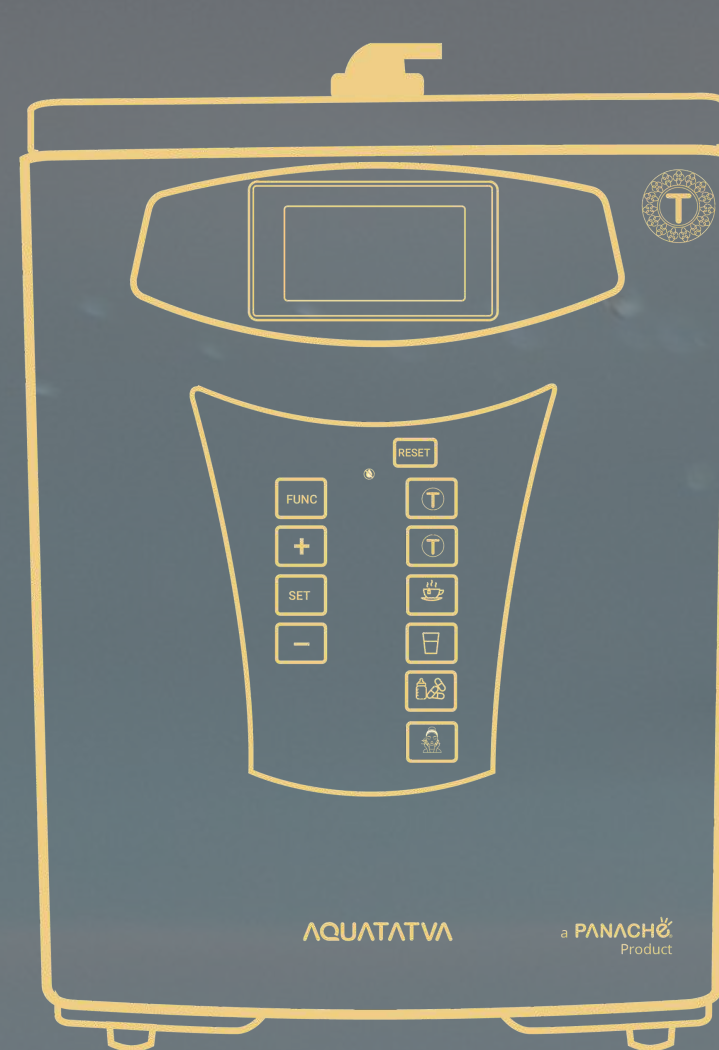

Consequences of drinking Unhealthy Water

- Low Energy and Fatigue
- Cardiovascular Disorders
- Heart Problems
- Weight Gain, obesity and diabetes
- Bladder and Kidney failure
- Accelerated Free Radical damage
- Premature aging
- Nausea, diarrhoea, vomiting
- Osteoporosis, weak brittle bones, hip fractures, bone spurs
- Headaches, insomnia and a general lack of focus

Sleek and stylish best for
designer kitchens

Our Range

AQUATATVA

AquaTatva Neer 3

- pH output : 3.5-10.5
- ORP up to -400 meV
- Alkaline levels : 4
- Acidic Levels : 2
- 3 Plate Water cell
- Flow : 1.5-2 liters/min
- Type - Counter top

AquaTatva Neer 5

- pH output : 3.5-10.5
- ORP up to -600 meV
- Alkaline levels : 4
- Acidic Levels : 2
- 5 Plate Water cell
- Flow : 2.5-3 liters/min
- Type - Counter top

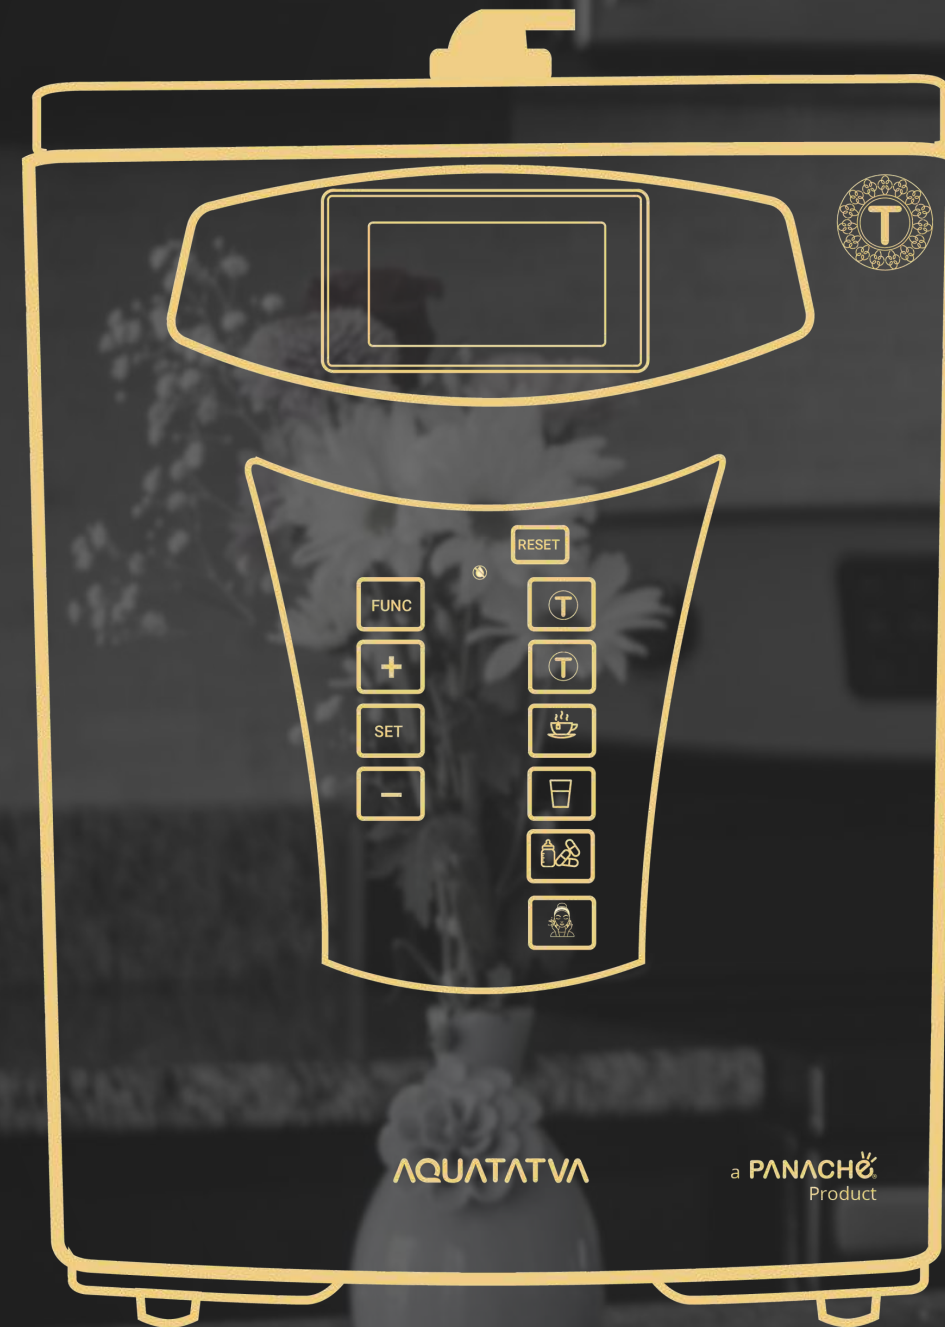

AquaTatva Ultra Slim

- pH output : 3.5-10.5
- ORP up to -600 meV
- Alkaline levels : 4
- Acidic Levels : 2
- 5 Plate Water cell
- Flow : 2.5-3 liters/min
- Type - Under sink

Key Features

AQUATATVA

Variable pH range from 3.5 to 10.5

Consistent ORP output

User friendly design

Protect Your Loved Ones

Chairman's Message

Commenting on the start of new smart water segment, Mr. Amit Rambhia, Chairman and Managing Director, Panache Digilife Limited said:

“We are extremely delighted to share that we have forayed into fast growing water purification segment with the launch of our product ‘AquaTatva’. It is a step towards our Vision of “Making Human Life Easy.” This product helps improving the quality of drinking water. The technology that is used in this product will bring in a significant change to the current water potability in India. We are confident that consumers would appreciate this technologically superior offering by Panache. We are taking a step forward to be a part of new generation of hydration and lifestyle.”
