

DOF Group ASA – Two long-term AHTS contracts in Brazil

DOF Group ASA (“DOF”) is pleased to announce two new contracts in Brazil.

Skandi Fluminense, a 2007 Brazilian-built anchor handling tug supply (AHTS) vessel with 211t bollard pull, and Skandi Lifter, a foreign-flagged 250t AHTS built in 2009 have each been contracted on 4-year contracts with Petrobras, following the same competitive AHTS tender process that resulted the contracts of Skandi Logger, Skandi Iguaçu, Skandi Angra, Skandi Paraty and Skandi Urca, previously announced. Skandi Fluminense is expected to commence in January 2026 and Skandi Lifter in February 2026. Skandi Lifter will be reflagged to Brazilian flag prior to contract commencement.

AHTS vessels are specialized vessels mainly used in the offshore energy industry. Their primary functions include anchor handling, platform towing, logistical support, and emergency response.

The two contracts have a combined value of more than USD 220 million.
