‘Significant movement’ on Russia’s request for trial, manufacturing of Sputnik V in India

PRESS TRUST OF INDIA
New Delhi, September 8

INDIA IS CONSIDERING Russia’s request for conducting phase-3 clinical trial and manufacturing of its Covid-19 vaccine Sputnik V by Indian firms, officials said on Tuesday, noting there has been “significant movement” on both these fronts and specific outcomes are expected soon.

Dr VK Paul, member (Health) Niti Aayog, who also chairs the national expert group on Covid-19 vaccine administration, said the government attaches “great importance to this offer of partnership from a very special friend to this nation.”

He said that Indian scientists have looked at the data on Sputnik V, which is in the public domain now, and there would be a need for the phase -3 trial.

“We are paving ways for such a phase-3 trial or bridging studies, as per requirements of the regulatory system, to be facilitated by the government of India,” he told a press conference

here. The Russian government has approached the government of India through appropriate channels to consider the manufacturing of Sputnik V through Indian companies and also conducting its phase-3 clinical trials here, Paul said.

“On both the tracks there has been significant movement,” he said. Several Indian companies are currently studying the proposal, he said.

“The outreach has been extended to several companies in India and a few of them have come forward while others are in discussions with the Russian counterparts and the government is facilitating that process of how that connect can be

The Russian government has approached the government of India through appropriate channels to consider the manufacturing of Sputnik V through Indian cos

made. And there may be specific outcomes very soon in that regard,” Paul said.

It is a “win-win situation” for India and the world, he said, underlining the country’s ability to manufacture high quality vaccine in large and significant quantities.

It is good for Russia, good for India, and also excess capacities or specific part of the capacities can be offered to the rest of the world, he said.

Sputnik V has been developed by Russia’s Gamaleya Research Institute of Epidemiology and Microbiology, along with the Russian Direct Investment Fund (RDIF). The vaccine has not been tested in phase-3

or larger clinical trials.

“We are working in partnership with this vaccine candidate for manufacture for phase-3 trial as well as regulatory facilitation in the spirit of partnership and in the spirit of science for humanity,” Paul said.

As far as vaccine development in India is concerned, he said, three candidates are in different stages of clinical trials.

Currently, two indigenously developed vaccine candidates — one by Bharat Biotech in collaboration with the ICMR and the other by Zydus Cadila — have completed phase 1 of the human clinical trial and moved to phase-2.

The Pune-based Serum Institute of India, which has partnered with AstraZeneca for manufacturing the Oxford COVID-19 vaccine candidate, has also started the process of conducting Phase-2 and 3 human clinical trials of the candidate.

The SII has the capacity to produce 75 to 100 million doses per month, he said.

HC: Doctor’s prescription not a must for Covid testing in Delhi

PRESS TRUST OF INDIA
New Delhi, September 8

DOCTOR’S PRESCRIPTION is not mandatory from now for those voluntarily going for RT/PCR test to detect Covid-19 infection in the national capital, the Delhi High Court on Tuesday said, while expressing concern over the sharp and alarming increase in the number of cases.

Till now it was mandatory for a person to have a doctor’s prescription or symptoms to get tested for the virus. A bench of justices Hima Kohli and Subramonium Prasad said people need to carry Aadhaar card for Delhi address proof and fill a form as prescribed by Indian Council of Medical Research (ICMR) for Covid-19 testing. The ICMR form specifies the category of patient as per the testing guidelines. The high court noted there was a sharp increase in the number of cases in Delhi and asked private laboratories to allow 2,000 Covid-19 tests per day for those who voluntarily wish for it.

As the sanctioned strength of conducting RT/PCR test is 14,000, the remaining 12,000 testing capacity per day is available with the Delhi government, it noted. RT/PCR, short for Reverse Transcription Polymerase Chain Reaction, is a laboratory technique widely used in the diagnosis of genetic diseases and to measure gene expression in research.
