

CY4GATE GROUP SIGNED THREE NEW CONTRACTS WITH FOREIGN INSTITUTIONAL CLIENTS IN THE DECISION INTELLIGENCE SEGMENT

TOTAL CONTRACT VALUE OF APPROXIMATELY € 2.3 MILLION AND A DURATION OF 1 YEAR

THE COMPANY, IN CONSOLIDATING ITS POSITION ABROAD, CONFIRMS ITS ABILITY TO OFFER HIGHLY INNOVATIVE CYBER SOLUTIONS BASED ON ENTIRELY ITALIAN TECHNOLOGY

Rome, November 09, 2023 - **CY4GATE (CY4.MI)** – a national and European player in cyber security and cyber intelligence, announces that it was awarded in the last few days, three important **decision intelligence products for foreign institutional clients.**

The overall value of the contracts acquired amounts to **€2.3 million** for a duration of 12 months.

The three projects involve the use of proprietary technology verticalised to the specific needs of customers that aims to enable end users to make the most efficient and effective use of the data they possess. Customers will thus be able to benefit from advanced decision support tools, with a significant level of automation and *information enrichment* capability through user-friendly dashboards. The systems make extensive use of artificial intelligence, integrating a package of proprietary algorithms on which Cy4Gate has been reconfirmed as a “Representative Provider” by Gartner for the year 2023.

One of the projects, in particular, envisages the implementation of a robust image recognition capability by open sources from which to derive valuable information and metadata for decision makers through the use of specific algorithms capable of operating on photos in any format. This project will enrich the company with further new technical and technological skills.

The company thus continues on its internationalisation path, confirming its ability to offer highly innovative cyber solutions based on entirely Italian technology.

Emanuele Galtieri, CEO and General Manager di Cy4Gate Group declared: *“These agreements come at the conclusion of articulated tender processes in which the value of our company's offering in an international and highly competitive context in the decision intelligence segment was recognised. We are pursuing an industrial project that makes pushed innovation its core and these new contracts are for us a confirmation of the role we are carving out for ourselves not only at national level and, therefore, a distinctive sign of Cy4Gate's growth as a global player in the cyber world”.*
